(d) *Recognition of gain in part; insufficient expenditure or investment in case of nonexempt proceeds.* If the transaction would be within the provisions of paragraph (c) of this section if it were not for the fact that the amount expended or invested is less than the fair market value of the nonexempt property received in exchange, then the gain, if any, is recognized, but in an amount not in excess of the amount by which the fair market value of such nonexempt property at the time of the transfer exceeds the amount so expended and invested.

(e) *Items treated as expenditures for the purpose of paragraphs (c) and (d) of this section.* For the purposes of paragraphs (c) and (d) of this section, the following are treated as expenditures for property other than nonexempt property:

(1) A distribution in cancellation or redemption (except a distribution having the effect of a dividend) of the whole or a part of the transferor's own stock (not acquired on the transfer);

(2) A payment in complete or partial retirement or cancellation of securities representing indebtedness of the transferor or a complete or partial retirement or cancellation of such securities which is a part of the consideration for the transfer; and

(3) If, on the transfer, a liability of the transferor is assumed, or property of the transferor is transferred subject to a liability, the amount of such liability.

(f) *Recognition of gain in part; inability to reduce basis.* If the transaction would be within the provisions of paragraph (b) or (c) of this section, if it were not for the fact that an amount of gain cannot be applied in reduction of basis under section 1082 (a) (2), then the gain, if any, is recognized, but in an amount not in excess of the amount which cannot be so applied in reduction of basis. If the transaction would be within the provisions of paragraph (d) of this section, if it were not for the fact that an amount of gain cannot be applied in reduction of basis under section 1082 (a) (2), then the gain, if any, is recognized, but in an amount not in excess of the aggregate of—

(1) The amount of gain which would be recognized under paragraph (d) of this section if there were no inability to reduce basis under section 1082 (a) (2); and

(2) The amount of gain which cannot be applied in reduction of basis under section 1082 (a) (2).

(g) *Consent to regulations under section 1082 (a) (2).* To be entitled to the benefits of the provisions of section 1081 (b), a corporation must file with its return for the taxable year in which the transfer occurs a consent to have the basis of its property adjusted under section 1082 (a) (2) (see § 1.1082–3), in accordance with the provisions of the regulations in effect at the time of filing of the return for the taxable year in which the transfer occurs. Such consent shall be made in duplicate on Form 982A in accordance with these regulations and instructions on the form or issued therewith.

(h) *Requirements with respect to expenditure or investment.* If the full amount of the expenditure or investment required for the application of paragraph (c) of this section has not been made by the close of the taxable year in which such transfer occurred, the taxpayer shall file with the return for such year

an application for the benefit of the 24-month period for expenditure and investment, reciting the nature and time of the proposed expenditure or investment. When requested by the district director of internal revenue, the taxpayer shall execute and file (at such time and in such form) such waiver of the statute of limitations with respect to the assessment of deficiencies (for the taxable year of the transfer and for all succeeding taxable years in any of which falls any part of the period beginning with the date of the transfer and ending 24 months thereafter) as the district director may specify, and such bond with such surety as the district director may require, in an amount not in excess of double the estimated maximum income tax which would be payable if the corporation does not make the required expenditure or investment within the required 24-month period.

§ 1.1081–5 *Distribution solely of stock or securities*—(a) *In general.* If, without any surrender of his stock or securities as defined in section 1083 (f), a shareholder in a corporation which is a registered holding company or a majority-owned subsidiary company receives stock or securities in such corporation or owned by such corporation, no gain to the shareholder will be recognized with respect to the stock or securities received by such shareholder which do not constitute nonexempt property, if the distribution to such shareholder is made by the distributing corporation in obedience to an order of the Securities and Exchange Commission directed to such corporation. A distribution is not within the provisions of section 1081 (c) (1) if it is within the provisions of section 1081 (d), relating to transfers within a system group. A distribution is also not within the provisions of section 1081 (c) (1) if it involves a surrender by the shareholder of stock or securities or a transfer by the shareholder of property in exchange for the stock or securities received by the shareholder. For further limitations, see section 1081 (f).

(b) *Special rule.* (1) If there is distributed to a shareholder in a corporation rights to acquire common stock in a second corporation, no gain to the shareholder from the receipt of the rights shall be recognized, but only if all the following requirements are met:

(i) The rights are received by the shareholder without the surrender by the shareholder of any stock in the distributing corporation,

(ii) Such distribution is in accordance with an arrangement forming a ground for an order of the Securities and Exchange Commission issued pursuant to section 3 of the Public Utility Holding Company Act of 1935 (15 U. S. C. 79c) that the distributing corporation is exempt from any provision or provisions of such Act, and

(iii) Before January 1, 1958, the distributing corporation disposes of all the common stock in the second corporation which it owns.

(2) The distributing corporation shall, as soon as practicable, notify the district director of internal revenue in whose district the corporation's income tax return and supporting data was filed (see § 1.1081–11 (g)), as to whether or not requirement (iii) of paragraph (b) (1) above has been met. If such requirement has not been met, the periods of limitation (sections 6501 and 6502) with respect to any deficiency, including interest and additions to the tax, resulting solely from the receipt of such rights to acquire stock, shall include one year immediately following the date of such notification; and assessment and collection shall be made notwithstanding any provisions of law or rule of law which would otherwise prevent such assessment and collection.

§ 1.1081–6 *Transfers within system group.* (a) The nonrecognition of gain or loss provided for in section 1081 (d) (1) is applicable to an exchange of property for other property (including money and other nonexempt property) between corporations which are all members of the same system group. The term "system group" is defined in section 1083 (d).

(b) Section 1081 (d) (1) also provides for nonrecognition of gain to a corporation which is a member of a system group if property (including money or other nonexempt property) is distributed to such corporation as a shareholder in a corporation which is a member of the same system group, without the surrender by such shareholder of stock or securities in the distributing corporation.

(c) As stated in § 1.1081–2, nonrecognition of gain or loss will not be accorded to a transaction not clearly provided for in sections 1081 to 1083, inclusive, even though such transaction occurs simultaneously or in connection with an exchange, sale, or distribution to which nonrecognition is specifically accorded. Therefore, nonrecognition will not be accorded to any gain or loss realized from the discharge, or the removal of the burden, of the pecuniary obligations of a member of a system group, even though such obligations are acquired upon a transfer or distribution specifically described in section 1081 (d) (1); but the fact that the acquisition of such obligations was upon a transfer or distribution specifically described in section 1081 (d) (1) will, because of the basis provisions of section 1082 (d), affect the cost to the member of such discharge or its equivalent. Thus, section 1081 (d) (1) does not provide for the nonrecognition of any gain or loss realized from the discharge of the indebtedness of a member of a system group as the result of the acquisition in exchange, sale, or distribution of its own bonds, notes, or other evidences of indebtedness which were acquired by another member of the same system group for a consideration less or more than the issuing price thereof (with proper adjustments for amortization of premiums or discounts).

(d) The provisions of paragraph (c) of this section may be illustrated by the following example:

*Example.* Suppose that the A Corporation and the B Corporation are both members of the same system group; that the A Corporation holds at a cost of $900 a bond issued by the B Corporation at par, $1,000; and that the A Corporation and the B Corporation enter into an exchange subject to the provisions of section 1081 (d) (1) in which the $1,000 bond of the B Corporation is transferred from the A Corporation to the B Corporation. The $900 basis reflecting the cost to the A Corporation which would have been the basis available to the B Corporation if the property transferred to it had been something other than its own securities (see § 1.1082–6) will, in this type of transaction, reflect the cost to the B Corporation of effecting a retirement of its own $1,000 bond. The $100 gain of the B Corporation reflected in the retirement will therefore be recognized.

(e) No exchange or distribution may be made without the recognition of gain or loss as provided for in section 1081 (d) (1), unless all the corporations which are parties to such exchange or distribution are acting in obedience to an order of the Securities and Exchange Commission. If an exchange or distribution is within the provisions of section 1081 (d) (1) and also may be considered to be within some other provisions of section 1081, it shall be considered that only the provisions of section 1081 (d) (1) apply and that the nonrecognition of gain or loss upon such exchange or distribution is by virtue of that section.

§ 1.1081–7 *Sale of stock or securities received upon exchange by members of system group.* (a) Section 1081 (d) (2) provides that to the extent that property received upon an exchange by corporations which are members of the same system group consists of stock or securities issued by the corporation from which such property was received, such stock or securities may, under certain specifically described circumstances, be sold to a party not a member of the system group, without the recognition of gain or loss to the selling corporation. The nonrecognition of gain or loss is limited, in the case of stock, to a sale of stock which is preferred as to both dividends and assets. The stock or securities must have been received upon an exchange with respect to which section 1081 (d) (1) operated to prevent recognition of gain or loss to any party to the exchange. Nonrecognition of gain or loss upon the sale of such stock or securities is permitted only if the proceeds derived from the sale are applied in retirement or cancellation of stock or securities of the selling corporation which were outstanding at the time the exchange was made. It is also essential to nonrecognition of gain or loss upon the sale that both the sale of the stock or securities and the application of the proceeds derived therefrom be made in obedience to an order of the Securities and Exchange Commission. If any part of the proceeds derived from the sale is not applied in making the required retirement or cancellation of stock or securities and if the sale is otherwise within the provisions of section 1081 (d) (2), the gain resulting from the sale shall be recognized, but in an amount not in excess of the proceeds which are not so applied. In any event, if the proceeds derived from the sale of the stock or securities exceed the fair market value of such stock or securities at the time of the exchange through which they were ac-

quired by the selling corporation, the gain resulting from the sale is to be recognized to the extent of such excess. Section 1081 (d) (2) does not provide for the nonrecognition of any gain resulting from the retirement of bonds, notes, or other evidences of indebtedness for a consideration less than the issuing price thereof. Also, that section does not provide for the nonrecognition of gain or loss upon the sale of any stock or securities received upon a distribution or otherwise than upon an exchange.

(b) The application of paragraph (a) of this section may be illustrated by the following example:

*Example.* The X Corporation and the Y Corporation, both of which make their income tax returns on a calendar year basis, are members of the same system group. As part of an exchange to which section 1081 (d) (1) is applicable the Y Corporation on June 1, 1954, issued to the X Corporation 1,000 shares of class A stock, preferred as to both dividends and assets. The fair market value of such stock at the time of issuance was $90,000 and its basis to the X Corporation was $75,000. On December 1, 1954, in obedience to an appropriate order of the Securities and Exchange Commission, the X Corporation sells all of such stock to the public for $100,000 and applies $95,000 of this amount to the retirement of its own bonds, which are outstanding on June 1, 1954. The remaining $5,000 is not used to retire any of the X Corporation's stock or securities. Of the total gain of $25,000 realized on the disposition of the Y Corporation stock, only $10,000 is recognized (the difference between the fair market value of the stock when acquired and the amount for which it was sold), since such amount is greater than the portion ($5,000) of the proceeds not applied to the retirement of the X Corporation's stock or securities. If in this example the stock acquired by the X Corporation had not been stock of the Y Corporation issued to the X Corporation or if it had been stock not preferred as to both dividends and assets, the full amount of the gain ($25,000) realized upon its disposition would have been recognized, regardless of what was done with the proceeds.

§ 1.1081–8 *Exchanges in which money or other nonexempt property is received.* (a) Under section 1081 (e) (1), if in any exchange (not within any of the provisions of section 1081 (d)) in which stock or securities in a corporation which is a registered holding company or a majority-owned subsidiary are exchanged for stock or securities as provided for in section 1081 (a), there is received by the taxpayer money or other nonexempt property (in addition to property permitted to be received without recognition of gain), then—

(1) The gain, if any, to the taxpayer is to be recognized in an amount not in excess of the sum of the money and the fair market value of the other nonexempt property, but

(2) The loss, if any, to the taxpayer from such an exchange is not to be recognized to any extent.

(b) If money or other nonexempt property is received from a corporation in an exchange described in paragraph (a) of this section and if the distribution of such money or other nonexempt property by or on behalf of such corporation has the effect of the distribution of a taxable dividend, then, as provided in section 1081 (e) (2), there shall be taxed to each distributee (1) as a dividend, such an amount of the gain recognized on the exchange as is not in excess of the distributee's ratable share of the undistributed earnings and profits of the corporation accumulated after February 28, 1913, and (2) the remainder of the gain so recognized shall be taxed as a gain from the exchange of property.

§ 1.1081–9 *Requirements with respect to order of Securities and Exchange Commission.* The term "order of the Securities and Exchange Commission" is defined in section 1083 (a). In addition to the requirements specified in that definition, section 1081 (f) provides that, except in the case of a distribution described in section 1081 (c) (2), the provisions of section 1081 shall not apply to an exchange, expenditure, investment, distribution, or sale unless each of the following requirements is met:

(a) The order of the Securities and Exchange Commission must recite that the exchange, expenditure, investment, distribution, or sale is necessary or appropriate to effectuate the provisions of section 11 (b) of the Public Utility Holding Company Act of 1935 (15 U. S. C. 79k (b)).

(b) The order shall specify and itemize the stocks and securities and other property (including money) which are ordered to be acquired, transferred, received, or sold upon such exchange, acquisition, expenditure, distribution, or sale and, in the case of an investment, the investment to be made, so as clearly to identify such property.

(c) The exchange, acquisition, expenditure, investment, distribution, or sale shall be made in obedience to such order and shall be completed within the time prescribed in such order.

These requirements were not designed merely to simplify the administration of the provisions of section 1081, and they are not to be considered as pertaining only to administrative matters. Each one of the three requirements is essential and must be met if gain or loss is not to be recognized from the transaction.

§ 1.1081–10 *Nonapplication of other provisions of the Internal Revenue Code of 1954.* The effect of section 1081 (g) is that an exchange, sale, or distribution which is within section 1081 shall, with respect to the nonrecognition of gain or loss and the determination of basis, be governed only by sections 1081 to 1083, inclusive, the purpose being to prevent overlapping of the provisions of such sections and other provisions of subtitle A. In other words, if by virtue of section 1081 any portion of a person's gain or loss on any particular exchange, sale, or distribution is not to be recognized, then the gain or loss of such person shall be nonrecognized only to the extent provided in section 1081, regardless of what the result might have been if sections 1081 to 1083, inclusive, had not been enacted; and similarly, the basis in the hands of such person of the property received by him in such transaction shall be the basis provided by section 1082, regardless of what the basis of such property might have been under section 1011 if sections 1081 to 1083, inclusive, had not been enacted. On the other hand, if section 1081 does not provide for the nonrecognition of any portion of a person's gain or loss (whether or not such person is another party to the same transaction referred to above), then the gain or loss of such person shall be recognized or nonrecognized to the extent provided for by other provisions of subtitle A as if sections 1081 to 1083, inclusive, had not been enacted; and similarly, the basis in his hands of the property received by him in such transaction shall be the basis provided by other provisions of subtitle A as if sections 1081 to 1083, inclusive, had not been enacted.

§ 1.1081–11 *Records to be kept and information to be filed with returns*—(a) *Exchanges; holders of stock or securities.* Every holder of stock or securities who receives stock or securities and other property (including money) upon an exchange shall, if the exchange is made with a corporation acting in obedience to an order of the Securities and Exchange Commission, file as a part of his income tax return for the taxable year in which the exchange takes place a complete statement of all facts pertinent to the nonrecognition of gain or loss upon such exchange, including—

(1) A clear description of the stock or securities transferred in the exchange, together with a statement of the cost or other basis of such stock or securities.

(2) The name and address of the corporation from which the stock or securities were received in the exchange.

(3) A statement of the amount of stock or securities and other property (including money) received from the exchange. The amount of each kind of stock or securities and other property received shall be set forth upon the basis of the fair market value thereof at the date of the exchange.

(b) *Exchanges; corporations subject to S. E. C. orders.* Each corporation which is a party to an exchange made in obedience to an order of the Securities and Exchange Commission directed to such corporation shall file as a part of its income tax return for its taxable year in which the exchange takes place a complete statement of all facts pertinent to the nonrecognition of gain or loss upon such exchange, including—

(1) A copy of the order of the Securities and Exchange Commission directed to such corporation, in obedience to which the exchange was made.

(2) A certified copy of the corporate resolution authorizing the exchange.

(3) A clear description of all property, including all stock or securities, transferred in the exchange, together with a complete statement of the cost or other basis of each class of property.

(4) The date of acquisition of any stock or securities transferred in the exchange, and, if any of such stock or securities were acquired by the corporation in obedience to an order of the Securities and Exchange Commission, a copy of such order.

(5) The name and address of all persons to whom any property was transferred in the exchange.

(6) If any property transferred in the exchange was transferred to another corporation, a copy of any order of the Securities and Exchange Commission directed to the other corporation, in obedience to which the exchange was made by such other corporation.

(7) If the corporation transfers any nonexempt property, the amount of the undistributed earnings and profits of the corporation accumulated after February 28, 1913, to the time of the exchange, computed in accordance with the last sentence of § 1.316–2 (b).

(8) A statement of the amount of stock or securities and other property (including money) received upon the exchange, including a statement of all distributions or other dispositions made thereof. The amount of each kind of stock or securities and other property received shall be stated on the basis of the fair market value thereof at the date of the exchange.

(9) A statement showing as to each class of its stock the number of shares and percentage owned by any other corporation, the voting rights and voting power, and the preference (if any) as to both dividends and assets.

(10) The term "exchange" shall, wherever occurring in this paragraph, be read as "exchange, expenditure, or investment".

(c) *Distributions; shareholders.* Each shareholder who receives stock or securities or other property (including money) upon a distribution made by a corporation in obedience to an order of the Securities and Exchange Commission shall file as a part of his income tax return for the taxable year in which such distribution is received a complete statement of all facts pertinent to the nonrecognition of gain upon such distribution, including—

(1) The name and address of the corporation from which the distribution is received.

(2) A statement of the amount of stock or securities or other property received upon the distribution, including (in case the shareholder is a corporation) a statement of all distributions or other disposition made of such stock or securities or other property by the shareholder. The amount of each class of stock or securities and each kind of property shall be stated on the basis of the fair market value thereof at the date of the distribution.

(3) If the shareholder is a corporation, a statement showing as to each class of its stock the number of shares and percentage owned by a registered holding company or a majority-owned subsidiary company of a registered holding company, the voting rights and voting power, and the preference (if any) as to both dividends and assets.

(d) *Distributions; distributing corporations subject to S. E. C. orders.* Every corporation making a distribution in obedience to an order of the Securities and Exchange Commission shall file as a part of its income tax return for its taxable year in which the distribution is made a complete statement of all facts pertinent to the nonrecognition of gain to the distributee upon such distribution including—

(1) A copy of the order of the Securities and Exchange Commission, in obedience to which the distribution was made.

(2) A certified copy of the corporate resolution authorizing the distribution.

(3) A statement of the amount of stock or securities or other property (including money) distributed to each shareholder. The amount of each kind of stock or securities or other property shall be stated on the basis of the fair market value thereof at the date of the distribution.

(4) The date of acquisition of the stock or securities distributed, and, if any of such stock or securities were acquired by the distributing corporation in obedience to an order of the Securities and Exchange Commission, a copy of such order.

(5) The amount of the undistributed earnings and profits of the corporation accumulated after February 28, 1913, to the time of the distribution, computed in accordance with the last sentence of § 1.316–2 (b).

(6) A statement showing as to each class of its stock the number of shares and percentage owned by any other corporation, the voting rights and voting power, and the preference (if any) as to both dividends and assets.

(e) *Sales by members of system groups.* Each corporation which is a member of a system group and which in obedience to an order of the Securities and Exchange Commission sells stock or securities received upon an exchange (made in obedience to an order of the Securities and Exchange Commission) and applies the proceeds derived therefrom in retirement or cancellation of its own stock or securities shall file as a part of its income tax return for the taxable year in which the sale is made a complete statement of all facts pertaining to the nonrecognition of gain or loss upon such sale, including—

(1) A copy of the order of the Securities and Exchange Commission in obedience to which the sale was made.

(2) A copy of the order of the Securities and Exchange Commission in obedience to which the proceeds derived from the sale were applied in whole or in part in the retirement or cancellation of its stock or securities.

(3) A certified copy of the corporate resolutions authorizing the sale of the stock or securities and the application of the proceeds derived therefrom.

(4) A clear description of the stock or securities sold, including the name and address of the corporation by which they were issued.

(5) The date of acquisition of the stock or securities sold, together with a statement of the fair market value of such stock or securities at the date of acquisition, and a copy of all orders of the Securities and Exchange Commission in obedience to which such stock or securities were acquired.

(6) The amount of the proceeds derived from such sale.

(7) The portion of the proceeds of such sale which was applied in retirement or cancellation of its stock or securities, together with a statement showing how long such stock or securities were outstanding prior to retirement or cancellation.

(8) The issuing price of its stock or securities which were retired or canceled.

(f) *Section 1081 (c) (2) distributions: shareholders.* Each shareholder who receives a distribution described in section 1081 (c) (2) (concerning rights to acquire common stock) shall file as a part of his income tax return for the taxable year in which such distribution is received a complete statement of all the facts pertinent to the nonrecognition of gain upon such distribution, including—

(1) The name and address of the corporation from which the distribution is received.

(2) A statement of the amount of the rights received upon the distribution, stated on the basis of their fair market value at the date of the distribution.

(g) *Section 1081 (c) (2) distributions; distributing corporations.* Every corporation making a distribution described in section 1081 (c) (2) (concerning rights to acquire common stock) shall file as a part of its income tax return for its taxable year in which the distribution is made a complete statement of all facts pertinent to the nonrecognition of gain to the distributees upon such distribution including—

(1) A copy of the arrangement forming the basis for the issuance of the order by the Securities and Exchange Commission.

(2) A copy of the order issued by the Securities and Exchange Commission pursuant to section 3 of the Public Utility Holding Company Act of 1935.

(3) A certified copy of the corporate resolution authorizing the arrangement and the distribution.

(4) A statement of the amount of the rights distributed to each shareholder, stated on the basis of their fair market value at the date of the distribution.

(5) The date of acquisition of the stock with respect to which such rights are distributed, and, if any were acquired by the distributing corporation in obedience to an order of the Securities and Exchange Commission, a copy of such order.

(6) The amount of the undistributed earnings and profits of the distributing corporation accumulated after February 28, 1913, to the time of the distribution, computed in accordance with the last sentence of § 1.316–2 (b).

(h) *General requirements.* Permanent records in substantial form shall be kept by every taxpayer who participates in an exchange or distribution to which sections 1081 to 1083, inclusive, are applicable, showing the cost or other basis of the property transferred and the amount of stock or securities and other property (including money) received, in order to facilitate the determination of gain or loss from a subsequent disposition of such stock or securities and other property received on the exchange or distribution.

§ 1.1082 *Statutory provisions; basis of property acquired in exchanges and distributions made in obedience to orders of the Securities and Exchange Commission.*

SEC. 1082. *Basis for determining gain or loss*—(a) *Exchanges generally*—(1) *Exchanges subject to the provisions of section*

*1081 (a) or (e).* If the property was acquired on an exchange subject to the provisions of section 1081 (a) or (e), or the corresponding provisions of prior internal revenue laws, the basis shall be the same as in the case of the property exchanged, decreased in the amount of any money received by the taxpayer, and increased in the amount of gain or decreased in the amount of loss to the taxpayer that was recognized on such exchange under the law applicable to the year in which the exchange was made. If the property so acquired consisted in part of the type of property permitted by section 1081 (a) to be received without the recognition of gain or loss, and in part of nonexempt property, the basis provided in this subsection shall be allocated between the properties (other than money) received, and for the purpose of the allocation there shall be assigned to such nonexempt property (other than money) an amount equivalent to its fair market value at the date of the exchange. This subsection shall not apply to property acquired by a corporation by the issuance of its stock or securities as the consideration in whole or in part for the transfer of the property to it.

(2) *Exchanges subject to the provisions of section 1081 (b).* The gain not recognized on a transfer by reason of section 1081 (b) or the corresponding provisions of prior internal revenue laws shall be applied to reduce the basis for determining gain or loss on sale or exchange of the following categories of property in the hands of the transferor immediately after the transfer, and property acquired within 24 months after such transfer by an expenditure or investment to which section 1081 (b) relates on account of the acquisition of which gain is not recognized under such subsection, in the following order:

(A) Property of a character subject to the allowance for depreciation under section 167;

(B) Property (not described in subparagraph (A)) with respect to which a deduction for amortization is allowable under section 168 or 169;

(C) Property with respect to which a deduction for depletion is allowable under section 611 but not allowable under section 613;

(D) Stock and securities of corporations not members of the system group of which the transferor is a member (other than stock or securities of a corporation of which the transferor is a subsidiary);

(E) Securities (other than stock) of corporations which are members of the system group of which the transferor is a member (other than securities of the transferor or of a corporation of which the transferor is a subsidiary);

(F) Stock of corporations which are members of the system group of which the transferor is a member (other than stock of the transferor or of a corporation of which the transferor is a subsidiary);

(G) All other remaining property of the transferor (other than stock or securities of the transferor or of a corporation of which the transferor is a subsidiary).

The manner and amount of the reduction to be applied to particular property within any of the categories described in subparagraphs (A) to (G), inclusive, shall be determined under regulations prescribed by the Secretary or his delegate.

(3) *Basis in case of pre-1942 acquisition.* Notwithstanding the provisions of paragraph (1) or (2), if the property was acquired in a taxable year beginning before January 1, 1942, in any manner described in section 372 of the Internal Revenue Code of 1939 before its amendment by the Revenue Act of 1942, the basis shall be that prescribed in such section (before its amendment by such Act) with respect to such property.

(b) *Transfers to corporations.* If, in connection with a transfer subject to the provisions of section 1081 (a), (b), or (e) or the corresponding provisions of prior internal revenue laws, the property was acquired by a corporation, either as paid-in surplus or as a contribution to capital, or in consideration for stock or securities issued by the corporation receiving the property (including cases where part of the consideration for the transfer of such property to the corporation consisted of property or money in addition to such stock or securities), then the basis shall be the same as it would be in the hands of the transferor, increased in the amount of gain or decreased in the amount of loss recognized to the transferor on such transfer under the law applicable to the year in which the transfer was made.

(c) *Distributions of stock or securities.* If the stock or securities were received in a distribution subject to the provisions of section 1081 (c) or the corresponding provisions of prior internal revenue laws, then the basis in the case of the stock in respect of which the distribution was made shall be apportioned, under regulations prescribed by the Secretary or his delegate, between such stock and the stock or securities distributed.

(d) *Transfers within system group.* If the property was acquired by a corporation which is a member of a system group on a transfer or distribution described in section 1081 (d) (1), then the basis shall be the same as it would be in the hands of the transferor; except that if such property is stock or securities issued by the corporation from which such stock or securities were received and they were issued—

(1) As the sole consideration for the property transferred to such corporation, then the basis of such stock or securities shall be either—

(A) The same as in the case of the property transferred therefor, or

(B) The fair market value of such stock or securities at the time of their receipt, whichever is the lower; or

(2) As part consideration for the property transferred to such corporation, then the basis of such stock or securities shall be either—

(A) An amount which bears the same ratio to the basis of the property transferred as the fair market value of such stock or securities at the time of their receipt bears to the total fair market value of the entire consideration received, or

(B) The fair market value of such stock or securities at the time of their receipt, whichever is the lower.

§ 1.1082–1 *Basis for determining gain or loss.* (a) For determining the basis of property acquired in a taxable year beginning before January 1, 1942, in any manner described in section 372 of the Internal Revenue Code of 1939 prior to its amendment by the Revenue Act of 1942, see such section (before its amendment by such Act).

(b) If the property was acquired in a taxable year beginning after December 31, 1941, in any manner described in section 1082 (other than subsection (a) (2)), or section 372 (other than subsection (a) (2)) of the Internal Revenue Code of 1939 after its amendments, the basis shall be that prescribed in section 1082 with respect to such property. However, in the case of property acquired in a transaction described in section 1081 (c) (2), this paragraph is applicable only if the property was acquired in a distribution made in a taxable year subject to the Internal Revenue Code of 1954.

(c) Section 1082 makes provisions with respect to the basis of property acquired in a transfer in connection with which the recognition of gain or loss is prohibited by the provisions of section 1081 with respect to the whole or any part of the property received. In general, and except as provided in § 1.1082–3, it is intended that the basis for determining gain or loss pertaining to the property prior to its transfer, as well as the basis for determining the amount of depreciation or depletion deductible and the amount of earnings or profits available for distribution, shall continue notwithstanding the nontaxable conversion of the asset in form or its change in ownership. The continuance of the basis may be reflected in a shift thereof from one asset to another in the hands of the same owner, or in its transfer with the property from one owner into the hands of another. See also § 1.1081–2.

§ 1.1082–2 *Basis of property acquired upon exchanges under section 1081 (a) or (e).* (a) In the case of an exchange of stock or securities for stock or securities as described in section 1081 (a), if no part of the gain or loss upon such exchange was recognized under section 1081, the basis of the property acquired is the same as the basis of the property transferred by the taxpayer with proper adjustments to the date of the exchange.

(b) If, in an exchange of stock or securities as described in section 1081 (a), gain to the taxpayer was recognized under section 1081 (c) on account of the receipt of money, the basis of the property acquired is the basis of the property transferred (adjusted to the date of the exchange), decreased by the amount of money received and increased by the amount of gain recognized upon the exchange. If, upon such exchange, there were received by the taxpayer money and other nonexempt property (not permitted to be received without the recognition of gain), and gain from the transaction was recognized under section 1081 (e), the basis (adjusted to the date of the exchange) of the property transferred by the taxpayer, decreased by the amount of money received and increased by the amount of gain recognized, must be apportioned to and is the basis of the properties (other than money) received on the exchange. For the purpose of the allocation of such basis to the properties received, there must be assigned to the nonexempt property (other than money) an amount equivalent to its fair market value at the date of the exchange.

(c) Section 1081 (e) provides that no loss may be recognized on an exchange of stock or securities for stock or securities as described in section 1081 (a), although the taxpayer receives money or other nonexempt property from the transaction. However, the basis of the property (other than money) received by the taxpayer is the basis (adjusted to the date of the exchange) of the property transferred, decreased by the amount of money received. This basis must be apportioned to the properties received, and for this purpose there must be allocated to the nonexempt property (other than money) an amount of such basis equivalent to the fair market value of such nonexempt property at the date of the exchange.

(d) Section 1082 (a) does not apply in ascertaining the basis of property acquired by a corporation by the issuance of its stock or securities as the consideration in whole or in part for the transfer of the property to it. For the rule in such cases, see section 1082 (b).

(e) For purposes of this section, any reference to section 1081 shall be deemed to include a reference to corresponding provisions of prior internal revenue laws.

§ 1.1082–3 *Reduction of basis of property by reason of gain not recognized under section 1081 (b).*—(a) *Introductory.* In addition to the adjustments provided in section 1016 and other applicable provisions of chapter 1, and the regulations relating thereto, which are required to be made with respect to the cost or other basis of property, section 1082 (a) (2) provides that a further adjustment shall be made in any case in which there shall have been a nonrecognition of gain under section 1081 (b). Such further adjustment shall be made with respect to the basis of the property in the hands of the transferor immediately after the transfer and of the property acquired within 24 months after such transfer by an expenditure or investment to which section 1081 (b) relates, and on account of which expenditure or investment gain is not recognized. If the property is in the hands of the transferor immediately after the transfer, the time of reduction is the day of the transfer; in all other cases the time of reduction is the date of acquisition. The effect of applying an amount in reduction of basis of property under section 1081 (b) is to reduce by such amount the basis for determining gain upon sale or other disposition, the basis for determining loss upon sale or other disposition, the basis for depreciation and for depletion, and any other amount which the Internal Revenue Code of 1954 prescribes shall be the same as any of such bases. For the purposes of the application of an amount in reduction of basis under section 1081 (b), property is not considered as having a basis capable of reduction if—

(1) It is money, or

(2) If its adjusted basis for determining gain at the time the reduction is to be made is zero, or becomes zero at any time in the application of section 1081 (b).

(b) *General rule.* (1) Section 1082 (a) (2) sets forth seven categories of property, the basis of which for determining gain or loss shall be reduced in the order stated.

(2) If any of the property in the first category has a basis capable of reduction, the reduction must first be made before applying an amount in reduction of the basis of any property in the second or in a succeeding category, to each of which in turn a similar rule is applied.

(3) In the application of the rule to each category, the amount of the gain not recognized shall be applied to reduce the cost or other basis of all the property in the category as follows: The cost or other basis (at the time immediately after the transfer or, if the property is not then held but is thereafter acquired, at the time of such acquisition) of each unit of property in the first category shall be decreased (but the amount of the decrease shall not be more than the amount of the adjusted basis at such time for determining gain, determined without regard to this section) in an amount equal to such proportion of the unrecognized gain as the adjusted basis (for determining gain, determined without regard to this section) at such time of each unit of property of the taxpayer in that category bears to the aggregate of the adjusted basis (for determining gain, computed without regard to this section) at such time of all the property of the taxpayer in that category. When such adjusted basis of the property in the first category has been thus reduced to zero, a similar rule shall be applied, with respect to the portion of such gain which is unabsorbed in such reduction of the basis of the property in such category, in reducing the basis of the property in the second category. A similar rule with respect to the remaining unabsorbed gain shall be applied in reducing the basis of the property in the next succeeding category.

(c) *Special cases.* (1) With the consent of the Commissioner, the taxpayer may, however, have the basis of the various units of property within a particular category specified in section 1082 (a) (2) adjusted in a manner different from the general rule set forth in paragraph (b) of this section. Variations from such general rule may, for example, involve adjusting the basis of only certain units of the taxpayer's property within a given category. A request for variations from the general rule should be filed by the taxpayer with its income tax return for the taxable year in which the transfer of property has occurred.

(2) Agreement between the taxpayer and the Commissioner as to any variations from such general rule shall be effective only if incorporated in a closing agreement entered into under the provisions of section 7121. If no such agreement is entered into by the taxpayer and the Commissioner, then the consent filed on Form 982A shall (except as otherwise provided in this subparagraph) be deemed to be a consent to the application of such general rule, and such general rule shall apply in the determination of the basis of the taxpayer's property. If, however, the taxpayer specifically states on such form that it does not consent to the application of the general rule, then, in the absence of a closing agreement, the document filed shall not be deemed a consent within the meaning of section 1081 (b) (4).

§ 1.1082–4 *Basis of property acquired by corporation under section 1081 (a), 1081 (b), or 1081 (e) as contribution of capital or surplus, or in consideration for its own stock or securities.* If, in connection with an exchange of stock or securities for stock or securities as described in section 1081 (a), or an exchange of property for property as described in section 1081 (b), or an exchange as described in section 1081 (e), property is acquired by a corporation by the issuance of its stock or securities, the basis of such property shall be determined under section 1082 (b). If the corporation issued its stock or securities as part or sole consideration for the property acquired, the basis of the property in the hands of the acquiring corporation is the basis (adjusted to the date of the exchange) which the property would have had in the hands of the transferor if the transfer had not been made, increased in the amount of gain or decreased in the amount of loss recognized under section 1081 to the transferor upon the transfer. If any property is acquired by a corporation from a shareholder as paid-in surplus, or from any person as a contribution to capital, the basis of the property to the corporation is the basis (adjusted to the date of acquisition) of the property in the hands of the transferor.

§ 1.1082–5 *Basis of property acquired by shareholder upon tax-free distribution under section 1081 (c) (1) or (2).*—(a) *Stock or securities.* If there was distributed to a shareholder in a corporation which is a registered holding company or a majority-owned subsidiary company, stock or securities (other than stock or securities which are nonexempt property), and if by virtue of section 1081 (c) (1) no gain was recognized to the shareholder upon such distribution, then the basis of the stock in respect of which the distribution was made must be apportioned between such stock and the stock or securities so distributed to the shareholder. The basis of the old shares and the stock or securities received upon the distribution shall be determined in accordance with the following rules:

(1) If the stock or securities received upon the distribution consist solely of stock in the distributing corporation and the stock received is all of substantially the same character and preference as the stock in respect of which the distribution is made, the basis of each share will be the quotient of the cost or other basis of the old shares of stock divided by the total number of the old and the new shares.

(2) If the stock or securities received upon the distribution are in whole or in part stock in a corporation other than the distributing corporation, or are in whole or in part stock of a character or preference materially different from the stock in respect of which the distribution is made, or if the distribution consists in whole or in part of securities other than stock, the cost or other basis of the stock in respect of which the distribution is made shall be apportioned between such stock and the stock or securities distributed in proportion, as nearly as may be, to the respective values of each class of stock or security, old and new, at the time of such distribution, and the basis of each share of stock or unit of security will be the quotient of the cost or other basis of the class of stock or security to which such share or unit belongs, divided by the number of shares or units in the class. Within the meaning of this subparagraph, stocks or securities in one corporation are different in class from stocks or securities in another corporation, and, in general, any material difference in character or preference or

terms sufficient to distinguish one stock or security from another stock or security, so that different values may properly be assigned thereto, will constitute a difference in class.

(b) *Stock rights.* If there was distributed to a shareholder in a corporation rights to acquire common stock in a second corporation, and if by virtue of section 1081 (c) (2) no gain was recognized to the shareholder upon such distribution, then the basis of the stock in respect of which the distribution was made must be apportioned between such stock and the stock rights so distributed to the shareholder. The basis of such stock and the stock rights received upon the distribution shall be determined in accordance with the following:

(1) The cost or other basis of the stock in respect of which the distribution is made shall be apportioned between such stock and the stock rights distributed, in proportion to the respective values thereof at the time the rights are issued.

(2) The basis for determining gain or loss from the sale of a right, or from the sale of a share of stock in respect of which the distribution is made, will be the quotient of the cost or other basis, properly adjusted, assigned to the rights or the stock, divided, as the case may be, by the number of rights acquired or by the number of shares of such stock held.

(c) *Cross reference.* As to the basis of stock or securities distributed by one member of a system group to another member of the same system group, see § 1.1082–6 below.

§ 1.1082–6 *Basis of property acquired under section 1082 (d) in transactions between corporations of the same system group.* (a) If property was acquired by a corporation which is a member of a system group, from a corporation which is a member of the same system group, upon a transfer or distribution described in section 1081 (d) (1), then as a general rule the basis of such property in the hands of the acquiring corporation is the basis which such property would have had in the hands of the transferor if the transfer or distribution had not been made. Except as otherwise indicated in this section, this rule will apply equally to cases in which the consideration for the property acquired consists of stock or securities, money, and other property, or any of them, but it is contemplated that an ultimate true reflection of income will be obtained in all cases, notwithstanding any peculiarities in form which the various transactions may assume. See the example in § 1.1081–6.

(b) An exception to the general rule is provided for in case the property acquired consists of stock or securities issued by the corporation from which such stock or securities were received. If such stock or securities were the sole consideration for the property transferred to the corporation issuing such stock or securities, then the basis of the stock or securities shall be (1) the same as the basis (adjusted to the time of the transfer) of the property transferred for such stock or securities, or (2) the fair market value of such stock or securities at the time of their receipt, whichever is the lower. If such stock or securities constituted only part consideration for the property transferred to the corporation issuing such stock or securities, then the basis shall be an amount which bears the same ratio to the basis of the property transferred as the fair market value of such stock or securities on their receipt bears to the total fair market value of the entire consideration received, except that the fair market value of such stock or securities at the time of their receipt shall be the basis therefor, if such value is lower than such amount.

(c) The application of paragraph (b) of this section may be illustrated by the following examples:

*Example (1).* Suppose the A Corporation has property with an adjusted basis of $600,000 and, in an exchange in which section 1081 (d) (1) is applicable, transfers such property to the B Corporation in exchange for a total consideration of $1,000,000, consisting of (1) cash in the amount of $100,000, (2) tangible property having a fair market value of $400,000 and an adjusted basis in the hands of the B Corporation of $300,000, and (3) stock or securities issued by the B Corporation with a par value and a fair market value as of the date of their receipt in the amount of $500,000. The basis to the B Corporation of the property received by it is $600,000, which is the adjusted basis of such property in the hands of the A Corporation. The basis to the A Corporation of the assets (other than cash) received by it is as follows: Tangible property, $300,000, the adjusted basis of such property to the B Corporation, the former owner; stock or securities issued by the B Corporation, $300,000, an amount equal to 500,000/1,000,000ths of $600,000.

*Example (2).* Suppose that in example (1) the property of the A Corporation transferred to the B Corporation had an adjusted basis of $1,100,000 instead of $600,000, and that all other factors in the example remain the same. In such case the basis to the A Corporation of the stock or securities in the B Corporation is $500,000, which was the fair market value of such stock or securities at the time of their receipt by the A Corporation, because this amount is less than the amount established as 500,000/1,000,000ths of $1,100,000 or $550,000.

§ 1.1083 *Statutory provisions; exchanges and distributions in obedience to orders of the Securities and Exchange Commission; definitions.*

SEC. 1083. *Definitions*—(a) *Order of Securities and Exchange Commission.* For purposes of this part, the term "order of the Securities and Exchange Commission" means an order issued after May 28, 1938, by the Securities and Exchange Commission which requires, authorizes, permits, or approves transactions described in such order to effectuate section 11 (b) of the Public Utility Holding Company Act of 1935 (49 Stat. 820; 15 U. S. C. 79k (b)), which has become or becomes final in accordance with law.

(b) *Registered holding company; holding company system; associate company.* For purposes of this part, the terms "registered holding company", "holding company system", and "associate company" shall have the meanings assigned to them by section 2 of the Public Utility Holding Company Act of 1935 (49 Stat. 804; 15 U. S. C. 79b (a)).

(c) *Majority-owned subsidiary company.* For purposes of this part, the term "majority-owned subsidiary company" of a registered holding company means a corporation, stock of which, representing in the aggregate more than 50 percent of the total combined voting power of all classes of stock of such corporation entitled to vote (not including stock which is entitled to vote only on default or nonpayment of dividends or other special circumstances) is owned wholly by such registered holding company, or partly by such registered holding company and partly by one or more majority-owned subsidiary companies thereof, or by one or more majority-owned subsidiary companies of such registered holding company.

(d) *System group.* For purposes of this part, the term "system group" means one or more chains of corporations connected through stock ownership with a common parent corporation if—

(1) At least 90 percent of each class of the stock (other than (A) stock which is preferred as to both dividends and assets, and (B) stock which is limited and preferred as to dividends but which is not preferred as to assets but only if the total value of such stock is less than 1 percent of the aggregate value of all classes of stock which are not preferred as to both dividends and assets) of each of the corporations (except the common parent corporation) is owned directly by one or more of the other corporations; and

(2) The common parent corporation owns directly at least 90 percent of each class of the stock (other than stock, which is preferred as to both dividends and assets) of at least one of the other corporations; and

(3) Each of the corporations is either a registered holding company or a majority-owned subsidiary company.

(e) *Nonexempt property.* For purposes of this part, the term "nonexempt property" means—

(1) Any consideration in the form of evidences of indebtedness owed by the transferor or a cancellation or assumption of debts or other liabilities of the transferor (including a continuance of encumbrances subject to which the property was transferred);

(2) Short-term obligations (including notes, drafts, bills of exchange, and bankers' acceptances) having a maturity at the time of issuance of not exceeding 24 months, exclusive of days of grace;

(3) Securities issued or guaranteed as to principal or interest by a government or subdivision thereof (including those issued by a corporation which is an instrumentality of a government or subdivision thereof);

(4) Stock or securities which were acquired from a registered holding company or an associate company of a registered holding company which acquired such stock or securities after February 28, 1938, unless such stock or securities (other than obligations described as nonexempt property in paragraph (1), (2), or (3)) were acquired in obedience to an order of the Securities and Exchange Commission or were acquired with the authorization or approval of the Securities and Exchange Commission under any section of the Public Utility Holding Company Act of 1935 (49 Stat. 820; 15 U. S. C. 79k (b));

(5) Money, and the right to receive money not evidenced by a security other than an obligation described as nonexempt property in paragraph (2) or (3).

(f) *Stock or securities.* For purposes of this part, the term "stock or securities" means shares of stock in any corporation, certificates of stock or interest in any corporation, notes, bonds, debentures, and evidences of indebtedness (including any evidence of an interest in or right to subscribe to or purchase any of the foregoing).

§ 1.1083–1 *Definitions*—(a) *Order of the Securities and Exchange Commission.* (1) An order of the Securities and Exchange Commission as defined in section 1083 (a) must be issued after May 28, 1938 (the date of the enactment of the Revenue Act of 1938), and must be issued under the authority of section 11 (b) or 11 (e) of the Public Utility Holding Company Act of 1935 (15 U. S. C. 79k (b), (e)), to effectuate the provisions of section 11 (b) of such Act. In all cases the order must become or have become final in accordance with law; i. e., it must be valid, outstanding, and not subject to further appeal. See further sections 1083 (a) and 1081 (f).

(2) Section 11 (b) of the Public Utility Holding Company Act of 1935 provides:

(b) It shall be the duty of the Commission, as soon as practicable after January 1, 1938:

(1) To require by order, after notice and opportunity for hearing, that each registered holding company, and each subsidiary company thereof, shall take such action as the Commission shall find necessary to limit the operations of the holding-company system of which such company is a part to a single integrated public-utility system, and to such other businesses as are reasonably incidental, or economically necessary or appropriate to the operations of such integrated public-utility system: *Provided, however,* That the Commission shall permit a registered holding company to continue to control one or more additional integrated public-utility systems, if, after notice and opportunity for hearing, it finds that—

(A) Each of such additional systems cannot be operated as an independent system without the loss of substantial economies which can be secured by the retention of control by such holding company of such system;

(B) All of such additional systems are located in one State, or in adjoining States, or in a contiguous foreign country; and

(C) The continued combination of such systems under the control of such holding company is not so large (considering the state of the art and the area or region affected) as to impair the advantages of localized management, efficient operation, or the effectiveness of regulation. The Commission may permit as reasonably incidental, or economically necessary or appropriate to the operations of one or more integrated public-utility systems the retention of an interest in any business (other than the business of a public-utility company as such) which the Commission shall find necessary or appropriate in the public interest or for the protection of investors or consumers and not detrimental to the proper functioning of such system or systems.

(2) To require by order, after notice and opportunity for hearing, that each registered holding company, and each subsidiary company thereof, shall take such steps as the Commission shall find necessary to ensure that the corporate structure or continued existence of any company in the holding-company system does not unduly or unnecessarily complicate the structure, or unfairly or inequitably distribute voting power among security holders, of such holding-company system. In carrying out the provisions of this paragraph the Commission shall require each registered holding company (and any company in the same holding-company system with such holding company) to take such action as the Commission shall find necessary in order that such holding company shall cease to be a holding company with respect to each of its subsidiary companies which itself has a subsidiary company which is a holding company. Except for the purpose of fairly and equitably distributing voting power among the security holders of such company, nothing in this paragraph shall authorize the Commission to require any change in the corporate structure or existence of any company which is not a holding company, or of any company whose principal business is that of a public-utility company. The Commission may by order revoke or modify any order previously made under this subsection, if, after notice and opportunity for hearing, it finds that the conditions upon which the order was predicated do not exist. Any order made under this subsection shall be subject to judicial review as provided in section 24.

(3) Section 11 (e) of the Public Utility Holding Company Act of 1935 provides:

(e) In accordance with such rules and regulations or order as the Commission may deem necessary or appropriate in the public interest or for the protection of investors or consumers, any registered holding company or any subsidiary company of a registered holding company may, at any time after January 1, 1936, submit a plan to the Commission for the divestment of control, securities, or other assets, or for other action by such company or any subsidiary company thereof for the purpose of enabling such company or any subsidiary company thereof to comply with the provisions of subsection (b). If, after notice and opportunity for hearing, the Commission shall find such plan, as submitted or as modified, necessary to effectuate the provisions of subsection (b) and fair and equitable to the persons affected by such plan, the Commission shall make an order approving such plan; and the Commission, at the request of the company, may apply to a court, in accordance with the provisions of subsection (f) of section 18, to enforce and carry out the terms and provisions of such plan. If, upon any such application, the court, after notice and opportunity for hearing, shall approve such plan as fair and equitable and as appropriate to effectuate the provisions of section 11, the court as a court of equity may, to such extent as it deems necessary for the purpose of carrying out the terms and provisions of such plan, take exclusive jurisdiction and possession of the company or companies and the assets thereof, wherever located; and the court shall have jurisdiction to appoint a trustee, and the court may constitute and appoint the Commission as sole trustee, to hold or administer, under the direction of the court and in accordance with the plan therefore approved by the court and the Commission, the assets so possessed.

(b) *Registered holding company, holding-company system, and associate company.* (1) Under section 5 of the Public Utility Holding Company Act of 1935 (15 U. S. C. 79e), any holding company may register by filing with the Securities and Exchange Commission a notification of registration, in such form as the Commission may by rules and regulations prescribe as necessary or appropriate in the public interest or for the protection of investors or consumers. A holding company shall be deemed to be registered upon receipt by the Securities and Exchange Commission of such notification of registration. As used in this part, the term "registered holding company" means a holding company whose notification of registration has been so received and whose registration is still in effect under section 5 of the Public Utility Holding Company Act of 1935. Under section 2 (a) (7) of the Public Utility Holding Company Act of 1935 (15 U. S. C. 79b (a) (7)), a corporation is a holding company (unless it is declared not to be such by the Securities and Exchange Commission), if such corporation directly or indirectly owns, controls, or holds with power to vote 10 percent or more of the outstanding voting securities of a public-utility company (i. e., an electric utility company or a gas utility company as defined by such act) or of any other holding company. A corporation is also a holding company if the Securities and Exchange Commission determines, after notice and opportunity for hearing, that such corporation directly or indirectly exercises (either alone or pursuant to an arrangement or understanding with one or more other persons) such a controlling influence over the management or policies of any public-utility company (i. e., an electric utility company or a gas utility company as defined by such act) or holding company as to make it necessary or appropriate in the public interest or for the protection of investors or consumers that such corporation be subject to the obligations, duties, and liabilities imposed upon holding companies by the Public Utility Holding Company Act of 1935 (15 U. S. C. c. 2 C). An electric utility company is defined by section 2 (a) (3) of the Public Utility Holding Company Act of 1935 (15 U. S. C. 79b (a) (3)) to mean a company which owns or operates facilities used for the generation, transmission, or distribution of electrical energy for sale, other than sale to tenants or employees of the company operating such facilities for their own use and not for resale; and a gas utility company is defined by section 2 (a) (4) of such act (15 U. S. C. 79b (a) (4)), to mean a company which owns or operates facilities used for the distribution at retail (other than distribution only in enclosed portable containers, or distribution to tenants or employees of the company operating such facilities for their own use and not for resale) of natural or manufactured gas for heat, light, or power. However, under certain conditions the Securities and Exchange Commission may declare a company not to be an electric utility company or a gas utility company, as the case may be, in which event the company shall not be considered an electric utility company or a gas utility company.

(2) The term "holding company system" has the meaning assigned to it by section 2 (a) (9) of the Public Utility Holding Company Act of 1935 (15 U. S. C. 79b (a) (9)), and hence means any holding company, together with all its subsidiary companies (i. e., subsidiary companies within the meaning of section 2 (a) (8) of such act (15 U. S. C. 79b (a) (8)), which in general include all companies 10 percent of whose outstanding voting securities is owned directly or indirectly by such holding company) and all mutual service companies of which such holding company or any subsidiary company thereof is a member company. The term "mutual service company" means a company approved as a mutual service company under section 13 of the Public Utility Holding Company Act of 1935 (15 U. S. C. 79m). The term "member company" is defined by section 2 (a) (14) of such act (15 U. S. C. 79b (a) (14)), to mean a company which is a member of an association or group of companies mutually served by a mutual service company.

(3) The term "associate company" has the meaning assigned to it by section 2 (a) (10) of the Public Utility Holding Company Act of 1935 (15 U. S. C. 79b (a) (10)), and hence an associate company of a company is any company in the same holding-company system with such company.

(c) *Majority-owned subsidiary company.* The term "majority-owned subsidiary company" is defined in section 1083 (c). Direct ownership by a registered holding company of more than 50 percent of the specified stock of another corporation is not necessary to constitute such corporation a majority-owned subsidiary company. To illustrate, if the H Corporation, a registered holding company, owns 51 percent of the common stock of the A Corporation and 31 percent of the common stock of the B Corporation, and the A Corporation owns 20 percent of the common stock of the B Corporation (the common stock in each case being the only stock entitled to vote), both the A Corporation and the B Corporation are majority-owned subsidiary companies.

(d) *System group.* The term "system group" is defined in section 1083 (d) to mean one or more chains of corporations connected through stock ownership with a common parent corporation, if at least 90 percent of each class of stock (other than (1) stock which is preferred as to both dividends and assets, and (2) stock which is limited and preferred as to dividends but which is not preferred as to assets but only if the total value of such stock is less than 1 percent of the aggregate value of all classes of stock which are not preferred as to both dividends and assets) of each of the corporations (except the common parent corporation) is owned directly by one or more of the other corporations, and if the common parent corporation owns directly at least 90 percent of each class of stock (other than stock preferred as to both dividends and assets) of at least one of the other corporations; but no corporation is a member of a system group unless it is either a registered holding company or a majority-owned subsidiary company. While the type of stock which must, for the purpose of this definition, be at least 90 percent owned may be different from the voting stock which must be more than 50 percent owned for the purpose of the definition of a majority-owned subsidiary company under section 1083 (c), as a general rule both types of ownership tests must be met under section 1083 (d), since a corporation, in order to be a member of a system group, must also be a registered holding company or a majority-owned subsidiary company.

(e) *Nonexempt property.* The term "nonexempt property" is defined by section 1083 (e) to include—

(1) The amount of any consideration in the form of a cancellation or assumption of debts or other liabilities of the transferor (including a continuance of encumbrances subject to which the property was transferred). To illustrate, if in obedience to an order of the Securities and Exchange Commission the X Corporation, a registered holding company, transfers property to the Y Corporation in exchange for property (not nonexempt property) with a fair market value of $500,000, the X Corporation receives $100,000 of nonexempt property, if for example—

(i) The Y Corporation cancels $100,000 of indebtedness owed to it by the X Corporation;

(ii) The Y Corporation assumes an indebtedness of $100,000 owed by the X Corporation to another company, the A Corporation; or

(iii) The Y Corporation takes over the property conveyed to it by the X Corporation subject to a mortgage of $100,000.

(2) Short-term obligations (including notes, drafts, bills of exchange, and bankers' acceptances) having a maturity at the time of issuance of not exceeding 24 months, exclusive of days of grace.

(3) Securities issued or guaranteed as to principal or interest by a government or subdivision thereof (including those issued by a corporation which is an instrumentality of a government or subdivision thereof).

(4) Stock or securities which were acquired from a registered holding company which acquired such stock or securities after February 28, 1938, or an associate company of a registered holding company which acquired such stock or securities after February 28, 1938, unless such stock or securities were acquired in obedience to an order of the Securities and Exchange Commission (as defined in section 1083 (a)) or were acquired with the authorization or approval of the Securities and Exchange Commission under any section of the Public Utility Holding Company Act of 1935, and are not nonexempt property within the meaning of section 1083 (e) (1), (2), or (3).

(5) Money, and the right to receive money not evidenced by a security other than an obligation described as nonexempt property in section 1083 (e) (2) or (3). The term "the right to receive money" includes, among other items, accounts receivable, claims for damages, and rights to refunds of taxes.

(f) *Stock or securities.* The term "stock or securities" is defined in section 1083 (f) for the purposes of sections 1081 to 1083, inclusive. As therein defined, the term includes voting trust certificates and stock rights or warrants.

WASH SALES OF STOCKS OR SECURITIES

§ 1.1091 *Statutory provisions; losses from wash sales of stocks or securities; basis.*

SEC. 1091. *Loss from wash sales of stock or securities.*—(a) *Disallowance of loss deduction.* In the case of any loss claimed to have been sustained from any sale or other disposition of shares of stock or securities where it appears that, within a period beginning 30 days before the date of such sale or disposition and ending 30 days after such date, the taxpayer has acquired (by purchase or by an exchange on which the entire amount of gain or loss was recognized by law), or has entered into a contract or option so to acquire, substantially identical stock or securities, then no deduction for the loss shall be allowed under section 165 (c) (2); nor shall such deduction be allowed a corporation under section 165 (a) unless it is a dealer in stocks or securities, and the loss is sustained in a transaction made in the ordinary course of its business.

(b) *Stock acquired less than stock sold.* If the amount of stock or securities acquired (or covered by the contract or option to acquire) is less than the amount of stock or securities sold or otherwise disposed of, then the particular shares of stock or securities the loss from the sale or other disposition of which is not deductible shall be determined under regulations prescribed by the Secretary or his delegate.

(c) *Stock acquired not less than stock sold.* If the amount of stock or securities acquired (or covered by the contract or option to acquire) is not less than the amount of stock or securities sold or otherwise disposed of, then the particular shares of stock or securities the acquisition of which (or the contract or option to acquire which) resulted in the nondeductibility of the loss shall be determined under regulations prescribed by the Secretary or his delegate.

(d) *Unadjusted basis in case of wash sale of stock.* If the property consists of stock or securities the acquisition of which (or the contract or option to acquire which) resulted in the nondeductibility (under this section or corresponding provisions of prior internal revenue laws) of the loss from the sale or other disposition of substantially identical stock or securities, then the basis shall be the basis of the stock or securities so sold or disposed of, increased or decreased, as the case may be, by the difference, if any, between the price at which the property was acquired and the price at which such substantially identical stock or securities were sold or otherwise disposed of.

§ 1.1091–1 *Losses from wash sales of stock or securities.* (a) A taxpayer cannot deduct any loss claimed to have been sustained from the sale or other disposition of stock or securities if, within a period beginning 30 days before the date of such sale or disposition and ending 30 days after such date (referred to in this section as the 61-day period), he has acquired (by purchase or by an exchange upon which the entire amount of gain or loss was recognized by law), or has entered into a contract or option so to acquire, substantially identical stock or securities. However, this prohibition does not apply (1) in the case of a taxpayer, not a corporation, if the sale or other disposition of stock or securities is made in connection with the taxpayer's trade or business, or (2) in the case of a corporation, a dealer in stock or securities, if the sale or other disposition of stock or securities is made in the ordinary course of its business as such dealer.

(b) Where more than one loss is claimed to have been sustained within the taxable year from the sale or other disposition of stock or securities, the provisions of this section shall be applied to the losses in the order in which the stock or securities the disposition of which resulted in the respective losses were disposed of (beginning with the earliest disposition). If the order of disposition of stock or securities disposed of at a loss on the same day cannot be determined, the stock or securities will be considered to have been disposed of in the order in which they were originally acquired (beginning with the earliest acquisition).

(c) Where the amount of stock or securities acquired within the 61-day period is less than the amount of stock or securities sold or otherwise disposed of, then the particular shares of stock or securities the loss from the sale or other disposition of which is not deductible shall be those with which the stock or securities acquired are matched in accordance with the following rule: The stock or securities acquired will be matched in accordance with the order of their acquisition (beginning with the earliest acquisition) with an equal number of the shares of stock or securities sold or otherwise disposed of.

(d) Where the amount of stock or securities acquired within the 61-day period is not less than the amount of stock or securities sold or otherwise disposed of, then the particular shares of stock or securities the acquisition of which resulted in the nondeductibility of the loss shall be those with which the stock or securities disposed of are matched in accordance with the following rule: The stock or securities sold or otherwise disposed of will be matched with an equal number of the shares of stock or securities acquired in accordance with the order of acquisition (beginning with the earliest acquisition) of the stock or securities acquired.

(e) The acquisition of any share of stock or any security which results in the nondeductibility of a loss under the provisions of this section shall be disregarded in determining the deductibility of any other loss.

(f) The word "acquired" as used in this section means acquired by purchase or by an exchange upon which the entire amount of gain or loss was recognized by law, and comprehends cases where the taxpayer has entered into a contract or option within the 61-day period to acquire by purchase or by such an exchange.

(g) The following examples illustrate the application of this section:

*Example (1).* A, whose taxable year is the calendar year, on December 1, 1954, purchased 100 shares of common stock in the M Company for $10,000 and on December 15, 1954, purchased 100 additional shares for $9,000. On January 3, 1955, he sold the 100 shares purchased on December 1, 1954, for $9,000. Because of the provisions of section 1091, no loss from the sale is allowable as a deduction.

*Example (2).* A, whose taxable year is the calendar year, on September 21, 1954, purchased 100 shares of the common stock of the M Company for $5,000. On December 21, 1954, he purchased 50 shares of substantially identical stock for $2,750, and on December 27, 1954, he purchased 25 additional shares of such stock for $1,125. On January 3, 1955, he sold for $4,000 the 100 shares purchased on September 21, 1954. There is an indicated loss of $1,000 on the sale of the 100 shares. Since, within the 61-day period, A purchased 75 shares of substantially identical stock, the loss on the sale of 75 of the shares ($3,750−$3,000, or $750) is not allowable as a deduction because of the provisions of section 1091. The loss on the sale of the remaining 25 shares ($1,250−$1,000, or $250) is deductible subject to the limitations provided in sections 267 and 1211. The basis of the 50 shares purchased December 21, 1954, the acquisition of which resulted in the nondeductibility of the loss ($500) sustained on 50 of the 100 shares sold on January 3, 1955, is $2,500 (the cost of 50 of the shares sold on January 3, 1955) + $750 (the difference between the purchase price ($2,750) of the 50 shares acquired on December 21, 1954, and the selling price ($2,000) of 50 of the shares sold on January 3, 1955), or $3,250. Similarly, the basis of the 25 shares purchased on December 27, 1954, the acquisition of which resulted in the nondeductibility of the loss ($250) sustained on 25 of the shares sold on January 3, 1955, is $1,250+$125, or $1,375. See § 1.1091–2.

*Example (3).* A, whose taxable year is the calendar year, on September 15, 1954, purchased 100 shares of the stock of the M Company for $5,000. He sold these shares on February 1, 1956, for $4,000. On each of the four days from February 15, 1956, to February 18, 1956, inclusive, he purchased 50 shares of substantially identical stock for $2,000. There is an indicated loss of $1,000 from the sale of the 100 shares on February 1, 1956, but, since within the 61-day period A purchased not less than 100 shares of substantially identical stock, the loss is not deductible. The particular shares of stock the purchase of which resulted in the nondeductibility of the loss are the first 100 shares purchased within such period, that is, the 50 shares purchased on February 15, 1956, and the 50 shares purchased on February 16, 1956. In determining the period for which the 50 shares purchased on February 15, 1956, and the 50 shares purchased on February 16, 1956, were held, there is to be included the period for which the 100 shares purchased on September 15, 1954, and sold on February 1, 1956, were held.

§ 1.1091–2 *Basis of stocks or securities acquired in "wash sales".* The application of section 1091 (d) may be illustrated by the following examples:

*Example (1).* A purchased a share of common stock of the X Corporation for $100 in 1935, which he sold January 15, 1955, for $80. On February 1, 1955, he purchased a share of common stock of the same corporation for $90. No loss from the sale is recognized under section 1091. The basis of the new share is $110; that is, the basis of the old share ($100) increased by $10, the excess of the price at which the new share was acquired ($90) over the price at which the old share was sold ($80).

*Example (2).* A purchased a share of common stock of the Y Corporation for $100 in 1935, which he sold January 15, 1955, for $80. On February 1, 1955, he purchased a share of common stock of the same corporation for $70. No loss from the sale is recognized under section 1091. The basis of the new share is $90; that is, the basis of the old share ($100) decreased by $10, the excess of the price at which the old share was sold ($80) over the price at which the new share was acquired ($70).

[SEAL] RUSSELL C. HARRINGTON,
*Commissioner of Internal Revenue.*

Approved: May 28, 1956.

DAN THROOP SMITH,
*Special Assistant to the Secretary in Charge of Tax Policy.*

## TITLE 49—TRANSPORTATION

### Chapter I—Interstate Commerce Commission

**Subchapter B—Carriers by Motor Vehicle**

[Ex Parte No. MC–40]

PART 193—PARTS AND ACCESSORIES NECESSARY FOR SAFE OPERATION

QUALIFICATIONS AND MAXIMUM HOURS OF SERVICE AND EMPLOYEES OF MOTOR CARRIERS AND SAFETY OF OPERATIONS AND EQUIPMENT

At a general session of the Interstate Commerce Commission held at its office in Washington, D. C., on the 21st day of May A. D. 1956.

It appearing that pursuant to our continuing study of the Motor Carrier Safety Regulations and the effectiveness thereof, we issued a notice of proposed rule making, dated November 10, 1955 (20 F. R. 8547; 21 F. R. 39), for the purpose of imposing, at the earliest practicable date, additional regulations with respect to safeguards against parts failures in motor vehicles braking systems;

It further appearing that pursuant to such notice and the invitation contained therein persons desiring to participate in the proceeding have submitted written statements containing data, views, and arguments in connection with the scope and text of a rule which the public interest requires;

And it further appearing that a full investigation of the matters and things, within the scope of our notice of November 10, 1955, having been made in accordance with section 4 of the Administrative Procedure Act (60 Stat. 237, 5 U. S. C. 1003) and full consideration having been given the revisions proposed and the data, views, and arguments of interested persons with respect thereto, and the Commission on the date hereof having made and filed a supplemental report herein setting forth the general basis and purpose of the rules adopted, which report and the report and order dated April 14, 1952, are hereby referred to and made a part hereof.

*It is ordered,* That effective June 30, 1956, §§ 193.43, 193.50, and 193.51 of the Motor Carrier Safety Regulations, Revision of 1952 (49 C. F. R. 193.43, 193.50, and 193.51) be, and they are hereby, amended by substituting the following rules in lieu of those which are now in effect:

§ 193.43 *Breakaway and emergency braking.* (a) Every full trailer, semi-trailer and pole trailer required to be equipped with brakes, except motor vehicles engaged in driveaway-towaway operations, shall be equipped with brakes of such a character as to be applied automatically and promptly upon breakaway from the towing vehicle, and means shall be provided to maintain application of the brakes on the trailer in such a case for at least 15 minutes. Air brake systems installed on towed vehicles manufactured after August 31, 1956, shall be so designed, by the use of "no-bleed-back" relay-emergency valves or equivalent devices, that the supply reservoir used to provide air for brakes shall be safeguarded against backflow of air from the reservoir through the supply line. On and after January 1, 1957, every truck or truck-tractor if used to tow a trailer equipped with brakes, shall be equipped with means for providing that in case of breakaway of such trailer, the service brakes on the towing vehicle will be sufficiently operative to stop the towing vehicle. Every truck or truck-tractor equipped with air brakes, the date of manufacture of which is subsequent to August 31, 1956, and every truck or truck-tractor equipped with air brakes on and after January 1, 1957, when used to tow another vehicle equipped with full air

brakes, in operations other than driveaway or towaway, shall in addition to the above be equipped with two means of activating the emergency features of the trailer brakes. One of these means shall operate automatically in the event of reduction of the towing vehicle air supply to a fixed pressure which shall be not lower than 20 pounds per square inch nor higher than 45 pounds per square inch. The other means shall be a manually controlled device readily operable by a person seated in the driving seat, and its emergency position or method of operation shall be clearly indicated. In no instance may the manual means be so arranged as to permit its use to prevent operation of the automatic means. The automatic and manual means of application required by this section may be, but are not required to be, separate.

(b) Every truck-tractor and truck used for towing other vehicles equipped with vacuum brakes, in operations other than driveaway and towaway on and after January 1, 1957, shall have, in addition to the single controlled by § 193.49 to operate all brakes of the combination, a second control device independent of brake air, hydraulic, or other pressure and independent of other controls, which can be used to operate the brakes on the towed vehicles in emergencies. Such second control is not required by this rule to provide modulated or graduated braking.

§ 193.50 *Reservoirs required.* Every bus, truck, and truck-tractor, the date of manufacture of which is subsequent to June 30, 1953, and which is equipped with an air or vacuum brake system, shall be equipped with reserve capacity or a reservoir sufficient to insure a brake application capable of stopping the vehicle within the stopping distance requirements of § 193.52 in the event the engine stops. No such reserve capacity or reservoir shall be required on single vehicles if the braking system is so designed and installed as to provide for application of the service brakes through hydraulic or mechanical means in event of failure of the air or vacuum system or the source of supply of such systems. In addition, every truck-tractor and every truck used for towing other vehicles shall when equipped with air or vacuum reservoirs as required by this section, and regardless of date of manufacture, have such air or vacuum reservoirs so safeguarded by a check valve or equivalent device that in the event of failure or leakage in its connection to the source of compressed air or vacuum the air or vacuum supply in the reservoir shall not be depleted by the leak or failure.

§ 193.51 *Warning devices.* Every bus, truck, and truck-tractor equipped with an air brake system, and on and after January 1, 1957, every truck-tractor and every truck used for towing a vehicle required to have brakes, if the brakes are vacuum-operated, shall be provided with either an audible or visible warning signal to indicate readily to the driver any loss or lack of air or vacuum sufficient to prevent the vehicle from being stopped. A gage indicating pressure or vacuum shall not be deemed to be an adequate means of satisfying this requirement.

Notice of this order shall be given to the general public by depositing a copy thereof in the office of the Secretary of the Commission, Washington, D. C., and by filing a copy thereof with the Director, Division of the Federal Register.

(49 Stat. 546, as amended; 49 U. S. C. 304)

By the Commission.

[SEAL] HAROLD D. McCOY, *Secretary.*

[F. R. Doc. 56-4320; Filed, June 1, 1956; 8:48 a. m.]

## TITLE 43—PUBLIC LANDS: INTERIOR

### Chapter I—Bureau of Land Management, Department of the Interior

**Appendix—Public Land Orders**

[Public Land Order 1301]

[590299]

ALASKA

TRANSFERRING LAND RESERVED BY EXECUTIVE ORDER NO. 2347 OF MARCH 21, 1916, FROM ALASKA NATIVE SERVICE TO BUREAU OF LAND MANAGEMENT FOR PUBLIC RECREATIONAL PURPOSES

By virtue of the authority vested in the President and pursuant to Executive Order No. 10355 of May 26, 1952, it is ordered as follows:

Subject to valid existing rights, the following-described public land in Alaska, which was withdrawn by Executive Order No. 2347 of March 21, 1916, from settlement, location, entry, and all forms of disposal and reserved for use of the Alaska Native Service as a fishing site, is hereby transferred from the Alaska Native Service to the Bureau of Land Management for public recreational purposes:

SEWARD MERIDIAN

T. 16 N., R. 3 W.,
Sec. 34, NE¼NE¼.

The area described contains 40 acres.

WESLEY A. D'EWART, *Assistant Secretary of the Interior.*

MAY 28, 1956.

[F. R. Doc. 56-4315; Filed, June 1, 1956; 8:47 a. m.]

[Public Land Order 1302]

[69921]

ALASKA

EXCLUDING CERTAIN TRACTS FROM CHUGACH NATIONAL FOREST AND RESTORING THEM FOR PURCHASE AS HOMESITES

By virtue of the authority vested in the President by section 1 of the act of June 4, 1897 (30 Stat. 34, 36; 16 U. S. C. 473), and pursuant to Executive Order No. 10355 of May 26, 1952, it is ordered as follows:

The following-described tracts of public land in Alaska, occupied as homesites and identified by surveys of which plats and field notes are on file in the Bureau of Land Management, are hereby excluded from the Chugach National Forest, Alaska, as hereinafter indicated, and restored, subject to valid existing rights, for purchase as homesites under section 10 of the act of May 14, 1898, as amended by the act of May 26, 1934 (48 Stat. 809; 48 U. S. C. 461):

U. S. Survey No. 2757, lot 6, 2.25 acres; latitude 60°55'26" N., longitude 149°39'20" W. (Homesite No. 78, Porcupine Group).

U. S. Survey No. 2533, lot G, 3.84 acres; latitude 60°21'28" N., longitude 149°21'20" W. (Homesite No. 85, Lakeview Group).

U. S. Survey No. 2520, lot D, 4.37 acres; latitude 60°24'26" N., longitude 149°22' W. (Homesite No. 149, Fall Creek Group).

WESLEY A. D'EWART, *Assistant Secretary of the Interior.*

MAY 28, 1956.

[F. R. Doc. 56-4316; Filed, June 1, 1956; 8:47 a. m.]

[Public Land Order 1303]

[1023169]

IDAHO

REVOKING EXECUTIVE ORDER NO. 3684 OF MAY 25, 1922, WHICH WITHDREW LANDS FOR USE BY STATE OF IDAHO NATIONAL GUARD AS RIFLE RANGE

By virtue of the authority vested in the President by section 1 of the act of June 25, 1910 (36 Stat 847; 43 U. S. C. 141), and pursuant to Executive Order No. 10355 of May 26, 1952, it is ordered as follows:

Executive Order No. 3684 of May 25, 1922, temporarily withdrawing the unsurveyed islands belonging to the United States situated in section 7, T. 3 S., R. 35 E., Boise Meridian, for use by the State of Idaho National Guard as a rifle range, is hereby revoked.

The released lands lie approximately west of the Town of Blackfoot, Idaho, at an elevation of about 4,475 feet. Generally, the lands are typical river-bottom type with modest surface undulation due to some cutting during high-water periods. Vegetative cover is primarily of cottonwood trees, willows, briars, and some sagebrush with understory of grass. The land, which is within Idaho Grazing District No. 3, is valuable for the grazing of livestock.

No application for the restored lands may be allowed under the homestead, desert-land, small tract, or any other non-mineral public-land law unless the lands have already been classified as valuable or suitable for such type of application, or shall be so classified upon the consideration of an application. Any application that is filed will be considered on its merits. The lands will not be subject to occupancy or disposition until they have been classified.

Subject to any existing valid rights and the requirements of applicable law, the lands are hereby opened to filing of such applications, selections, and locations as are permitted on unsurveyed lands in accordance with the following:

a. Applications and selections which are permitted on unsurveyed lands under the non-mineral public-land laws and applications and offers under the mineral-leasing laws may be presented to the Manager mentioned below, beginning on the date of this order. Such applications, selections, and offers will be considered as filed on the hour and respective dates shown for the various classes enumerated in the following paragraphs:

(1) Applications by persons having preference rights conferred by existing laws or equitable claims subject to allowance and confirmation will be adjudicated on the facts presented in support of each claim or right. All applications presented by persons other than those referred to in this paragraph will be subject to the applications and claims mentioned in this paragraph.

(2) All valid applications under the Small Tract Laws by qualified veterans of World War II or of the Korean Conflict, and by others entitled to preference rights under the act of September 27, 1944 (58 Stat. 747; 43 U. S. C. 279-284 as amended), presented prior to 10:00 a. m. on July 3, 1956, will be considered as simultaneously filed at that hour. Rights under such preference right applications after that hour and before 10:00 a. m. on October 2, 1956, will be governed by the time of filing.

(3) All valid applications and selections under the non-mineral public-land laws, other than those coming under paragraphs (1) and (2) above, and applications and offers under the mineral-leasing laws, presented prior to 10:00 a. m. on October 2, 1956, will be considered as simultaneously filed at that hour. Rights under such applications and selections filed after that hour will be governed by the time of filing.

b. The lands have been open to applications and offers under the mineral-leasing laws, and to location for metalliferous minerals. They will be open to location for non-metalliferous minerals under the United States mining laws beginning at 10:00 a. m. on October 2, 1956.

Persons claiming veterans preference rights under paragraph (2) above must enclose with their application proper evidence of military or naval service, preferably a complete photostatic copy of the certificate of honorable discharge. Persons claiming preference rights based upon statutory preference or equitable claims must enclose properly corroborated statements in support of their applications, setting forth all facts relevant to their claims. Detailed rules and regulations governing applications which may be filed pursuant to this notice can be found in Title 43 of the Code of Federal Regulations.

Inquiries concerning the lands shall be addressed to the Manager, Land Office, Bureau of Land Management, Boise, Idaho.

WESLEY A. D'EWART, *Assistant Secretary of the Interior.*

MAY 28, 1956.

# PROPOSED RULE MAKING

## DEPARTMENT OF THE INTERIOR

### Fish and Wildlife Service

[ 50 CFR Part 6 ]

MIGRATORY BIRDS AND CERTAIN GAME MAMMALS

NOTICE OF PROPOSED RULE MAKING

Pursuant to section 4 (a) of the Adminstrative Procedure Act, approved June 11, 1946 (60 Stat. 237), notice is hereby given that the Director, Fish and Wildlife Service, proposes to recommend the adoption by the Secretary of the Interior, under authority contained in section 3 of the Migratory Bird Treaty Act of July 3, 1918, as amended (40 Stat. 755; 16 U. S. C. 704), of amendments to Part 6, Title 50, Code of Federal Regulations, which will specify open seasons, certain closed seasons, means of hunting, shooting hours, and bag limits for migratory game birds.

The proposed amendments specifying open seasons and bag limits for migratory game birds, except waterfowl and coots (but including scoter, eider and old-squaw ducks in open coastal waters beyond outer harbor lines in certain North Atlantic Coast States and waterfowl and coots in Alaska), and those relating to other matters will be proposed for final adoption not later than August 1, 1956 to become effective September 1, 1956. Proposed amendments specifying open seasons, bag limits, and shooting hours for other waterfowl and coots will be proposed for adoption not later than September 1, 1956 to become effective not later than October 1, 1956.

The public is hereby invited to participate in the preparation of the amended regulations to be adopted as set forth above by submitting their views, data or arguments in writing to the Director, Fish and Wildlife Service, Department of the Interior, Washington 25, D. C., within the period of thirty (30) days from the date of publication of this notice in the FEDERAL REGISTER.

Dated: May 28, 1956.

JOHN L. FARLEY, *Director.*

[F. R. Doc. 56-4326; Filed, June 1, 1956; 8:49 a. m.]

SHELLED RUNNER TYPE PEANUTS, SHELLED SPANISH TYPE PEANUTS, AND SHELLED VIRGINIA TYPE PEANUTS

ADDITIONAL TIME FOR FILING DATA, VIEWS, OR ARGUMENTS RELATIVE TO STANDARDS

Proposed United States Standards for Shelled Runner Type Peanuts, United States Standards for Shelled Spanish Type Peanuts and United States Standards for Shelled Virginia Type Peanuts were set forth in the notices which were published in the FEDERAL REGISTER of April 18, 1956 (21 F. R. 2529, 21 F. R. 2530, and 21 F. R. 2531, respectively).

In consideration of comments and suggestions received indicating the need for further study of the proposals, notice is hereby given of an additional period of time until June 15, 1956, within which written data, views, or arguments may be received from interested parties for consideration in connection with the aforesaid proposed United States Standards for Shelled Runner Type Peanuts, United States Standards for Shelled Spanish Type Peanuts, and United States Standards for Shelled Virginia Type Peanuts.

Dated: May 28, 1956.

[Docket Nos. AO-71-A-32, AO-284]

HANDLING OF MILK IN NEW YORK METROPOLITAN MARKETING AREA AND IN NORTHERN NEW JERSEY

SUPPLEMENTAL NOTICE OF HEARING

Notice was issued on May 18, 1956, and published in the FEDERAL REGISTER on May 25, 1956 (21 F. R. 3537), of a public hearing beginning on June 18, 1956, at Newark, New Jersey, on proposed amendments to the tentative marketing agreement and to the order, as amended, regulating the handling of milk in the New York metropolitan milk marketing area, and on a proposed marketing agreement and order regulating the handling of milk in the Northern New Jersey milk marketing area.

Notice is hereby given, pursuant to provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and the applicable rules of practice and procedure, as amended, governing the formulation of marketing agreements and orders (7 CFR Part 900), that, in addition to the proposed expansion of the present New York metropolitan milk marketing area as set forth in the said notice of May 18,

1956, evidence also will be received regarding the proposed expansion of the said marketing area to include all or a portion of the following additional counties in the State of New York, Chenango, Columbia, Cortland, Delaware, Essex, Greene, Hamilton, Otsego, Schoharie, Schuyler, Steuben, Warren, Washington, Yates, and the towns of Lewis, Leyden and West Turin in Lewis County. All or a portion of this additional territory has been proposed by one or more handlers engaged in distribution within the proposed territory set forth in the notice of May 18, 1956. Also, in addition to the proposals set forth in the said notice of May 18, 1956, evidence will be received with respect to the proposed amendments hereinafter set forth, or appropriate modifications thereof, to the tentative marketing agreement and to the order, as amended, regulating the handling of milk in the New York metropolitan milk marketing area. The additional proposals contained in this supplemental notice have not received the approval of the Secretary of Agriculture.

Additional proposals are as follows:

Proposed by Kingston Milk Dealers Association:

Base-Rating Plan: The establishment of a base-rating plan to provide an incentive to produce milk for expanded summer market needs.

Location Differentials: The elimination of location differentials and revision of transportation differentials along the lines recommended by the Case Committee.

Proposed by Prospect Dairy, Inc., of Stamford, New York:

Base-Rating Plan: Establish a base-rating plan for summer milk to provide equal incentive to produce milk according to market needs.

Location Differentials: Amend § 927.60 (f) by adding to the list of New York counties the counties of Ulster, Delaware, and Greene, and exclude the list of plant locations. As an alternative, eliminate location differentials and revise transportation differentials as recommended by the Case Committee.

Proposed by Albany Dairy Council, Inc.:

Producer-Dealers: That the order apply to all dealers who have a pasteurizing plant or delivery system, including producer-dealers.

Proposed by Richardson and Fellows on behalf of producer-dealers in the Syracuse area:

Producer-Dealers: Provide for complete or partial exemption of producers-dealers from provisions of the order.

Proposed by the Borden Company, Northeast District, Troy, New York:

Producer-Dealers: That all producer-dealers be included under the order without any exceptions.

Proposed by Adler's Creamery:

Classification: Amend § 927.37 (e) (4) by eliminating the words "during the months of March through July" and the words "outside the marketing area."

Copies of this supplemental notice of hearing may be procured from the Market Administrator, 205 East 42d Street, New York 17, New York, or from the Hearing Clerk, Room 112, Administration Building, United States Department of Agriculture, Washington 25, D. C., or may be there inspected.

Dated: May 29, 1956.

[SEAL] ROY W. LENNARTSON,
*Deputy Administrator.*

## [ 7 CFR Part 964 ]

[Docket No. AO 258-A 1]

### HANDLING OF DRIED FIGS PRODUCED IN CALIFORNIA

NOTICE OF HEARING WITH RESPECT TO PROPOSED AMENDMENTS TO MARKETING AGREEMENT AND ORDER

Pursuant to the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and in accordance with the applicable rules of practice and procedure governing proceedings to formulate marketing agreements and marketing orders (7 CFR Part 900), notice is hereby given of a public hearing to be held in the tenth floor auditorium, Pacific Gas and Electric Building, 1401 Fulton Street, Fresno, California, beginning at 10:00 a. m. P. d. s. t., June 11, 1956, with respect to proposed amendments to the marketing agreement and order (20 F. R. 1685), regulating the handling of dried figs produced in California. These proposed amendments have not received the approval of the Secretary of Agriculture.

The public hearing will be held for the purpose of receiving evidence with respect to the proposed amendments which are hereinafter set forth, or appropriate modifications thereof.

The following amendments have been proposed by Mr. Charles C. Taylor of California Fig Growers and Packers, Fresno, California, and Mr. M. P. Davison of Bonner Packing Company, Fresno, California, handlers of dried figs:

1. Amend the provisions of § 964.90 (c) (2) by deleting the last sentence thereof and substituting therefor the following: "The committee shall, for each season or portion thereof, determine and advise handlers of the varieties or blends of varieties of dried figs for which head count tests are required to assure compliance with the provisions of this subdivision."

This proposal raises the issue as to whether it would be better to delete the last sentence of § 964.90 (c) (2) and not substitute any provision therefor. It also raises the question as to whether it would be desirable to insert the word "or" between "sliced dried figs" and "for manufacture" in the first sentence of § 964.90 (c) (2).

2. Amend the provisions of § 964.21 (a) to read as follows:

§ 964.21 *Selection of members of the committee*—(a) *Terms of office of members.* The 10 members and their respective alternates shall be selected annually by the Secretary for a term of one year beginning June 1 and shall serve until their respective successors shall be selected and shall qualify; and in the event the committee shall nominate an eleventh member he may be selected by the Secretary to serve for one year beginning July 1.

* * * * *

This proposal raises the question as to whether it would be desirable to delete the provisions of § 964.21 (b) and (c) and substitute therefor the following:

(b) *Selection of members.* Selection of the 10 members of the committee, and their respective alternates, shall be made by the Secretary, for the producer and handler groups from the nominations submitted for that purpose by those groups, or from among other qualified persons, in the discretion of the Secretary, but such selections shall be made upon the basis of the representation provided for in §§ 964.22, 964.23, and 964.25.)

3. Amend the provisions of § 964.24 (a) to read as follows:

§ 964.24 *Nomination of producer members of the committee*—(a) *Nomination meetings.* Nominations for producer members and alternate producer members of the committee shall be made at a meeting or meetings of producers held in each of the foregoing districts. Such meetings shall be called by the committee at such times and at such places within such districts as the committee shall designate, prior to May 1 of each year. The producers at each of such meetings shall select a chairman and secretary therefor. After nominations have been made, the committee shall transmit forthwith to the Secretary its certificate showing the name of each person for whom votes have been cast, whether as a member or as alternate for a member, and the number of votes received by each such person.

4. Amend the provisions of § 964.26 to read as follows:

§ 964.26 *Nomination of handler members.* The committee shall cause to be held each year prior to May 1, a meeting or meetings of handlers affected by this part for the purpose of obtaining nominations of persons to serve as handler members and alternate members of the committee.

5. Amend the provisions of § 964.34 (c), *Voting requirements,* by adding at the end thereof a new provision as follows: "The committee may vote by mail or telegraph, but any proposition to be so voted upon first shall be explained accurately, fully and identically by mail or telegraph to all members. A unanimous vote of all members or alternates acting in the place and stead of members shall be required to reach a decision on a mail or telegraphic vote. No action to establish volume regulation under § 964.55 of this subpart can be taken on the basis of a mail or telegraphic vote."

This proposal raises the question as to whether it would be desirable to insert the words "for an assembled meeting" between the words "quorum" and "of" in the one sentence of § 964.34 (b). It also raises the question as to whether it would be desirable to insert the words "at an assembled meeting" between the words "committee" and "including" in the first sentence of § 964.34 (c).

The following amendment is proposed by the Fruit and Vegetable Division, Agricultural Marketing Service, United States Department of Agriculture:

6. Make such other changes in the marketing agreement and order as may be necessary to make the entire marketing agreement and order conform with any amendments thereto which may result from this hearing.

Copies of this notice of hearing may be obtained from the Hearing Clerk, United States Department of Agriculture, Room 112, Administration Building, Washington 25, D. C., W. Allmendinger, Oakland Marketing Field Office, Fruit and Vegetable Division, Agricultural Marketing Service, United States Department of Agriculture, 1515 Clay Street, 6th Floor, Oakland 12, California, or O. C. Fuqua, Fresno Marketing Field Office, Fruit and Vegetable Division, Agricultural Marketing Service, United States Department of Agriculture, 3529 E. Tulare Street, Fresno 2, California.

Dated: May 28, 1956.

[SEAL] F. R. BURKE,
*Acting Deputy Administrator, Marketing Services.*

### MEAT INSPECTION REGULATIONS

NOTICE OF PROPOSED AMENDMENTS

Notice is hereby given in accordance with the provisions of section 4 (a) of the Administrative Procedure Act (5 U. S. C. 1003 (a)) that the Department of Agriculture, pursuant to the authority conferred by the Meat Inspection Act, as amended (21 U. S. C. 71-91) and section 306 of the Tariff Act of 1930 (19 U. S. C. 1306) is considering amending the Meat Inspection Regulations appearing in 9 CFR Chapter I, Subchapter A, as amended, as follows:

1. Section 4.3 would be amended by the addition of a new paragraph (d) as follows:

(d) A certificate of exemption will be issued only in one name at one location. A certificate will not be issued if any business is transacted at the location in the name of anyone other than the applicant for the certificate of exemption, for example, in the name of a parent company, subsidiary, or tenant of the applicant.

2. Section 16.13 (b) would be amended to read as follows:

(b) Meat food products in casings, other than sausage, which possess the characteristics of or resemble sausage, shall bear on each link or piece the word "imitation" prominently displayed: *Provided,* That such products in casings as coppa, capocollo, lachschinken, bacon, pork loins, pork shoulder butts, and similar cuts of meat which are prepared without added substances other than curing materials or condiments, and meat rolls, bockwurst, and similar products in casings which do not contain cereal or vegetables, and headcheese, souse, sulze, scrapple, blood pudding, and liver pudding in casings need not be so marked; other products in casings such as loaves, chili con carne, and meat and cheese products when prepared with sufficient cheese to give definite characteristics to the finished products, may bear on each link or piece the true name of the product in lieu of the word "imitation"; and imitation sausage packed in properly labeled containers having a capacity of 1 pound or less and of a kind usually sold at retail intact, need not bear the word "imitation" on each link or piece if no other marking or labeling is applied to the product.

3. Section 16.13 (c) would be amended by deleting the references to "dried skim milk" wherever they appear and substituting therefor references to "non-fat dry milk solids".

4. Section 16.13 (e), (f), and (g) would be redesignated as § 16.13 (f), (g), and (h), the reference in redesignated paragraph (g) to paragraph (e) would be changed to refer to paragraph (f), and a new paragraph (e) would be added to read:

(e) When approved antioxidant type preservatives are added to unsmoked dry sausage in casings, the product shall be legibly and conspicuously marked in an approved manner to show the presence and the percentage amount of such ingredients.

5. Redesignated § 16.13 (f) would be amended by changing the portion thereof preceding the proviso to read: "A cloth bag, artificial casing, or similar container of sausage or other product of a size larger than that customarily sold at retail intact shall be printed with the mark of inspection and any other marks required under paragraphs (b) through (e) of this section, near each end of the product, so as to be clearly visible to the consumer:"

6. Section 16.15 (a) would be amended by changing the portion of the second sentence preceding the illustration of the domestic meat label to read: "The domestic meat label shall be 2¾ by 4 inches in size and shall be in form and substance as illustrated below, except that the name and address of the establishment, or the name only, may be printed on the label, at the bottom thereof:"

Section 16.15 (a) would be further amended by adding after said illustration the following sentence: "The domestic meat label shall be printed with black ink on white paper of good quality, except that in the case of fiberboard shipping containers it may be printed directly on such containers in black ink on any color background, except green, which offers sufficient contrast so that it is prominently and informatively displayed."

7. In § 17.2 the following would be inserted in paragraph (b) as a new proviso preceding what is now the first proviso: *"Provided,* That in lieu of showing the inspection legend and the establishment number in such form, in the case of large size fiberboard immediate containers a domestic meat label may be printed directly on such containers in size, form and substance as provided in § 16.15 (a) of this subchapter for use on fiberboard shipping containers."

Section 17.2 would be further amended by the addition of a new paragraph (f):

(f) Meat and meat food products packaged in consumer size impervious film containers which are usually displayed in self-service refrigerated counters shall have a statement such as "Keep Refrigerated" prominently displayed on the principal display panel of the label.

8. Section 17.8 (c) (9) would be amended to read as follows:

(9) Product (other than canned product) labeled with the term "loaf" as its name or part of its name shall be prepared in loaf form.

9. Section 17.8 (c) (16), (27), (32), (39), and (48) would be amended by deleting the references to "dried skim milk" wherever they appear and substituting therefor references to "non-fat dry milk solids."

10. Section 17.8 (c) (55) would be amended to read as follows:

(55) Product labeled "Chopped Ham," "Pressed Ham," "Chopped Ham With Natural Juices," and "Pressed Ham With Natural Juices," may contain finely chopped ham shank meat to the extent of 25 percent over that normally present in the boneless ham. The weight of the cured chopped ham prior to processing shall not exceed the weight of the fresh uncured ham, exclusive of the bones and fat removed in the boning operations, plus the weight of the curing ingredients and 3 percent moisture.

11. Section 17.8 (c) would be amended by the addition of a new subparagraph (56) as follows:

(56) When approved proteolytic enzymes are used on steaks or other meat cuts which are frozen or cooked within the official establishment where they are produced, there shall appear on the labels of the frozen or cooked cuts, contiguous to the name of the products, a prominent descriptive statement such as "Dipped in a Solution of Papain," to indicate the use of such enzymes.

12. Section 18.6 (a) (5) would be amended to read as follows:

(5) Casings for products shall be carefully inspected by Branch employees. Only those casings which have been carefully washed and thoroughly flushed with clean water immediately before stuffing, are suitable for containers, are clean, and are passed on such inspection shall be used, except that preflushed animal casings packed in salt or salt and glycerine solution or other approved medium may be used without additional flushing provided they are found to be clean and otherwise acceptable and are thoroughly rinsed before use.

13. Section 18.7 (b) would be amended to read as follows:

(b) There may be added to product, with appropriate declaration as required under Parts 16 and 17 of this subchapter,

common salt, approved sugars (sucrose (cane or beet sugar), maple sugar, dextrose, invert sugar, honey, corn syrup solids, corn syrup and glucose), wood smoke, vinegar, flavorings, spices, sodium nitrate, sodium nitrite, potassium nitrate (saltpeter) and potassium nitrite.

14. Section 18.7 (g) would be amended by deleting the reference to "dried skim milk" and substituting therefor a reference to "non-fat dry milk solids."

15. Section 18.7 would be amended by the addition of new paragraphs (q), (r), (s), and (t).

(q) Corn syrup solids, corn syrup, or glucose shall not be used individually or collectively in an amount exceeding 2 percent of all of the ingredients used in preparing such meat food products as sausage, hamburger, meat loaf, luncheon meat, chopped ham, or pressed ham.

(r) Disodium phosphate, sodium hexametaphosphate, sodium tripolyphosphate, sodium pyrophosphate, and sodium acid pyrophosphate, may be added to the pumping pickle for cured hams, pork shoulder picnics and similar products, and may be used in the preparation of canned chopped ham, provided such use shall not result in more than ½ of 1 percent of added phosphate in the finished product and provided that the maximum amount of such phosphate which may be so used is as follows:

(1) Pumping pickle shall not contain more than 5 percent of such phosphate. When dissolved in pumping pickle, a small quantity of a crystalline precipitate material may be formed. Such pickle shall be filtered or the precipitate allowed to settle so that only the clear solution is injected into product.

(2) With appropriate declaration as required under Parts 16 and 17 of this subchapter, such phosphate may be used in the preparation of canned chopped ham in an amount not to exceed 8 ounces for each 100 pounds of the fresh uncured comminuted ham.

(s) Ascorbic acid or sodium ascorbate may be used in the preparation of cured pork and beef products and comminuted meat food products as follows:

(1) Pickle used for pumping, curing, or packing pork and beef products shall not contain more than 7½ ounces of ascorbic acid or sodium ascorbate to each 100 gallons of pickle.

(2) With appropriate declaration as required under Parts 16 and 17 of this subchapter, ascorbic acid or sodium ascorbate may be used in the preparation of cooked, cured, comminuted meat food products in amounts not to exceed ¾ ounce of ascorbic acid or ⅞ ounce of sodium ascorbate for each 100 pounds fresh meat or meat food product. A solution containing not more than 5 percent ascorbic acid or sodium ascorbate in water or brine may be applied to the outer surface of sliced or unsliced cured pork and beef products and comminuted meat food products prior to packaging. The use of such solution shall not result in the addition of a significant amount of moisture to the product.

(t) With appropriate declaration as required under Parts 16 and 17 of this subchapter, not more than 3/1000 of 1 percent of butylated hydroxyanisole and 1/1000 of 1 percent of citric acid may be used in unsmoked dry sausage which is held during preparation in a drying room for purposes of trichinae treatment for the periods prescribed in this subchapter.

16. Section 18.10 (a) and (b) would be amended to read as follows:

(a) All forms of fresh pork, including fresh unsmoked sausage containing pork muscle tissue, and pork such as bacon and jowls, other than those covered by paragraph (b) of this section, are classed as products that are customarily well cooked in the home or elsewhere before being served to the consumer. Therefore, the treatment of such products for the destruction of trichinae is not required.

(b) Products named in this paragraph, and products of the character thereof, containing pork muscle tissue (including hearts, pork stomachs and pork livers), or the pork muscle tissue which forms an ingredient of such products, shall be effectively heated, refrigerated, or cured at a federally inspected establishment to destroy any possible live trichinae: Bologna; frankfurts; viennas; smoked sausage; knoblauch sausage; mortadella; all forms of summer or dried sausage, including mettwurst; cooked loaves; roasted, baked, boiled, or cooked hams, pork shoulders, or pork shoulder picnics; Italian-style hams; Westphalia-style hams; smoked boneless pork shoulder butts; cured meat rolls; capocollo (capicola, capacola); coppa; fresh or cured boneless pork shoulder butts, hams, loins, shoulders, picnics, and similar pork cuts, in casings or other containers in which ready-to-eat delicatessen articles are customarily enclosed (excepting Scotch-style hams); frozen breaded pork products over ½ inch in thickness; cured boneless pork loins; boneless back bacon; smoked pork cuts such as hams, shoulders, loins and picnics (excepting smoked hams and smoked pork shoulder picnics which are specially prepared for distribution in tropical climates or smoked hams delivered to the Armed Services). Cured boneless pork loins shall be subjected to prescribed treatment for destruction of trichinae prior to being shipped from the establishment where cured.

17. In § 18.10 (c) (2), the fifth and sixth undesignated paragraphs would be amended to read as follows:

During the period of refrigeration the product shall be kept separate from other products and in the custody of the Branch. Rooms or compartments equipped for being made secure with Branch lock or seal shall be provided. The rooms or compartments containing product undergoing freezing shall be equipped with accurate thermometers placed at or above the highest level at which the product undergoing treatment is stored and away from refrigerating coils. After completion of the prescribed freezing of pork to be used in the preparation of product covered by paragraph (b) of this section, the pork shall be kept under close supervision of an inspector until it is prepared in finished form as one of the products enumerated in paragraph (b) of this section, or until it is transferred under Branch control to another establishment for preparation in such finished form.

Pork which has been refrigerated as specified in this subparagraph may be transferred in sealed railroad cars, sealed motortrucks, sealed trailers, or sealed closed containers to another official establishment at the same or another station, for use in the preparation of product covered by paragraph (b) of this section. The sealing of closed containers, such as boxes and slack barrels, shall be effected by cording and affixing thereto Branch seals, and such containers as tierces and kegs shall be held in Branch custody by sealing with wax impressed with a Branch metal brand. Railroad cars, motortrucks, and trailers shall when necessary, be sealed with Branch car seals. Properly sealed and marked closed containers may be shipped with other meat in unsealed railroad cars, motortrucks, and trailers. Containers such as boxes, barrels and tierces shall be plainly and conspicuously marked with a label or stencil furnished by the establishment, as follows: "Pork product -- degrees F. -- days' refrigeration," indicating the temperature at which the product was refrigerated and the length of time so treated. For each consignment there shall be promptly issued and forwarded to the inspector in charge at destination a report on the form entitled "Notice of Unmarked Meats Shipped In Sealed Cars," appropriately modified to show the character of the containers, and that the contents are "Pork product -- degrees F. -- days' refrigeration." A duplicate copy shall be retained in the station file.

18. Section 24.4 (b) would be amended to read as follows:

(b) *France.* Pork livers which have not been refrigerated at a temperature of 15° below 0° C. for twenty (20) days are eligible for importation into France only when destined to pate de foie factories.

19. Section 24.5 (b) would be amended to read as follows:

(b) Form MI 415–5 shall be issued in duplicate for animal casings destined to Australia, Austria, Canada, Poland and the Union of South Africa. Upon the request of the exporter, Form MI 415–5 may be issued to cover animal casings destined to any foreign country if the factual knowledge available justifies such certification.

20. In § 24.5, paragraph (i) would be deleted and paragraphs (d), (e), (f), (g), and (h) would be redesignated respectively as (e), (f), (g), (i), and (j) and new paragraphs (d) and (h) would be added as follows:

5 (d) *Belgium.* Containers of animal casings destined to Belgium shall be marked with the blue export animal casing stamp (MI 415–7). Each exportation shall be covered by a "Sanitary Certificate in French" (MI 412–8) with the words "Animal Casings" substituted for the word "Products". The certificate shall bear the serial number of the export animal casings stamps used. Nodular casings shall be described on the certificate as "Nodular (not clear)".

* * * * * *

(h) *Ireland.* Containers of animal casings consigned to Ireland shall be marked with the regular export stamp (MI 412–10). Each exportation shall be covered by a certificate in the form of MI 415–5.

21. Part 27 would be amended by the addition of a new section reading as follows:

§ 27.21 *Specimens for laboratory examination and similar purposes.* The provisions in this part do not apply to specimens of product for laboratory examination, research or similar purposes when authorized importation by the Chief of the Branch under conditions specified by him, but the Chief of the Branch may not authorize the importation of fresh, chilled or frozen or other product ineligible for importation into the United States from countries in which the contagious and communicable disease of rinderpest or foot-and-mouth disease exist.

Any person who wishes to submit written data, views or arguments concerning the proposed amendments may do so by filing them with the Chief, Meat Inspection Branch, Agricultural Research Service, United States Department of Agriculture, Washington 25, D. C., within 30 days after the date of publication of this notice in the FEDERAL REGISTER.

Done at Washington, D. C., this 28th day of May 1956.

[SEAL] M. R. CLARKSON,
*Acting Administrator,*
*Agricultural Research Service.*

## DEPARTMENT OF THE TREASURY

### Bureau of Customs

[424.21]

PROVISION FOR FLAT LEATHER GOODS TO INCLUDE SHEATHS FOR MAP MEASURES

TARIFF CLASSIFICATION

MAY 28, 1956.

The Bureau by a letter addressed to the collector of customs at New York, New York, has ruled that sheaths made of leather other than reptile leather, designed for use in holding map measures, are classifiable under the provision for "similar flat leather goods" in paragraph 1531, Tariff Act of 1930, as modified, with duty at the rate of 20 percent ad valorem, rather than under the provision for "other" manufactures in chief value of leather other than reptile leather in that same paragraph with duty at the rate of 12½ percent ad valorem.

As this decision results in the assessment of duty at a rate of duty higher than that which has heretofore been assessed under a uniform practice, it shall be applied only to such or similar merchandise entered, or withdrawn from warehouse, for consumption after 90 days after the date of publication of this decision in the weekly Treasury Decisions.

## DEPARTMENT OF COMMERCE

### Office of the Secretary

[Dept. Order 159 (Amended)]

OFFICE OF INTERNATIONAL TRADE FAIRS

ESTABLISHMENT, AUTHORITY, FUNCTIONS, AND DUTIES

The material appearing in 20 F. R. 905–906 of 2/11/55 is superseded by the following:

SECTION 1. *Purpose.* The purpose of this order is to redefine the organization and functions of the Office of International Trade Fairs.

SEC. 2. *Establishment and organization.* .01 The Office of International Trade Fairs was established on January 27, 1955 by the Secretary of Commerce under the authority of Reorganization Plan No. 5 of 1950. It is a constituent unit of the Office of the Secretary and is headed by a Director who reports to the Assistant Secretary of Commerce for International Affairs.

.02 The Office of International Trade Fairs consists of the following organization units:

1. The Office of the Director; Deputy Director; Assistant Directors.
2. Executive Officer.
3. Public Information Staff.
4. Procurement and Distribution Division.
5. Design Division.
6. Research and Program Division.

SEC. 3. *Delegation of authority.* .01 Subject to such policies and limitations as the Secretary of Commerce may prescribe, the Director of the Office of International Trade Fairs shall perform the functions and exercise the power and authorities relating to the promotion of United States international trade, through the medium of international trade fairs, vested in the Secretary of Commerce by the act of February 14, 1903 (32 Stat. 826), as amended.

.02 The Director of the Office of International Trade Fairs may redelegate any power or authority conferred on him by this order to any officer of the Office of International Trade Fairs to be exercised in accordance with such conditions and limitations as he may prescribe.

SEC. 4. *Objective and general functions.* The objective of the Office of International Trade Fairs is to foster and promote the foreign commerce of the United States through the medium of international trade fairs. To this end, the Office shall:

1. Cooperate with United States business and industry to stimulate a wider use of the international trade fair abroad as a medium for the promotion of commerce and for the maintenance of the prestige of United States industry in foreign markets, by stimulating and facilitating display of American products by individual companies at such international trade fairs; and

2. Coordinate, plan, design, establish, and maintain industry-government exhibits at selected international trade fairs abroad for the purpose of displaying official interest in such fairs and of strengthening total United States participation in specific events.

SEC. 5. *Duties and responsibilities.* .01 The Director shall be responsible for developing and coordinating the programs, and directing all operations and administrative activities of the Office of International Trade Fairs.

1. The Deputy Director shall be the chief operating aide to the Director and shall assist in the direction of the operations of the Office of International Trade Fairs and perform such other duties as the Director may assign.

2. The Assistant Directors shall be the personal representatives of the Director in assigned areas of operations for the International Trade Fairs Program. They shall be responsible for coordinating all trade fair operations within the geographic area involved and supervise the activities of the trade fair managers to insure the maximum effectiveness of U. S. participation at each trade fair. There shall be an Assistant Director for European fair operations and an Assistant Director for Near East and Far East fair operations. The Assistant Directors are also responsible for arranging the storage and warehousing of all U. S. exhibit material whether government-owned or on loan from private sources.

.02 The Executive Officer shall assist the Director in fulfilling his responsibilities for administrative efficiency and economy in the Office of International Trade Fairs; secure all necessary administrative services for the Office through the appropriate offices reporting to the Assistant Secretary of Commerce for Administration; and review and coordinate all outgoing foreign communications of the Office for policy, content and construction.

.03 The Public Information Staff prepares news releases and maintains liaison with the daily and trade press and other media of public communications; promotes U. S. industry participation in the International Trade Fairs Program through contact with industrial and trade association groups; and makes available to the public current information on the operations of the Trade Fairs Program.

.04 The Procurement and Distribution Division shall be responsible for securing exhibits and displays appropriate to the theme of individual trade fairs; and for the assembly of all such materials for dispatch from U. S. Ports; procuring through direct contact with industrial and business concerns specific items of equipment necessary for use in any aspect of the U. S. exhibit and arranging for the proper safeguarding of all equipment and related materials to the point of shipment; directing the movements abroad of all exhibit materials and equipment; and maintaining necessary inventory control records of all such items until final disposition.

.05 The Design Division is responsible for advance planning for trade fair designs, recommends to the Director for his consideration exterior and interior building designs, supervises the preparation of specifications and preliminary drawings, ascertains for the Director that design and construction contracts are let well in advance of opening dates of fairs and that work is completed on time and in accordance with specifications.

.06 The Research and Program Division shall be responsible for assembling and analyzing all pertinent information necessary for the selection of proper themes and contents for all fairs. To this end the Division shall solicit the advice of country and area specialists in the Commerce, State, Agriculture and other U. S. Government departments, Embassies, USIA Staff and comments and suggestions from businessmen, designers and organizations such as the Advertising Council. Through the device of an Interagency Committee the Division will determine the nature of participation at selected fairs and prepare recommendations on these subjects for consideration by the Director. The Research and Program Division will also be responsible for controlling the distribution of budgets to fair managers and the Procurement and Distribution Division. It will maintain records for the control of all fair expenditures to assure maximum effectiveness within budget limitations.

Effective date: May 16, 1956.

SINCLAIR WEEKS,
*Secretary of Commerce.*

[Dept. Order 163]

NATIONAL DEFENSE EXECUTIVE RESERVE

ESTABLISHMENT AND ADMINISTRATION

SECTION 1. *Purpose.* The purpose of this order is to provide for the establishment and administration of the National Executive Reserve in the Department of Commerce.

SEC. 2. *Legal basis*—.01 *Statute.* Section 710 (e) of the Defense Production Act of 1950, as amended August 9, 1955 (69 Stat. 583; 50 U. S. C. App. 2160 (e)), authorizes the President to provide for the establishment and training of a nucleus executive reserve for employment in executive positions in Government during periods of emergency.

.02 *Executive order.* Executive Order No. 10660, of February 15, 1956, established the National Defense Executive Reserve; authorized the Director of the Office of Defense Mobilization to institute and administer the Executive Reserve Program and to coordinate the activities of other agencies in establishing units of the Reserve; and authorized the heads of departments and agencies designated by the Director of the Office of Defense Mobilization to establish units of the Executive Reserve and to select and designate persons to serve as members of the units.

.03 *Defense Mobilization Order.* Defense Mobilization Order No. I-21 (File: I-Gen-DMO-21), dated February 23, 1956, provides among other things that departments and agencies of the Executive Branch having major mobilization responsibilities are authorized to establish units of the Executive Reserve, select and designate members of such units, and institute programs for their training.

.04 *Letter from Director, Office of Defense Mobilization.* A letter from the Director, Office of Defense Mobilization, dated February 24, 1956, designates the Department of Commerce as an agency authorized to establish a unit of the Reserve.

SEC. 3. *Definitions.* .01 The Executive Reserve is an organization composed of persons selected from various segments of the civilian economy and from Government who are to be trained for assignment to executive positions in the Federal Government during periods of emergency.

.02 An Executive Reservist is a member of the National Defense Executive Reserve.

.03 The Department of Commerce Unit of the National Defense Executive Reserve shall consist of all units of the National Defense Executive Reserve established in the several primary organization units of the Department.

SEC. 4. *Policy and delegation of authority.* .01 It is the policy of the Department of Commerce to establish and maintain, where appropriate, an Executive Reserve unit as part of the manpower mobilization base for national security in each primary organization unit having major mobilization responsibilities. The head of each such primary organization unit is hereby delegated authority to establish an Executive Reserve unit. In the Office of the Secretary this authority will be exercised by the Assistant Secretary for Administration.

.02 Each primary organization unit establishing a Reserve unit in the Department of Commerce shall establish a training program which shall include but not be limited to orientation sessions, continuous and up-to-date information on the government organization and program planned in the event of mobilization, and information to keep the Reservist fully abreast of developments in his field which affect the capacity of the United States to mobilize its resources in an emergency. The training programs will be carried out at Washington and regional levels as appropriate and will include actual participation in the testing of mobilization plans at relocation sites to the extent feasible.

.03 Activities of persons by reason of designation to the Executive Reserve shall not include acting or advising on any matter pending before any department or agency of the Government but shall be limited to receiving training for mobilization assignments under the Executive Reserve Program.

.04 The number of Executive Reservists will be limited to those for which there is a demonstrable need in the essential mobilization functions for which the primary organization unit is responsible.

.05 Members of these Reserve units shall be representative of all of the major segments of the economy concerned with the major mobilization responsibilities of the primary unit. They may include persons now serving in Government on a full- or part-time basis.

.06 Specific qualification standards must be established by each primary organization unit for selection of Executive Reservists. Candidates for the Executive Reserve will be selected on the basis of each individual's (a) qualifications to perform the duties and responsibilities of a contemplated mobilization assignment and (b) likelihood of being available in the event of full mobilization.

.07 Reservists will be chosen to serve in major functional and industry areas, e. g., priorities and directives, copper, lumber, metalworking equipment, etc., and will not as a rule be selected for specific positions. Exceptions to this principle would include cases where it is deemed desirable to have predesignated executive talent in depth to man top level administrative posts.

SEC. 5. *Administration.* .01 The Executive Reserve Program of the Department of Commerce shall be under the supervision of the Assistant Secretary of Commerce for Administration, who will be responsible for the conduct of the program.

.02 In order to carry out his responsibilities under this program, the Assistant Secretary for Administration will utilize the services of such other personnel of the Department as may be necessary or desirable and will issue such regulations and instructions as he may deem appropriate for this purpose.

.03 The Assistant Secretary of Commerce for Administration and the Administrator, Business and Defense Services Administration, have been named to serve as members of the Interagency Executive Reserve Committee of the Office of Defense Mobilization. The Assistant Secretary for Administration shall coordinate all liaison with the Office of Defense Mobilization relating to the Reserve Program.

.04 Each primary organization unit is authorized and directed to prescribe, after clearance with the appropriate Under Secretary or Assistant Secretary and with the Assistant Secretary for Administration, such operating procedures and instructions not inconsistent with this order as may be necessary or desirable to execute the general purposes of this order in the light of their individual operating requirements.

.05 In the interest of practical operation as well as in the interest of economy, the program shall be set up in such a way that it functions automatically to the maximum extent possible, using existing material and information channels and existing staff. The administrative procedures involved in the program shall be integrated with the existing administrative procedures for current operations.

.06 Each primary organization unit establishing a unit in the Executive Reserve is responsible for avoiding the issuance of invitations to persons already in the Reserve and avoiding excessive Government demands on a single employer. To assist agencies in carrying out this objective, a central register of Reserve members will be maintained by the Civil Service Commission for reference. Each primary organization unit designating a person as a member of the Reserve must notify the Commission of such designation. Each primary organization unit contemplating recruitment of a person into the Reserve shall first check with the Civil Service Commission to see whether the person has already been designated a member of the Reserve.

.07 Insofar as practicable, in order to maintain sound relationships with employers, the consent of a proposed Reservist's employer will be obtained prior to negotiations with the proposed Reservist himself, except for former employees of the National Production Authority or of the Business and Defense Services Administration.

.08 Prior to designation as a member of the Reserve, each proposed designee must submit a statement of understanding as to availability, with the formal concurrence of his employer.

.09 When the proposed Reservist has held a security clearance from this Department within the preceding year, the formal invitation to become a member and the designation as a member of the Reserve may be issued, if otherwise in order. When the proposed Reservist has not held a security clearance from this Department within the preceding year, no designation nor any commitment as to designation shall be made pending the receipt of such clearance.

.10 Designations as members of the Reserve will be made by the Secretary, on recommendation of the head of the primary organization unit concerned and the Assistant Secretary for Administration.

.11 Under existing law Reservists are not, by reason of designation as such, subject to any requirement relating to filing or publication of statements of financial interests.

.12 With respect to training activities under the Reserve program, as limited by Executive Order No. 10660 and stated in section 4 of this order, Reservists who are not full-time Government employees shall be exempt from the operation of sections 281, 283, 284, 434, and 1914 of Title 18, United States Code, and section 190 of the Revised Statutes (5 U. S. C. 99).

.13 Each Reservist will file an appropriate waiver of compensation in connection with or as a part of his statement of understanding.

.14 Members of the Executive Reserve who are not full-time Government employees may be authorized transportation and not to exceed $15 per diem in lieu of subsistence while away from their homes or regular places of business for the purpose of participating in the Executive Reserve training program.

.15 Records and reports, the forms and procedures relating to designation of Reservists, and conducting liaison with the Civil Service Commission will be prescribed in instructions to be issued by or with the approval of the Assistant Secretary for Administration.

SEC. 6. *Report.* Heads of the primary organization units will be responsible for the preparation of such reporting material as required by the Assistant Secretary for Administration for inclusion in the annual report from the Secretary to the Director, Office of Defense Mobilization, regarding the organization, training, and state of readiness of the Department of Commerce Unit of the Executive Reserve, indicating its size, composition, and representation, together with recommendations thereon.

Effective date: May 16, 1956.

SINCLAIR WEEKS,
*Secretary of Commerce.*

## INTERSTATE COMMERCE COMMISSION

FOURTH SECTION APPLICATIONS FOR RELIEF

MAY 29, 1956.

Protests to the granting of an application must be prepared in accordance with Rule 40 of the general rules of practice (49 CFR 1.40) and filed within 15 days from the date of publication of this notice in the FEDERAL REGISTER.

LONG-AND-SHORT HAUL

FSA No. 32142: *Sugar—Western points to Illinois, Iowa, and Missouri.* Filed by W. J. Prueter, Agent, for interested rail carriers. Rates on sugar, beet or cane, carloads from specified points in Colorado, Idaho, Montana, Oregon, Utah, Washington, and Wyoming to specified points in Iowa, Illinois, and Missouri.

Grounds for relief: Market competition, grouping and circuitous routes.

Tariffs: Supplement 11 to Agent Prueter's I. C. C. A-4099; supplement 14 to Agent Prueter's I. C. C. 1574.

FSA No. 32143: *Fertilizer solutions, between Illinois and official territories.* Filed by H. R. Hinsch, Agent, for interested rail carriers. Rates on nitrogen and phosphatic fertilizer solutions, tank-car loads between points in Illinois territory (southern portion), as described, on one hand, and points in central trunk-line and New England territories, on the other.

Grounds for relief: Short-line distance formula, and circuity.

Tariff: Supplement 37 to Agent Hinsch's I. C. C. 4662.

FSA No. 32144: *Substituted service—Motor-rail-motor, Pennsylvania Railroad.* Filed by Central States Motor Freight Bureau, Inc., Agent, for interested motor carriers and the Pennsylvania Railroad Company. Rates on various articles of freight loaded in or on motor-truck trailers and transported on railroad flat cars, between Indianapolis, Ind., on one hand, and Pittsburgh, Pa., on the other.

Grounds for relief: Motor truck competition.

Tariff: Supplement 1 to Central States Motor Freight Bureau, tariff I. C. C. No. 25.

FSA No. 32145: *Substituted service—Motor-rail-motor, Pennsylvania Railroad.* Filed by Central States Motor Freight Bureau, Inc., for interested motor carriers and the Pennsylvania Railroad Company. Rates on various articles of freight loaded in motor-truck trailers and transported on railroad flat cars, between Chicago, Ill., on one hand, and Pittsburgh, Pa., on the other.

Grounds for relief: Motor truck competition.

Tariff: Supplement 1 to Central States Motor Freight Bureau, tariff I. C. C. No. 25.

FSA No. 32146: *Steel or wrought iron pipe from Fairless, Pa., to Louisiana.* Filed by F. C. Kratzmeir, Agent, for interested rail carriers. Rates on steel or wrought iron pipe, and related articles, carloads from Fairless, Pa., to specified points in Louisiana.

Grounds for relief: Circuitous routes.

Tariff: Supplement 77 to Agent Kratzmeir's I. C. C. 4116.

FSA No. 32147: *Wooden barrels—Arkansas and Missouri to Kentucky, Illinois, and Tennessee.* Filed by F. C. Kratzmeir, Agent, for interested rail carriers. Rates on barrels, new wooden, light, carloads, from Little Rock, Ark., and Lebanon, Mo., to specified points in Kentucky, Illinois, and Tennessee.

Grounds for relief: Carrier competition and circuity.

FSA No. 32148: *Cottonseed products—Pacific Coast to Chattanooga, Tenn.* Filed by W. J. Prueter, Agent, for interested rail carriers. Rates on cotton linters and motes, and cottonseed hull fibre or shavings, carloads, from points on and in the Pacific coast area to Chattanooga, Tenn.

Grounds for relief: Circuitous routes.

Tariff: Supplement 15 to Agent Prueter's I. C. C. 1574.

FSA No. 32149: *Vegetable oils—Memphis, Tenn., to Cincinnati, Ohio.* Filed by J. G. Kerr, Agent, for interested rail carriers. Rates on vegetable oils, carloads, from Memphis, Tenn., to Cincinnati, Ohio.

Grounds for relief: Circuitous routes.

Tariff: Supplement 54 to Agent Spaninger's I. C. C. 1411.

FSA No. 32150: *Grain and products to Colorado.* Filed by W. J. Prueter, Agent, for interested rail carriers. Rates on grain, grain products, and related articles, including seeds, carloads, from Council Bluffs, Iowa, St. Joseph and Kansas City, Mo., and specified points in Kansas and Nebraska to specified points in Colorado.

Grounds for relief: Grouping and circuity.

Tariffs: Supplement 64 to CB&Q RR I. C. C. No. 20259 and three other tariffs.

By the Commission.

## SECURITIES AND EXCHANGE COMMISSION

[File Nos. 24D-1273, 24D-2069]

CHEROKEE URANIUM MINING CORP.

ORDER TEMPORARILY SUSPENDING AND DENYING EXEMPTION, STATEMENT OF REASONS THEREFOR, AND NOTICE OF OPPORTUNITY FOR HEARING

MAY 28, 1956.

I. Cherokee Uranium Mining Corporation (hereinafter referred to as the "issuer"), 608-610 Equitable Building, Denver, Colorado, for the purposes of obtaining exemptions from the registration requirements of the Securities Act of 1933, as amended, pursuant to the provisions of section 3 (b) thereof and Regulation A promulgated thereunder, filed with the Commission on May 27, 1954, a Notification on Form 1-A and an offering circular, and subsequently filed amendments thereto, relating to a proposed offering of 2,000,000 shares of its 1 cent par value common stock at 15 cents per share (said filing hereinafter being referred to as File No. 24D-1273) and issuer filed with the Commission on April 5, 1956, a further notification on Form 1-A and an offering circular relating to a proposed offering of $180,000 principal amount of 6 percent convertible debentures (said filing being hereinafter referred to as File No. 24D-2069).

II. The Commission has reasonable grounds to believe that the terms and conditions of Regulation A have not been complied with in that item 3 of the notification in both File No. 24D-1273 and File No. 24D-2069 is false and incomplete as to unregistered securities of the issuer and affiliates sold within one year of the respective dates of filing.

III. The Commission has reasonable grounds to believe that the offering of 6 percent debentures, convertible into shares of common stock at the rate of 400 shares per $100 of debentures as proposed by the issuer in File No. 24D-2069, would operate under the circumstances as a device, scheme and artifice to defraud because it appears, among other things, that the issuer is insolvent and that the common stock is without value.

IV. The Commission has reasonable grounds to believe that the notification and offering circular in File No. 24D-2069 contain untrue statements of material facts and omit to state material facts necessary in order to make the statements made in light of the circumstances under which they were made not misleading, particularly in that:

1. The issuer failed to disclose that since most of the proceeds from the proposed offering of securities are to be used to pay off mortgages and other indebtedness including bank loans, there may not be sufficient funds available for a profitable operation of its business and, therefore, that the issuer may not be in a position to satisfy the interest requirements on the debentures to be issued or provide for their ultimate redemption; and

2. The stated expectations of profitable operations are not justified by existing data.

V. *It is ordered*, Pursuant to Rule 223 (a) of the general rules and regulations under the Securities Act of 1933, as amended, that the exemption under Regulation A be, and it hereby is, temporarily suspended as to File No. 24D-1273 and temporarily denied as to File No. 24D-2069.

Notice is hereby given that any person having any interest in the matter may file with the Secretary of the Commission a written request for a hearing; that, within 20 days after receipt of such request, the Commission will, or at any time upon its own motion may, set the matter down for hearing at a place to be designated by the Commission for the purpose of determining whether this order of suspension and denial should be vacated or made permanent, without prejudice, however, to the consideration and presentation of additional matters at the hearing; and that notice of the time and place of said hearing will be promptly given by the Commission.

*It is further ordered*, That this Order and Notice shall be served upon Cherokee Uranium Mining Corporation, personally or by registered mail or by confirmed telegraphic notice and shall be published in the FEDERAL REGISTER.

By the Commission.

[SEAL] ORVAL L. DUBOIS,
*Secretary.*

[F. R. Doc. 56-4342; Filed, June 1, 1956; 8:52 a. m.]

[File No. 811-697]

BOSTON SECURITIES CO.

NOTICE OF FILING OF APPLICATION FOR ORDER DECLARING COMPANY HAS CEASED TO BE AN INVESTMENT COMPANY

MAY 28, 1956.

In the matter of Boston Securities Company (formerly Nu-Petro Corporation) (File No. 811-697).

Notice is hereby given that Boston Securities Company, formerly named Nu-Petro Corporation, a registered closed-end, non-diversified company, has filed an amended application pursuant to section 8 (f) of the Investment Company Act of 1940 for an order declaring that applicant has ceased to be an investment company.

The following representations are made:

Applicant has only five shareholders. Applicant is not making and does not presently propose to make a public offering of its securities. An application to withdraw its registration statement under the Securities Act of 1933 was filed with the Commission on January 24, 1956.

Applicant has amended its certificate of incorporation to have as an additional corporate purpose, among other things, the carrying on of a general brokerage and financial business.

Applicant has succeeded to the business of Boston Securities Company, a sole proprietorship, registered as a broker and dealer under section 15 (d) of the Securities Exchange Act of 1934. Applicant proposes to file with the Commission a successor broker-dealer application pursuant to Rule N-15B-4 of the rules and regulations under that act and is filing an application as a broker and dealer under section 15 (b) of the Securities Exchange Act of 1934, and proposes to engage primarily in the business of underwriting and distributing securities and acting as a broker.

On the basis of the foregoing, applicant declares that it is not an investment company (1) by reason of the exception provided in section 3 (c) (1) of the act since its outstanding securities are owned by not more than 100 persons, and it is not making and does not presently propose to make a public offering of its securities and (2) by reason of the exception provided by section 3 (c) (2) of the act it will be engaged primarily in the business of underwriting and distributing securities issued by other persons and acting as broker.

Section 8 (f) of the act provides, in part, that whenever the Commission, upon application, finds that a registered investment company has ceased to be an investment company, it shall so declare by order and upon taking effect of such order the registration of such company shall cease to be in effect.

Notice is further given that any interested person may, not later than June 15, 1956, at 5:30 p. m., submit to the Commission in writing any facts bearing upon the desirability of a hearing on the matter and may request that a hearing be held, such request stating the nature of his interest, the reasons for such request and the issues, if any, of fact or law proposed to be controverted, or he may request that he be notified if the Commission should order a hearing thereon. Any such communication or request should be addressed: Secretary, Securities and Exchange Commission, Washington 25, D. C. At any time after said date, the application may be granted as provided in Rule N-5 of the rules and regulations promulgated under the act.

By the Commission.

[SEAL] ORVAL L. DUBOIS,
*Secretary.*

[F. R. Doc. 56-4344; Filed, June 1, 1956; 8:53 a. m.]

---

[File No. 70-3475]

MILWAUKEE GAS LIGHT CO. AND AMERICAN NATURAL GAS CO.

ORDER GRANTING APPLICATION AND PERMITTING EFFECTIVENESS TO DECLARATION REGARDING PROPOSED ISSUANCE AND SALE BY SUBSIDIARY COMPANY OF REGISTERED HOLDING COMPANY OF FIRST MORTGAGE BONDS AT COMPETITIVE BIDDING; INCREASE OF AUTHORIZED NUMBER OF SHARES OF COMMON STOCK; AND ISSUANCE AND SALE BY SUBSIDIARY COMPANY AND ACQUISITION BY PARENT COMPANY OF ADDITIONAL SHARES OF COMMON STOCK

MAY 28, 1956.

Milwaukee Gas Light Company ("Milwaukee"), a public-utility company, and its parent, American Natural Gas Company ("American Natural"), a registered holding company, having filed with this Commission a joint application-declaration and amendments thereto under the Public Utility Holding Company Act of 1935 ("act"), pursuant to sections 6 (a), 6 (b), 7, 9, and 10 and Rule U-50 promulgated thereunder, regarding the following proposed transactions:

Milwaukee proposes to issue and sell, subject to the competitive bidding requirements of Rule U-50, $13,000,000 principal amount of its First Mortgage Bonds, -- Percent Series due June 1, 1981. The interest rate (which shall be a multiple of ⅛ of 1 percent and the price, exclusive of accrued interest, to be paid to Milwaukee for the bonds (which shall be not less than 100 percent nor more than 102¾ percent of the principal amount) will be determined by competitive bidding. The bonds will be issued under and secured by the company's outstanding Mortgage and Deed of trust, dated November 1, 1950, as heretofore supplemented and as to be further supplemented by a Second Supplemental Indenture to be dated June 1, 1956. The bonds will be issued against the deposit of $13,000,000 of cash with the Trustee. Approximately $8,500,000 of such proceeds will be withdrawn promptly by the certification of unbonded net property additions, and the remainder of approximately $4,500,000 will be similarly withdrawn from time to time as additional unbonded net property additions become available in the course of the large scale expansion program upon which Milwaukee is engaged.

Pursuant to an amendment of its Articles of Incorporation, effective April 24, 1956, Milwaukee proposes to increase the number of shares of its authorized $12 par value common stock from 2,000,000 to 2,500,000. Milwaukee also proposes to issue and sell to American Natural, and American Natural proposes to acquire, 416,667 additional shares of Milwaukee's authorized but unissued $12 par value common stock for a cash consideration of $5,000,004.

Milwaukee, pursuant to authorization heretofore given (Holding Company Act Release No. 12954, July 29, 1955), has borrowed, under the Credit Agreement approved, $10,500,000 evidenced by 3 percent notes maturing August 1, 1956. Further borrowings under the Credit Agreement are not expected to be made. All borrowings thereunder are to be repaid concurrently with the issue and sale of the bonds, and the Credit Agreement is to be terminated.

The proposed issue and sale of the securities by Milwaukee have been expressly authorized by the Public Service Commission of Wisconsin, the State commission of the State in which Milwaukee is organized and doing business.

The following estimated fees and expenses are to be incurred in connection with the proposed transactions:

| | Bonds | Common stock |
|---|---|---|
| Federal original issue tax | $14,300 | $5,500 |
| Securities and Exchange Commission registration fee | 1,365 | ---------- |
| Public Service Commission of Wisconsin fee | 13,000 | 5,000 |
| Counsel fees: | | |
| Sidley, Austin, Burgess & Smith | 10,000 | 500 |
| Fairchild, Foley and Sammond | 3,500 | 500 |
| Accounting fee: Arthur Andersen & Co | 8,500 | ---------- |
| Trustee's fees and expenses | 7,000 | ---------- |
| Gas consultants' fees: | | |
| Ralph E. Davis | 5,000 | ---------- |
| E. P. Ogier | 2,500 | ---------- |
| Printing | 25,000 | ---------- |
| Mortgage recording and title expense | 650 | ---------- |
| American Natural Gas Service Co.—at cost | 750 | ---------- |
| Miscellaneous | 6,750 | ---------- |
| Total | 98,315 | 11,500 |

The fee of independent counsel for the underwriters, Brown, Wood, Fuller, Caldwell & Ivey, is estimated at $7,500 and is to be paid by the purchasers of the bonds.

Notice of the filing of the application-declaration having been duly given in the manner prescribed by Rule U-23 promulgated under the act, and no hearing having been requested of or ordered by the Commission; and

It appearing that the fees and expenses to be incurred in connection with the proposed transactions are not unreasonable if they do not exceed the estimates set forth above; and the Commission observing no basis for adverse findings, or for the imposition of terms and conditions, and finding that the applicable provisions of the act and of the rules thereunder are satisfied, and deeming it appropriate in the public interest and the interest of investors and consumers that the application-declaration, as amended, should be granted and permitted to become effective forthwith;

*It is ordered*, Pursuant to Rule U-23 and the applicable provisions of the act, that the application-declaration, as amended, be, and it hereby is, granted and permitted to become effective forthwith, subject to the terms and conditions contained in Rules U-50 and U-24.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

[File No. 811-219]

PACIFIC-AMERICAN INVESTORS, INC.

NOTICE OF FILING OF APPLICATION FOR ORDER DECLARING THAT COMPANY HAS CEASED TO BE AN INVESTMENT COMPANY

MAY 28, 1956.

Notice is hereby given that Pacific-American Investors, Inc. ("Applicant"), a closed-end, diversified investment company registered as such under the Investment Company Act of 1940, has filed an application and an amendment thereto pursuant to section 8 (f) of the act for an order declaring that Applicant has ceased to be an investment company under the act.

The application contains the following allegations:

Applicant was organized under the laws of the State of Delaware on July 17, 1928. Its notification of registration under the act was filed on November 1, 1940.

On January 4, 1956, stockholders of Applicant voted in favor of an Agreement of Merger dated November 23, 1955, providing for the merger of Applicant with and into American Mutual Fund, Inc. ("American Mutual"), also a Delaware Corporation. Subsequently, at a meeting of shareholders of American Mutual held on January 11, 1956, the Agreement of Merger was duly adopted by the shareholders of American Mutual. The Agreement of Merger was filed in the office of the Secretary of State of Delaware and recorded as required by the laws of that State and became effective on February 1, 1956.

Under the terms of the Agreement of Merger and in accordance with the provisions of the General Corporation Law of the State of Delaware, the separate existence of Applicant ceased on February 1, 1956, upon the filing and recording of the Agreement of Merger, except to the extent necessary to wind up its affairs and complete the merger.

Under the terms of the Agreement of Merger, holders of Preferred Stock of Applicant were given the option of tendering their stock for purchase at $26.25 per share in cash or of having their Preferred Stock converted into whole shares of American Mutual capital stock having a net asset value on January 31, 1956, of $26.25 for each share of Preferred.

Holders of Common Stock of Applicant were entitled to receive whole shares of American Mutual which had a net asset value equivalent to the aggregate net asset value of Applicant's Common Stock, both determined on January 31, 1956. On said date the net asset value of Applicant's Common Stock was $9.98015 per share and the net asset value of shares of American Mutual was $8.31058 per share. No fractional shares of American Mutual were to be issued, but in lieu thereof, cash was to be paid in an amount equal to the net asset value of the fractional shares.

Holders of 89,696 shares of said Preferred Stock elected to receive cash, and as required, deposited certificates representing their shares with Bank of America N. T. & S. A., Los Angeles, California. Applicant has caused to be deposited, in trust, with said Bank of America N. T. & S. A., sufficient funds to enable the Bank to make full payment of the purchase price of all shares so tendered.

Under the provisions of section 251 of the General Corporation Law of the State of Delaware, and paragraph Eight of the Agreement of Merger, the remaining 156,893¾ shares of Preferred Stock and all of the 1,588,949.6 shares of common stock of Applicant were converted into shares of capital stock of American Mutual on February 1, 1956. Dividends on the Preferred Stock of Applicant, whether tendered for purchase or converted into shares of American Mutual were paid in cash prorated up to the effective date of merger (February 1, 1956).

No stockholder of Applicant is entitled to "appraisal rights" as a dissenting stockholder under the provisions of section 262 of the General Corporation Law of the State of Delaware in connection with the merger, inasmuch as no stockholder of Applicant filed any written objection with Applicant before the vote on the Agreement of Merger at the meeting of stockholders held on January 4, 1956.

All of the former holders of Applicant were duly notified by written notice dated February 2, 1956 that the merger of Applicant with and into American Mutual had become effective on February 1, 1956.

American Mutual, through the agency of the Security-First National Bank of Los Angeles, as its transfer agent, will continue to stand ready, for such period of time as may be required by applicable law, to issue, to the persons entitled thereto, certificates representing shares of capital stock of American Mutual, upon surrender of certificates representing shares of Preferred and/or Common Stock of Applicant, and to make all required cash payments, in lieu of the issuance of fractional shares, in accordance with the provisions of the Agreement of Merger and applicable law.

Section 8 (f) of the act provides, in part, that whenever the Commission, upon application, finds that a registered investment company has ceased to be an investment company, it shall so declare by order and that upon the taking effect of such order the registration of such company shall cease to be in effect.

Notice is further given that any interested person may, not later than June 15, 1956, at 5:30 p. m., submit to the Commission in writing any facts bearing upon the desirability of a hearing on the matter and may request that a hearing be held, such request stating the nature of his interest, the reasons for such request and the issues, if any, of fact or law proposed to be controverted, or he may request that he be notified if the Commission should order a hearing thereon. Any such communication or request should be addressed:

Secretary, Securities and Exchange Commission, Washington 25, D. C. At any time after said date, the application, as amended, may be granted as provided in Rule N-5 of the rules and regulations promulgated under the act.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

[File No. 811-546]

EMERSON MUTUAL FUND, INC.

NOTICE OF APPLICATION FOR ORDER DECLARING THAT COMPANY HAS CEASED TO BE AN INVESTMENT COMPANY

MAY 28, 1956.

Notice is hereby given that Emerson Mutual Fund, Inc., formerly the John H. Lewis Fund, Inc. ("Applicant"), an open-end, diversified investment company registered as such under the Investment Company Act of 1940 ("act"), has filed an application pursuant to section 8 (f) of the act for an order declaring that Applicant has ceased to be an investment company under the act, by virtue of the provisions of section 3 (c) (1) of the act.

The application makes the following representations:

The only outstanding securities of Applicant consist of 10,670 shares of Capital Stock. At February 29, 1956, the 10,670 shares of stock were beneficially owned by 61 persons. Because of redemptions, at April 19, 1956, the number of shares outstanding had been reduced to 750 shares, which were held by only 6 stockholders.

The Applicant states that on April 30, 1955, it ceased to offer its shares of capital stock to the public and is not now making and does not propose to make a public offering of its securities. No "company", as defined in the act, holds of record as much as 10 percent of the outstanding voting securities of the Applicant, and, to the knowledge of the Applicant, no "company" owns, beneficially as much as 10 percent of said shares of capital stock of Applicant. The Applicant therefore requests the issuance of an order under section 8 (f) of the act declaring that it has ceased to be an investment company by virtue of the provisions of section 3 (c) (1) of the act.

Section 3 (c) (1) of the act exempts from the definition of an "investment company" any issuer whose outstanding securities (other than short-term paper) are beneficially owned by not more than one hundred persons and which is not making and does not presently propose to make a public offering of its securities. Section 8 (f) of the act provides, in part, that whenever the Commission, upon application, finds that a registered investment company has ceased to be an investment company, it shall so declare by order and upon the taking effect of such order the registration of such company shall cease to be in effect. Section 8 (f) further provides that an order thereunder may be made upon conditions necessary for the protection of investors.

Notice is further given that any interested person may, not later than June 15, 1956, at 5:30 p. m., submit to the Commission in writing any facts bearing upon the desirability of a hearing on the matter and may request that a hearing be held, such request stating the nature of his interest, the reasons for such request, and the issues, if any, of fact or law proposed to be controverted, or he may request that he be notified if the Commission should order a hearing thereon. Any such communication or request should be addressed: Secretary, Securities and Exchange Commission, Washington 25, D. C. At any time after said date, the application may be granted as provided in Rule N-5 of the rules and regulations promulgated under the act.

It is ordered, That Emerson Mutual Fund, Inc., shall give notice of this application to all of its stockholders (insofar as the identity of such stockholders is known or available) by mailing to each of said persons a copy of this Notice of Filing to his last known address on or before June 1, 1956.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

[File No. 70-3472]

METROPOLITAN EDISON CO. AND GENERAL PUBLIC UTILITIES CORP.

ORDER REGARDING ISSUE AND SALE OF ADDITIONAL COMMON STOCK BY SUBSIDIARY TO PARENT; INCREASE IN AUTHORIZED SHARES OF COMMON AND PREFERRED STOCK AND SOLICITATION OF VOTE OF STOCKHOLDERS

MAY 28, 1956.

Metropolitan Edison Company ("Meted"), a subsidiary electric utility company of General Public Utilities Corporation ("GPU"), a registered holding company, and said GPU having filed with this Commission an application-declaration, and amendments thereto, pursuant to sections 6 (a) (2), 6 (b), 7, 9 (a), 10 and 12 (e) of the Public Utility Holding Company Act of 1935 ("act") and Rules U-62 and U-65 promulgated thereunder regarding certain proposed transactions, which are summarized as follows:

Meted proposes to issue and sell to GPU and GPU proposes to purchase from Meted an aggregate of 45,000 additional shares of common stock at a price per share of $100, or an aggregate sale price of $4,500,000. Such shares are to be issued and sold by Meted from time to time during 1956, but not later than the issue and sale by Meted of additional first mortgage bonds. Of the proceeds realized by Meted from the sale of such shares, $1,900,000 will be applied by it to the cost of construction of property additions subsequent to December 31, 1955, or to repay bank loans the proceeds of which have been applied to such purpose, and $2,600,000 will be applied by it to reimburse its treasury for expenditures for such purpose prior to January 1, 1956.

Meted proposes to increase its authorized common stock by 150,000 shares, that is to say, from 500,000 shares without par value to 650,000 shares without par value and its preferred stock by 105,000 shares, that is to say, from 295,000 shares of the par value of $100 per share to 400,000 shares of the par value of $100 per share. Of Meted's presently authorized common stock 484,500 shares are now outstanding and of its presently authorized preferred stock 255,000 shares are now outstanding.

Meted proposes to solicit the holders of its outstanding preferred stock to seek their consent to the increase in its authorized preferred stock and their consent to the increase in its authorized common stock, to be obtaind at a special meeting of stockholders to be held on June 27, 1956. It is stated that Meted's charter provides, in effect, that Meted will not, without the consent of the holders of a majority of the total number of all shares of its preferred stock of all series then outstanding, increase the total authorized amount of its preferred stock. It is further stated that the Constitution of the Commonwealth of Pennsylvania provides that the stock of a corporation shall not be increased without the consent of the persons holding the larger amount in value of its stock. Accordingly, Meted has filed herein copies of solicitation material pursuant to section 12 (e) and Rule U-62.

The issuance of additional shares of Meted's common stock has been expressly authorized by the Pennsylvania Public Utility Commission, the State commission of the State of which applicant is organized and doing business. The application-declaration states that no State or Federal commission, other than the Pennsylvania Commission and this Commission, has jurisdiction over the proposed transactions.

It is estimated that GPU's expenses in connection with the above transactions will not exceed $100. Meted's expenses are estimated as follows:

| | |
|---|---|
| Filing fees—Pennsylvania Public Utility: Commission and Office of the Secretary of the Commonwealth of Pennsylvania | $15 |
| Legal fees | 2,750 |
| Commonwealth of Pennsylvania: | |
| Excise tax on 15,500 shares of previously authorized but unissued Common Stock | 3,100 |
| Excise tax on increase of authorized Common Stock from 500,000 shares to 650,000 shares | 30,000 |
| Excise tax on increase of authorized Preferred Stock from 295,000 shares to 400,000 shares | 21,000 |
| Federal original issue tax | 4,950 |
| Preparation, assembly and mailing of proxies, proxy statements, notice of meeting and President's letter | 1,500 |
| Miscellaneous | 285 |
| Total | 63,600 |

Notice of filing of said application-declaration having been duly given in the manner prescribed by Rule U-23 and no hearing having been requested of or ordered by the Commission; and the Commission finding that the applicable provisions of the act and of the rules thereunder are satisfied, that the expenses set forth above are not unreasonable, and that the application-declaration, as amended, should be granted and permitted to become effective forthwith:

*It is ordered*, Pursuant to Rule U-23 and the applicable provisions of the act, that said application-declaration, as amended, be and the same hereby is granted and permitted to become effective forthwith, subject to the terms and conditions set forth in Rule U-24.

By the Commission.

[SEAL] ORVAL L. DUBOIS,
*Secretary.*

[File No. 31-634]

## PENNSYLVANIA POWER & LIGHT CO.

### NOTICE OF FILING OF APPLICATION FOR EXEMPTION

MAY 28, 1956.

Notice is hereby given that Pennsylvania Power & Light company ("Penn Power"), a public-utility company, has filed with this Commission an application pursuant to section 3 (a) (2) of the Public Utility Holding Company Act of 1935 ("act") for an exemption for it and its public-utility subsidiary, Safe Harbor Water Power Corporation ("Safe Harbor"), from the provisions of the act on the basis that it is predominantly a public-utility company whose operations as such do not extend beyond the Commonwealth of Pennsylvania, the State in which it is organized.

The application which is on file in the offices of the Commission may be summarized as follows:

Applicant is an electric utility company organized in 1920 under the laws of the Commonwealth of Pennsylvania and has its principal executive offices at Allentown, Pennsylvania. All of the properties of Applicant are located in that State.

Penn Power's principal business is the sale in Pennsylvania of electricity for residential, commercial and industrial uses; additionally, it supplies steam heating service in the Cities of Harrisburg and Scranton, Pennsylvania. Applicant states that it has five other subsidiaries in addition to Safe Harbor; that none of these five other subsidiaries is a public-utility company; and that the total assets of these five other subsidiaries aggregate less than ⅓ of 1 percent of Applicant's assets and their gross and net income are immaterial.

As at January 31, 1956, Penn Power's capitalization and surplus aggregated $487,608,035 and consisted of long-term debt representing 53.6 percent; preferred stock, 17.7 percent; and common stock and surplus, 28.7 percent.

## NOTICES

Safe Harbor was organized under the laws of the Commonwealth of Pennsylvania and all of its properties are located in Pennsylvania. Safe Harbor's business is the generation and sale of its entire output of electricity at wholesale to Penn Power, which purchases one-third of said output, and to Baltimore Gas and Electric Company ("Baltimore Company"), an exempt holding company pursuant to section 3 (a) (2) of the act, which purchases two-thirds of said output. Penn Power and Baltimore Company each own 50 percent of the voting Class B common stock of Safe Harbor; Baltimore Company also owns all of the non-voting Class A stock of Safe Harbor, which latter class of stock constitutes one-third of all the capital stock of Safe Harbor. Thus, Penn Power owns one-third of all the capital stock of Safe Harbor with the remaining two-thirds being owned by Baltimore Company, which relative investments correspond with the respective proportions of electric energy purchased by these two companies from Safe Harbor.

As at January 31, 1956, Safe Harbor's capitalization and surplus aggregated $25,933,474, consisting of first mortgage bonds, all publicly held, representing 54.0 percent thereof, and common stock and surplus, 46.0 percent thereof.

The following table sets forth certain statistics concerning the size and business of Penn Power's public utility activities and the public utility activities of Safe Harbor. The figures used are as at or for the twelve months ended January 31, 1956.

TABLE I

| | Penn Power [1] | Safe Harbor | Percent—Safe Harbor to Penn Power |
|---|---|---|---|
| Gross utility operating revenues (after intercompany eliminations) | $119, 218, 000 | [2] $2, 475, 055 | 2. 08 |
| Net utility operating revenues (before income taxes) | $47, 679, 686 | $2, 239, 111 | 4. 70 |
| Sale of electricity (000's omitted) (after intercompany eliminations) | 5, 670, 623 | [2] 566, 412 | 9. 99 |
| Gross utility plant (including acquisition adjustments) | $330, 635, 100 | $31, 205, 803 | 5. 90 |
| Gross utility plant (at original cost) | $323, 864, 458 | $31, 205, 803 | 5. 97 |
| Net utility plant (including acquisition adjustments) | $445, 363, 247 | $24, 709, 450 | 5. 55 |
| Net utility plant (at original cost) | $138, 592, 604 | $24, 709, 450 | 5. 63 |
| Number of electric customers | 681, 937 | 2 | |

[1] Amounts shown for Penn Power include figures for its former subsidiary, The Scranton Electric Company, which was merged into Penn Power on Jan. 31, 1956.
[2] Amount remaining after eliminating one-third of total.

In its pending application, Penn Power states that its public utility operations do not extend beyond the Commonwealth of Pennsylvania the State in which it is organized, and alleges that it is "predominantly" a public-utility company whose operations and those of its subsidiary, Safe Harbor, do not extend beyond the Commonwealth of Pennsylvania and States contiguous thereto. The application represents that Penn Power is subject to the jurisdiction of the Pennsylvania Public Utility Commission and is regulated in respect of rates, issuance of securities, service, and other matters by that commission. Additionally, Penn Power states that it is subject to the jurisdiction of the Federal Power Commission as to certain rates, as to certain other matters, and as a licensee by reason of its ownership and operation of hydroelectric plants, and that it keeps its accounts in conformity with the Uniform System of Accounts prescribed by both commissions.

It is represented that Safe Harbor is subject to the jurisdiction of the Federal Power Commission as to rates and other matters and as a licensee by reason of its ownership and operation of a hydroelectric plant. Additionally, the application states that the Pennsylvania Public Utility Commission has jurisdiction over the issuance of securities by Safe Harbor and certain other matters, and concurrent jurisdiction with the Federal Power Commission over its accounting.

Notice is further given that any interested person may, not later than June 15, 1956, at 5:30 p. m., e. d. s. t., request the Commission in writing that a hearing be held on such matter stating the nature of his interest, the reasons for such request, and the issues of fact or law, if any, raised by said application which he desires to controvert, or he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington 25, D. C. At any time after said date, said application may be granted or the Commission may take such other action as it may deem appropriate under the circumstances.

By the Commission.

[SEAL] ORVAL L. DUBOIS,
*Secretary.*

[File No. 70-3389]

## AMERICAN NATURAL GAS CO. AND AMERICAN LOUISIANA PIPE LINE CO.

### SUPPLEMENTAL ORDER RELEASING JURISDICTION OVER CERTAIN COUNSEL FEES

MAY 28, 1956.

By its order issued July 29, 1955 (Holding Company Act Release No. 12953), the Commission, among other things, granted an application and permitted to become effective a declaration of American Louisiana Pipe Line Company ("American Louisiana"), an interstate natural gas pipe line subsidiary of American Natural Gas Company, a registered holding company, regarding a proposal

by American Louisiana to issue and sell an aggregate of $97,500,000 principal amount of its first mortgage pipe line bonds, of which $47,000,000 principal amount was issued and sold up to February 21, 1956. The Commission reserved jurisdiction over the fees and expenses incurred in connection with the proposed issue and sale of bonds because the record in respect thereof was incomplete.

Subsequently, by order dated January 25, 1956 (Holding Company Act Release No. 13092), the Commission released jurisdiction in respect of certain fees and expenses in connection with such proposed issue and sale of bonds, in respect of which the record was complete, but continued the reservation of jurisdiction over all other fees and expenses, including counsel fees (except those of Wheat, May and Shannon), in connection with the issue and sale of bonds, as to which the record was still incomplete.

American Louisiana has requested that jurisdiction be released in respect of the following counsel fees, incurred in connection with the issue and sale of bonds through February 29, 1956, in respect of which the record has now been completed:

| | |
|---|---|
| Company counsel: | |
| Sidley, Austin, Burgess & Smith, general counsel | $56, 000 |
| Barnes, Hickam, Pantzer & Boyd, Indiana counsel | 7, 425 |
| Shotwell & Brown, Louisiana counsel | 7, 500 |
| Byron, Sandidge and Holbrook, Kentucky counsel | 5, 000 |
| Canada, Russell, Turner & Alexander, Tennessee counsel | 5, 000 |
| Porter, Stanley, Treffinger & Platt, Ohio counsel | 4, 500 |
| Wynn, Hafter, Lake & Tindall, Mississippi counsel | 4, 400 |
| Clare J. Hall, Michigan counsel | 3, 000 |
| Ohmer C. Burnside, Arkansas counsel | 2, 800 |
| Bond purchasers counsel: Sullivan & Cromwell | 30, 000 |
| Total | 125, 625 |

It appearing that the above fees and expenses are not unreasonable and the Commission deeming it appropriate to release the jurisdiction heretofore reserved in respect such counsel fees incurred through February 29, 1956:

*It is ordered*, That the jurisdiction heretofore reserved in respect of counsel fees in connection with the issue and sale by American Louisiana of its first mortgage bonds be, and it hereby is, released, as to the above stated counsel fees incurred through February 29, 1956; and that the jurisdiction heretofore reserved and not heretofore and by this order released be and it hereby is continued.

By the Commission.

[SEAL] ORVAL L. DUBOIS,
*Secretary.*

## DELAWARE POWER & LIGHT CO.

### ORDER AUTHORIZING UNDERWRITTEN COMMON STOCK OFFERING TO STOCKHOLDERS, AND OFFERING OF UNSUBSCRIBED SHARES TO EMPLOYEES

MAY 28, 1956.

Delaware Power & Light Company ("Company"), a registered holding company and a public utility company, has filed a declaration and amendments thereto pursuant to sections 7 and 12 (c) of the Public Utility Holding Company Act of 1935 ("act") and Rules U-42 and U-50 thereunder regarding the following proposed transactions:

The Company proposes to issue and sell, pursuant to the competitive bidding requirements of Rule U-50, 232,520 shares of its unissued Common Stock, par value $13.50 per share, and in addition to sell such shares as may be purchased for the purpose of stabilizing the price of the Common Stock.

The 232,520 shares of Common Stock will be offered to stockholders in accordance with their preemptive rights under the Company's Certificate of Incorporation, on the basis of one share for each eight shares of Common Stock of the Company held of record on June 6, 1956. Transferable warrants evidencing the rights will be issued to Common Stockholders of record as of the close of business on said date. Subject to the rights of the stockholders, the stock will also be offered to employees of the Company and its two subsidiaries in an amount not exceeding 150 shares per employee. The balance, if any, of the stock not subscribed for by holders of warrants and employees will be sold to underwriters.

The Board of Directors of the Company will, not later than 12:00 o'clock noon on June 4, 1956, determine the offering price of the stock to stockholders and employees, which price will be specified in the bids to be submitted by underwriters as the price to be paid to the Company for any unsubscribed stock. Such price will be not more than the last reported sale price on the New York Stock Exchange prior to the fixing thereof and not less than such last reported sale price less 10%. Immediately following determination by the Board of Directors of such offering price, notice of the price will be given to prospective bidders and will be publicly announced by the Company. Bids for the unsubscribed stock will specify the compensation to be paid to the underwriters.

The Company proposes that, for the purpose of stabilizing the price of its Common Stock, it may purchase up to 23,252 shares of the presently outstanding shares on the New York Stock Exchange, the Philadelphia-Baltimore Stock Exchange, in the over-the-counter market, or otherwise. Such stabilization, if commenced, will be terminated not later than the time fixed for the acceptance of a bid for the purchase of the unsubscribed stock. Shares acquired by the Company as a result of such stabilization will be included as part of the unsubscribed stock which will be sold to the underwriters.

Net proceeds from the sale of the Common Stock will be applied toward the cost of the construction program of the Company and its subsidiaries and the retirement of bank loans incurred prior to such sale.

The Company estimates that, aside from the compensation to the underwriters (which will be determined by competitive bidding), the fees and expenses to be incurred in connection herewith will be as follows:

| | |
|---|---|
| Filing and listing fees and issuance taxes | $7, 173 |
| Professional services: | |
| Legal (Berl, Potter & Anderson) | 5, 000 |
| Accounting (Lybrand, Ross Bros. & Montgomery) | 2, 750 |
| Financial adviser (Drexel & Co.) | 3, 000 |
| Transfer and warrant agents | 18, 000 |
| Printing | 24, 042 |
| Miscellaneous | 5, 035 |
| Total | 65, 000 |

Counsel to the underwriters (Townsend, Elliott & Munson) estimate their fee at $5,000 and their expenses at not over $150, to be paid by the successful bidders.

The proposed transactions have been approved by the Public Service Commission of Delaware, in which State the Company is organized and doing business.

Due notice having been given of the filing of said declaration, and a hearing not having been requested of or ordered by the Commission, and the Commission finding with respect to the proposed transactions that the applicable provisions of the Act and the Rules thereunder are satisfied and that no adverse findings are necessary, and deeming it appropriate in the public interest and in the interest of investors and consumers that the declaration as amended be permitted to become effective forthwith:

*It is ordered*, Pursuant to Rule U-23 and the applicable provisions of the act, that said declaration as amended be, and it hereby is, permitted to become effective forthwith, subject to the conditions prescribed in Rules U-50 and U-24.

By the Commission.

[SEAL] ORVAL L. DUBOIS,
*Secretary.*

## SMALL BUSINESS ADMINISTRATION

[Declaration of Disaster Area 103]

### PENNSYLVANIA

### DECLARATION OF DISASTER AREA

Whereas it has been reported that on or about May 13, 1956, because of the disastrous effects of floods and high winds, damage resulted to residences and business property located in certain areas in the State of Pennsylvania;

Whereas the Small Business Administration has investigated and has received

other reports of investigations of conditions in the areas affected; and

Whereas after reading and evaluating reports of such conditions, I find that the conditions in such areas constitute a catastrophe within the purview of the Small Business Act of 1953, as amended:

Now, therefore, as Administrator of the Small Business Administration, I hereby determine that:

1. Applications for disaster loans under the provisions of section 207 (b) (1) of the Small Business Act of 1953, as amended, may be received and considered by the Office below indicated from persons or firms whose property situated in the following counties (including any areas adjacent to the counties below named) suffered damage or other destruction as a result of the catastrophe above referred to:

Counties of: Allegheny and Beaver.

Small Business Administration Regional Office, Jefferson Building, Room 1118, 1015 Chestnut Street, Philadelphia 7, Pennsylvania.

Small Business Administration Branch Office, Fulton Building, Rooms 801–802, 107 Sixth Street, Pittsburgh 22, Pennsylvania.

2. No special field office will be established at this time.

3. Applications for disaster loans under the authority of this Declaration will not be accepted subsequent to November 30, 1956.

Dated: May 21, 1956.

WENDELL B. BARNES,
*Administrator.*

[F. R. Doc. 56-4338; Filed, June 1, 1956; 8:51 a. m.]

## VETERANS ADMINISTRATION

### STATEMENT OF ORGANIZATION

Veterans Administration organization material is amended in its entirety to read as follows:

Sec.
1. General.
2. Central office.
3. Field stations.
4. Addresses of installations and jurisdictional areas of district offices and Insurance Center, D. C.

SECTION 1. *General*—(a) *Authority and functions.* (1) The Veterans Administration administers laws authorizing benefits for former members of the Armed Forces and for the dependents and other beneficiaries of deceased former members of such forces. The Veterans Administration benefits available under various acts of Congress include: compensation for service-connected disability or death; pension for non-service-connected disability or death; emergency officers' retirement pay; vocational rehabilitation for service-connected disability; education and training; guaranty or insurance of home, farm, and business loans, and, under certain conditions, direct home loans; readjustment allowances for unemployment or self employment; United States Government and National Service Life Insurance; insurance indemnity; hospitalization; domiciliary care; outpatient medical and dental care for service-connected disability; prosthetic and other appliances; special housing for certain seriously disabled veterans; automobiles or other conveyances for certain disabled veterans; World War I adjusted service certificates; a guardianship program for the protection of estates derived from Veterans Administration benefits paid to incompetent or minor beneficiaries; burial allowances; and burial flags. In addition, the Veterans Administration administers the insurance section of the Soldiers' and Sailors' Civil Relief Act for persons in the active military service.

(2) The Veterans Administration was established as an independent agency under the President by Executive Order 5398, July 21, 1930, in accordance with the act of July 3, 1930 (46 Stat. 1016; U. S. C. 11). This act authorized the President to consolidate and coordinate Federal agencies especially created for or concerned in the administration of laws providing benefits for veterans.

(b) *General description of organization.* (1) The Veterans Administration is under the charge of the Administrator of Veterans' Affairs who is responsible for the administration of all laws governing the Veterans Administration.

(2) The Veterans Administration is organizationally divided as follows: Central Office, District Offices, Insurance Center—District of Columbia, Regional Offices, Veterans Benefits Office—District of Columbia, Hospitals, Centers, Domiciliaries, VA Offices, Supply Depots, Forms Depot, and Publications Depot.

SEC. 2. *Central office*—(a) *The Administrator.* The Administrator is responsible to the President for the administration of veterans' affairs and the laws which govern them. In him is vested the authority to operate Veterans Administration. He is directly responsible for the establishment of the basic policies governing agency operation; the development and maintenance of its basic organization structure; the interpretation of laws pertaining to veterans' affairs, and the establishment of supplementary regulations; the stimulation and approval of long-range plans; and the development and maintenance of favorable relations with important organizations, groups, and individuals interested in veterans' affairs. As head of an independent agency of the executive branch of the Government, the Administrator is the adviser to the President on veterans' affairs.

(b) *The Deputy Administrator.* The Deputy Administrator is the principal assistant to the Administrator. He is responsible for the planning, direction, and control of the internal operations of the agency. He approves for the Administrator policies and programs to provide maximum service to veterans at the lowest possible cost. He coordinates the activities of all top staff officers and all operating department heads to assure that all operations are moving toward common objectives approved by the Administrator. He is responsible to the Administrator for the planning, evaluation and coordination of programs and program changes, for organizational planning, the guidance of the overall management improvement program, and for securing policy adherence in the implementation of approved programs. The Deputy Administrator serves as Acting Administrator in the absence of the Administrator in all Veterans Administration matters in accordance with authority delegated to him. At all times, he relieves the Administrator of matters of the internal operations of the agency. He, however, keeps the Administrator informed at all times of contemplated major changes or developments.

(c) *Central office organization.* The central office of the Veterans Administration consists of the following staff offices and departments, the heads of which are directly responsible to the Administrator of Veterans' Affairs for the proper performance of all the functions assigned to them:

STAFF OFFICES

Office of the Chairman, Board of Veterans' Appeals.
Office of the General Counsel.
Office of the Controller.
Office of the Director, Information Service.
Office of the Assistant Administrator for Administration.
Office of the Assistant Administrator for Appraisal and Security.
Office of the Assistant Administrator for Construction.
Office of the Assistant Administrator for Personnel.

DEPARTMENTS

Department of Medicine and Surgery.
Department of Veterans Benefits.
Department of Insurance.

(d) *Staff Offices*—(1) *Office of the Chairman, Board of Veterans' Appeals.* (i) The Chairman, pursuant to statute, has jurisdiction over and is responsible to the Administrator for the proper conduct of the activities of the Board of Veterans Appeals, within the framework of established policies, in the consideration and determination of appeals to the Administrator, for benefits under all laws administered by the Veterans Administration. In connection with the subject matter coming before the Board of Veterans Appeals, identifies for the information of the Administrator matters of policy and practice which in his opinion deserve study and/or corrective action.

(ii) The Vice Chairman participates with the Chairman; Board of Veterans Appeals, in policy and planning and is responsible to the Chairman for the professional and operational activities of the Board of Veterans Appeals, in the consideration and determination of appeals to the Administrator for benefits under laws administered by the Veterans Administration. At all times has jurisdiction over and is responsible to the Chairman for all activities of the Board, as follows: Associate Members; Consultant Service; Central Office Appeals Operations; and Field Appeals Operations.

(2) *Office of the General Counsel.* (i) The General Counsel serves as chief officer of the Veterans Administration in all matters of law and legislation.

(ii) As the chief law officer of the Veterans Administration, is responsible to the Administrator for the interpretation of all laws administered by or pertaining to the Veterans Administration, and for establishing precedents thereon through Administrator's decisions, binding upon all officers and employees of the Veterans Administration and upon all claimants and other persons concerned.

(iii) Renders legal advice (formal and informal) and other legal services upon request to all department heads and top staff officers. Is the attorney for the Administrator in all civil actions in State courts and in independent actions in the Fedral courts, and represents the Administrator in all such actions in the Federal courts, and represents the Ad- Department of Justice and keeps all interested Veterans Administration officials informed. Makes final disposition of tort claims within the limitations of the Federal Tort Claims Act, and renders cooperative assistance to the Department of Justice on all actions arising therefrom involving the Veterans Administration or any official thereof.

(iv) Cooperates informally with all department heads and top staff officers in the formulation of governing regulations and amendments thereto and reviews for legal correctness all such regulations or directives.

(v) Serves as the point of contact with all governmental offices on legal and legislative matters, including, in addition to the Department of Justice, the Office of the Comptroller General and the Judge Advocate General of the Armed Forces. Reports to the Department of Justice all matters arising in the Veterans Administration involving probable violation of Federal penal statutes and cooperates with the Department of Justice as requested in the disposition thereof.

(vi) Is legal officer in security proceedings.

(vii) Supervises and coordinates all matters pertaining to proposed legislation, Executive orders, and proclamations affecting the Veterans Administration, including the preparation of proposed legislation, Executive orders, and proclamations, and the preparation of all reports concerning such matters to committee of Congress, the President, the Bureau of the Budget, and other executive agencies.

(viii) Develops and coordinates Veterans Administration policy pertaining to proposed legislation, Executive orders, and proclamations; and records such policy upon approval by the Administrator.

(ix) Serves as a member of the Administrator's Policy Committee.

(x) Represents the Administrator in congressional committee and other hearings and in interdepartmental conferences on legislative matters.

(xi) Receives and as directed by the Administrator disposes of all requests from congressional committees and subcommittees (other than appropriations) or their staffs, except oral requests for purely routine administrative data, and clears all letters and other communications to such committees initiated in the Veterans Administration.

(xii) Collaborates and coordinates with the Controller legislative language in drafts of appropriation bills, amendments thereto, and related communications.

(xiii) Receives and as directed by the Administrator disposes of all requests on the Veterans Administration for preparation of drafts of bills or comment, formally or informally, on proposed legislation or to furnish information concerning pending legislation.

(xiv) Arranges for attendance of Veterans Administration personnel as witnesses or observers at meetings of congressional committees (other than appropriations). Receives and disposes of all requests for detail or assignment of personnel to work with congressional committees or their staffs.

(xv) Prepares compilations of Federal laws pertaining to veterans, annotated, indexed, and cross-referenced, in accordance with Public Resolution 117, 74th Congress, June 20, 1936 (49 Stat. 1569), or as otherwise authorized; and pamphlets, resumes, releases, and documents pertaining to veterans legislation, as required.

(xvi) Maintains liaison with the Senate and House Committees and contact activities in both Houses of Congress.

(xvii) Maintains legislative historical records and service therefrom.

NOTE: By agreement with the Chief Benefits Director and in the interests of economy, the services of Chief Attorney will be utilized by the General Counsel in connection with litigation, claims under the Federal Tort Claims Act, legal questions or services concerning Veterans Administration components other than the Department of Veterans Benefits, and other legal matters within the jurisdiction of the General Counsel. In connection with these matters direct communication between the General Counsel and the respective Chief Attorney is authorized.

(xviii) The Deputy General Counsel acts as full assistant to the General Counsel in the discharge of his responsibilities and acts for the General Counsel in the latter's absence.

(3) *Office of the Controller.* (i) Formulates and recommends to the Administrator general policies and plans of VA-wide application pertaining to the following activities:

(*a*) Fiscal, accounting, and work measurement systems, budgetary, and audit activities.

(*b*) Basic report structure for top management use.

(ii) Advises and assists the heads of the program departments and other top officials in connection with these activities, and appraises for the Administrator the effectiveness and economy of these activities.

(iii) Interprets, for the Administrator and staff and operating officials, laws, regulations, decisions, and directives of other governmental bodies concerned with budgetary and financial matters.

(iv) Reviews and analyzes estimates and prepares consolidated budgets of the Veterans Administration, maintains the general financial books of the Veterans Administration and agency level controls over the expenditure and collection of funds.

(v) Serves as the principal representative of the Veterans Administration with the Bureau of Budget, the Congress, the Treasury Department, the General Accounting Office, and other Government agencies on budget, appropriation, accounting, and all other fiscal matters, and provides for Veterans Administration participation with other Government agencies, international groups, and nongovernmental activities in controller matters in which the Veterans Administration has an interest, collaborating with the heads of operating departments as necessary.

(vi) Controls all reports subject to the Federal Reports Act of 1942.

(vii) Consolidates financial and statistical reports of the program departments to the extent required by the Administrator or required by other agencies.

(viii) Conducts special studies of fiscal, accounting, and budgetary matters, including costs and financial results of operations.

(4) *Office of the Director, Information Service.* (i) Formulates and recommends to the Administrator basic policies governing Veterans Administration public information programs.

(ii) Counsels and advises the Administrator and other levels of management where public interest is involved in the determination of Veterans Administration policy.

(iii) Reviews and coordinates programs for informing the public of Veterans Administration's activities in areas of special interest to operating departments.

(iv) Keeps informed of and appraises for the Administrator the results of public information programs.

(v) Develops and maintains relationships with national information outlets and contacts.

(vi) Obtains, assemblies, prepares, and coordinates information for release through press, radio, and other media to advise veterans and dependents on benefits administered by the Veterans Administration and to provide information concerning the offices where applications for benefits may be made.

(vii) Obtains, assembles, prepares, and coordinates information for release through press, radio, and other media concerning operations of the Veterans Administration.

(viii) Reviews for possible policy conflicts and renders technical advice on the preparation of speeches, articles, pamphlets, posters, transcriptions, films, and other material for public distribution.

(5) *Office of the Assistant Administrator for Administration.* (i) The Assistant Administrator for Administration formulates and recommends to the Administrator general policies and plans of VA-wide application pertaining to the following activities:

(*a*) Purchasing and supply.

(*b*) Office operations and administration.

(ii) Advises and assists the heads of the departments and other top officials in connection with these activities, and appraises for the Administrator the effectiveness and economy of these activities.

(iii) Responsible for housekeeping functions incident to the maintenance of Central Office.

(iv) Is responsible for the management of the Veterans Administration Supply Fund.

(v) Interprets for the Administrator, heads of departments, and other top officials purchasing regulations, decisions,

and directives of the General Services Administration, Bureau of the Budget, and other Government agencies.

(vi) Directs special studies and research in programs, practices, and techniques in areas for which responsible to evaluate their possible application to the Veterans Administration.

(vii) Serves as principal representative of the Veterans Administration with the General Services Administration, and other agencies, public and private, on matters pertaining to purchasing and supply. Provides for Veterans Administration participation with other Government agencies, and nongovernment activities in such matters in which the Veterans Administration has an interest, collaborating with the heads of departments as necessary.

(viii) Plans and directs a safety and fire protection program in buildings, except hospitals, occupied by the Veterans Administration in the metropolitan Washington area; serves as Disaster Relief Director for the Veterans Administration Central Office, Veterans Benefits Office, and Insurance Center, Washington, D. C., involving responsibility for coordinated planning and direction of participation by these offices in civil defense exercises; conducts surveys and inspections to insure continuous effectiveness of these programs.

(6) *Office of the Assistant Administrator for Appraisal and Security.* (i) The Assistant Administrator for Appraisal and Security directs the conduct of investigations, surveys, inspections, and special studies authorized by the Administrator or Deputy Administrator of Veterans Affairs.

(ii) Directs the conduct of internal audits of all activities and elements of Veterans Administration as a basis for protective and constructive service to management.

(iii) Directs the security program of the Veterans Administration.

(iv) Advises and assists the Administrator on all matters involving:

(*a*) The appraisal of all activities of Veterans Administration through internal audit or investigations.

(*b*) The operation of the security program VA-wide.

(v) Submits appraisals for the use of the Administrator or Deputy Administrator of Veterans Affairs; disseminates information from these reports to the heads of the departments and other top officials; and maintains controls to assure that corrective action is accomplished by the responsible officials in accordance with instructions of the Administrator.

(vi) Maintains liaison and acts in cooperation with the officials of other departments and agencies of the Government on these matters.

(vii) Serves as Employment Policy Officer.

(7) *Office of the Assistant Administrator for Construction.* (i) As chief engineer of the Veterans Administration, the Assistant Administrator for Construction formulates and recommends to the Administrator general policies and plans of VA-wide application pertaining to the following activities:

(*a*) Design, construction, maintenance, and operation of buildings, structures, and utilities.

(*b*) Real property management, including acquisition, economical utilization protection, and disposal of real property and interests therein.

(*c*) Accident and fire prevention, fire protection, and disaster relief planning.

(ii) Advises and assists the staff and the heads of the departments in connection with these activities, and appraises for the Administrator the effectiveness and economy of these activities.

(iii) Interprets administratively, for the Administrator and staff and the Chief Medical Director, the Chief Insurance Director, and the Chief Benefits Director, regulations, decisions, and directives of other governmental bodies concerned with these activities.

(iv) Upon consultation with heads of operating departments concerned, develops and takes action to obtain necessary approvals of fiscal year construction programs to provide, convert, and preserve facilities (except operational maintenance and repair), meeting requirements of the operating departments, and consistent with current legislative and executive policy and Veterans Administration responsibility for preservation of real property assets.

(v) Formulates, for inclusion in the consolidated Veterans Administration budget, annual estimates for Veterans Administration construction programs, and participates, with the Controller and department heads concerned, in presentation of the budget for construction programs before the Bureau of the Budget and the Congress.

(vi) Directs and controls design and construction of hospital, domiciliary, and other facilities, major alterations, improvements, and repairs (exclusive of operational maintenance and repair), in conformation with professional standards and operating requirements as defined in collaboration with the operating departments concerned, and within established program and appropriation limitations.

NOTE: In the interest of economy, station services will be made available to the Assistant Administrator for Construction in furtherance of construction operations under his direction. In accordance with approved policy and upon request by the Assistant Administrator, the Chief Medical Director or the Chief Benefits Director or the Chief Insurance Director may direct a station Manager to provide administrative and/or supervisory services, as specified, and as authorized by the Assistant Administrator, in connection with construction projects to be accomplished, by contract or by purchase and hire, at or in the vicinity of the station. Such services will be provided under technical guidance of the Assistant Administrator for Construction, including required project reports to him or his designee, and project costs will be charged to indicated allotments or accounts under his control.

(vii) Takes action for the Veterans Administration to acquire real property and property interests in fee, in accordance with approved program requirements, and to dispose of such real property and interests where excess to the needs of the Veterans Administration (not including transactions within the veterans' loan guaranty program).

(viii) Acts as duly authorized representative of the Administrator under provisions of contracts related to assigned activities.

(ix) The Executive Assistant serves as full assistant to the Assistant Administrator in the discharge of his responsibilities and in the administering of all his functions and acts for the Assistant Administrator in the latter's absence; functions as engineering assistant and consultant on all phases of planning and construction; acts as coordinator of matters involving separate elements of the organization; and represents the Assistant Administrator in consultations with technical organizations, other government agencies, committees, etc.

(8) *Office of the Assistant Administrator for Personnel.* (i) The Assistant Administrator for Personnel advises and assists the Administrator on all matters involving personnel administration in the Veterans Administration.

(ii) Plans and formulates agency-wide personnel policies, programs and methods for application throughout the Veterans Administration.

(iii) Furnishes advice and technical guidance to key agency and department officials concerning policies and regulations governing personnel matters in the Veterans Administration.

(iv) Appraises for the Administrator the effectiveness and economy of the Veterans Administration personnel program.

(v) Directs the internal administrative management affairs of the Office of Personnel.

(vi) Represents the Veterans Administration in outside contacts on all matters relating to personnel administration.

(e) *Departments*—(1) *Department of Medicine and Surgery.* The Chief Medical Director has jurisdiction over and is responsible to the Administrator for the proper conduct of the activities of the Department of Medicine and Surgery, insures complete medical and hospital service for the medical care and treatment of veterans, as prescribed by the Administrator of Veterans Affairs pursuant to Public Law 293, 79th Congress, and other statutory authority and regulations.

The Deputy Chief Medical Director serves as principal assistant to the Chief Medical Director in the discharge of his responsibilities, and acts for the Chief Medical Director in the latter's absence.

(i) *Office of the Assistant Chief Medical Director for Planning.* (*a*) In close collaboration with other Assistant Chief Medical Directors and Controller, Department of Medicine and Surgery, formulates and recommends to the Chief Medical Director policies and plans of departmentwide application within the limitations of VA-wide policies and plans, pertaining to the activities of the following specialties: medical, surgical, psychiatry and neurology, tuberculosis, pathology and allied sciences, physical medicine and rehabilitation, radiology, dietetics, nursing, prosthetic and sensory aids, special services, pharmacy, social work, and chaplains.

(*b*) Develops professional standards governing kinds and quality of staff, facilities, equipment, and supplies needed by the approved program in the various specialties.

(*c*) Plans and forecasts all essential requirements for an integrated program of medical and domiciliary care.

(*d*) Advises and assists the Assistant Chief Medical Director for Operations in connection with the technical and professional aspects of these activities, and appraises for the Chief Medical Director the effectiveness and economy of these activities.

(ii) *Office of the Controller; Department of Medicine and Surgery.* (*a*) Formulates, upon consultation where appropriate with the Assistant Chief Medical Directors, and recommends to the Chief Medical Director policies, plans, and procedures within the limitation of VA-wide policies and plans pertaining to the following activities of the Department of Medicine and Surgery:

(*1*) The budgetary program.

(2) Financial and cost accounting systems.

(*3*) Statistical reporting system.

(*4*) Auditing systems.

(*5*) Manpower utilization programs.

(*6*) Cost improvement.

(*7*) Finance management.

(*b*) Advises and assists the Assistant Chief Medical Director for Operations in connection with these activities, and appraises for the Chief Medical Director the effectiveness of these activities.

(*c*) Maintains departmental financial, budgetary, and cost accounting records.

(*d*) Audits the financial and property records of the Department of Medicine and Surgery to determine legality and propriety of transactions.

(*e*) Assists the Chief Medical Director in the presentation of the Department of Medicine and Surgery budget before the Bureau of the Budget and the Congress.

(*f*) Performs liaison with the Veterans Administration Controller on budget, accounting, auditing, statistical, and related controller functions.

(iii) *Office of the Assistant Chief Medical Director for Dentistry.* (*a*) Formulates, in close collaboration with other Assistant Chief Medical Directors and Controller, Department of Medicine and Surgery, and recommends to the Chief Medical Director policies and plans of departmentwide application within the limitations of VA-wide policies and plans pertaining to an integrated program of dental care.

(*b*) Has direct responsibility and final authority for all dental matters, subject to approval of the Chief Medical Director.

(*c*) Develops professional standards governing kinds and quality of staff, facilities, equipment, and supplies required by the dental program.

(*d*) Advises and assists the Chief Medical Director in connection with these activities, and appraises for the Chief Medical Director the effectiveness and economy of these activities.

(iv) *Office of the Assistant Chief Medical Director for Research and Education.* (*a*) Formulates, in close collaboration with other Assistant Chief Medical Directors and Controller, Department of Medicine and Surgery, and recommends to the Chief Medical Director objectives, policies, and plans of departmentwide application within the limitations of VA-wide policies and plans pertaining to a program of research and education in the Department of Medicine and Surgery.

(*b*) Develops and administers a coordinated research program.

(*c*) Develops a coordinated program of graduate and postgraduate education and in-service training.

(*d*) Advises and assists the Assistant Chief Medical Director for Operations in connection with the technical and professional aspects of these activities, and appraises for the Chief Medical Director the effectiveness and economy of these activities.

(v) *Office of the Assistant Chief Medical Director for Operations.* (*a*) In close collaboration with other Assistant Chief Medical Directors and Controller, Department of Medicine and Surgery:

(*1*) Develops and formulates general operating policies and standards for hospitals, clinics, homes, supply depots, and canteens.

(2) Participates in consideration and solution of all management problems involving basic policies governing operations of the Department of Medicine and Surgery.

(*3*) Directs the operations activities of hospitals, clinics, homes, supply depots, and canteens to assure conformance with approved objectives and policies.

(*4*) Provides the Department of Medicine and Surgery, Central Office, activities with mail and messenger service, central filing service, tabulating service, stenographic pool service, forms and form letters control service, and conducts the work measurement and incentive awards programs.

(vi) *Area Medical Office.* (*a*) Conducts supervisory activities in all field stations under the jurisdiction of the Department of Medicine and Surgery, and takes corrective action within the limits of existing Central Office policy, regulations, and operational directives.

(*b*) Performs additional operating duties as specifically assigned by the Chief Medical Director.

(*c*) Area medical offices are located in the following cities: Atlanta, Ga.; Boston, Mass.; Columbus, Ohio; San Francisco, Calif.; St. Louis, Mo.; St. Paul, Minn.; and Trenton, N. J.

(2) *Department of Veterans Benefits.* The Chief Benefits Director has jurisdiction over, directs, and is responsible to the Administrator for, the conduct of the activities of the Department of Veterans Benefits. Insures the effective execution of an integrated program of veterans benefits consisting of compensation and pension, vocational rehabilitation and education, loan guaranty, guardianship and contact activities of the Veterans Administration.

The Deputy Chief Benefits Director serves as the full assistant to the Chief Benefits Director in the discharge of his responsibilities, acts for him in his absence, and participates fully in the direction of all activities of the Department of Veterans Benefits.

(i) *Office of the Director, Compensation and Pension Service.* (*a*) Formulates and recommends to the Chief Benefits Director plans, regulations, procedures, and standards of department-wide application within the limitations of VA-wide policies and plans pertaining to the following activities:

(*1*) Disability compensation and pension claims.

(2) Claims for automobiles or other conveyances.

(3) Special housing claims.

(*4*) Emergency officers' retirement claims and Reserve officers' retirement pay under Public Law 262, 77th Congress.

(*5*) Eligibility determinations for other services or Government agencies.

(*6*) Death compensation and pension claims.

(*7*) Claims for reimbursement for burial, funeral and transportation expenses of deceased veterans.

(*8*) Claims for accrued compensation, pension, retirement pay, subsistence and training allowances, and readjustment allowances.

(*9*) Waivers of overpayments (other than loan guaranty).

(*10*) Forfeiture of rights and benefits.

(*11*) Claims for Government insurance by beneficiaries of deceased veterans.

(*12*) Claims for servicemen's indemnity.

(*13*) Claims for adjusted compensation in death cases.

(*b*) Appraises for the Chief Benefits Director the effectiveness, efficiency and economy of policies, regulations, procedures and standards in implementing Public Laws and attaining program objectives and the significant effect of the claims program nationally.

(*c*) Reviews proposed legislation and Executive orders to determine the specific effect upon the program and comments and recommends with respect thereto.

(*d*) Maintains liaison with agencies and organizations interested in compensation and pension.

(ii) *Office of the Director, Vocational Rehabilitation and Education Service.* (*a*) Formulates and recommends to the Chief Benefits Director policies, plans, procedures, and standards of departmentwide application within the limitations of VA-wide policies and plans pertaining to the following programs whereby the Veterans Administration effectuates the provisions of Public Law 16, 78th Congress, Public Law 894, 81st Congress, Public Law 346, 78th Congress, Public Law 550, 82d Congress, amendments to such laws, and other related directives relating to the vocational rehabilitation, education and training of disabled and nondisabled veterans.

(*1*) A program for (a) the determination of eligibility for and extent of entitlement to education or training benefits and basic eligibility for vocational rehabilitation, (b) the authorization of benefit payments to veterans under those laws, and (c) the application of the statutory provisions and limitations

which govern the pursuit of courses or programs of education and training.

(2) A program for (a) securing from the appropriate agency of each State a list of approved education and training institutions, (b) conducting business relationships with institutions to establish bases for payment of tuition fees and other allowable charges for the training of veterans, (c) reimbursing States and local agencies for services rendered in connection with the inspection, approval, and supervision of establishments and institutions, maintaining cooperative relationships with such agencies, (d) maintaining liaison between the various agencies of the Federal Government the services of which are used in connection with the education and training of veterans under Public Law 550, 82d Congress.

(3) A program for providing counseling services to veterans including (a) determining need for vocational rehabilitation to restore employability lost by reason of service-connected disability; determining feasibility of training or employment; and providing counseling services to assist disabled veterans in selecting suitable employment objectives; (b) providing counseling services for eligible veterans who desire such services in connection with education and training and for those for whom counseling is required by Veterans Administration regulations; (c) the operation of Veterans Administration guidance centers in educational institutions or other establishments.

(4) A program for prescribing and providing for disabled veterans courses of vocational rehabilitation to restore employability lost by reason of service-connected disabilities; preparing individual training programs to provide such courses including special courses to overcome the handicaps of severe disabilities; locating and negotiating agreements with suitable training facilities to furnish the training indicated by the individual training program; supervising disabled veterans throughout training; declaring disabled veterans rehabilitated when employability has been restored, referring the veteran to the appropriate State and/or Federal employment agency for assistance in obtaining employment and assisting in the placement of seriously disabled veterans in employment.

(5) A program to assure that the conditions under which veterans pursued education or training are in accord with the provisions of the appropriate law.

(6) Program analysis to evaluate the results of the vocational rehabilitation and education program in terms of its objectives and the actual benefits accruing to veterans as a result of the training provided.

(b) In accordance with specific delegation of authority, acts with respect to the following matters: approval of educational institutions and training establishments under Public Law 16 and Public Law 346 and programs of education and training under Public Law 550 where approval by the Administrator is required under the law, including courses and programs given by educational institutions in foreign countries and courses of training given by agencies of the Federal Government; conflict of interest waivers under section 264 of Public Law 550; final administrative determination on requests for review of decisions of Regional Office Committees on Educational Allowances; litigation actions before the Veterans Education Appeals Board; and negotiation and execution of contracts or agreements with State agencies to reimburse such agencies for reasonable and necessary expenses of salaries and travel incurred by employees of such agencies in rendering necessary services in ascertaining the qualifications of educational institutions and training establishments for furnishing courses of education and training to eligible veterans.

(c) Reviews proposed legislation and Executive orders pertaining to the vocational rehabilitation and education programs and recommends to the Chief Benefits Director thereon.

(d) Formulates and recommends to the Chief Benefits Director for publication historical and program analysis data pertaining to the vocational rehabilitation and education program.

(e) Maintains cooperative working relations with national agencies, organizations and associations which deal with or have a bearing on vocational rehabilitation and education of veterans.

(f) Appraises for the Chief Benefits Director the effectiveness, efficiency and economy of policies, regulations, procedures and standards in implementing Public Laws and attaining program objectives and the significant effect of the vocational rehabilitation and education program nationally.

(iii) *Office of the Director, Loan Guaranty Service.* (a) Formulates and recommends to the Chief Benefits Director, policies, plans, procedures and standards of departmentwide application within the limitations of VA-wide policies and plans, pertaining to programs whereby Veterans Administration effectuates the provisions of Title III of the Servicemen's Readjustment Act of 1944, as amended, and other statutes and implementing Executive orders and comparable directives relating to direct and indirect Government financial assistance for the purchase or construction of homes, and the acquisition, management, and operation of business and farming enterprises by veterans, and related activities consequent upon the default, sale, or other disposition of the veterans' contractual obligations and properties.

(b) Advises the Chief Benefits Director as to approved precedent interpretations of laws and regulations and the application of policies and procedures on loan guaranty programs, and prepares decisions in relation thereto for release through appropriate channels to industry groups, trade associations, and program participants as well as for Members of Congress and field officials of Veterans Administration.

(c) Directs a program of financial research to evaluate the effect of Government and private housing, lending, fiscal and underwriting policies and programs on loan guaranty activities, the adequacy of the interest rate on veterans' loans, the levels and capacity of the housing market, and the significance of proposed related legislation.

(d) Directs the continuous analysis and evaluation of economic data and trends affecting residential, business and farm financing, including availability of mortgage funds, residential construction, money market, interest rates, and factors bearing on the default and foreclosure rate on mortgage loans.

(e) Subject to established precedents (opinions of the Solicitor, General Counsel, etc.) furnishes legal advice to all elements of the department pertaining to activities incident to or consequent upon the guaranty, insurance and making of loans.

(f) Directs action on all appeals received from lenders and builders suspended from the program; arranges and schedules hearings; reviews the transcripts thereof and the recommendations of hearing boards; and formulates appropriate action and recommends disposition.

(g) Reviews proposed legislation and Executive orders pertaining to loan guaranty programs and recommends thereon. Recommends proposals for consideration of changes in existing laws relating to loan guaranty programs.

(h) Maintains top level liaison with other components of Federal Government and other organizations and associations interested in the loan guaranty program.

(i) Appraises for the Chief Benefits Director the effectiveness, efficiency, and economy of policies, regulations, procedures and standards in implementing Public Laws and attaining program objectives.

(iv) *Office of the Director, Guardianship Service.* (a) Formulates and recommends to the Chief Benefits Director, policies, plans, procedures and standards of departmentwide application within the limitations of VA-wide policies and plans pertaining to the following activities: the Veterans Administration guardianship program under section 21 of the World War Veterans' Act, as amended, an act to safeguard the estates of minors and incompetents entitled to benefits under acts administered by the Veterans Administration (38 U. S. C. 450), including courts in which the Administrator of Veterans Affairs is represented by his duly authorized attorney; and the field examination program, including field examinations in guardianship cases; compensation, pension, retirement, insurance, and indemnity cases; vocational rehabilitation and education cases, loan guaranty cases, and other matters.

(b) Furnishes legal advice and assistance to the Chief Benefits Director with respect to the application of the Federal and State laws, and Veterans Administration regulations and instructions pertaining to guardianship and field examination activities.

(c) Advises the Chief Benefits Director on matters involving State legislation affecting the guardianship program and commitment of mentally ill veterans.

(d) Maintains liaison with agencies and organizations interested in these activities.

(e) Appraises for the Chief Benefits Director the effectiveness, efficiency and economy of policies, plans, procedures and standards in implementing Public Laws and attaining program objectives, and the significant effect thereof on the guardianship activities nationally.

(f) Formulates and recommends to the Chief Benefits Director work-rate and quality performance standards and related work measurement reporting system for all activities of the Office of the Chief Attorney; conducts studies to assure continued validity of the standards and reliability of the work measurement system.

(v) *Office of the Director, Administration Service.* (a) Formulates and recommends to the Chief Benefits Director policies, plans, procedures and standards of departmentwide application within the limitations of VA-wide policies and plans pertaining to:

(1) Departmentwide management improvement and work simplification programs.

(2) Departmentwide paperwork management program.

(3) Departmentwide establishment and maintenance of quality and work-rate standards and work measurement reporting systems.

(4) Office administration activities (machine records and accounting activities, records management and general office operations).

(5) Supply management, supply fund management, procurement, real property management and engineering.

(b) As directed by the Chief Benefits Director or the Deputy Chief Benefits Director initiates, coordinates and conducts organizational and procedural studies of operating methods and other special studies; develops and recommends any improvement in the administrative and operational practices as evidenced by such studies.

(c) Maintains liaison with Veterans Administration officials, other agencies and organizationas on matters of mutual interest.

(d) Advises and assists the Chief Benefits Director in connection with the foregoing activities and appraises for him the effectiveness and economy of the policy and plans for these programs.

(vi) *Office of the Controller, Department of Veterans Benefits.* (a) Formulates, upon consultation where appropriate with staff officials, and recommends to the Chief Benefits Director policies, plans and procedures within the limitations of VA-wide policies and plans pertaining to the following activities of the Department of Veterans Benefits: the budgetary programs; the accounting, budgetary and fiscal systems; and an integrated system of financial and statistical reporting.

(b) Appraises for the Chief Benefits Director the effectiveness, efficiency and economy of policies, regulations, procedures and standards in implementing Public Laws and attaining program objectives.

(c) Recommends to the Chief Benefits Director with respect to allotments to be made from funds under control of department and allots funds within overall approved budgetary programs of the department.

(d) Maintains departmentwide accounting and budgetary control records.

(e) Is responsible for the development of cost consciousness on the part of all executives of the department and promotion of better management through a program of improved accounting.

(f) Formulates and recommends to the Chief Benefits Director work-rate and quality performance standards and related work-measurement reporting systems for finance activities; conducts periodic studies to assure continued validity of the standards and reliability of the work-measurement system.

(g) Serves as the principal point of contact with Office of the Controller (Veterans Administration) and in conjunction with the latter, with the General Accounting Office, Bureau of the Budget and other Government agencies on these activities.

(vii) *Office of the Director, Personnel Service.* (a) Serves as technical advisor on personnel matters in the Department of Veterans Benefits and formulates and recommends to the Chief Benefits Director policies, plans, procedures, and standards of departmentwide application within the limitations of VA-wide policies and plans pertaining to personnel management, including administration of the incentive awards program.

(b) Appraises for the Chief Benefits Director the effectiveness, efficiency and economy of policies, plans, procedures and standards in implementing Public Laws and attaining program objectives.

(c) Exercises technical personnel authorities within limitations imposed by current delegations and restrictions.

(d) Formulates and recommends to the Chief Benefits Director work-rate and quality performance standards and related work-measurement reporting systems for personnel functions; conducts periodic studies to assure continued validity of the standards and reliability of the work-measurement system.

(viii) *Office of the Director, Field Service.* (a) Administers for the Chief Benefits Director the program of continuous supervision of all work performed in all field stations of the department in order to:

(1) Assure conformance with the laws, regulations, policies, procedures and standards.

(2) Ascertain whether all activities are conducted efficiently and economically, directing or recommending appropriate action.

(3) Appraise for the Chief Benefits Director the performance of all field activities of the department as to end products.

(4) Evaluate for the Chief Benefits Director field station management.

(5) Evaluate for the Chief Benefits Director the utilization of manpower, material and funds.

(6) Furnish assistance to field stations in the solution of management and operational problems.

(7) Identify major management problems, areas or opportunities for improvement and recommend appropriate action.

(8) Identify for departmentwide purposes, organizational units or individual employees who have made outstanding contributions to the effectiveness or economy of operations.

(9) Identify improvements in practices, techniques and procedures in one or more stations and recommend action to disseminate such information to the field stations as appropriate.

(b) Directs the activities of the area supervision offices.

(c) Formulates and recommends to the Chief Benefits Director plans, procedures and standards for the supervision and evaluation of all work performed in all field stations of the department and for the inspection functions of the department.

(d) Develops instructions and technical aids to provide for the most effective implementation of approved policies pertaining to the supervision and inspection functions of the department.

(e) Conducts a continuing program of in-service training for field supervision personnel.

(f) Furnishes analyses and evaluation of field activities as reflected in supervision reports and related correspondence, recurring statistical reports and other sources.

(g) Reviews supervisory reports on a postaudit basis.

(h) Furnishes necessary assistance to field stations through special visits by area offices or Department of Veterans Benefits personnel to aid management in the solution of problems.

(i) Formulates and recommends to the Chief Benefits Director policies, plans, procedures, and standards of departmentwide application within the limitation of VA-wide policies and plans pertaining to contact and liaison activities in the Veterans Administration departments which furnish information, advice, and assistance to veterans, their dependents and beneficiaries, and the general public on veterans benefits provided by laws administered by the Veterans Administration; and foreign affairs activities.

(ix) *Area Supervision Office.* (a) Under the direction of the Director, Field Service, supervises all work performed in all field stations of the department within an assigned geographical area, performing the following: conducts the program of continuous supervision of all work performed in all field stations of the department in order to assure conformance with the laws, regulations, policies, procedures and standards; ascertain whether all activities are conducted efficiently and economically, directing or recommending appropriate action; appraise for the Director Field Service, the performance of all field activities of the department as to end products; evaluate for the Director, Field Service, field station management; evaluate for the Director, Field Service, the utilization of manpower, material and funds; furnish assistance to field stations in the solution of management and operational problems; identify major management problems, areas or opportunities for improvement, including changes in organization structure and changes in field station pattern, and recommend appropriate ac-

tion; identify for departmentwide purposes, organizational units or individual employees who have made outstanding contributions to the effectiveness or economy of operations; and identify improvements in practices, techniques and procedures in one or more stations and recommend action to disseminate such information to the field stations as appropriate.

(b) Conducts inspection functions of the department within the assigned area; directs regularly scheduled surveys of each assigned field station by field supervisors who will report on conditions found, assist in, initiate or direct corrective action as warranted; area representatives will act on the reports including the Manager's comments forwarding to the Director, Field Service, matters that cannot be resolved or are not covered by existing regulations, policies and procedures; advises the Director, Field Service, of the current effectiveness of field stations and makes recommendations with respect thereto; arranges supervisory itineraries and coordinates visits to field stations with other governmental agencies; determines need for special supervision in particular field stations where unusual problems require immediate attention, makes such visits and provides such help as is necessary; identifies program area requiring in-service training and staff development; stimulates, assists in arranging for, and participates in regional office in-service training; performs liaison functions between central office, field stations, other agencies and organizations as directed; and conducts special studies, inquiries, and other assignments as directed.

(c) Area supervision offices are located in the following cities: Atlanta, Ga.; Chicago, Ill.; Dallas, Tex.; Hartford, Conn.; and San Francisco, Calif.

(3) *Department of Insurance.* The Chief Insurance Director has jurisdiction over and is responsible to the Administrator for the proper conduct of the activities of the Department of Insurance, insures the effective execution of an integrated program of insurance.

The Deputy Chief Insurance Director serves as the full assistant to the Chief Insurance Director and acts for that official during periods of his unavailability; participates fully in the direction of all activities of the Department of Insurance, specifically: assures that operations conducted in the Insurance Centers conform to all applicable laws or regulations and established policies, standards, or procedures; is responsible for the personnel management, organization, training, office operation and administration, purchasing and supply work measurement, management improvement, work simplification, records management, and incentive awards activities; and assures that all operations are conducted economically and efficiently.

(i) *Office of the Chief Actuary.* (a) Formulates and recommends to the Chief Insurance Director general policies and plans of departmentwide application within the limitation of VA-wide policies and plans pertaining to insurance actuarial activities.

(b) Advises and assists the Deputy Chief Insurance Director in connection with the actuarial activities and appraises for the Chief Insurance Director the effectiveness and economy of these activities.

(c) Acts as a member of the policy board, Department of Insurance.

(d) Conducts mortality and disability studies and analyses of experience, establishes and calculates policy rates and values, and determines surplus and apportionment of dividends.

(e) Determines the status of the United States Government Life Insurance Fund, the National Service Life Insurance Fund, the revolving funds established under Public Law 23, 82d Congress.

(f) Performs special studies relating to actuarial matters.

(ii) *Office of the Director, Underwriting Service.* (a) Formulates and recommends to the Chief Insurance Director policies and plans of departmentwide application within the limitation of VA wide policies and plans pertaining to insurance underwriting.

(b) Advises and assists the Deputy Chief Insurance Director in connection with the underwriting activity, and appraises for the Chief Insurance Director the effectiveness and economy of that activity.

(c) Acts as a member of the policy board, Department of Insurance.

(d) Reviews evidence, determines the facts, and prepares and recommends decisions on protest, no record, and unusually complicated underwriting cases.

(iii) *Office of the Director, Insurance Accounts Service.* (a) Formulates and recommends to the Chief Insurance Director policies and plans of departmentwide application within the limitation of VA-wide policies and plans pertaining to insurance accounting.

(b) Advises and assists the Deputy Chief Insurance Director in connection with insurance accounting, and appraises for the Chief Insurance Director the effectiveness and economy of that activity.

(c) Acts as a member of the policy board, Department of Insurance.

(d) Reviews evidence, determines the facts, and prepares and recommends decisions on protest and unusually complicated cases involving insurance accounting matters.

(iv) *Office of the Director, Insurance Claims Service.* (a) Formulates and recommends to the Chief Insurance Director policies and plans of departmentwide application within the limitation of VA-wide policies and plans pertaining to insurance claims.

(b) Advises and assists the Deputy Chief Insurance Director in connection with insurance claims, and appraises for the Chief Insurance Director the effectiveness and economy of that activity.

(c) Acts as a member of the policy board, Department of Insurance.

(d) Reviews, develops evidence, makes determinations of fact, and prepares and recommends decisions, involving questions of legal and medical nature on protest, litigated and highly complicated disability insurance claims cases.

(v) *Office of the Controller, Department of Insurance.* (a) Formulates and recommends to the Chief Insurance Director policies and plans of departmentwide application within the limitation of VA-wide policies and plans pertaining to the following functions:

(1) Preparation of statements and other accounting reports relating to appropriated, trust, and revolving funds.

(2) Maintenance of trust funds and revolving fund accounts.

(3) Maintenance of employee and payee accounts and related activities of the Insurance Centers.

(b) Advises and assists the Deputy Chief Insurance Director in connection with these activities and appraises for the Chief Insurance Director the effectiveness and economy of these activities.

(c) Maintains accounting control over the distribution and use of appropriated funds.

(d) Reviews and consolidates the annual and quarterly insurance budgets.

(e) Performs spot or sample audits of collection, premium accounting, loan, lien, dividend, and associated records in all Insurance Centers to determine accuracy of transactions and effectiveness of accounting controls, and conducts periodic audit of all financial records.

(f) Participates in the justification of budget estimates of the Department of Insurance before Bureau of the Budget representatives and congressional committees.

SEC. 3. *Field Stations.* This term applies to Veterans Administration installations located in the field, and includes the following:

(a) *District office.* A Veterans Administration district office is a major field organizational element established to render, within an assigned geographical area, services provided by law and under properly constituted authority, to veterans, their dependents and beneficiaries in connection with National Service Life insurance and certain types of death claims (effective June 11, 1956, jurisdiction over all new death claims will be assigned to the appropriate regional offices in the continental United States). The office implements established plans, policies and procedures for the National Service Life insurance and death claims programs of the Veterans Administration, and conducts the auxiliary services essential to the operation of the district office including finance, personnel, administrative and supply activities. (See section 4 (b) for respective jurisdictions.)

(b) *Insurance Center, District of Columbia.* The Insurance Center, District of Columbia, is a major field organizational element established to render services provided by law and under properly constituted authority to all policyholders of United States Government Life insurance and policyholders of National Service Life insurance paying premiums by allotment from service department pay, and those residing in foreign countries. The office implements established plans, policies and procedures for the Government life insurance programs and assures that all auxiliary services of personnel, finance, administrative and supply essential to the operation of the center are conducted effectively and economically.

(c) *Regional office.* A Veterans Administration regional office is a field station which under properly constituted authority grants benefits and services provided by law for veterans, their dependents, and beneficiaries within an assigned territory; furnishes information as to all Veterans Administration benefits and services; procures data regarding applications and claims; rates and adjudicates claims and makes awards for disability compensation and pension; conducts physical and mental examinations for claims purposes; establishes eligibility and need for hospitalization in other Government and private institutions and State-home care; renders outpatient treatment and social service; handles guardianship and fiduciary matters and authorized legal proceedings; aids, guides and prescribes vocational rehabilitation training and administers educational benefits; guarantees loans for purchase or construction of homes, farms, or business property and, under certain conditions, makes direct home loans; after June 10, 1956, processes all new death claims in those regional offices located within the continental United States; aids and otherwise assists the veteran in exercising his rights to benefits and services; conducts administrative, finance, supply, files, and records activities; and supervises Veterans Administration offices under its jurisdiction.

(d) *Veterans Benefits Office, District of Columbia.* The Veterans Benefits Office, District of Columbia, is a field station which grants benefits and services provided by law for veterans, their dependents and beneficiaries. This office performs the functions of a regional office for an assigned territory and in addition adjudicates claims for death compensation and pension, all types of Government insurance and indemnity benefits filed by beneficiaries of deceased veterans, and reimbursement for burial, funeral, and transportation expenses of deceased veterans not assigned to the Veterans Administration district offices.

(e) *Hospital.* A Veterans Administration hospital is an organizational element established to provide all eligible beneficiaries with the best diagnostic and therapeutic services in accordance with the highest current professional standards. Hospitals are generally classified as GM&S (General Medical and Surgical), NP (Neuropsychiatric), and TB (Tuberculosis) indicating the major type of treatment. Usually, however, hospitals are equipped to render more than one type of treatment and some hospitals have facilities for highly specialized services such as those for tumors, chest surgery, neurosurgery, paraplegia, etc.

(f) *Center.* A Veterans Administration center is an organizational element consisting of a combination of activities of two or more of the following Veterans Administration field stations under jurisdiction of one Manager: District office, regional office, hospital, or domiciliary.

(g) *Domiciliary.* A Veterans Administration domiciliary is a field station having only domiciliary activities. By domiciliary activities is meant the providing of a home and the furnishing of domiciliary care and medical treatment when needed to those veterans who are unable because of their disabilities to care for themselves but who are not in need of nursing service, constant medical supervision, or definitive medical treatment. Domiciliary service is not to be considered as a convalescent home or an adjunct to the hospital for treatment of chronic diseases or as custodial care of incompetent veterans.

(h) *VA Office.* A VA office is an organizational element under either a Manager or an officer-in-charge established to provide contact service and such other service as cannot be conveniently provided to veterans, their dependents and beneficiaries, and others in a given locality by the parent regional office or center.

(i) *Other field installations.* In addition to the installations referred to in paragraph (a) through (h) of this section, there are a limited number of supply depots, a forms depot, a publications depot, and a separate outpatient clinic.

SEC. 4. *Addresses of installations and jurisdictional areas of district offices and Insurance Center, D. C.*—(a) *Addresses of Veterans Administration installations.* This is a guide to the location of Veterans Administration field stations in each State (also Alaska, Canal Zone, Hawaii, and Philippines), where information may be obtained by personal contact or correspondence concerning benefits to veterans and their dependents and beneficiaries. The parent regional offices and centers having regional office activities are listed, with the VA Offices (formerly subregional and contact offices) indented thereunder. VA Offices having medical activities are preceded by an asterisk.

## DEPARTMENT OF JUSTICE

### Office of Alien Property

[Vesting Order SA–47]

NATIONAL BANK OF HUNGARY

In re: Debt owing to National Bank of Hungary, also known as Ungarische Nationalbank Bankabteilung, and as Magyar Nemzeti Bank; F–34–11.

Under the authority of Title II of the International Claims Settlement Act of 1949, as amended (69 Stat. 562), Executive Order 10644, November 7, 1955 (20 F. R. 8363), Department of Justice Order No. 106–55, November 23, 1955 (20 F. R. 8993), and pursuant to law, after investigation, it is hereby found and determined:

1. That the property described as follows: That certain debt or other obligation of the Bankers Trust Company, 16 Wall Street, New York 15, N. Y., arising out of an account entitled, "Ungarische National Bank, Budapest, Hungary," maintained at the aforesaid bank, together with any and all rights to demand, enforce and collect the same,

is property within the United States which was blocked in accordance with Executive Order 8389, as amended, and remained blocked on August 9, 1955, and which is, and as of September 15, 1947, was, owned directly or indirectly by National Bank of Hungary, also known as Ungarische Nationalbank Bankabteilung, and as Magyar Nemzeti Bank as defined in said Executive Order 8389, as amended.

2. That the property described herein is not owned directly by a natural person.

There is hereby vested in the Attorney General of the United States the property described above, to be administered, sold, or otherwise liquidated, in accordance with the provisions of Title II of the International Claims Settlement Act of 1949, as amended.

It is hereby required that the property described above be paid, conveyed, transferred, assigned and delivered to or for the account of the Attorney General of the United States in accordance with directions and instructions issued by or for the Assistant Attorney General, Director, Office of Alien Property, Department of Justice.

The foregoing requirement and any supplement thereto shall be deemed instructions or directions issued under Title II of the International Claims Settlement Act of 1949, as amended. Attention is directed to Section 205 of said Title II (69 Stat. 562) which provides that:

Any payment, conveyance, transfer, assignment, or delivery of property made to the President or his designee pursuant to this title, or any rule, regulation, instruction, or direction issued under this title, shall to the extent thereof be a full acquittance and discharge for all purposes of the obligation of the person making the same; and no person shall be held liable in any court for or in respect of any such payment, conveyance, transfer, assignment, or delivery made in good faith in pursuance of and in reliance on the provisions of this title, or of any rule, regulation, instruction, or direction issued thereunder.

Executed at Washington, D. C., on May 28, 1956.

For the Attorney General.

[SEAL] DALLAS S. TOWNSEND,
*Assistant Attorney General,*
*Director, Office of Alien Property.*

[F. R. Doc. 56–4327; Filed, June 1, 1956; 8:49 a. m.]

[Vesting Order SA–48]

NATIONAL BANK OF HUNGARY

In re: Debt owing to National Bank of Hungary, also known as Ungarische Nationalbank Bankabteilung, and as Magyar Nemzeti Bank; F–34–11.

Under the authority of Title II of the International Claims Settlement Act of 1949, as amended (69 Stat. 562), Executive Order 10644, November 7, 1955 (20 F. R. 8363), Department of Justice Order No. 106–55, November 23, 1955 (20 F. R. 8993), and pursuant to law, after investigation, it is hereby found and determined:

1. That the property described as follows: That certain debt or other obligation of The Chase Manhattan Bank, 18 Pine Street, New York 15, N. Y., arising out of an account entitled, "National Bank of Hungary, Banking Department, Budapest, Hungary, Blocked Account," maintained at the aforesaid bank, together with any and all rights to demand, enforce and collect the same,

is property within the United States which was blocked in accordance with Executive Order 8389, as amended, and remained blocked on August 9, 1955, and which is, and as of September 15, 1947, was, owned directly or indirectly by the National Bank of Hungary, also known as Ungarische Nationalbank Bankabteilung, and as Magyar Nemzeti Bank, Budapest, Hungary, a national of Hungary as defined in said Executive Order 8389, as amended.

2. That the property described herein is not owned directly by a natural person.

There is hereby vested in the Attorney General of the United States the property described above, to be administered, sold, or otherwise liquidated, in accordance with the provisions of Title II of the International Claims Settlement Act of 1949, as amended.

It is hereby required that the property described above be paid, conveyed, transferred, assigned and delivered to or for the account of the Attorney General of the United States in accordance with directions and instructions issued by or for the Assistant Attorney General, Director, Office of Alien Property, Department of Justice.

The foregoing requirement and any supplement thereto shall be deemed instructions or directions issued under Title II of the International Claims Settlement Act of 1949, as amended. Attention is directed to section 205 of said Title II (69 Stat. 562) which provides that:

Any payment, conveyance, transfer, assignment, or delivery of property made to the President or his designee pursuant to this title, or any rule, regulation, instruction, or direction issued under this title, shall to the extent thereof be a full acquittance and discharge for all purposes of the obligation of the person making the same; and no person shall be held liable in any court for or in respect of any such payment, conveyance, transfer, assignment, or delivery made in good faith in pursuance of and in reliance on the provisions of this title, or of any rule, regulation, instruction, or direction issued thereunder.

Executed at Washington, D. C., on May 28, 1956.

For the Attorney General.

[SEAL] DALLAS S. TOWNSEND,
*Assistant Attorney General,*
*Director, Office of Alien Property.*

[Vesting Order SA-49]

NATIONAL BANK OF HUNGARY

In re: Debts owing to National Bank of Hungary, also known as Ungarische Nationalbank Bankabteilung and as Magyar Nemzeti Bank; F-34-11.

Under the authority of Title II of the International Claims Settlement Act of 1949, as amended (69 Stat. 562), Executive Order 10644, November 7, 1955 (20 F. R. 8363), Department of Justice Order No. 106-55, November 23, 1955 (20 F. R. 8993), and pursuant to law, after investigation, it is hereby found and determined:

1. That the property described as follows: a. That certain debt or other obligation of Federal Reserve Bank of New York, 33 Liberty Street, New York 45, N. Y., arising out of a dollar deposit account entitled "Magyar Nemzeti Bank," maintained at the aforesaid bank, together with any and all rights to demand, enforce and collect the same;

b. That certain debt or other obligation of Federal Reserve Bank of New York, 33 Liberty Street, New York 45, N. Y., in the sum of $105.52, being a portion of an account entitled, "Bank for International Settlements Special Blocked Account Sub-Account No. 1," maintained at the aforesaid bank, together with any and all rights to demand, enforce and collect the same,

is property within the United States which was blocked in accordance with Executive Order 8389, as amended, and remained blocked on August 9, 1955, and which is, and as of September 15, 1947, was, owned directly or indirectly by the National Bank of Hungary, also known as the Ungarische Nationalbank Bankabteilung and as Magyar Nemzeti Bank, Budapest, Hungary, a national of Hungary as defined in said Executive Order 8389, as amended.

2. That the property described herein is not owned directly by a natural person.

There is hereby vested in the Attorney General of the United States the property described above, to be administered, sold, or otherwise liquidated, in accordance with the provisions of Title II of the International Claims Settlement Act of 1949, as amended.

It is hereby required that the property described above be paid, conveyed, transferred, assigned and delivered to or for the account of the Attorney General of the United States in accordance with directions and instructions issued by or for the Assistant Attorney General, Director, Office of Alien Property, Department of Justice.

The foregoing requirement and any supplement thereto shall be deemed instructions or directions issued under Title II of the International Claims Settlement Act of 1949, as amended. Attention is directed to Section 205 of said Title II (69 Stat. 562) which provides that:

Any payment, conveyance, transfer, assignment, or delivery of property made to the President or his designee pursuant to this title, or any rule, regulation, instruction, or direction issued under this title, shall to the extent thereof be a full acquittance and discharge for all purposes of the obligation of the person making the same; and no person shall be held liable in any court for or in respect of any such payment, conveyance, transfer, assignment, or delivery made in good faith in pursuance of and in reliance on the provisions of this title, or of any rule, regulation, instruction, or direction issued thereunder.

Executed at Washington, D. C., on May 28, 1956.

For the Attorney General.

[Vesting Order SA-50]

NATIONAL BANK OF HUNGARY

In re: Debt owing to National Bank of Hungary, also known as Ungarische Nationalbank Bankabteilung and as Magyar Nemzeti Bank; F-34-11.

Under the authority of Title II of the International Claims Settlement Act of 1949, as amended (69 Stat. 562), Executive Order 10644, November 7, 1955 (20 F. R. 8363), Department of Justice Order No. 106-55, November 23, 1955 (20 F. R. 8993), and pursuant to law, after investigation, it is hereby found and determined:

1. That the property described as follows: That certain debt or other obligation of the Guaranty Trust Company of New York, 140 Broadway, New York 15, N. Y., arising out of an account entitled, "National Bank of Hungary Board of Exchange," maintained at the aforesaid bank, together with any and all rights to demand, enforce and collect the same,

is property within the United States which was blocked in accordance with Executive Order 8389, as amended, and remained blocked on August 9, 1955, and which is, and as of September 15, 1947 was, owned directly or indirectly by the National Bank of Hungary, also known as Ungarische Nationalbank Bankabteilung and as Magyar Nemzeti Bank, Budapest, Hungary, a national of Hungary as defined in said Executive Order 8389, as amended.

2. That the property described herein is not owned directly by a natural person.

There is hereby vested in the Attorney General of the United States the property described above, to be administered, sold, or otherwise liquidated, in accordance with the provisions of Title II of the International Claims Settlement Act of 1949, as amended.

It is hereby required that the property described above be paid, conveyed, transferred, assigned and delivered to or for the account of the Attorney General of the United States in accordance with directions and instructions issued by or for the Assistant Attorney General, Director, Office of Alien Property, Department of Justice.

The foregoing requirement and any supplement thereto shall be deemed instructions or directions issued under Title II of the International Claims Settlement Act of 1949, as amended. Attention is directed to Section 205 of said Title II (69 Stat. 562) which provides that:

Any payment, conveyance, transfer, assignment, or delivery of property made to the President or his designee pursuant to this title, or any rule, regulation, instruction, or direction issued under this title, shall to the extent thereof be a full acquittance and discharge for all purposes of the obligation of the person making the same; and no person shall be held liable in any court for or in respect of any such payment, conveyance, transfer, assignment, or delivery made in good faith in pursuance of and in reliance on the provisions of this title, or of any rule, regulation, instruction, or direction issued thereunder.

Executed at Washington, D. C., on May 28, 1956.

For the Attorney General.

[SEAL] DALLAS S. TOWNSEND,
*Assistant Attorney General,*
*Director, Office of Alien Property.*

NATIONAL BANK OF HUNGARY

In re: Debt owing to National Bank of Hungary, also known as Ungarische Nationalbank Bankabteilung and as Magyar Nemzeti Bank; F-34-11.

Under the authority of Title II of the International Claims Settlement Act of 1949, as amended (69 Stat. 562), Executive Order 10644, November 7, 1955 (20 F. R. 8363), Department of Justice Order No. 106-55, November 23, 1955 (20 F. R. 8993), and pursuant to law, after investigation, it is hereby found and determined:

1. That the property described as follows: That certain debt or other obligation of The Irving Trust Company, One Wall Street, New York 15, N. Y., arising out of an account entitled, "National Bank of Hungary, Budapest, Hungary," maintained at the aforesaid bank, together with any and all rights to demand, enforce and collect the same,

is property within the United States which was blocked in accordance with Executive Order 8389, as amended, and remained blocked on August 9, 1955, and which is, and as of September 15, 1947, was, owned directly or indirectly by the National Bank of Hungary, also known as Ungarische Nationalbank Bankabteilung and as Magyar Nemzeti Bank, Budapest, Hungary, a national of Hungary as defined in said Executive Order 8389, as amended.

2. That the property described herein is not owned directly by a natural person.

There is hereby vested in the Attorney General of the United States the property described above, to be administered, sold, or otherwise liquidated, in accordance with the provisions of Title II of the International Claims Settlement Act of 1949, as amended.

It is hereby required that the property described above be paid, conveyed, transferred, assigned and delivered to or for the account of the Attorney General of the United States in accordance with directions and instructions issued by or for the Assistant Attorney General, Director, Office of Alien Property, Department of Justice.

The foregoing requirement and any supplement thereto shall be deemed instructions or directions issued under Title II of the International Claims Settlement Act of 1949, as amended. Attention is directed to section 205 of said Title II (69 Stat. 562) which provides that:

Any payment, conveyance, transfer, assignment, or delivery of property made to the President or his designee pursuant to this title, or any rule, regulation, instruction, or direction issued under this title, shall to the extent thereof be a full acquittance and discharge for all purposes of the obligation of the person making the same; and no person shall be held liable in any court for or in respect of any such payment, conveyance, transfer, assignment, or delivery made in good faith in pursuance of and in reliance on the provisions of this title, or of any rule, regulation, instruction, or direction issued thereunder.

Executed at Washington, D. C., on May 28, 1956.

For the Attorney General.

[SEAL] DALLAS S. TOWNSEND,
*Assistant Attorney General,*
*Director, Office of Alien Property.*

NATIONAL BANK OF HUNGARY

In re: Debt owing to National Bank of Hungary, also known as Ungarische Nationalbank Bankabteilung and as Magyar Nemzeti Bank; F-34-11.

Under the authority of Title II of the International Claims Settlement Act of 1949, as amended (69 Stat. 562), Executive Order 10644, November 7, 1955 (20 F. R. 8363), Department of Justice Order No. 106-55, November 23, 1955 (20 F. R. 8993), and pursuant to law, after investigation, it is hereby found and determined:

1. That the property described as follows: That certain debt or other obligation of the Superintendent of Banks of the State of New York, Albany, N. Y., as Liquidator of the Business and Property in New York of Banca Commerciale Italiana, arising out of a blocked account entitled, "National Bank of Hungary, Budapest, Hungary," representing a 100% liquidating dividend on an account payable to the National Bank of Hungary as a creditor of Banca Commerciale Italiana, New York Agency, maintained by the aforesaid Superintendent of Banks, together with any and all rights to demand, enforce and collect the same, is property within the United States which was blocked in accordance with Executive Order 8389, as amended, and remained blocked on August 9, 1955, and which is and as of September 15, 1947, was, owned directly or indirectly by the National Bank of Hungary, also known as Ungarische Nationalbank Bankabteilung and as Magyar Nemzeti Bank, Budapest, Hungary, a national of Hungary as defined in said Executive Order 8389, as amended.

2. That the property described herein is not owned directly by a natural person.

There is hereby vested in the Attorney General of the United States the property described above, to be administered, sold, or otherwise liquidated, in accordance with the provisions of Title II of the International Claims Settlement Act of 1949, as amended.

It is hereby required that the property described above be paid, conveyed, transferred, assigned and delivered to or for the account of the Attorney General of the United States in accordance with directions and instructions issued by or for the Assistant Attorney General, Director, Office of Alien Property, Department of Justice.

The foregoing requirement and any supplement thereto shall be deemed instructions or directions issued under Title II of the International Claims Settlement Act of 1949, as amended. Attention is directed to section 205 of said Title II (69 Stat. 562) which provides that:

Any payment, conveyance, transfer, assignment, or delivery of property made to the President or his designee pursuant to this title, or any rule, regulation, instruction, or direction issued under this title, shall to the extent thereof be a full acquittance and discharge for all purposes of the obligation of the person making the same; and no person shall be held liable in any court for or in respect of any such payment, conveyance, transfer, assignment, or delivery made in good faith in pursuance of and in reliance on the provisions of this title, or of any rule, regulation, instruction, or direction issued thereunder.

Executed at Washington, D. C., on May 28, 1956.

For the Attorney General.

BANQUE DE CREDIT ROUMAIN S. A.

In re: Debt owing to Banque de Credit Roumain S. A., also known as Banca Credit Roman and as Rumanische Kreditbank; F-57-99.

Under the authority of Title II of the International Claims Settlement Act of 1949, as amended (69 Stat. 562), Executive Order 10644, November 7, 1955 (20 F. R. 8363), Department of Justice Order No. 106-55, November 23, 1955 (20 F. R. 8993), and pursuant to law, after investigation, it is hereby found and determined:

1. That the property described as follows: That certain debt or other obligation of The First National Bank of Boston, Boston 6, Mass., arising out of an account entitled, "Banque de Credit Roumain, S. A., Bucharest, Rumania," maintained at the aforesaid bank, together with any and all rights to demand, enforce and collect the same,

is property within the United States which was blocked in accordance with Executive Order 8389, as amended, and remained blocked on August 9, 1955, and which is, and as of September 15, 1947, was, owned directly or indirectly by the Banque de Credit Roumain S. A., also known as Banca Credit Roman and as Rumanische Kreditbank, Bucharest, Rumania, a national of Rumania as defined in said Executive Order 8389, as amended.

2. That the property described herein is not owned directly by a natural person.

There is hereby vested in the Attorney General of the United States the property described above, to be administered, sold, or otherwise liquidated, in accordance with the provisions of Title II of the International Claims Settlement Act of 1949, as amended.

It is hereby required that the property described above be paid, conveyed, transferred, assigned and delivered to or for the account of the Attorney General of the United States in accordance with directions and instructions issued by or for the Assistant Attorney General, Director, Office of Alien Property, Department of Justice.

The foregoing requirement and any supplement thereto shall be deemed instructions or directions issued under Title II of the International Claims Settlement Act of 1949, as amended. Attention is directed to section 205 of said Title II (69 Stat. 562) which provides that:

Any payment, conveyance, transfer, assignment, or delivery of property made to the President or his designee pursuant to this title, or any rule, regulation, instruction, or direction issued under this title, shall to the extent thereof be a full acquittance and discharge for all purposes of the obligation of the person making the same; and no person shall be held liable in any court for or in respect of any such payment, conveyance, transfer, assignment, or delivery made in good faith in pursuance of and in reliance on the provisions of this title, or of any rule, regulation, instruction, or direction issued thereunder.

Executed at Washington, D. C., on May 28, 1956.

For the Attorney General.

[Vesting Order SA–55]

BANQUE DE CREDIT ROUMAIN S. A.

In re: Debts owing to Banque de Credit Roumain S. A., also known as Banca Credit Roman and as Rumanische Kreditbank; F–57–99.

Under the authority of Title II of the International Claims Settlement Act of 1949, as amended (69 Stat. 562), Executive Order 10644, November 7, 1955 (20 F. R. 8363), Department of Justice Order No. 106–55, November 23, 1955 (20 F. R. 8993), and pursuant to law, after investigation, it is hereby found and determined:

1. That the property described as follows: a. That certain debt or other obligation of The Chase Manhattan Bank, 18 Pine Street, New York 15, N. Y., arising out of an account entitled, "Banque de Credit Roumain S. A., Bucarest, Roumania, Blocked Account," maintained at the aforesaid bank, together with any and all rights to demand, enforce and collect the same;

b. That certain debt or other obligation of The Chase Manhattan Bank, 18 Pine Street, New York 15, N. Y., arising out of an account entitled, "Banque de Credit Roumain S. A., Bucarest, Roumania, Old Account," maintained at the aforesaid bank, together with any and all rights to demand, enforce and collect the same;

c. That certain debt or other obligation of The Chase Manhattan Bank, 18 Pine Street, New York 15, N. Y., arising out of an account entitled, "Banque de Credit Roumain S. A., Bucarest, Roumania, Unclaimed Deposit Account," maintained at the aforesaid bank, together with any and all rights to demand, enforce and collect the same;

d. That certain debt or other obligation of The Chase Manhattan Bank, 18 Pine Street, New York 15, N. Y., arising out of an account entitled, "Banque de Credit Roumain S. A., Bucarest, Roumania, Old Items Outstanding—Reimbursements and Disposals," maintained at the aforesaid bank, together with any and all rights to demand, enforce and collect the same,

is property within the United States which was blocked in accordance with Executive Order 8389, as amended, and remained blocked on August 9, 1955, and which is, and as of September 15, 1947, was, owned directly or indirectly by the Banque de Credit Roumain S. A., also known as Banca Credit Roman and as Rumanische Kreditbank, Bucharest, Rumania, a national of Rumania as defined in said Executive Order 8389, as amended.

2. That the property described herein is not owned directly by a natural person.

There is hereby vested in the Attorney General of the United States the property described above, to be administered, sold, or otherwise liquidated, in accordance with the provisions of Title II of the International Claims Settlement Act of 1949, as amended.

It is hereby required that the property described above be paid, conveyed, transferred, assigned and delivered to or for the account of the Attorney General of the United States in accordance with directions and instructions issued by or for the Assistant Attorney General, Director, Office of Alien Property, Department of Justice.

The foregoing requirement and any supplement thereto shall be deemed instructions or directions issued under Title II of the International Claims Settlement Act of 1949, as amended. Attention is directed to section 205 of said Title II (69 Stat. 562) which provides that:

> Any payment, conveyance, transfer, assignment, or delivery of property made to the President or his designee pursuant to this title, or any rule, regulation, instruction, or direction issued under this title, shall to the extent thereof be a full acquittance and discharge for all purposes of the obligation of the person making the same; and no person shall be held liable in any court for or in respect of any such payment, conveyance, transfer, assignment, or delivery made in good faith in pursuance of and in reliance on the provisions of this title, or of any rule, regulation, instruction, or direction issued thereunder.

Executed at Washington, D. C., on May 28, 1956.

## TITLE 16—COMMERCIAL PRACTICES

### Chapter I—Federal Trade Commission

**Subchapter B—Trade Practice Conference Rules**

PART 25—COMMON BRICK INDUSTRY

PART 32—FACE BRICK INDUSTRY

PART 47—STRUCTURAL CLAY TILE INDUSTRY

REPLACEMENT OF PARTS

CROSS REFERENCE: For replacement of Parts 25, 32, and 47, in their entirety, see Part 27 of this chapter, *infra*.

---

[File No. 21–468]

PART 27—BRICK AND STRUCTURAL CLAY TILE AND ALLIED PRODUCTS INDUSTRY

PROMULGATION OF TRADE PRACTICE RULES

Due proceedings having been held under the trade practice conference procedure in pursuance of the act of Congress approved September 26, 1914, as amended (Federal Trade Commission Act), and other provisions of law administered by the Commission:

*It is now ordered*, That the Group I trade practice rules as hereinafter set forth, which have been approved by the Commission in this proceeding, be promulgated as of June 5, 1956.

Statement by the Commission: Trade practice rules for the brick and structural clay tile and allied products industry, as hereinafter set forth, are promulgated by the Federal Trade Commission under the trade practice conference procedure. The rules constitute a revision, extension, and consolidation of the rules for the common brick, face brick, and structural clay tile industries as promulgated by the Commission in 1931.

The industry for which these rules are established is composed of those engaged in the manufacture, sale, or distribution of any kind or type of building units or materials which are, or are represented directly or indirectly as being, brick or structural tile.

The rules are directed to the elimination and prevention of unfair trade practices to the end that the industry, the trade, and the public may be protected from the harmful effects of unfair methods of competition, unfair or deceptive acts or practices, and other trade abuses. They are to be applied to such end and to the exclusion of any unlawful acts or practices which suppress competition or otherwise unreasonably restrain trade.

Proceedings under which the rules have been established were instituted upon application from members of the industry. A general industry conference was held under Commission auspices in Washington, D. C., at which proposals for rules were submitted for consideration of the Commission. Thereafter, proposed rules were published by the Commission and made available to all industry members and other interested or affected parties upon public notice whereby they were afforded opportunity to present their views, including such pertinent information, suggestions, or amendments as they desired to offer, and to be heard in the premises. Pursuant to such notice, a public hearing was held in Washington on July 14, 1955, and all matters there presented, or otherwise received in the proceeding, were duly considered by the Commission.

Thereafter, and upon full consideration of the entire matter, final action was taken by the Commission whereby it approved the rules as hereinafter set forth.

Such rules become operative thirty (30) days from the date of promulgation.

The rules: These rules promulgated by the Commission are designed to foster and promote the maintenance of fair competitive conditions in the interest of protecting industry, trade, and the public. It is to this end, and to the exclusion of any act or practice which fixes or controls prices through combination or agreement, or which unreasonably restrains trade or suppresses competition, or otherwise unlawfully injures, destroys, or prevents competition, that the rules are to be applied.

The deceptive practices proscribed by the rules herein are subject to the Commission's jurisdiction when in commerce as commerce is defined in section 4 of the Federal Trade Commission Act, which definition reads as follows:

> "Commerce" means commerce among the several States or with foreign nations, or in

[1] As here used, the term "structural tile" does not include the veneer types of tile used for floor or wall surfacing.

any Territory of the United States or in the District of Columbia, or between any such Territory and another, or between any such Territory and any State or foreign nation, or between the District of Columbia and any State or Territory or foreign nation.

Sec.
27.0 The industry and its products defined.
27.1 Prohibited discrimination.
27.2 Misrepresentation and deception (general).
27.3 Misrepresentation as to character of business.
27.4 Deceptive representations as to products conforming to a standard or specification.
27.5 Deception as to composition.
27.6 Guarantees, warranties, etc.
27.7 Substitution of products.
27.8 Deceptive use of trade or corporate names, trade-marks, etc.
27.9 Imitation or simulation of trade-marks, trade names, etc.
27.10 False invoicing.
27.11 Defamation of competitors or false disparagement of their products.
27.12 Inducing breach of contract.
27.13 Enticing away employees of competitors.
27.14 Commercial bribery.
27.15 Procurement of competitors' confidential information.
27.16 Tie-in sales; coercing purchase of one product as a prerequisite to the purchase of other products.
27.17 Arrangements to exclude sales of competitors' products.
27.18 Prohibited forms of trade restraints (unlawful price fixing, etc.).
27.19 Unlawful interference with competitors' purchases or sales.
27.20 Consignment distribution.

AUTHORITY: §§ 27.0 to 27.20, issued under sec. 6, 38 Stat. 721; 15 U. S. C. 46. Interpret or apply sec. 5, 38 Stat. 719, as amended; 15 U. S. C. 45.

§ 27.0 *The industry and its products defined.* (a) Products of the industry respecting which these rules are promulgated consist of any kind or type of building units or materials which are, or are represented directly or indirectly as being, brick or structural tile.[1]

(b) Members of the industry are persons, firms, corporations, and organizations engaged in the manufacture, sale, offering for sale, or distribution of any such products.

GROUP I

*General statement.* The unfair trade practices embraced in the rules herein are considered to be unfair methods of competition, unfair or deceptive acts or practices, or other illegal practices, prohibited under laws administered by the Federal Trade Commission; and appropriate proceedings in the public interest will be taken by the Commission to prevent the use, by any person, partnership, corporation, or other organization subject to its jurisdiction, of such unlawful practices in commerce.

§ 27.1 *Prohibited discrimination*[2]—(a) *Prohibited discriminatory prices, or rebates, refunds, discounts, credits, etc., which effect unlawful price discrimination.* It is an unfair trade practice for any member of the industry engaged in commerce, in the course of such commerce, to grant or allow, secretly or openly, directly or indirectly, any rebate, refund, discount, credit, or other form of price differential, where such rebate, refund, discount, credit, or other form of price differential, effects a discrimination in price between different purchasers of goods of like grade and quality, where either or any of the purchases involved therein are in commerce, and where the effect thereof may be substantially to lessen competition or tend to create a monopoly in any line of commerce, or to injure, destroy, or prevent competition with any person who either grants or knowingly receives the benefit of such discrimination, or with customers of either of them: *Provided, however,*

(1) That the goods involved in any such transaction are sold for use, consumption, or resale within any place under the jurisdiction of the United States, and are not purchased by schools, colleges, universities, public libraries, churches, hospitals, or charitable institutions not operated for profit, as supplies for their own use.

(2) That nothing contained in this paragraph shall prevent differentials which make only due allowance for differences in the cost of manufacture, sale, or delivery resulting from the differing methods or quantities in which such commodities are to such purchasers sold or delivered.

(3) That nothing contained in this section shall prevent persons engaged in selling goods, wares, or merchandise in commerce from selecting their own customers in bona fide transactions and not in restraint of trade.

(4) That nothing contained in this paragraph shall prevent price changes from time to time where made in response to changing conditions affecting the market for or the marketability of the goods concerned, such as but not limited to obsolescence of seasonal goods, distress sales under court process, or sales in good faith in discontinuance of business in the goods concerned.

(5) That nothing contained in this section shall prevent the meeting in good faith of an equally low price of a competitor, or the services or facilities furnished by a competitor. (See paragraphs (c) and (d) of this section.)

(b) *Prohibited brokerage and commissions.* It is an unfair trade practice for any member of the industry engaged in commerce, in the course of such commerce, to pay or grant, or to receive or accept, anything of value as a commission, brokerage, or other compensation, or any allowance or discount in lieu thereof, except for services rendered in connection with the sale or purchase of goods, wares, or merchandise, either to the other party to such transaction or to an agent, representative, or other intermediary therein where such intermediary is acting in fact for or in behalf, or is subject to the direct or indirect control, of any party to such transaction other than the person by whom such compensation is so granted or paid.

(c) *Prohibited advertising or promotional allowances, etc.* It is an unfair trade practice for any member of the industry engaged in commerce to pay or contract for the payment of advertising or promotional allowances or any other thing of value to or for the benefit of a customer of such member in the course of such commerce as compensation or in consideration for any services or facilities furnished by or through such customer in connection with the processing, handling, sale, or offering for sale of any products or commodities manufactured, sold, or offered for sale by such member, unless such payment or consideration is available on proportionally equal terms to all other customers competing in the distribution of such products or commodities.

(d) *Prohibited discriminatory services or facilities.* It is an unfair trade practice for any member of the industry engaged in commerce to discriminate in favor of one purchaser against another purchaser or purchasers of a commodity bought for resale, with or without processing, by contracting to furnish or furnishing, or by contributing to the furnishing of, any services or facilities connected with the processing, handling, sale, or offering for sale of such commodity so purchased upon terms not accorded to all competing purchasers on proportionally equal terms.

(e) *Inducing or receiving an illegal discrimination in price.* It is an unfair trade practice for any member of the industry engaged in commerce, in the course of such commerce, knowingly to induce or receive a discrimination in price which is prohibited by the foregoing provisions of this section.

(f) *Purchases by U. S. Government; applicability of Robinson-Patman Anti-discrimination Act to same.* In an opinion submitted to the Secretary of War under date of December 28, 1936, the U. S. Attorney General advised that the Robinson - Patman Antidiscrimination Act "is not applicable to Government contracts for supplies." (38 Opinions, Attorney General 539.) [Rule 1]

§ 27.2 *Misrepresentation and deception (general).* It is an unfair trade practice to make or publish, or cause to be made or published, by way of advertising, labeling, stamping, or otherwise, any statement or representation which, directly or indirectly, or by reason of concealment of material fact, has the capacity and tendency or effect of misleading or deceiving purchasers or prospective purchasers concerning the grade, quality, quantity, use, size, material, finish, character, nature, strength, thickness, composition, durability, design, origin, preparation, manufacture, or distribution of any industry product, or in any other material respect. [Rule 2]

§ 27.3 *Misrepresentation as to character of business.* It is an unfair trade practice for any member of the industry to represent, directly or indirectly, through the use of any word or term in his corporate or trade name, in his advertising, or otherwise, that he is a producer or manufacturer of, wholesaler or jobber of, contractor or dealer in, industry products, or that he owns or controls a factory making such products, when such is not the fact, or in any other manner to misrepresent the character, extent, volume, or type of his business. (See also note to § 27.8.) [Rule 3]

§ 27.4 *Deceptive representations as to products conforming to a standard or specification.* In the sale, offering for sale, or distribution of industry products, it is an unfair trade practice:

(a) To falsely represent or imply that any of such products conform to the requirements of any standard or specification, whether established or recognized by a department or unit of a city or state government, or of the Federal Government, by trade practice, or otherwise.

(b) To represent or imply that any of such products conform to the requirements of any standard or specification without clearly disclosing the identity of the standard or specification to which reference is made. Such disclosure shall be by reference to the standard or specification on all labels, invoices, sales literature, and other advertising containing such representation or implication.

(c) For any member of the industry to claim or imply that any product conforms to any standard or specification which is inapplicable or which has been rescinded, revised, superseded, or amended, and thereby mislead or deceive purchasers or prospective purchasers. [Rule 4]

§ 27.5 *Deception as to composition.* (a) It is an unfair trade practice to sell, offer for sale, or distribute any product of this industry under any designation or representation which has the capacity and tendency or effect of deceiving purchasers or prospective purchasers as to the composition of said product.

(b) Under this section no products of the industry shall be designated as "brick," "tile," or "structural tile," unless:

[2] As used in this section, the word "commerce" means "trade or commerce among the several States and with foreign nations, or between the District of Columbia or any Territory of the United States and any State, Territory, or foreign nation, or between any insular possessions or other places under the jurisdiction of the United States, or between any such possession or place and any State or Territory of the United States or the District of Columbia or any foreign nation, or within the District of Columbia or any Territory or any insular possession or other place under the jurisdiction of the United States."

(1) The composition thereof is primarily of clay or shale or mixtures thereof; and

(2) The ingredients thereof have been fused together as a result of the application of heat:

*Provided, however,* That such designations may be used for products not meeting the requirements in this section when so qualified as to denote the basic composition thereof (as, for example, "concrete brick," "coral brick," "plaster brick," "sand-lime brick," "concrete structural tile," etc.), or when, in immediate conjunction with the designations, disclosure is made of the fact that the products are not ceramic products. (See also note to § 27.8) [Rule 5]

§ 27.6 *Guarantees, warranties, etc.* (a) It is an unfair trade practice to use any guarantee respecting industry products, whether in respect to quality, construction, serviceability, method of manufacture, or in any other respect, which does not make reasonable disclosure of the terms, conditions, and limitations of such guarantee, or which contains statements, representations, or assertions which have the capacity and tendency or effect of misleading or deceiving in any material respect, or which are of such form, text, or character as to represent or imply that the guarantee is broader than is in fact true.

(b) It is an unfair trade practice for the guarantor to fail to observe scrupulously his obligation under the guarantee by him used or caused to be used.

(c) This section shall be applicable also to warranties or any writing purporting to be a guarantee or warranty.

(d) It is also an unfair trade practice to represent any industry product as being "guaranteed" unless the nature and extent of the undertaking, and the identity of the guarantor, are conjunctively disclosed. [Rule 6]

§ 27.7 *Substitution of products.* It is an unfair trade practice for a member of the industry to make an unauthorized substitution of products, where such a substitution has the capacity and tendency or effect of misleading or deceiving the purchaser, by:

(a) Shipping or delivering industry products which do not conform to samples submitted, to specifications upon which the sale is consummated, or to representations made prior to securing the order, without advising the purchaser of the substitution and obtaining his consent thereto prior to making shipment or delivery; or

(b) Falsely representing the reason for making a substitution. [Rule 7]

§ 27.8 *Deceptive use of trade or corporate names, trade-marks, etc.* The use of any trade name, corporate name, trade-mark, or other trade designation, which has the capacity and tendency or effect of misleading or deceiving the purchasing or consuming public as to the name, nature, or origin of any product of the industry, or of any material used therein, or which is false or misleading in any other material respect, is an unfair trade practice.

NOTE: Nothing in this section is to be construed as prohibiting:

(a) The use of the word "brick" as a part of the name of a corporation or business concern which manufactures or distributes brick of any type or composition, or

(b) The use of the word "tile" or the words "structural tile" as a part of the name of a corporation or business concern which manufactures or distributes structural tile of any type or composition;

*Provided, however,* That descriptions or references to any non-ceramic industry products contained in advertising, sales promotional literature or invoices of said corporations or concerns are in accord with the requirements of § 27.5.

[Rule 8]

§ 27.9 *Imitation or simulation of trade-marks, trade names, etc.* The imitation or simulation of the trade-marks, trade names, brands, or labels of competitors, or of the exclusively owned designs of competitors which have not been directly or by operation of law dedicated to the public, with the capacity and tendency or effect of misleading or deceiving purchasers or prospective purchasers, is an unfair trade practice. [Rule 9]

§ 27.10 *False invoicing.* Withholding from or inserting in invoices or sales tickets any statements or information by reason of which omission or insertion a false record is made, wholly or in part, of the transactions represented on the face of such invoices or sales tickets, with the capacity and tendency or effect of thereby misleading or deceiving purchasers, prospective purchasers, or the purchasing public, is an unfair trade practice. [Rule 10]

§ 27.11 *Defamation of competitors or false disparagement of their products.* The defamation of competitors by falsely imputing to them dishonorable conduct, inability to perform contracts, questionable credit standing, or by other false representations, or the false disparagement of the grade, quality, or manufacture of the products of competitors, or of their business methods, selling prices, values, credit terms, policies, or services, or in any other respect, is an unfair trade practice. [Rule 11]

§ 27.12 *Inducing breach of contract.* (a) Knowingly inducing or attempting to induce the breach of existing lawful contracts between competitors and their customers or their suppliers, or interfering with or obstructing the performance of any such contractural duties or services, under any circumstance having the capacity and tendency or effect or substantially injuring or lessening competition, is an unfair trade practice.

(b) Nothing in this section is intended to imply that it is improper for an industry member to solicit the business of a customer of a competing industry member; nor is the section to be construed as in anywise authorizing any agreement or understanding by two or more industry members not to solicit business from the customers of either of them, or from customers of any other industry member. [Rule 12]

§ 27.13 *Enticing away employees of competitors.* Knowingly enticing away employees or sales representatives of competitors under any circumstance having the capacity and tendency or effect of substantially injuring or lessening competition is an unfair trade practice: *Provided,* That nothing in this section shall be construed as prohibiting employees from seeking more favorable employment, or as prohibiting employers from hiring or offering employment to employees of competitors in good faith and not for the purpose of injuring, destroying, or preventing competition. [Rule 13]

§ 27.14 *Commercial bribery.* It is an unfair trade practice for a member of the industry, directly or indirectly, to give, or offer to give, or permit or cause to be given, money or anything of value to agents, employees, or representatives of customers or prospective customers, or to agents, employees, or representatives of competitors' customers or prospective customers, without the knowledge of their employers or principals, as an inducement to influence their employers or principals to purchase or contract to purchase products manufactured or sold by such industry member or the maker of such gift or offer, or to influence such employers or principals to refrain from dealing in the products of competitors or from dealing or contracting to deal with competitors. [Rule 14]

§ 27.15 *Procurement of competitors' confidential information.* It is an unfair trade practice for any member of the industry to obtain information concerning the business of a competitor by bribery of an employee or agent of such competitor, by false or misleading statements or representations, by the impersonation of one in authority, or by any other unfair means, and to use the information so obtained so as substantially to injure competition or unreasonably restrain trade. [Rule 15]

§ 27.16 *Tie-in sales; coercing purchase of one product as a prerequisite to the purchase of other products.* The practice of coercing the purchase of one or more products of the industry as a prerequisite to the purchase of one or more other products, where the effect may be substantially to lessen competition or tend to create a monopoly or unreasonably to restrain trade, is an unfair trade practice. [Rule 16]

§ 27.17 *Arrangements to exclude sales of competitors' products.* It is an unfair trade practice for any member of the industry to sell or contract for the sale of any industry products for use or resale, or to fix a price charged therefor, or discount from, or rebate upon, such price, on the condition, agreement, or understanding that the purchaser thereof shall not use or deal in new or used products of a competitor or competitors of such industry member, where the effect of such sale or contract for sale, or such condition, agreement, or understanding, may be to substantially lessen competition or tend to create a monopoly in any line of commerce. [Rule 17]

§ 27.18 *Prohibited forms of trade restraints (unlawful price fixing, etc.).*[1] It is an unfair trade practice for any member of the industry, either directly or indirectly, to engage in any planned common course of action, or to enter into or take part in any understanding, agreement, combination, or conspiracy, with one or more members of the industry, or with any other person or persons, to fix or maintain the price of any goods or otherwise unlawfully to restrain trade; or to use any form of threat, intimidation, or coercion to induce any member of the industry or other person or persons to engage in any such planned common course of action, or to become a party to any such understanding, agreement, combination, or conspiracy. [Rule 18]

§ 27.19 *Unlawful interference with competitors' purchases or sales.* It is an unfair trade practice for any industry member, by means of any monopolistic practice or through combination, conspiracy, coercion, boycott, threats, or any other unlawful means, directly or indirectly, to interfere with a competitor's right to purchase his raw materials and supplies from whomsoever he chooses, or to sell his product to whomsoever he chooses. [Rule 19]

§ 27.20 *Consignment distribution.* (a) It is an unfair trade practice for any member of the industry to employ the practice of shipping industry products on consignment without the express request or prior consent of the purchasers.

(b) It is an unfair trade practice for any member of the industry to employ the practice of shipping industry products on consignment or pretended consignment for the purpose and with the effect of artificially clogging or closing trade outlets and unduly restricting competitors' use of said trade outlets in getting their products to purchasers through regular channels of distribution, thereby injuring, destroying, or preventing competition or tending to create a monopoly or unreasonably to restrain trade.

(c) Nothing in this section shall be construed to authorize any understanding or agreement, combination or conspiracy, or planned common course of action, by and between industry members, mutually to conform or restrict their practice of shipping goods on consignment with the intent or effect of lessening competition. [Rule 20]

Promulgated by the Federal Trade Commission June 5, 1956.

Issued: May 29, 1956.

## PART 227—WHOLESALE PLUMBING AND HEATING INDUSTRY

### PROMULGATION OF INDUSTRY COMMITTEE PROVISION

In the matter of amendment to trade practice rules for Wholesale Plumbing and Heating Industry (16 CFR Part 227) by addition of standard industry committee provision.

Due proceedings having been held by the Federal Trade Commission pursuant to an application filed on behalf of the wholesale plumbing and heating industry for inclusion in the rules for the industry as promulgated April 14, 1955, of the standard industry committee provision heretofore approved and promulgated by the Commission (20 F. R. 7249).

*It is now ordered,* That the said committee provision, as so approved by the Commission and as hereinafter appearing, be promulgated as an additional provision to the rules for the abovementioned industry. Such provision becomes operative as of this date.

COMMITTEE ON TRADE PRACTICES

§ 227.201 *Industry Committee.* The industry may, at its option, form a trade practice committee, which shall be fairly representative of the industry, to cooperate with the Federal Trade Commission in the following respects:

(a) To assist in keeping the rules of the industry active by periodically bringing to the attention of industry members the provisions thereof;

(b) To publicize and disseminate among all members of the industry Commission stipulations, orders and opinions or administrative interpretations relating to practices covered by the rules;

(c) To meet periodically with Commission personnel for the purpose of discussing the rules, the need for their revision, and the administration thereof, the committee's function in connection with such meetings being informative only, with decisions as to any action to be taken being left solely in the hands of government officials. All such meetings shall be:

(1) Called and chairmanned by a full time Commission official; and

(2) Limited to a discussion of matters outlined in an agenda prepared by a full time Commission official.

Full and complete minutes of each such meeting shall be prepared and filed with the Commission.

(d) It is not the function of the committee to:

(1) Interpret the rules;

(2) Attempt to correct alleged rule violations;

(3) Make determinations or express opinions as to whether practices are violative of the rules;

(4) Receive or screen complaints of violations of the rules; or

(5) Perform any other act or acts within the authority of the Federal Trade Commission or any other governmental Agency or Department.

(e) All complaints of industry members and other parties respecting rule violations should be made directly to the Commission. In the event any complaint is received by the committee, or any information is brought to its attention indicating a probable violation of a rule all relevant information with respect thereto shall be promptly transmitted by the committee to the Commission without the committee contacting the party or parties alleged to have violated the rule.

(f) Immediately after its formation the committee shall inform the Commission of the identity of the members thereof, the names and addresses of the companies or concerns represented by such members, and shall supply the Commission with information showing that the membership of the committee is fairly representative of the industry. Changes in composition of the committee shall be reported to the Commission as soon as they may occur.

(g) Full and complete minutes of all meetings of the committee, identifying the members in attendance and informative of the matters discussed and actions taken, shall be kept. The minutes of the meetings falling under section (c) shall be filed with the Commission, and the minutes of all other meetings shall be kept by the committee and be made available to the Commission on request.

(Sec. 6, 38 Stat. 721; 15 U. S. C. 46)

By direction of the Commission.

Issued: May 31, 1956.

# TITLE 5—ADMINISTRATIVE PERSONNEL

## Chapter III—Foreign and Territorial Compensation

[Departmental Reg. 108.289]

## PART 325—ADDITIONAL COMPENSATION IN FOREIGN AREAS

### DESIGNATION OF DIFFERENTIAL POSTS

Section 325.11 *Designation of differential posts,* is amended as follows, effective on the dates indicated:

1. Effective as of the beginning of the first pay period following May 5, 1956, paragraph (a) is amended by the addition of the following posts:

Coclé Province, Panama.

2. Effective as of the beginning of the first pay period following June 2, 1956, paragraph (a) is amended by the addition of the following posts:

Antarctic Region, all posts or areas south of the 60° south latitude.

Arctic Circle, all posts or areas north of the Arctic Circle.

3. Effective as of the beginning of the first pay period following February 11, 1956, paragraph (c) is amended by the addition of the following post:

San Pedro de Macoris, Dominican Republic.

(Sec. 102, Part I, E. O. 10000, 13 F. R. 5453; 3 CFR, 1948 Supp.)

Dated: May 25, 1956.

## TITLE 32—NATIONAL DEFENSE

### Chapter VII—Department of the Air Force

#### Subchapter A—Aid of Civil Authorities and Public Relations

#### PART 805—SAFEGUARDING MILITARY INFORMATION

1. In Part 805, §§ 805.31 to 805.40 (Investigation and Clearance of Private Contractor Facilities) and §§ 805.51 to 805.61 (Investigation and Clearance of Private Contractor Employees) are revoked.

2. In Part 805, §§ 805.1 to 805.22 are rescinded and the following substituted therefore:

GENERAL

Sec.
805.1 Purpose.
805.2 Definitions.
805.3 Responsibility.
805.4 Preparation, reproduction and photographing.
805.5 Dissemination.
805.6 Removal of classified matter.
805.7 Return or transfer of classified matter.
805.8 Loss or other subjection to compromise.
805.9 Marking classified matter.
805.10 Atomic Energy Restricted Data.
805.11 Disclosure of classified information outside the Department of Defense.
805.12 Visitors.
805.13 Restricted areas and air space reservation.

AUTHORITY: §§ 805.1 to 805.13 issued under R. S. 161, sec. 202, 61 Stat. 500, as amended; 5 U. S. C. 22, 171a. Interpret or apply sec. 10, 44 Stat. 787; 10 U. S. C. 310.

DERIVATION: AFR 205-1, 3 January 1956.

GENERAL

§ 805.1 *Purpose.* Sections 805.1 to 805.13 establish policies for safeguarding classified information and explain how to identify, classify and protect such official material.

§ 805.2 *Definitions*—(a) *Atomic energy restricted data.* As defined by Public Law 703, 83d Congress, Atomic Energy Act of 1954, act of August 30, 1954 (68 Stat. 924), "restricted data" means all data concerning (1) the design, manufacture, or utilization of atomic weapons; (2) the production of special nuclear material; or (3) the use of special nuclear material in the production of energy, but shall not include data declassified or removed from the category of restricted data which the Atomic Energy Commission from time to time determines may be published without undue risk to the common defense and security.

(b) *Classified defense information.* Official information the safeguarding of which is necessary in the interests of national defense, and which is classified for such purpose by appropriate classifying authority.

(c) *Communications security.* The protection resulting from all measures designed to deny to unauthorized persons information of value which might be derived from the possession and study of electrical communications. Communications security includes transmission security, cryptographic security, and physical security.

(d) *Confidential matter.* The use of the classification Confidential shall be authorized, by appropriate authority, only for defense information or material the unauthorized disclosure of which could be prejudicial to the defense interests of the Nation.

(e) *Document.* Any recorded information regardless of its physical form or characteristics. Includes, but is not limited to, the following: All written material, whether handwritten, printed, or typed; all painted, drawn, or engraved material; all sound or voice recordings; all printed photographs and exposed or printed film, still, or motion picture; and all reproductions of the foregoing, by whatever process reproduced.

(f) *Foreign nationals.* All persons not citizens of, or immigrant aliens to, the United States. All citizens of the United States and immigrant aliens when acting as representatives, officials, or employees of a foreign government, firm, corporation, or individual shall be considered as foreign nationals. (Immigrant aliens are persons in the United States for permanent residence under immigration visas.)

(g) *Primary interest.* Primary interest in any military information is in the headquarters or agency which originated or originally classified it, or which within any chain of command is charged with control or jurisdiction over the information or current types of information similar thereto.

(h) *Material.* Any document, product, or substance on or in which information may be recorded or embodied.

(i) *Materiel.* Any article, product, substance, or apparatus from which information may be obtained. It comprises military arms, armament, and equipment, both complete and in process of research, development, experimentation, and construction, and includes elements, components, accessories, models, fixtures, mockups, jigs, and dies associated therewith.

(j) *Munitions of war.* Any and all items required for war, including food and all other supplies and equipment, but excluding manpower.

(k) *Research and development.* Applies, as far as a particular project is concerned, to an item in the process of being created for use by the Department of the Air Force. Research and development ceases with the creation of an item that has passed service tests, is adaptable to production, and is adopted by the Department of the Air Force in accordance with applicable directives.

(l) *Secret matter.* The use of the classification Secret shall be authorized, by appropriate authority, only for defense information or material the unauthorized disclosure of which could result in serious damage to the Nation, such as by jeopardizing the international relations of the United States, endangering the effectiveness of a program or policy of vital importance to the national defense, or compromising important military or defense plans, scientific or technological developments important to national defense, or information revealing important intelligence operations.

(m) *Security.* The protected conditions of classified matter which prevents unauthorized persons from obtaining information of direct or indirect military value. It is a condition resulting from the establishment and maintenance of protective measures which insure a state of inviolability from hostile acts or influences.

(n) *Short title.* A designation applied to a classified document, project, materiel, or device for purposes of security and brevity. It consists of figures, letters, words, or combinations thereof, without giving any information relative to classification or content of the document, project, materiel, or device. It may include, for example, the first letter of each word of the subject of a document.

(o) *Technical information.* That which applies to data concerning munitions and equipment, engineering performance, instructions on maintenance and operation, and any descriptive matter or components thereof. This includes means of operation, manufacture, use, techniques, and processes. Information pertaining to the various sciences which may be employed directly or indirectly in warfare is also so classed. Data of a strategic or tactical nature are specifically excluded from the meaning of this term.

(p) *Theater of operations.* A term used to designate that portion of a theater of war necessary for military operations, either offensive or defensive, pursuant to an assigned mission, and for the administration incident to such military operations.

(q) *Top secret matter.* Executive Order 10501 defines the "top secret" category as follows: The use of the classification "top secret" shall be authorized, by appropriate authority, only for defense information or material which requires the highest degree of protection. The top secret classification shall be applied only to that information or material the defense aspect of which is paramount, and the unauthorized disclosure of which could result in exceptionally grave damage to the Nation such as leading to a definite break in diplomatic relations affecting the defense of the United States, an armed attack against the United States or its allies, a war, or the compromise of military or defense plans, or intelligence operations, or scientific or technological developments vital to the national defense.

(r) *United States.* In a geographical sense, includes the Canal Zone and all territory and waters, continental or insular, subject to the jurisdiction of the United States. When used in §§ 805.1 to 805.13, the term "continental United States" means the 48 States and the District of Columbia.

§ 805.3 *Responsibility.* (a) Each individual is responsible for protecting and accounting for any classified information which he possesses or knows, no matter how that information was obtained.

(b) All military and civilian personnel will familiarize themselves with and adhere to the provisions of §§ 805.1 to 805.13 and other security regulations which apply to them in the performance of their duties.

§ 805.4 *Preparation, reproduction and photographing*—(a) *Preparation and reproduction.* Classified documents may be prepared and reproduced only when necessary to satisfy actual military or other official government requirements.

(b) *Photographs.* Photographs or similar reproductions of classified matter are prohibited, except by persons specifically directed or authorized by proper authority.

(c) *Secret and top secret information of any agency other than the Air Force.* Secret or top secret documents originated in a department or agency of the Executive Branch of the Federal Government other than the Air Force will not be reproduced without the consent of the originating department or agency.

(d) *Effect of limitations imposed by originators.* A document will not be copied, photographed, or otherwise reproduced in whole or in part without approval of the originator or higher authority in the same chain of command, providing the originator requires such approval.

(e) *Commercial facilities.* Classified matter other than top secret may be printed, developed, or otherwise processed or reproduced in properly cleared commercial facilities if adequate Government facilities are not available.

§ 805.5 *Dissemination*—(a) *General*—(1) *Basic principle.* Only persons who are known to be trustworthy and whose official duties require knowledge or possession of classified defense information in the interest of promoting national defense will be permitted to have access to it. (It is emphasized that no person is entitled to knowledge of or access to classified defense information solely by virtue of his office or position.)

(2) *Determination of requirement for access.* Responsibility for determining whether a person's official duties require that he possess or have access to any classified information and whether he is authorized to receive it rests upon the individual who has possession, knowledge, or command control of the information involved and not upon the prospective recipient. However, the individual who has this possession, knowledge, or command control will not disclose or permit access to the information unless he is authorized to do so by §§ 805.1 to 805.13.

(3) *Determination of trustworthiness of persons.* A person may be deemed trustworthy if he has been granted personnel security clearance for access to the category of information involved. Also, a previous clearance or investigation may be considered in determining an individual's trustworthiness. In addition, persons may be deemed trustworthy if the officer or official authorized to release or disclose classified information to them personally certifies that they are (except when prior investigative action and/or clearance is specifically required by regulation or instructions of higher authority.)

(4) *Discussion and access.* Classified information will not be discussed in the presence or hearing of unauthorized persons.

(5) *Physical security factor.* Possession or use of classified defense information or material will be limited to locations where prescribed facilities for secure storage or protection of it are available.

(6) *Information of an agency other than Department of Defense.* Classified information originating in an agency outside the Department of Defense will not be disseminated outside the Department of Defense without the consent of the originating agency, except as otherwise provided by the National Security Act of July 26, 1947, (sec. 102, 61 Stat. 498, as amended, 50 U. S. C. 403). (Information originated by a contractor to a department or agency is considered as originated by that department or agency.)

(7) *Automatic distribution and dissemination.* Regulations and other directives which authorize automatic distribution of documents or dissemination of information will not apply to classified information unless the proposed dissemination is necessary and is authorized by §§ 805.1 to 805.13. Normally, automatic distribution of classified information outside the Department of Defense will not be authorized.

(b) *To Department of Defense and interdepartmental activities*—(1) *Authority.* Subject to paragraph (a) of this section originating headquarters or unit, or higher authority in the same chain of command, may disseminate classified information to other agencies, activities, or personnel in the Department of Defense by the same channels established for military correspondence. Under the same conditions, dissemination to officially constituted interdepartmental committees with Air Force membership is also authorized.

(2) *Requests.* An individual will not make a request for classified material unless he has a clear, official requirement for knowledge or possession of such material. No request will be honored by any commander or other person, regardless of the grade or position of the requester, unless the validity of the request has been fully established on the basis of policy prescribed in §§ 805.1 to 805.13.

(3) *Restriction against release for personal use.* Classified information may not be released to anyone for private use (personal, commercial, or as background information). In this connection, military personnel on active duty, military personnel in retired status, members of the Reserve Forces, and civilian personnel who request classified information for such use will be considered as "private individuals"; and their requests will not be approved, even though they may have been partly or solely responsible for production of the information.

(4) *Limitation on disclosure to Reserve Forces personnel.* Certain members of the Air Force Reserve and the Air National Guard of the United States not on extended active duty, including persons undergoing inactive duty training, may have access to classified information under the conditions specified in subdivisions (i) and (ii) of this subparagraph.

(i) Top secret information will not be used in Reserve Forces training programs. However, an individual on a short or special tour of active duty may be permitted access to such information if it is essential for the performance of his officially assigned duties.

(ii) Individuals participating in active or inactive duty training, as defined in §§ 861.1 to 861.14 of this chapter, may be permitted access to specific information classified secret or confidential only if they need it to perform their officially assigned duties.

(c) *Identification and protection*—(1) *Identification.* Before an individual discusses or permits access to classified information, he must make sure that the intended recipients are indisputably identified and determined trustworthy (by personal recognition, identifying documents, or verification of identity by telephone, telegraph, radio, or mail communication). If prior personnel security clearance is prescribed as a prerequisite for access to a specific item of information, the intended recipients' clearance will be verified.

(2) *Protection.* When classified information is discussed with persons who are subject to military law or are employed in the Executive Branch of the Federal Government they will be informed of its classification. When classified information is discussed with persons other than those subject to military law or employed in the Executive Branch, they will be informed that it affects the national defense of the United States within the meaning of the Espionage Laws and that its revelation to an unauthorized person is prohibited by law.

(d) *Telephone conversations.* Classified information will not be discussed or revealed over the telephone. However, it is permissible to refer to classified material, provided that such references do not reveal the classified portions. For example, reference may be made to the file number, date, and subject (provided that the subject itself is not classified). Each individual must make sure that questions or their answers to not reveal classified information.

(e) *Commercial publications*—(1) *Individual activities.* Military or civilian personnel will not include classified information in any personal or commercial article, thesis, book, or other product written for publication or distribution.

(2) *Compilations of information.* A compilation of individually unclassified items may be published in commercial or service publications only after coordination with the office(s) having primary interest in the material to insure that such compilation does not require classification.

(f) *Additional precautions necessary to limit dissemination*—(1) *Conferences.* Individuals who make arrangements for, or attend, meetings at which classified information is or will be revealed will comply with §§ 805.1 to 805.13 to prevent the unauthorized dissemination of classified information.

(2) *Care of documents in use.* Classified documents in actual use will be kept under the constant surveillance of the person responsible for them. They will be covered, turned face down, placed in storage, or otherwise protected when visitors are present.

(3) *Personal correspondence.* Classified information will not be included in personal correspondence or messages.

(4) *Addressing official mail.* If official correspondence contains classified information and is intended for delivery to an individual in another headquarters or office, address it to the commander or head of office, marked for the attention of the individual.

(5) *Legal instruments.* During wartime, if an individual overseas executes or acknowledges a legal instrument, he must not indicate the place of execution or acknowledgment unless proper authority determines that the information would be of no value to the enemy if it should reach him.

(6) *Rescission.* Classified documents which have been rescinded or superseded will be protected according to their category until destroyed.

§ 805.6 *Removal of classified matter*—(a) *Restriction.* No person will remove classified material from the headquarters or unit having custodial responsibility for it without the express permission of the commander or the individual designated in writing to act for him. This restriction applies under all circumstances without exception.

(b) *Recording removal.* Whenever an individual removes classified material from a headquarters or unit for purposes other than transmission, a record will be made and kept on file.

§ 805.7 *Return or transfer of classified matter*—(a) *General.* Neither a military person nor a civilian may retain classified matter for personal or commercial purposes, even though such person may have been solely or partly responsible for production of the material.

(b) *Action by individuals.* Before an individual retires, separates from the service or civilian employment, changes duty assignment, or reverts to inactive status, he will return to his commander or supervisor (or otherwise properly transfer or account for) all classified documents in his possession.

(c) *Action by commanders.* As a minimum action, commanders will require each such individual to sign a statement indicating that he has turned over to proper authority all classified matter which he might have had in his possession, and that no classified material is being retained under his custody or control.

§ 805.8 *Loss or other subjection to compromise*—(a) *Reporting.* If a person knows of the loss, unauthorized disclosure, or other possible subjection to compromise of classified information, he will promptly report it to his immediate superior or commander.

(b) *Use of the terms "compromise" and "subjection to compromise."* "Compromise" means to disclose, expose, or divulge classified information, by an act of omission or commission, in any manner that does result in loss by the Government of security protection of the information. "Subjection to compromise" means:

(1) To disclose, divulge or expose classified information, by an act of omission or commission, in any manner contrary to the provisions of §§ 805.1 to 805.13 that could result in loss by the Government of security protection of the information; or

(2) To lose classified material; or to leave it or permit it to be left unguarded or improperly stored, unless the facts developed by inquiry show definitely that compromise could not have resulted or that its possibility is remote.

§ 805.9 *Marking classified matter*—(a) *Documents.* Documents containing classified information which are furnished to authorized persons outside of the Executive Branch, will bear in addition to being marked top secret, secret, and confidential the following additional notation:

This material contains information affecting the national defense of the United States within the meaning of the Espionage Laws, Title 18, U. S. C., secs. 793 and 794, the transmission or revelation of which in any manner to an unauthorized person is prohibited by law.

(b) *Materiel and other material.* When classified items of materiel or other material which do not lend themselves to marking are furnished to such persons. They will be notified in writing of the notation in paragraph (a) of this section.

§ 805.10 *Atomic energy restricted data*—(a) *Markings and notations required*—(1) *Material containing restricted data.* (i) In addition to other required classification markings and notations, all documents or other material containing Restricted Data and all inner covers in which Restricted Data is transmitted will be conspicuously marked at least once, with capital letters not less than one-quarter inch in height, as follows:

RESTRICTED DATA

ATOMIC ENERGY ACT 1954

(ii) When material is extracted from a document, or pages, sections, chapters, or other parts are so separated, each extract or part will be marked as prescribed in subdivision (i) of this subparagraph if it contains restricted data.

(b) *Dissemination*—(1) *Within Department of Defense and to contractors.* Restricted data originated or received in the Air Force may be disseminated or disclosed only to persons within the Department of Defense and to contractors of the military departments and their employees who have been granted appropriate personnel security clearance for access to the classification category which the information bears. Foreign nationals will not be permitted to have access to restricted data, regardless of grade, position, employment, or nationality (except for releases of certain data to foreign governments that are made in strict compliance with the Atomic Energy Act of 1954 after specific approval of the Chief of Staff, USAF (Director of Intelligence)).

(2) *To Atomic Energy Commission.* Restricted data may be disseminated, disclosed, or released to the Atomic Energy Commission only in accordance with § 805.10.

(3) *To other activities and individuals.* Except as provided in this section, the dissemination, disclosure, or release of restricted data to any individual may be made only by the Atomic Energy Commission or as approved by the Atomic Energy Commission. This restriction applies to restricted data originated in the Air Force, or by an Air Force contractor, as well as that which is furnished to the Air Force.

(4) *Oral discussions.* Persons with whom restricted data is discussed will be informed that the information is restricted data within the meaning of the Atomic Energy Act of 1954.

§ 805.11 *Disclosure of classified information outside the Department of Defense*—(a) *Policy*—(1) *General limitations.* Classified information will not be released or disclosed to private individuals, organizations, corporations, or State or Federal agencies, unless they must have it to perform an official governmental function in the interest of promoting national defense. Further, no release or disclosure of classified information will be made to persons or agencies outside the Department of Defense except with specific approval of designated officials.

(2) *Assuring security.* Classified information will not be released or disclosed outside the Executive branch of the Government until the recipient assures the Air Force that the information or material will be handled as safely as §§ 805.1 to 805.13 requires.

(3) *Proprietary interests.* Information will not be released if any commitment made by the Air Force in obtaining it would be violated. Individual or corporate rights in the information, whether patented or not, will be respected. Privately owned information will not be released without the consent of the owner.

(b) *Congress and its members.* All requests by the Congress or its committees or members for classified information will be referred to the Director, Office of Legislative Liaison, Office of the Secretary of the Air Force.

(c) *Committees of the Government*—(1) *Requests for testimony.* When a person under the jurisdiction of the Air Force appears before a committee of the Congress or an Executive commission, board, or similar group in either executive or public session, he will not divulge classified information unless he has been authorized by the Secretary of the Air Force to do so. If he is called upon to give testimony which includes classified information that he has not been authorized to disclose, he will respectively inform the group of this fact and offer to obtain the authority.

(2) *Protect against compromise.* When a person has been authorized by the Secretary of the Air Force to give classified information in his testimony, he will request that the testimony be given in executive session only and not appear in the record of hearings, the Congressional Record, or other document open to public inspection.

(3) *Other requests.* Except for testimony, requests by congressional committees and Executive commissions, boards, or groups for classified information will be referred to the Secretary of the Air Force or the Chief of Staff, USAF.

(d) *General Accounting Office representatives.* Normally, General Accounting Office personnel will not require access to classified information during audits, surveys, examinations, and investigations conducted pursuant to statutory authority. However, if the commander concerned determines that such is essential to fulfill statutory requirements of General Accounting Office and that the personnel have been properly cleared, he may grant the access. However, he must not release documents or disclose the following categories and types of information without specific approval of the Secretary of the Air Force or other authority, as designated:

(1) Top secret information and other sensitive areas of classified information such as plans or policies which are the basis for determining requirements concerning the number and disposition of units, armaments of units, numbers of personnel, etc.

(2) Atomic energy restricted data.

(3) Information originated by an agency other than the Air Force or its contractors, unless prior authorization for disclosure has been granted by the agency concerned.

(4) Unclassified and classified reports rendered by The Inspector General, USAF, inspectors general, or their assistants. (This is privileged information. It will not be released or disclosed without the personal approval of the Secretary of the Air Force.)

(5) Unclassified or classified reports of investigation conducted by the Office of Special Investigations (unless the release or disclosure is approved by the Director of Special Investigations, Headquarters USAF).

(e) *Contractors and prospective contractors*—(1) *Responsibility for dissemination.* The commander, major air command, who has jurisdiction over a contractor, or who will procure materiel, supplies, or services from a prospective contractor, is responsible for releasing or disclosing classified information to them if they must have it. However, he may release or disclose only the classified information required by such contractors or prospective contractors in performing specific contracts or preparing specific bids or quotations. Such a commander may authorize a subordinate commander to release or disclose classified information to a contractor or prospective contractor, if such subordinate is authorized to procure materiel, supplies, or services. The authorization will only be given in writing. Also, it must be specific as to the conditions under which the subordinate may make disclosures or releases.

(2) *Requirements for assuring security.* Before a commander can release or disclose classified information to a contractor or prospective contractor, the following is required: A security agreement, signed by the individual or by a responsible officer on behalf of the firm or corporation concerned; a facility security clearance, properly granted; and a security survey of the facility, as appropriate.

(f) *To other civilian activities.* Generally, all requests for classified information from persons or agencies outside the Department of Defense, and all proposals originating in the Air Force to release classified information to such persons or agencies will be forwarded for necessary action to the Chief of Staff, USAF.

(g) *Foreign nationals.* Classified defense information will not be furnished or disclosed to any foreign national except as provided in this paragraph.

(1) *Foreign governments and their official representatives*—(i) *Policy.* The Director of Intelligence, Headquarters USAF, is responsible for developing and implementing Air Force policy relating to disclosure of classified defense information to foreign governments.

(ii) *Requests.* If foreign governments or their official representatives (including international organizations) request classified information (or access to such information), the request will be sent through channels to the Chief of Staff, USAF (Attention: Director of Intelligence). The same applies to proposals originating within the Air Force to disclose such information to them.

(iii) *Attachment and official visits.* Only the Chief of Staff, USAF (Director of Intelligence), is authorized to commit Air Force installations and activities to receive foreign nationals as official visitors or as observers or students. In making such commitments, the Chief of Staff will issue the necessary written orders or other instructions to the commander or chief of office concerned, attaching the foreign nationals to specific courses or units, or authorizing the official visits. Persons thus attached to one installation may visit another one whenever necessary for training or to perform an assigned duty, but they must have the prior approval of the commander of the installation to be visited.

(iv) *Disclosure of information by commanders and chiefs of offices.* Orders or written instructions which attach foreign nationals to installations or permit them to visit these installations will also include necessary authority to disclose military information. These instructions will specifically identify the classification category and subject matter of any classified information that may be disclosed. Commanders and chiefs of offices must restrict access to military information by foreign nationals to that specifically authorized.

(2) *Employees residing outside the United States.* Foreign nationals employees residing outside the United States may perform only limited duties involving access to classified information.

(3) *Other foreign nationals.* Normally, commanders will deny all requests from foreign nationals for classified information (other than foreign nationals referred to in subparagraph (2) of this paragraph).

§ 805.12 *Visitors*—(a) *Definition*—(1) *Visits at Air Force activities.* For the purpose of this section, a visitor is any person admitted to any Air Force installation except those who are directly and officially concerned with its activities (on duty, employed, or traveling under official orders requiring performance of duty at the installation).

(2) *Access to classified defense information.* A person has access to classified information when he is permitted to gain knowledge of the information, or to be in a place where he would be expected to gain such knowledge. A person does not have access to classified information merely by being in a place where classified material is kept, provided security measures prevent him from gaining knowledge of the information.

(b) *Requests for permission to visit.* Individual requests to visit an installation should be referred to the installation commander for approval or disapproval. All requests for permission to visit Air Force installations or activities which will involve access to classified information will:

(1) Be in writing, and be made early enough to permit appropriate action by the commander.

(2) Be forwarded to the office or headquarters having the authority to approve the disclosure of the classified information involved.

(3) Include the following information, as applicable.

(i) Name in full, grade, title, position.

(ii) Nationality of visitor (immigrant aliens will furnish alien registration number), date, and place of birth.

(iii) Current residence or military assignment.

(iv) Employer or sponsor.

(v) Name and location of installation or activity to be visited.

(vi) Date, time, and duration of visit.

(vii) Purpose of visit, in detail.

(viii) Security clearance status of visitor and name of clearing agency (if clearance previously granted).

(c) *Visits to Air Force installations*—(1) *Visits involving access to classified defense information*—(i) *Approval.* Individuals may be permitted to visit Air Force installations or activities to receive or to have access to classified information only if its disclosure or dissemination is properly approved.

(ii) *Written authority for admission.* Approval for visitors to Air Force installations to have access to classified information must be given in writing.

(iii) *Concurrences and notices.* Whenever practical, the official who approves a request to visit another Air Force installation should coordinate with the commander of that installation for concurrence or recommendation before finally approving the visit. In all cases, the official who approves such a visit will promptly notify the commander concerned. He will also specify any lim-

itations or restrictions to be placed upon the visitor.

(2) Visits not involving access to classified information.

(i) *United States citizens and certain aliens.* United States citizens and immigrant aliens (including casual visitors, accredited reporters, photographers, and other representatives of publicity agencies) may be admitted to Air Force installations on the authority of the commander concerned.

§ 805.13 *Restricted areas and air space reservations*—(a) *Restricted areas*—(1) *Designation.* The commander of an Air Force installation will designate as a "restricted area" such areas under his jurisdiction as he considers necessary to promulgate regulations pursuant to section 21 of the Internal Security Act of 1950.

(2) *Violation of regulations.* Persons not subject to military law who violate the regulations issued by the commander will be delivered to the appropriate civil authority, subject to the following provisions:

(i) The commander of an Air Force installation will cause any such person to be detained, warned of his rights, and interrogated as soon as possible by proper authority. If there is no evidence of intent to violate the regulations, the person may be warned against repetition and released. Otherwise, the commander will promptly notify the nearest office of the Office of Special Investigations by the fastest means available. That office will immediately request the nearest office of the Federal Bureau of Investigation to take custody of the individual at the installation. The commander will furnish the representative of the Federal Bureau of Investigation with a written statement of the facts, the names and addresses of the witnesses, and any pertinent exhibits that may be available.

(ii) When an investigation reveals that such a person has entered a restricted area or building, and was not apprehended, the commander will promptly notify the nearest district office of the Office of Special Investigations of all the facts, including the names and addresses of the witnesses. The district office will immediately notify the nearest office of the Federal Bureau of Investigation.

(b) *Air space reservations*—(1) *Definition and establishment.* An air space reservation is the air space above an area on the land or water, designated and set apart by Executive Order of the President of the United States, or by a State, Commonwealth, or Territory, over which the flight of aircraft is prohibited or restricted for the purpose of national defense or for other governmental purposes.

(2) *Responsibility of commanders.* The commander of an installation over which an air space reservation has been established is responsible for its surveillance; he must make prompt report of any illegal flights in the air space to the Chief of Staff, USAF, through channels.

[SEAL] E. E. TORO,
*Colonel, U. S. Air Force,*
*Air Adjutant General.*

## Chapter XVI—Selective Service System

[Amdt. 70]

PART 1621—PREPARATION FOR CLASSIFICATION

LISTS OF REGISTRANTS

Paragraphs (a) and (c) of § 1621.5 of the Selective Service Regulations are amended to read as follows:

§ 1621.5 *Preparation of List of Registrants (SSS Form No. 3).* (a) A List of Registrants (SSS Form No. 3) shall be prepared in duplicate. A Separate List of Registrants (SSS Form No. 3) shall be prepared by the local board for each group of registrants who were born in any one year. On each List of Registrants (SSS Form No. 3) shall be entered the names of the registrants, their dates of birth, their places of residence, and their selective service numbers. Registrants shall be listed on the List of Registrants (SSS Form No. 3) in the order of their dates of birth commencing with the oldest registrant except that the names of late registrants and of registrants whose Registration Cards (SSS Form No. 1) are received late shall be placed at the bottom of the list for registrants of their year of birth.

* * * * *

(c) The local board shall forward the original of each List of Registrants (SSS Form No. 3) to the State Director of Selective Service who shall retain it as a permanent roster of all registrants of the local board, and the copy shall be retained and filed by the local board.

(Sec. 10, 62 Stat. 618, as amended; 50 U. S. C. App. 460; E. O. 9979, July 20, 1948, 13 F. R. 4177; 3 CFR, 1948 Supp.)

The foregoing amendment to the Selective Service Regulations shall be effective immediately upon the filing hereof with the Division of the Federal Register.

[SEAL] LEWIS B. HERSHEY,
*Director of Selective Service.*

May 31, 1956.

# TITLE 32A—NATIONAL DEFENSE, APPENDIX

## Chapter I—Office of Defense Mobilization

[Defense Mobilization Order I-23]

DMO I-23—CREATING AN INTERAGENCY HEALTH ADVISORY BOARD

By virtue of the authority vested in me pursuant to the National Security Act of 1947, as amended; Reorganization Plan No. 3, effective June 12, 1953; the Defense Production Act of 1950, as amended; and Executive Order 10480 of August 14, 1953, it is hereby ordered:

1. There is established in the Office of Defense Mobilization an Interagency Health Advisory Board which shall consist of the Chairman of the Health Resources Advisory Committee or his alternate as Chairman, and a representative from each of the following departments and agencies:

Department of Defense.
Department of the Army.
Department of the Navy.
Department of the Air Force.
Department of Health, Education, and Welfare.
Federal Civil Defense Administration.
Veterans Administration.

and such other agencies as the Director of the Office of Defense Mobilization may from time to time designate.

2. The Interagency Health Advisory Board shall furnish advice and assistance to the Director of the Office of Defense Mobilization:

(a) On interagency problems in planning for defense mobilization purposes for the utilization and control of health resources including professional and auxiliary health manpower, health supplies and equipment, and health facilities;

(b) On related health studies and program recommendations; and

(c) On such other related health mobilization matters as may be requested.

3. This order shall take effect on May 31, 1956.

OFFICE OF DEFENSE MOBILIZATION,
ARTHUR S. FLEMMING,
*Director.*

[F. R. Doc. 56-4379; Filed, June 4, 1956; 8:49 a. m.]

## Chapter XII—Defense Minerals Exploration Administration, Department of the Interior

[DMEA Order 1, Amended, Amdt. 3]

DMEA 1—GOVERNMENT AID IN DEFENSE EXPLORATION PROJECTS

SELENIUM

In the formulation of this amendment there has been no consultation with industry representatives or trade association representatives because special circumstances have rendered such consultation impracticable.

Paragraph (b) of section 7 of DMEA Order 1, Amended, (19 F. R. 1563), is amended to include selenium. The introductory portion of the section and paragraph (b), as amended, read as follows:

SEC. 7. *Ratio of contributions.* The Government, upon the terms specified in the contract, will contribute a percentage of the total allowable costs of a project, depending upon the mineral or minerals which are the subject of exploration, as follows:

* * * * *

(b) In the case of antimony, asbestos (chrysotile only), beryl, cobalt, columbium, corundum, diamonds (industrial), kyanite (strategic), manganese, mercury, mica (strategic), monazite and rare earths, nickel, platinum-group metals, quartz crystals (piezo-electric), rutile-bookite, selenium, talc (block-steatite), tantalum, thorium, tin, tungsten, and uranium—75 percent.

(Sec. 704, 64 Stat. 816, as amended; 50 U. S. C., App. 2154. Interprets or applies sec. 303, 64 Stat. 801, as amended; 50 U. S. C. App. 2093)

Dated: May 29, 1956.

C. O. MITTENDORF,
*Administrator, Defense Minerals Exploration Administration.*

[F. R. Doc. 56-4362; Filed, June 4, 1956; 8:45 a. m.]

# TITLE 47—TELECOMMUNICATION

## Chapter I—Federal Communications Commission

[Rules Amdt. 13-6]

PART 13—COMMERCIAL RADIO OPERATORS

AIRCRAFT RADIOTELEPHONE OPERATOR AUTHORIZATION

In the matter of amendment of Part 13 of the Commission's rules to make an editorial change.

The Commission having under consideration § 13.61 (i) of its rules, adopted April 26, 1956, to become effective August 1, 1956, and having under consideration the desirability of making a change therein to correct the language; and

It appearing that the amendment herein is editorial in nature and therefore prior publication of notice of proposed rulemaking under the provisions of section 4 of the Administrative Procedure Act is unnecessary; and

It further appearing that the amendment herein is issued pursuant to authority contained in sections 4 (i), 5 (d) (1) and 303 (r) of the Communications Act of 1934, as amended, and section 0.341 of the Commission's Statement of Organization, Delegations of Authority, and other information;

*It is ordered,* This 29th day of May 1956, that effective August 1, 1956, § 13.61 (i) is amended to include the editorial change set forth below.

(Sec. 4, 48 Stat. 1066, as amended; 47 U. S. C. 154. Interprets or applies sec. 303, 48 Stat. 1082, as amended; sec. 5, 66 Stat. 713; 47 U. S. C. 303, 155)

Released: May 29, 1956.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] MARY JANE MORRIS,
*Secretary.*

The parenthetical explanation at the end of § 13.61 (i) is amended by replacing the comma after "1958" with a period, and by substituting the words "power limitation" for "Order" in the second sentence thereof. As amended the entire § 13.61 (i) reads as follows:

(i) *Aircraft radiotelephone operator authorization.* Aircraft stations at which the installation is used solely for telephony: *Provided,* That the holder of this class of license may not operate in international service or on any frequency the use of which is shared with a foreign station, any aircraft station at which the authorized power in the antenna of the unmodulated carrier wave exceeds 50 watts: *Provided,* That, with respect to any station which the holder of this class of license may operate, (1) such operator is prohibited from making any adjustments that may result in improper transmitter operation and (2) the equipment is so designed that the stability of the frequencies of the transmitter is maintained by the transmitter itself within the limits of tolerance specified by the station license, and none of the operations necessary to be performed during the course of normal rendition of the service of the station may cause off-frequency operation or result in any unauthorized radiation, and (3) any needed adjustments of the transmitter that may affect the proper operation of the station are regularly made by or under the immediate supervision and responsibility of a person holding a first- or second-class commercial radio operator license, either radiotelephone or radiotelegraph, who shall be responsible for the proper functioning of the station equipment. (The 50-watt limit is applicable to all aircraft radiotelephone operator authorizations in force beginning with August 1, 1958. Aircraft radiotelephone authorizations held by persons affected by this power limitation, expiring within the two-year period immediately prior to that date, may be extended to encompass the remainder of the two-year period upon proper request made to any engineering Field Office of the Commission. "International Service" is defined as a telecommunication service between any combination of offices or fixed, land or mobile stations which are in different countries or are subject to different countries.)

# TITLE 49—TRANSPORTATION

## Chapter I—Interstate Commerce Commission

Subchapter B—Carriers by Motor Vehicles

PART 206—FREIGHT COMMODITY STATISTICS

EXEMPT CARRIERS

At a general session of the Interstate Commerce Commission, held at its office in Washington, D. C., on the 21st day of May A. D. 1956.

It appearing that the matter of freight commodity statistics to be compiled and reported by class I common and contract motor carriers of property subject to Part II of the Interstate Commerce Act, 49 U. S. C., sections 301-327, being under consideration for the purpose of exempting certain motor carriers from the reporting requirements of the order of the Commission dated December 9, 1955;

It further appearing that rule making procedure under section 4 (a) of the Administrative Procedure Act, 5 U. S. C. 1003 (a), would be impracticable and contrary to the public interest, and that good cause exists for making this order effective upon less than 30 days notice pursuant to section 4 (c) of the Administrative Procedure Act, 5 U. S. C. 1003 (c):

*It is ordered,* That the order of December 9, 1955, in the above-entitled matter and that 49 CFR 206.2 be, and they are hereby, amended as follows:

Section 206.2 *Exempt carriers,* be amended by changing the reference "(a)-(d)" therein to "(a)-(f)", and by adding to the list therein the following:

(e) Household goods; and

(f) Carriers of specific commodities not grouped in classes 1 to 16, inclusive, Schedule 20 of Motor Carrier Annual Report Form A;

*It is further ordered,* That a copy of this order shall be served on each class I common or contract motor carrier of property subject to Part II of the act and on every trustee, receiver, executor, administrator, or assignee of any such motor carrier; and that notice of this order shall be given to the general public by depositing a copy thereof in the office of the Secretary of the Commission at Washington, D. C., and by filing it with the Director of the Division of the Federal Register;

*And it is further ordered,* That this order shall be effective on the date of this order.

NOTE: The reporting requirements of this order have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

(49 Stat. 546, as amended; 49 U. S. C. 304. Interprets or applies 49 Stat. 563, as amended; 49 U. S. C. 320)

By the Commission.

[SEAL] HAROLD D. MCCOY,
*Secretary.*

## DEPARTMENT OF THE INTERIOR

### Bureau of Land Management

[Classification No. 111]

ALASKA

SMALL TRACT CLASSIFICATION

MAY 28, 1956.

1. Pursuant to authority delegated to me by Bureau Order No. 541, dated April 21, 1954 (19 F. R. 2473), as amended, I hereby classify the following described public lands, totalling approximately 38.3 acres in the Anchorage Land District, Alaska, as suitable for lease and sale for recreational purposes under the Small Tract Act of June 1, 1938 (52 Stat. 609, 43 U. S. C. 682a) as amended:

HAINES AREA

CHILKOOT LAKE—TRACT 1

*For Lease and Sale*

*For Recreational Sites*

Commencing at latitude 59°20'05" North, longitude 135°33'45" West, located on the

south shore of Chilkoot Lake called meander Corner No. 1, proceed S. 0° 30' E. for 8.75 chains to Corner No. 2, thence S. 88° E. for 28.75 chains to Corner No. 2, thence N. 71° W. for 10 chains to Corner No. 4, thence S. 8° 30' E. for 3.75 chains to Corner No. 5, thence S. 35° E. for 12.5 chains to Corner No. 6, thence S. 5° E. for 5.6 chains to Corner No. 7, thence S. 40° W. for 12.5 chains to Corner No. 8, thence N. 38° W. for 5.6 chains to meander Corner No. 9 located on the shores of Chilkoot Lake, then meander in a northerly then easterly direction along the south and east shore of Chilkoot Lake a distance of approximately 104.5 chains to meander Corner No. 1, the point of beginning, embracing approximately 38.3 acres.

2. Classification of the above-described lands by this order segregates them from all appropriations including locations under the mining laws, except as to applications under the mineral leasing laws.

3. The lands classified by this order shall not become subject to application under the Small Tract Act of June 1, 1938 (52 Stat. 609; 43 U. S. C. 682a), as amended, until it is so provided by an order to be issued by an authorized officer, opening the lands to application or bid with preference right to veterans of World War II and of the Korean conflict and other qualified persons entitled to preference under the act of September 27, 1944 (58 Stat. 497; 43 U. S. C. 279–284), as amended.

4. All valid applications filed prior to the date of the signing of this order will be granted, as soon as possible, the preference right provided for by 43 CFR 257.5 (a).

L. T. MAIN,
*Acting Operations Supervisor.*

## DEPARTMENT OF AGRICULTURE

### Agricultural Marketing Service

STRATTON SALES BARN

DEPOSTING OF STOCKYARD

It has been ascertained that the Stratton Sales Barn, Stratton, Colorado, originally posted on August 30, 1950, as being subject to the Packers and Stockyards Act, 1921, as amended (7 U. S. C. 181 et seq.), no longer comes within the definition of a stockyard under that act for the reason that it no longer meets the area requirements. Accordingly, notice is given to the owner thereof and to the public that such livestock market is no longer subject to the provisions of the act.

Notice of public rule making has not preceded promulgation of the foregoing rule since it is found that the giving of such notice would prevent the due and timely administration of the Packers and Stockyards Act and would, therefore, be impractical. There is no legal warrant or justification for not deposting promptly a livestock market which no longer meets the area requirements of the act and is, therefore, no longer a stockyard within the definition contained in the act.

The foregoing is in the nature of a rule granting an exemption or relieving a restriction and, therefore, may be made effective in less than 30 days after its publication in the FEDERAL REGISTER. This notice shall become effective upon publication in the FEDERAL REGISTER.

(42 Stat. 159, as amended and supplemented; 7 U. S. C. 181 et seq.)

Done at Washington, D. C., this 29th day of May 1956.

[SEAL] H. E. REED,
*Director, Livestock Division Agricultural Marketing Service.*

[F. R. Doc. 56–4390; Filed, June 4, 1956; 8:51 a. m.]

## DEPARTMENT OF COMMERCE

### Federal Maritime Board

[Docket No. S–64]

ISBRANDTSEN CO., INC.

NOTICE OF HEARING ON APPLICATION FOR AN OPERATING-DIFFERENTIAL SUBSIDY AGREEMENT ON CERTAIN SERVICES

Notice is hereby given that a public hearing will be held under sections 605 (c) and 805 (a) of the Merchant Marine Act, 1936, as amended, upon an application of Isbrandtsen Company, Inc., for an operating-differential subsidy agreement on the following described services:

Service A: During the Great Lakes navigation season, two sailings per month with dry-cargo vessels—

Between: United States Great Lakes and St. Lawrence River ports (Chicago, including Calumet Harbor area, Milwaukee, Detroit and Cleveland as regular ports of call)—with occasional calls, as conditions warrant, at Green Bay, Wisconsin, Toledo, Ohio, Buffalo, New York, Muskegon, Michigan, Ashtabula, Ohio, and other United States ports on Lakes Michigan, Huron, Erie, Ontario and the St. Lawrence River.

And: London and Hamburg, with the privilege of calling at Liverpool and Bremen as conditions warrant.

Service B: During the Great Lakes navigation season, two sailings per month between regular and occasional ports on the Great Lakes and St. Lawrence River, as in Service "A" above—

And: Antwerp and Rotterdam with the privilege of calling at Le Havre, Dunkirk, Bordeaux, Amsterdam, as conditions warrant. Permission is also applied for as to the vessels in Service "A" and Service "B" to "top-off", i. e., load to the vessel's remaining capacity, outbound at Montreal and/or other outside ports and to discharge cargo at these ports on the inbound voyage; and for written permission to engage in (1) the intercoastal service, eastbound only, from a port or ports on the Pacific coast of the United States to a port or ports on the Atlantic coast, via the Panama Canal, in connection with said company's owned vessels operating in the eastbound round-the-world service, (2) the full-cargo trade in the transportation of lumber and/or wood pulp in chartered or owned American-flag vessels from Pacific Coast ports in Washington and Oregon to North Atlantic ports, (3) the domestic coastwise bulk cargo trades with irregular frequency (principally from ports in Texas, and on the Gulf Coast of Florida to North Atlantic ports, principally Baltimore, and "cross-Gulf" between Gulf ports in Florida and Texas) using owned and/or chartered American-flag vessels, and (4) the transportation of cargo from Pacific Coast United States ports to Puerto Rican ports and, on the same voyage, from Puerto Rican ports to United States North Atlantic ports, with owned vessels, in connection with its fortnightly round-the-world service; services (2) and (3) above to be in connection with non-subsidized voyages.

It is proposed, upon completion of the St. Lawrence Seaway, and application is hereby made, to operate suitable dry-cargo vessels in the closed season from North Atlantic ports to the same foreign ports set out in Service "A" and Service "B" above and at the same sailing frequency.

The purpose of the hearing under section 605 (c) is to receive evidence relevant to the following: (1) Whether the application with respect to operations from United States Great Lakes and St. Lawrence River ports during the season of open navigation and with respect to operations from U. S. North Atlantic ports during the season of closed navigation on the Great Lakes and St. Lawrence River is one with respect to a vessel or vessels to be operated on a service, route, or line served by citizens of the United States which would be in addition to the existing service or services, and, if so, whether the service already provided by vessels of United States registry in such service, route, or line is inadequate, and in the accomplishment of the purposes and policy of the act additional vessels should be operated thereon; (2) whether the application covering the aforesaid operations from United States Great Lakes and St. Lawrence River ports and from U. S. North Atlantic ports is one with respect to a vessel operated or to be operated in a service, route, or line served by two or more citizens of the United States with vessels of United States registry, and, if so, whether the effect of the subsidy contract would be to give undue advantage or be unduly prejudicial, as between citizens of the United States, in the operation of vessels in competitive services, routes, or lines; and (3) whether it is necessary to enter into a contract covering the aforesaid operations from United States Great Lakes and St. Lawrence ports and from U. S. North Atlantic ports in order to provide adequate service by vessels of the United States registry.

The purpose of the hearing under section 805 (a) is to receive evidence relevant to whether granting such application (a) will result in unfair competition to any person, firm or corporation operating exclusively in the coastwise or intercoastal service, or (b) would be prejudicial to the objects and policy of the said act.

The hearing will be conducted before an Examiner at a time and place to be announced, in accordance with the Board's rules of practice and procedure, and a recommended decision will be issued.

All persons (including individuals, corporations, associations, firms, partnerships, and public bodies) desiring to intervene in this proceeding are requested to notify the Secretary of the Board within fifteen (15) days from publication hereof, and should promptly file petitions for leave to intervene in accordance with said rules of practice and procedure.

Dated: May 31, 1956.

By order of the Federal Maritime Board.

[SEAL] GEO. A. VIEHMANN,
*Assistant Secretary.*

12.2 Bureau of Safety Investigation.
12.3 Office of Carrier Accounts and Statistics.

GENERAL STATEMENT

SECTION 1.1 *Creation and authority.* The Civil Aeronautics Board, as distinguished from the Civil Aeronautics Administration, is an independent agency headed by a Board composed of five Members who are appointed by the President with the advice and consent of the Senate for six year terms. The President annually designates one of the Members as Chairman and another as Vice-Chairman. The Board, established effective June 30, 1940, pursuant to Reorganization Plans III and IV, exercises the functions of rule making (including the prescription of rules, regulations, and standards), adjudication, and investigation as prescribed in the Civil Aeronautics Act of 1938, as amended.

SEC. 1.2 *Purpose and mission.* The Civil Aeronautics Act of 1938 sets forth the basic principles which guide the Board and prescribes the authority pursuant to which it discharges its responsibilities. The mission of the Board is to foster and encourage the development of an air transportation system which will be adequate for the present and future needs of the foreign and domestic commerce of the United States, the postal service and the national defense; to preserve the inherent advantages of air transportation, and to regard as in the public interest competition to the extent necessary to assure the sound development of an air transportation system adjusted to the national needs; and to regulate air commerce in such manner as to best promote its development and safety.

SEC. 1.3 *Functions.* In general, the Board performs four chief functions: (1) Regulation of the economic aspects of United States air carrier operation, both domestic and international; (2) promulgation of safety standards in the form of Civil Air Regulations; (3) investigation and analysis of aircraft accidents; (4) co-operation and assistance in the establishment and development of international and domestic air transportation. These functions are briefly described in the following paragraphs:

(a) *Economic regulation.* The Board grants or denies "certificates of public convenience and necessity" to American flag carriers for both domestic and international operation and "permits" to foreign carriers; prescribes or approves rates and rate practices of air carriers and determines mail rates; fosters the safe and expeditious transportation of mail and seeks to ensure that reasonable and adequate service to the public is rendered by air carriers, without unjust discriminations, undue preferences or advantages, or unfair or destructive competitive practices; approves or disapproves business relationships between air carriers, including contracts, agreements, interlocking relationships, consolidations, mergers, and acquisitions of control and issues appropriate regulations for the purpose of carrying out these functions. The Board investigates upon complaint or upon its own initiative anything done or omitted to be done by any person or group in contravention of the provisions of the Civil Aeronautics Act; and takes appropriate action to enforce the act.

(b) *Safety regulation.* The Board prescribes safety rules and regulations, including standards for the issuance of airman certificates, aircraft type, production and airworthiness certificates and air carrier operating certificates; and suspends or revokes such certificates.

(c) *Accident investigation and analysis.* The Board prescribes rules of notification and reporting of accidents involving civil aircraft; reviews reports of accidents and determines, after investigation to the extent required, the probable cause of accidents. Formal reports by the Board are made public when deemed to be in the public interest. The Board conducts special studies and research, establishing basic causative and statistical factors and prepares air safety bulletins for the purpose of reducing the number of aircraft accidents and preventing their recurrence.

(d) *Development of international civil aviation.* The Board consults with and assists the State Department in the negotiation of agreements with foreign governments for the establishment or development of air transportation, air navigation, air routes and services; keeps informed with respect to operations of foreign air lines and foreign aviation policies. The Board provides information for and co-ordinates with the International Civil Aviation Organization in the development of all international safety and operational standards. The Board contributes to the expense and personnel requirements of the Air Coordinating Committee; provides information and advice in the Committee's examination of aviation problems and in its recommendations establishing the United States viewpoint on international and domestic aviation matters.

SEC. 1.4 *Offices.* The central office of the Board is located in the Department of Commerce Building, Fourteenth Street between Constitution Avenue and E Street NW., Washington 25, D. C. All meetings of the Board, unless otherwise directed by the Board, are held at the above address. The Board's field offices are located in Alaska and principal cities of the country. The location of these offices is set forth in sections 12.1, 12.2 and 12.3.

OFFICES OF MEMBERS

SEC. 2.1 *Functions of the Board.* The Board Members are charged with carrying out the duties and responsibilities devolving upon the Board under the act. Action initiated pursuant to the Board's own initiative or by any document au-

thorized or required to be filed with the Board originates in or is referred to the appropriate organizational unit for study and recommendation to the Board in accordance with the description of functions outlined hereinafter. In cases other than those in which action is taken pursuant to a final delegation of authority, or in which the responsibility is that of the Chairman (see section 2.2 below), final action is taken by the Board. (See Public Notice PN 8 for statements of final delegations of authority.) The staff of the Board is organized into the following major organizational components:

(a) Bureau of Hearing Examiners.
(b) Bureau of Air Operations.
(c) Bureau of Safety Regulation.
(d) Bureau of Safety Investigation.
(e) Office of Carrier Accounts and Statistics.
(f) Office of the General Counsel.
(g) Office of Compliance.
(h) Office of Congressional Liaison and Public Information.
(i) Office of Administration.

SEC. 2.2 *Functions of the Chairman.* (a) In addition to his duties as a Member of the Board, the Chairman serves as presiding officer at meetings of the Board, determines the order in which day-to-day matters will receive attention of the Board, and by virtue of his role as Chairman, acts as spokesman for the Board before committees of Congress. In the absence or disability of the Chairman, the foregoing duties are exercised by the Vice-Chairman.

(b) Pursuant to Reorganization Plan 13 of 1950, the Chairman is responsible for the executive and administrative functions of the Board, including functions with respect to the appointment and supervision of personnel, the distribution of business among such personnel and among major organizational components of the Board, and the use and expenditure of funds.

(c) Under the terms of Reorganization Plan 13, the Chairman, in exercising the functions enumerated above, is limited by (1) the general policies of the Board and by such regulatory decisions, findings and determinations as the Board, pursuant to law may make; (2) the requirement that the appointment by the Chairman of the heads of major organizational components under the Board shall be subject to the approval of the Board, provided that personnel employed regularly and full time in the immediate offices of Members of the Board other than the Chairman shall not be affected by the provisions of Reorganization Plan 13; (3) and the reservation to the Board of its functions with respect to revising budget estimates and with respect to determining the distribution of appropriated funds according to major program purposes.

SEC. 2.3 *Functions of the Executive Director.* The Executive Director, acting for, and under general delegation of authority from, the Chairman and the Board, serves as General Manager of the Board with responsibility for planning, supervising and co-ordinating the activities of the staff.

### BUREAU OF HEARING EXAMINERS

SEC. 3.1 *Chief Examiner.* The Chief Examiner supervises the Bureau of Hearing Examiners, which is responsible for the conduct and disposition of all formal proceedings before the Board arising under Titles IV, VI, and X, and section 1002 of the act. The Bureau of Hearing Examiners consists of the following organizational components:

(a) Economic Proceedings Division.
(b) Safety Enforcement Proceedings Division.
(c) Docket Section.

SEC. 3.2 *Economic Proceedings Division.* The Economic Proceedings Division conducts all formal proceedings before the Board arising under Title IV of the act; schedules the time and place of such hearings; supervises prehearing conferences; and prepares recommendations (except in those economic proceedings for the determination of passenger, cargo, and mail rates) to the Chief Examiner or the Board respecting the disposition of such matters as require action by the Chief Examiner or the Board.

SEC. 3.3 *Safety Enforcement Proceedings Division.* The Safety Enforcement Proceedings Division conducts and disposes of all formal proceedings under sections 602 through 609 of the act, regarding the issuance, amendment, suspension, and revocation of the various types of airman certificates, airworthiness certificates, air carrier operating certificates, production certificates, air navigation certificates and air agency certificates; and prepares recommendations to the Chief Examiner or the Board respecting the disposition of such matters as require action by the Chief Examiner or the Board.

SEC. 3.4 *Docket Section.* The Docket Section receives, dockets, and maintains all documents in formal proceedings before the Board; makes official service of notices, orders, rules, reports, and decisions upon parties to the proceeding; examines all filings for compliance with the Procedural Regulations; advises and assists the public in preparing documents in accordance with the Procedural Regulations; issues periodic statements and reports respecting the status of all formal proceedings; and maintains for public reference copies of applications, petitions, complaints, carrier operational and financial reports, the official docket in formal proceedings and comments on proposed economic regulations.

### BUREAU OF AIR OPERATIONS

SEC. 4.1 *Director.* The Director supervises the Bureau of Air Operations, which is responsible for interpretation of economic data and advice involving policy, procedure to be followed in the economic regulation of domestic, overseas, and international air transportation. The Bureau of Air Operations consists of the following organizational components:

(a) Foreign Air Division.
(b) Routes and Carrier Relations Division.
(c) Rates Division.
(d) Alaska Liaison Office.

SEC. 4.2 *Foreign Air Division.* The Foreign Air Division advises on the formulation of positions to be taken by the United States on international civil aviation matters involving economic foreign policy; serves as liaison between the Board and the Department of State; provides representation, when so designated, in connection with international conferences and bilateral or multilateral relations with foreign countries. In the discharge of these duties the Foreign Air Division analyzes economic data bearing on the problems to be dealt with.

SEC. 4.3 *Routes and Carrier Relations Division.* The Routes and Carrier Relations Division is concerned with the legal and economic aspects of matters arising under sections 401, 402, 404, 405 (e), 416 and 1002 of the Civil Aeronautics Act of 1938, as amended, and section 6 (b) of the Air Commerce Act, as amended, relating to the authorizations of routes and other services required to meet the objectives of the act, whether by issuance of certificate of public convenience and necessity, foreign air permit or exemption order, and relating to the route patterns and services required to provide such services, and relating to all carrier relationships matters arising under sections 401 (i), 402 (h), 407 (a), 407 (b), 407 (c), 408, 409, 411, 412, 1002 (i), and 1102 of the act. The Routes and Carrier Relations Division develops for consideration by the Board statements of policy and program objectives, and recommends or takes action, where authority has been delegated, with respect to specific matters pending before the Board.

SEC. 4.4 *Rates Division.* The Rates Division is concerned with the economic and legal aspects of matters relating to determination of mail rates pursuant to section 406 of the act, determination of commercial rates pursuant to sections 403, 404, and 1002 of the act and the commercial rate aspects of International Air Transport Association resolutions. With respect to these matters, the Rates Division prepares for consideration of, and adoption by, the Board statements of policy and of program objectives and recommends or takes action where authority has been delegated with respect to specific cases pending before the Board.

SEC. 4.5 *Alaska Liaison Office.* The Alaska Liaison Office is concerned with the administration of the act and the Economic Regulations as they relate to matters affecting pilot-owners and to tariff and service matters affecting Alaskan air carriers; advising the Board and the Bureau Director on Alaskan air transportation problems; and conferring with the Alaskan air carriers, government and civic bodies and with users of air transportation in Alaska.

SEC. 4.6 *Bureau Counsel.* An attorney from the Bureau of Air Operations is designated as Bureau Counsel to present the Bureau's position in formal proceedings before the Board arising under the Civil Aeronautics Act, as amended.

### BUREAU OF SAFETY REGULATION

SEC. 5.1 *Director.* The Director supervises the Bureau of Safety Regulation, which is responsible for developing and recommending to the Board the adoption of new or revised Civil Air Regulations; making appropriate recommendations to the Board regarding international activities as reflected by the operation of the International Civil Aviation Organization; and making appropriate recommendations to the Board in regard to those matters considered by the Air Coordinating Committee and requiring Board action. The Bureau of Safety Regulation consists of the following organizational components:

(a) Air Carrier Division.
(b) Airworthiness Division.
(c) General Rules Division.

SEC. 5.2 *Air Carrier Division.* The Air Carrier Division analyzes the need for and develops technical findings and recommendations governing the preparation of new regulations and amendments to existing regulations prescribing the minimum safety standards with respect to air carrier operations involving the certification of air carrier airmen, aircraft operational procedures, inspection and overhaul of aircraft, engines, propellers, and appliances, and air traffic rules; conducts technical research of transport-type aircraft, equipment, and operations, and studies current technological developments and aviation practices as a basis for formulating safety standards; and advises and assists the Board and other organizational units of the Board on any matter involving safety regulation of air carrier operations.

SEC. 5.3 *Airworthiness Division.* The Airworthiness Division analyzes the need for and develops technical findings and recommendations governing the preparation of new regulations and amendments to existing regulations prescribing the minimum design and performance safety standards for airworthiness certification of aircraft, engines, propellers, and appliances; conducts technical research of the airworthiness aspects of aircraft, equipment, and operations, and studies current technological developments and aviation practices as a basis for formulating stafety standards; and advises and assists the Board and its organizational components on problems of an engineering nature.

SEC. 5.4 *General Rules Division.* The General Rules Division analyzes the need for and develops technical findings and recommendations governing the preparation of new regulations or amendments to existing regulations prescribing minimum safety standards which have general application to all phases of civil aviation such as: The certification of pilots (student, private, and commercial), mechanics, control tower operators, and parachute riggers, aircraft operational procedures, inspection and overhaul of aircraft engines, propellers, and appliances, air traffic rules, airmen schools and repair stations, and the transportation of explosives and other dangerous articles; conducts technical research of nontransport-type aircraft, equipment and operations, and studies current technological developments and aviation practices as a basis for formulating safety standards; and advises and assists the Board and its organizational components on matters relating to the general safety problems of operations, utilization of equipment, certification of airmen and air agencies.

SEC. 5.5 *Activities common to all divisions.* Each division, within its own area of specialization, participates in the development of related international standards as prescribed by the International Civil Aviation Organization and modifies United States standards and practices as may be necessary to conform to the international standards; represents the United States at meetings of the Technical Divisions of the International Civil Aviation Organization, Air Navigation Commission and at other meetings concerned with matters falling within the field of interest of the Board and within the technical competence of the Bureau of Safety Regulation and analyzes the results of these meetings and co-ordinates standards and recommended practices adopted by the International Civil Aviation Organization with the Civil Air Regulations; prepares the United States position on matters with which the Air Coordinating Committee is concerned and in which the Board has a primary interest and assists other divisions of the Air Coordinating Committee in preparation of the United States position on matters in which the Board has a secondary or indirect interest; and continually examines manuals and other related materials implementing the Civil Air Regulations to ensure their proper interpretation and application.

### BUREAU OF SAFETY INVESTIGATION

SEC. 6.1 *Director.* The Director supervises the Bureau of Safety Investigation, which is responsible for investigation and analysis of aircraft accidents. The Bureau of Safety Investigation consists of the following organizational components:

(a) Investigation Division.
(b) Hearing and Reports Division.
(c) Technical Division.
(d) Analysis Division.

SEC. 6.2 *Investigation Division.* The Investigation Division directs and assists in the investigation of aircraft accidents to determine their probable cause, and develops current techniques for such investigations. It makes recommendations as to the need for, and participates in, public and special inquiries; makes recommendations to prevent recurring accidents; develops educational material in various specialized phases of air safety; and conducts research and special studies relating to hazards potentially capable of resulting in serious accidents.

SEC. 6.21 *Investigation Field Service.* The field service of the Investigation Division investigates accidents and hazardous conditions involving civil aircraft of United States registry, and accidents to foreign civil aircraft occurring within the United States; reports facts and derives conclusions with respect to probable causes of such accidents; coordinates research with other interested governmental agencies and industry representatives regarding such accidents; and participates in the conferences thereon and as members of the Board of Inquiry at subsequent public inquiries.

SEC. 6.3 *Hearing and Reports Division.* The Hearing and Reports Division arranges for and conducts public accident inquiries in order to ascertain the facts, conditions, circumstances, and probable cause of accidents involving aircraft; prepares all evidence, takes depositions, administers oaths and issues subpenas for witnesses and documents incident to such inquiries; prepares and presents to the Board for adoption preliminary statements of fact and formal accident investigation reports; and arranges for the reproduction of exhibits and factual documents of accident investigation for parties of interest.

SEC. 6.4 *Technical Division.* The Technical Division directs the investigation of the technical aspects of aircraft accidents, including necessary testing of failed parts, involving the engineering problems of aerodynamics, aircraft structure, applicable meteorological factors, powerplants, propellers, electrical, radio and electronic instruments, and related equipment; assists in conduct of public inquiries and in the preparation of the technical portion of reports of accidents; assembles technical data relating to aircraft accidents and aeronautical hazards and prepares technical analysis of aircraft accidents; makes recommendations on technical problems to eliminate aeronautical hazards; and represents the Board at conferences held to obtain action on technical aviation matters.

SEC. 6.5 *Analysis Division.* The Analysis Division classifies and analyzes all reports of accidents involving aircraft in order to establish their basic casual and statistical factors; makes statistical analysis of civil aircraft accidents to isolate elements requiring corrective action and to determine accident trends; compiles statistical and analytical reports for the information of the Board and the public, and issues safety bulletins and accident reports.

### OFFICE OF CARRIER ACCOUNTS AND STATISTICS

SEC. 7.1 *Chief.* The Chief supervises the Office of Carrier Accounts and Statistics, which is responsible for recommending economic regulations related to the general accounting and statistical reporting programs and participating with the General Counsel in the formulation of such regulations; approves all accounting and statistical data prepared for release as an official publication; represents the Board at interdepartmental, industry and international conferences at the direction of the Board; insures effective co-ordination with other Offices and Bureaus; and exercises administrative and technical direction of the functions of the Office. The Office of Carrier Accounts and Statistics consists of the following organizational components:

(a) Regulations and Reports Division.
(b) Field Audits Division.
(c) Research and Statistics Division.

SEC. 7.2 *Regulations and Reports Division.* The Regulations and Reports Division recommends uniform systems of accounts and a uniform system of periodic financial, operational and accounting reports, and necessary revisions thereof for all air carriers; drafts instructions and letters of interpretations; recommends modifications or waiver of uniform requirements; provides expert advice and assistance on accounting matters; and maintains liaison with accounting personnel in private, public and government practice.

SEC. 7.3 *Field Audits Division.* The Field Audits Division conducts field examinations of carrier accounts and records to insure adherence to the accounting and reporting requirements; collects data requested by other organizational units of the Board requiring access to carrier records; maintains close liaison with the Office of Compliance, reporting all significant violations of the accounting and reporting requirements to that Office for direct enforcement action; refers to other appropriate components for information and action, data indicating possible violations of the act or of the Economic Regulations and any other data of interest or value; provides expert advice and assistance on auditing matters; and maintains liaison with auditing persons in industry and other Federal agencies.

SEC. 7.4 *Research and Statistics Division.* The Research and Statistics Division conducts comprehensive economic surveys and studies related to the development and regulation of civil air transport; develops instructions for the conduct of periodic traffic surveys and other research projects and supervises the technical performance of such projects; prepares recurrent reports of operational and financial data; prepares special reports to meet stipulated requirements; prepares statistical indices and develops techniques for forecasting economic trends; comments on prospectuses relating to the issuance of securities by air carriers when so requested; provides expert advice and assistance on accounting and statistical matters; provides cartographic and mechanical drafting services; and maintains liaison with industry and government accounting and statistical officers.

OFFICE OF THE GENERAL COUNSEL

SEC. 8.1 *General Counsel.* The General Counsel supervises the Office of the General Counsel which is responsible for providing the Board and the staff with advice in connection with the legal aspects of economic and safety regulatory activities; personally represents the Board in litigation, negotiations, and conferences (including international) which involve legal considerations and where the proceedings present complex, novel or significant matters; and serves on governmental (e. g., Air Coordinating Committee) and international (e. g., International Civil Aviation Organization) committees. The Office of the General Counsel consists of the following organizational components:

(a) International and Rules Division.
(b) Litigation and Research Division.
(c) Opinion-Writing Division.

SEC. 8.2 *International and Rules Division.* The International and Rules Division participates in the drafting, negotiation, modification and interpretation of international agreements relating to civil aviation and renders legal advisory service in connection therewith; maintains liaison with other units of the Board, other Federal agencies and state aviation authorities on legal aspects of the Board's program; provides representation on various committees, such as ICAO Legal Committee and the Legal Division of the Air Coordinating Committee; drafts testimony and statements for use by the Board Members or staff members for hearings before Congressional committees; presents testimony at hearings upon proposed legislation; examines legislative proposals of interest to the Board and prepares legislative reports thereon; drafts proposed legislation and reports on the status of legislative activity; prepares, reviews and interprets economic, safety and procedural regulations and amendments thereto, and insures that the proper procedural steps are followed in the promulgation thereof; and provides legal advice and assistance on matters relating to defense mobilization and internal administration.

SEC. 8.3 *Litigation and Research Division.* The Litigation and Research Division represents the Board, in collaboration with the Department of Justice, in court actions to which the Board is a party, or is interested, in order to sustain action previously taken by the Board, including preparation of the record, drafting of all necessary briefs, motions and other documents and argument of the case before the court; and performs legal research for and renders legal opinions based thereon on matters of general interest or applicability.

SEC. 8.4 *Opinion-Writing Division.* The Opinion-Writing Division in accordance with instructions of the Board drafts opinions, orders, certificates and permits in cases where the issues, substantive or procedural, warrant formal expression by the Board; and recommends to the Board appropriate action on petitions for reconsideration of previously prepared orders and with respect to other motions or petitions filed at any time after the Examiner's report is issued.

OFFICE OF COMPLIANCE

SEC. 9 *Office of Compliance.* The Office of Compliance is responsible for the development and execution of a program designed to obtain observance of the economic provisions of the Civil Aeronautics Act of 1938, as amended, and of all economic orders, regulations and other requirements promulgated by the Board. The Office of Compliance initiates and conducts investigations of alleged violations; seeks to obtain voluntary compliance by informal action; negotiates, where appropriate, formal stipulations and other consent agreements to cease and desist from illegal practices or recommends the issuance of an appropriate Board order; seeks adjustment of informal complaints; presents evidence and argument in formal economic enforcement proceedings; institutes and prosecutes civil and criminal actions; and maintains liaison with other government agencies in connection with enforcement activities.

OFFICE OF CONGRESSIONAL LIAISON AND PUBLIC INFORMATION

SEC. 10.1 *Office of Congressional Liaison and Public Information.* The Office of Congressional Liaison and Public Information is responsible for maintaining an effective exchange of information between the Board and Congress, for keeping the aviation industry, the press and the general public advised of the major actions of the Board and for co-ordinating the formulation of the Board's legislative program.

OFFICE OF ADMINISTRATION

SEC. 11.1 *Organization.* The Secretary of the Board also serves as Director of the Office of Administration, which consists of the following organizational components:

(a) Minutes Section.
(b) Budget and Fiscal Section.
(c) Management Section.
(d) Personnel Section.
(e) General Services Section.
(f) Publications Section.
(g) Library.

SEC. 11.2 *Documentation.* The Secretary is responsible for recording all formal actions of the Board; the processing, including review as to accuracy, form and content, of all documents evidencing such action; and for authenticating Board records for any official purpose. Pursuant to the Civil Aeronautics Act of 1938, as amended, the Secretary has legal custody of records and documents as specified therein.

SEC. 11.3 *Administrative functions.* As Director, Office of Administration, the Secretary is responsible for providing budget, fiscal, management, personnel and other administrative services to the Board and the staff which include: (a) Developing the Board's annual budget estimates for "Salaries and Expenses" as well as estimates of appropriations for "Payments to Air Carriers" and the justification of these estimates before the Bureau of the Budget and the Appropriations Committees of Congress; (b) developing the Board's annual fiscal plan for utilizing its appropriation for "Salaries and Expenses" and maintaining a system for administrative control of expenditures to conform with such plan and the requirements of law and of regulations; (c) disbursement of, and accounting for, subsidy payments to air carriers in accordance with the provisions of Reorganization Plan 10 of 1953, which involves, among other things, review and processing of the carriers' monthly billings; (d) appraisal of and recommendations concerning the organization of the Board, distribution of functions, operating procedures and management techniques and maintenance of a Manual setting forth current organization, methods and administrative practices; (e) recommending and administering personnel policies and programs and insuring that the same comply with the law and regulations; (f) provision for space, equipment, supplies, communications, reproduction and other resources and facilities.

FIELD ORGANIZATION

SEC. 12.1 *Bureau of Air Operations.* The Alaska Liaison Office of the Bureau is located at Loussac-Sogn Building, Anchorage, Alaska (P. O. Box 2219).

SEC. 12.2 *Bureau of Safety Investigation.* Field offices of the Bureau are located at the following addresses:

*Field Office Address and Territory*

Federal Building, New York International Airport, Jamaica, N. Y.; Maine, New Hampshire, Massachusetts, Rhode Island, Connecticut, Vermont, New York, Pennsylvania, New Jersey, Delaware, Maryland, West Virginia, and Virginia.

P. O. Box 931, Miami International Airport Branch, Miami 48, Fla.; North Carolina, South Carolina, Georgia, Florida, Tennessee, Alabama, Mississippi, and Louisiana east of the 91st meridian.

6200 South Cicero Avenue, Chicago 38, Ill.; Ohio, Kentucky, Indiana, Michigan, Wisconsin, Illinois, Minnesota, North Dakota.

Federal Office Building, 911 Walnut Street, Kansas City, Mo.; Missouri, Iowa, South Dakota, Nebraska, Kansas, Wyoming, Colorado, Texas, Oklahoma, Arkansas and Louisiana, except that portion east of the 91st meridian.

506 Santa Monica Boulevard, Santa Monica, Calif.; New Mexico, Arizona and that portion of California and Nevada south of the following boundary: intersection of the coastline and the 36th parallel eastward to longitude 118°36', thence northerly along the ridge of the Sierra Nevada Mountains to longitude 119°30' and parallel 38° to the Utah State line.

P. O. Box 86, Oakland Airport Station, Oakland 14, Calif.; Utah and the northern portion of Nevada and California north of the Santa Monica office boundary.

Room 202, Administration Building, King County Airport, Seattle 8, Wash.; Washington, Oregon, Idaho, and Montana.

P. O. Box 2219, Anchorage, Alaska; Alaska.

SEC. 12.3 *Office of Carrier Accounts and Statistics.* Field offices of the Office of Carrier Accounts and Statistics are located at 2 Park Avenue, New York 16, New York, the Old Mint Building, Fifth and Mission Streets, San Francisco, California and the Pacific Building, 327 N.E. First Avenue, Miami 32, Florida.

Effective: January 1, 1956.

[SEAL] M. C. MULLIGAN, *Secretary.*

## FEDERAL POWER COMMISSION

[Docket Nos. G-8970, G-9173]

BLACKWELL OIL & GAS CO. ET AL.

ORDER POSTPONING DATE OF HEARING

In the matters of Blackwell Oil & Gas Company, Docket No. G-8970; T. L. James and Company, et al., Docket No. G-9173.

By order issued March 30, 1956, the Commission consolidated these proceedings for the purpose of hearing, and directed that hearing in these matters be commenced on May 21, 1956. By notice of continuance of hearing the Secretary of the Commission postponed the hearing from May 21, 1956, to June 4, 1956. On May 16, 1956, T. L. James Company filed a motion for reconsideration of the postponement, alleging that it cannot be prepared to present its case before July 5, 1956.

The Commission finds: Good cause has been shown for postponing the hearing herein as ordered.

The Commission orders: The hearing in these matters, now fixed to commence on June 4, 1956, be and it is hereby postponed to July 9, 1956.

Issued: May 29, 1956.

By the Commission.

[SEAL] LEON M. FUQUAY, *Secretary.*

[F. R. Doc. 56-4364; Filed, June 4, 1956; 8:46 a. m.]

[Docket No. G-10160]

DELTA NATURAL GAS CO.

NOTICE OF APPLICATION

MAY 28, 1956.

Take notice that Delta Natural Gas Company (applicant), a Kentucky corporation, with its principal place of business at Winchester, Kentucky, filed an application on March 27, 1956, for an order pursuant to section 7 (a) of the Natural Gas Act, directing Tennessee Gas Transmission Company to establish physical connection of its transportation facilities with the proposed facilities of applicant and to sell and deliver natural gas to applicant for resale and distribution in the Cities of Nicholasville and Wilmore, Jessamine County, Kentucky as hereinafter described, all as more fully represented in the application, which is now on file with the Commission and open to public inspection.

Applicant states that no other gas service is available in the proposed service area. It proposes to construct and operate a 4-inch transmission line extending from Tennessee's main line in Garrard County, Kentucky to the Nicholasville City gate, a distance of approximately 11.4 miles and thence to the Wilmore City gate an additional 3.8 miles. Also proposed is the construction and operation of a natural gas distribution system in each of these areas. The estimated cost for the total construction by Applicant is $360,000, which Applicant states it will finance with the proceeds from the sale of $400,000 First Mortgage Bonds at 5 percent.

Applicant states that the City of Nicholasville, Kentucky has 1,141 potential customers within the city limits and 48 along the proposed transmission line. The City of Wilmore, Kentucky has 461 potential customers within its service area making a total for the system of 1,650 potential customers. The estimated gas requirements for both towns are as follows for the years 1956 through 1960:

| | 1956 | 1957 | 1958 | 1959 | 1960 |
|---|---|---|---|---|---|
| Maximum day (Mcf). | 1,600 | 2,320 | 2,400 | 2,550 | 2,660 |
| | 43,200 | 183,110 | 228,800 | 241,580 | 252,300 |

Protests or petitions to intervene may be filed with the Commission in accordance with §§ 1.8 and 1.10 of its rules of practice and procedure (18 CFR 1.8 and 1.10) on or before June 14, 1956.

[SEAL] LEON M. FUQUAY, *Secretary.*

[F. R. Doc. 56-4365; Filed, June 4, 1956; 8:46 a. m.]

[Docket No. E-6684]

VIRGINIA ELECTRIC AND POWER CO. ET AL.

ORDER INSTITUTING AN INVESTIGATION

In the matter of Virginia Electric and Power Company, Dan River Mills, Inc., Spray Cotton Mills, and Spray Water and Land Company, City of Martinsville, Virginia.

The Roanoke Rapids Project No. 2009 of the Virginia Electric and Power Company is located at river mile 137 on the Roanoke River. The John H. Kerr project constructed by the United States is located at river mile 179 on the Roanoke River. The Riverside and Schoolfield projects of the Dan River Mills, Inc., are located at river miles 63 and 66, respectively, on the Dan River. The Spray project of the Spray Cotton Mills and the Spray Water and Land Company is located at river mile 3 on the Smith River. The Martinsville project of the City of Martinsville is located at river mile 25 on the Smith River. The Philpott project constructed by the United States is located at river mile 44 on the Smith River.

Pursuant to the provisions of section 10 (f) of the Federal Power Act, we are required to determine and assess headwater improvement benefit charges against the owner of any project directly benefited by upstream improvements constructed by the United States. The Smith River is a tributary of the Dan River and the latter river discharges into the Roanoke River near Clarksville, Virginia. The Martinsville project, the Spray project, the Schoolfield project, and the Riverside project may be directly benefited by reason of the construction and operation by the United States of its upstream Philpott project. The Roanoke Rapids project may be directly benefited by reason of the construction and operation by the United States of its upstream Philpott and John H. Kerr projects.

The Commission finds: It is appropriate and in the public interest that an investigation be instituted by the Commission as hereinafter provided.

The Commission orders: An investigation is hereby instituted pursuant to the provisions of the Federal Power Act, particularly section 10 (f) thereof, for the purpose of enabling the Commission to determine whether any of the above designated projects located on the Smith, Dan, or Roanoke Rivers downstream

from the above designated headwater improvements constructed by the United States is directly benefited by the construction and operation of such upstream improvements of the United States and, if it so finds, to determine the equitable proportion of the annual charges to be paid by the owner of any project so benefited for interest, maintenance and depreciation on such upstream improvements constructed by the United States.

Issued: May 28, 1956.

By the Commission.

[SEAL] LEON M. FUQUAY, *Secretary.*

[F. R. Doc. 56-4366; Filed, June 4, 1956; 8:46 a. m.]

---

[Docket Nos. G-8695, G-8919]

PHILLIPS PETROLEUM CO. AND GULF OIL CORP.

ORDER SEVERING PROCEEDINGS

By order issued May 19, 1955 the above-designated matters were consolidated with Docket No. G-8697, in the matter of Stanolind Oil and Gas Company (Operator), et al. and Docket No. G-8696, in the matter of Continental Oil Company, for the purpose of hearing.

By notice of severence of proceedings and of hearing, issued on June 10, 1955, Docket Nos. G-8697 and G-8696 were severed from Docket Nos. G-8695 and G-8919.

The Commission finds: Docket No. G-8695, in the matter of Phillips Petroleum Company, should be severed from Docket No. G-8919, in order that the proceedings in Docket No. G-8695 may be consolidated with other proceedings involving the Phillips Petroleum Company now scheduled for hearing on June 26, 1956.

The Commission orders: Docket No. G-8695, in the matter of Phillips Petroleum Company, be and it hereby is severed from Docket No. G-8919, in the matter of Gulf Oil Corporation.

Issued: May 28, 1956.

By the Commission.

[SEAL] LEON M. FUQUAY, *Secretary.*

[F. R. Doc. 56-4367; Filed, June 4, 1956; 8:46 a. m.]

---

[Docket No. G-1148, etc.]

PHILLIPS PETROLEUM CO.

ORDER CONSOLIDATING PROCEEDINGS AND FIXING DATE OF HEARING

In the matter of Phillips Petroleum Company, Docket Nos. G-1148, G-3175, G-4333, G-6621, G-7773, G-8623, G-8695, G-8883, and G-10359.

By order issued October 29, 1948, in Docket No. G-1148, the Commission instituted an investigation of Phillips Petroleum Company (Phillips) to determine (1) whether it is a natural-gas company within the meaning of the Natural Gas Act, and (2) whether, in connection with any transportation or sale of natural gas by such company, subject to the jurisdiction of the Commission, any rates, charges, or classifications demanded, observed, charged or collected, or any rules, regulations, practices or contracts affecting such rates, charges or classifications are unjust, unreasonable, unduly discriminatory, or preferential.

In its opinion issued August 22, 1951,[1] the Commission found, inter alia, that Phillips was not a natural-gas company within the meaning of sections 1 (b) or 2 (6) of the Natural Gas Act, and by order accompanying that opinion the Commission terminated the investigation proceeding instituted by its order of October 29, 1948. Thereafter, the United States Court of Appeals for the District of Columbia Circuit handed down its opinion [2] reversing the Commission and determined that Phillips is a natural-gas company and that the "Commission should fix the rates" for the Phillips sales of natural gas for resale in interstate commerce. On June 7, 1954, the United States Supreme Court affirmed the opinion of the Court of Appeals.[3]

In compliance with the mandate of the Court of Appeals, the Commission, on November 22, 1954, issued its Order vacating termination of proceedings and continuing investigation in Docket No. G-1148.

In each of the eight other dockets hereinabove designated,[4] the Commission has heretofore issued its order suspending proposed increases in rates and charges for sales of natural gas for resale in interstate commerce by Phillips. Such proposed increases approximate $2,300,000 per year in the aggregate. The sales and deliveries of gas involved in the eight designated suspension dockets are made by Phillips to Michigan-Wisconsin Pipe Line Company, Northern Natural Gas Company, Cities Service Gas Company, Arkansas-Louisiana Gas Company, El Paso Natural Gas Company, Consolidated Gas Utilities Corporation, Transcontinental Gas Pipe Corporation and Mississippi River Fuel Corporation. Such sales and deliveries of gas by Phillips involve questions of law and fact interrelated with those inherent in the matters involved and the issues presented in Docket No. G-1148.

The Commission finds: It is appropriate and in the public interest in carrying out the provisions of the Natural Gas Act and good cause exists to consolidate the above-entitled proceedings for the purpose of hearing.

The Commission orders:

(A) Pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by the Natural Gas Act, including particularly sections 4, 5, 14, 15, and 16 thereof, and the Commission's general rules and regulations (18 CFR Chapter I), the proceedings in the above-designated Docket Nos. G-1148, G-3175, G-4333, G-6621, G-7773, G-8623, G-8695, G-8883 and G-10359 be and the same hereby are consolidated for the purpose of hearing.

(B) A hearing be held commencing on June 26, 1956, at 10:00 a. m., e. d. s. t., in a hearing room of the Federal Power Commission, 441 G Street NW., Washington, D. C., concerning the matters involved and the issues presented in the consolidated proceedings designated in paragraph (A) above.

(C) Interested State commissions may participate as provided by §§ 1.8 and 1.37 (f) of the Commission's rules of practice and procedure (18 CFR 1.8 and 1.37 (f)).

Issued: May 28, 1956.

By the Commission.

[SEAL] LEON M. FUQUAY, *Secretary.*

[F. R. Doc. 56-4368; Filed, June 4, 1956; 8:46 a. m.]

---

[Docket Nos. G-9277, G-9280]

CHICAGO CORP. AND GULF PLAINS CORP.

ORDER AMENDING ORDER INSTITUTING INVESTIGATIONS

By order issued in these proceedings on January 27, 1956, the Commission instituted investigations of respondent, The Chicago Corporation (Docket No. G-9277) and respondents, The Chicago Corporation and Gulf Plains Corporation (Docket No. G-9280). The said investigations were instituted to enable the Commission to determine whether, with respect to any transportation or sale of natural gas, subject to the jurisdiction of the Commission, made or proposed to be made by such respondents, any of the rates, charges or classifications demanded, observed, charged or collected, or any rules, regulations, practices or contracts affecting such rates, charges or classifications are unjust, unreasonable, unduly discriminatory or preferential.

In the pleading designated "Defendants' Motions to Dismiss and Answer" filed herein by respondents, The Chicago Corporation and Gulf Plains Corporation on October 17, 1955, in response to the complaint filed by Tennessee Public Service Commission, et al. on August 31, 1955, the said respondents aver, inter alia, that:

Gulf Plains Corporation prior to its dissolution on December 31, 1953, as hereinafter alleged, was a Texas corporation and at the time of and prior to its dissolution was a wholly owned subsidiary of The Chicago Corporation. Pursuant to a plan of complete liquidation and dissolution duly adopted and consented to by The Chicago Corporation as the owner and holder of all of its stock, all of its assets were transferred, conveyed, and assigned to The Chicago Corporation in complete cancellation and liquidation of all of its outstanding capital stock, and The Chicago Corporation assumed all of the valid legal obligations of Gulf Plains Corporation including those set forth in the aforementioned contract with Tennessee Gas Transmission Company (TGT). A certificate of dissolution was duly filed with the Secretary of State of the State of Texas and said corporation was thereby dissolved on December 31, 1953. Said corporation has not subsequent to said date existed or functioned as a corporation, and at the time of the filing of this Complaint has no existence as a corporation and consequently is not and has never been a party to The Chicago Corporation FPC Gas Rate Schedule No. 5.

In consideration of the facts above-recited, it appears that Gulf Plains Corporation has not existed, functioned, nor retained any vestige of corporate status since its dissolution on December 31, 1953.

The Commission finds: It is appropriate in the administration of the Natural Gas Act to amend the order instituting investigations issued in these proceedings on January 27, 1956, by deleting therefrom Gulf Plains Corporation as a respondent and by terminating the investigation instituted by such order insofar as it pertains to the said corporation.

The Commission orders:

The Order Instituting Investigations, issued in these proceedings on January 27, 1956, be and the same is hereby amended as follows:

(A) By the deletion therefrom of Gulf Plains Corporation as a respondent in Docket No. G-9280.

(B) By termination of the investigation instituted therein of Gulf Plains Corporation.

Issued: May 28, 1956.

By the Commission.

[SEAL] LEON M. FUQUAY, *Secretary.*

[F. R. Doc. 56-4369; Filed, June 4, 1956; 8:46 a. m.]

---

[Docket No. G-10494]

H. F. SEARS

ORDER SUSPENDING PROPOSED CHANGES IN RATES

H. F. Sears (applicant), on May 11, 1956 tendered for filing proposed changes in presently effective rate schedules for sales subject to the jurisdiction of the Commission. The proposed changes, which constitute increased rates and charges, are contained in the following designated filing which is proposed to become effective on the date shown:

*Description; Purchaser; Rate Schedule Designation; and Effective Date* [1]

Notice of change, undated; Phillips Petroleum Company; Supplement No. 7 to Applicant's FPC Gas Rate Schedule No. 5; June 11, 1956.

The increased rates and charges proposed in the aforesaid filing have not been shown to be justified, and may be unjust, unreasonable, unduly discriminatory, or preferential, or otherwise unlawful.

The Commission finds: It is necessary and proper in the public interest and to aid in the enforcement of the provisions of the Natural Gas Act that the Commission enter upon a hearing concerning the lawfulness of the said proposed changes, and that the above-designated supplement be suspended and the use thereof deferred as hereinafter ordered.

The Commission orders:

(A) Pursuant to the authority contained in sections 4 and 15 of the Natural Gas Act and the Commission's general rules and regulations (18 CFR, Chapter I), a public hearing be held upon a date to be fixed by notice from the Secretary concerning the lawfulness of said proposed changes in rates and charges, and, pending such hearing and decision thereon, the above-designated supplement be and the same hereby is suspended and the use thereof deferred until November 11, 1956, and until such further time as it is made effective in the manner prescribed by the Natural Gas Act.

(B) Neither the supplement hereby suspended, nor the rate schedule sought to be altered thereby, shall be changed until this proceeding has been disposed of or until the period of suspension has expired, unless otherwise ordered by the Commission.

(C) Interested State commissions may participate as provided by §§ 1.8 and 1.37 (f) (18 CFR 1.8 and 1.37 (f)) of the Commission's rules of practice and procedure.

Issued: May 29, 1956.

By the Commission.[1]

[SEAL] LEON M. FUQUAY, *Secretary.*

[Docket No. G-7872 etc.]

GAS GATHERING CO. ET AL.

NOTICE OF APPLICATIONS AND DATE OF HEARING

Take notice that each of the applicants listed below has filed an application for a certificate of public convenience and necessity pursuant to section 7 (c) of the Natural Gas Act, authorizing such applicant to continue to sell natural gas subject to the jurisdiction of the Commission, all as more fully represented in the respective applications which are on file with the Commission and open for public inspection. These matters should be consolidated and disposed of as promptly as possible under the applicable rules and regulations and to that end:

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing will be held on the date and at the place hereinafter stated, concerning the matters involved in and the issues presented by such applications: *Provided, however,* That the Commission may, after a non-contested hearing, dispose of the proceedings pursuant to the provisions of § 1.30 (c) (1) of the Commission's rules of practice and procedure.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) not less than ten days before the date of hearing. Failure of any party to appear at and participate in the hearing shall be construed as Waiver of and concurrence in omission herein of the intermediate decision procedure in cases where a request for waiver is made. Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for applicants to appear or be represented at the hearing.

The dockets, applicants and material averments in applications to which reference is made above are as follows:

*Docket No.; Name and Address; Filing Date; Gas Field; and Purchaser*

G-7872; Gas Gathering Company, Corpus Christi, Tex.; 12-3-54; East Mathis, San Patricio County, Tex.; Texas Illinois Natural Gas Pipeline Company.

G-8419; Crawford Investment Corporation, Shreveport, La.; 1-31-55; East Haynesville, Claiborne Parish, La.; Arkansas-Louisiana Gas Company.

G-8422; American States Oil Company, Oklahoma City, Okla.; 1-31-55; Oklahoma N. E., Glenwood, Beaver County, Okla.; Northern Natural Gas Company.

G-8423; P. H. Pewitt, Longview, Tex.; 1-31-55; Rodessa, Marion County, Tex.; Texas Eastern Transmission Corp.

G-8424; P. H. Pewitt, Longview, Tex.; 1-31-55; Rodessa, Marion County, Tex.; Arkansas-Louisiana Gas Company.

G-8441; Clegg & Hunt, Houston, Tex.; 2-4-55; South Hillebrandt, Bayou, Jefferson County, Tex.; United Gas Pipe Line Company.

G-8448; Gulf Refining Company, Pittsburgh, Pa.; 2-7-55; Athens, Claiborne Parish, La.; Arkansas-Louisiana Gas Company.

G-8449; Kenneth A. Ellison and Edwin C. Nash, Oklahoma City, Okla.; 2-7-55; Hugoton-Guymon, Texas County, Okla.; Northern Natural Gas Company.

G-8451; The Sumner Oil & Gas Company, Marietta, Ohio; 2-7-55; Sutton Township, Meigs County, Ohio; Ohio Fuel Gas Company.

G-8452; Walter E. Stewart, Tyler, Tex.; 2-7-55; South Hallsville, Harrison County, Tex.; Arkansas-Louisiana Gas Company.

## FEDERAL COMMUNICATIONS COMMISSION

[Docket Nos. 11632, 11633; FCC 56M-526]

PACIFIC TELEVISION, INC. AND KOOS, INC.

ORDER CONTINUING HEARING

In re applications of Pacific Television, Inc., Coos Bay, Oregon, Docket No. 11632, File No. BPCT-2046; KOOS, Inc., Coos Bay, Oregon, Docket No. 11633, File No. BPCT-2052; for construction permits for new television broadcast stations.

The Hearing Examiner having under consideration a motion for continuance filed by Pacific Television, Inc., on May 23, 1956;

It appearing that the date for commencement of hearing was previously continued to May 31, 1956, in order to await Commission action upon a request by one of the parties herein for rule-making which would involve the assignment of another UHF channel to Coos Bay; and

It further appearing that this request has not yet been acted upon but the parties do not wish to incur the needless expense in time and money which would be involved in proceeding with the hearing in this case and which may be avoided if the new channel is assigned; and

It further appearing that KOOS, Inc., and the Broadcast Bureau have consented to a grant of the continuance to July 23, 1956;

*It is ordered*, This 28th day of May 1956, that the motion of Pacific Television, Inc., for continuance is granted and that the date for commencement of hearing is continued from May 31 to July 23, 1956.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] MARY JANE MORRIS,
*Secretary.*

[F. R. Doc. 56-4383; Filed, June 4, 1956; 8:50 a. m.]

[Docket No. 11652; FCC 56M-530]

B. L. GOLDEN

ORDER CONTROLLING THE CONDUCT OF HEARING

MAY 28, 1956.

In re application of B. L. Golden, Fresno, California, Docket No. 11652, File No. BP-10085; for construction permit.

*Appearances.* Sylvia Kessler, on behalf of B. L. Golden; Thomas H. Wall and Thomas J. Dougherty, on behalf of Stanislaus County Broadcasters, Inc. (KBOX); A. L. Stein, on behalf of Marmat Broadcasting Company (KBIS); and Earl C. Walck, on behalf of the Chief, Broadcast Bureau, Federal Communications Commission.

1. A pre-hearing conference, pursuant to notice, was held Friday, May 18, 1956.

2. The issues as specified in the Commission's order of March 14, 1956, are as follows:

1. To determine the areas and populations which would receive primary service from the proposed operation, and the availability of other primary service to such areas and populations.

2. To determine whether the proposed operation would cause objectionable interference to Station KBOX, Modesto, California, and Station KECC, Pittsburg, California, or any other existing standard broadcast station, and, if so, the nature and extent thereof, the areas and populations affected thereby and the availability of other primary service to such areas and populations.

3. To determine whether the proposed antenna system would constitute a hazard to air navigation.

4. To determine whether in the light of the evidence adduced under the foregoing issues, a grant of the subject application would serve the public interest.

3. Marmat Broadcasting Company (KBIS) was not a party to the proceeding at the time of the hearing conference but inasmuch as engineering exhibits indicated that the station proposed herein would cause interference to Station KBIS, counsel for that station participated in the hearing conference with the consent of all parties. Marmat Broadcasting Company has now become a party to this proceeding.

4. As shown by the transcript of the hearing conference, the attorney of record for KECC, Incorporated, Pittsburg, California, did not appear at the hearing conference.

5. By a communication dated April 3, 1956, the Air Space Subcommittee of the Air Coordinating Committee has given its approval to the construction of the antenna tower proposed by the applicant herein subject to the tower being market and lighted in accordance with the Commission's rules. Such being the case, Issue 3 is declared by the Examiner to be moot.

6. At the hearing conference on May 18, 1956, it was disclosed that measurements were being taken which were designed to show with greater exactness the possible areas of interference to and from existing and proposed stations and that the engineering exhibits based on such measurements would be made available to the parties on or before Tuesday, May 29, 1956. It was the desire of all parties present that the hearing originally scheduled to begin on Monday, June 4, 1956, begin on June 6, 1956, subject to the right of the parties, other than the applicant, to come forward with rebuttal engineering exhibits if the necessity therefor became apparent.

7. At the hearing conference on May 18, 1956, the following time schedule was agreed to:

a. All exhibits to be offered by the applicant deemed necessary to establish his affirmative showing in response to each and every one of the engineering issues, other than Issue 3 which has become moot, shall be exchanged with the other parties on or before Tuesday, May 29, 1956.

b. The evidentiary hearing originally scheduled to begin on June 4, 1956, will begin on June 6, 1956, at which time the applicant may offer in evidence all of the engineering exhibits exchanged with the parties as provided in a. above.

c. At the evidentiary hearing on June 6, 1956, each party, other than the applicant, will announce whether he desires to introduce in evidence any exhibit which would tend to show engineering facts inconsistent with or at variance with the engineering exhibits exchanged by the applicant as provided in a. above. In the event any party intends to prepare and offer in evidence such exhibits, the Hearing Examiner will specify the time for the exchange of such exhibits and the date for further hearing.

*It is so ordered*, This the 28th day of May 1956.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] MARY JANE MORRIS,
*Secretary.*

[F. R. Doc. 56-4384; Filed, June 4, 1956; 8:50 a. m.]

[Docket No. 11670; FCC 56M-529]

NEWS ON THE AIR, INC.

ORDER CONTROLLING THE CONDUCT OF HEARING

MAY 28, 1956.

In re application of News on the Air, Inc., Port Clinton, Ohio, Docket No. 11670, File No. BP-9977; for construction permit.

*Appearances.* Truman A. Morris and Robert W. Reider, on behalf of News on the Air, Inc.; John F. Clagett, on behalf of Court House Broadcasting Company; Leonidas P. B. Emerson, on behalf of WXYZ, Inc.; and David I. Kraushaar, on behalf of the Chief, Broadcast Bureau, Federal Communications Commission.

1. A pre-hearing conference called pursuant to the provisions of section 1.813 of the Commission's rules was held Monday, May 14, 1956. Participants were those shown in the appearances above.

2. The issues are presently specified in this proceeding are as follows:

1. To determine the areas and populations which would be served by the proposed operation, and the availability of other primary service to such areas and populations.

2. To determine whether the proposed operation would cause objectionable interference to Stations WCHO, Washington Court House, Ohio, and WXYZ, Detroit, Michigan, or any other existing broadcast station, and, if so, the nature and extent thereof, the areas and populations affected thereby, and the availability of other primary service to such areas and populations.

3. To determine whether, because of the interference received, the proposal of News on the Air, Inc., would comply with § 3.28 (c) of the Commission's rules; and if compliance with § 3.28 (c) is not achieved, whether circumstances exist which would warrant a waiver of said section of the rules.

4. To determine, in the light of the evidence adduced with respect to the foregoing issues, whether a grant of the subject application would serve the public interest, convenience or necessity.

3. At the hearing conference on May 14, 1956, it was stated that Court House Broadcasting Company was presently engaged in taking measurements on radio between Station WCHO and the site of the proposed Port Clinton, Ohio, station and that such measurements and exhibits reflecting the same would be available to the parties on or before June 11, 1956. In view of this fact, all parties agreed that the date for the start of the evidentiary hearing should be postponed beyond June 11, 1956, the date presently specified.

4. At the hearing conference on May 14, 1956, the following timetable was agreed to:

a. All exhibits to be offered by the applicant deemed necessary to establish its affirmative showing in response to each and every one of the engineering issues shall be exchanged with other parties on or before Monday, June 11, 1956.

b. All exhibits to be introduced on behalf of Court House Broadcasting Company (Station WCHO) or on behalf of WXYZ, Inc. (WXYZ), designed to establish an affirmative showing by said parties with respect to each and every one of the engineering issues in hearing shall be exchanged with other parties on or before Monday, June 11, 1956.

c. Further hearing conference will be held on Tuesday, June 21, 1956.

d. If after the exchange of the engineering exhibits on June 11, 1956, the parties agree that a further hearing conference is not necessary and the parties are able to agree upon a date for the offer and receipt in evidence of the exhibits which have been exchanged, the Hearing Examiner will entertain a request that he specify an early date for the start of the evidentiary hearing.

e. The evidentiary hearing will not begin on June 11, 1956, the date originally specified, but on a date to be specified by the Hearing Examiner at the hearing conference on June 21, 1956, or in response to a request for a specified date as provided for in d. hereof.

*It is so ordered*, This the 28th day of May 1956.

## SECURITIES AND EXCHANGE COMMISSION

GEORGE D. CLARKE, LTD.

ORDER FOR PROCEEDINGS AND NOTICE OF HEARING

MAY 28, 1956.

In the matter of George D. Clarke, Ltd., 50 Broad Street, New York 4, New York.

I. The Commission's public official files disclose that George D. Clarke, Ltd., a New York Corporation, hereinafter referred to as registrant, is registered as a broker-dealer pursuant to section 15 (b) of the Securities Exchange Act of 1934, and is a member of the National Association of Securities Dealers, Inc., a national securities association, registered pursuant to section 15A of said act.

II. The Records Officer of the Commission has filed with the Commission a statement, a copy of which is attached hereto and made a part hereof,[1] stating that registrant did not file with the Commission reports of his financial condition during the calendar year 1955, as required by section 17 (a) of the Securities Exchange Act of 1934 and Rule X-17A-5 adopted thereunder.

III. The information reported to the Commission by its Records Officer as set forth in Paragraph II hereof tends, if true, to show that registrant violated section 17 (a) of the Securities Exchange Act of 1934 and Rule X-17A-5 adopted under said section.

IV. The Commission, having considered the aforesaid information, deems it necessary and appropriate in the public interest and for the protection of investors that proceedings be instituted to determine:

(a) Whether the statement referred to in Paragraph II hereof is true;

(b) Whether registrant has wilfully violated section 17 (a) of the Securities Exchange Act of 1934 and Rule X-17A-5 adopted under said section;

(c) Whether, pursuant to section 15 (b) of the Securities Exchange Act of 1934, it is in the public interest to revoke registration of registrant;

(d) Whether, pursuant to section 15 (b) of the Securities Exchange Act of 1934, pending final determination, it is necessary or appropriate in the public interest or for the protection of investors to suspend the registration of registrant; and

(e) Whether, pursuant to section 15A (*l*) (2) of the Securities Exchange Act of 1934, it is necessary or appropriate in the public interest or for the protection of investors or to carry out the purposes of said section, to suspend for a period not to exceed twelve (12) months or to expel registrant from membership in the National Association of Securities Dealers, Inc.

V. *It is ordered*, That registrant be given an opportunity for hearing as set forth in Paragraph IV hereof at 10 a. m. on the 27th day of June 1956, at the main office of the Securities and Ex-

[1] Filed as part of the original document.

change Commission, located at 425 Second Street NW., Washington 25, D. C., before a Hearing Examiner to be designated by the Commission. At such time the Hearing Room Clerk in Room 193, North Building, will advise the parties and the Hearing Examiner as to the room in which such hearing will be held. The Commission will consider any motion with respect to a change of place of said hearing if said motion is filed with the Secretary of the Commission on or before June 13, 1956. Upon completion of any such hearing in this matter the Hearing Examiner shall prepare a recommended decision pursuant to Rule IX of the rules of practice unless such decision is waived.

*It is further ordered*, That in the event registrant does not appear personally or through a representative at the time and place herein set or as otherwise ordered, the Hearing Room Clerk shall file with the Records Officer of the Commission a written statement to that effect and thereupon the Commission will take the record under advisement for decision.

This order and notice shall be served on registrant personally or by registered mail forthwith, and published in the FEDERAL REGISTER not later than fifteen (15) days prior to June 27, 1956.

In the absence of an appropriate waiver, no officer or employee of the Commission engaged in the performance of investigative or prosecuting functions in this or any factually related proceeding will be permitted to participate or advise in the decision upon the matter except as witness or counsel in proceedings held pursuant to notice. Since this proceeding is not "rule making" within the meaning of section 4 (c) of the Administrative Procedure Act, it is not deemed to be subject to the provisions of the section delaying the effective date of any final Commission action.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

[F. R. Doc. 56-4374; Filed, June 4, 1956; 8:47 a. m.]

F. M. VAN ECK

ORDER FOR PROCEEDINGS AND NOTICE OF HEARING

At a regular session of the Securities and Exchange Commission held at its office in the city of Washington, D. C., on the 28th day of May 1956.

In the matter of Fred M. van Eck, dba F. M. van Eck, 12 East 88th Street, New York 28, New York.

I. The Commission's public official files disclose that Fred M. van Eck, a sole proprietor, dba F. M. van Eck, hereinafter referred to as registrant, is registered as a broker-dealer pursuant to section 15 (b) of the Securities Exchange Act of 1934.

II. The Records Officer of the Commission has filed with the Commission a statement, a copy of which is attached hereto and made a part hereof,[1] stating that registrant did not file with the Commission reports of his financial condition during the calendar years 1952 and 1955, as required by section 17 (a) of the Securities Exchange Act of 1934 and Rule X-17A-5 adopted thereunder.

III. The information reported to the Commission by its Records Officer as set forth in Paragraph II hereof tends, if true, to show that registrant violated section 17 (a) of the Securities Exchange Act of 1934 and Rule X-17A-5 adopted under said section.

IV. The Commission, having considered the aforesaid information, deems it necessary and appropriate in the public interest and for the protection of investors that proceedings be instituted to determine:

(a) Whether the statement referred to in Paragraph II hereof is true;

(b) Whether registrant has wilfully violated section 17 (a) of the Securities Exchange Act of 1934 and Rule X-17A-5 adopted under said section;

(c) Whether, pursuant to section 15 (b) of the Securities Exchange Act of 1934, it is in the public interest to revoke registration of registrant; and

(d) Whether, pursuant to section 15 (b) of the Securities Exchange Act of 1934, pending final determination, it is necessary or appropriate in the public interest or for the protection of investors to suspend the registration of registrant.

V. *It is ordered*, That registrant be given an opportunity for hearing as set forth in Paragraph IV hereof at 10 a. m. on the 27th day of June 1956, at the main office of the Securities and Exchange Commission, located at 425 Second Street NW., Washington 25, D. C., before a Hearing Examiner to be designated by the Commission. At such time the Hearing Room Clerk in Room 193, North Building, will advise the parties and the Hearing Examiner as to the room in which such hearing will be held. The Commission will consider any motion with respect to a change of place of said hearing if said motion is filed with the Secretary of the Commission on or before June 13, 1956. Upon completion of any such hearing in this matter the Hearing Examiner shall prepare a recommended decision pursuant to Rule IX of the rules of practice unless such decision is waived.

*It is further ordered*, That in the event registrant does not appear personally or through a representative at the time and place herein set or as otherwise ordered, the Hearing Room Clerk shall file with the Records Officer of the Commission a written statement to that effect and thereupon the Commission will take the record under advisement for decision.

This order and notice shall be served on registrant personally or by registered mail forthwith, and published in the FEDERAL REGISTER not later than fifteen (15) days prior to June 27, 1956.

In the absence of an appropriate waiver, no officer or employee of the Commission engaged in the performance of investigative or prosecuting functions in this or any factually related proceeding will be permitted to participate or advise in the decision upon the matter except as witness or counsel in proceedings held pursuant to notice. Since this proceeding is not "rule making" within the meaning of section 4 (c) of the Administrative Procedure Act, it is not deemed to be subject to the provisions of the section delaying the effective date of any final Commission action.

By the Commission.

JOSEPH J. BECKER

ORDER FOR PROCEEDINGS AND NOTICE OF HEARING

At a regular session of the Securities and Exchange Commission held at its office in the city of Washington, D. C., on the 28th day of May 1956.

In the matter of Joseph J. Becker, 24 Commerce Street, Newark, New Jersey.

I. The Commission's public official files disclose that Joseph J. Becker, a sole proprietor, hereinafter referred to as registrant, is registered as a broker-dealer pursuant to section 15 (b) of the Securities Exchange Act of 1934.

II. The Records Officer of the Commission has filed with the Commission a statement, a copy of which is attached hereto and made a part hereof,[1] stating that registrant did not file with the Commission reports of his financial condition during the calendar year 1955 as required by section 17 (a) of the Securities Exchange Act of 1934 and Rule X-17A-5 adopted thereunder.

III. The information reported to the Commission by its Records Officer as set forth in Paragraph II hereof tends, if true, to show that registrant violated section 17 (a) of the Securities Exchange Act of 1934 and Rule X-17A-5 adopted under said section.

IV. The Commission, having considered the aforesaid information, deems it necessary and appropriate in the public interest and for the protection of investors that proceedings be instituted to determine:

(a) Whether the statement referred to in Paragraph II hereof is true;

(b) Whether registrant has wilfully violated section 17 (a) of the Securities Exchange Act of 1934 and Rule X-17A-5 adopted under said section;

(c) Whether, pursuant to section 15 (b) of the Securities Exchange Act of 1934, it is in the public interest to revoke registration of registrant; and

(d) Whether, pursuant to section 15 (b) of the Securities Exchange Act of 1934, pending final determination, it is necessary or appropriate in the public interest or for the protection of investors to suspend the registration of registrant.

V. *It is ordered*, That registrant be given an opportunity for hearing as set forth in Paragraph IV hereof at 10 a. m. on the 27th day of June 1956, at the main office of the Securities and Exchange Commission, located at 425 Second Street NW., Washington 25, D. C., before a Hearing Examiner to be designated by the Commission. At such time the Hearing Room Clerk in Room 193, North Building, will advise the parties and the Hearing Examiner as to the room in which such hearing will be held. The Commission will consider any motion with respect to a change of place of said hearing if said motion is filed with the Secretary of the Commission on or before June 13, 1956. Upon completion of any such hearing in this matter the Hearing Examiner shall prepare a recommended decision pursuant to Rule IX of the rules of practice unless such decision is waived.

*It is further ordered*, That in the event registrant does not appear personally or through a representative at the time and place herein set or as otherwise ordered, the Hearing Room Clerk shall file with the Records Officer of the Commission a written statement to that effect and thereupon the Commission will take the record under advisement for decision.

This order and notice shall be served on registrant personally or by registered mail forthwith, and published in the FEDERAL REGISTER not later than fifteen (15) days prior to June 27, 1956.

In the absence of an appropriate waiver, no officer or employee of the Commission engaged in the performance of investigative or prosecuting functions in this or any factually related proceeding will be permitted to participate or advise in the decision upon the matter except as witness or counsel in proceedings held pursuant to notice. Since this proceeding is not "rule making" within the meaning of section 4 (c) of the Administrative Procedure Act, it is not deemed to be subject to the provisions of the section delaying the effective date of any final Commission action.

WILLIAM P. STONE

ORDER FOR PROCEEDINGS AND NOTICE OF HEARING

At a regular session of the Securities and Exchange Commission held at its office in the city of Washington, D. C., on the 28th day of May 1956.

In the matter of William P. Stone, 347 Madison Avenue, New York 17, New York.

I. The Commission's public official files disclose that William P. Stone, a sole proprietor, hereinafter referred to as registrant, is registered as a broker-dealer pursuant to section 15 (b) of the Securities Exchange Act of 1934.

II. The Records Officer of the Commission has filed with the Commission a statement, a copy of which is attached hereto and made a part hereof,[1] stating that registrant did not file with the Commission reports of his financial condition during the calendar year 1955, as required by section 17 (a) of the Securities Exchange Act of 1934 and Rule X-17A-5 adopted thereunder.

[1] Filed as part of the original document.

III. The information reported to the Commission by its Records Officer as set forth in Paragraph II hereof tends, if true, to show that registrant violated section 17 (a) of the Securities Exchange Act of 1934 and Rule X-17A-5 adopted under said section.

IV. The Commission, having considered the aforesaid information, deems it necessary and appropriate in the public interest and for the protection of investors that proceedings be instituted to determine:

(a) Whether the statement referred to in Paragraph II hereof is true;

(b) Whether registrant has wilfully violated section 17 (a) of the Securities Exchange Act of 1934 and Rule X-17A-5 adopted under said section;

(c) Whether, pursuant to section 15 (b) of the Securities Exchange Act of 1934, it is in the public interest to revoke registration of registrant; and

(d) Whether, pursuant to section 15 (b) of the Securities Exchange Act of 1934, pending final determination, it is necessary or appropriate in the public interest or for the protection of investors to suspend the registration of registrant.

V. *It is ordered*, That registrant be given an opportunity for hearing as set forth in Paragraph IV hereof at 10 a. m. on the 27th day of June 1956, at the main office of the Securities and Exchange Commission, located at 425 Second Street NW., Washington 25, D. C., before a Hearing Examiner to be designated by the Commission. At such time the Hearing Room Clerk in Room 193, North Building, will advise the parties and the Hearing Examiner as to the room in which such hearing will be held. The Commission will consider any motion with respect to a change of place of said hearing if said motion is filed with the Secretary of the Commission on or before June 13, 1956. Upon completion of any such hearing in this matter the Hearing Examiner shall prepare a recommended decision pursuant to Rule IX of the rules of practice unless such decision is waived.

*It is further ordered*, That in the event registrant does not appear personally or through a representative at the time and place herein set or as otherwise ordered, the Hearing Room Clerk shall file with the Records Officer of the Commission a written statement to that effect and thereupon the Commission will take the record under advisement for decision.

This order and notice shall be served on registrant personally or by registered mail forthwith, and published in the FEDERAL REGISTER not later than fifteen (15) days prior to June 27, 1956.

In the absence of an appropriate waiver, no officer or employee of the Commission engaged in the performance of investigative or prosecuting functions in this or any factually related proceeding will be permitted to participate or advise in the decision upon the matter except as witness or counsel in proceedings held pursuant to notice. Since this proceeding is not "rule making" within the meaning of section 4 (c) of the Administrative Procedure Act, it is not deemed to be subject to the provisions of the section delaying the effective date of any final Commission action.

By the Commission.

## INTERSTATE COMMERCE COMMISSION

FOURTH SECTION APPLICATIONS FOR RELIEF

MAY 31, 1956.

Protests to the granting of an application must be prepared in accordance with Rule 40 of the general rules of practice (49 CFR 1.40) and filed within 15 days from the date of publication of this notice in the FEDERAL REGISTER.

LONG-AND-SHORT HAUL

FSA No. 32151: *Acrylonitrile—New Orleans, La., to Chicago, Ill.* Filed by F. C. Kratzmeir, Agent, for interested rail carriers. Rates on acrylonitrile, tank-car loads, from New Orleans, La., to Chicago, Ill.

Grounds for relief: Circuitous routes in part west of the Mississippi River.

FSA No. 32152: *All freight—St. Louis, Mo., group to North Birmingham, Ala.* Filed by F. C. Kratzmeir, Agent, for interested rail carriers. Rates on merchandise, mixed carloads from St. Louis, Mo., and East St. Louis, Ill., to North Birmingham, Ala.

Grounds for relief: Circuitous routes in part west of the Mississippi River.

FSA No. 32153: *Scrap iron and steel from and to points in official territory.* Filed by the Baltimore and Ohio Railroad Company for itself and interested rail carriers. Rates on scrap iron and steel, and related articles, taking same rates, carloads, from specified points on the Baltimore and Ohio Railroad in New York, Ohio, Pennsylvania and West Virginia to specified points in trunk-line territory.

Grounds for relief: Circuitous routes.

Tariff: Supplement 1 to Baltimore and Ohio Railroad tariff I. C. C. 24322.

FSA No. 32154: *Concrete mixture—Southwest to South.* Filed by F. C. Kratzmeir, Agent, for interested rail carriers. Rates on concrete mixture, dry, straight or mixed carloads, as described in the application from specified points in Arkansas, Kansas, Missouri, Oklahoma, and Texas to specified points in southern territory.

Grounds for relief: Short-line distance formula and circuity.

Tariff: Supplement 9 to Agent Kratzmeir's I. C. C. 4185.

FSA No. 32155: *Silica sand to Loving, N. M.* Filed by F. C. Kratzmeir, Agent, for interested rail carriers. Rates on silica sand, carloads from specified points in Arkansas, Missouri, Oklahoma, and Texas, also from Ottawa, Ill., to Loving, N. M.

Grounds for relief: Carrier competition.

Tariff: Supplement 59 to Agent Kratzmeir's I. C. C. 4135.

FSA No. 32156: *Chimney parts—Buda, Ill., to New Jersey and New York.* Filed by H. R. Hinsch, Agent, for interested rail carriers. Rates on chimney parts, carloads, as described in the application from Buda, Ill., to Clark, N. J., Bellport, Riverhead and Thompkinsville, N. Y.

Grounds for relief: Short-line distance formula and circuity.

Tariff: Supplement 174 to Agent Hinsch's I. C. C. 4542.

FSA No. 32157: *Urea—Ohio and West Virginia to Norfolk, Va.* Filed by H. R. Hinsch, Agent, for interested rail carriers. Rates on urea, in bags, barrels or boxes, carloads from Lima and South Point, Ohio and Belle, W. Va., to Norfolk, Va.

Grounds for relief: Market competition and circuity.

Tariff: Supplement 174 to Agent Hinsch's I. C. C. 4542.

By the Commission.

[SEAL] HAROLD D. McCOY, *Secretary.*

## DEPARTMENT OF JUSTICE

### Office of Alien Property

[Vesting Order SA-56]

BALIAN & CO., S. A.

In re: Debt owing to Balian & Co., S. A.; F-57-86, D-63-270.

Under the authority of Title II of the International Claims Settlement Act of 1949, as amended (69 Stat. 562), Executive Order 10644, November 7, 1955 (20 F. R. 8363), Department of Justice Order No. 106-55, November 23, 1955 (20 F. R. 8993), and pursuant to law, after investigation, it is hereby found and determined:

1. That the property described as follows: That certain debt or other obligation of The First National City Bank of New York, 55 Wall Street, New York 15, New York, in the amount of $27,300.10 as of May 7, 1956, being a portion of an account entitled, "Superintendence Company, Inc., Special Account, New York, New York", maintained at the aforesaid bank, together with any and all rights to demand, enforce and collect the same,

is property within the United States which was blocked in accordance with Executive Order 8389, as amended, and remained blocked on August 9, 1955, and which is, and as of September 15, 1947, was, owned directly or indirectly by Balian & Co., S. A., Constantza, Rumania, a national of Rumania as defined in said Executive Order 8389, as amended.

2. That the property described herein is not owned directly by a natural person.

There is hereby vested in the Attorney General of the United States the property described above, to be administered, sold, or otherwise liquidated, in accordance with the provisions of Title II of the International Claims Settlement Act of 1949, as amended.

It is hereby required that the property described above be paid, conveyed, transferred, assigned and delivered to or for the account of the Attorney General of the United States in accordance with directions and instructions issued by or for the Assistant Attorney General, Director, Office of Alien Property, Department of Justice.

The foregoing requirement and any supplement thereto shall be deemed instructions or directions issued under Title II of the International Claims Settlement Act of 1949, as amended. Attention is directed to section 205 of said Title II (69 Stat. 562) which provides that:

Any payment, conveyance, transfer, assignment, or delivery of property made to the President or his designee pursuant to this title, or any rule, regulation, instruction, or direction issued under this title, shall to the extent thereof be a full acquittance and discharge for all purposes of the obligation of the person making the same; and no person shall be held liable in any court for or in respect of any such payment, conveyance, transfer, assignment, or delivery made in good faith in pursuance of and in reliance on the provisions of this title, or of any rule, regulation, instruction, or direction issued thereunder.

Executed at Washington, D. C., on May 29, 1956.

For the Attorney General.

[SEAL] DALLAS S. TOWNSEND, *Assistant Attorney General, Director, Office of Alien Property.*

## TITLE 3—THE PRESIDENT

### PROCLAMATION 3137

FLAG DAY, 1956

BY THE PRESIDENT OF THE UNITED STATES OF AMERICA

A PROCLAMATION

WHEREAS it has become the custom of the people of the United States to set aside June 14 of each year for the commemoration of the adoption of the Stars and Stripes as our national flag by the Continental Congress on June 14, 1777; and

WHEREAS it is highly appropriate that on that day we should contemplate the meaning of this flag which we honor and cherish and under which we serve; and

WHEREAS this glorious emblem symbolizes the high resolution of our forebears that they would leave to posterity a Nation founded upon the principles of freedom and justice; and

WHEREAS, in order to fulfill the responsibilities and to enjoy the privileges inherent in our priceless heritage, it is fitting that we should rededicate ourselves on that commemorative day to the perpetuation of those lofty principles; and

WHEREAS the Congress, by a joint resolution approved August 3, 1949 (63 Stat. 492), has formally designated June 14 as Flag Day and has requested the President to issue annually a proclamation calling for the observance of that day:

NOW, THEREFORE, I, DWIGHT D. EISENHOWER, President of the United States of America, do hereby direct that the flag of the United States be displayed on all Government buildings on Flag Day, Thursday, June 14, 1956, and I call upon the people to observe that day with special ceremonies designed to give expression to our love for our country's flag and our reverence for the ideals for which it stands.

IN WITNESS WHEREOF, I have hereunto set my hand and caused the Seal of the United States of America to be affixed.

DONE at the City of Washington this first day of June in the year of our Lord nineteen hundred and [SEAL] fifty-six, and of the Independence of the United States of America the one hundred and eightieth.

DWIGHT D. EISENHOWER

By the President:

HERBERT HOOVER Jr., *Acting Secretary of State.*

# TITLE 6—AGRICULTURAL CREDIT

## Chapter III—Farmers Home Administration, Department of Agriculture

### Subchapter B—Farm Ownership Loans

[FHA Instruction 424.2]

### PART 324—CONSTRUCTION AND REPAIR (FARM OWNERSHIP AND OTHER PROGRAMS)

### PLANNING FARM DEVELOPMENT FOR FARM OWNERSHIP AND INDIVIDUAL SOIL AND WATER CONSERVATION LOANS

Subpart B in Part 324 of Title 6, Code of Federal Regulations (19 F. R. 4173), is hereby revised to delete reference to the Farm Housing program, to add reference to individual Soil and Water Conservation loans, and to read as follows:

SUBPART B—PLANNING FARM DEVELOPMENT (FARM OWNERSHIP AND INDIVIDUAL SOIL AND WATER CONSERVATION LOANS)

Sec.
324.21 Definitions.
324.22 Policies.
324.23 Responsibilities.
324.24 Salvage or disposition of surplus structures, and use or sale of timber, sand, gravel, and stone.

AUTHORITY: §§ 324.21 to 324.24 issued under sec. 41 (i) 60 Stat. 1066, sec. 6 (3), 50 Stat. 870, sec. 10 (a) (7), 68 Stat. 735; 7 U. S. C. 1015 (i), 16 U. S. C. 590w (3), 16 U. S. C. 590x–3. Interpret or apply sec. 2 (3), 50 Stat. 869, sec. 1, 60 Stat. 1072, sec. 44 (b), 60 Stat. 1069, secs. 9, 10, 68 Stat. 735; 7 U. S. C. 1001, 1018 (b), 16 U. S. C. 590s (3), 590x–2, 590x–3.

§ 324.21 *Definitions.* In connection with Farm Ownership and individual Soil and Water Conservation loans, the following terms are defined:

(a) "Farm Development" means construction and land development.

(b) "Construction" means such work as erecting, improving, remodeling, repairing, relocating, adding to, or salvaging any building or structure, and the installation or repair of, or addition to, heating and electric systems, farmstead wells and water systems, sewage disposal systems, walks, steps, and landscaping.

(c) "Land Development" means items such as terracing, clearing, leveling, fencing, drainage and irrigation systems, ponds, forestation, permanent pasture, perennial hay crops, and basic soil amendments.

§ 324.22 *Policies.* The following policies will be observed in planning farm development:

(a) *Methods of performing farm development.* Planned farm development will be performed by the contract method, the borrower method, or a combination of both the contract and the borrower methods.

(1) *Contract method.* Items of farm development requiring considerable skill or special equipment, such as new dwellings, barns, plumbing, heating and electrical work, land leveling, well drilling, irrigation and drainage installations, should be performed by the contract method whenever possible. All contract work should be performed by a person, firm, or company qualified to provide the services required under the terms of the contract.

(2) *Borrower method.* Items of farm development may be performed by or under the direction of the borrower only when he possesses the necessary skill, desire, technical knowledge, and managerial ability to complete the work satisfactorily, and when such work will not interfere seriously with his farming operations.

(b) *Minimum standards.* All planned construction will be consistent with the minimum construction standards as set forth in Farmers Home Administration regulations governing this subject. All planned land development will be consistent with the recommendations of the State Agricultural Extension Service and the Soil Conservation Service.

(c) *Extent of farm development.* When planning farm development in connection with a Tenant Purchase, Farm Enlargement, or Farm Development loan, it will be the policy to provide for construction and land development necessary to put the farm in livable and operable condition at the outset, consistent with the planned farm and home operations. For a Building Improvement loan, the total building facilities must provide for the successful operation of the farm. For a Soil and Water Conservation loan, improvements will be planned to the extent agreed upon between the applicant and the County Supervisor.

(d) *Excessive buildings.* Dwellings or other farm buildings which are considered to be in excess of the needs of the farm, or would be significantly more expensive than similar buildings in the area, will not be improved or constructed with loan funds.

(e) *Repair of existing buildings on farms being considered for Farm Ownership loans.* Dilapidated buildings which are not worth repairing should be razed and any usable materials salvaged. On the other hand, buildings of value and potential usefulness should be repaired.

(f) *Completion of farm development.* All farm development will be scheduled for completion as quickly as practicable and no later than 15 months from the date of loan closing, except that an item of land development, or a portion thereof, may be scheduled for completion at a date later than the 15-month maximum limit, only when completion of the planned land development within 15 months is contrary to proven practices recommended by the State Agricultural Extension Service or the Soil Conservation Service.

(g) *Providing funds.* The total cash cost of all planned farm development will be shown on Form FHA–643, "Farm Development Plan." Funds will be provided in the loan, from cash on hand, Agricultural Conservation Program payments to be received, or from the sale of property in accordance with § 324.24. Income to be earned will not be considered for financing items of farm development planned on Form FHA–643.

(1) *Deferred advances (direct Tenant Purchase, Farm Enlargement, or Farm Development loans).* In justifiable cases, a deferred advance may be provided for an item of land development, or a portion thereof, which is planned for completion at a date later than the 15-month maximum limit in accordance with paragraph (f) of this section.

(2) *Multiple advances (Soil and Water Conservation loans).* Provisions may be made for more than one advance of Soil and Water Conservation loan funds in accordance with applicable Farmers Home Administration regulations governing multiple advances.

§ 324.23 *Responsibilities.* Planning construction and land development, and obtaining technical services are the responsibility of the applicant, with such assistance from the County Supervisor as may be necessary to insure that the farm development is properly planned.

(a) *Responsibilities of the applicant.* (1) When technical services are required, the applicant will arrange for obtaining

these services from qualified technicians and tradesmen. He will be responsible for furnishing the County Supervisor with sufficient information to describe fully the planned improvements and the manner in which they will be accomplished.

(2) When construction is to be performed, the technical information will include such items as building plans, construction details, specifications, material lists, cost estimates, and other required data.

(3) When land development is to be performed, the technical information will include estimated costs and quantities, construction details, specifications, plans, and material and equipment lists.

(i) When land development consists of, or includes, the conservation and use of water for irrigation or domestic purposes, the information submitted to the County Supervisor will include a statement as to the source of the water supply, right to the use of the water, and the adequacy and quality of the supply. In States which do not have laws governing the use of water for domestic or irrigation purposes (Riparian Doctrine States), the applicant will be required to furnish evidence to meet the requirements of Farmers Home Administration regulations covering Soil and Water Conservation loan policies regarding Compliance with Special Laws and Regulations.

(ii) When the loan includes funds for land leveling, irrigation, or drainage, a map of that portion of the farm to be improved will be prepared, showing the existing conditions with respect to topography, elevations, soil types, and natural drainage, together with the proposed land development. When land leveling is to be performed, information regarding the depth of top soil, depth to hardpan, rock or gravel, and soil conditions requiring special treatment will be shown on the map or on an overlay map. When an irrigation system is to be installed, the location of the water supply, permanent ditches and pipelines, and the areas to be irrigated will be shown on the map. When drainage is involved, drainage installations will be shown on the map, together with fields or areas to be drained.

(4) Whenever possible, the applicant will pay with personal funds any charges made for technical services in connection with his proposed farm development. If this cannot be done, the cost of such services may be included in the loan.

§ 324.24 *Salvage or disposition of surplus structures, and use or sale of timber, sand, gravel, and stone.* (a) In planning farm development, the applicant and the County Supervisor, to the extent practicable, should use salvage from old buildings, and timber, sand, gravel, and stone from the farm.

(b) When the farm has surplus buildings, timber, sand, gravel, or stone for immediate sale that is not to be used in performing farm development and that can be sold, the applicant may sell it and use the net proceeds in paying the costs of performing planned farm development. Except in the case of a Soil and Water Conservation loan secured only by chattels, the following will apply:

(1) When it is agreed that the applicant will dispose of materials, such agreement will be recorded in the narrative of Form FHA–643, which as a minimum will:

(i) Identify the property to be sold; specify the approximate date of the sale, method of marketing, and minimum acceptable price; and indicate the estimated net proceeds.

(ii) Provide that the borrower will deposit the net proceeds in the supervised bank account, use them for planned farm development, and apply any excess net proceeds as an extra payment on the loan.

(iii) Obligate the Government to release the identified property from the mortgage without additional consideration.

(2) The agreement will be considered by the Government as modifying the mortgage contract to the extent of authorizing and requiring the Government to release the identified property subject to the conditions stated in the agreement without payment of other considerations at the time of release, regardless of whether or not the mortgage specifically refers to Form FHA–643, or the agreement to release.

(3) Net proceeds derived from the sale of property so released will be used to accomplish only such items of farm development as properly can be accomplished with loan funds.

(4) In case the loan will be secured by a junior lien, before the loan is approved, any prior mortgagee must give written consent to the proposed sale and the use of the net proceeds.

Dated: May 31, 1956.

[SEAL] H. C. SMITH,
*Acting Administrator,*
*Farmers Home Administration.*

**Subchapter E—Account Servicing**

[FHA Instruction 451.2]

PART 362—COLLECTIONS

AUTHORITY TO CERTAIN FARMERS HOME ADMINISTRATION EMPLOYEES

Section 362.2, Title 6, Code of Federal Regulations (20 F. R. 6989), in authorizing employees in bonded positions to receive, receipt for, exchange for money orders or bank drafts, and transmit collections, is amended so as to read as follows:

§ 362.2 *Authority.* Farmers Home Administration employees in bonded positions are hereby authorized to receive, receipt for, exchange for money orders or bank drafts, and transmit collections.

(R. S. 161, sec. 6 (3), 50 Stat. 870, sec. 41 (1), 60 Stat. 1066, sec. 510 (g), 63 Stat. 438, sec. 4 (c), 64 Stat. 100; 5 U. S. C. 22, 16 U. S. C. 590w (3), 7 U. S. C. 1015 (l), 42 U. S. C. 1480 (g), 40 U. S. C. 442 (c))

Dated: May 31, 1956.

[SEAL] H. C. SMITH,
*Acting Administrator.*
*Farmers Home Administration.*

## Chapter IV—Commodity Stabilization Service and Commodity Credit Corporation, Department of Agriculture

**Subchapter B—Loans, Purchases, and Other Operations**

[1956 C. C. C. Cotton Bulletin 1]

PART 427—COTTON

SUBPART—1956 COTTON LOAN PROGRAM

1956 COTTON BULLETIN

This bulletin contains the regulations specifying the instructions and requirements with respect to the 1956 Cotton Loan Program of Commodity Credit Corporation (hereinafter referred to as CCC) formulated by CCC and the Commodity Stabilization Service (hereinafter referred to as CSS). Loans will be made available on upland and extra long staple cotton produced in 1956, in accordance with this bulletin.

Sec.
427.701 Administration.
427.702 Availability of loans.
427.703 Approved lending agency.
427.704 Producer.
427.705 Eligible producer.
427.706 Eligible cotton.
427.707 Forms.
427.708 Approved storage.
427.709 Rate and weight.
427.710 Preparation of documents.
427.711 Service charges and deposits.
427.712 Fees.
427.713 Liens.
427.714 Set-offs.
427.715 Classification of cotton.
427.716 Interest rate.
427.717 Maturity.
427.718 Safeguarding farm-stored cotton.
427.719 Warehouse receipts and insurance.
427.720 Insurance on farm-stored cotton.
427.721 Warehouse charges.
427.722 Loans on order bills of lading.
427.723 Loans on cotton to be reconcentrated.
427.724 Advance loans.
427.725 Loans on upland cotton prior to August 1, 1956.
427.726 Tender of notes by lending agencies.
427.727 Loss or damage to pledged cotton.
427.728 Transfer of producer's interest.
427.729 Repayments.
427.730 Cotton cooperative marketing association loans.
427.731 Custodial offices.
427.732 Schedule of premiums and discounts for upland cotton (basis 1-inch Middling), and loan rates for extra long staple cotton.

AUTHORITY: §§ 427.701 to 427.732 issued under sec. 4, 62 Stat. 1070, as amended; 15 U. S. C. 714b. Interpret or apply sec. 5, 62 Stat. 1072, secs. 101, 401, 63 Stat. 1051, 1054; 15 U. S. C. 714c, 7 U. S. C. 1441, 1421.

§ 427.701 *Administration.* Under the general direction and supervision of the Executive Vice President, CCC, the Cotton Division and other appropriate Divisions of CSS will carry out the provisions of this subpart. In the field, the program will be administered through the New Orleans CSS Commodity Office, 120 Marais Street, New Orleans 16, Louisiana (referred to in this subpart as the "New Orleans office"), and Agricultural Stabilization and Conservation (referred to in this subpart as "ASC") State and county committees (referred to in this subpart as State committees and county committees, respectively). Forms will be distributed by the New Orleans office and will be available at county ASC offices (referred to in this subpart as county offices) and at approved lending agencies, approved warehouses, and others designated to participate in the loan program. State and county committees and the New Orleans office do not have authority to modify or waive any of the provisions of this subpart or any amendments or supplements hereto.

§ 427.702 *Availability of loans.*—(a) *Loans.* Loans will be available to eligible producers on eligible cotton and will be made available through warehouse, farm-stored, and bill of lading loans.

(b) *Area.* Loans on cotton covered by bills of lading will be available in areas specified by the New Orleans office. Warehouse and farm-stored loans will be available on:

(1) Upland cotton wherever produced in the continental United States.

(2) Extra long staple cotton produced in areas designated in this subparagraph.

(i) American-Egyptian cotton produced in Cochise, Graham, Greenlee, Maricopa, Mohave, Pima, Pinal, Santa Cruz, and Yuma Counties, Arizona; Imperial and Riverside Counties, California; Dona Ana, Eddy, Luna, Otero, and Sierra Counties, New Mexico; and Brewster, Culberson, El Paso, Hudspeth, Jeff Davis, Loving, Pecos, Presidio, Reeves, Terrell, and Ward Counties, Texas, at the rates shown in § 427.732.

(ii) Sea Island and Sealand cotton produced in Atkinson, Berrien, Cook, and Lanier Counties, Georgia; and Alachua, Bradford, Columbia, Hamilton, Jefferson, Lake, Madison, Marion, Orange, Putnam, Seminole, Sumter, Suwannee, Union, and Volusia Counties, Florida; and Sea Island cotton produced from seed planted in 1956 in Puerto Rico at the rates shown in § 427.732.

(c) *Time.* Loans shall be available from the date rates are announced through April 30, 1957. Notes and chattel mortgages covering farm-stored cotton must be signed by the producer and delivered to the county office on or before April 30, 1957. Note and Loan Agreements covering warehouse-stored cotton must be signed by the producer and delivered to the lending agency on or before such date or postmarked not later than April 30, 1957, if tendered for direct loans to the New Orleans office by mail.

(d) *Source.* Loans will be available from approved lending agencies or from the New Orleans office. Disbursements on loans will be made to producers by approved lending agencies under agreements with CCC, or by the New Orleans office. Disbursement of loans by approved lending agencies will be made not later than April 30, 1957, except where specifically approved by the New Orleans office in each instance. The producer shall not present the loan documents for disbursement unless the cotton is in existence and in good condition. If the cotton is not in existence and in good condition at the time of disbursement, the producer shall promptly refund the proceeds.

§ 427.703 *Approved lending agency.* An approved lending agency shall be any bank, corporation, partnership, association, individual, or other legal entity which has entered into a Lending Agency Agreement-Cotton (CCC Cotton Form D) with CCC. Banks and other agencies desiring to enter into Lending Agency Agreements should make application to the New Orleans Office, which will enter into such agreements on behalf of CCC.

§ 427.704 *Producer.* A producer shall be any individual, partnership, corporation, association, trust, estate, or other legal entity, or a State or political subdivision thereof, or an agency of such State or political subdivision, producing eligible upland or extra long staple cotton in the capacity of landowner, landlord, tenant or sharecropper.

§ 427.705 *Eligible producer.* A producer will be entitled to a loan on eligible upland or extra long staple cotton produced by or for him in 1956 on a farm (as defined for purposes of cotton marketing quotas) for which a 1956 acreage allotment for such kind of cotton has been determined under Title III of the Agricultural Adjustment Act of 1938, as amended and supplemented, if all of the following requirements are met:

(a) The 1956 planted acreage (as determined for purposes of cotton marketing quotas) of such kind of cotton on the farm does not exceed the 1956 cotton acreage allotment for the farm for such kind of cotton. For the purpose of determining eligibility for a loan, the upland or extra long staple cotton acreage on the farm will not be deemed to be in excess of the acreage allotment for such cotton unless such acreage allotment for such kind of cotton is knowingly exceeded. If the producer operating the farm is notified that such acreage allotment has been exceeded and the planted acreage is not adjusted to such acreage allotment within the period allowed under the notice, such acreage allotment shall be deemed to have been knowingly exceeded by the producers having an interest in the cotton.

(b) Where eligible cotton is produced by a landlord and his share tenant or sharecropper, a loan may be obtained only as follows:

(1) If the cotton is divided among the producers entitled to share in such cotton, each landlord, tenant, or sharecropper may obtain a loan on his separate share.

(2) If the cotton is not divided, (i) the landlord and one or more of the share tenants or sharecroppers may obtain a joint loan on their shares of such cotton, or (ii) the landlord may obtain a loan on cotton in which both he and one or more share tenants or sharecroppers have an interest if he has the legal right to do so, and in such cases the share tenants or sharecroppers must be paid their pro rata share of the loan proceeds and their pro rata share of any additional proceeds received from the cotton. In no case shall a share tenant or sharecropper obtain a loan individually on cotton in which a landlord has an interest.

§ 427.706 *Eligible cotton.* Eligible cotton shall be upland cotton produced in the United States in 1956 or extra long staple cotton planted in 1956 and produced in areas designated under § 427.702, which meets the following requirements:

(a) Such cotton must be of a grade and staple length specified in § 427.732.

(b) Such cotton must not be false packed, waterpacked, mixed-packed, reginned, or repacked; upland cotton must not have been reduced in grade or staple for any reason, except that any such cotton which is reduced not more than two grades because of preparation will be eligible; extra long staple cotton must have been ginned on a roller gin, shall be of normal character, and must not have been reduced in grade or staple for any reason.

(c) Such cotton must not be compressed to high density.

(d) Such cotton must have been produced by the person tendering it for a loan and such person must have the legal right to pledge or mortgage it as a security for a loan.

(e) If the person tendering such cotton is a landlord or landowner, the cotton must not have been acquired by such landlord or landowner directly or indirectly from a share tenant or sharecropper and must not have been received in payment of fixed or standing rent; and if it was produced by him in the capacity of landlord, share tenant or sharecropper, it must be his separate share of the crop, unless he is a landlord and is tendering cotton in which both he and one or more share tenants or sharecroppers have an interest.

(f) The person or association tendering such cotton must not have previously sold and repurchased such cotton.

(g) Each bale of cotton must weigh not less than 350 nor more than 650 pounds, gross weight, and must be adequately packaged in new material manufactured for cotton bale covering, except used jute and sugar bagging will be acceptable if such bagging is clean and in sound condition. Heads of bales must be completely covered. New bagging used in the Cotton Experimental Bale Cover Program sponsored by the National Cotton Council, Memphis, Tennessee (hereinafter referred to as "Experimental Bale Cover Program") will be acceptable provided there is attached to each bale covered with such bagging a tag which identifies such bale with the program, the type of cover used on such bale and which shows the actual tare weight and the number of pounds to be added to the gross weight of the bale for the purpose of adjusting the bale to the normal gross weight under such program.

§ 427.707 *Forms.* The following documents must be delivered by producers in

connection with every loan except loans made pursuant to §§ 427.724 and 427.730.

(a) *Warehouse-stored loans.* (1) Cotton Producer's Note and Loan Agreement (CCC Cotton Form A, referred to in this subpart as "Form A").

(2) Warehouse receipts complying with the provisions of § 427.719.

(3) Producer's Letter of Transmittal (CCC Cotton Form B, referred to in this subpart as "Form B") if the loan is obtained direct from the New Orleans office.

(b) *Farm-stored loans.* (1) Cotton Producer's Note (CCC Cotton Form E, referred to in this subpart as "Form E").

(2) Cotton Chattel Mortgage (CCC Cotton Form F, referred to in this subpart as "Form F") and Cotton Mortgage Supplement (CCC Cotton Form FF, referred to in this subpart as "Form FF") covering the cotton tendered as security for a loan.

(3) Form B if the loan is obtained direct from the New Orleans office.

(c) *Cotton represented by order bills of lading.* (1) Form A executed within the area and during the period such loans are available.

(2) Order bill of lading in a form acceptable to CCC and representing the cotton tendered as security for the loan.

(3) If the Receiving Agency is not a warehouseman, Weight and Condition Certificates complying with the provisions of § 427.722 and a Receiving Agent's Certificate.

(4) Form B if the loan is obtained direct from the New Orleans office.

(d) *Loan documents executed by an administrator, executor or trustee.* Loan documents executed by an administrator, executor or trustee will be acceptable only where valid in law and must be accompanied by documentary evidence of the authority of the person executing the form or by a repurchase agreement of the lending agency. Copies of this agreement may be obtained from the New Orleans office. State documentary revenue stamps shall be affixed to loan documents where required by law. A producer who desires to appoint an attorney-in-fact to act in his place and stead in obtaining loans shall use Power of Attorney (CCC Cotton Form 18) which must be filed with the New Orleans office.

§ 427.708 *Approved storage.* Loans will be made only on cotton in approved storage.

(a) *Warehouses.* Cotton will be accepted as security for loans only if stored by warehouses approved by CCC. Warehousemen desiring approval of their facilities should communicate with the New Orleans office. The names of approved warehouses may be obtained from the New Orleans office or State or county offices.

(b) *Farm storage.* Cotton in farm storage will be accepted as security for loans only if stored in a structure approved by the county committee for the county in which the cotton is stored. Such structures may be on or off the farm and must afford safe storage and protection against weather damage, poultry and livestock, and reasonable protection against fire and theft. If the producer does not own the premises where the cotton is stored and his lease on such premises expires prior to September 30, 1957, the owner of such premises must execute the Consent for Storage on the Cotton Mortgage Supplement. Any other tenant who has a right or interest in the premises must also execute the Consent for Storage.

§ 427.709 *Weight and rate.* (a) loans will be made on the gross weight of upland cotton and on the net weight of extra long staple cotton. Notes covering cotton pledged on reweights will not be accepted if it is evident that such reweights reflect an increase in weight due to the absorption of additional moisture. In making loans on upland cotton covered with cotton bagging made of cotton material manufactured specifically for covering cotton bales an allowance of 7 pounds per bale will be added to the gross weight of the bale. In order to encourage improved wrapping methods and compensate for resulting reduced tare weight, in making loans on upland cotton wrapped with material under the Experimental Bale Cover Program there will be added to the gross weight of the bale an allowance equal to the number of pounds shown by the program bale tag to be necessary "to adjust to normal gross weight" under such program. No allowances other than those provided for in this subsection will be made.

(b) The base loan rate for upland cotton applicable at each approved warehouse will be shown in the Schedule of Base Loan Rates for Warehouse-Stored Upland Cotton.[1] The base loan rate under the farm-stored program for upland cotton for each county will be shown in the Schedule of Base Loan Rates by Counties for Farm-Stored Upland Cotton.[1] These schedules will be available at county offices. The premium or discount applicable to each eligible grade and staple length of upland cotton is shown in § 427.732. Loan rates for extra long staple cotton are also shown in § 427.732. After a loan is made, CCC will not be obligated to make adjustments in the amount of the loan as a result of any subsequent redetermination of the weight or quality of the cotton.

§ 427.710 *Preparation of documents.* All applicable blanks on the loan forms must be filled in with ink, indelible pencil, or typewriter in the manner indicated therein, and documents containing additions, alterations, or erasures may be rejected by CCC. (Forms A having a date prior to June 3, 1955, shall not be used.) Both copies should be clearly legible. The spaces provided on Forms A and E for the producer to request and direct payment of the proceeds must be completed in every instance. All disbursements made from the proceeds of a note, including clerk's fee when deducted, must be shown and the total must agree with the amount of the note. In the case of warehouse-stored cotton, care should be exercised by the lending agency to determine that the warehouse receipts are genuine. No deduction may be made from the loan proceeds by the lending agency as a charge for handling the loan documents, except the authorized clerk's fee in case an employee of the lending agency has executed the Clerk's Certificate on Form A. Before the clerk prepares loan documents for a producer, he must determine that the producer is eligible for a loan. The county committee, in preparation of the producer's marketing card, will indicate on the reverse side of the card the producer's eligibility. If the box following the word "Eligible" contains an "X" the clerk will use this as evidence that the producer is eligible for a loan and shall assist the producer in the preparation of his loan documents. If the box following the words "Ineligible Unless Loan Agreement Approved by County Committee" contains an "X" the clerk shall inform the producer that in order for him to obtain a loan he must have his loan documents prepared in the county office. If the box following the word "Ineligible" contains an "X", the producer cannot obtain a loan on such kind of cotton produced on that farm under any condition and should be so informed by the clerk. In the event that the marketing card indicates that the producer is eligible but shows evidence of any alteration or erasure, the clerk should not prepare loan documents and should inform the producer that the documents will have to be prepared in the county office. Lending agencies which are also eligible producers must obtain direct loans on cotton producer by them from the New Orleans office or obtain loans from another approved lending agency.

(a) *Warehouse-stored cotton.* A producer desiring to obtain a loan on warehouse-stored cotton may obtain the necessary forms from county offices, approved lending agencies, approved warehouses, and approved clerks (persons approved by the county committees to assist producers in preparing and executing the loan forms). The Clerk's Certificate on each Form A tendered for a loan must be executed by an approved clerk, who will assist the producer in the preparation and execution of the Form A. The original of Form A must be signed by the producer and the copy marked producer's copy is to be retained by the producer. Loan forms must not be signed in blank. All applicable entries must be completed prior to the time the form is signed by the producer or the loan clerk. All of the cotton pledged as security for any loan must be of the same grade and staple length and must be stored in the same warehouse. Before preparing his loan documents, the producer should give careful consideration to the manner in which he may wish to withdraw the cotton from the loan. Cotton of the same grade and staple length will ordinarily be placed on the same note. However, it may be placed on separate notes if the producer believes it will facilitate the redemption of the cotton from the loan or the sale of his equity in such cotton.

(b) *Farm-stored cotton.* A producer desiring to obtain a loan on farm-stored cotton should communicate with the county office in the county in which the cotton is to be stored. It will be the responsibility of the county committee to arrange for the inspection of the storage structure and to approve it if it determines that it is of such construction as to afford adequate storage for the cotton. The county office will furnish and prepare the necessary documents for a farm-stored loan.

[1] Schedule to be issued about August 15, 1956.

§ 427.711 *Service charges and deposits.* No service charges will be collected in connection with warehouse loans. A service charge of $1.00 per bale with a minimum of $3.00 per loan will be collected by the county office from the producer to cover services rendered in connection with farm-stored loans. State committees are authorized to require prepayment of $3.00 of the service charge. No refund of service charges will be made. A deposit of $1.00 per bale will also be collected from the producer to guarantee delivery of farm-stored cotton if the loan is not repaid by the producer. Such deposit will be returned if the loan is repaid or the cotton is delivered in accordance with delivery instruction issued by the county office. If the producer does not deliver the cotton upon demand by CCC, the county office will arrange delivery and retain the deposit. If delivery costs exceed the deposit, the producer will be liable for the difference.

§ 427.712 *Fees.* The clerk or county office employee assisting the producer in the preparation of the loan documents may collect a fee from the producer not to exceed the fees shown in the following schedules:

| Number of bales on note: | *Maximum fee allowed* |
|---|---|
| 1 | 25 cents. |
| 2–6 | 25 cents plus 15 cents for each bale over 1. |
| 7–18 | $1 plus 10 cents for each bale over 6. |
| 19 and over | $2.20 plus 5 cents for each bale over 18. |

§ 427.713 *Liens.* Eligible cotton must be free and clear of all liens except the warehouseman's lien for charges permitted under § 427.721 on warehouse-stored cotton. The signatures of the holders of all existing liens on cotton tendered as security for a loan, such as landlords, laborers, or mortgagees (but not the warehouseman, if the cotton is stored in a warehouse) must be obtained on the Lienholder's Waiver on each Form A and Form FF. If the producer tendering the cotton for loan is not the owner of the land on which the cotton was produced, all landowners and landlords must sign the Lienholder's Waiver whether or not they claim liens, unless they sign the note jointly with the producer. A fraudulent representation, as to prior liens or otherwise, will render the producer personally liable under the terms of the Loan Agreement and subject him to criminal prosecution under the provisions of the Commodity Credit Corporation Charter Act. The Lienholder's Waiver must be signed personally by all lienholders, by their agents (in which case duly executed Powers of Attorney (CCC Cotton Form 18) must be filed with the New Orleans office), or, if a corporation, by the designated officer thereof customarily authorized to execute such instruments (in which case no authority need be attached).

§ 427.714 *Set-offs.* If the producer is indebted to CCC on any accrued obligation, or if any installment or installments on any loan made available by CCC on farm-storage facilities or mobile drying equipment are past due or are payable or prepayable under the provisions of the note evidencing such loan, out of the proceeds of the price support loan, he must designate CCC or the lending agency holding such note as the payee of the proceeds of the loan to the extent of such indebtedness or installments, but not to exceed that portion of the proceeds remaining after deduction of service charges, clerks' fees, and amounts due prior lienholders. If the producer is indebted to any other agency of the United States and such indebtedness is listed on the county debt register, he must designate such agency as the payee of the proceeds as provided above. Indebtedness owing to CCC or to a lending agency as provided above shall be given first consideration after claims of prior lienholders. In any such case, the producer must go to the county office in the county in which he is listed on the debt register and have his loan documents completed by a clerk in the county office. A clerk in the county office will assist the producer in the preparation of such loan documents and will show in the space provided in the notes the agency to which the checks should be issued and the amount to be collected from the note. Compliance with the provisions of this section shall not constitute a waiver of any right of the producer to contest the justness of the indebtedness involved either by administrative appeal or by legal action.

§ 427.715 *Classification of cotton.* (a) All cotton tendered for loan must be classed by a Board of Cotton Examiners of the United States Department of Agriculture (hereinafter referred to as the "Board") and tendered on the basis of such classification. A Cotton Classification Memorandum Form 1 of the United States Department of Agriculture will be accepted, provided the sample is a representative sample drawn in accordance with instructions to organized cotton improvement groups for sampling cotton under the 1956 Smith-Doxey Program. If the producer's cotton has not been sampled for a Form 1 classification, the warehouseman (for warehouse-stored cotton), receiving agency (for cotton covered by bills of lading), or county office (for farm-stored cotton), shall sample such cotton and forward the samples to the Board serving the district in which the cotton is located. A Cotton Classification Memorandum Form A3 must be inserted in each such sample. A Tag List and Record Sheet (CCC Cotton Form L, referred to in this subpart as "Form L"), must be prepared by the warehouseman, receiving agency or county office, listing each sample included in a shipment to the Board. A copy of such Form L shall be included with the samples and two copies must be mailed separately to the Board. The Board will enter the classification of each bale on the Form L and return a copy of such form to the warehouse, receiving agency or county office. The Cotton Classification Memorandum Form A3 will be returned to the producer by the Board. If a sample has been drawn and submitted for a Form 1 or Form A3 classification, another sample may not be drawn and forwarded to a Board except for a review classification or a reclassification in lieu of review. If a Form 1 or Form A3 review classification or reclassification in lieu of review is obtained, the loan value of the cotton represented thereby will be based on such review classification or reclassification.

(b) A charge of 25 cents per bale shall be collected from the producer by the warehouseman, receiving agency, or county office for all cotton for which samples are submitted to a Board for a Form A3 classification. The Boards will submit billings for classing charges to the warehousemen, receiving agencies, and county offices at the end of each month. Checks or money orders covering these charges shall be made payable to "Commodity Credit Corporation" and shall be sent to the New Orleans office.

§ 427.716 *Interest rate.* Loans and charges on the cotton covered by the loans shall bear interest at the rate of 3½ percent per annum from the date of disbursement to the date of repayment, except that in the case of default in satisfaction of loans on farm-stored cotton, loans will bear interest at the rate of 6 percent per annum from the date of default to the date of repayment.

§ 427.717 *Maturity.* (a) loans mature July 31, 1957, or upon such earlier date as CCC may make demand for payment. If a producer does not repay his loan by maturity, CCC has the right to sell, purchase, or pool the cotton securing the loan in accordance with the provisions of the loan agreement. If the cotton is pooled, the producer will no longer have a right to redeem the cotton but will share ratably in any overplus remaining upon liquidation of the pool. CCC shall have the right to treat any pooled cotton as a reserve supply to be marketed under such sales policies as CCC determines will promote orderly marketing, protect the interests of producers and consumers, and not unduly impair the market for the current crop of cotton, even though part or all of such pooled cotton is disposed of under such policies at less than the current domestic price for such cotton.

(b) Any sum due the producer as a result of the sale or purchase of the cotton or collections of insurance proceeds therefrom, or his ratable share from a pool, shall be payable only to the producer or his personal representative without right of assignment to or substitution of any other person.

(c) If the producer does not repay his loan on farm-stored cotton on or before maturity, he is required to deliver the cotton in accordance with the provisions of Form FF, and if the cotton is not delivered by the producer, the holder of the note may enter on the premises where the cotton is stored and remove the cotton. Upon such delivery or removal, the

holder may dispose of the cotton in accordance with the provisions of this section.

§ 427.718 *Safeguarding farm-stored cotton.* The producer obtaining a loan on farm-stored cotton is obligated to maintain the farm-storage structure in good repair and to keep the cotton in good condition. The producer will be responsible for any loss or damage occurring through the fault or negligence of the producer or as a result of any cause other than fire, flood, lightning, explosion, windstorm, cyclone, or tornado, except that he will not be responsible for loss in weight of not to exceed an average of 10 pounds per bale which is due to natural shrinkage. The maximum amount of cotton stored in any structure shall be limited to 200 bales, unless the State committee determines that a larger maximum is required to make the program more effective in the State. The conversion or unlawful disposition by the producer of any bale of the cotton will render him personally liable for the payment of the mortgage indebtedness.

§ 427.719 *Warehouse receipts and insurance.* Only negotiable warehouse receipts isued by an approved warehouse, properly assigned by an endorsement in blank so as to vest title in the holder or issued to bearer will be acceptable. The warehouse receipts must show that the cotton is covered by fire insurance and must be dated on or prior to the date of the producer's notes. Each receipt must set out in its written or printed terms a description by tag number and weight of the bale represented thereby and all other facts and statements required to be stated in the written or printed terms of a warehouse receipt under the provisions of section 2 of the Uniform Warehouse Receipts Act. Warehouse receipts issued prior to August 1, 1956, which by their terms will expire prior to August 1, 1957, must bear an endorsement of the warehouseman extending the terms of the warehouse receipts for a period of one year from August 1, 1956. Block warehouse receipts will not be accepted except on cotton to be reconcentrated pursuant to § 427.723.

§ 427.720 *Insurance on farm-stored cotton.* CCC will not require the producer to insure cotton under farm-stored loan; however, if the producer does insure the cotton, and if an indemnity is paid thereon, such indemnity shall inure to the benefit of CCC to the extent of its interest after first satisfying the producer's equity in the cotton involved in the loss.

§ 427.721 *Warehouse charges.* (a) The Agreement of Warehouseman on each Form A must be executed by the warehouseman storing the cotton covered by the Form A not more than 15 days preceding the date of the Producer's Note on the Form A and must not be executed subsequent to the date of the note. In the case of loans made to a cotton cooperative marketing association as provided in § 427.730, the Warehouseman's Certificate and Agreement on the Certificate of Association and Agreement of Warehouseman (CCC Cotton Form G–1, referred to in this subpart as "Form G–1") must be executed by the warehouseman storing the cotton covered by such form. By executing the Agreement of Warehouseman on the Form A or the Warehouseman's Certificate and Agreement on the Form G–1, the warehouseman agrees that such cotton will be stored and handled in accordance with the Warehouseman's Certificate and Agreement on the reverse side of the Form A or on the Form G–1 and makes the representations contained therein, and the warehouseman further agrees to store such cotton under conditions and at rates determined as follows:

(1) The cotton shall be insured against loss or damage by fire under a policy or policies providing coverage equivalent to that afforded under the standard fire policy of the State in which the cotton is stored for the full market value (if the cotton is compressed, its market value shall be the market value of flat cotton plus compression charges, or if the cotton is uncompressed and the warehouseman desires to collect his delivery charge for flat cotton in lieu of compression if it is destroyed by fire, such charge must be covered by insurance) at the time and place of loss and shall be kept so insured so long as the warehouse receipts therefor are outstanding, unless the cotton comes under a storage agreement between the warehouseman and CCC allowing the warehouseman to cancel his insurance on the cotton. Such insurance shall cover damage to the cotton by water from the warehouseman's sprinkler system when such damage results from fire in the same warehouse in which the cotton is stored. From the dates of the warehouse receipts representing the cotton or from the date through which the producer has paid storage charges, whichever is later, through July 31, 1957, all charges on the cotton for storage and insurance (as required in § 427.719) shall be at the rate of 43 cents per bale per month or fraction thereof for flat or compressed cotton stored in warehouses operating compress facilities or compressed cotton stored in warehouses not operating compress facilities, and at the rate of 48 cents per bale per month or fraction thereof for flat cotton stored in warehouses not operating compress facilities, or the warehouseman's established tariff on cotton other than CCC loan cotton, whichever is less. Such charges, accrued through July 31 of any year in which these rates are in effect, shall be paid by CCC, as soon as possible after such date, on all of the cotton represented by warehouse receipts held by CCC at the time of payment: *Provided,* That on any cotton for which CCC makes payment of accrued charges through July 31 of any year, payment for the fractional part of a month prior to such date shall be at the proportionate part of the monthly rate. The warehouseman may make a charge for outhandling, including picking out by tag numbers and loading according to custom into cars or trucks, of not to exceed 15 cents per bale if such charges are included in the warehouseman's tariff: *And provided further,* That no such outhandling charge may be made where collection for the service has been included in any other charge or otherwise collected. Charges for compression of cotton by the warehouseman, including compression charges on cotton compressed to standard density by the warehouseman at his gin, will be at the rates provided in the warehouseman's established tariff in effect at the time the service is ordered performed. Compression charges on cotton compressed to standard density for the warehouseman at a gin under contract with the warehouseman will be paid at the rate which the warehouseman pays the ginner. In no event shall compression charges on gin-compressed cotton exceed the rate paid to the ginner by his customers on all other cotton. Charges on gin-compressed cotton will be paid by CCC only when the charges have not been paid to the ginner or the warehouseman by the producer. All other charges on cotton, including flat delivery charges on cotton moved from a warehouse operating compress facilities without payment of compression charges, will be at the rates provided in the warehouseman's established tariff in effect at the time the service is ordered performed: *Provided,* That no charge may be made with respect to the cotton that is not applicable to cotton other than CCC loan cotton stored by the warehouseman, except that the warehouseman may make a charge of not to exceed 20 cents per bale for transmitting samples to the designated classing office, postage, verifying and guaranteeing the correctness of the information for which the warehouse is responsible in the Schedule of Pledged Cotton on the Form A or Form G–1, and executing the Agreement of Warehouseman on the Form A or the Warehouseman's Certificate and Agreement on the Form G–1, if such charges are included in the warehouseman's tariff: *And provided further,* That in no event shall such charge, a service charge or charges for receiving, tagging, weighing, sampling on arrival, or storage of samples, be collected from CCC or a purchaser of the cotton. No charge for compression or for delivery or outhandling, except for an outhandling charge of not to exceed 15 cents and charges for the compression to standard density at gins as provided in this section, will be paid with respect to cotton received by the warehouseman which has been compressed to standard density either by a gin (gin compress bale) or by another warehouseman. No charge of any kind whatsoever will be paid with respect to any of the cotton compressed to high density without the written authority of CCC. The warehouseman shall execute and submit to CCC with each voucher for amounts payable by CCC under this agreement the following certificate: "I hereby certify that I have removed from the cotton covered by this voucher only that amount of cotton necessary to secure representative samples, to properly trim the sample holes; or to otherwise maintain the cotton in the interest of good housekeeping and fire prevention incidental to the handling, storage or compressing said cotton except for reconditioning of damaged cotton; that I have not reconditioned, picked or cleaned by blowing or brushing any of the cotton included in this voucher except as noted on report attached hereto; and that I have not purchased or otherwise obtained any Producers' Equity Transfers on cotton stored in my warehouse which have not been presented to Commodity Credit Corporation within 15 days from the dates such transfers were executed by the producers." The warehouseman shall store the cotton so that the tags will be visible and readily accessible so as to permit an accurate check of stocks at any time. In the event that the cotton is purchased or pooled by CCC or the loan on such cotton is extended or carried in past-due status by CCC after July 31, 1957, the rates quoted herein will remain in effect until terminated by CCC or the warehouseman at the end of any month by giving the other at least 30 days' notice, or until the cotton comes under another storage agreement between the warehouseman and CCC, whichever is earlier. If the cotton is redeemed from the loan or the cotton is sold by CCC, the charges provided in this section shall be applicable for services rendered up to and including the date of such redemption or sale, and the warehouseman shall not charge the holders of the warehouse receipts representing such cotton for such services an amount in excess of that computed in accordance with this agreement. The terms and provisions of this section shall prevail over the written or printed terms of the warehouse receipts representing the cotton covered by the Form A.

(2) By executing the Agreement of Warehouseman on Forms A dated 6–3–55, the warehouseman certifies, in addition to the certifications contained in the Agreement of Warehouseman, that the heads of each bale of the cotton are completely covered with bagging.

§ 427.722 *Loans on order bills of lading.* (a) Loans on cotton represented by order bills of lading will be available only in areas specified by the New Orleans office where there is a shortage of storage space and where the necessary arrangements for handling the cotton may be made.

(b) Cotton represented by order bills of lading will be eligible for a loan only when it is shipped by an approved receiving agency as agent for the producer. Warehousmen, ginners, and other responsible parties in areas where such loans are available may be approved to act as receiving agencies by the New Orleans office. Receiving agencies will enter into Receiving Agency Agreements with CCC. When receiving agencies are approved, notifications will be given by letter or published lists.

(c) A producer who is unable to find storage space in his local area and who wishes to obtain such a loan should deliver his cotton to a receiving agency with the request that it ship the cotton as agent for the producer to a warehouse where storage space is available. The receiving agency will complete the Schedule of Pledged Cotton on a Form A and, if it is a warehouseman, will execute the Agreement of Warehouseman thereon. If the receiving agency is not a warehouseman, it will have the cotton weighed by a public or licensed weigher and will secure a Weight and Condition Certificate in the form prescribed by CCC and execute the Receiving Agent's Certificate. The receiving agency will ship the cotton, secure order bills of lading in a form acceptable to CCC, and deliver to the producer the bills of lading, together with the Form A and Weight and Condition Certificates (if any). If the receiving agency is a warehouseman, it will be permitted to collect fees in accordance with § 427.721 and a fee of not to exceed 10 cents per bale to cover the costs of preparation of shipping documents. If the receiving agency is not a warehouseman, it will, for the purpose of payment of gin compression only be considered as a warehouseman and will be permitted to collect from CCC charges for gin compression as provided in § 427.721 and will be permitted to collect from producers a fee not in excess of the fee set forth in the Receiving Agency Agreement executed by the receiving agency, and shall post, in a conspicuous place, a notice showing the fee to be charged producers. Loans will be made at the full loan rate at the point where the receiving agency receives the cotton. CCC will pay warehouse storage charges on cotton tendered by the producer for a loan under this section, if the receiving agency is a warehouseman.

§ 427.723 *Loans on cotton to be reconcentrated.* Loans on cotton to be reconcentrated will be available only on cotton stored at warehouses approved by the New Orleans office in areas where there is congestion and lack of storage space. The warehousemen will enter into Reconcentration Agreements (CCC Cotton Form 29, referred to in this subpart as "Reconcentration Agreements") with CCC. Warehouse receipts covering cotton to be reconcentrated under a Reconcentration Agreement must be in a form acceptable to CCC and must provide for delivery of the cotton to the order of CCC. Block warehouse receipts covering cotton to be reconcentrated under a Reconcentration Agreement will be accepted. A producer who desires to obtain a loan in this manner should request the warehouseman to issue a warehouse receipt to him in the form specified above and must furnish written authorization to the warehouseman for the reconcentration of his cotton after which the warehouseman will ship the cotton. The Forms A and warehouse receipts covering cotton to be reconcentrated under a Reconcentration Agreement must show the reconcentration order number under which the cotton will be shipped. The producer will obtain a loan on these documents in the usual manner, and after receipt of the loan documents, CCC will surrender the warehouse receipts to the warehouseman.

§ 427.724 *Advance loans.* (a) If a producer desires to obtain a loan under this part on cotton stored or to be stored in a warehouse, prior to the receipt of the classification of such cotton by a Board of Cotton Examiners or prior to the issuance of a warehouse receipt representing the cotton, and if the producer desires to obtain interim financing from a lending agency until such time as a CCC loan may be obtained, the lending agency may make the producer a private loan (called "the advance loan" in this subpart) on such cotton on forms and in amounts agreed upon between the lending agency and the producer and may obtain from the producer a duly executed Producer's Power of Attorney (CCC Cotton Form J, referred to in this subpart as "Form J") in triplicate authorizing and directing the lending agency to prepare or cause to be prepared and execute on behalf of and in the name of the producer Forms A covering all such cotton which is eligible for a loan under this part. The duplicate copy shall be delivered to the producer. On or before the date the advance loan is made, samples must have been drawn from the cotton and submitted to a Board of Cotton Examiners for classification or, if the cotton has not arrived at the warehouse, the warehouseman must have been instructed to sample the cotton and forward the samples for classification upon receipt of the cotton at the warehouse. On or before September 1, 1956, or within 15 days after the dates of the classification certificates, or within 15 days after the dates of the warehouse receipts, whichever is later, the lending agency shall (as provided in the Producer's Power of Attorney), unless the cotton is redeemed by the producer, prepare or cause to be prepared and execute on behalf of the producer Forms A covering all such cotton which is eligible for a loan and make a CCC loan or loans to the producer under this part. The lending agency shall promptly remit to the producer any difference between the amount due on the advance loan and the proceeds of the CCC loan, less any applicable charges under this part paid by the lending agency on behalf of the producer. The producer's copies of Forms A and the canceled note evidencing the advance loan shall be forwarded to the producer. The original of the Producer's Power of Attorney shall be transmitted with the notes when they are tendered to CCC.

(b) It shall be the joint responsibility of the lending agency named in the Form J to obtain the official classification from the producer or the warehouseman and of the producer to deliver the official classification to such lending agency, within 15 days from the date of the classification certificate so that the Form A loans can be made within the specified time.

(c) It shall be the responsibility of the lending agency named in the Form J to obtain the execution of the Agreement of Warehouseman and the Clerk's Certificate on the Form A. Only bona fide employees of lending agencies making the advance loans who are approved as clerks by the county committee or approved clerks in the county office, will be permitted to execute the Clerk's Certificate on Forms A covering cotton on which advance loans have been made.

§ 427.725. *Loans on upland cotton prior to August 1, 1956.* Loans on upland cotton will be made available to producers in the area where such cotton is

harvested prior to August 1, 1956. Base loan rates for warehouse locations in the early harvesting area will be announced by the New Orleans office prior to harvest. The premium or discount applicable to each eligible grade and staple length is shown in § 427.732. Other provisions for loans prior to August 1, 1956, will be the same as provided for loans after that date, except that in the event that the base loan rate based on the August 1, 1956, parity price for upland cotton is in excess of the base loan rate announced prior to such date, the difference will be paid to the producer upon his application to the New Orleans office.

§ 427.726 *Tender of notes by lending agencies.* Notes (Forms A and Forms E) evidencing loans made by a lending agency which has entered into a Lending Agency Agreement-Cotton (CCC Cotton Form D) prior to the making of the loans will be eligible for purchase or pooling by CCC. Under this agreement, lending agencies which are parties thereto are required to tender to CCC, on Lending Agency's Letter of Transmittal (CCC Cotton Form C, referred to in this subpart as "Form C"), all notes on Form A and Form E, with warehouse receipts, bills of lading (and weight and condition certificates, if required), or cotton chattal mortgages attached, representing loans made by the lending agency within 15 days after the date of disbursement of the loans. All notes transmitted on a Form C must cover cotton stored in warehouses in the same custodial district. Separate Forms C shall be used for upland and extra long staple cotton. Notes secured by warehouse receipts, by bills of lading, or by chattel mortgages, and notes executed by attorneys-in-fact, must be transmitted on separate Forms C. Each Form C shall state whether the lending agency desires CCC to purchase the notes or to place them in a pool. Upon receipt of the loan papers by the New Orleans office, they will be examined and, if found correct, will be approved and transmitted to the custodial office serving the district in which the cotton is stored, and will be purchased or placed in a pool as directed by the lending agency. Lending agencies which have previously been approved by CCC as eligible to draw drafts on CCC may, subject to such instructions and requirements as CCC may hereafter from time to time prescribe, obtain immediate payment for notes they desire to sell to CCC, by drawing sight drafts with enclosed letters of transmittal on CCC through a Federal Reserve Bank or Branch Bank approved by CCC. Notes covered by such drafts must be immediately submitted to the New Orleans office. In the event that the notes are pooled, a Certificate of Interest representing the interest in the pool acquired as the result of the deposit therein of the notes shown on the Form C will be issued to any approved lending agency designated on the Form C.

§ 427.727 *Loss or damage to pledged cotton.* In any case where there is loss or damage to cotton which occurs while such cotton is pledged to CCC or a lending agency, CCC shall have the right to determine and file claims against any liable third parties for the resulting loss. Upon determination of the quantity of the lost or damaged cotton, CCC will give credit for the loan value (including charges and interest) of such cotton. If the proceeds of the claim exceed the loan value of such cotton, the excess proceeds shall be remitted to the producer or, if the loan has been repaid, to the party repaying the loan.

§ 427.728 *Transfer of producer's interest.* If the producer desires to sell his equity in the cotton covered by a note, he must complete the Producer's Equity Transfer Agreement in the Producer's Equity Transfer on the reverse side of the Producer's Loan Statement–A, which will be mailed to the producer by the New Orleans office at the time the notes are processed by that office. The producer must sign the Producer's Equity Transfer Agreement in the presence of a witness approved for such purpose by a county committee and the Certificate of Witness in the Producer's Equity Transfer must be dated and signed by the witness. (Notwithstanding the wording of the Certificate of Witness in the Producer's Equity Transfer, a notary public can witness the producer's signature on the Producer's Equity Transfer only when the notary public has been approved as a witness for such purpose by a county committee.) A producer who desires to appoint an attorney-in-fact to act in his place and stead in selling his equity in the cotton shall use Power of Attorney (CCC Cotton Form 19) and file it with the applicable custodial office. The equity purchaser must complete the Certificate of Purchaser in the Producer's Equity Transfer and send it within 15 days to CCC, in care of the custodial office serving the district in which the cotton was stored at the time the loan was obtained. Upon receipt of the Producer's Equity Transfer, the custodial office will forward the note and warehouse receipts to a bank designated by the person requesting their release with directions to the bank to release the note and warehouse receipts to the holder of the equity transfer upon payment of the amount due on the loan. In all such cases, the bank will be instructed to return the note and warehouse receipts to the custodial office if payment is not effected within 5 business days. All charges assessed by the bank to which the note and warehouse receipts are sent must be paid by the person requesting the release of the cotton. No partial release of the cotton securing one note will be permitted, except that CCC may allow partial releases in cases where loss or damage to part of the cotton occurs. In the event the Producer's Loan Statement–A is destroyed or lost, the producer may obtain a duplicate of such form from the custodial office serving the district in which the cotton is stored.

§ 427.729 *Repayments*—(a) *Warehouse-stored cotton.* No partial release of the cotton represented by warehouse receipts and securing a note will be permitted, except that CCC may allow partial releases in cases where loss or damage to part of the cotton occurs. If a producer desires to obtain the return of his note and the release of the cotton securing the note, he must execute the Producer's Redemption Request on the Producer's Loan Statement—A which will be mailed to the producer by the New Orleans office at the time the notes are processed by that office. The producer must send or deliver the Producer's Loan Statement—A to CCC, in care of the custodial office serving the district in which the cotton was stored when the loan was obtained, as shown in § 427.731. Upon receipt of the Producer's Redemption Request, the custodial office will forward the note and warehouse receipts to a bank designated by the producer with directions to the bank to release such note and warehouse receipts only to the producer or his authorized agent upon payment of the amount due on the loan. The bank will be instructed to return the note and warehouse receipts to the custodial office if payment is not effected within 15 days. All charges assessed by the bank must be paid by the producer. A producer who desires to appoint an Attorney-in-Fact to act in his place and stead in repaying loans shall use Power of Attorney (CCC Cotton Form 19) and file it with the applicable custodial office.

(b) *Farm-stored cotton.* If the producer desires to repay his loan and obtain the release of the cotton securing the note, he may obtain complete instruction from the county office of the county in which the cotton is stored. Partial releases will be allowed.

§ 427.730 *Cotton cooperative marketing association loans.* A special form of loan agreement will be made available to cotton cooperative marketing associations whereby members of such associations may act collectively in obtaining loans. The loan rates under this agreement will be the same as the loan rates to individual producers, and eligibility requirements with respect to the cotton and the producers tendering the cotton to the association and other loan provisions will be substantially the same as for loans to individual producers. Members desiring to obtain loans from their associations should contact their associations.

§ 427.731 *Custodial offices.* The custodial offices referred to in this subpart and the district served by each are shown below:

(a) *Warehouse-stored cotton.*

CUSTODIAL OFFICE AND DISTRICT SERVED

Federal Reserve Bank, Atlanta, Ga.: Georgia, Alabama, Florida, Virginia, North Carolina, South Carolina.

Federal Reserve Bank, Dallas, Tex.: New Mexico, Texas.

Federal Reserve Bank, Los Angeles, Calif.: California, Arizona, Nevada.

Federal Reserve Bank, Memphis, Tenn.: Illinois, Kentucky, Arkansas, Missouri, Tennessee, and the following counties in Mississippi: Alcorn, Attala, Benton, Bolivar, Calhoun, Carroll, Chickasaw, Choctaw, Clay, Coahoma, De Soto, Grenada, Holmes, Humphreys, Itawamba, Lafayette, Lee, Leflore, Lowndes, Marshall, Monroe, Montgomery, Noxubee, Oktibbeha, Panola, Pontotoc, Prentiss, Quitman, Sunflower, Tallahatchie, Tate, Tippah, Tishomingo, Tunica, Union, Washington, Webster, Winston, Yalobusha.

New Orleans CSS Commodity Office: Louisiana and counties in Mississippi not assigned to Memphis.

Federal Reserve Bank, Oklahoma City, Okla.: Oklahoma, Kansas.

(b) *Farm-stored cotton.*

| 4 | 32.65 | 35.20 | 37.45 |
| 4 1/2 | 28.85 | 31.30 | 33.25 |
| 5 | 25.00 | 27.50 | 29.45 |

[1] The loan rates shown in these schedules are based on rates announced pursuant to section 406 of the Agricultural Act of 1949. If higher loan rates are required based on the parity price of extra long staple cotton as of the beginning of the marketing year, new schedules will be issued.

Issued this 1st day of June 1956.

[SEAL] WALTER C. BERGER,
*Acting Executive Vice President,*
*Commodity Credit Corporation.*

## PART 464—TOBACCO

### SUBPART—1956 TOBACCO LOAN PROGRAM

Statement with respect to the tobacco price support loan program for the 1956–57 marketing year—1956 crop—formulated by the Commodity Credit Corporation and Commodity Stabilization Service (hereinafter referred to, respectively, as "CCC" and "CSS").

Sec.
464.801 Administration.
464.802 Level of loans.
464.803 Availability of price support.
464.804 Deduction from loans.
464.805 Interest rate and general provisions.
464.806 Adjustment of interest and disposition of overplus.
464.807 Maturity date.
464.808 Eligible producer.
464.809 Eligible tobacco.

AUTHORITY: §§ 464.801 to 464.809 issued under sec. 4, 62 Stat. 1070, as amended; 15 U. S. C. 714b. Interpret or apply sec. 5, 62 Stat. 1072, secs. 101, 401, 63 Stat. 1051, as amended, 1054, sec. 2, 59 Stat. 506; 15 U. S. C. 714c, 7 U. S. C. 1441, 1421, 1312 note.

§ 464.801 *Administration.* (a) This program will be administered by the Tobacco Division, CSS, under the general direction and supervision of the Executive Vice President, CCC. The program will be carried out in the field by producer associations or other responsible organizations (hereinafter referred to as "associations") under contract with CCC, acting for groups of producers. The names of such associations may be obtained from the Tobacco Division, CSS, United States Department of Agriculture, Washington 25, D. C.

(b) CCC will make loans to associations which in turn will make advances to eligible producers either directly or through auction warehouses. Loans made to associations will include not only the initial loan value of the tobacco, but also advances for services performed in receiving, packing, storing, and marketing of tobacco pledged for loan. Associations will be authorized to enter into

contracts for these services through the usual trade channels.

§ 464.802 *Level of loans.* (a) As required by statute, the level of price support to eligible producers will be 90 percent of the respective parity prices on those types of tobacco for which marketing quotas are in effect, except that fire-cured and dark air-cured (including Virginia sun-cured) tobacco will be supported at 75 percent and 66⅔ percent, respectively, of the level for Burley tobacco. There is shown below the percentage of the parity price and the cents-per-pound loan level for each type or kind of tobacco (except Puerto Rican) based on the parity price as of March 31, 1956, which were announced on April 18, 1956, as the minimum loan levels for the 1956 crop. The cents-per-pound loan levels will be computed again as of the beginning of the marketing year, which is July 1, 1956, for flue-cured, and October 1, 1956, for the other kinds of tobacco. Price support will be made available to eligible producers on the 1956 crop of each type or kind of tobacco at the higher of (1) the cents-per-pound level shown below, or (2) the level computed as of the beginning of the marketing year. Schedules of loan rates by grades for each type or kind of tobacco will be announced as supplements to this statement after the parity price as of the beginning of the marketing year is known.

(b) The loan level for Puerto Rican tobacco, type 46, will be determined as of October 1, 1956, the beginning of the marketing year. Price support will not be available on Pennsylvania Seedleaf tobacco, type 41, because marketing quotas have been disapproved by producers.

| | 1956 percent of parity level | 1956 minimum loan level |
|---|---|---|
| Flue-cured, types 11–14 | 90 | 48.2 |
| Burley, type 31 | 90 | 47.2 |
| Fire-cured, types 21–23 | 75 percent of burley rate. | 35.4 |
| Dark air-cured, types 35–36 | 66⅔ percent of burley rate. | 31.5 |
| Virginia sun-cured, type 37 | 66⅔ percent of burley rate. | 31.5 |
| Maryland, type 32 | 90 | 46.2 |
| Puerto Rican, type 46 | (1) | (1) |
| Cigar filler and binder | 90 | (36.9) |
| Ohio filler, types 42–44 | | 23.0 |
| Connecticut Broadleaf, type 51. | | 51.0 |
| Connecticut Havana Seed, type 52. | | 48.3 |
| New York and Pennsylvania Havana Seed, type 53. | | 23.3 |
| Southern Wisconsin, type 54. | | 22.0 |
| Northern Wisconsin, type 55. | | 29.0 |

[1] The percent of parity and the cents-per-pound loan level for the 1956 crop of Puerto Rican tobacco, type 46, will be announced based on the supply and the parity price as of October 1, 1956.

§ 464.803 *Availability of price support.* Price support to eligible producers will be made available in the following manner:

(a) *Auction market area.* The producer will deliver the tobacco to an auction warehouse in the usual manner. The producer generally will receive the advances from the warehouseman for any tobacco placed under loan by the association at the time the warehouseman settles with the producer for the entire quantity of the producer's tobacco that has been displayed for inspection and offered for sale on any one day's auction market. The warehouseman, in turn, will be reimbursed by the association with funds borrowed from CCC.

(b) *Non-auction market area.* Producers in non-auction market areas will deliver tobacco to central receiving points designated by the appropriate association. The producer will receive the advance directly from the association for any tobacco pledged for loans after the tobacco has been graded by U. S. D. A. inspectors.

(c) *Period of loans.* No advances will be made to producers on tobacco tendered for loan prior to or after the dates set forth below:

| | Earliest date | Latest date |
|---|---|---|
| Flue cured | July 1, 1956 | Feb. 28, 1957 |
| Burley | Nov. 1, 1956 | Apr. 30, 1957 |
| Fire-cured | do | Do. |
| Dark air-cured | do | Do. |
| Virginia sun-cured | do | Do. |
| Maryland | Apr. 1, 1957 | Nov. 15, 1957 |
| Puerto Rican | Feb. 1, 1957 | Sept. 30, 1957 |
| Cigar filler and binder | Sept. 1, 1956 | July 31, 1957 |

§ 464.804 *Deduction from loans.* The associations will be required to bear a portion of the overhead costs in connection with the loan operation. For this purpose, the associations in the auction marketing areas will be authorized to charge the producer a fee of 12 cents per hundred pounds and such other deductions as may be authorized or approved by CCC. Such charges may be collected by a deduction from the advance made to the producer on his tobacco or by arrangements with the auction warehouseman under which he will collect such charges and remit to the association. In the nonauction market areas, the fee will be established at a rate commensurate with the relative cost of the services performed by the association.

§ 464.805 *Interest rate and general provisions.* The loans made to the associations will bear interest at the rate of 3½ percent per annum and be nonrecourse both as to principal and interest except in the case of misrepresentation, fraud, or failure to carry out the terms of the loan contract. Tobacco loses its identity as to original ownership through commingling in the packing process, and individual producers may not redeem their tobacco once it has been pledged for loan. All proceeds of sales of the loan collateral will be applied to the loan account until the loan is repaid in full.

§ 464.806 *Adjustment of interest and disposition of overplus.* The contractual arrangement between CCC and any association may include provisions under which CCC will adjust the interest rate as outlined in paragraph (c) of this section and the association will apply, as directed by CCC, one-half of the "overplus" from any crop year loan to the indebtedness on other crop year loans. This arrangement will be available only to those associations which include under the arrangement all CCC loans outstanding at the time the 1956 crop loan is included.

(a) *Definition of overplus.* "Overplus" is the balance remaining from the sales proceeds of the loan tobacco, after deducting the amount of the loan plus all handling charges, operating costs, and interest.

(b) *Disposition of overplus.* For those associations which agree to apply one-half of the overplus to other crop year loans, the remaining one-half of the overplus shall constitute "net gains," and for those associations which do not agree to apply one-half of the overplus to other crop year loans, the entire overplus shall constitute "net gains," which shall be distributed by the association to the producers who placed the tobacco under loan unless other disposition is approved by CCC.

(c) *Adjustment of interest rate.* In consideration of any association's agreement to apply one-half of the 1956 crop overplus to the CCC loan indebtedness of other crop years, the 1956 crop interest rate shall be adjusted annually, beginning as of July 1, 1957, for flue-cured loans and as of October 1, 1957, for loans on other kinds of tobacco, to the rate established by CCC as applicable to price support loans on the current crops, minus one percent per annum: *Provided*, That if such adjusted interest rate is determined by CCC to be less than the average rate of interest applicable to CCC's borrowings from the Treasury, the amount of interest accrued at such adjusted interest rate shall be increased at the end of the marketing year to the amount which would have accrued at the average interest rate applicable to CCC's borrowings from the Treasury.

§ 464.807 *Maturity date.* Loans made under the program will mature on demand.

§ 464.808 *Eligible producer.* (a) An eligible producer is one for whom a "Within Quota" Marketing Card has been issued under the applicable regulations issued by the Secretary of Agriculture with respect to tobacco marketing quotas for the 1956–57 marketing year. (In general, the regulations in this subpart provide for the issuance of a "Within Quota" Marketing Card where the tobacco acreage harvested for each kind of tobacco produced on the farm is not in excess of the applicable acreage allotment established under the marketing quota program for such farm, except that a "Within Quota" Marketing Card is not issued where the planted acreage of any kind of tobacco exceeds the farm acreage allotment established therefor unless a request for disposition of the excess acreage is filed promptly.)

(b) As Puerto Rican tobacco is not under U. S. marketing quotas, all producers of this type of tobacco are considered eligible producers for the purpose of this program.

§ 464.809 *Eligible tobacco.* Eligible tobacco shall be U. S. and Puerto Rican tobacco (as defined in the Agricultural Adjustment Act of 1938, as amended) of the 1956 crop which (a) has been properly identified in accordance with applicable tobacco Marketing Quota Regulations on a valid memorandum of sale issued from a "Within Quota" Marketing Card, where marketing quotas are in effect; (b) has been delivered to the association by the producer prior to sale to any other person; (c) is in sound and merchantable condition; (d) is of a type for which a loan level is provided in § 464.802; and (e) is free and clear of any and all liens and encumbrances.

Issued this 1st day of June 1956.

[SEAL] WALTER C. BERGER,
*Acting Executive Vice President, Commodity Credit Corporation.*

[F. R. Doc. 56-4428; Filed, June 5, 1956; 8:53 a. m.]

## TITLE 7—AGRICULTURE

### Chapter III—Agricultural Research Service, Department of Agriculture

PART 354—OVERTIME SERVICES RELATING TO IMPORTS AND EXPORTS

REVISED ADMINISTRATIVE INSTRUCTIONS PRESCRIBING COMMUTED TRAVEL TIME ALLOWANCES

Pursuant to the authority conferred upon the Chief of the Plant Quarantine Branch by § 354.1 of the regulations concerning overtime services relating to imports and exports, effective July 15, 1955 (7 CFR Supp 354.1; 20 F. R. 5054), administrative instructions (7 CFR 1954 Supp. 354.2) effective March 14, 1953, as amended effective August 2, 1955 (7 CFR Supp 354.2; 20 F. R. 5482), prescribing the commuted travel time that shall be included in each period of overtime duty are hereby revised to read as follows:

§ 354.2 *Administrative instructions prescribing commuted travel time.* Each period of overtime duty, as prescribed in § 354.1 shall, in addition, include a commuted travel time period for the respective ports, stations, and areas in which employees are located, if such travel is performed solely on account of overtime or holiday service, as follows:

ONE HOUR

Aguadilla, P. R. (served from Ramey Air Force Base).
Baton Rouge, La.
Blaine, Wash.
Brownsville, Tex.
Buffalo, N. Y.
Calexico, Calif.
Charlotte Amalie, American Virgin Islands.
Christiansted, American Virgin Islands.
Del Rio, Tex.
Douglas, Ariz.
Eagle Pass, Tex.
El Paso, Tex.
Frederiksted, American Virgin Islands (served from Christiansted).
Galveston, Tex.
Hidalgo, Tex.
Hilo, T. H.
Kahalui, Maui, T. H.
Key West, Fla.
Laredo, Tex.
Los Angeles Harbor, San Pedro, Calif.
Memphis, Tenn.
Nogales, Ariz.
Omaha, Nebr.
Pensacola, Fla.
Port Arthur, Tex.
Port Everglades, Fla.
Presidio, Tex.
Progreso, Tex.
Ramey Air Force Base, P. R.
Roma, Tex.
St. Albans, Vt.
St. Paul, Minn.
San Antonio, Tex.
San Juan, P. R.
San Ysidro, Calif.
Texas City, Tex. (served from Galveston, Tex.).
West Palm Beach, Fla.

TWO HOURS

Arlington, Va.
Atlanta, Ga.
Beaumont, Tex. (served from Port Arthur).
Bellingham, Wash. (served from Blaine, Wash.).
Charleston, S. C.
Corpus Christi, Tex.
Dallas, Tex.
Harlingen Air Force Base, Tex. (served from Brownsville, Tex.).
Honolulu, T. H.
Houston, Tex.
Jacksonville, Fla.
La Feria, Tex. (served from Hidalgo, Tex.).
Lantana Airport, Lantana, Fla. (served from West Palm Beach, Fla.).
Lihue, Kauai, T. H.
Long Beach Harbor and Airport (served from San Pedro, Calif.).
Miami, Fla.
Mobile, Ala.
Moore Air Field (served from Hidalgo, Tex.).
Niagara Falls, N. Y. (served from Buffalo, N. Y.).
Norfolk-Newport News, Va.
Offutt Air Base (served from Omaha, Nebr.).
Orange, Tex. (served from Port Arthur, Tex.).
Port Isabel, Tex. (served from Brownsville, Tex.).
Portland, Oreg.
St. Helens, Oreg.
St. Louis, Mo.
San Francisco, Calif.
Savannah, Ga.
Seattle, Wash., and Sea-Tac Airport.
Sumas, Wash. (served from Blaine, Wash.).
Tampa, Fla.
Vancouver, Wash.

THREE HOURS

Anacortes, Wash. (served from Blaine, Wash.).
Astoria, Oreg. (served from Portland, Oreg.).
Baltimore, Md.
Baytown, Tex. (served from Houston, Tex.).
Beaufort, S. C. (served from Charleston, S. C.).
Boston, Mass.
Brunswick, Ga. (served from Savannah, Ga.).
Carswell Field (Fort Worth), Tex. (served from Dallas, Tex.).
Cherry Point, S. C. (served from Charleston, S. C.).
Chicago, Ill.
Coos Bay, Oreg. (served from Portland, Oreg.).
Detroit, Mich.
Everett, Wash. (served from Seattle, Wash.).
Freeport, Tex. (served from Houston, Tex.).
Friday Harbor, Wash. (served from Seattle, Wash.).
Georgetown, S. C. (served from Charleston, S. C.).
Glynnce Naval Air Station, Ga. (served from Savannah, Ga.).
Grays Harbor, Wash. (served from Seattle, Wash.).
Gulfport, Miss. (served from Mobile, Ala.).
Hopewell, Va. (served from Norfolk-Newport News, Va.).
Lake Charles, La. (served from Port Arthur, Tex.).
Longview, Wash. (served from Portland, Oreg.).
Marfa Air Force Base (served from Presidio, Tex.).
Mayaguez, P. R. (served from Ramey Air Force Base).
McChord Air Force Base, Wash. (served from Seattle, Wash.).
New Orleans, La.
New York, N. Y. (metropolitan area).
Olympia, Wash. (served from Seattle, Wash.).
Panama City, Fla. (served from Pensacola, Fla.).
Patuxent, Md. (served from Arlington, Va.).
Philadelphia, Pa.
Pittsburgh, Pa.
Port Angeles, Wash. (served from Seattle, Wash.).
Port Lavaca, Tex.
Port Townsend, Wash. (served from Seattle, Wash.).
Rainier, Oreg. (served from Portland, Oreg.).
Richmond, Va. (served from Norfolk-Newport News, Va.).
Roosevelt Roads, P. R. (served from San Juan, P. R.).
St. Albans, Vt. (ports served from, but not including St. Albans).
Tacoma, Wash. (served from Seattle, Wash.).
Tucson, Ariz. (served from Nogales, Ariz.).
Walker Air Force Base (served from El Paso, Tex.).
Willapa Bay, Wash. (served from Seattle, Wash.).
Wilmington and other North Carolina ports served from Charleston, S. C.

The purposes of this revision are to delete certain ports and stations where employees are no longer stationed, to add several newly established ports and stations, and to readjust the commuted time allowances at certain other points.

These commuted travel time periods have been established as nearly as may be practicable to cover the time necessarily spent in reporting to and returning from the place at which the employee performs such overtime duty when such travel is performed solely on account of such overtime duty. Such establishment depends upon facts within the knowledge of the Plant Quarantine Branch. It is to the benefit of the public that these instructions be made effective at the earliest practicable date. Accordingly, pursuant to the provisions of section 4 of the Administrative Procedure Act (5 U. S. C. 1003), it is found upon good cause that notice and public procedure on these instructions are impracticable, unnecessary, and contrary to the public interest, and good cause is found for making these instructions effective less than thirty days after publication in the FEDERAL REGISTER.

These revised administrative instructions shall be effective on and after June 6, 1956, on which date they shall supersede 7 CFR 1954 Supp. 354.2, effective March 14, 1953, as amended effective August 2, 1955 (20 F. R. 5482).

(64 Stat. 561, 5 U. S. C. 576)

Done at Washington, D. C., this 1st day of June 1956.

[SEAL] H. S. DEAN,
*Acting Chief, Plant Quarantine Branch.*

[F. R. Doc. 56-4425; Filed, June 5, 1956; 8:52 a. m.]

### Chapter VII—Commodity Stabilization Service (Farm Marketing Quotas and Acreage Allotments), Department of Agriculture

PART 723—CIGAR-FILLER TOBACCO AND CIGAR-FILLER AND BINDER TOBACCO

PROCLAMATION OF THE RESULTS OF MARKETING QUOTA REFERENDUM

This document is issued to establish a procedure whereby the Secretary of Agri-

culture may be petitioned prior to November 10, 1956, or prior to November 10, 1957, to proclaim national marketing quotas for cigar-filler (type 41) tobacco for the next three succeeding marketing years pursuant to section 312 of the Agricultural Adjustment Act of 1938, as amended (7 U. S. C. A. 1312). The amendment made by this document will redesignate the present § 723.705 as paragraph (a) of that section, and add a new paragraph (b) to that section.

Section 723.705 of Part 723, Title 7, Code of Federal Regulations, is amended to read as follows:

§ 723.705 *Proclamation of the results of the cigar-filler tobacco marketing quota referendum for the three-year period beginning October 1, 1956.* (a) In a referendum of farmers engaged in the production of the 1955 crop of cigar-filler tobacco held on December 29, 1955, 1,887 farmers voted. Of those voting, 213 or 11.3 percent, favored quotas for a period of three years beginning October 1, 1956; 1,674 or 88.7 percent were opposed to quotas. Since more than one-third of the farmers opposed quotas, the national marketing quota for cigar-filler tobacco for the marketing year beginning October 1, 1956, proclaimed on November 30, 1955 (20 F. R. 8844) becomes ineffective. Therefore, marketing quotas will not be in effect on cigar-filler tobacco for the marketing year beginning October 1, 1956, nor for the marketing years beginning October 1, 1957, and October 1, 1958, respectively, unless pursuant to section 312 (a) of the Agricultural Adjustment Act of 1938, as amended, the Secretary of Agriculture is petitioned prior to November 10, 1956, or prior to November 10, 1957, by one-fourth or more eligible farmers to proclaim national marketing quotas for the next three succeeding marketing years and unless the quotas so proclaimed are approved by two-thirds or more of the farmers voting in a referendum.

(b) An original written petition (or petitions) to the Secretary of Agriculture as provided for in paragraph (a) of this section, shall be submitted to the Secretary, or if mailed shall be postmarked, prior to November 10, 1956, in the case of a petition for marketing quotas for the marketing years 1957–58, 1958–59, and 1959–60, or prior to November 10, 1957, in the case of a petition for marketing quotas for the marketing years 1958–59, 1959–60 and 1960–61. Any such petition (or petitions) shall include the address of each person signatory thereto; shall state that such persons favor the proclamation of national marketing quotas for cigar-filler (Type 41) tobacco for the years stated in the petition, and the holding of a referendum; and shall show that such persons are one-fourth or more of the farmers engaged in the production of the crop of cigar-filler (Type 41) tobacco harvested in the calendar year in which the petition is submitted.

(Sec. 375, 52 Stat. 66; 7 U. S. C. 1375. Interpret or apply sec. 312, 52 Stat. 46, as amended 7 U. S. C. 1312)

Done at Washington, D. C., this 31st day of May 1956. Witness my hand and the seal of the Department of Agriculture.

[SEAL] TRUE D. MORSE,
*Acting Secretary of Agriculture.*

[F. R. Doc. 56-4408; Filed, June 5, 1956; 8:48 a. m.]

[Amdt. 2]

## PART 728—WHEAT

### SUBPART—WHEAT MARKETING QUOTAS FOR 1956 CROP

### MISCELLANEOUS AMENDMENTS

The amendments herein are issued under the wheat marketing quota provisions of the Agricultural Adjustment Act of 1938, as amended, for the purpose of providing the rate of penalty in dollars and cents and amending other provisions relating to measurement, storage of excess wheat, eligible agencies to receive excess wheat delivered to the Secretary, and examination of records of buyers of wheat. Since wheat producers in some sections of the United States will soon harvest and market this 1956 crop wheat, it is imperative that ASC State and county committees, as well as wheat farmers and buyers, be informed as soon as possible of the rate of penalty and other changes in the regulations. Therefore, it is hereby found that compliance with the notice, procedure, and 30-day effective date provisions of the Administrative Procedure Act is impracticable, unnecessary and contrary to the public interest. The amendments herein shall become effective upon filing of this document with the Director, Division of the Federal Register.

1. Subparagraph (4) of § 728.651 (u) is amended by inserting the words "in the case of wheat other than volunteer (self-seeded) wheat" immediately following the word "unless."

2. Paragraph (d) of § 728.655 is amended by revising the first sentence to read as follows: "Measurement may be made by identification of fields or parts of fields by use of a map, aerial photograph, or by means of a steel or metallic tape or chain, or rod and chain, or by use of a measuring wheel, or walking A, when authorized by the Deputy Administrator of Production Adjustment, Commodity Stabilization Service, or by a combination of one or more of the foregoing methods."

3. Subparagraph (2) of § 728.655 (e) is amended by changing the period at the end of the first sentence to a comma and adding the following: "except that a revisit shall not be made to any farm on which the first inspection showed a total acreage of wheat not in excess of 15 acres unless a producer on such farm requests measurement and pays the cost thereof by the date specified on Notice of 1956 Acreage of Wheat (Form CSS–597), which date shall coincide with the latest date on which the adjustment may be made as provided in § 728.651 (u)."

4. Section 728.676 is amended to read as follows:

§ 728.676 *Rate of penalty.* The rate of penalty applicable to the 1956 crop wheat shall be $1.07 per bushel, which is 45 percentum of the parity price per bushel of wheat as of May 1, 1956, which is determined to be $2.39.

5. Paragraph (b) of § 728.683 is amended to read as follows:

(b) *Storage of wheat.* Stored excess wheat shall be kept in a place adapted to the storage of wheat, shall be of the current crop, and of a representative quality of all the wheat produced on the farm. The storage of wheat under paragraphs (d) and (e) of this section shall be effective only if the producer submits a written statement showing the exact location of the stored wheat by quarter section (or other comparable descriptive location in areas where description is not by quarter sections); and the wheat so stored is kept separate from and not commingled with or replaced by wheat produced on any other farm or any other crop of wheat produced on the same farm: *Provided*, That wheat of the same crop produced on two or more farms in which the producer has an interest may be stored at the same location and commingled. The penalty on any stored wheat removed from such location without prior written authorization from the county committee shall be due on such removal. Wheat so stored shall be subject to the further condition that it may be inspected at all times by officers or employees of the Department, or members, officers or employees of the State or county committee.

6. Paragraph (c) of § 728.683 is amended by changing the first sentence to read as follows: "The storage of wheat in an elevator or warehouse in order to postpone the payment of the penalty or with a view to avoiding such penalty shall be effective only when the wheat is stored in an elevator or warehouse licensed by State or Federal Government and a warehouse receipt covering the amount of wheat so stored is deposited with the treasurer of the county committee to be held in escrow."

7. Paragraph (b) of § 728.684 is amended by changing that part of the last sentence following the colon to read as follows: "Any Federal relief organization, the American Red Cross, State or municipal relief organization, Federal or State wildlife refuge project, or any voluntary relief organization registered with the Advisory Committee on Voluntary Foreign Aid of the International Cooperation Administration for the shipment for relief overseas."

8. Subparagraph (1) of § 728.687 (b) is amended by changing the second and third sentences to read as follows: "The record so made and all business records of such person required to keep such records shall be kept available for examination by the county office manager or any authorized representative of the State Administrative Officer or investigators and accountants (special agents) or other authorized representatives of the Director, Compliance and Investigation Division, Commodity Stabilization Service, United States Department of Agriculture, for two calendar years beyond the calendar year in which the marketing year ends. Such records shall include relevant books, papers, records, accounts, correspondence, contracts, documents, and memoranda, but shall be examined only for the purpose of ascertaining the correctness of any report made or record kept pursuant to the regulations in this subpart, or of obtaining the information required to be furnished in any report pursuant to the regulations in this subpart but not so furnished."

(Sec. 375, 52 Stat. 66, as amended; 7 U. S. C. 1375. Interpret or apply secs. 301, 331–339, 362–368, 372–376, 52 Stat. 38, as amended; 55 Stat. 203, as amended; 7 U. S. C. 1301, 1331–1340, 1362–1368, 1372–1376)

Done at Washington, D. C., this 31st day of May 1956.

[SEAL] TRUE D. MORSE,
*Acting Secretary of Agriculture.*

## PART 729—PEANUTS

### MARKETING QUOTA REGULATIONS FOR 1956 CROP

### GENERAL

Sec.
729.740 Basis and purpose.
729.741 Definitions.
729.742 Instructions and forms.
729.743 Extent of calculations and rule of fractions.

IDENTIFICATION AND MEASUREMENT OF FARMS

729.744 Identification of farms.
729.745 Measurement of farms.

FARM MARKETING QUOTAS AND MARKETING CARDS

729.746 Amount of farm marketing quota.
729.747 Marketing quotas not transferable.
729.748 Issuance of marketing cards.
729.749 Person authorized to issue cards.
729.750 Successors in interest.
729.751 Invalid marketing card.
729.752 Report and misuse of marketing card.

MARKETING OR OTHER DISPOSITION OF PEANUTS AND PENALTIES

729.753 Extent to which marketings from a farm are subject to penalty.
729.754 Identification of marketings.
729.755 Rate of penalty.
729.756 Persons to pay penalty.
729.757 Marketing subject to penalty.
729.758 Payment of penalty.
729.759 Use of agreement to permit marketings from overplanted farms.
729.760 Request for refund of penalty.

RECORDS AND REPORTS

729.761 Producer's records and reports.
729.762 Records and reports of buyers and others.
729.763 Record and report of peanuts shelled for producers.
729.764 Separate records and reports from persons engaged in more than one business.
729.765 Failure to keep records or make reports.
729.766 Examination of records and reports.
729.767 Length of time records and reports to be kept.

MISCELLANEOUS

729.768 Information confidential.
729.769 Redelegation of authority.

AUTHORITY: §§ 729.740 to 729.769 issued under sec. 375, 52 Stat. 66, as amended; 7 U. S. C. 1375. Interpret or apply secs. 301, 358, 359, 361–368, 372, 373, 374, 376, 388, 52 Stat. 38, 62, 63, 64, 65, 66, 68, as amended; 55 Stat. 88, as amended, 66 Stat. 27; 7 U. S. C. 1301, 1358, 1359, 1361–1368, 1372, 1373, 1374, 1376, 1388.

### GENERAL

§ 729.740 *Basis and purpose.* The regulations contained in §§ 729.740 to 729.769 are issued pursuant to the Agricultural Adjustment Act of 1938, as amended, and govern the determination of farm peanut acreages, the issuance of marketing cards, the identification of peanuts, the collection and refund of penalties, and the records and reports incident thereto, on the marketing of peanuts of the 1956 crop, regardless of whether such peanuts are marketed before, during, or after the 1956–57 marketing year. Prior to preparing the regulations in §§ 729.740 to 729.769, public notice of their formulation was published in the FEDERAL REGISTER (21 F. R. 995) in accordance with the Administrative Procedure Act (5 U. S. C. 1003). Views and recommendations received in response to such notice have been duly considered within the limits prescribed by the Agricultural Adjustment Act of 1938.

§ 729.741 *Definitions.* As used in §§ 729.740 to 729.769 and in all instructions, forms, and documents in connection therewith, the words and phrases defined in this section shall have the meanings herein assigned to them unless the context or subject matter otherwise requires.

(a) "Act" means the Agricultural Adjustment Act of 1938, as amended, and supplemented.

(b) "Areas" means:

(1) The Southeastern Area consisting of the States of Alabama, Georgia, Mississippi, Florida, and that part of South Carolina south and west of the Santee-Congaree-Broad Rivers.

(2) The Southwestern Area consisting of the States of Arizona, Arkansas, California, Louisiana, New Mexico, Oklahoma, and Texas.

(3) The Virginia-Carolina Area consisting of the States of Missouri, North Carolina, Tennessee, Virginia, and that part of South Carolina north and east of the Santee-Congaree-Broad Rivers.

(c) "Buyer" means a person who:

(1) Buys or otherwise acquires peanuts from a producer;

(2) Buys or otherwise acquires farmers' stock peanuts from any person; or

(3) Markets, as a commission merchant, broker, or cooperative any peanuts for the account of a producer and who is responsible to the producer for the amount received for the peanuts.

(d) Committees: (1) "Community committee" means the persons elected within a community as the community committee pursuant to the regulations governing the selection and functions of Agricultural Stabilization and Conservation county and community committees.

(2) "County committee" means the persons elected within a county as the county committee, pursuant to the regulations governing the selection and functions of Agricultural Stabilization and Conservation county and community committees.

(3) "State committee" means the persons designated in a State by the Secretary as the Agricultural Stabilization and Conservation committee.

(e) "County office manager" means the person employed by the county committee to execute the policies of the county committee and be responsible for the day-to-day operation of the county ASC office, or the person acting in such capacity.

(f) "Deputy Administrator" means the Deputy Administrator, Production Adjustment or the Acting Deputy Administrator, Production Adjustment, Commodity Stabilization Service, United States Department of Agriculture.

(g) "Director" means the Director or the Acting Director of the Oils and Peanut Division, Commodity Stabilization Service, United States Department of Agriculture.

(h) "Excess acreage" means the acreage by which the farm peanut acreage exceeds the farm allotment but there will be no excess acreage if the farm peanut acreage is one acre or less. Furthermore, the excess acreage for the farm shall be zero in any case where (1) through error on the part of the county or State office, the operator was officially notified in writing on MQ–24–Peanuts (1956) of an allotment larger than the finally approved farm allotment; (2) the county office manager finds that the operator, acting solely on the basis of the information contained in the erroneous notice, picked and threshed peanuts from acreage in excess of the finally approved farm allotment but not in excess of the allotment stated in the erroneous notice; (3) the extent of error in the erroneous notice was such that the operator would not reasonably be expected to question the allotment of which he was erroneously notified; and (4) the State administrative officer concurs in the county office manager's finding. Where the operator received his corrected notice of allotment after the peanuts were planted but before they were picked or threshed, the excess acreage shall be zero if the acreage picked and threshed does not exceed the allotment stated in the erroneous notice, provided the county office manager and State administrative officer determines that the acreage planted for picking or threshing was in excess of the allotment only because the operator was given an erroneous notice of allotment.

(i) "Excess peanuts" means peanuts in excess of the farm marketing quota determined pursuant to § 729.746.

(j) "Farm" means all adjacent or nearby farmland under the same ownership which is operated by one person, including also:

(1) Any other adjacent or nearby farmland which the county committee determines is operated by the same person as part of the same unit with respect to the rotation of crops and with workstock, farm machinery, and labor substantially separate from that for any other lands; and

(2) Any field-rented tract (whether operated by the same or another person) which, together with any other land included in the farm, constitutes a unit with respect to the rotation of crops.

A farm shall be regarded as located in the county in which the principal dwelling is situated, or if there is no dwelling thereon, it shall be regarded as located in the county in which the major portion of the farm is located.

(k) "Farm allotment" means the farm peanut acreage allotment for the 1956 crop of peanuts established pursuant to §§ 729.710 to 729.730 of the marketing quota regulations for the 1956 crop of peanuts (20 F. R. 6033).

(l) "Farm peanut acreage" means the farm peanut acreage for the farm as determined under § 729.711 (i) of the marketing quota regulations for the 1956 crop of peanuts (20 F. R. 6033).

(m) "Farmers stock peanuts" means picked or threshed peanuts produced in the continental United States during the calendar year 1956 which have not been shelled, crushed, cleaned (except for removal of foreign material) or otherwise changed from the state in which picked or threshed peanuts are customarily marketed by producers.

(n) "Market" means to dispose of peanuts, including farmers stock peanuts, shelled peanuts, cleaned peanuts, or peanuts in processed form by voluntary or involuntary sale, barter, or exchange, or by gift inter vivos. The terms "marketed", "marketing", and "for market" shall have corresponding meanings to the term "market" in the connection in which they are used. The terms "barter" and "exchange" shall include the payment by the producer of any quantity of peanuts for the harvesting, picking, threshing, cleaning, crushing, or shelling of peanuts, or for any other service rendered to him by anyone.

(o) "Marketing card": (1) "Excess penalty card" means MQ–77—Peanuts (1956) or MQ–77–VC—Peanuts (1956), 1956 Peanut Excess Penalty Marketing Card. MQ–77 will be issued for farms in the Southeastern area and in the Southwestern area. MQ–77–VC will be issued for farms in the Virginia-Carolina area. These cards will be issued for farms for which it is determined that the farm peanut acreage is in excess of the larger of the farm allotment or one acre. A portion of each lot of peanuts identified by an excess penalty card is subject to the marketing penalty prescribed in § 729.755 at the time the peanuts are marketed.

(2) "Within quota card" means MQ–76—Peanuts (1956) or MQ–76–VC—Peanuts (1956), 1956 Peanut Within Quota Marketing Card. MQ–76 will be issued for farms in the Southeastern area and in the Southwestern area. MQ–76–VC will be issued for farms in the Virginia-Carolina area. These cards will be issued for farms for which it is determined that the farm peanut acreage is not in excess of the larger of the farm allotment or one acre. A within quota card authorizes the marketing of all peanuts produced on the farm without payment at the time of marketing of the penalty prescribed in § 729.755.

(p) "Marketing year" means the 1956 marketing year beginnig August 1, 1956, and ending July 31, 1957.

(q) "Offices": (1) "County ASC Office" means the office of the Agricultural Stabilization and Conservation county committee.

(2) "State ASC Office" means the office of the Agricultural Stabilization and Conservation State committee.

(r) "Operator" means the person who is in charge of the supervision and conduct of the farming operations on the entire farm.

(s) "Peanuts" means all peanuts produced, excluding any peanuts which were not picked or threshed either before or after marketing from the farm.

(t) "Person" means an individual, partnership, association, corporation, firm, joint-stock company, estate or trust, or other business enterprise or other legal entity, and whenever applicable, a State, a political subdivision of a State, or any agency thereof.

(u) "Pound" means that quantity of farmers stock peanuts equal to one pound standard weight. If peanuts have been graded at the time of marketing, the poundage shall be the weight thereof excluding foreign material and excess moisture (excess moisture means moisture in excess of seven percent in the Southeastern and Southwestern areas and eight percent in the Virginia-Carolina area). If shelled peanuts are marketed, the poundage therefor shall be converted to the weight of farmers stock peanuts by multiplying the number of pounds of shelled peanuts by 1.5 and the result shall be the number of pounds of peanuts considered as marketed under this part.

(v) "Producer" means a person who, as landlord, tenant, or sharecropper is entitled to share in the peanuts produced on the farm or in the proceeds thereof.

(w) "Quota peanuts" means peanuts which are within the amount of the farm marketing quota determined pursuant to § 729.746.

(x) "Sales memorandum" means:

(1) Form MQ–93—Peanuts (1952), which may be used (i) by buyers to record and report data with respect to purchases of peanuts identified by both within quota and excess penalty cards, (ii) to record and report data with respect to purchases of peanuts that are not identified by a marketing card, and (iii) by shellers to record and report data with respect to peanuts shelled for producers in instances where all of the shelled peanuts are returned to the producer.

(2) Form MQ–94—Peanuts (1956), which may be used by buyers in the Southeastern and Southwestern areas to record and report data with respect to purchases of peanuts identified by either a within quota or an excess penalty card if the peanuts have been inspected by the Federal-State Inspection Service.

(3) Form MQ–76–A–VC—Peanuts (1956), ten copies of which are attached to each Form MQ–76–VC. This form may be used by buyers to record and report data with respect to purchases of peanuts identified by Form MQ–76–VC.

(4) Form MQ–77–A–VC—Peanuts (1956), ten copies of which are attached to each Form MQ–77–VC. This form may be used by buyers to record and report data with respect to purchases of peanuts identified by Form MQ–77–VC.

(5) Any other form furnished by the buyer for recording and reporting purchases of peanuts, provided (i) the State committee determines that the use of forms other than those enumerated in subparagraphs (1) through (4) of this paragraph will not operate to reduce effective administration of the program in the State and (ii) the form proposed for use by the buyer is approved by the State Administrative Officer of each State in which the buyer will purchase 1956 crop peanuts as being consecutively numbered and containing the necessary language and spaces for recording and reporting the same information as that required by Form MQ–93—Peanuts (1952) for purchases of farmers stock peanuts.

(y) "Secretary" means the Secretary or the Acting Secretary of the United States Department of Agriculture.

(z) "State Administrative Officer" means the person employed by the State committee to execute the policies of the State committee and be responsible for the day-to-day operations of the State ASC office, or the person acting in such capacity.

(aa) "Yields": (1) "Normal yield" means the normal yield per acre for the farm as determined under § 729.721 or 729.723, whichever is applicable of the marketing quota regulations for the 1956 crop of peanuts (20 F. R. 6033).

(2) "Actual yield" means the actual yield per acre for the farm obtained by dividing the farm peanut acreage into the total production of peanuts for the farm.

§ 729.742 *Instructions and forms.* The Director shall cause to be prepared and issued such forms as are necessary and shall cause to be prepared such instructions with respect to internal management as are necessary for carrying out the regulations in this part. The forms and instructions shall be approved by, and the instructions shall be issued by, the Deputy Administrator.

§ 729.743 *Extent of calculations and rule of fractions.* (a) The farm peanut acreage shall be expressed in tenths of an acre and fractions of less than one-tenth of an acre shall be dropped.

(b) The percentage of excess peanuts for a farm, hereinafter referred to as the "percent excess," shall be expressed in tenths of a percent and fractions of less than one-tenth of a percent shall be dropped, except that the minimum percent excess for a farm having any excess acreage shall be one-tenth of one percent.

(c) The converted penalty rate shall be expressed in tenths of a cent and fractions of less than a tenth of a cent shall be dropped, except that the minimum converted penalty rate for a farm having any excess acreage shall be one-tenth of a cent.

(d) The amount of penalty with respect to any lot of peanuts, or the amount of damages due Commodity Credit Corporation under an agreement made pursuant to § 729.759, shall be expressed as dollars and in whole cents. Fractions of less than a cent shall be dropped.

(e) The quantity of peanuts marketed, the farm marketing quota, and the normal and actual yield per acre, shall be expressed in whole pounds. Fractions of less than a pound shall be dropped.

### IDENTIFICATION AND MEASUREMENT OF FARMS

§ 729.744 *Identification of farms.* Each farm as operated for the 1956 crop of peanuts shall be identified by a farm serial number and all records pertaining to marketing quotas for the 1956 crop of peanuts shall be identified by the farm serial number.

§ 729.745 *Measurement of farms.* The peanut acreage on farms shall be measured to determine compliance with farm allotments in accordance with instructions issued by the Deputy Administrator. If, after the picking or threshing of peanuts on a farm is completed, it is discovered that the picked and threshed acreage for 1956 exceeds the 1956 farm allotment (or one acre if the farm allotment is less than one acre) because the farm operator received an erroneous notice in writing regarding (a) the number of acres planted to peanuts on the farm or (b) the farm peanut acreage, a statement of all the facts and circumstances causing the error and the county office manager's recommendation shall be referred to the State administrative officer. Upon recommendation of the county office manager and approval by the State administrative officer, the 1956 farm peanut acreage shall be considered to be an acreage equal to the larger of one acre or the 1956 farm allotment, if all of the following conditions are met:

(1) The incorrect notice was the result of an error made by the performance reporter or by an employee of the county office in reporting, computing, or recording peanut acreages for the farm;

(2) Neither the farm operator nor any producer on the farm was in any way responsible for the error; and

(3) The extent of error in the erroneous notice was such that the farm operator would not reasonably be expected to question the acreage of which he was erroneously notified.

### FARM MARKETING QUOTAS AND MARKETING CARDS

§ 729.746 *Amount of farm marketing quota.* (a) The farm marketing quota for a farm having no excess acreage shall be the actual production of peanuts on the farm peanut acreage.

(b) The farm marketing quota for a farm having excess acreage shall be a quantity of peanuts equal to the actual yield multiplied by the farm allotment.

§ 729.747 *Marketing quotas not transferable.* Farm marketing quotas are not transferable in whole or in part from one farm to another farm and peanuts produced on one farm shall not be marketed on a marketing card issued with respect to another farm. If any amount of peanuts produced on one farm is falsely identified by a representation that such peanuts were produced on another farm the allotment next established for each such farm shall be reduced as provided in § 729.724 of the marketing quota regulations for the 1956 crop of peanuts (20 F. R. 6033).

§ 729.748 *Issuance of marketing cards.* (a) A marketing card shall be issued to the operator of each farm having 1956 crop peanuts for use by any producer for marketing his share of the peanuts produced on the farm. If the county office manager finds that it will serve a useful purpose, additional marketing cards may be issued in the name of the operator and delivered to other producers on the farm or the marketing card may be issued in the name of the operator and one or more producers on the farm.

(b) If the county committee determines that such action is necessary to enforce the provisions of §§ 729.740 to 729.769, the issuance of a marketing card may be withheld for any farm until the committee provides for an estimate to be made of the peanut production on such farm. The estimated production on each such farm will be used in determining, after all peanuts produced on such farms have been marketed or otherwise disposed of, whether the marketing card issued for each farm was properly used.

(c) Upon return to the county ASC office, of any marketing card where all spaces for recording sales have been used and before the marketing of peanuts from the farm has been completed, a new marketing card of the same kind, bearing the same name, information, and identification as the used card shall be issued. A new marketing card of the same kind shall also be issued to replace a card which has been determined by the county office manager to have been lost, stolen, mutilated, or destroyed.

(d) Within quota card: A farm is eligible for a within quota card under any one of the following conditions:

(1) The farm has no excess acreage.

(2) The acreage planted to peanuts on the farm is in excess of the farm allotment but an agreement on Form MQ–92—Peanuts (1956) is executed and approved in accordance with § 729.759.

(3) The farm has excess acreage which consists of peanuts grown only for experimental purposes on land owned or leased by a publicly owned agricultural experiment station and produced at public expense by employees of the experiment station, or peanuts produced by farmers pursuant to an agreement with a publicly owned experiment station.

(4) The Director of the publicly owned agricultural experiment station shall furnish the State administrative officer a list by counties showing the following information for farms in the State on which peanuts are grown for experimental purposes only:

(i) Name and address of the publicly owned experiment station;

(ii) Name of the owner, and name of the operator if different from the owner of each farm in the State on which peanuts are grown for experimental purposes only;

(iii) The acreage of peanuts grown on each farm for experimental purposes only; and

(iv) A certification signed by the Director of the publicly owned agricultural experiment station stating that:

(*a*) Such acreage of peanuts was grown on each farm for experimental purposes only and was necessary for carrying out the experiment; and

(*b*) The peanuts were produced under the direction of representatives of the publicly owned agricultural experiment station.

§ 729.749 *Person authorized to issue cards.* The county office manager shall sign marketing cards for farms in the county as issuing officer. The issuing officer may designate not more than three persons to sign his name in issuing marketing cards: *Provided*, That each person so designated shall place his initials immediately beneath the name of the issuing officer as written by him or stamped on the card.

§ 729.750 *Successors-in-interest.* Any person who succeeds in whole or in part to the share of a producer in the peanuts to be marketed from a farm shall, to the extent of such succession, have the same rights as the producer to the use of any marketing card issued for the farm.

§ 729.751 *Invalid marketing cards.* (a) A marketing card shall be invalid if:

(1) It is not issued or delivered in the form and manner prescribed;

(2) Entries are omitted, incorrect, contradictory, or illegible;

(3) It is lost, destroyed, or stolen;

(4) Any erasure or alteration has been made and not properly initialed; or

(5) The converted penalty rate on an excess penalty card has been altered.

(b) If any marketing card becomes invalid (other than by loss, destruction, or theft) the operator, or the person having the card in his possession, shall return it to the county ASC office from which it was issued. If any marketing card is lost, destroyed, or stolen, the producer to whom the card was issued shall give written notice of such fact to the county ASC office from which the card was issued.

(c) If a marketing card becomes invalid because an entry is not made as required either through omission or incorrect entry, and the proper entry is later made and initialed by the issuing officer or a person designated by the issuing officer to sign his name in issuing marketing cards as provided in § 729.749, then such card shall become valid; or if the invalid card is not made valid in this manner, it shall be cancelled and a new card issued in its place.

§ 729.752 *Report of misuse of marketing card.* Any information which causes a member of a State, county, or community committee, or an employee of a State or county ASC office, or any person engaged in buying or handling peanuts, to believe that any peanuts have or are being marketed on a marketing card issued for another farm or to another producer shall be reported immediately

by such committeeman, employee, or person to the county ASC office or to the State ASC office.

MARKETING OR OTHER DISPOSITION OF PEANUTS AND PENALTIES

§ 729.753 *Extent to which marketings from a farm are subject to penalty.* The penalty for a farm having excess acreage shall be determined as follows:

(a) If the peanuts produced on the farm are properly marketed with an excess penalty card issued for the farm, the penalty shall be paid on each lot of peanuts marketed from the farm in an amount determined by multiplying the converted penalty rate for the farm by the number of pounds in the lot.

(b) If the peanuts produced on the farm are not properly marketed with an excess penalty card issued for the farm but the disposition of the peanuts produced on the farm is accounted for to the satisfaction of the State committee, the total amount of penalty for the farm shall be determined by multiplying the total quantity of peanuts marketed from the farm by the converted penalty rate for the farm.

(c) If the disposition of peanuts produced on the farm is not accounted for to the satisfaction of the State committee or if any amount of peanuts produced on one farm is falsely identified by a representation that such peanuts were produced on another farm, a penalty for the farm shall be determined by multiplying the normal yield by the excess acreage by the basic penalty rate.

(d) If the representative of the county committee is prevented by the operator or other producer or person from determining the farm peanut acreage, the farm will be deemed to have excess acreage and the penalty for the farm shall be determined by multiplying the quantity of peanuts marketed from the farm by the basic penalty rate. If, however, the operator furnishes a complete and correct report containing the information specified in § 729.761 (b), the penalty for the farm shall be determined in accordance with paragraph (b) of this section. The procedure outlined in this section shall not be deemed to affect the right of the Secretary to obtain measurement as provided for in the act.

(e) Notwithstanding the foregoing provisions of this section, the penalty will not be applicable to the shriveled, damaged, split, and broken peanut kernels which are obtained in the process of shelling farmers stock peanuts of the 1956 crop for use by the producer as seed in 1957 if the quantity of peanuts shelled by or for the producer is in line with the seed requirements for his farm in 1956 as determined by the county office manager.

§ 729.754 *Identification of marketings.* (a) Each marketing of peanuts from a farm shall be recorded by the buyer or his representative on a marketing card issued for the farm on which the peanuts were produced, if such marketing card is presented to the buyer by the producer at the time the peanuts are marketed. Each marketing of peanuts without a marketing card shall be subject to the penalty at the rate prescribed in § 729.755 (a) unless the marketing consists of shriveled, damaged, split, and broken peanut kernels which were produced in shelling not in excess of that quantity of farmers stock peanuts for a producer which the county office manager detrmines is reasonable for seed purposes on the producer's farm for the 1957 crop. The marketing of such shriveled, damaged, split, and broken kernels that are not identified by a marketing card will be identified by Form MQ–93—Peanuts (1952) partially executed by the county office manager to show the quantity of peanuts that is reasonable for seed purposes on the producer's farm for the 1957 crop. Buyers will record and report purchases of shelled peanuts from producers that are not identified by within quota cards on Form MQ–91—Peanuts: *Provided, however,* That a person who is not engaged in the business of buying peanuts for movement into the regular channels of trade shall not be required to make a record and report of purchases of peanuts from producers if the county office manager has determined that it would be administratively impracticable to require such buyer to execute forms, keep the records and make the buyer's reports as required in §§ 729.740 to 729.769, in which case the producer marketing the peanuts shall be responsible for reporting each marketing to the county ASC office.

(b) A buyer who resells any farmers stock peanuts of the 1956 crop shall keep, as part of or in addition to the records maintained by him in the conduct of his business, such records as he determines are necessary to enable him to certify, in connection with any such resale of farmers stock peanuts, that such peanuts were identified to him by valid marketing cards when purchased from farmers or other records of resale and that any penalty due was collected and remitted. The records maintained by the buyer with respect to such peanuts shall be available for examination in accordance with § 729.766.

§ 729.755 *Rate of penalty.* (a) The basic penalty rate shall be equal to 75 percent of the support price for peanuts for the marketing year.

NOTE: The exact amount of the penalty rate for peanuts of the 1956 crop will be issued as an amendment to this section as soon as the basic rate of the loan or support price for 1956 is announced.

(b) The converted penalty rate for a farm shall be determined as follows:

(1) Compute the percent excess for a farm by dividing the farm peanut acreage into the excess acreage.

(2) Multiply the percent excess for the farm by the basic penalty rate.

§ 729.756 *Persons to pay penalty.* (a) The penalty due on peanuts purchased directly from a producer shall be paid by the buyer who may deduct an amount equivalent to the penalty from the price paid to the producer, except that the penalty due on marketings by a producer directly to any person outside the United States shall be paid by the producer. The buyer shall not be relieved of any liability with respect to the amount of penalty because of any error which may occur in executing a sales memorandum. If the buyer fails to collect or to pay the penalty due on any marketing of peanuts from a farm, he and all producers on the farm shall be jointly and severally liable for the amount of the penalty.

(b) Notwithstanding any other provisions of §§ 729.740 to 729.769, if the county office manager finds that peanuts produced on a farm on which there is excess acreage have been or probably will be sold to persons who are not engaged in the business of buying peanuts for movement into the regular channels of trade and determines that it would be administratively impracticable to effect the collection of the marketing penalty from such persons, the county office manager may, on the basis of county office records or other available information, estimate the actual yield and the production for the farm and determine the amount of penalty due on the quantity of peanuts marketed to such persons. The amount of penalty shall be determined by multiplying the converted penalty rate by the estimated total production for the farm. The amount of penalty may be collected from the operator or producer before the marketing card is issued if he agrees to payment of the penalty in this manner. If the county office manager determines that satisfactory information is not available for estimating the 1956 yield, a normal yield for the farm shall be determined and it shall be considered to be the estimated actual yield for the purpose of determining the amount of penalty. An excess penalty card shall be issued for the farm. If the penalty is paid before the excess penalty card is issued, the penalty rate on the card shall be shown as "zero". If the county committee determines, after marketing of the 1956 crop for the farm has been completed that the actual production for the farm was less than the estimated production, any penalty paid in excess of the amount actually due shall be refunded upon presentation of a request therefor as provided in § 729.760. If the county committee determines, after marketing of the 1956 crop for the farm has been completed that the actual production for the farm was more than the estimated production, the county committee shall immediately redetermine the amount of penalty due and shall make demand upon the producer for the amount of unpaid penalties.

§ 729.757 *Marketings subject to penalty.* In addition to marketings subject to penalty that are identified by excess penalty cards, the marketing of peanuts under any of the following conditions shall be deemed to be a marketing subject to penalty at the rate prescribed in § 729.755.

(a) *Producer marketings.* (1) Any marketing of peanuts by a producer which is not identified by a valid marketing card shall be deemed to be a marketing subject to penalty at the rate prescribed in § 729.755 (a) unless the peanuts marketed consist of shriveled, damaged, split, and broken peanut kernels as described in § 729.754 (a) or unless the marketing is within the terms of the proviso contained in § 729.754 (a).

The penalty due under the provisions of this paragraph shall be determined by multiplying the pounds marketed by the basic penalty rate, and such amount of penalty shall be paid by the buyer who may deduct an amount equivalent to the penalty from the amount due the producer.

(2) Notwithstanding the provisions of § 729.753, if any producer falsely identifies or fails to account for the disposition of any peanuts produced on a farm, an amount of peanuts equal to the normal yield of the excess acreage for the farm shall be deemed to have been a marketing subject to penalty from such farm. A penalty for the farm shall be determined by multiplying the normal yield by the excess acreage by the basic penalty rate, and such amount of penalty shall be paid by the producer.

(b) *Buyer's marketings.* The part or all of any marketing of peanuts by a buyer which such buyer represents to be a resale, but which when added to prior sales by such buyer is in excess of the total amount of his prior purchases shall be deemed to be a marketing subject to penalty unless and until such buyer furnishes proof acceptable to the State committee showing that such marketing is not a marketing subject to penalty. Any penalty due under this paragraph shall be paid by the buyer making the resale.

(c) *Marketings not reported.* Any marketing of peanuts, which, under the regulation in §§ 729.740 to 729.769, a buyer is required to report, but which is not so reported within the time and in the manner therein required, shall be deemed to be a marketing subject to penalty unless and until such buyer furnishes a report of such marketing which is acceptable to the State committee. The penalty shall be determined by multiplying the pounds marketed by the basic penalty rate, and such amount of penalty shall be paid by the buyer who fails to make the report as required.

§ 729.758 *Payment of penalty.* Penalties shall become due at the time the peanuts are marketed and shall be paid by remitting the amount thereof to the State ASC office not later than the end of two calendar weeks following the week in which the peanuts became subject to penalty. Penalties due under § 729.753 (c) shall become due on demand. The person liable for payment or collection of the penalty shall be liable also for interest thereon at the rate of 6 per cent per annum from the date the penalty becomes due until the date of payment of such penalty. A draft, money order, or check drawn payable to the Treasurer of the United States may be used to pay any penalty, but any such draft or check shall be received subject to collection and payment at par.

§ 729.759 *Use of agreement to permit marketings from overplanted farms—*(a) *Within quota card issued on basis of agreement.* If the State committee determines that the agreement provided for in this section will serve a useful purpose, it may authorize its use in the State. Where the use of the agreement is authorized, the county office manager may, upon request of the operator of any farm on which the acreage planted to peanuts exceeds the farm allotment, issue a within quota card with respect to the farm in the manner prescribed in § 729.748 if the operator executes an agreement form in which he represents that the farm peanut acreage will not exceed the larger of the farm allotment or one acre and such form is approved by the county committee.

(b) *Form of agreement.* The agreement referred to in this section shall be on Form MQ–92—Peanuts (1956) executed in accordance with instructions issued by the Deputy Administrator. If the county committee determines that a within quota card issued pursuant to this section would be used as a device to evade the payment of penalty or the terms and conditions of the 1956 crop price support program, the agreement shall not be approved by the county committee and a marketing card shall not be issued for the farm until the farm peanut acreage has been determined.

(c) *Payment of penalty.* If any penalty becomes due for a farm for which an agreement has been executed and approved, the amount of the penalty shall be determined in accordance with § 729.753. At the request of the county office manager, the operator shall surrender the marketing card issued for the farm showing thereon the required record of all peanuts marketed. After collecting the amount of any penalty due, an excess penalty card shall be issued for the farm if marketings from the farm have not been completed.

§ 729.760 *Request for refund of penalty.* After the marketing of peanuts from the farm has been completed and the disposition of any other peanuts produced on the farm can be shown, the producer or any other person who bore the burden of the payment of any penalty may request the return of the amount of such penalty which is in excess of the amount required under §§ 729.740 to 729.769 to be paid. Such request shall be filed with the county ASC office within two years after the payment of the penalty. No refund shall be made because of peanuts kept on the farm for seed or for home consumption. In each instance where an excess penalty card was issued for a farm showing the minimum converted penalty rate and in each instance of violation of agreement where the minimum converted penalty rate is used to compute the amount of penalty, because of the rule of fractions, the county office manager shall recompute the amount of penalty for the farm by multiplying the total pounds of peanuts marketed from the farm by the percent excess by the basic penalty rate. If the penalty for the farm has already been collected and such amount exceeds the revised amount of penalty computed for the farm by more than $3.00, a refund shall be made to the producer in accordance with this paragraph.

RECORDS AND REPORTS

§ 729.761 *Producer's records and reports—*(a) *Report on marketing card.* Each marketing card issued with respect to a farm on which peanuts are produced in 1956 shall be returned to the county ASC office whenever marketings from the farm are completed or at such earlier time as the county office manager may request. Failure to return the marketing card shall constitute failure to account for disposition of peanuts marketed from the farm in the event that a satisfactory account of such disposition is not furnished otherwise, and the allotment next established for such farm shall be reduced as provided in § 729.724 of the marketing quota regulations for the 1956 crop (20 F. R. 6033).

(b) *Additional reports by producers.* (1) In addition to any other reports which may be required under §§ 729.740 to 729.769, the operator of each farm or any other producer on the farm (even though the farm has no excess acreage) shall, upon written request from the State administrative officer sent by certified mail to such person at his last known address, furnish the Secretary a written report of the disposition made of all peanuts produced on the farm by sending the name to the State ASC office within 15 days after the request for such report was deposited in the United States mails. Such written report shall show for the farm:

(i) The farm peanut acreage;

(ii) The total production of peanuts on the farm peanut acreage;

(iii) The name and address of the buyer to or through whom each lot of peanuts was marketed, the number of pounds marketed in each lot, and the date marketed;

(iv) The quantity of peanuts not marketed; and

(v) In the case of a farm for which an agreement was approved under § 729.759, the gross value received for each lot of peanuts.

(2) Failure to file the report as requested or the filing of a report which is found by the State committee to be false shall constitute failure of the producer to account for disposition of peanuts produced on the farm and the allotment next established for such farm shall be reduced as provided in § 729.724 of the marketing quota regulations for peanuts of the 1956 crop (20 F. R. 6033).

§ 729.762 *Records and reports of buyers and others.* The following paragraphs shall apply to all marketings except marketings within the terms of the proviso contained in § 729.754 (a):

(a) *Record of marketings.* (1) Each buyer shall keep such records as will enable him to furnish the State ASC office the following information with respect to each lot of peanuts marketed to or through him by a producer:

(i) Serial number of the marketing card presented by the producer to identify each marketing.

(ii) Name of producer and either the name of the operator of the farm or the farm serial number.

(iii) Date of marketing.

(iv) Number of pounds marketed.

(v) Amount of any penalty due and the amount of any deduction for penalty from the amount paid the producer.

(2) This record may be kept by the buyer maintaining a file on his copies of sales memoranda.

(3) Records of all resales of farmers stock peanuts by the buyer shall be

maintained and the name of each person to whom such resale was made shall be shown on the buyer's record in accordance with § 729.754 (b).

(b) *Sales memorandum.* Buyers will record and report each purchase of farmers stock peanuts on a sales memorandum. The CSS copies of sales memoranda, with remittances covering the penalties due on purchases of excess peanuts, shall be forwarded to the State ASC office by means of MQ–79—Peanuts (1956), Buyers Weekly Report and Transmittal to State ASC office, not later than the end of the two calendar weeks following the week in which the peanuts were marketed.

(c) *Sheller's report of shelled peanuts purchased or acquired from producers.* Persons who shell peanuts for producers and purchase or retain a quantity of the shelled peanuts shall record and report such purchases or acquisitions of shelled peanuts from producers on Form MQ–91—Peanuts, Sheller's Report of Peanuts Shelled for Producers, unless the peanuts are identified to the seed sheller by within quota marketing cards. The CSS copy of Form MQ–91—Peanuts, with remittances covering the penalty due on the purchase of excess peanuts subject to penalty shall be forwarded to the State ASC office not later than the end of two calendar weeks after the buyer has ceased purchasing shelled peanuts of the 1956 crop. If the peanuts to be shelled for the producer are identified to the sheller by a valid within quota marketing card and the sheller retains a quantity of the shelled peanuts, he shall keep such records as will enable him to show the following information regarding each such transaction:

(1) Serial number of the within quota marketing card presented by the producer.

(2) Name and address of the producer.

(3) Date of shelling.

(4) Pounds of farmers stock peanuts shelled.

(5) Pounds of shelled peanuts returned to the producer.

(6) Pounds of shelled peanuts retained by sheller.

The records maintained by the sheller with respect to such peanuts shall be available for examination in accordance with § 729.766.

(d) *Additional records and reports.* Each buyer, warehouseman, processor, or common carrier of peanuts, any broker or dealer in peanuts, any agent marketing peanuts for a producer or acquiring peanuts for a buyer or dealer, any peanut growers cooperative association, any person engaged in the business of cleaning, shelling, crushing, or salting peanuts or manufacturing peanut products, or any person owning or operating a peanut picking or peanut threshing machine shall keep such records and furnish such reports to the State ASC office in addition to the foregoing, as the State committee may find necessary to insure the proper identification of the marketings of peanuts and the collection of penalties due thereon as provided in §§ 729.740 to 729.769.

§ 729.763 *Record and report of peanuts shelled for producers.* Any person who shells peanuts for a producer and does not retain any of the shelled peanuts shall keep such records as will enable him to show the following information regarding each such transaction:

(a) Name and address of the producer.

(b) Date of shelling.

(c) Pounds of farmers stock peanuts shelled.

(d) Pounds of shelled peanuts returned to the producer.

The records maintained by the sheller in accordance with this section shall be available for examination in accordance with § 729.766.

§ 729.764 *Separate records and reports from persons engaged in more than one business.* Any person who is required to keep any record or make any report as a buyer, processor, or other person engaged in the business of shelling or crushing peanuts, and who is engaged in more than one such business shall keep such records as will enable him to make separate reports for each such business in which he is engaged to the same extent for each such business as if he were engaged in no other business.

§ 729.765 *Failure to keep records or make reports.* Any buyer, warehouseman, processor, or common carrier of peanuts, any broker or dealer in peanuts, any agent marketing peanuts for a producer or acquiring peanuts for a buyer or dealer, any peanut growers cooperative association, any person engaged in the business of cleaning, shelling, crushing, or salting peanuts, or manufacturing peanut products, or any person owning or operating a peanut picking or peanut threshing machine, who fails to make any report or keep any record as required in accordance with §§ 729.740 to 729.769, or who makes any false report or record, shall be deemed guilty of a misdemeanor and upon conviction thereof shall be subject to a fine of not more than $500.00.

§ 729.766 *Examination of records and reports.* Any buyer, warehouseman, processor, or common carrier of peanuts, any broker or dealer in peanuts, any agent marketing peanuts for a producer or acquiring peanuts for a buyer or dealer, any peanut growers cooperative association, any person engaged in the business of cleaning, shelling, crushing, or salting peanuts or manufacturing peanut products, or any person owning or operating a peanut picking or threshing machine, shall make available for examination upon written request by the State administrative officer or the Director, such books, papers, records, accounts, correspondence, contracts, documents, and memoranda as the State administrative officer or the Director has reason to believe are relevant to any matter under investigation in connection with enforcement of the program and which are within the control of such person.

§ 729.767 *Length of time records and reports to be kept.* Records required to be kept and copies of reports required to be made by any person in accordance with §§ 729.740 to 729.769 for the 1956–57 marketing year shall be kept by him until July 31, 1959. Records shall be kept for such longer period of time as may be requested in writing by the Director.

MISCELLANEOUS

§ 729.768 *Information confidential.* All data reported to or as required by the Secretary pursuant to the provisions of §§ 729.740 to 729.769 shall be kept confidential by all officers and employees of the United States Department of Agriculture and by all members and employees of State or county committees, and only such data so reported or acquired as the Deputy Administrator deems relevant shall be disclosed by them and then only in a suit or administrative hearing, under Title III of the act.

§ 729.769 *Redelegation of authority.* Any authority delegated to the State committee by the regulations in §§ 729.740 to 729.769 may be redelegated by the State committee.

NOTE: The record-keeping and reporting requirements of these regulations have been approved by, and subsequent reporting requirements will be subject to the approval of, the Bureau of the Budget in accordance with the Federal Reports Act of 1952.

Done at Washington, D. C., this 31st day of May 1956. Witness my hand and the seal of the Department of Agriculture.

[SEAL] TRUE D. MORSE,
*Acting Secretary of Agriculture.*

## Chapter IX—Agricultural Marketing Service (Marketing Agreements and Orders), Department of Agriculture

[Lime Order 1, Amdt. 5]

PART 1001—LIMES GROWN IN FLORIDA

QUALITY AND SIZE REGULATION

*Findings.* (1) Pursuant to the marketing agreement and Order No. 101 (7 CFR Part 1001; 20 F. R. 4179) regulating the handling of limes grown in Florida, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.; 68 Stat. 906, 1047), and upon the basis of the recommendations of the Florida Lime Administrative Committee, established under the aforesaid marketing agreement and order, and upon other available information, it is hereby found that the limitation of handling of limes, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule making procedure, and postpone the effective date of this amendment until 30 days after publication thereof in the FEDERAL REGISTER (60 Stat. 237; 5 U. S. C. 1001 et seq.) in that, as hereinafter set forth, the time intervening between the date when information upon which this amendment is based became available and the time when this amendment must become effective in order to effectuate the declared policy of the act is insufficient; a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective not later than June 7, 1956. Shipments of designated varieties of Florida limes are currently subject to quality regulation pursuant to Lime Order 1, as amended (§ 1001.301; 20 F. R. 4711; 4897; 6676; 21 F. R. 1819; 2650), and, unless sooner modified or terminated, will continue to be so regulated until May 1, 1957; determinations as to the need for, and extent of, continued regulation of Florida lime shipments must await the development of the crop and the availability of information on the demand for such fruit; the recommendation and supporting information for regulation of lime shipments subsequent to June 7, 1956, and in the manner herein provided, were promptly submitted to the Department after a telephone meeting of the Florida Lime Administrative Committee on May 31; such meeting was held to consider recommendations for regulation, the provisions of this amendment are identical with the aforesaid recommendation of the committee, and information concerning such provisions has been disseminated among handlers of Florida limes; it is necessary, in order to effectuate the declared policy of the act, to make this amendment effective during the period hereinafter set forth; and compliance with this amendment will not require any special preparation on the part of the persons subject thereto which cannot be completed by the effective time hereof.

(b) It is, therefore, ordered that the provisions in paragraph (b) of § 1001.301 (Lime Order 1, as amended; 20 F. R. 4711; 4897; 6676; 21 F. R. 1819; 2650) are hereby amended to read as follows:

(b) *Order.* (1) During the period beginning at 12:01 a. m., e. s. t., June 7, 1956, and ending at 12:01 a. m., e. s. t., May 1, 1957, no handler shall handle:

(i) Any limes, including the group known as true limes (also known as Mexican, West Indian, and Key limes and by other synonyms) and the group known as large fruited or Persian limes (including Tahiti, Bearss, and similar varieties), grown in the State of Florida, except the area West of the Suwannee River, unless such limes grade at least U. S. No. 2: *Provided,* That (*a*) a tolerance of 15 percent (including the tolerances provided in such grade) shall be allowed for limes not meeting such grade; and (*b*) the requirement of such grade that the limes shall have good green color shall be applicable only to limes known as large fruited or Persian limes (including Tahiti, Bearss, and similar varieties).

(ii) Any limes, grown in the State of Florida, except the area west of the Suwannee River, of the group known as large fruited or Persian limes (including Tahiti, Bearss, and similar varieties) which are more than slightly shriveled: *Provided,* That any portion of the tolerance specified in subdivision (i) (*a*) of this subparagraph may be used for limes failing to meet this requirement; or

(iii) Any container of limes, grown in the State of Florida, except the area west of the Suwannee River, of the group known as large fruited or Persian limes (including Tahiti, Bearss, and similar varieties) which contains more than five percent, by count, of limes smaller than 1¾ inches in diameter ("diameter" to be measured midway at a right angle to a straight line running from the stem to the blossom end of the fruit), unless the limes in such container have an average juice content of not less than 46 percent, by volume.

(2) As used in this section "handler" and "handle" shall have the same meaning as when used in said marketing agreement and order; the term "U. S. No. 2" and "good green color" shall have the same meaning as when used in the United States Standards for Persian (Tahiti) Limes, as recodified (§ 51.1001 of this title; 18 F. R. 7107); and the term "slightly shriveled" shall mean that the skin of the lime is slightly wrinkled or wilted from loss of moisture.

(c) *Effective time.* The provisions of this regulation shall become effective at 12:01 a. m., e. s. t., June 7, 1956.

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. 608c)

Dated: June 5, 1956.

[SEAL] G. R. GRANGE,
*Acting Director, Fruit and Vegetable Division, Agricultural Marketing Service.*

[F. R. Doc. 56–4501; Filed, June 5, 1956; 11:39 a. m.]

# TITLE 14—CIVIL AVIATION

## Chapter II—Civil Aeronautics Administration, Department of Commerce

[Amdt. 167]

PART 608—RESTRICTED AREAS

ALTERATIONS

The restricted area alteration appearing hereinafter has been coordinated with the civil operators involved, the Army, the Navy, and the Air Force, through the Air Coordinating Committee, Airspace Panel and is adopted to become effective when indicated in order to promote safety of the flying public. Since a military function of the United States is involved, compliance with the notice, procedure and effective date provisions of section 4 of the Administrative Procedure Act is not required.

Part 608 is amended as follows:

1. In § 608.18, the Pensacola, Florida, area (D–153), amended on November 6, 1954, in 19 F. R. 7225, is further amended by changing the "Description by Geographical Coordinates" column to read: "Beginning at latitude 30°13'30" N., longitude 88°01'30" W.; thence easterly along the shoreline to latitude 30°16'25" N., longitude 87°34'20" W.; thence clockwise along the arc of a circle with a 1.7 nautical mile radius centered at latitude 30°16'48" N., longitude 87°32'10" W., to the shoreline at latitude 30°16'55" N., longitude 87°30'20" W.; thence to latitude 30°17'15" N., longitude 87°29'15" W.; thence clockwise along the arc of a circle with a 1.7 nautical mile radius centered at latitude 30°17'47" N., longitude 87°27'28" W., to the shoreline at latitude 30°17'50" N., longitude 87°25'30" W.; thence to latitude 30°18'20" N., longitude 87°23'20" W.; thence counter clockwise along the arc of a circle with a 4.3 nautical mile radius centered at latitude 30°20'53" N., longiture 87°19'04" W.; to the shoreline at latitude 30°19'10" N., longitude 87°14'45" W.; thence to latitude 30°19'15" N., longitude 87°13'50" W.; thence to latitude 30°16'30" N., longitude 87°13'00" W.; thence westerly three nautical miles from and parallel to the shoreline to latitude 30°10'20" N., longitude 87°01'30" W.; thence to point of beginning."

(Sec. 205, 52 Stat. 984, as amended; 49 U. S. C. 425. Interprets or applies sec. 601, 52 Stat. 1007, as amended; 49 U. S. C. 551)

This amendment shall become effective on July 1, 1956.

[SEAL] JAMES T. PYLE,
*Acting Administrator of Civil Aeronautics.*

[F. R. Doc. 56–4393; Filed, June 5, 1956; 8:45 a. m.]

# TITLE 16—COMMERCIAL PRACTICES

## Chapter I—Federal Trade Commission

[Docket 6297]

PART 13—DIGEST OF CEASE AND DESIST ORDERS

JACQUES DE GORTER ET AL. TRADING AS PELTA FURS

Subpart—*Advertising falsely or misleadingly:* § 13.30 *Composition of goods:* Fur Products Labeling Act; § 13.73 *Formal regulatory and statutory requirements:* Fur Products Labeling Act; § 13.90 *History of product or offering;* § 13.155 *Prices:* Exaggerated as regular and customary; fictitious marking; forced or sacrifice sales; § 13.175 *Quality of product or service;* § 13.235 *Source or origin:* History. Subpart—*Invoicing products falsely:* § 13.1108 *Invoicing products falsely:* Fur Products Labeling Act. Subpart—*Misbranding or mislabeling:* § 13.1190 *Composition:* Fur Products Labeling Act; § 13.1212 *Formal regulatory and statutory requirements:* Fur Products Labeling Act; § 13.1280 *Price;* § 13.1325 *Source or origin:* Place: *Foreign, in general.* Subpart—*Neglecting, unfairly or deceptively, to make material disclosure:* § 13.1845 *Composition:* Fur Products Labeling Act; § 13.1852 *Formal regulatory and statutory requirements:* Fur Products Labeling Act; § 13.1880 *Old, used, reclaimed, or reused as unused or new:* Fur Products Labeling Act; § 13.1900 *Source or origin:* Fur Products Labeling Act: *Maker or seller, etc.; Place.*

(Sec. 6, 38 Stat. 721; 15 U. S. C. 46. Interpret or apply sec. 5, 38 Stat. 719, as amended; sec. 8, 65 Stat. 179; 15 U. S. C. 45, 69f) [Cease and desist order, Jacques De Gorter et al. t. a. Pelta Furs, Los Angeles, Calif., Docket 6297, May 11, 1956]

*In the Matter of Jacques De Gorter and Suze C. De Gorter, as Individuals and as Copartners Trading as Pelta Furs*

This proceeding was heard by a hearing examiner on the complaint of the Commission—charging a great variety of violations of the Fur Products Labeling Act in advertisements in newspapers and otherwise and on labels attached to garments and on invoices, as specifically noted in the order below set forth—followed by respondents' denial of the principal charges, and hearings at which the issues were resolved by stipulation, with certain exceptions. The latter were determined by the hearing examiner in an initial decision and order to cease and desist.

From this, both counsel appealed. The Commission, after consideration of the entire record, granting the appeal of counsel supporting the complaint and denying that of respondents, vacating and setting aside the initial decision, made its findings as to the facts,[1] conclusions,[1] and order to cease and desist, which issued under date of May 11, 1956.

Commissioner Kern set forth an accompanying opinion [1] of the Commission, and Chairman Gwynne and Commissioner Mason joined in the dissenting opinion.[1]

Said order is as follows:

*It is ordered*, That respondents, Jacques De Gorter and Suze C. De Gorter, individually and as copartners trading as Pelta Furs or under any other trade name, and respondents' representatives, agents, and employees, directly or through any corporate or other device, in connection with the introduction, or the sale, advertising or offering for sale, or the transportation or distribution of any fur product in commerce, or in connection with the sale, advertising, offering for sale, transportation or distribution of fur products which have been made in whole or in part of fur which had been shipped and received in commerce, as "commerce," "fur," and "fur product" are defined in the Fur Products Labeling Act, do forthwith cease and desist from:

A. Misbranding fur products by:

1. Falsely or deceptively labeling or otherwise identifying any such product as to the name or names of the animal or animals that produced the fur from which such product was manufactured;

2. Failing to affix labels to fur products showing:

a. The name or names of the animal or animals producing the fur or furs contained in the fur product as set forth in the Fur Products Name Guide and as prescribed under the rules and regulations;

b. That the fur product contains or is composed of used fur when such is a fact;

c. That the fur product contains or is composed of bleached, dyed, or artificially colored fur when such is a fact;

d. That the fur product is composed in whole or in substantial part of paws, tails, bellies or waste fur when such is a fact;

e. The name, or other identification issued and registered by the Commission, of one or more persons who manufactured such fur product for introduction into commerce, introduced it into commerce, sold it in commerce, advertised or offered it for sale in commerce, or transported or distributed it in commerce;

f. The name of the country of origin of any imported furs used in the fur product.

3. Setting forth, on labels attached to fur products, the name or names of any animal or animals other than the name or names provided for in paragraph A (2) (a) above.

4. Setting forth on labels attached to fur products:

a. Non-required information mingled with required information;

b. Required information in handwriting;

c. Required information in a sequence different from that required by Rule 30 (a) of the rules and regulations.

5. Failing to show, on labels attached to fur products, all of the required information on one side of such labels.

B. Falsely or deceptively invoicing fur products by:

1. Failing to furnish invoices to purchasers of fur products showing:

a. The name or names of the animal or animals producing the fur or furs contained in the fur product as set forth in the Fur Products Name Guide and as prescribed under the rules and regulations;

b. That the fur product contains or is composed of used fur when such is a fact;

c. That the fur product contains or is composed of bleached, dyed, or artificially colored fur when such is a fact;

d. That the fur product is composed in whole or in substantial part of paws, tails, bellies, or waste fur when such is a fact;

e. The name and address of the person issuing such invoices;

f. The name of the country of origin of any imported furs contained in the fur product.

2. Using on invoices the name or names of any animal or animals other than the name or names provided for in paragraph B (1) (a) above, or setting forth thereon any form or misrepresentation or deception, directly or by implication, with respect to such fur products.

3. Setting forth required information in abbreviated form.

4. Failing to show the item number or mark of fur products on the invoices pertaining to such products, as required by Rule 40 of the rules and regulations.

C. Falsely or deceptively advertising fur products, through the use of any advertisement, public announcement, or notice which is intended to aid, promote or assist, directly or indirectly, in the sale or offering for sale of fur products, and which:

1. Fails to disclose:

a. The name or names of the animal or animals producing the fur or furs contained in the fur products as set forth in the Fur Products Name Guide and as prescribed under the rules and regulations;

b. That the fur products contain or are composed of bleached, dyed, or otherwise artificially colored fur when such is a fact;

c. The name of the country of origin of imported furs contained in fur products.

2. Represents directly or by implication:

a. That the regular or usual price of any fur product is any amount which is in excess of the price at which respondents have usually and customarily sold such products in the recent regular course of their business;

b. That a sale price enables purchasers of fur products to effectuate any savings in excess of the difference between the said price and the price at which comparable products were sold during the time specified or, if no time is specified, in excess of the difference between said price and the current price at which comparable products are sold;

c. That an amount set forth on price tags, or otherwise relating or referring to fur products, represents the value or the usual price at which said fur products had been customarily sold by respondents in the recent regular course of their business, contrary to fact;

d. That any such product is of a higher grade, quality, or value than is the fact, by means of illustrations or depictions of higher priced or more valuable products than those actually available for sale at the advertised selling price, or by any other means.

e. That any of such products are:

1. From the stock of a business in a state of liquidation, contrary to fact;

2. From the stock of a business recently consolidated with another, contrary to fact.

3. Makes pricing claims or representations of the type referred to in paragraph C (2) (a), (b), and (c) above, unless there is maintained by respondents full and adequate records disclosing the facts upon which such claims or representations are based.

*It is further ordered*, That respondents, Jacques De Gorter and Suze C. De Gorter, individually and as copartners trading as Pelta Furs or under any other trade name, and respondents' representatives, agents, and employees, directly or through any corporate or other device in connection with the offering for sale, sale, and distribution of fur products in commerce, as "commerce" is defined in the Federal Trade Commission Act, do further cease and desist from making, directly or by implication, any of the representations prohibited by paragraph C (2) of this order.

*It is further ordered*, That the respondents herein shall, within sixty (60) days after service upon them of this order, file with the Commission a report in writing setting forth in detail the manner and form in which they have complied with the order to cease and desist.

By the Commission.

Issued: May 11, 1956.

[SEAL] ROBERT M. PARRISH, *Secretary.*

[F. R. Doc. 56-4400; Filed, June 5, 1956; 8:47 a. m.]

[1] Filed as part of the original document.

# TITLE 38—PENSIONS, BONUSES, AND VETERANS' RELIEF

## Chapter I—Veterans Administration

PART 6—UNITED STATES GOVERNMENT LIFE INSURANCE

PART 8—NATIONAL SERVICE LIFE INSURANCE

POLICY LOANS

1. In Part 6, §§ 6.100 and 6.101 are amended to read as follows:

§ 6.100 *Policy loan; other than 5-year convertible term policy.* At any time after the expiration of the first policy year and before default in payment of any subsequent premium, and upon the execution of a loan agreement satisfactory to the Administrator, the United States will lend to the insured on the sole security of his United States Government life insurance policy, any amount which shall not exceed 94 percent of the cash value, and any indebtedness shall be deducted from the amount advanced on such loan. The loan shall bear interest at a rate not to exceed 6 percent per annum, payable annually, and, at any time before default in the payment of the premium, the loan may be repaid in full or in amounts of $5 or more. Failure to pay either the amount of the loan or the interest thereon shall not void the policy unless the total indebtedness shall equal or exceed the cash value thereof. When the amount of the indebtedness equals or exceeds the cash value the policy shall cease and become void.

§ 6.101 *Policy loan; 5-year convertible term policy.* At any time after the expiration of the sixth policy year and before default in payment of any subsequent premium and upon execution of a loan agreement satisfactory to the Administrator, the United States will lend to the insured on the sole security of his United States Government life insurance policy on the 5-year convertible term plan any amount which shall not exceed 94 percent of the cash value, and any indebtedness shall be deducted from the amount advanced on such loan. The loan shall bear interest at a rate not to exceed 6 percent per annum, payable annually, and at any time before default in payment of premium, the loan may be repaid in full or in amounts of $5 or more. Failure to pay either the amount of the loan or the interest thereon shall not avoid the policy unless the total indebtedness shall equal or exceed the cash value thereof. When the amount of the indebtedness equals or exceeds the cash value, the policy shall cease and become void.

(Sec. 5, 43 Stat. 608, as amended, sec. 2, 46 Stat. 1016, sec. 7, 48 Stat. 9, sec. 6, 65 Stat. 35; 38 U. S. C. 11a, 426, 707, 855. Interpret or apply secs. 300, 301, 43 Stat. 624, as amended; 38 U. S. C. 511, 512)

2. In Part 8, paragraph (a) of § 8.28 is amended to read as follows:

§ 8.28 *Policy loan; other than 5-year level premium term policy.* (a) At any time after the expiration of the first policy year and before default in payment of any subsequent premium, and upon the execution of a loan agreement satisfactory to the Administrator, the United States will lend to the insured on the security of his National Service life insurance policy, on any plan other than 5-year level premium term, any amount which will not exceed 94 percent of the reserve, and any indebtedness on the policy shall be deducted from the amount advanced on such loan. Except as prescribed in paragraph (b) of this section, the loan shall bear interest at the rate of 5 per centum per annum, payable annually; and at any time before default in the payment of the premium, the loan may be repaid in full or in amounts of $5 or more. Failure to pay either the amount of the loan or the interest thereon shall not void the policy unless the total indebtedness shall equal or exceed the cash value thereof. When the amount of the indebtedness equals or exceeds the cash value, the policy shall cease and become void.

* * * * * *

(Sec. 608, 54 Stat. 1012, as amended, sec. 6, 65 Stat. 35; 38 U. S. C. 808, 855. Interpret or apply sec. 602, 54 Stat. 1009, as amended; 38 U. S. C. 802)

This regulation is effective June 6, 1956.

[SEAL] JOHN S. PATTERSON, *Deputy Administrator.*

PART 12—DISPOSITION OF VETERAN'S PERSONAL FUNDS AND EFFECTS

OPERATION OF LOST AND FOUND SERVICE

1. A new centerhead immediately following § 12.23 is added as follows: "Operation of Lost and Found Service."

2. A new § 12.24 is added as follows:

§ 12.24 *Operation of lost and found service.* Unless maintained by the Public Buildings Service, the lost and found service will be maintained by an employee designated by the Manager to be known as the lost and found custodian. VA Form 3771, Record of Lost or Found Article, will be used for recording articles of any personal property lost or found. Every effort will be made to determine rightful ownership of found articles and to recover items which have been reported lost. Currency, including readily negotiable instruments, found and delivered to the lost and found custodian will not be retained beyond the official closing hour. The currency or negotiable instruments will be delivered to the agent cashier before the close of business. Individuals claiming found articles will furnish complete identification and satisfy the station authority of rightful ownership. Where more than one individual claims ownership the matter will be referred to the Manager for decision.

All articles of personal property remaining unclaimed for 90 days or more will be disposed of in accordance with § 12.8.

(Sec. 10, 52 Stat. 1192, 55 Stat. 871; 38 U. S. C. 16i, 17j)

This regulation is effective June 6, 1956.

[SEAL] JOHN S. PATTERSON, *Deputy Administrator.*

# TITLE 44—PUBLIC PROPERTY AND WORKS

## Chapter I—General Services Administration

PART 100—PUBLIC BUILDINGS AND GROUNDS

SUBPART B—SUPPLEMENTAL REGULATIONS

USE OF DEPARTMENTAL AUDITORIUM AND ADJACENT CONFERENCE ROOMS

Section 100.35 is revised to read as follows:

§ 100.35 *Use of Departmental Auditorium and adjacent conference rooms.* This section governs the use of the Departmental Auditorium and adjacent conference rooms, Constitution Avenue between Twelfth and Fourteenth Streets, NW., Washington, D. C.

(a) The Departmental Auditorium, and Conference Rooms A, B, and C adjacent thereto, are available only upon assignment. Assignments to any agency of the Federal Government, or of the Government of the District of Columbia, will be made from time to time upon application by such agency for the following uses:

(1) For meetings to carry out the assigned functions of the applying agency;

(2) For meetings of recognized employee groups (with a limited number of invited guests);

(3) For meetings (including meetings of civic or veterans organizations and professional, scientific, educational, and other similar societies or organizations) that are sponsored by, and closely related to the activities of, the applying agency and are conducted by or actively participated in by employees of the agency, at the direction of the head thereof or his duly authorized representative or are attended by such employees for the purpose of assisting them in better performing their official duties; and

(4) For the presentation to the public of lectures, concerts, or similar performances by the applying agency or at which its employees participate in an official capacity, or for the presentation of such a performance by a recognized employee group.

Such meetings or performances shall not in any event include those sponsored by profit-making organizations, those promoting commercial enterprises or commodities, or those having a political, sectarian, or similar nature or purpose.

(b) Each application for use of the auditorium or conference rooms will be submitted in writing by the head of the requesting agency, or his duly authorized representative, at least one week in advance of the use for which the assignment is requested. Each application for use should be addressed and delivered to the Manager, Triangle Area, General Services Administration Region 3, Wash-

ington 25, D. C., and shall include the following information:

(1) The name of the governmental agency requesting the assignment;

(2) The date on which assignment is requested, and the hours of contemplated use;

(3) The name and a brief description of the organization (whether government or private) proposing to conduct the scheduled meeting or performance;

(4) A brief description of the program of the scheduled meeting or performance;

(5) The approximate number of persons expected to attend the meeting or performance;

(6) In the case of a meeting of a group not composed predominantly of government employees, a statement that the meeting is to be conducted by government employees acting in an official capacity, or a list of the names and titles of the principal employees of the applying agency who, it is contemplated, will attend the meeting at the direction of that agency;

(7) A statement as to whether it is the intention to exhibit at the meeting or performance motion pictures or lantern slides and, if so, the size of the film (35 mm. or 16 mm.) or of the lantern slides; and

(8) Samples of any literature, folders, or posters to be distributed or exhibited at the meeting or performance.

(c) No program will be permitted to continue beyond midnight.

(d) Assignments will not be made, unless specifically justified, for Saturdays, Sundays, holidays, or other days during which the building is normally closed.

(e) No admission fee will be charged, no indirect assessment will be made for admission, and no collection will be taken. Commercial advertising or the sale of articles of any character will not be permitted.

(f) The serving or consumption of food or beverages within the auditorium or conference rooms will be prohibited.

(g) Smoking will be prohibited within the auditorium.

(h) If the projection of motion pictures or lantern slides is a part of the program, competent operators will be furnished by the General Services Administration on a reimbursable basis.

(i) Music racks, ushers, and attendants for checking wraps, if needed, will be furnished and paid for by the applying agency.

(j) Posting of any material about the premises will be subject to the approval of the General Services Administration building superintendent.

(k) All persons attending meetings or performances will be required to go directly to the auditorium or conference rooms and to leave by the most direct exit. They will be provided with tickets or other identification, except when the general public is invited. No one will be admitted to other parts of the building unless he possesses a properly signed pass.

(l) All persons attending meetings or performances will be subject to the "Rules and Regulations Governing Public Buildings and Grounds" issued by the Administrator of General Services.

(Sec. 2, 62 Stat. 281, as amended; 40 U. S. C. 318a)

Dated: June 1, 1956.

PART 100—PUBLIC BUILDINGS AND GROUNDS

SUBPART B—SUPPLEMENTAL REGULATIONS

USE OF THE AUDITORIUM IN THE GENERAL SERVICES BUILDING

Sections 100.36 to 100.40 are revised and consolidated to read as follows:

§ 100.36 *Use of the Auditorium in the General Services Building.* This section governs the use of the auditorium in the General Services Building at Eighteenth and F Streets NW, Washington, D. C.

(a) The auditorium in the General Services Building is available only upon assignment. Assignments to any agency of the Federal Government, or of the Government of the District of Columbia, will be made when the auditorium is not required for the use of the General Services Administration, from time to time upon application by such agency for the following uses:

(1) For meetings to carry out the assigned functions of the applying agency;

(2) For meetings of recognized employee groups (with a limited number of invited guests);

(3) For meetings (including meetings of civic or veterans organizations and professional, scientific, educational, and other similar societies or organizations) that are sponsored by, and closely related to the activities of, the applying agency and are conducted by or actively participated in by employees of the agency, at the direction of the head thereof or his duly authorized representative or are attended by such employees for the purpose of assisting them in better performing their official duties; and

(4) For the presentation to the public of lectures, concerts, or similar performances by the applying agency or at which its employees participate in an official capacity, or for the presentation of such performance by a recognized employee group.

Such meetings or performances shall not in any event include those sponsored by profit-making organizations, those promoting commercial enterprises or commodities, or those having a political, sectarian, or similar nature or purpose.

(b) Each application for the use of the auditorium will be submitted in writing by the head of the requesting agency, or his duly authorized representative, at least one week in advance of the use for which the assignment is requested. Each application for use should be addressed and delivered to the Director, Administrative Facilities Division, Room 7334, General Services Building, Washington 25, D. C. (telephone Executive 3-4900, Government Dial Code 156, Extension 4595), and shall include the following information:

(1) The name of the governmental agency requesting the assignment;

(2) The date on which assignment is requested, and the hours of contemplated use;

(3) The name and a brief description of the organization (whether government or private) proposing to conduct the scheduled meeting or performance;

(4) A brief description of the program of the scheduled meeting or performance;

(5) The approximate number of persons expected to attend the meeting or performance;

(6) In the case of a meeting of a group not composed predominantly of government employees, a statement that the meeting is to be conducted by government employees acting in an official capacity, or a list of the names and titles of the principal employees of the applying agency who, it is contemplated, will attend the meeting at the direction of that agency;

(7) A statement as to whether it is the intention to exhibit at the meeting or performance motion pictures or lantern slides and, if so, the size of the film (35 mm. or 16 mm.) or of the lantern slides; and

(8) Samples of any literature, folders, or posters to be distributed or exhibited at the meeting or performance.

(c) No program will be permitted to continue beyond midnight.

(d) Assignments will not be made, unless specifically justified, for Saturdays, Sundays, Holidays, or other days during which the building is normally closed.

(e) No admission fee will be charged, no indirect assessment will be made for admission, and no collection will be taken. Commercial advertising or the sale of articles of any character will not be permitted.

(f) The serving or consumption of food or beverages within the auditorium will be prohibited.

(g) Smoking will be prohibited within the auditorium.

(h) If the projection of motion pictures or lantern slides is a part of the program, competent operators will be furnished by the General Services Administration on a reimbursable basis.

(i) Music racks, ushers, and attendants for checking wraps, if needed, will be furnished and paid for by the applying agency.

(j) Posting of any material about the premises will be subject to the approval of the General Services Administration building superintendent.

(k) All persons attending meetings or performances will be required to go directly to the auditorium, which has entrances on the first floor of the building and to leave by the most direct exit. They will be provided with tickets or other identification, except when the general public is invited. No one will be admitted to other parts of the building unless he possesses a properly signed pass.

(l) All persons attending meetings or performances will be subject to the "Rules and Regulations Governing Public Buildings and Grounds" issued by the Administrator of General Services.

PART 100—PUBLIC BUILDINGS AND GROUNDS

SUBPART B—SUPPLEMENTAL REGULATIONS

USE OF THE THEATRE IN THE NATIONAL ARCHIVES BUILDING

A new § 100.37 is added to read as follows:

§ 100.37 *Use of the Theatre in the National Archives Building.* This section governs the use of the theatre in the National Archives Building at Eighth and Pennsylvania Avenue NW., Washington, D. C.

(a) The theatre in the National Archives Building was designed to be used for the furnishing of reference services on the motion picture holdings of the National Archives, and its facilities are utilized primarily for that purpose. Assignments to any other agencies of the Federal Government, to agencies of the Government of the District of Columbia, or to private organizations may be made, but only when the theatre is not required for the furnishing of reference services on those motion picture films or for other official use of the National Archives and Records Service. No application for the use of the theatre by either a Federal or District of Columbia agency or a private organization will be approved unless the purpose for which use is requested is related to the work of the National Archives and Records Service. Meetings in the theatre shall not in any event be sponsored by profit-making organizations, promote commercial enterprises or commodities, or have a political, sectarian, or similar nature or purpose.

(b) Each application for the use of the theatre will be submitted in writing by the head of the requesting agency or organization, or his duly authorized representative, at least one week in advance of the use for which the assignment is requested. Each application for use should be addressed and delivered to the Chief Archivist, Audio-Visual Records Branch, Room 607, National Archives Building, Washington 25, D. C. (telephone Republic 7-7500, Government Dial Code 151, Extension 6331), and shall include the following information:

(1) The name of the governmental agency or private organization requesting the assignment;

(2) The date on which assignment is requested, and the hours of contemplated use;

unless he possesses a properly signed pass.

(l) All persons attending meetings or performances will be subject to the "Rules and Regulations Governing Public Buildings and Grounds" issued by the Administrator of General Services.

# TITLE 49—TRANSPORTATION

## Chapter I—Interstate Commerce Commission

PART 120—ANNUAL, SPECIAL OR PERIODICAL REPORTS

STEAM RAILWAYS, SUPPLEMENT TO ANNUAL REPORT FORM A—CONSOLIDATED STATISTICAL STATEMENTS

At a general session of the Interstate Commerce Commission held at its office in Washington, D. C., on the 25th day of May A. D. 1956.

The matter of Annual Reports from Steam Railway Companies of Class I being under consideration, and, inasmuch as carriers affected by this order are thereby relieved of a regulation, rule-making procedure under section 4(a) of Administrative Procedure Act being deemed unnecessary:

*It is ordered,* That the order dated February 28, 1950, in the matter of Annual Reports from Steam Railway Companies be, and it is hereby, vacated and set aside, insofar as it may require the filing of consolidated statistical statements for the year 1955 and subsequent years;

*It is further ordered,* That § 120.11a *Consolidated statistical statements supplemental to annual report prescribed for large and medium steam railways* be, and the same is hereby, cancelled and deleted in its entirety;

*It is further ordered,* That this order shall not affect the requirement that consolidated statistical statements be filed for the year 1954 and for previous years; and

*It is further ordered,* That a copy of this order shall be served upon every Class I steam railroad (except switching and terminal companies) subject to Part I of the Interstate Commerce Act, and upon every receiver, trustee, executor, administrator, or assignee of any such steam railroad; and that notice of this order shall be given to the general public by depositing a copy thereof in the office of the Secretary of the Commission at Washington, D. C., and by filing it with the Director of the Division of the Federal Register.

(Sec. 12, 24 Stat. 383, as amended, sec. 201, 54 Stat. 933; 49 U. S. C. 12, 904. Interprets or applies sec. 20, 24 Stat. 386, as amended, 54 Stat. 944; 49 U. S. C. 20, 913)

By the Commission.

[SEAL] HAROLD D. MCCOY,
*Secretary.*

## CIVIL AERONAUTICS BOARD

### [ 14 CFR Part 241 ]

[Economic Regs. Draft Releases 81A, 82A]

REVISED UNIFORM SYSTEM OF ACCOUNTS AND REPORTS FOR CERTIFICATED AIR CARRIERS

CERTAIN IMPORTANT PROVISIONS TO BE MADE IMMEDIATELY EFFECTIVE; PRESCRIPTION OF DEPRECIATION ACCOUNTING PRACTICES

In the notice of proposed rule-making on these matters, published in the FEDERAL REGISTER on May 15, 1956 (21 F. R. 3188, 3192), it was stated that the Board would consider all relevant matter in communications received on or before the 30th day following the date of such publication. The ATA, acting on behalf of itself and its members, has requested the Board to extend the date by which comments must be filed for an additional period of 45 days. This request was predicated upon the alleged need for additional time in order to permit the formulation of a single set of comments embodying the concerted views of all interested air carriers.

Draft Release 81 proposed that several significant features of the New Manual of Accounts (which becomes effective January 1, 1957) be made effective immediately. Draft Release 82, which prescribes the use of the straight-line method of depreciation and uniform depreciation rates for specified classes of equipment, has also been integrated with the present manual so that it would be made effective prior to January 1, 1957. Plainly then, time is of the essence of the proposals contained in these two draft releases. Moreover, Draft Release 81 does not contain any new matter and the industry has already presented extensive legal argument concerning the subject matter of Draft Release 82. Finally, these two notices were circulated to the industry two weeks in advance of the date of their publication in the FEDERAL REGISTER.

In view of these circumstances, there appears to be little justification for extending time for filing comments to July 30, 1956. However, a meeting of the Air Line Finance and Accounting Conference is scheduled to be held on June 6, 7 and 8, 1956. Therefore, the Board has decided to afford the industry an additional three weeks time following the close of such meetings for submission of comments.

Accordingly, the third sentence of the last paragraph of each of the aforementioned notices is amended to read as follows: "All communications received on or before June 30, 1956 will be considered by the Board before taking action upon the proposed rule."

Dated: May 31, 1956.

By the Civil Aeronautics Board.

[SEAL] M. C. MULLIGAN,
*Secretary.*

[F. R. Doc. 56-4431; Filed, June 5, 1956; 8:53 a. m.]

# NOTICES

## DEPARTMENT OF COMMERCE

### Bureau of Foreign Commerce

[Case No. 210]

JERRY WILLIAMS & CO. ET AL.

ORDER REVOKING EXPORT LICENSES AND DENYING EXPORT PRIVILEGES AS TO SOME RESPONDENTS AND CENSURING ANOTHER RESPONDENT

In the matter of Jerry Williams & Co., Hong Kong, Lau Yiu Chuen, 326 Prince's Building, Hong Kong, Pan-Mar Corporation, 1270 Broadway, New York 1, New York, respondents; Case No. 210.

The respondents, Jerry Williams & Co. and Lau Yiu Chuen, both of Hong Kong; and Pan-Mar Corporation, of the City and State of New York, were charged by the Director, Investigation Staff, Bureau of Foreign Commerce, with having violated the Export Control Act of 1949, as amended, in that, as alleged, (a) Williams, without authorization from the Bureau of Foreign Commerce, transshipped to Communist China, fifty multimeters exported from the United States to Hong Kong under a validated license; (b) Chuen made false representations to the Bureau of Foreign Commerce as to the intended disposition and end use of these multimeters or failed to disclose to his supplier, Pan-Mar, a change of facts or intentions with respect to the transaction for which the Bureau of Foreign Commerce had granted the license; and (c) that Pan-Mar filed a second application for an export license for the fifty multimeters after it had filed a previous application for a license to export two hundred multimeters, including said fifty multimeters and also failed to endorse or have endorsed "ultimate destination-antidiversion" warnings on the invoices and air waybills relating to its exportation of said fifty multimeters. The charging letter was served on all respondents. Williams defaulted in appearance and answer. Chuen answered, denying the charges and asserting he had sold the multimeters to Williams, an allegedly registered trader in Hong Kong. Pan-Mar answered, denying that the second application involved multimeters included in the first application and claiming it was for a new order; and, while admitting that the "ultimate destination-antidiversion" warnings had been omitted from the invoices and air waybills, claimed that, as to the invoices it was an excusable oversight and, as to the air waybills, the omission was that of its freight forwarder whom it had hired in good faith and paid a fee to procure the documentation.

The Compliance Commissioner, to whom the charges were referred pursuant to § 382.4 of the export control regulations, has filed a report finding that violations have been committed and has recommended that remedial action be taken against the respondents.

Now, after reviewing the entire record and considering the report of the Compliance Commissioner, I hereby make the following findings of fact:

1. At all times hereinafter mentioned Jerry Williams & Co. and Lau Yiu Chuen were engaged in the import and export business in Hong Kong, and Pan-Mar Corporation was engaged in the export business in the City of New York, New York.

2. On or about the 28th day of December 1953, Pan-Mar, having received an order for two hundred multimeters from Chuen, filed an application for a license to export them to him in Hong Kong.

3. Thereafter, on or about the 2nd day of February 1954, Chuen sent Pan-Mar an ultimate consignee statement in which he stated and represented, with the intention that it be submitted to the Bureau of Foreign Commerce in support of an export license application, that fifty multimeters were being purchased by him for resale to "radio-electric service-men and Government approved radio and electrical dealers in Hongkong" for use in "Radio and Electric shops Servicing & Testing Purposes" in Hong Kong. At the same time, he notified Pan-Mar that these fifty multimeters were part of the order for two hundred multimeters and that he hoped to complete this order. In the said ultimate consignee statement he represented to the Bureau of Foreign Commerce that he would promptly send to Pan-Mar a supplemental statement disclosing any change of facts or intentions set forth therein and would notify Pan-Mar and secure the United States Government's approval through Pan-Mar prior to the disposal of the multimeters contrary to the representations made therein.

4. Thereafter, on the 10th day of February 1954, Pan Mar filed a new application for a license to export fifty multimeters to Chuen, annexing thereto the ultimate consignee statement signed by Chuen and did not disclose that the prior application had been filed or that these fifty multimeters were included in the two hundred multimeters therein mentioned.

5. The Bureau of Foreign Commerce thereafter issued an export license authorizing the exportation to Chuen in Hong Kong of the fifty multimeters for the purposes set forth in the ultimate consignee statement.

6. On March 23, 1954 and April 1, 1954, Pan-Mar exported, in two shipments, the total fifty multimeters to Chuen in Hong Kong but, contrary to the requirements of the export control regulations, failed and omitted to endorse or have endorsed on the air waybills or its commercial invoices to Chuen the prescribed notice warning all persons that the commodities had been licensed for exportation to Hong Kong as the place of ultimate destination and that diversion contrary to United States law was prohibited.

7. Prior to arranging for shipment by Pan-Mar by air freight, Chuen sold these fifty multimeters to Williams, who is not and was not a radio or electrical dealer, service enterprise or shop but, on the contrary, was an export trader, and Chuen failed and omitted to notify Pan-Mar or the Bureau of Foreign Commerce of this fact, which was a change of facts from those set forth in the ultimate consignee statement.

8. Williams thereafter, with knowledge that the multimeters had been exported from the United States and that diversion thereof, from Hong Kong to Communist China was prohibited, transshipped them to Shanghai.

And from the foregoing, the following are my conclusions:

A. Chuen, contrary to representations made by him to the Bureau of Foreign Commerce and contrary to the terms of an export license issued on the basis of such representations, knowingly sold and delivered the commodities involved to a person and for a purpose other than the persons and purposes set forth by him in his representations, in violation of § 381.6 of the export control regulations.

B. Chuen either knowingly made false representations as to the end use of the commodities involved or, with knowledge that the end use had been changed, failed to notify the Bureau of Foreign Commerce, through his supplier, thereof, in violation of § 381.5 of the export control regulations.

C. Williams knowingly diverted and transshipped the commodities involved from Hong Kong to Communist China in violation of §§ 381.6 and 384.5 of the export control regulations.

D. Pan-Mar, in violation of § 372.5 of the export control regulations, submitted a second application covering the same proposed exportation pending action on a first application and further, in violation of § 379.10 (c) of the said regulations, prepared commercial invoices and procured air waybills relating to the exportations involved herein without having endorsed thereon the required Destination Control Notices.

In his report, the Compliance Commissioner, after noting the mitigating factors claimed by Pan-Mar, as already set forth above and in addition, its prior excellent reputation and co-operation with the Bureau of Foreign Commerce, said:

> Pan-Mar, except for one operating individual, • • • is a corporate device for handling miscellaneous small exportations. [This individual] handled all phases of the acts involved and he was duly authorized so to do by Pan-Mar which entrusted the entire operation to him. It is responsible for his acts. • • • Pan-Mar is responsible also for the failure of its forwarder to endorse on the bills of lading the destination control notice. The duty imposed on the exporter cannot be delegated and effective enforcement of the act could not be attained if an exporter were to be absolved of responsibility merely because he made a contractual arrangement with another to perform the acts the responsibility for which was placed on him by law.

However, after careful consideration of the entire case, taking cognizance of all the mitigating factors already mentioned, it is my recommendation that the remedial action to be taken against Pan-Mar be limited to a censure. Chuen made a deliberately false representation or, by failing to disclose his contract to sell to Williams, made a deliberate concealment. His correspondence, as already noted, is in the pattern of informed transshippers. He should be denied export privileges so long as export controls are in effect. Williams, as a direct transshipper to Communist China, also should be denied export privileges so long as export controls are in effect. His direct transshipment to Communist China, coupled with his failure to answer interrogatories duly propounded, makes it imperative to take the maximum remedial action against him.

Having concluded that the recommendation of the Compliance Commissioner is fair and just, and being of the opinion that the action hereinafter provided is necessary to achieve effective enforcement of the law; *It is hereby ordered:*

I. Pan-Mar Corporation be, and it hereby is censured for failing and omitting to comply with and to observe the requirements of the export control regulations in that (a) it submitted a second application for a validated export license while a prior application was pending for a validated license to export the same commodities, (b) did not endorse the "ultimate destination-antidiversion" warning on invoices relating to exportations from the United States and (c) did not have its forwarder endorse such warning on the air waybills under which the exportations were made.

II. All outstanding validated export licenses in which Jerry Williams & Co. or Lau Yiu Chuen appears or participates as purchaser, intermediate or ultimate consignee, or otherwise, are hereby revoked and shall be returned forthwith to the Bureau of Foreign Commerce for cancellation.

III. Henceforth, and so long as export controls shall be in effect, the respondents Williams and Chuen are hereby suspended from and denied all privileges of participating, directly or indirectly in any manner or capacity, in an exportation of any commodity or technical data from the United States to any foreign destination, including Canada, whether such exportation has heretofore or hereafter been completed. Without limitation of the generality of the foregoing denial of export privileges, participation in an exportation is deemed to include and prohibit participation by either of said respondents, directly or indirectly in any manner or capacity, (a) as a party or as a representative of a party to any validated export license application, (b) in the obtaining or using of any validated or general export license or other export control documents, (c) in the receiving, ordering, buying, selling, using, or disposing in any foreign country of any commodities in whole or in part exported or to be exported from the United States, and (d) in storing, financing, forwarding, transporting, or other servicing of such exports from the United States.

IV. Such denial of export privileges shall extend not only to each of the said respondents, Williams and Chuen, but also to any person, firm, corporation, or business organization with which either of them may be now or hereafter related by ownership, control, position of responsibility, or other connection in the conduct of trade in which may be involved exports from the United States or services connected therewith.

V. No person, firm, corporation, partnership, or other business organization, whether in the United States or elsewhere, during any time when either respondent, Williams or Chuen, is prohibited under the terms hereof from engaging in any activity within the scope of Part III hereof, shall, without prior disclosure to, and specific authorization from the Bureau of Foreign Commerce, directly or indirectly in any manner or capacity (a) apply for, obtain, or use any license, shipper's export declaration, bill of lading, or other export control document relating to any such prohibited activity, (b) order, receive, buy, use, dispose of, finance, transport or forward, any commodity on behalf of or in any association with such respondent, or (c) do any of the foregoing acts with respect

to any commodity or exportation in which such respondent may have an interest of any kind or nature, direct or indirect.

Dated: June 1, 1956.

JOHN C. BORTON,
*Director,*
*Office of Export Supply.*

[Case No. 212]

EXPORT ELEKTROTECHNISCHER ERZEUGNISSE AND ELECTROEXPORT

ORDER REVOKING EXPORT LICENSES AND DENYING EXPORT PRIVILEGES

In the matter of Export Elektrotechnischer Erzeugnisse and Albert Obermayr trading as Electroexport, Rotenturmstrasse 25, Vienna 1, Austria, Respondents; Case No. 212.

Export Elektrotechnischer Erzeugnisse and Albert Obermayr, doing business under the firm name and style of Electroexport, in Vienna, Austria, hereinafter referred to as the respondents, were charged by the Director, Investigation Staff, Bureau of Foreign Commerce of the Department of Commerce, with having violated the Export Control Act of 1949, as amended, in that, as alleged, (a) they made false representations and concealed material facts as to the consignee and the place of ultimate destination of paraffin wax obtained from the United States and (b) they transshipped such paraffin wax from Hamburg, Germany, to Gdynia, Poland, for Taku Bar, China, without prior authorization by or disclosure to the Bureau of Foreign Commerce, after designating a firm in Vienna, Austria, the purchaser and ultimate consignee. They duly answered the charges, admitted the transshipment, denied that their representations had been false in the inception, and interposed numerous defenses, alleging, (a) that they did not know American regulations were being violated; (b) that the wax was of no strategic value and they believed it could be reexported; and (c) that the Austrian regulations had not been violated.

In accordance with the practice, this case was referred to the Compliance Commissioner. After the evidence was submitted, the Compliance Commissioner in due course made his report and recommendation, which, upon the facts as hereinafter found, appears to be fair and just and is therefore adopted.

Now, after considering the entire record consisting of the charges, the answer of the respondents, the evidence submitted in support of the charges and the report and recommendation of the Compliance Commissioner, I hereby make the following findings of fact:

1. At all times hereinafter mentioned Export Elektrotechnischer Erzeugnisse and Albert Obermayr, hereinafter referred to as respondents, were engaged in the import and export business in Vienna, Austria, under the firm name and style of Electroexport.

2. Prior to the 27th day of June 1955, respondents had made arrangements for the sale or handling by them of a sale of 15 metric tons of paraffin wax intended for shipment to Taku Bar, China.

3. On the 27th day of June 1955, respondents ordered said 15 tons of paraffin wax from a supplier in the United States.

4. Thereafter the American supplier informed respondents that, for the purpose of complying with the regulations, respondents would have to furnish an end-use statement confirming that the wax would be used in Austria or Western Europe and naming the ultimate destination of the wax and the use to which it was to be put. The American supplier at the same time stated that without this information "the factory would not be permitted to ship."

5. In response to this demand and, despite the fact that respondents had already sold this wax to or were acting for a buyer in Taku Bar, China, they certified to the American supplier that they had sold it to a shoe polish manufacturer in Vienna who intended to use it in the manufacture of his products.

6. The shoe polish manufacturer had never agreed to purchase any wax from the respondents.

7. Thereafter, on or about September 29, 1955, in reliance on respondents' statements of end-use and destination, the American supplier exported 15 tons (350 cartons) of wax to the respondents, at Hamburg, and, for the purpose of supporting such exportation, presented to and had authenticated by the United States Customs, an export declaration in which the respondents were named as purchaser and Vienna, Austria, was named as the place and country of ultimate destination.

8. The respondents thereafter instructed their agent in Hamburg to remark the packages and transship them to their representative or associate in Gdynia, Poland. Acting upon these instructions and, having received from the respondents the bill of lading relating to the shipment from the United States, respondents' agent in Hamburg then altered the marks on the packages and loaded them aboard a vessel which sailed to Gdynia, Poland.

And, from the foregoing, the following are my conclusions:

A. Respondents, in violation of § 381.5 of the export control regulations, knowingly made false statements concerning the ultimate consignee and ultimate destination of paraffin wax purchased by them for exportation from the United States and concealed from their supplier and, through him, from the Bureau of Foreign Commerce the fact that the wax was intended to be shipped to Taku Bar, China;

B. Respondents, in violation of § 381.6 of the export control regulations, knowingly transshipped or caused to be transshipped, the said wax to a Communist controlled destination, such destination not having been authorized by the Bureau of Foreign Commerce and being a destination other than that to which the wax had been consigned lawfully and in accordance with respondents' prior representations to their supplier in the United States.

The Compliance Commissioner has recommended the remedial action hereinafter provided. Having concluded that the recommended action is fair, just, and necessary to achieve effective enforcement of the law: *It is hereby ordered:*

I. All outstanding validated export licenses in which Export Elektrotechnischer Erzeugnisse or Albert Obermayr or the firm Electroexport appears or participates as purchaser, intermediate or ultimate consignee, or otherwise, are hereby revoked and shall be returned forthwith to the Bureau of Foreign Commerce for cancellation.

II. Henceforth, and for the duration of export controls, the said respondents be, and they hereby are suspended from and denied all privileges of participating, directly or indirectly, in any manner or capacity, in an exportation of any commodity or technical data from the United States to any foreign destination, including Canada, whether such exportation has heretofore or hereafter been completed. Without limitation of the generality of the foregoing denial of export privileges, participation in an exportation is deemed to include and prohibit participation by a respondent, directly or indirectly, in any manner or capacity, (a) as a party or as a representative of a party to any validated export license application, (b) in the obtaining or using of any validated or general export license or other export control documents, (c) in the receiving, ordering, buying, selling, using, or disposing in any foreign country of any commodities in whole or in part exported or to be exported from the United States, and (d) in storing, financing, forwarding, transporting, or other servicing of such exports from the United States.

III. Such denial of export privileges shall extend not only to the respondents, but also to any person, firm, corporation, or business organization with which they may be now or hereafter related by ownership, control, position of responsibility, or other connection in the conduct of trade in which may be involved exports from the United States or services connected therewith.

IV. Upon condition that the respondents comply in all respects with this order, and with all other requirements of the Export Control Act of 1949, as amended, and all regulations promulgated thereunder, commencing two years following the date hereof, they may engage in and enjoy all export privileges permitted by United States laws and regulations.

V. The privileges conditionally restored to any respondent under Part IV hereof, may be revoked summarily and without notice upon a finding by the Director of the Office of Export Supply, or such other official as may at that time be exercising the duties now exercised by him, that such respondent has, at any time following the date hereof, knowingly failed to comply with any of the conditions or provisions upon which or whereby, by Part IV hereof, he has been permitted to engage in any phase of the export business otherwise denied to him under Part II hereof, without prejudice to any other action which may be taken by reason of any such new or additional violation. In the event that it be so determined that a respondent has breached the conditions of Part IV hereof, the suspension and denial of his export privileges shall be deemed to commence on the day of such determination and shall continue thereafter for the duration of export controls.

VI. No person, firm, corporation, partnership, or other business organization, whether in the United States or elsewhere, during any time when any respondent is prohibited under the terms hereof from engaging in any activity within the scope of Part II hereof, shall, without prior disclosure to, and specific authorization from the Bureau of Foreign Commerce, directly or indirectly, in any manner or capacity, (a) apply for, obtain, or use any license, shipper's export declaration, bill of lading, or other export control document relating to any such prohibited activity, (b) order, receive, buy, use, dispose of, finance, transport or forward, any commodity on behalf of or in any association with such respondent, or (c) do any of the foregoing acts with respect to any commodity or exportation in which such respondent may have any interest of any kind or nature, direct or indirect.

Dated: June 1, 1956.

## Federal Maritime Board

[Docket Nos. S-57, S-60]

STATES MARINE CORP. AND ISBRANDTSEN CO., INC.

NOTICE OF ORAL ARGUMENT

There is currently pending before the Board appeals from rulings of the presiding officers in the above entitled proceedings concerning (1) demands for certain traffic data, (2) the question of whether information relating to applicants' foreign flag operations and affiliations is pertinent to and should be produced in proceedings before the Board under section 605 (c) of the Merchant Marine Act, 1956, and (3) demands for certain miscellaneous data.

The Board will hear oral argument on these matters at 10:00 a. m., e. d. s. t., on June 20, 1956, at Room 4519 New General Acounting Office Building, Fifth and G Streets NW., Washington, D. C.

Interested parties (including parties of record in the dockets cited above) desiring to be heard should communicate with the Secretary, Federal Maritime Board, before June 18, 1956, requesting time.

Dated: May 31, 1956.

By order of the Board.

[SEAL] GEO. A. VIEHMANN,
*Assistant Secretary.*

## DEPARTMENT OF THE INTERIOR

### Bureau of Land Management

[68928]

MONTANA

PARTIALLY REVOKING DEPARTMENTAL ORDER OF JUNE 22, 1912, CREATING POWER SITE RESERVE NO. 275

MAY 31, 1956.

By virtue of the authority vested in the Secretary of the Interior by section 13 of the act of June 25, 1910, c. 431 (36 Stat. 858; 43 U. S. C. 148), and pursuant to Departmental Order No. 2583, section 2.22 (a) of August 16, 1950, it is ordered as follows:

The departmental order of June 22, 1912, creating Power Site Reserve No. 275, is hereby revoked so far as it affects the following-described lands:

MONTANA—PRINCIPAL MERIDIAN

T. 36 N., R. 14 W.,
Sec. 5, lots 2, 3, 4, SW¼NE¼, S½NW¼, and SW¼;
Sec. 6, lots 1 and 2, and E½SE¼;
Sec. 7, lot 4, E½E½, SE¼SW¼, and SW¼SE¼;
Sec. 8, NW¼ and W½SW¼;
Sec. 18, lot 1, N½NE¼, and NE¼NW¼.
T. 37 N., R. 14 W.,
Sec. 30, SW¼SW¼;
Sec. 31, SW¼NE¼, NW¼, NE¼SW¼, and SE¼;
Sec. 32, NW¼SW¼ and S½S½;
Sec. 33, NE¼SW¼, S½SW¼, and SE¼.
T. 36 N., R. 15 W.,
Sec. 12, SE¼SW¼ and S½SE¼;
Sec. 13, N½, SW¼, and NW¼SE¼;
Sec. 14, SE¼NE¼ and SE¼;
Sec. 22, lots 3, 4, and NE¼SE¼;
Sec. 23, NE¼, NE¼NW¼, S½NW¼, and N½SW¼, SW¼SW¼, and NW¼SE¼;
Sec. 24, NW¼NW¼.
T. 37 N., R. 15 W.,
Sec. 25, SW¼, W½SE¼, and SE¼SE¼;
Sec. 26, NE¼SW¼, S½SW¼, and SE¼;
Sec. 27, S½SE¼;
Sec. 33, NE¼SE¼ and S½SE¼;
Sec. 34, NE¼, NE¼NW¼, S½NW¼, SW¼, and NW¼SE¼;
Sec. 35, N½NW¼ and SW¼NW¼;
Sec. 36, N½NE¼.

The areas described aggregate 5,068 acres.

The relased lands are within the boundaries of the Blackfeet Indian Reservation.

This order shall be known as Power Site Restoration No. 520.

DEPUE FALCK,
*Acting Director.*

## Bureau of Reclamation

OPAL PROJECT, WYOMING

ORDER OF REVOCATION

APRIL 25, 1956.

Pursuant to the authority delegated by Departmental Order No. 2765 of July 30, 1954 (19 F. R. 5004), I hereby revoke Departmental Order of July 8, 1941; insofar as said orders affect the following described lands; *Provided, however,* That such revocation shall not affect the withdrawal of any other lands by said order or affect any other orders withdrawing or reserving the lands hereinafter described.

SIXTH PRINCIPAL MERIDIAN, WYOMING

T. 22 N., R. 116 W.,
Sec. 7, Lots 2, 3, and 4;
Sec. 21, Lot 6 and SW¼SE¼;
Sec. 22, Lot 3;
Sec. 27, SE¼SW¼.
T. 22 N., R. 117 W.,
Sec. 1, Lots 5 and 6;
Sec. 2, Lots 5 and 6, S½NE¼ and N½SE¼.
T. 23 N., R. 117 W.,
Sec. 3, SE¼SW¼;
Sec. 35, S½NE¼, SE¼NW¼ and SE¼;
Sec. 36, Lots 5, 6, and 7.

The above areas aggregate 794.91 acres.

E. G. NIELSEN,
*Assistant Commissioner.*

[71774]

MAY 29, 1956.

I concur. The records of the Bureau of Land Management will be noted accordingly.

The released lands have been patented.

EDWARD WOOZLEY,
*Director,*
*Bureau of Land Management.*

[F. R. Doc. 56-4395; Filed, June 5, 1956; 8:45 a. m.]

COLORADO RIVER STORAGE PROJECT, UTAH

ORDER OF REVOCATION

APRIL 27, 1956.

Pursuant to the authority delegated by Departmental Order No. 2765 of July 30, 1954 (19 F. R. 5004), I hereby revoke Departmental Order of July 28, 1916, insofar as said order affects the following described lands; *Provided, however,* That such revocation shall not affect the withdrawal of any other lands by said order or affect any other orders withdrawing or reserving the lands hereinafter described:

UINTAH SPECIAL MERIDIAN, UTAH

T. 5 S., R. 3 E.,
Sec. 5, Lots 1, 2, 3 and 5;
Sec. 6, Lots 3 to 10, incl., SE¼NW¼, NE¼SW¼;
Sec. 7, Lots 1, 2, 3, 4, 6, 7, 8, 12, 13;
Sec. 8, Lot. 1.

The above areas aggregate 839.95 acres.

E. G. NIELSEN,
*Assistant Commissioner.*

[71819]

MAY 31, 1956.

I concur. The released lands have been patented without a reservation of minerals to the United States.

DEPUE FALCK,
*Acting Director,*
*Bureau of Land Management.*

WEBER BASIN PROJECT, UTAH

FIRST FORM RECLAMATION WITHDRAWAL

MAY 19, 1955.

Pursuant to the authority delegated by Departmental Order No. 2765 of July

30, 1954, I hereby withdraw the following described lands from public entry, under the first form of withdrawal, as provided by section 3 of the act of June 17, 1902 (32 Stat. 388):

SALT LAKE BASE AND MERIDIAN, UTAH

T. 7 N., R. 2 W.,
Sec. 5: E½SW¼ and SE¼ (unsurveyed);
Sec. 8: NE¼, E½W½ and SE¼ (excluding lots 1, 2 and 3, and SE¼SE¼) (unsurveyed).

The above areas contain approximately 567 acres.

E. G. NIELSEN,
*Acting Commissioner.*

[Utah 015377]

MAY 31, 1956.

I concur. The records of the Bureau of Land Management will be noted accordingly.

The lands shall be administered by the Bureau of Land Management until such time as they are needed for reclamation purposes.

DEPUE FALCK,
*Acting Director,*
*Bureau of Land Management.*

*Notice for Filing Objections to Order Withdrawing Public Lands for the Weber Basin Project, Utah*

Notice is hereby given that for a period of 30 days from the date of publication of this notice, persons having cause to object to the terms of the above order withdrawing certain public lands in the State of Utah for use in connection with the proposed Weber Basin Project may present their objections to the Secretary of the Interior. Such objections should be in writing, should be addressed to the Secretary of the Interior, and should be filed in duplicate in the Department of the Interior, Washington 25, D. C.

In case any objection is filed and the nature of the opposition is such as to warrant it, a public hearing will be held at a convenient time and place, which will be announced, where opponents to the order may state their views and where the proponents of the order can explain its purpose, intent, and extent. Should any objection be filed, notice of the determination by the Secretary as to whether the order should be rescinded, modified or let stand will be given to all interested parties of record and the general public.

E. G. NIELSEN,
*Acting Commissioner.*

## FEDERAL POWER COMMISSION

[Docket No. E-6685]

PACIFIC POWER & LIGHT CO.

NOTICE OF APPLICATION SEEKING AUTHORITY TO ISSUE STOCK

MAY 31, 1956.

Take notice that on May 25, 1956, an application was filed with the Federal Power Commission pursuant to section 204 of the Federal Power Act by Pacific Power & Light Company ("Applicant"), a corporation organized under the laws of the State of Maine and doing business in the States of Oregon, Washington, Wyoming, Montana and Idaho, with its principal business office at Portland, Oregon, seeking an order authorizing the issuance of 341,550 shares of its Common Stock of the par value of $6.50 per share. Applicant proposes to offer to the holders of its presently outstanding Common Stock of record at the close of business on July 11, 1956, the right to subscribe, at a price to be fixed by Applicant shortly before the date of offering, for an aggregate of 341,550 shares of its presently authorized but unissued Common Stock at the rate of one share of additional Common Stock for each ten shares of Applicant's Common Stock held of record. Such right to subscribe will be evidenced by transferable subscription warrants which will be expressed in terms of rights, and ten rights plus the full subscription price will be required to subscribe for each share of additional Common Stock. Applicant proposes publicly to invite competitive bids for the purchase from it, at the same price at which shares of the additional Common Stock are to be offered to stockholders, such of the additional Common Stock as shall not be subscribed for by Warrant holders.

A person desiring to be heard or to make any protest with reference to said application should on or before the 21st day of June 1956, file with the Federal Power Commission, Washington 25, D. C., a petition or protest in accordance with the Commission's rules of practice and procedure. The application is on file and available for public inspection.

[SEAL] LEON M. FUQUAY,
*Secretary.*

[F. R. Doc. 56-4416; Filed, June 5, 1956; 8:51 a. m.]

[Docket No. E-6686]

SOUTHERN NEVADA POWER CO.

NOTICE OF APPLICATION SEEKING AUTHORITY TO ISSUE STOCK

MAY 31, 1956.

Take notice that on May 28, 1956, an application was filed with the Federal Power Commission pursuant to section 204 of the Federal Power Act by Southern Nevada Power Co. ("Applicant"), a corporation organized under the laws of the State of Nevada and doing business in said State, with its principal office at Las Vegas, Nevada, seeking an order authorizing the issuance and sale of 175,000 shares of its Common Stock, par value $1.00 per share, and to exempt such issuance and sale from the Commission's competitive bidding requirements. Applicant proposes to issue said stock on or about July 3, 1956, and to sell said stock to a group of underwriters represented by William R. Staats & Co. of Los Angeles, California.

Any person desiring to be heard or to make any protest with reference to said application should on or before the 21st day of June 1956, file with the Federal Power Commission, Washington 25, D. C., a petition or protest in accordance with the Commission's rules of practice and procedure. The application is on file and available for public inspection.

[SEAL] LEON M. FUQUAY,
*Secretary.*

[F. R. Doc. 56-4417; Filed, June 5, 1956; 8:51 a. m.]

[Docket No. G-9225, etc.]

ARKANSAS FUEL OIL CORP. ET AL.

NOTICE OF APPLICATIONS AND DATE OF HEARING

MAY 29, 1956.

In the matter of Arkansas Fuel Oil Corporation, Docket No. G-9225 and G-9789; Austin E. Stewart, Docket No. G-4119 and G-9845; Arkansas Fuel Oil Corporation and Stanolind Oil and Gas Company, Docket No. G-5714 and G-9846.

On January 3, 1956, Arkansas Fuel Oil Corporation (Arkansas Fuel) filed an application at Docket No. G-9846 pursuant to section 7 (b) of the Natural Gas Act to abandon service to Arkansas Louisiana Gas Company (Arkansas Louisiana) from three gas units located in the Willow Springs Field, Gregg County, Texas. The application at Docket No. G-9846 was amended on April 9, 1956. The three units involved were covered by previous filings of Arkansas Fuel as follows:

*Docket No.; Gas Unit; and Status*

G-2712, P. D. Harrison C-1 (one of several sales); Certificate issued 12-31-54.
G-6872, J. C. McKinley, et al., Unit E; Certificate issued 6-27-55.
G-9225, Taylor W. Lee "B"; Temporary certificate issued 9-12-55. No permanent certificate.

In the amendment of April 9, 1956, at Docket No. G-9846, Arkansas Fuel included Stanolind Oil and Gas Company's request to abandon service from the above three units to Arkansas Louisiana. Said amendment includes a letter from Stanolind authorizing Arkansas Fuel to file for the abandonment of Stanolind's sales previously applied for by Stanolind at Docket No. G-5714.

On January 3, 1956, Austin E. Stewart (Stewart) filed an application at Docket No. G-9845 to abandon service to Arkansas Louisiana with respect to his share of the gas produced from the aforementioned P. D. Harrison C-1 unit pursuant to section 7 (b) of the act. The service proposed to be abandoned by Stewart was previously applied for at Docket No. G-4119.

On December 19, 1955, Arkansas Fuel, as Operator, filed an application for a certificate of public convenience and necessity at Docket No. G-9789 to sell natural gas to Texas Eastern Transmission Corporation from the F. K. Lathrop Gas Unit, Willow Springs Field, Gregg County, Texas, pursuant to a contract dated December 9, 1955.

On April 9, 1956, Arkansas Fuel amended its application at Docket No. G-9789 to bring within the scope of said application the three units proposed to be abandoned at Docket No. G-9846. By an amendatory agreement dated March 29, 1956, Arkansas Fuel rededicates the said three units to the December 9, 1955, contract with Texas Eastern.

Arkansas Fuel in its original abandonment application at Docket No. G-9746 states that the present purchaser, Arkansas Louisiana, apparently does not need the gas from the three units involved. Arkansas Fuel cites that Arkansas Louisiana is selling gas to Texas Eastern in nearby North Lansing Field, Harrison County, Texas, in addition to selling gas to other purchasers in the north Louisiana area. In this connection, Arkansas Louisiana has applied at Docket No. G-9820 to sell so-called "excess gas" to Texas Eastern in the North Lansing Field in the amount of 15,000 Mcf per day on a firm basis for a period of 15 years. Also, in Docket No. G-9739, Arkansas Louisiana applied to sell so-called "excess gas" to Tennessee Gas Transmission Company in the amount of 20,000 Mcf per day on a firm basis and up to 30,000 Mcf per day additional on an interruptible basis for a period of three years in the Carthage Field, Texas. Furthermore, Arkansas Louisiana is taking less than the allowables as established by the Railroad Commission of Texas from the three units while other pipeline purchasers are taking their allowables from the same reservoir, causing economic loss to Arkansas Fuel, its lessors and royalty owners. Texas Eastern has agreed to take up to the established allowables, thus increasing the daily supply of gas to the general public to an amount greater than that which is presently being made available from the subject three gas units. In the amendment filed April 9, 1956, at Docket No. G-9746, Arkansas Fuel states that since the filing of the original abandonment application, Arkansas Louisiana, during February 1956, drastically reduced its daily purchase of gas from each producing horizon in the three subject gas units to such an extent that the daily gas production was considerably below the established allowables.

By letter filed April 27, 1956, Arkansas Louisiana stated it will not oppose the abandonment of service from the three subject units.

These matters should be heard on a consolidated record and disposed of as promptly as possible under the applicable rules and regulations and to that end:

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing will be held on June 29, 1956, at 9:30 a. m., e. d. s. t., in a hearing room of the Federal Power Commission, 441 G Street NW., Washington, D. C., concerning the matters involved in and the issues presented by such applications: *Provided, however,* That the Commission may, after a non-contested hearing, dispose of the proceedings pursuant to the provisions of § 1.30 (c) (1) or (2) of the Commission's rules of practice and procedure. Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for applicants to appear or be represented at the hearing.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before June 14, 1956. Failure of any party to appear at and participate in the hearing shall be construed as waiver of and concurrence in omission herein of the intermediate decision procedure in cases where a request therefor is made.

[SEAL] LEON M. FUQUAY,
*Secretary.*

[Project No. 2201]

PACIFIC NORTHERN TIMBER CO.

NOTICE OF APPLICATION FOR PRELIMINARY PERMIT

MAY 31, 1956.

Public notice is hereby given that application has been filed under the Federal Power Act (16 U. S. C. 791a–825r) by Pacific Northern Timber Company of Wrangell, Alaska, for preliminary permit for proposed water power Project No. 2201 to be located on Virginia Lake and Mill Creek, a tributary to Eastern Passage, in the general region of the City of Wrangell, about 6 miles east of the City on the Alaskan mainland in the First Judicial Division, Territory of Alaska, affecting lands of the United States within the Tongass National Forest. The proposed project would consist of a rock fill dam 50 feet high with crest length of 570 feet at elevation 130 feet at the outlet of Virginia Lake, providing 35,000 acre-feet of power storage; 2,210 feet of open flume; 1,500 feet of pipe conduit; a powerhouse at tidewater with installed capacity of approximately 4,600 horsepower. The energy generated would be utilized by the applicant in connection with the operation of a sawmill. The preliminary permit, if issued, shall be for the sole purpose of maintaining priority of application for a license under the terms of the Federal Power Act for the proposed project.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure of the Commission (18 CFR 1.8 or 1.10). The last day upon which protests or petitions may be filed is July 23, 1956. The application is on file with the Commission for public inspection.

[SEAL] LEON M. FUQUAY,
*Secretary.*

## SECURITIES AND EXCHANGE COMMISSION

[File No. 70-2973]

ELECTRIC ENERGY, INC., ET AL.

SECOND SUPPLEMENTAL ORDER RELEASING JURISDICTION OVER ADDITIONAL FEES AND EXPENSES

MAY 28, 1956.

In the matter of Electric Energy, Inc., Middle South Utilities, Inc., Union Elec-

tric Company of Missouri, Illinois Power Company, Kentucky Utilities Company; File No. 70–2973.

The Commission having by its Memorandum Opinion and Order dated January 30, 1953 (Holding Company Act Release No. 11689), granted and permitted to become effective an application-declaration regarding, among other things, the issue and sale by Electric Energy, Inc., of $65,000,000 principal amount of 3¾ percent First Mortgage Sinking Fund Bonds, subject to reservation of jurisdiction over fees and expenses incurred or to be incurred in connection with the proposed transactions; and

The Commission having by its order of February 10, 1954 (Holding Company Act Release No. 12353), released jurisdiction over fees and expenses incurred up to and including the initial closing on said bonds, but having reserved jurisdiction as to fees and expenses in connection with secondary closings on said bonds; and

Electric Energy, Inc., having now filed an amendment regarding fees and expenses incurred with respect to said secondary closings on said bonds, said fees and expenses being estimated as follows:

| | Fees and charges | Disbursements |
|---|---|---|
| Cahill, Gordon, Reindel & Ohl, general counsel to Electric Energy, Inc. | $4,500.00 | $589.31 |
| Willkie Owen Farr Gallagher & Walton, counsel to bond purchasers | 6,350.00 | 168.97 |
| Mayer, Friedlich, Spiess, Tierney, Brown & Platt, Illinois counsel to Electric Energy, Inc. | 1,000.00 | 8.32 |
| Ogden, Galphin & Abell, Kentucky counsel to Electric Energy, Inc. | 1,500.00 | 100.00 |
| St. Louis Union Trust Co., trustee under mortgage | 16,750.00 | 427.25 |
| Total | 30,100.00 | 1,293.85 |

It appearing to the Commission that said fees and expenses are not unreasonable and that the jurisdiction heretofore reserved with respect thereto should be released:

*It is ordered*, That the jurisdiction heretofore reserved over the fees and expenses incurred in connection with the secondary closings on said bonds be and the same hereby is released, this order to be effective forthwith upon the issuance thereof and to be subject to the terms and conditions set forth in Rule U-24.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

---

AXE-HOUGHTON FUND A, INC., ET AL.

NOTICE OF FILING OF APPLICATION FOR ORDER EXEMPTING TRANSACTIONS BETWEEN AFFILIATES

MAY 31, 1956.

In the matter of Axe-Houghton Fund A, Inc., Axe-Houghton Fund B, Inc., and Ultrasonic Corporation, File No. 812–1010.

Notice is hereby given that Axe-Houghton Fund A, Inc. ("Fund A") and Axe-Houghton Fund B, Inc. ("Fund B"), both registered as open-end diversified investment companies under the Investment Company Act of 1940 ("act"), and Ultrasonic Corporation ("Ultrasonic"), a corporation engaged principally in engineering and manufacturing in the electronics field have filed a joint application for an order pursuant to section 17 (b) of the act exempting certain purchase and sale transactions hereinafter described from the prohibitions of section 17 (a) of the act.

Fund A and Fund B each have directors and officers in common with the other and each is managed by E. W. Axe & Co. pursuant to an investment advisory and management contract with that firm. Fund A owns 115,000 shares, or approximately 7.2 percent of the 1,601,451 total outstanding shares, of common stock of Ultrasonic, and Fund B owns 150,000 shares, or approximately 9.4 percent of the total outstanding shares, of common stock of Ultrasonic. By reason of these stockholdings, Ultrasonic is an affiliated person of Fund A and Fund B under the act.

Section 17 (a) of the act prohibits an affiliated person of a registered investment company from selling to or purchasing from such registered investment company any securities or property, subject to certain exceptions not pertinent here. The Commission upon application pursuant to section 17 (b) may grant an exemption from the provisions of section 17 (a) if it finds that the terms of the proposed transaction, including the consideration to be paid or received, are reasonable and fair and do not involve overreaching on the part of any person concerned, that the proposed transaction is consistent with the policy of each registered investment company concerned, as recited in its registration statement and reports filed under the act, and is consistent with the general purposes of the act.

In addition to their common stockholdings in Ultrasonic, Fund A owns $250,000 of 6 percent Income Convertible Bonds due 1963 of Ultrasonic, secured by a second mortgage on real estate ("second mortgage bonds"), and Fund B owns $50,000 of said second mortgage bonds. Prior to the transactions described below, Ultrasonic also had outstanding an additional $200,000 of second mortgage bonds which were owned by Value Line Fund, Inc. ("Value Line"), also a registered open-end investment company, and $102,500 of 6 percent Income Convertible Debentures due 1963 ("old debentures"). In addition, Ultrasonic has outstanding $375,000 of first mortgage notes due serially until 1958.

Ultrasonic has been experiencing financial stringency which made it necessary for it to obtain additional funds in order to preserve its organization and operations. Pursuant to a contract dated May 11, 1956, between Ultrasonic, Fund A, Fund B, Value Line and Bear, Stearns & Co. ("Bear Stearns"), Ultrasonic has agreed to issue and sell up to an aggregate of $1,578,000 principal amount of new 6 percent Debentures dated as of May 1, 1956, and due May 1, 1961 ("new debentures"), and warrants to purchase up to an aggregate of 789,000 shares of its common stock. The warrants are to be issued in the ratio of sufficient warrants to purchase 500 shares of common stock for each $1,000 principal amount of new debentures, and shall be exercisable for a period of five years at a price of $2 per share for the first two years, $2.50 per share in the third year, and $3 per share in the last two years. Of the debentures and warrants to be sold, Bear Stearns has agreed to purchase (both for its own account or for the accounts of others) $1,000,000 principal amount of debentures and warrants to purchase 500,000 shares of common stock for a cash consideration of $1,000,000, plus accrued interest from May 1, 1956, to the date of payment and delivery. Value Line has agreed to exchange its holdings of $200,000 of second mortgage bonds, together with its claim to unpaid interest thereon of $31,000 for $231,000 of new debentures and warrants to purchase 115,500 shares of common stock. If the order of exemption requested by applicants herein is issued, Fund A will exchange its $250,000 of second mortgage bonds, with rights to unpaid interest of approximately $39,000, for $289,000 of new debentures and warrants to purchase 144,500 shares of common stock, and Fund B will exchange its $50,000 of second mortgage bonds, with rights to unpaid interest of approximately $8,000 for $58,000 of new debentures and warrants to purchase 29,000 shares of common stock. The contract also provides that Ultrasonic will immediately call for redemption at a price of approximately $115,000, all of its outstanding old debentures, the terms of which would not permit the issuance of the new debentures.

In addition to the above, Bear Stearns is to purchase from Ultrasonic for $2,500 cash, additional warrants for 50,000 shares of common stock. For its services in arranging the above transaction, Bear Stearns is to receive from Ultrasonic a cash commission of $35,000.

In general, it is the policy of both Fund A and Fund B to offer investors a complete or balanced investment program by investing in bonds, preferred stock and common stocks in such proportions as are deemed best adapted to economic conditions. Fund A and Fund B purchased their holdings of second mortgage bonds as part of a private placement in May 1953, at a time when Ultrasonic was showing operating profits and when in the opinion of the Funds' managers, the second mortgage bonds were reasonably well secured and also offered a possibility of appreciation through their conversion privilege. Fund A and Fund B acquired their holdings of Ultrasonic common stock in October 1955 as part of a purchase from the company of 680,000 shares at $1 per share made by Fund A, and Fund B and certain other persons, practically all of whom were affiliates, or affiliates of affiliates, of Funds A and B. The application states that this purchase saved Ultrasonic from imminent bankruptcy, and that since October 1955 Ultrasonic has been under new management and steps have been taken to improve its financial position. However, monthly operating losses with a consequent drain on cash resources have continued. Applicants state that the money obtained from the instant financing, amounting to about $850,000 after payment of commission to Bear Stearns and redemption of the old debentures, will permit Ultrasonic to pay up its trade vendors and all, or most, other pressing claims to a current basis and leave it with a substantial cash reserve which will carry it through an interim period during which Ultrasonic believes it can develop profitable business.

The application states that neither Bear Stearns nor Value Line is an affiliated persons of any of the applicants herein or of any affiliated person of any of said applicants, and that the terms of the above-mentioned contract were developed by arm's-length bargaining between the applicants, on the one hand, and Bear Stearns and Value Line, on the other. One of the considerations reflected in the bargaining was the unwillingness of Bear Stearns to purchase the new debentures if Ultrasonic would have outstanding any debt claims senior to the new debentures other than the outstanding first mortgage bonds and bank loans. Accordingly, Value Line agreed to accept new debentures and warrants in exchange for its holdings of second mortgage bonds, and Fund A and Fund B have also agreed to accept new debentures and warrants for their holdings of second mortgage bonds, on the same basis as Value Line, if the order requested herein is granted.

Applicants state that the prompt effectuation of the foregoing financing program was vital to the preservation of Ultrasonic's business in a healthy condition, and that accordingly it is planned to go forward with all parts of said program except for the Fund A and Fund B exchanges. Applicants also state that granting of the exemption order is important to the preservation of the best interests of all parties to the program and that the proposed transactions are consistent with the investment policies of the two Funds and consistent with the purposes of the Act.

Notice is further given that any interested person may, not later than June 15, 1956, at 5:30 p. m., submit to the Commission in writing any facts bearing upon the desirability of a hearing on the matter and may request that a hearing be held, such request stating the nature of his interest, the reasons for such request and the issues, if any, of fact or law proposed to be controverted, or he may request that he be notified if the Commission should order a hearing thereon. Any such communication or request should be addressed: Secretary, Securities and Exchange Commission, Washington 25, D. C. At any time after said date, the application may be granted as provided in Rule N-5 of the rules and regulations promulgated under the act.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

## INTERSTATE COMMERCE COMMISSION

[Notice 115]

MOTOR CARRIER APPLICATIONS

JUNE 1, 1956.

Protests consisting of an original and two copies to the granting of an application must be filed with the Commission within 30 days from the date of publication of this notice in the FEDERAL REGISTER and a copy of such protest served on the applicant. Each protest must clearly state the name and street number, city and state address of each protestant on behalf of whom the protest is filed (49 CFR 1.240 and 1.241). Failure to seasonably file a protest will be construed as a waiver of opposition and participation in the proceeding unless an oral hearing is held. In addition to other requirements of Rule 40 of the general rules of practice of the Commission (39 CFR 1.40), protests shall include a request for a public hearing, if one is desired, and shall specify with particularity the facts, matters, and things relied upon; but shall not include issues or allegations phrased generally. Protests containing general allegations may be rejected. Requests for an oral hearing must be supported by an explanation as to why the evidence cannot be submitted in forms of affidavits. Any interested person, not a protestant, desiring to receive notice of the time and place of any hearing, pre-hearing conference, taking of depositions, or other proceeding shall notify the Commission by letter or telegram within 30 days of publication of this notice in the FEDERAL REGISTER. Except when circumstances require immediate action, an application for approval, under section 210a (b) of the act, of the temporary operations of Motor Carrier properties sought to be acquired in an application under section 5 (2) will not be disposed of sooner than 10 days from the date of publication of this notice in the FEDERAL REGISTER. If a protest is received prior to action being taken, it will be considered.

APPLICATIONS FOR MOTOR CARRIERS OF PROPERTY

No. MC 964 Sub 7, filed May 22, 1956, ORVILLE GRAGG, doing business as GRAGG TRUCK LINE, Valley Falls, Kans. Applicant's attorney: J. Wm. Townsend, 204–206 Central Building, Topeka, Kans. For authority to operate as a *common carrier*, over irregular routes, transporting: *Farm wagons, trailer beds and component parts thereof*, in truck load lots, between Valley Falls, Kans., on the one hand, and, on the other, points in Missouri, Iowa, Ohio, Nebraska, Kentucky, Illinois, Indiana, Wisconsin, Michigan, Minnesota, North Dakota, South Dakota, Montana, Arkansas, Oklahoma, Texas, and Colorado.

No. MC 3057 Sub 3, filed May 22, 1956, WALTON HAULING & WAREHOUSE CORP., 609–611 West 46th Street, New York 36, N. Y. Applicant's representative: William D. Traub, 60 East 42d Street, New York 17, N. Y. For authority to operate as a *common carrier*, over irregular routes, transporting: *Theatrical equipment and effects*, including electrical equipment and effects, props, scenery, musical instruments, trunks, and wardrobes, for use in stage, radio, television or motion picture productions, between points in New York, New Jersey, and Connecticut within 75 miles of New York, N. Y., including New York, N. Y., on the one hand, and, on the other, points in Connecticut, Massachusetts, Rhode Island, New York, New Jersey, Pennsylvania, Delaware, Maryland, Virginia, and the District of Columbia within 250 miles of Columbus Circle, New York, N. Y.

NOTE: Applicant is authorized under Certificate No. MC 3057 to transport the above-described commodities between points in New York, New Jersey, and Connecticut within 75 miles of New York, N. Y., including New York, N. Y.

No. MC 3261 Sub 20, filed May 22, 1956, KRAMER BROS. FREIGHT LINES, INC., 4195 Central Avenue, Detroit 10, Mich. Applicant's attorney: Walter N. Bieneman, Guardian Building, Detroit 26, Mich. For authority to operate as a *common carrier*, transporting: *General commodities*, including those in bulk, but excluding those of unusual value, Class A and B explosives, livestock, household goods as defined by the Commission, and those requiring special equipment, serving the Chrysler Corporation Plant located on Ohio Highway 82 (near Macedonia, Ohio), in Twinsburg Township, Summit County, Ohio, as an off-route point in connection with applicant's regular route operations between Cleveland and Salem over Ohio Highway 14. Applicant is authorized to conduct operations in Illinois, Ohio, Michigan, Pennsylvania, New York, Maryland, New Jersey, and the District of Columbia.

No. MC 3535 Sub 3, filed May 21, 1956, ATLAS GREENFIELD, doing business as LIBERTY TRANSFER AND STORAGE CO., 910 East Maxwell Avenue, Evansville, Ind. Applicant's attorney: Fred I. King, 1008–1009 Odd Fellow Building, Indianapolis, Ind. For authority to operate as a *common carrier*, over irregular routes, transporting: *Wood Creosoted telephone poles*, from Louisville, Ky., to points in Indiana on and south of U. S. Highway 40.

No. MC 28536 Sub 7, filed May 21, 1956, FOX & GINN, INC., 12 Howard Lane, Bangor, Maine. Applicant's attorney: Mary E. Kelley, 84 State Street, Boston 9, Mass. For authority to operate as a *common carrier*, over irregular routes, transporting: *New furniture* (uncrated) between points in Maine, on the one hand, and, on the other, points in New Hampshire, Vermont, Massachusetts, Rhode Island, Connecticut, New York, New Jersey and Pennsylvania. Applicant is authorized to conduct operations in Massachusetts, Maine, and New Hampshire.

No. MC 29780 Sub 5, filed May 24, 1956, JOE A. HARRIS, doing business as HARRIS TRUCK LINE, 805 South Second Street, Raton, N. Mex. Applicant's attorney: Harold O. Waggoner, Simms Building, P. O. Box 1035, Albuquerque, N. Mex. For authority to operate as

a *common carrier*, over regular routes, transporting: *General commodities*, except those of unusual value, livestock, commodities in bulk, and commodities requiring special equipment, serving the site of the Glenn L. Martin Company plant located north of Colorado Highway 75, opposite the community of Kassler (Waterton), Colo., in connection with applicant's regular-route operations between (1) Denver, Colo., and Clayton, N. Mex., and (2) between Trinidad, Colo., and Tucumcari, N. Mex. Applicant is authorized to conduct operations in Colorado and New Mexico.

No. MC 29988 Sub 58, filed May 25, 1956, DENVER-CHICAGO TRUCKING COMPANY, INC., 2501 Blake Street, Denver, Colo. Applicant's attorney: Jack Goodman, 39 South LaSalle Street, Chicago 3, Ill. For authority to operate as a *common carrier*, over regular routes, transporting: *General commodities*, except those of unusual value, and except Class A and B explosives, household goods, as defined by the Commission, commodities in bulk, and commodities requiring special equipment, serving the site of the Glenn L. Martin Company plant located north of Colorado Highway 75, opposite the community of Kassler (Waterton), Colo., as an off-route point in connection with applicant's regular-route operations between Denver, Colo., and Colorado Springs, Colo., over U. S. Highway 85. Applicant is authorized to conduct operations in Colorado, Washington, Wyoming, Utah, Oregon, Missouri, Illinois, and Kansas.

No. MC 30451 Sub 14, filed May 25, 1956, THE LUPER TRANSPORTATION COMPANY, 404 East Twenty-first, Wichita 2, Kans. Applicant's attorney: James F. Miller, 500 Board of Trade, 10th and Wyandotte, Kansas City 6, Mo. For authority to operate as a *contract carrier*, over irregular routes, transporting: *Meats, Meat products*, and *Meat By-Products*, as defined by the Commission, (1) from Arkansas City, Kans., to points in Oklahoma, Texas, and New Mexico, (2) from Wichita, Kans., to points in New Mexico bounded by a line beginning at Alamogordo, N. Mex., thence in a southerly direction along U. S. Highway 54 to the Texas-New Mexico State line, thence in a westerly direction along the Texas-New Mexico State line to the junction of U. S. Highway 80, thence in a northerly direction along U. S. Highway 80 to the junction of U. S. Highway 70, thence in a northeasterly direction along U. S. Highway 70 to Alamogordo, N. Mex., including points on the indicated portions of the highways specified, and *empty containers or other incidental facilities* used in transporting the commodities specified on return. Applicant is authorized to conduct operations in Kansas, New Mexico, Texas, and Oklahoma.

No. MC 33641 Sub 25, filed May 23, 1956, INTERSTATE MOTOR LINES, INC., 235 West Third South, Salt Lake City 1, Utah. Applicant's attorney: Bertram S. Silver, 100 Bush Street, San Francisco 4, Calif. For authority to operate as a *common carrier*, over irregular routes, transporting: *General commodities, including Class A and B explosives*, but excluding those of unusual value, household goods as defined by the Commission, and commodities in bulk, between Denver, Colo., and the site of the Glenn L. Martin Company plant located north of Colorado Highway 75, opposite the community of Kassler (Waterton), Colo. Applicant is authorized to conduct operations in Colorado, Utah, and Nebraska.

No. MC 35396 Sub 16, filed May 21, 1956, ARNOLD LIGON, doing business as ARNOLD LIGON TRUCK LINE, Box 429, Madisonville, Ky. Applicant's attorney: Ernest A. Brooks II, 1310 Ambassador Building, St. Louis 1, Mo. For authority to operate as a *common carrier*, over irregular routes, transporting: *Commodities*, the transportation of which because of size or weight requires use of special equipment or handling, *related machinery parts* and *related contractors' materials and supplies* when their transportation is incidental to the transportation of commodities which by reason of size or weight require special equipment or handling, except prefabricated buildings, and except oilfield commodities as described by the Commission, between points in Kentucky on and west of U. S. Highway 51E beginning at Louisville, Ky., and extending in a southerly direction through Bardstown, Hodgenville, Glasgow and Scottsville to the Kentucky-Tennessee State Line, on the one hand, and, on the other, points in Louisiana. Applicant is authorized to conduct operations in Kentucky, Indiana, Ohio, Pennsylvania, West Virginia, Tennessee, New York, and New Jersey.

No. MC 42487 Sub 312, filed, May 7, 1956, CONSOLIDATED FREIGHTWAYS, INC., 2029 Northwest Quimby Street, Portland, Oreg. Applicant's attorney: Donald A. Schafer, Public Service Building, Portland 4, Oreg. For authority to operate as a *common carrier*, over irregular routes, transporting: *General commodities*, except liquid petroleum products, in bulk, in tank vehicles, serving the Pelton Damsite (located on the Deschutes River approximately three miles off U. S. Highway 26 (formerly Oregon Highway 50), between Madras and Warm Springs, Oreg.) and points within five miles thereof, as off-route points in connection with carrier's regular route operations between Portland, Oreg., and Klamath Falls, Oreg., over U. S. Highways 26 (formerly Oregon Highway 50), and 97. Applicant is authorized to conduct operations in California, Idaho, Minnesota, Montana, Nevada, North Dakota, Oregon, and Washington.

No. MC 52657 Sub 487, filed May 24, 1956, ARCO AUTO CARRIERS, INC., 91st Street and Perry Avenue, Chicago 20, Ill. Applicant's attorney: Glenn W. Stephens, 121 West Doty Street, Madison, Wis. For authority to operate as a *common carrier*, over irregular routes, transporting: *Communication shelters*, equipped or unequipped, from Hanover, Pa., and Pikesville, Md., to points in the United States.

No. MC 52657 Sub 488, filed May 24, 1956, ARCO AUTO CARRIERS, INC., 91st Street and Perry Avenue, Chicago 20, Ill. Applicant's attorney: Glenn W. Stephens, 121 West Doty Street, Madison, Wis. For authority to operate as a *common carrier*, over irregular routes, transporting: *Trailers*, other than those designed to be drawn by passenger automobiles, in initial truckaway and driveaway service, (1) from Camp Hill, and Hanover, Pa., to points in the United States, (2) *Tractors*, in secondary driveaway service, only when drawing trailers moving in initial driveaway service, as described above, from Camp Hill, and Hanover, Pa., to points in Alabama, Arizona, Arkansas, California, Colorado, Georgia, Idaho, Kansas, Louisiana, Maine, Mississippi, Montana, Nevada, New Hampshire, New Mexico, North Dakota, Oklahoma, Oregon, South Carolina, Tennessee, Texas, Utah, Vermont, Washington, Wyoming, and the District of Columbia, and (3) bodies, from Hanover, Pa., to points in the United States. Applicant is authorized to conduct operations throughout the United States.

No. MC 55848 Sub 32, filed May 22, 1956, HUCKABEE TRANSPORT CORP., P. O. Box 479, Columbia, S. C. Applicant's attorney: A. Alvis Layne, Jr., Pennsylvania Building, Washington 4, D. C. For authority to operate as a *common carrier*, over a regular route, transporting: *General commodities*, used by the Atomic Energy Commission, including Class A and B explosives and those of unusual value, but excluding household goods as defined by the Commission, commodities in bulk, and those requiring special equipment due to size or weight, between the Savannah River Plant of the Atomic Energy Commission, at Dunbarton, S. C., and the site of the Atomic Energy Plant at Oak Ridge, Tenn., from the Savannah River Plant over South Carolina Highway 125 to junction U. S. Highway 25, thence over U. S. Highway 25 to junction South Carolina Highway 19 (also from said plant over South Carolina Highway 19), thence over U. S. Highway 25 to junction U. S. Highway 25W west of Newport, Tenn., thence over U. S. Highway 25W through Knoxville, Tenn., to Clinton, Tenn., thence over Tennessee Highway 61 to Dossett, Tenn., and thence over an unnumbered highway to Oak Ridge (also over an unnumbered highway from Knoxville via Byington, Tenn., to Oak Ridge), and return over the same route serving no intermediate points. Applicant is authorized to conduct operations in South Carolina, North Carolina Georgia and Tennessee.

NOTE: Applicant is authorized in MC 55848 Sub 30 to transport compressed inflammable gases, in bulk, in Government-owned tube trailers, and empty tube trailers, and classified and secret materials between the same two points mentioned above.

No. MC 58948 Sub 76, filed May 18, 1956, UNION TRANSFER COMPANY, doing business as UNION FREIGHTWAYS, a corporation, 720 Leavenworth Street, Omaha, Nebr. For authority to operate as a *common carrier*, over irregular routes, transporting: *General commodities*, except bank bills, coin, currency, deeds, drafts, notes, postage stamps, precious metals or articles manufactured therefrom, precious stones,

FOURTH SECTION APPLICATIONS FOR RELIEF

JUNE 1, 1956.

Protests to the granting of an application must be prepared in accordance with Rule 40 of the general rules of practice (49 CFR 1.40) and filed within 15 days from the date of publication of this notice in the FEDERAL REGISTER.

LONG-AND-SHORT HAUL

FSA No. 32158: *Veneer—North Carolina to southwestern and western trunk-line territories.* Filed by R. E. Boyle, Jr., Agent, for interested rail carriers. Rates on veneer, unfigured, carloads, as more fully described in the application, from Conway and Plymouth, N. C., to specified points in southwestern and western trunk-line territories.

Grounds for relief: Carrier competition, grouping and circuity.

Tariffs: Supplement 72 to Agent Spaninger's I. C. C. 1269; Supplement 144 to Agent Spaninger's I. C. C. 1101.

FSA No. 32159: *All freight—Illinois, Iowa, and Wisconsin to Syracuse, N. Y., and Reading, Pa.* Filed by W. J. Prueter, Agent, for interested rail carriers. Rates on freight, all kinds, mixed carloads from origins in Illinois, Iowa and Wisconsin, named in Agent Prueter's tariff listed below to Syracuse, N. Y., also from Joliet, Ill., to Reading, Pa.

Grounds for relief: Motor-truck competition and circuity.

Tariff: Agent Prueter's tariff I. C. C. A–4158.

FSA No. 32160: *Barite—Arkansas and Missouri to Torrington, Wyo.* Filed by F. C. Kratzmeir, Agent, for interested rail carriers. Rates on barite (barytes), ground, carloads, from Butterfield, Malvern, National, Ark., Fountain Farm and Mineral Point, Mo., to South Torrington, Wyo.

Grounds for relief: Short-line distance formula and circuity.

Tariff: Supplement 51 to Agent Kratzmeir's I. C. C. 4092.

FSA No. 32161: *Aluminum billets—Badin, N. C., to eastern and northern points.* Filed by R. E. Boyle, Jr., Agent, for interested rail carriers. Rates on aluminum billets, ingots, pigs, or slabs, carloads, from Badin, N. C., to Cincinnati, Ohio and specified points in Connecticut, Delaware, Illinois, Indiana, Maryland, Michigan, Missouri, New Jersey, New York, Ohio, Pennsylvania, and West Virginia.

Grounds for relief: Motor-truck competition and circuity.

Tariffs: Supplement 13 to Agent Spaninger's I. C. C. 1509; Supplement 27 to Agent Spaninger's I. C. C. 1473.

FSA No. 32162: *Cement—Giant, S. C., to Reading, Pa., and group.* Filed by R. E. Boyle, Jr., Agent, for interested rail carriers. Rates on cement, hydraulic, natural or portland, straight or mixed carloads from Giant, S. C., to Reading, Pa., and points grouped therewith as taking Reading rates.

Grounds for relief: Short-line distance formula and circuity.

Tariff: Supplement 43 to Agent Spaninger's I. C. C. 1173.

FSA No. 32163: *All freight—Cleveland, Ohio, to Charlotte N. C.* Filed by H. R. Hinsch, Agent, for interested rail carriers. Rates on freight, all kinds, mixed carloads from Cleveland, Ohio, to Charlotte, N. C.

Grounds for relief: Motor-truck competition and circuity.

Tariff: Supplement 4 to Agent Hinsch's I. C. C. 4685.

FSA No. 32164: *Rail-water, water-rail, and rail-water-rail rates between southern and eastern points.* Filed by R. E. Boyle, Jr., Agent, for interested rail and water carriers. Rates on various commodities moving on rail-water or water-rail commodity rates, and on rail-water-rail commodity rates through Baltimore, Md., (1) between specified points in southern territory, on the one hand, and Baltimore, Md., on the other, via rail-water or water-rail routes, and (2) between specified points in southern territory, on the one hand, and specified points in eastern territory, on the other, via rail-water-rail routes through Baltimore, Md.

Grounds for relief: Competition with all-rail carriers.

FSA No. 32165: *Water-rail, rail-water, and rail-water-rail rates, from and to eastern points.* Filed by R. E. Boyle, Jr., Agent, for interested rail and water carriers. Rates on various commodities moving on water-rail, rail-water, and rail-water-rail commodity rates, as the case may be, from and to the points hereinafter described (a) from or to Baltimore, Md., on the one hand, and to and from specified points in southern territory, on the other, and, (b) from Greensboro, N. C., to Buffalo, N. Y., and Pittsburgh, Pa., via Baltimore, Md.

Grounds for relief: Competition with all-rail carriers.

FSA No. 32166: *Prefabricated houses—Lafayette, Ind., to Montana.* Filed by W. J. Prueter, Agent, for interested rail carriers. Rates on portable or prefabricated houses or buildings, carloads from Lafayette, Ind., to specified points in Montana.

Grounds for relief: Circuitous routes.

Tariff: Supplement 14 to Agent Prueter's I. C. C. 1575.

By the Commission.

[SEAL] HAROLD D. McCOY, *Secretary.*

## DEPARTMENT OF LABOR

### Wage and Hour Division

LEARNER EMPLOYMENT CERTIFICATES

ISSUANCE TO VARIOUS INDUSTRIES

Notice is hereby given that pursuant to section 14 of the Fair Labor Standards Act of 1938 (52 Stat. 1060, as amended; 29 U. S. C. 201 et seq.), and Part 522 of the regulations issued thereunder (29 CFR Part 522), special certificates authorizing the employment of learners at hourly wage rates lower than the minimum wage rates applicable under section 6 of the act have been issued to the firms listed below. The employment of learners under these certificates is limited to the terms and conditions therein contained and is subject to the provisions of Part 522. The effective and expiration dates, occupations, wage rates, number or proportion of learners and learning periods for certificates issued under general learner regulations (§§ 522.1 to 522.12) are as indicated below; conditions provided in certificates issued under

special industry regulations are as established in these regulations.

Apparel Industry Learner Regulations (29 CFR 522.20 to 522.24, as amended March 1, 1956, 21 F. R. 1349).

The following learner certificates were issued authorizing the employment of not more than 10 percent of the total number of factory production workers as learners for normal labor turnover purposes:

William Barry, Inc., 250 Canal Street, Lawrence, Mass.; effective 5–18–56 to 5–17–57 (sportswear).

Bedge Brassiere Manufacturing Inc., 32 Union Street, New London, Conn.; effective 5–16–56 to 5–15–57 (brassieres).

Tiny Women, Fuhrman-Levitt, Inc., Broadway at Jefferson, Camden, N. J.; effective 5–17–56 to 5–16–57 (children's dresses).

Hartley Garment Co., Inc., 1811 Church Street, Nashville, Tenn.; effective 5–16–56 to 5–15–57 (ladies' uniform dresses).

Indiana Rayon Corp., Greenfield, Ind.; effective 5–22–56 to 5–21–57 (children's outerwear).

Mode O'Day Corp., Plant No. 2, 146 South West Temple Street, Salt Lake City, Utah; effective 5–22–56 to 5–21–57 (dresses).

Movie Star of Mississippi, Inc., Purvis, Miss.; effective 5–21–56 to 5–20–57 (ladies' slips, gowns, etc.).

Oberman Manufacturing Co., Valdosta, Ga.; effective 5–27–56 to 5–26–57 (dungarees).

Phillips-Jones Factory, Minorsville, Pa.; effective 5–20–56 to 5–19–57 (sport shirts).

W. Shanhouse Sons, Inc., Magnolia, Ark.; effective 5–17–56 to 5–16–57 (sport jackets).

Levi Strauss & Co., 501 Travis Street, Wichita Falls, Tex., effective 5–20–56 to 5–19–57 (overalls).

Sweet-Orr & Co., Inc., 68 First Street Southwest, Pulaski, Va., effective 6–1–56 to 5–31–57 (single pants).

The following learner certificates were issued for normal labor turnover purposes, except as otherwise indicated:

Bee Em Manufacturing Co., 1011 West Diamond Street, Philadelphia, Pa.; effective 5–17–56 to 5–16–57; 7 learners (boys' clothing).

Beverly Blouse Co., 27 West Oak Street, Pittston, Pa.; effective 5–20–56 to 5–19–57; 5 learners (ladies' blouses).

Carbon Hill Manufacturing Co., Inc., Carbon Hill, Ala.; effective 5–15–56 to 11–14–56; 25 learners for plant expansion purposes (boys' slacks).

Carol-Ann Apparel Corp., Cherry Tree, Pa.; effective 5–16–56 to 5–15–57; 5 learners (dresses).

County Dress Co., Inc., 52 Orawaupum Street, White Plains, N. Y.; effective 5–15–56 to 5–14–57; 5 learners (dresses).

Granville Manufacturing Co., Hillsboro Street Extended, Oxford, N. C.; effective 5–19–56 to 5–18–57; 5 learners (ladies' dresses).

Irene Garment Co., Inc., Main Street, Nicholson, Pa.; effective 5–18–56 to 5–17–57; 6 learners (ladies' blouses).

The KYM Co., Harkness Street, Jackson, Ga.; effective 5–16–56 to 5–15–57; 10 learners (single pants).

Lemont Pants Co., 310 Illinois Street, Lemont, Ill.; effective 5–21–56 to 5–20–57; 4 learners (single pants).

Meyers & Son Manufacturing Co., Corner First and Jefferson Streets, Madison, Ind.; effective 5–8–56 to 11–7–56; 30 learners for plant expansion purposes (men's coveralls) (replacement certificate).

The More Manufacturing Co., Marissa, Ill.; effective 5–21–56 to 5–20–57; 5 learners (ladies' apparel).

J. E. Piekenbrock, d/b/a Piekenbrock Co., Dubuque, Iowa; effective 5–21–56 to 5–20–57; 5 learners (ladies' wash uniforms, hospital garments, etc.).

Southern Athletic Co., Inc., 111 17th Street, Knoxville, Tenn.; effective 5–17–56 to 11–16–56; 100 learners for plant expansion purposes (men's apparel).

Glove Industry Learner Regulations (29 CFR 522.60 to 522.65, as amended March 1, 1956, 21 F. R. 581).

Indianapolis Glove Co., Inc., Mount Ida, Ark.; effective 5–21–56 to 11–20–56; 25 learners for plant expansion purposes (work gloves).

Scotsmoor Co., Inc., 29–35 North Market Street., Johnstown, N. Y.; effective 5–16–56 to 5–15–57; 10 learners for normal labor turnover purposes (knitted gloves and mittens).

Leon F. Swears, Inc., 111–113 North Perry Street, Johnstown, N. Y.; effective 5–18–56 to 5–17–57; 10 percent of factory production workers engaged in the authorized learner occupations (dress gloves).

Wells Lamont Corp., 299A Beacon Street, Philadelphia, Miss.; effective 5–20–56 to 5–19–57; 10 percent of factory production workers engaged in the authorized learner occupations (work gloves).

Hosiery Industry Learner Regulations (29 CFR 522.40 to 522.43, as amended March 1, 1956, 21 F. R. 629).

Interwoven Stocking Co., Prospect and Church Streets, Hagerstown, Md.; effective 5–16–56 to 5–15–57; 5 percent of factory production workers for normal labor turnover purposes (seamless).

Independent Telephone Industry Learner Regulations (29 CFR 522.70 to 522.74, as amended March 1, 1956, 21 F. R. 581).

Hawkinsville Telephone Co., Hawkinsville, Ga.; effective 5–18–56 to 5–17–57.

Northern Ohio Telephone Co., McComb, Ohio; effective 5–21–56 to 9–30–56.

Knitted Wear Industry Learner Regulations (29 CFR 522.30 to 522.35, as amended March 1, 1956, 21 F. R. 581).

Athens Lingerie Corp., Athens, Ala.; effective 5–21–56 to 11–20–56; 50 learners for plant expansion purposes (knit underwear and sleepwear).

East Tennessee Undergarment Co., Inc., 707 East Elk Avenue, Elizabethton, Tenn.; effective 5–18–56 to 5–17–57; 5 percent of factory production workers for normal labor turnover purposes. (Ladies' knit underwear.) (Authorizing additional occupation of final inspector for a maximum learning period of 160 hours.)

East Tennessee Undergarment Co., Inc., 707 East Elk Avenue, Elizabethton, Tenn.; effective 5–18–56 to 11–17–56; 20 learners for plant expansion purposes. (Ladies' knit underwear.) (Authorizing additional occupation of final inspector for a maximum learning period of 160 hours.)

Johnstown Knitting Mill Co., Johnstown, N. Y.; effective 5–17–56 to 5–16–57; 5 percent of factory production workers for normal labor turnover purposes (knitted outerwear).

Millheim Manufacturing Co., Inc., Center and Water Streets, Millheim, Pa.; effective 5–21–56 to 5–20–57; 5 learners for normal labor turnover purposes (swimsuits).

Norwich Mills, Inc., Norwich, N. Y.; effective 5–17–56 to 5–16–57; 5 percent of factory production workers for normal labor turnover purposes (knitted outerwear).

Regulations applicable to the Employment of Learners (29 CFR 522.1 to 522.12, as amended February 28, 1955, 20 F. R. 645).

The following learner certificates were issued for normal labor turnover purposes, except as otherwise indicated, to the companies listed below manufacturing miscellaneous products. The effective and expiration dates, learner rates, occupations, learning periods, and the number or proportion of learners authorized to be employed, are as follows:

Artcraft Products, Cleveland, N. C.; effective 5–17–56 to 11–16–56; not less than 85 cents per hour for a maximum of 240 hours, for the occupations of hand weavers and sewing machine operators; authorizing the employment of 5 learners (ladies' nylon handbags).

Carver Manufacturing Co., Inc., North Jackson Street, Athens, Tenn.; effective 5–17–56 to 10–29–56; not less than 80 cents per hour for the first 320 hours and 85 cents per hour for the remaining 160 hours of the 480-hour learning period, for the occupation of upholsterer; authorizing the employment of 10 learners (upholstered furniture). (Replacement certificate.)

DeRuyter Textile Co., DeRuyter, N. Y.; effective 5–18–56 to 11–17–56; not less than 90 cents per hour for a maximum of 160 hours, for the occupation of sewing machine operator; authorizing the employment of 2 learners (silverwear and cutlery containers).

Double Envelope Corp., 532 West Luck Avenue, Roanoke, Va.; effective 5–17–56 to 11–16–56; not less than 85 cents per hour for the first 160 hours and 90 cents per hour for the remaining 160 hours of the 320-hour learning period, for the occupations of printing press operator and folding machine operator; authorizing the employment of ten percent of factory production workers (envelopes).

Jacob I. Hubbart-Pennwin Clothes Corp., 26th and Reed Streets, Philadelphia, Pa.; effective 5–17–56 to 11–16–56; not less than 85 cents per hour for the first 280 hours and 90 cents per hour for the remaining 200 hours of the 480-hour learning period, for the occupations of sewing machine operators, hand sewer, and finishing operations involving hand sewing; authorizing the employment of five percent of factory production workers (men's suits).

Oxford-Hopkins Co., Inc., 210 Broad Street, Lynn, Mass.; effective 5–18–56 to 11–17–56; not less than 87 cents per hour for the first 240 hours and 93 cents for the remaining 240 hours of the 480-hour learning period, for the occupations of scarfing, sticking, studding, stapling, measuring and spooling, and stitching; authorizing the employment of ten percent of factory production workers (footwear cut stock and findings).

Schultz Co., 2028 Washington, St. Louis, Mo.; effective 5–16–56 to 11–17–56; not less than 87 cents per hour for the first 240 hours and 93 cents per hour for the remaining 240 hours of the 480-hour learning period, for the occupations of dyer and finisher, and shoe repairer; authorizing the employment of 30 learners for plant expansion purposes (shoe repair, refinishing).

Each certificate has been issued upon the employer's representation that employment of learners at subminimum rates is necessary in order to prevent curtailment of opportunities for employment, and that experienced workers for the learner occupations are not available. The certificates may be cancelled in the manner provided in the regulations and as indicated in the certificates. Any person aggrieved by the issuance of any of these certificates may seek a review or reconsideration thereof within fifteen days after publication of this notice in the FEDERAL REGISTER pursuant to the provisions of Part 522.

Signed at Washington, D. C., this 22d day of May 1956.

MILTON BROOKE,
*Authorized Representative of the Administrator.*

## DEPARTMENT OF JUSTICE

### Office of Alien Property

[Vesting Order SA–57]

CONCORDIA, S. A.

In re: Debt or other obligation owing to Concordia, S. A., otherwise known as Concordia Soc. Anon Roumaine; F–57–229.

Under the authority of Title II of the International Claims Settlement Act of 1949, as amended (69 Stat. 562), Executive Order 10644, November 7, 1955 (20 F. R. 8363), Department of Justice Order No. 106–55, November 23, 1955 (20 F. R. 8993), and pursuant to law, after investigation, it is hereby found and determined:

1. That the property described as follows: That certain debt or other obligation of the National Supply Company, New York, N. Y., arising out of an overpayment on an account receivable to its former wholly-owned subsidiary, National Supply Export Corporation, maintained at said company, together with any and all rights to demand, enforce and collect the same,

is property within the United States which was blocked in accordance with Executive Order 8389, as amended, and remained blocked on August 9, 1955, and which is, and as of September 15, 1947, was, owned directly or indirectly by Concordia, S. A., otherwise known as Concordia Soc. Anon Roumaine, Bucharest, Rumania, a national of Rumania as defined in said executive Order 8389, as amended.

2. That the property described herein is not owned directly by a natural person.

There is hereby vested in the Attorney General of the United States the property described above, to be administered, sold, or otherwise liquidated, in accordance with the provisions of Title II of the International Claims Settlement Act of 1949, as amended.

It is hereby required that the property described above be paid, conveyed, transferred, assigned and delivered to or for the account of the Attorney General of the United States in accordance with directions and instructions issued by or for the Assistant Attorney General, Director, Office of Alien Property, Department of Justice.

The foregoing requirement and any supplement thereto shall be deemed instructions or directions issued under Title II of the International Claims Settlement Act of 1949, as amended. Attention is directed to Section 205 of said Title II (69 Stat. 562) which provides that:

Any payment, conveyance, transfer, assignment, or delivery of property made to the President or his designee pursuant to this title, or any rule, regulation, instruction, or direction issued under this title, shall to the extent thereof be a full acquittance and discharge for all purposes of the obligation of the person making the same; and no person shall be held liable in any court for or in respect of any such payment, conveyance, transfer, assignment, or delivery made in good faith in pursuance of and in reliance on the provisions of this title, or of any rule, regulation, instruction, or direction issued thereunder.

Executed at Washington, D. C., on May 31, 1956.

For the Attorney General.

[SEAL] DALLAS S. TOWNSEND,
*Assistant Attorney General, Director, Office of Alien Property.*

[Vesting Order SA–58]

CUSMO, S. A.

In re: Debt owing to Cusmo, S. A., F–57–225.

Under the authority of Title II of the International Claims Settlement Act of 1949, as amended (69 Stat. 562), Executive Order 10644, November 7, 1955 (20 F. R. 8363), Department of Justice Order No. 106–55, November 23, 1955 (20 F. R. 8993), and pursuant to law, after investigation, it is hereby found and determined:

1. That the property described as follows: That certain debt or other obligation of Libby, McNeill & Libby, Chicago 9, Illinois, arising out of an account payable entitled "Special Deposit—Bucarest (Cusmo, S. A.)", maintained by the aforesaid company, together with any and all rights to demand, enforce and collect the same,

is property within the United States which was blocked in accordance with Executive Order 8389, as amended, and remained blocked on August 9, 1955, and which is, and as of September 15, 1947, was, owned directly or indirectly by Cusmo, S. A., Bucharest, Rumania, a national of Rumania as defined in said Executive Order 8389, as amended.

2. That the property described herein is not owned directly by a natural person.

There is hereby vested in the Attorney General of the United States the property described above, to be administered, sold, or otherwise liquidated, in accordance with the provisions of Title II of the International Claims Settlement Act of 1949, as amended.

It is hereby required that the property described above be paid, conveyed, transferred, assigned and delivered to or for the account of the Attorney General of the United States in accordance with directions and instructions issued by or for the Assistant Attorney General, Director, Office of Alien Property, Department of Justice.

The foregoing requirement and any supplement thereto shall be deemed instructions or directions issued under Title II of the International Claims Settlement Act of 1949, as amended. Attention is directed to Section 205 of said Title II (69 Stat. 562) which provides that:

Any payment, conveyance, transfer, assignment, or delivery of property made to the President or his designee pursuant to this title, or any rule, regulation, instruction, or direction issued under this title, shall to the extent thereof be a full acquittance and discharge for all purposes of the obligation of the person making the same; and no person shall be held liable in any court for or in respect of any such payment, conveyance, transfer, assignment, or delivery made in good faith in pursuance of and in reliance on the provisions of this title, or of any rule, regulation, instruction, or direction issued thereunder.

Executed at Washington, D. C., on May 31, 1956.

For the Attorney General.

## TITLE 7—AGRICULTURE

### Chapter III—Agricultural Research Service, Department of Agriculture

[P. P. C. 612, Second Rev., Supp. 5]

PART 301—DOMESTIC QUARANTINE NOTICES

ADMINISTRATIVE INSTRUCTIONS DESIGNATING PREMISES AS REGULATED AREAS UNDER REGULATIONS SUPPLEMENTAL TO KHAPRA BEETLE QUARANTINE

Pursuant to § 301.76–2 of the regulations supplemental to the Khapra Beetle Quarantine (7 CFR Supp. 301.76–2, 20 F. R. 1012) under sections 8 and 9 of the Plant Quarantine Act of 1912, as amended (7 U. S. C. 161, 162), revised administrative instructions issued as 7 CFR Supp. 301.76–2a (20 F. R. 9899), effective December 23, 1955, as amended effective January 26, 1956, March 14, 1956, April 17, 1956, and May 9, 1956 (21 F. R. 573, 1575, 2463, 3073), are hereby amended in the following respects:

(a) The designation as regulated areas of the following premises, included in the list contained in such instructions, is hereby revoked, and the reference to such premises in the list is hereby deleted, it having been determined by the Chief of the Plant Pest Control Branch that adequate sanitation measures have been practiced for a sufficient length of time to eradicate the khapra beetle in and upon such premises:

ARIZONA

Long's Dairy (barn), Buckeye.

Shaffer's Refinishing Shop, 3555 East Washington, Phoenix.

CALIFORNIA

Thomas Blackman Property (Bag fumigation), southwest corner of intersection of Sixth Street and Emerson, Calexico.

Brown Livestock Company, 1761 Atlas Peak Road, Napa.

Olaf Dahlquist Ranch, intersection of Road 28 and West N, Route 2, Box K, Imperial.

Archie Frick Ranch, SE¼ of sec. 7, T. 32 S., R. 29 E., near Arvin. Mail address 325 Third Avenue, Arvin.

Fred Frick Ranch, the south 100 acres of the NW¼ of sec. 7, T. 32 S., R. 29 E., near Arvin. Mail address 325 Third Avenue, Arvin.

Kern Valley Farms, on Wheeler Ridge Road, 1 mile south of Herring Road, Box 164, Arvin.

N. K. Larsen Ranch, located at intersection West G and Road 33, Route 2, Box 138, Imperial.

Kelly McCollum Ranch, intersection of Road 28 and West E, Route 1, Box G, Imperial.

Milham Farms, Camp No. 1, located Sec. 7, T. 28 S., R. 23 E. Mail address Lerdo Road, Buttonwillow.

Milham Farms, Camp No. 2, located Sec. 1, T. 28 S., R. 22 E. Mail address Lerdo Road, Buttonwillow.

Newhall Land & Farming Company, Route 3, Box 77, Saugus.

Oro Farm and Cattle Co. (Benjamin Kosdon, owner), located one and one-half miles northeast of Buttonwillow on west side of Wasco Way, one-half mile north of Highway 178, Box 274, Buttonwillow.

E. J. Reinecke Chicken Ranch, 36058 N. 82d Street East, Littlerock.

F. O. Rosenbaum Ranch, Route 2, Box 29, Imperial.

Rudinick Trust Feed Lot, 1½ miles west of Oak Street, on Panama Lane, Bakersfield.

Studer Bros. Ranch, County Road 6, two miles east of Mt. Signal School, Wisteria Lot 4, Route 1, Box 74A, Calexico.

E. W. Thornton Ranch, Route 2, Box 2, Imperial.

NEW MEXICO

Slone Grain Co., 223 North Avenue B, Portales.

(b) The following premises are added to the list, contained in such instructions, of warehouses, mills, and other premises in which infestations of the khapra beetle have been determined to exist. Such premises are thereby designated as regulated areas within the meaning of said quarantine and regulations:

ARIZONA

Annie Black Chicken Yard, 225 West Pastime Road, Tucson.

Ronald Bruce town residence, P. O. Box 43, Parker.

J. H. Munsey town residence, P. O. Box 192, Parker.

J. A. Tabor town residence, P. O. Box 1965, Parker.

R. H. Thompson residence property, P. O. Box 1836, Parker.

Wilmer Trussel Farm, General Delivery, Wellton.

CALIFORNIA

Anderson Cattle Co., located at north side of Highway 98, three-quarter mile west of Highway 99. Mail address P. O. Box 1105, Calexico.

Topper Feed Mills, 808 G Street, Fresno.

NEW MEXICO

Elgin E. Fowler Farm, Route 1, Floyd.

Part 11 — 3901
Part 16 — 3901
Part 19 — 3901

This amendment shall become effective June 7, 1956.

Subsequent to the fourth supplement of these instructions, effective May 9, 1956, an infestation of the khapra beetle was discovered on the California Sun Dry Boulgour Company property, located at 630 South 12th Street (Cedar Street), Fresno, California. Movement of regulated articles from this property was immediately stopped. Within a few days such infested premises had been fumigated and declared free of khapra beetle infestation. Accordingly, this property is not being included in this supplement.

This amendment revokes the designation as regulated areas of certain premises, it having been determined by the Chief of the Plant Pest Control Branch that adequate sanitation measures have been practiced for a sufficient length of time to eradicate the khapra beetle in and upon such premises. It also adds additional premises to the list of premises in which khapra beetle infestations have been determined to exist, and designates such premises as regulated areas under the khapra beetle quarantine and regulations.

This amendment in part imposes restrictions supplementing khapra beetle quarantine regulations already effective. It also relieves restrictions insofar as it revokes the designation of presently regulated areas. It must be made effective promptly in order to carry out the purposes of the regulations and to permit unrestricted movement of regulated products from the premises being removed from designation as regulated areas. Accordingly, under section 4 of the Administrative Procedure Act (5 U. S. C. 1003), it is found upon good cause that notice and other public procedure with respect to the foregoing amendment are impracticable and contrary to the public interest, and good cause is found for making the effective date thereof less than 30 days after publication in the FEDERAL REGISTER.

(Sec. 9, 37 Stat. 318; 7 U. S. C. 162. Interprets or applies sec. 8, 37 Stat. 318, as amended; 7 U. S. C. 161)

Done at Washington, D. C., this 4th day of June 1956.

[SEAL] E. D. BURGESS,
*Chief,*
*Plant Pest Control Branch.*

[F. R. Doc. 56-4486; Filed, June 6, 1956; 8:56 a. m.]

## Chapter IX—Agricultural Marketing Service (Marketing Agreements and Orders), Department of Agriculture

### PART 962—FRESH PEACHES GROWN IN GEORGIA

DETERMINATION RELATIVE TO EXPENSES AND FIXING OF RATE OF ASSESSMENT FOR 1956–57 FISCAL PERIOD

Notice was published in the May 15, 1956, daily issue of FEDERAL REGISTER (21 F. R. 3188) that consideration was being given to the proposals regarding the expenses and the fixing of the rate of assessment for the 1956–57 fiscal period under the marketing agreement, as amended, and Order No. 62, as amended (7 CFR Part 962; 20 F. R. 1635), regulating the handling of fresh peaches grown in the State of Georgia, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.). After consideration of all relevant matters presented, including the proposals set forth in such notice which were submitted by the Industry Committee (established pursuant to said amended marketing agreement and order), it is hereby found and determined that:

§ 962.209 *Expenses and rate of assessment for the 1956–57 fiscal period*—(a) *Expenses.* The expenses necessary to be incurred by the Industry Committee, established pursuant to the provisions of the aforesaid amended marketing agreement and order, to enable such committee to perform its functions, in accordance with the provisions thereof, during the fiscal period beginning March 1, 1956, will amount to $12,538.80.

(b) *Rate of assessment.* The rate of assessment, which each handler who first handles peaches shall pay as his pro rata share of the aforesaid expenses in accordance with the applicable provisions of said amended marketing agreement and order is hereby fixed at one and eight-tenth cents ($0.018) per bushel basket of peaches (net weight 50 pounds), or its equivalent of peaches in other containers or in bulk.

It is hereby further found that it is impracticable and contrary to the public interest to postpone the effective time hereof until 30 days after publication in the FEDERAL REGISTER (60 Stat. 237; 5 U. S. C. 1001 et seq.) in that (1) shipments of peaches from Georgia are now being made; (2) the rate of assessment is applicable to all fresh peaches shipped during the 1956–57 fiscal period; (3) a large volume of the Georgia peach crop is handled by itinerant truckers and cash buyers who operate in the area only part of the season; and (4) in order for the regulatory assessment to be collected, especially from those handlers who do not have definite or established places of business in the production area, it is essential that the specification of the assessment rate be issued immediately so as to enable the said Industry Committee to perform its duties and functions under said amended marketing agreement and order.

As used herein, the terms "handler," "handles," "shipped," "peaches," "production area," and "fiscal period," shall have the same meaning as is given to each such term in the said amended marketing agreement and order.

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. 608c)

Dated: June 4, 1956.

[SEAL] ROY W. LENNARTSON,
*Deputy Administrator.*

### PART 327—ASSESSMENTS

ASSESSMENT DECISIONS

In F. R. Document 56-4084, appearing in the issue for Thursday, May 24, 1956, at page 3452, § 327.178 should read as follows:

§ 327.178 *Assessment Decision No. 78; escrow funds.* Funds held in escrow must be included in the assessment base unless they are held solely as security for a liability to the bank as provided in § 327.121 Assessment Decision No. 21, Cash Funds Received and Held as Security to Indebtedness to the Bank. Such funds are held for a special purpose and are in the nature of trust funds.

This includes all types of escrow funds.

## Chapter I—Federal Trade Commission

[Docket 6200]

PART 13—DIGEST OF CEASE AND DESIST ORDERS

R. D. ANDERSON ET AL.

Subpart—*Misrepresenting oneself and goods:* Business status, advantages or connections: § 13.1395 *Connections and arrangements with others;* [*Misrepresenting oneself and goods*]—Goods: § 13.1620 *Exclusive rights to or monopoly in;* § 13.1655 *Identity;* § 13.1663 *Individual's special selection or situation;* § 13.1760 *Terms and conditions;* [*Misrepresenting oneself and goods*]—Promotional sales plans: § 13.1830 *Promotional sales plans.* Subpart—*Offering unfair, improper and deceptive inducements to purchase or deal:* § 13.1985 *Individual's special selection or situation.*

(Sec. 6, 38 Stat. 721; 15 U. S. C. 46. Interprets or apply sec. 5, 38 Stat. 719, as amended; 15 U. S. C. 45) [Cease and desist order, R. D. Anderson d. b. a. Guaranteed Silverware Distributors, etc., Mayfield, Ky., Docket 6200, May 17, 1956]

*In the Matter of R. D. Anderson, an Individual Doing Business as Guaranteed Silverware Distributors, and American Silverware Bureau*

This proceeding was heard by a hearing examiner on the complaint of the Commission, charging an individual with falsely representing that he was connected with the International Silver Co., that his own redeemable coupon sales plan was its method of advertising its well-known "Rogers Bros. 1847" silverware, and that the silverware he furnished to holders would be that brand; that he would furnish to purchasers of the coupons, etc., a set of 52 matched pieces of such silverware in a tarnish-proof chest for display purposes, after which it would be the property of the purchaser; that dealers approached by his salesmen had been specially selected by him to distribute such certificates in a specific trade area, and that the silverware redemption plan would be made available to only one purchaser in that area.

Following respondent's denial and hearings at which he offered no testimony or evidence in opposition to the allegations of the complaint, he filed "Admission Answer" withdrawing his denial answer, admitting all the material allegations of fact, waiving further hearings and all intervening procedure, and agreeing that the hearing examiner proceed to an initial decision and order to cease and desist.

On this basis, the hearing examiner made his initial decision, including findings and order to cease and desist, which, on May 17, 1956, became the decision of the Commission.

The order to cease and desist is as follows:

*It is ordered,* That the respondent, R. D. Anderson, doing business as Guaranteed Silverware Distributors, or American Silverware Bureau, or under any other name, and respondent's agents, representatives, and employees, directly or through any corporate or other device, in connection with the offering for sale, sale and distribution of certificates, cards, coupons, or silverware, or any other merchandise, in commerce as "commerce" is defined in the Federal Trade Commission Act, do forthwith cease and desist from:

1. Representing in any manner that he is agent for, or representative of, or is in any other manner connected with, the International Silver Company or any other manufacturer of silverware.

2. Representing that the said certificates, cards, or coupons are a part of, or connected in any way with, any sales plan or method of advertising adopted by any manufacturer of silverware or by anyone other than the respondent.

3. Representing that the silverware which will be furnished to purchasers of the said certificates, cards, or coupons or to the holders thereof, is any different brand, or is any different in style or quantity, or in any other way, from that which is actually furnished or that the chests furnished to said purchasers are tarnish proof.

4. Representing that the retail dealers to whom said certificates, coupons, or cards are offered are especially selected or that respondent's silverware redemption plan will be made available to only one purchaser in any given trade area.

By "Decision of the Commission", etc., report of compliance was required as follows:

*It is ordered,* That the respondent herein shall, within sixty (60) days after service upon him of this order, file with the Commission a report in writing setting forth in detail the manner and form in which he has complied with the order to cease and desist.

Issued: May 17, 1956.

By the Commission.

[SEAL] ROBERT M. PARRISH, *Secretary.*

# TITLE 19—CUSTOMS DUTIES

## Chapter I—Bureau of Customs, Department of the Treasury

[T. D. 54100]

PART 4—VESSELS IN FOREIGN AND DOMESTIC TRADES

WAIVER OF COASTWISE TOWING LAWS

JUNE 1, 1956.

Waiver of 46 U. S. C. 316 to permit Canadian tugs "Harbor Master" and "Newfie Queen" to tow a carfloat from Cornwall Canal to Ogdensburg.

Upon the written recommendation of the Secretary of the Army, acting under the delegation of August 18, 1955 (20 F. R. 6361), of certain powers of the Secretary of Defense with respect to matters concerning the St. Lawrence Seaway Power Project or the St. Lawrence Seaway Navigation Project, and by virtue of the authority vested in me by the act of December 27, 1950 (64 Stat. 1120), and Revised Treasury Department Order No. 165, as amended (T. Ds. 53654 and 53966), I hereby waive compliance with section 316, title 46, United States Code, to the extent necessary to permit the Canadian tug "Harbor Master" to tow a 38 by 150 foot carfloat from the foot of the Cornwall Canal to Dickinson Landing and the Canadian tug "Harbor Master" and the Canadian tug "Newfie Queen" to tow that carfloat from Dickinson Landing to Ogdensburg, the towing operation to commence following notification of the issuance of this waiver to Merritt-Chapman & Scott Corporation, Contractor of the New York State Power Authority.

(R. S. 161, 251, secs. 2, 3, 23 Stat. 118, as amended, 119, as amended, sec. 624, 46 Stat. 759; 5 U. S. C. 22, 19 U. S. C. 1624, 46 U. S. C. 2, 3)

[SEAL] D. B. STRUBINGER, *Acting Commissioner of Customs.*

# TITLE 39—POSTAL SERVICE

## Chapter I—Post Office Department

PART 115—INCOMING PARCEL POST

STORAGE CHARGES

In § 115.3 *Charges,* (20 F. R. 7837), amend the first sentence of paragraph (b) to read:

(b) *Storage charges.* If you allow a parcel addressed to you to remain in the post office, you must pay a storage charge of 10 cents per day beginning with the 11th day from the first attempt at delivery or the issuance of the first notice that the parcel is read for delivery. * * *

This amendment shall be effective July 1, 1956.

(R. S. 161, 396, as amended, 398, as amended; 5 U. S. C. 22, 369, 372)

[SEAL] ABE MCGREGOR GOFF, *The Solicitor.*

# TITLE 43—PUBLIC LANDS: INTERIOR

## Chapter I—Bureau of Land Management, Department of the Interior

### Appendix—Public Land Orders

[Public Land Order 1304]

[71156]

CERTAIN FEDERAL LANDS SITUATED WITHIN PROCLAIMED BOUNDARIES OF NATIONAL FORESTS

NATIONAL FOREST STATUS

By virtue of the authority vested in the President by section 24 of the act of March 3, 1891 (26 Stat. 1103, 16 U. S. C. 471), the act of June 4, 1897 (30 Stat. 34, 36; 16 U. S. C. 473), the Emergency Relief Appropriation Act of April 8, 1935 (49 Stat. 115), and pursuant to Executive Order No. 10355 of May 26, 1952, and upon recommendation of the Assistant Secretary of Agriculture, it is ordered as follows:

Except as to the lands in the States of Arizona, California, Colorado, Idaho, Montana, New Mexico, Oregon, Washington, and Wyoming, all lands of the United States (1) acquired pursuant to an allotment of $13,827,500 made to the United States Department of Agriculture, by letter of the President of the United States to the Secretary of the Treasury dated June 19, 1935 under authority vested in the President by the said act approved April 8, 1935 (49 Stat. 115), (2) transferred to the Department of Agriculture pursuant to authority of the act of August 27, 1935 (49 Stat. 885), and the Federal Property and Administrative Services Act of June 30, 1949, as amended, (49 U. S. C. 471-514), now under the administrative jurisdiction of the Forest Service, Department of Agriculture, situated within the exterior boundaries of national forests, and not hitherto given national forest status are hereby made parts of the national forests in which they are situated, and hereafter shall be subject to all laws and regulations applicable to said national forests.

WESLEY A. D'EWART, *Assistant Secretary of the Interior.*

JUNE 1, 1956.

# TITLE 47—TELECOMMUNICATION

## Chapter I—Federal Communications Commission

[Rules Amdt. 3-13]

PART 3—RADIO BROADCAST SERVICES

MISCELLANEOUS AMENDMENTS

In the Matter of amendment of Part 3 of the Commission's rules and regulations to effect certain editorial changes therein.

The Commission has under consideration the desirability of making certain editorial changes in Part 3 of its rules and regulations.

The amendments adopted herein are editorial in nature, and, therefore, prior publication of notice of proposed rule making under the provisions of section 4 of the Administrative Procedure Act is unnecessary, and the amendments may become effective immediately.

The amendments adopted herein are issued pursuant to authority contained in sections 4 (i), 5 (d) (1) and 303 (r) of the Communications Act of 1934, as amended, and section 0.341 (a) of the Commission's rules and regulations.

*It is ordered,* That, effective June 11, 1956, Part 3 of the Commission's rules and regulations is revised as set forth below:

1. Section 3.93 is amended by deleting paragraph (a) and substituting the following:

(a) One or more radio operators holding a valid radiotelephone first-class operator license, except as provided in paragraph (b) of this section, shall be in actual charge of the transmitting apparatus and shall be on duty either at the transmitter location or remote control point.

2. Section 3.94 is amended to read as follows:

§ 3.94 *Period of construction.* Each construction permit for a radio station in the standard broadcast service will specify a maximum of 60 days from the date of granting thereof as the time within which construction of the station shall begin, and a maximum of six months thereafter as the time within which construction shall be completed and the station ready for operation, unless otherwise determined by the Commission upon proper showing in any particular case.

3. The following undesignated center heading should be added prior to § 3.250: "Equipment".

4. Section 3.265 is amended by deleting paragraph (a) and substituting the following:

(a) One or more radio operators holding a valid radiotelephone first-class operator license, except as provided in paragraph (b) of this section, shall be in actual charge of the transmitting apparatus and shall be on duty either at the transmitter location or remote control point.

5. Section 3.501 is amended to change the channel number for frequency 89.1 to 206.

6. Section 3.520 is amended by adding paragraph (b) as follows:

(b) Whenever the Commission regards an application for a renewal of an FM broadcast station license as essential to the proper conduct of a hearing or investigation, and specifically directs that it be filed by a date certain, such application shall be filed within the time thus specified. If the licensee fails to file such application within the prescribed time, the hearing or investigation shall proceed as if such renewal application had been received.

7. Section 3.565 is amended by deleting paragraph (a) and substituting the following:

(a) One or more radio operators holding a valid radiotelephone first-class operator license, except as provided in paragraph (b) of this section, shall be in actual charge of the transmitting apparatus and shall be on duty either at the transmitter location or remote control point.

8. Section 3.683 is amended by deleting the text of paragraph (b) (3) and substituting the following: "[Reserved]".

9. Section 3.693 is amended by deleting paragraph (a) (1) and substituting the following:

(1) The monitors shall have an accuracy of better than 500 cycles for 30 days of VHF operation, or for 10 days of UHF operation, and under ordinary conditions (ambient temperature from 10° centigrade to 40° centigrade above zero, humidity from 10 percent to 95 percent relative humidity, power supply variations from 90 percent to 110 percent, and other conditions which may affect its accuracy) encountered in television broadcast stations throughout the United States.

(Sec. 4, 48 Stat. 1066, as amended; 47 U. S. C. 154. Interpret or apply sec. 303, 48 Stat. 1082, as amended; sec. 5, 66 Stat. 713; 47 U. S. C. 303, 155)

Adopted: June 1, 1956.

Released: June 4, 1956.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] MARY JANE MORRIS, *Secretary.*

---

[FCC 56-517]

[Rules Amdts. 11-18, 16-7, and 19-1]

PART 11—INDUSTRIAL RADIO SERVICES

PART 16—LAND TRANSPORTATION RADIO SERVICES

PART 19—CITIZENS RADIO SERVICE

CONSTRUCTION, MARKING AND LIGHTING OF ANTENNA STRUCTURES

In the matter of amendment of Parts 11, 16 and 19 of the rules and regulations of the Commission to conform with Part 17, Construction, Marking, and Lighting of Antenna Structures.

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 29th day of May 1956;

The Commission having under consideration the provisions of Parts 11, 16 and 19 of its rules governing the Industrial, Land Transportation and Citizens Radio Services, respectively, with respect to the form to be used to describe proposed antenna structures; and

It appearing that certain sections of existing rules relating to the various land mobile radio services vary somewhat from the provisions of Part 17 and should be revised to conform therewith; and

It further appearing that the substance of the amendments herein ordered has already been the subject of formal rule making procedures (Docket 11306) resulting in amendment of Part 17; and

It further appearing that general notice of proposed rule making is not required in this matter under section 4 of the Administrative Procedure Act because this amendment is solely for the purpose of conforming Parts 11, 16 and 19 with Part 17, and that for the same reason the amendment may become effective immediately;

*It is ordered,* Pursuant to the authority contained in section (4) (i) and 303 (f), (q) and (r) of the Communications Act of 1934, as amended; that effective June 11, 1956 the rules and regulations of the Commission are amended as set forth below:

(Sec. 4, 48 Stat. 1066, as amended; 47 U. S. C. 154. Interprets or applies sec. 303, 48 Stat. 1082, as amended; 47 U. S. C. 303)

Released: June 4, 1956.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] MARY JANE MORRIS, *Secretary.*

1. Amend § 11.3 (u) to read as follows:

(u) *Antenna structures.* The term antenna structures includes the radiating system, its supporting structures and any surmounting appurtenances.

2. Amend subparagraphs (1) and (2) of § 11.58 (d), to read as follows:

(1) The antenna structures proposed to be erected will exceed an over-all height of 170 feet above ground level, except that where the antenna is mounted on top of an existing man-made structure, other than an antenna structure, and does not increase the over-all height of such man-made structure by more than 20 feet, no Form 401–A need be filed; or

(2) The antenna structures proposed to be erected will exceed an over-all height of one foot above the established airport (landing area) elevation for each 200 feet of distance, or fraction thereof, from the nearest boundary of such landing area, except that where the antenna does not exceed 20 feet above the ground or if the antenna is mounted on top of an existing man-made structure, other than an antenna structure, or natural formation and does not increase the over-all height of such man-made structure or natural formation by more than 20 feet, no Form 401–A need be filed.

3. Amend paragraph (w) of § 16.6 to read as follows:

(w) *Antenna structures.* The term antenna structures includes the radiating system, its supporting structures and any surmounting appurtenances.

4. Amend paragraph (d) of § 16.58 to read as follows:

(d) Description of the antenna system, on FCC Form 401-A in triplicate, in all cases when:

(1) The antenna structure proposed to be erected will exceed an over-all height of 170 feet above ground level, except that where the antenna is mounted on top of an existing man-made structure, other than an antenna structure, and does not increase the over-all height of such man-made structure by more than 20 feet, no Form 401–A need be filed; or

(2) The antenna structures proposed to be erected will exceed an over-all height of one foot above the established airport (landing area) elevation for each 200 feet of distance, or fraction thereof, from the nearest boundary of such landing area, except that where the antenna does not exceed 20 feet above the ground or if the antenna is mounted on top of an existing man-made structure, other than an antenna structure, or natural formation and does not increase the over-all height of such man-made structure or natural formation by more than 20 feet, no Form 401–A need be filed.

5. Amend paragraph (h) of § 19.2 to read as follows:

(h) *Antenna structures.* The term antenna structures includes the radiating system, its supporting structures and any surmounting appurtenances.

6. Amend subparagraphs (1) and (2) of § 19.13 (b), to read as follows:

(1) The antenna structures proposed to be erected will exceed an over-all height of 170 feet above ground level, except that where the antenna is mounted on top of an existing man-made structure, other than an antenna structure, and does not increase the over-all height of such man-made structure by more than 20 feet, no Form 401–A need be filed; or

(2) The antenna structures proposed to be erected will exceed an over-all height of one foot above the established airport (landing area) elevation for each 200 feet of distance, or fraction thereof, from the nearest boundary of such landing area, except that where the antenna does not exceed 20 feet above the ground or if the antenna is mounted on top of an existing man-made structure, other than an antenna structure, or natural formation and does not increase the over-all height of such man-made structure or natural formation by more than 20 feet, no Form 401–A need be filed.

7. Amend § 19.57 (a) to read as follows:

§ 19.57 *Limitation on antenna structures.* (a) No new antenna or antenna structures shall be erected for use by any station licensed or proposed to be licensed in this service, and no change shall be made in any existing antenna or antenna structures for use or intended to be used by any station licensed or proposed to be licensed in this service so as to increase its over-all height above ground level, without prior approval from the Commission in any case when either:

(1) The antenna structures proposed to be erected will exceed an over-all height of 170 feet above ground level, except where the antenna is mounted on top of an existing man-made structure, other than an antenna structure, and does not increase the over-all height of such man-made structure by more than 20 feet; or

(2) The antenna structures proposed to be erected will exceed an over-all height of one foot above the established airport (landing area) elevation for each 200 feet of distance, or fraction thereof, from the nearest boundary of such landing area, except where the antenna does not exceed 20 feet above the ground or if the antenna is mounted on top of an existing man-made structure, other than an antenna structure, or natural formation and does not increase the over-all height of such man-made structure or natural formation by more than 20 feet. Application for Commission approval, if required, shall be submitted on FCC Form 401–A.

[F. R. Doc. 56-4465; Filed, June 6, 1956; 8:51 a. m.]

# PROPOSED RULE MAKING

## DEPARTMENT OF AGRICULTURE

### Agricultural Marketing Service

### [ 7 CFR Part 971 ]

[Docket No. AO 175–A14]

MILK IN DAYTON-SPRINGFIELD, OHIO, MARKETING AREA

PROPOSED AMENDMENTS TO TENTATIVE MARKETING AGREEMENT AND TO ORDER, AS AMENDED, REGULATING HANDLING

Pursuant to the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and the applicable rules of practice and procedure governing the formulation of marketing agreements and marketing orders (7 CFR Part 900), notice is hereby given of a public hearing to be held in Miami Hotel, Second and Ludlow Streets, Dayton, Ohio, June 19, 1956, at 10:00 a. m. for the purpose of receiving evidence with respect to marketing conditions and proposed amendments hereinafter set forth, or appropriate modifications thereof, to the tentative marketing agreement and to the order, as amended, regulating the handling of milk in the Dayton-Springfield, Ohio, marketing area. These proposed amendments have not received the approval of the Secretary of Agriculture.

Proposed by Miami Valley Milk Producers Association:

1. Amend § 971.5 to read as follows:

§ 971.5 *Producer.* (a) "Producer" means any person who produces, under a dairy farm inspection permit or other equivalent certification issued by the appropriate health authority in the marketing area, milk which is (1) received at a plant from which Class I milk is disposed of in the marketing area, or (2) caused by a cooperative association to be delivered in case of emergency, as determined by the market administrator, or if, the antenna is mounted on top of an existing man-made structure, other than an antenna structure, or natural formation and does not increase the over-all height of such man-made structure or natural formation by more than 20 feet, no Form 401–A need be filed.

7. Amend § 19.57 (a) to read as follows:

§ 19.57 *Limitation on antenna structures.* (a) No new antenna or antenna structures shall be erected for use by any station licensed or proposed to be licensed in this service, and no change shall be made in any existing antenna or antenna structures for use or intended to be used by any station licensed or proposed to be licensed in this service so as to increase its over-all height above ground level, without prior approval from the Commission in any case when either:

(1) The antenna structures proposed to be erected will exceed an over-all height of 170 feet above ground level, except where the antenna is mounted on top of an existing man-made structure, other than an antenna structure, and does not increase the over-all height of such man-made structure by more than 20 feet; or

(2) The antenna structures proposed to be erected will exceed an over-all height of one foot above the established airport (landing area) elevation for each 200 feet of distance, or fraction thereof, from the nearest boundary of such landing area, except where the antenna does not exceed 20 feet above the ground or if the antenna is mounted on top of an existing man-made structure, other than an antenna structure, or natural formation and does not increase the over-all height of such man-made structure or natural formation by more than 20 feet. Application for Commission approval, if required, shall be submitted on FCC Form 401–A.

[F. R. Doc. 56-4465; Filed, June 6, 1956; 8:51 a. m.]

(b) Producer's milk shall not be considered as received at a handler's plant until such producer's milk, either in a farm tank pickup truck or in cans, is physically withdrawn at a handler's plant.

2. Amend § 971.6 to read as follows:

§ 971.6 *Handler.* "Handler" means (a) any person, except a person who receives other source milk only, with respect to milk (including any milk from his own farm production) received by him at a plant from which Class I milk is disposed of in the marketing area, or (b) any cooperative association with respect to any milk produced under a dairy farm inspection permit or other equivalent certification issued by the appropriate health authority in the marketing area which such cooperative association causes to be delivered, in case of an emergency as determined by the market administrator, to a plant from which Class I milk is not disposed of in the marketing area. Milk caused to be delivered by a cooperative association in accordance with paragraph (b) of this section shall be considered as having been received by such cooperative association. With respect to milk caused by a handler to be delivered directly from the producer's farm to another handler, the handler to be considered as receiving such milk shall be determined by written agreement between the two handlers filed with the market administrator on or before the 5th day after the end of the first month during which it becomes effective, or in the absence of such an agreement, shall be determined by the market administrator.

3. Amend § 971.7 to read as follows:

§ 971.7 *Other source milk.* "Other source milk" means all skim milk and butterfat contained in:

(a) Receipts during the month in the form of fluid milk products except (1) fluid milk products received from pool plants, or (2) producer milk; and

(b) Products other than fluid milk products from any source (including those produced at the plant) which are reprocessed or converted to another product in the plant during the month.

4. Add new definitions as follows:

*Producer milk.* Producer milk means only that skim milk or butterfat contained in milk (a) received at a pool plant directly from producers, or (b) diverted from a pool plant to a pool plant of another handler in accordance with § 971.6.

*Pool plant.* (a) Pool plant means a plant or other facilities used in the preparation or processing of milk, all or a portion of which, is disposed of on a route(s) in the marketing area; and (b) a plant operated by a cooperative association which receives milk produced under a permit or equivalent certification issued by the appropriate health authority from which such cooperative association causes milk to be delivered to a plant defined in paragraph (a) of this section.

*Nonpool plant.* Nonpool plant means any milk manufacturing, processing or bottling plant other than a pool plant.

*Fluid milk product.* Fluid milk product means milk, including reconstituted milk, skim milk, buttermilk, milk drinks (plain or flavored), concentrated milk, cream, or any mixture in fluid form of skim milk and cream (except storage cream, aerated cream products, eggnog, ice cream mix, evaporated or condensed milk and sterilized products packaged in hermetically sealed containers).

*Producer - handler.* "Producer - handler" means any person who is both a dairy farmer and a handler, but who receives no milk from other dairy farmers.

5. Clarify the application of allocation provisions with respect to the application of the pricing of butterfat in producer milk used in the manufacture of butter.

6. In view of the proposed new definitions and to clarify order language, consider changes in §§ 971.30, 971.41 and 971.44 to conform with these proposals and specifically provide for the classification, allocation and pricing of milk in inventories of fluid milk products.

7a. Amend § 971.41 (a) to include in Class I all products now included in Class II, as follows:

(a) Class I milk shall be all milk and butterfat (1) disposed of in fluid form (except that which was dumped or disposed of for livestock feeding) as milk, including reconstituted milk, skim milk, buttermilk, flavored milk, or flavored milk drinks, sweet or sour cream, and as any mixture of cream and milk (or skim milk); (2) used to produce concentrated milk (excluding those products commonly known as evaporated milk and condensed milk) for fluid consumption; and (3) not specifically accounted for as Class II milk.

b. Delete § 971.41 (b).

c. In § 971.41 (c), line 1, change "Class III" to read "Class II", and in line 8 delete "and Class II".

d. Revise all other provisions of Federal Milk Order No. 71 so as to conform with these class definitions.

8. Amend § 971.43 (a) (3) to read as follows:

(3) As Class I milk if transferred by a handler to a person other than a handler who distributes milk in fluid form and/or manufactures milk products, unless the market administrator is permitted to audit the records of receipts and utilization at the plant of the buyer, in which case the classification of all skim milk and butterfat received at the plant of the buyer shall be determined and the skim milk and butterfat transferred by a handler shall be allocated to the highest use remaining after subtracting in series beginning with Class I milk, receipts of skim milk and butterfat at the plant of the buyer directly from Grade "A" dairy farmers who the market administrator determines constitute the regular source of supply of Grade "A" milk for fluid usage of the plant.

9. Amend the introductory paragraph of § 971.51 (a) to read as follows:

(a) Add to the basic formula price $1.30 during each month of the year, and add or subtract a "supply-demand adjustment" computed as follows:

* * * * *

10. Amend § 971.51 (a) (2) as follows:

(2) Compute a net deviation percentage by subtracting from the current supply-demand percentage computed pursuant to subparagraph (1) of this paragraph, the base period ratio shown in the following schedule:

| Month for which price is being computed | Months used to compute ratio | Base period ratio (percent) |
|---|---|---|
| January | October and November | 81 |
| February | November and December | 81 |
| March | December and January | 78 |
| April | January and February | 76 |
| May | February and March | 74 |
| June | March and April | 72 |
| July | April and May | 66 |
| August | May and June | 63 |
| September | June and July | 67 |
| October | July and August | 74 |
| November | August and September | 81 |
| December | September and October | 82 |

Amend § 971.51 (a) (3) as follows:

(3) Determine the amount of the supply-demand adjustment from the following schedule:

| If net deviation percentage is— | Supply-demand adjustment is— |
|---|---|
| +12 or over | +38 |
| +9 or +10 | +28 |
| +6 or +7 | +20 |
| Between +4 and −4 | 0 |
| +6 or −7 | −20 |
| −9 or −10 | −28 |
| −12 or under | −38 |

When the difference from the base period Class I and Class II utilization percentage does not fall within the tabulated brackets, the adjustment shall be determined by the adjacent bracket which is the same as or nearest to the bracket used in the previous month.

11. Amend § 971.62 (c) to read as follows:

(c) Adding for the month of September 20 percent of the obligated balance in the producer-settlement fund pursuant to § 971.73 (c) on August 31, immediately preceding, adding for each of the months of October and November, 30 percent of the fund and adding for the month of December the remaining 20 percent of the fund.

(It is proposed that this change not be made effective until September 1, 1957, so that producers could be given sufficient notice of change.)

12. Amend all provisions of Federal Milk Order No. 71 necessary to compute Class I prices paid by handlers for producer milk on a per hundredweight basis for milk of 3.5 percent butterfat content, adjusted to other tests by a butterfat differential.

*By the Dairy Division.* 13. Make such changes as may be required to make the entire order conform with any amendments thereto which may result from this hearing and consider suggestions on changes in order language which may clarify any provision or be appropriate in redrafting and reissuance of the entire order.

Copies of this notice of hearing and the order now in effect, may be procured from the market administrator, 434 Third National Bank Building, Dayton, Ohio or from the Hearing Clerk, United States Department of Agriculture, Room 112, Administration Building, Washington 25, D. C., or may be there inspected.

Dated: June 4, 1956.

[SEAL] ROY W. LENNARTSON, *Deputy Administrator.*

### [ 7 CFR Part 989 ]

[Docket No. AO 198–A3]

RAISINS PRODUCED FROM RAISIN VARIETY GRAPES GROWN IN CALIFORNIA

NOTICE OF HEARING WITH RESPECT TO PROPOSED AMENDMENTS TO MARKETING AGREEMENT AND ORDER, AS AMENDED

Pursuant to the Agricultural Marketing Agreement Act of 1937, as amended

(7 U. S. C. 601 et. seq.), and in accordance with the applicable rules of practice and procedure governing proceedings to formulate marketing agreements and marketing orders (7 CFR Part 900), notice is hereby given of a public hearing to be held in the tenth floor auditorium, Pacific Gas and Electric Building, 1401 Fulton Street, Fresno, California, beginning at 10:00 a. m., P. d. s. t., June 18, 1956, with respect to proposed amendments to Marketing Agreement No. 109, as amended, and Marketing Order No. 89, as amended (20 F. R. 6435), regulating the handling of raisins produced from raisin variety grapes grown in California. These proposed amendments have not received the approval of the Secretary of Agriculture.

The public hearing will be held for the purpose of receiving evidence with respect to the proposed amendments which are hereinafter set forth, or appropriate modifications thereof.

The following amendments have been proposed by the Raisin Administrative Committee, the administrative agency for conducting operations under the aforementioned marketing agreement and order, as amended:

1. Amend the provisions of § 989.52 (a) by deleting the last sentence thereof and substituting therefor the following: "A unanimous vote of members (or in the event of the unavailability of a member, his alternate) shall be required to reach a decision on a mail or telegraphic vote."

2. Amend the provisions of § 989.58 (e) by deleting the last two sentences thereof and substituting therefor the following: "Any off-grade raisins (including stemmer waste and raisin offal) accumulated by a handler in reconditioning raisins shall, after such reconditioning has been completed, be disposed of by the handler, without further inspection, for distillation, animal feed, or uses other than for human consumption. Off-grade raisins received by a handler for reconditioning shall be kept by him separate and apart from all other raisins until the quality of the raisins is established by inspection and certification after the raisins have been reconditioned. The committee shall establish, with the approval of the Secretary, such rules and procedures as may be necessary to insure adequate control over the reconditioning of off-grade raisins and the use of the residual matter from such reconditioning operations."

3. Amend the provisions of § 989.59 (a) by changing the period at the end thereof to a colon and adding the following: *"Provided,* That nothing contained in this paragraph shall prohibit the shipment or disposition of packed raisins for which no United States grades have been established or for which no minimum grade standards have been established pursuant to a recommendation of the committee."

(This proposal raises the question as to whether it would be desirable to amend the provisions of § 989.97 (*Exhibit B. minimum grade and condition standards for natural condition raisins*) to include therein the changes of a relatively permanent nature which have been made in such standards during the 1955–56 crop year or to otherwise modify such standards in light of operations during such crop year).

4. Amend the provisions of § 989.59 (e) by deleting the second sentence thereof and substituting therefor the following: "The transferring handler shall submit promptly to the committee a report of such transfer, except that transfers between plants owned by the same handler need not be reported."

5. Amend the provisions of § 989.59 (f) by inserting between the first and second sentences the following: "This shall not prohibit a handler from recovering raisins from: (1) Residual raisins obtained from his processing of standard raisins; and (2) any raisins acquired as standard raisins by him which failed to meet the applicable outgoing grade standards for shipment or final disposition of raisins."

6. Amend the provisions of § 989.63 (a) by deleting the last sentence thereof and substituting therefor the following: "The recommendations of the committee for the fixing of the initial free, reserve, and surplus percentages for any crop year shall be made not later than October 5 of such year."

7. Amend the provisions of § 989.66 (e) (4) by deleting the first sentence thereof and substituting therefor the following: "Each handler's share of the initial offer of surplus tonnage raisins for sale in export shall be determined as the same proportion of the quantity offered that the free tonnage raisins acquired by him is of the free tonnage acquired by all handlers. Likewise, each handler's share of the second and each subsequent offer shall be determined by first computing his share of the total quantity (the then current offer plus all prior offers) offered as of that date, and substracting therefrom the total of his share of all prior offers."

8. Amend the provisions of § 989.67 (b) by deleting all of such provisions and substituting therefor the following:

(b) Reserve tonnage of any varietal type shall not be sold at a price below that which the committee concludes reflects the average price received by producers for free tonnage of the same varietal type purchased by handlers during the current crop year up to the time of any offer for sale of reserve tonnage by the committee, to which shall be added the costs incurred by the committee on account of the receiving, inspecting, storing, insuring, and holding of said raisins: *Provided,* That where the outlook for the next crop year or other factors have caused a downward trend in the price received by producers for free tonnage or in the prevailing price received by handlers for packed raisins, reserve tonnage may be sold to handlers at the current or computed field price as determined by the committee. The committee shall file with the Secretary five days (exclusive of Saturdays, Sundays, and holidays) prior to making any offer to sell reserve tonnage raisins, information relating to the quantity of raisins to be offered and the price or prices at which the raisins are to be offered. The Secretary shall have the right to disapprove the making of such an offer or any price at which any reserve tonnage raisins may be offered for sale. At any time prior to the expiration of the five day period, the offer may be made to handlers upon receiving from the Secretary notice that he does not disapprove the making of such offer.

9. Amend the provisions of § 989.68 (d) by deleting the last sentence thereof and substituting therefor the following: "Unless otherwise authorized by the Secretary, no offer to sell surplus raisins to handlers shall be made by the committee until five days (exclusive of Saturdays, Sundays, and holidays) have elapsed from the time it files with the Secretary information as to the quantity and varietal types of raisins to be offered and the prices at which they are to be offered, and no such offer shall be made if the Secretary disapproves the offer."

(This proposal raises the question as to whether it would be desirable to amend the provisions of § 989.68 (e) for the same purpose.)

The following amendment has been proposed by Alex MacDonald, Thomas Uridge, and Lloyd Cox, raisin producers:

10. Amend the provisions of § 989.48 by adding thereto the following: "Whenever specifically authorized or approved by the committee, an alternate member shall be reimbursed for reasonable expenses incurred by him in attending committee and board meetings, notwithstanding that the committee or board member for whom he serves as alternate also attends such meetings."

The following amendment is proposed by the Fruit and Vegetable Division, Agricultural Marketing Service, United States Department of Agriculture:

11. Make such other changes in the marketing agreement and order as may be necessary to make the entire marketing agreement and order conform with any amendments thereto which may result from this hearing.

Copies of this notice of hearing may be obtained from the Hearing Clerk, United States Department of Agriculture, Room 112, Administration Building, Washington 25, D. C., or W. Allmendinger, Oakland Marketing Field Office, Fruit and Vegetable Division, Agricultural Marketing Service, United States Department of Agriculture, 1515 Clay Street, 6th Floor, Oakland 12, California, or O. C. Fuqua, Fresno Marketing Field Office, Fruit and Vegetable Division, Agricultural Marketing Service, United States Department of Agriculture, 3529 East Tulare Street, Fresno 2, California, or Raisin Administrative Committee, corner Tuolumne and Fulton Streets, Fresno, California.

Dated: June 4, 1956.

[SEAL] ROY W. LENNARTSON,
*Deputy Administrator,*
*Marketing Services.*

## CIVIL AERONAUTICS BOARD

### [ 14 CFR Part 18 ]

[Draft Release No. 56–15]

MAINTENANCE, REPAIR, AND ALTERATION OF AIRCRAFT

NOTICE OF PROPOSED RULE MAKING

Pursuant to authority delegated by the Civil Aeronautics Board to the Bureau of Safety Regulation, notice is hereby given that the Bureau will propose to the Board the adoption of amendments to Part 18 of the Civil Air Regulations as hereinafter set forth.

Interested persons may participate in the making of the proposed rules by submitting such written data, views, or arguments as they may desire. Communications should be submitted in duplicate to the Civil Aeronautics Board, attention Bureau of Safety Regulation, Washington 25, D. C. In order to insure their consideration by the Board before taking further action on the proposed rules, communications must be received by August 15, 1956. Copies of such communications will be available after August 20, 1956, for examination by interested persons at the Docket Section of the Board, Room 5412, Department of Commerce Building, Washington, D. C.

Presently effective Part 18 of the Civil Air Regulations contains rules for the performance of maintenance, repair, and alteration of aircraft which are made applicable by § 18.0 thereof to aircraft "for which airworthiness certificates have been issued by the Administrator, or any component thereof." This language suggests that only certificated airmen are authorized to perform maintenance, repairs, and alterations on an aircraft if it has ever been issued an airworthiness certificate, regardless of whether or not such aircraft is ever intended again to be used in air commerce in the United States. Such was not the intent when Part 18 was promulgated and is, in fact, more restrictive than the Civil Aeronautics Act of 1938, as amended, which requires maintenance to be performed by certificated airmen only when the aircraft is used in air commerce.

On the other hand, § 18.10 of Part 18 requires certificated airmen for the performance of maintenance on a civil aircraft when such aircraft is of current United States registry. As a result, uncertificated persons have performed maintenance on civil aircraft during the time such aircraft was not registered.

In order to bring Part 18 into accord with the Civil Aeronautics Act of 1938, as amended, and with the Board's intent when Part 18 was promulgated, it is proposed to amend the applicability provisions in § 18.0 to make the rules established by Part 18 for the performance of maintenance, repair, or alteration of aircraft applicable only to aircraft, or any component thereof, for which an airworthiness certificate issued by the Administrator has not been surrendered, suspended, or revoked. In addition, it is proposed to delete the present language in § 18.10 which appears to permit an uncertificated person to perform maintenance on civil aircraft when it is not currently registered.

In view of the foregoing, notice is hereby given that it is proposed to amend Part 18 of the Civil Air Regulations:

1. By amending § 18.0 to read as follows:

§ 18.0 *Applicability of this part.* This part establishes rules for the performance of maintenance, repair, and alteration of civil aircraft, or any component thereof, for which an airworthiness certificate issued by the Administrator has not been surrendered, revoked, or suspended.[1]

2. By amending the first sentence of § 18.10 to read as follows:

§ 18.10 *Persons authorized to perform maintenance, preventive maintenance, repairs, and alterations.*[3] No person shall perform maintenance, preventive maintenance, repairs, or alterations on civil aircraft, or components thereof, except as provided as follows:

* * * * *

These amendments are proposed under the authority of Title VI of the Civil Aeronautics Act of 1938, as amended. The proposal may be changed in the light of comments received in response to this notice of proposed rule making.

(Sec. 205, 52 Stat. 984; 49 U. S. C. 425. Interpret or apply secs. 601–610, 52 Stat. 1007–1012, as amended; 49 U. S. C. 551–560)

Dated at Washington, D. C., June 4, 1956.

By the Bureau of Safety Regulation.

[SEAL] JOHN M. CHAMBERLAIN,
*Director.*

[F. R. Doc. 56–4477; Filed, June 6, 1956; 8:54 a. m.]

### [ 14 CFR Part 60 ]

[Draft Release No. 56–14]

HIGH ALTITUDE QUADRANTAL RULE SYSTEM

NOTICE OF PROPOSED RULE MAKING

Pursuant to authority delegated by the Civil Aeronautics Board to the Bureau of Safety Regulation, notice is hereby given that the Bureau will propose to the Board the adoption of amendments to Part 60 of the Civil Air Regulations as hereinafter set forth.

Interested persons may participate in the making of the proposed rules by submitting such written data, views, or arguments as they may desire. Communications should be submitted in duplicate to the Civil Aeronautics Board, attention Bureau of Safety Regulation, Washington 25, D. C. In order to insure their consideration by the Board before taking further action on the proposed rules, communications must be received by August 10, 1956. Copies of such communications will be available after August 14, 1956, for examination by interested persons at the Docket Section of the Board, Room 5412, Department of Commerce Building, Washington, D. C.

Section 60.32 of Part 60 of the Civil Air Regulations currently establishes cruising altitudes appropriate to the direction of flight. These altitude rules must be observed when flight is being conducted under visual flight rules (VFR) on civil airways and in the "elsewhere" area when visibility is less than 3 miles. Section 60.44 contains similar rules which are applicable to flights being conducted under instrument flight rules (IFR) in controlled airspace and in the "elsewhere" area. The purpose of these altitude rules is to provide aircraft with at least 1,000 feet vertical separation when operating on reciprocal courses and at least 500 feet separation when operating on crossing courses.

However, it has now been well established that altimeter system errors increase significantly with increases in altitude and air speed. For example, experience has shown that aircraft which take off from a common point with the same altimeter settings may have altimeter readings which differ as much as 1,000 feet upon reaching a common altitude at or above 29,000 feet. In fact, considerably greater differences have been found to be theoretically possible at these altitudes. As a consequence of this increase in altimeter error with increase in altitude, the safety inherent in the current quadrantal altitude rules actually diminishes as altitude is increased, thereby decreasing the margin of safety at the higher altitudes. Although a considerable amount of research and development is presently being done concerning an improved instrument for measuring altitude, it undoubtedly will be some time before the development, manufacture, procurement, and installation of such an instrument is accomplished.

In order to increase this margin of safety, it is proposed to establish a high altitude quadrantal rule system which would apply to all flights conducted in the airspace at 29,000 feet and above, except IFR flights at assigned altitudes on airways. This proposed system would provide aircraft operating VFR on reciprocal courses with minimum vertical separation of at least 2,000 feet and aircraft operating on crossing courses with at least 1,000 feet.

At 29,000 feet and above the following altitude-direction relationship would apply:

(1) 0° to 89° inclusive—29,000; 33,000; etc.
(2) 90° to 179° inclusive—30,000; 34,000; etc.
(3) 180° to 269° inclusive—31,000; 35,000; etc.
(4) 270° to 359° inclusive—32,000; 36,000; etc.

The 29,000-foot altitude was selected because of the magnitude of altimeter errors and the increase in the number of high speed aircraft at this altitude and above. This altitude appears appropriate also because of special procedures currently in effect whereby 2,000 feet of vertical separation is provided by air traffic control to all IFR traffic operating above 29,000 feet.

It is recognized, of course, that this proposed quadrantal system would have some adverse effect on the climb-cruise procedure common to jet operations and would reduce the number of flight levels

which would be available. However, the Bureau believes that this proposed high altitude quadrantal system is justified since it will substantially minimize the collision hazard at high altitude created by the inaccuracies of the present day altimeter.

A modification of this proposed rule has been suggested to the Bureau which would increase the above proposed flight altitudes by 500 feet; i. e., 29,500, 33,500, etc. This suggestion was intended to provide some separation between an IFR aircraft at an assigned altitude and a VFR aircraft operated in accordance with this quadrantal rule. Although a theoretical separation may be provided by this procedure, it is possible that such a distinction between IFR and VFR flight levels might create confusion and complicate operations generally. Furthermore, since current plans include the possibility of applying a uniform system of air traffic separation to all aircraft at high altitudes, it would be inadvisable to introduce this additional feature unless it were clear that substantial benefits would result. However, interested persons are requested to comment also on this suggested variation of the Bureau's proposal.

In view of the foregoing, notice is hereby given that it is proposed to amend Part 60 of the Civil Air Regulations:

1. By amending § 60.32 to read as follows:

§ 60.32 *Cruising altitudes.* When an aircraft is operated in level cruising flight at 3,000 feet or more above the surface, it shall be operated in accordance with the following cruising altitudes:

(a) *Within control zones and control areas below 29,000 feet.* At an odd or even thousand-foot altitude appropriate to the direction of flight as specified by the Administrator.

(b) *Elsewhere below 29,000 feet.* When the flight visibility is less than 3 miles, at an altitude appropriate to the magnetic course being flown as follows:

(1) 0° to 89° inclusive, at odd thousands (3,000; 5,000; etc.).

(2) 90° to 179° inclusive, at odd thousands plus 500 (3,500; 5,500; etc.).

(3) 180° to 269° inclusive, at even thousands (4,000; 6,000; etc.).

(4) 270° to 359° inclusive, at even thousands plus 500 (4,500; 6,500; etc.).

(c) *Everywhere at or above 29,000 feet.* At an altitude appropriate to the magnetic course being flown as follows:

(1) 0° to 89° inclusive, at 4,000-foot intervals beginning at 29,000 (29,000; 33,000; etc.).

(2) 90° to 179° inclusive, at 4,000-foot intervals beginning at 30,000 (30,000; 34,000; etc.).

(3) 180° to 269° inclusive, at 4,000-foot intervals beginning at 31,000 (31,000; 35,000; etc.).

(4) 270° to 359° inclusive, at 4,000-foot intervals beginning at 32,000 (32,000; 36,000; etc.).

NOTE: "Odd and even" thousand-foot altitudes specified by the Administrator for civil airways will be published in the CAA Flight Information Manual, for sale by the Superintendent of Documents, U. S. Government Printing Office, Washington 25, D. C.

2. By amending § 60.44 to read as follows:

§ 60.44 *Cruising altitudes.* When an aircraft is operated in level cruising flight, it shall be operated in accordance with the following cruising altitudes:

(a) *Within control areas and control zones.* At an altitude assigned by air traffic control;

(b) *Elsewhere below 29,000 feet.* At an altitude appropriate to the magnetic course being flown as follows:

(1) 0° to 89° inclusive, at odd thousands (1,000; 3,000; etc.).

(2) 90° to 179° inclusive, at odd thousands plus 500 (1,500; 3,500; etc.).

(3) 180° to 269° inclusive, at even thousands (2,000; 4,000; etc.).

(4) 270° to 359° inclusive, at even thousands plus 500 (2,500; 4,500; etc.).

(c) *Elsewhere at or above 29,000 feet.* At an altitude appropriate to the magnetic course being flown as follows:

(1) 0° to 89° inclusive, at 4,000-foot intervals beginning at 29,000 (29,000; 33,000; etc.).

(2) 90° to 179° inclusive, at 4,000-foot intervals beginning at 30,000 (30,000; 34,000; etc.).

(3) 180° to 269° inclusive, at 4,000-foot intervals beginning at 31,000 (31,000; 35,000; etc.).

(4) 270° to 359° inclusive, at 4,000-foot intervals beginning at 32,000 (32,000; 36,000; etc.).

NOTE: The above cruising altitudes are not in conflict with those required for flight under VFR rules.

These amendments are proposed under the authority of Title VI of the Civil Aeronautics Act of 1938, as amended. These proposals may be changed in the light of comments received in response to this notice of proposed rule making.

(Sec. 205, 52 Stat. 984, 49 U. S. C. 425. Interpret or apply secs. 601–610, 52 Stat. 1007–1012, as amended, 49 U. S. C. 551–560)

Dated at Washington, D. C., June 4, 1956.

By the Bureau of Safety Regulation.

[SEAL] JOHN M. CHAMBERLAIN, *Director.*

## FEDERAL COMMUNICATIONS COMMISSION

### [ 47 CFR Parts 7, 8 ]

[Docket No. 11725; FCC 56-516]

STATIONS ON LAND AND ON SHIPBOARD IN MARITIME SERVICES

ESTABLISHMENT OF CLASS I PUBLIC COAST STATIONS IN GULF OF MEXICO SEABOARD AREA

In the matter of amendments of Parts 7 and 8 of the Commission's rules to provide for the establishment of Class I public coast stations to be located in the Gulf of Mexico seaboard area by making available therefor certain frequencies between 5,000 kc and 25,000 kc.

1. The Commission has under consideration changes in Parts 7 and 8 of its rules which would make at least one pair of frequencies between 5,000 kc and 25,000 kc available for assignment to such Class I–B public coast stations as hereafter may be established and located in the vicinity of the seaboard area contiguous to the Gulf of Mexico, and to ship stations with which such coast stations would communicate. At present, there are only two public Class I–B coast stations serving the continental United States, one located in the vicinity of New York, New York and the other in the vicinity of San Francisco, California. These Class I–B coast stations utilize relatively high power transmitting equipment and frequencies appropriate to provide long-distance ship-shore communication service to ships at sea, including such service over distances up to several thousand miles.

2. The impetus for this proposed rule making comes from two sources. On December 22, 1955, the Commission received a petition from Mobile Marine Radio, licensee of Class I–A and Class II–B public coast station WLO at Mobile, Alabama, requesting, among other things, that the frequency 8205.5 kc (currently available for assignment during certain daily hours for use by public ship stations on the Mississippi River and connecting inland waters only, except the Great Lakes, and for use by Class II–B public coast stations serving those ship stations) be made available for assignment to a public coast station located in the vicinity of Mobile, Alabama, for communicating primarily with vessels operating in the Gulf of Mexico. In addition to this petition, the Commission received also an application from the American Telephone and Telegraph Company requesting station authority to transmit on a frequency in the 8 Mc band to augment the facilities of its present public class II–B coast station located in the vicinity of Miami, Florida, now utilizing the coast frequency 4427.6 kc in providing maritime mobile radiotelephone service primarily of a regional character. An 8 Mc frequency would provide a longer distance radiotelephone service through this station near Miami for those vessels that travel beyond the range of its present 4 Mc frequency.

3. In view of the interest shown in establishing a longer distance public radiotelephone service directly between coast stations located in the vicinity of the seaboard area of the Gulf of Mexico and vessels plying waters beyond the service range of the existing coast stations' present frequency assignments which are below 5000 kc and above 156 Mc, the Commission accordingly issues this Notice of Proposed Rule Making and invites all interested persons to submit comments. Particular attention is invited to the following specific matters upon which comments are desired:

(a) The possible need for at least one public class I–B coast station to be located in the Gulf of Mexico seaboard area, despite the fact that there are two existing public class I–B coast stations located in the vicinity of San Francisco, California, and New York, New York, utilizing the entire complement of maritime radiotelephone frequencies between 5000 kc and 25000 kc regularly available under international agreement to United States stations for service to vessels wherever located, other than for stations in the Great Lakes region.

(b) The deficiencies, if any, of the present service offered by the San Francisco and New York stations insofar as the existing facilities of those stations may not entirely meet the communications needs of vessels that operate in waters beyond the service range of coast stations now authorized for public radiotelephony in the Gulf of Mexico seaboard area.

4. Before considering the respective merits of individual applications for station authorizations, it is important that the Commission be fully informed with respect to the matters set forth herein in order to determine whether or not its rules should be amended to make appropriate frequencies between 5,000 kc and 25,000 kc available for assignment to such public Class I–B coast station or stations that may be established in the vicinity of the Gulf of Mexico seaboard area and to ship stations with which such coast stations would communicate.

5. This proposal is issued under the authority contained in section 303 (c), (d), (f), and (r) of the Communications Act of 1934, as amended.

6. Any interested person who is of the opinion that the proposed amendments should not be adopted may file with the Commission on or before July 2, 1956, written data, views or briefs setting forth his comments. Comments in support of the proposed amendments may also be filed on or before the same date. Comments in reply to the original comments may be filed within ten days from the last day for filing said original data, views or briefs. The Commission will consider all such comments prior to taking final action in this matter.

7. In accordance with the provisions of § 1.764 of the Commission's rules, an original and fourteen copies of all statements, briefs or comments filed shall be furnished the Commission.

Adopted: May 29, 1956.

Released: June 4, 1956.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] MARY JANE MORRIS, *Secretary.*

[F. R. Doc. 56-4466; Filed, June 6, 1956; 8:52 a. m.]

# NOTICES

## DEPARTMENT OF THE INTERIOR

### Bureau of Land Management

[Docket Nos. DA-124, 138]

WASHINGTON

RESTORATION ORDER UNDER FEDERAL POWER ACT

MAY 31, 1956.

Pursuant to determinations DA-124 and 138, Washington, made by the Federal Power Commission, and in accordance with section 2.5, Part 2 of the Redelegation Order No. 541 approved April 21, 1954, by the Director, Bureau of Land Management, 19 F. R. 2473, it is ordered as follows:

The lands herein described, so far as they are withdrawn and reserved for power purposes, are hereby restored to disposition under the public land laws, subject to the provisions of section 24 of the Federal Power Act of June 10, 1920 (41 Stat. 1075; 16 U. S. C. 818), as amended.

WILLAMETTE MERIDIAN, WASHINGTON

T. 39 N., R. 25 E.,
Sec. 1, Lot 2;
Sec. 2, Lots 7, 8, 9, 10, 11 and 12;
Sec. 12, Lot 3.
T. 39 N., R. 26 E.,
Sec. 7, Lot 5;
Sec. 18, Lots 4, 7, and 8.
T. 30 N., R. 22 E.,
Sec. 13, Lot 2, NW¼NE¼.

The areas described aggregate 415.85 acres.

The subject lands are located in Power Site Classifications Nos. 212 and 407, and in Power Site Reserve No. 197. The lands described in T. 39 N., Ranges 25 and 26 E. are located near or adjacent to Palmer Lake, a tributary of the Similkameen River, and about five miles south of the village of Nighthawk, Washington. The lands described in T. 30 N., R. 22 E. are located adjacent to and north of the right bank of the Methow River, and about two miles south of Methow, Washington. The lands are classified as suitable for disposal under the public sale laws, and to the State of Washington as lieu lands, and possible development of those bordering Palmer Lake for small tract recreational homesites. The lands are composed of rough, rocky terrain and unsuitable for agricultural purposes. While any applications that are filed will be considered on their merits, it is unlikely that any of the restored lands will be classified for any purpose other than that shown above.

The land described above shall be subject to application by the State of Washington for a period of 90 days from the date of publication of this order in the FEDERAL REGISTER for right-of-way for public highways or as a source of material for construction and maintenance of such highways, subject to section 24 of the Federal Power Act, as amended. This order shall not otherwise affect the status of the lands until 10 a. m. on the 91st day after the date of publication of this order in the FEDERAL REGISTER. At that time, the land shall become subject to application, petition, location and selection subject to valid existing rights, the provisions of existing withdrawals, the requirements of applicable laws, and the 90-day preference filing period for veterans and others entitled under the act of September 27, 1944 (58 Stat. 747; 43 U. S. C. sec. 279–284), as amended.

Information showing the periods during which and the conditions under which veterans and others may file applications for these lands may be obtained on request from the Manager, Land Office, Bureau of Land Management, Spokane, Washington.

FRED J. WEILER, *State Supervisor.*

[F. R. Doc. 56-4435; Filed, June 6, 1956; 8:45 a. m.]

[Docket Nos. DA-129; 131]

WASHINGTON

RESTORATION ORDER UNDER FEDERAL POWER ACT

MAY 31, 1956.

Pursuant to determinations DA-129 and 131, Washington, made by the Federal Power Commission, and in accordance with section 2.5, Part 2 of the Redelegation Order No. 541, approved April 21, 1954, by the Director, Bureau of Land Management, 19 F. R. 2473, it is ordered as follows:

The lands herein described, so far as they are withdrawn and reserved for power purposes, are hereby restored to disposition under the public land laws, subject to the provisions of section 24 of the Federal Power Act of June 10, 1920 (41 Stat. 1075; 16 U. S. C. 818) as amended.

WILLAMETTE MERIDIAN, WASHINGTON

T. 31 N., R. 6 E.,
Sec. 27, NE¼NW¼.
T. 7 N., R. 2 E.,
Sec. 32, SW¼NW¼, N½SW¼.

The area described aggregates 160 acres.

The subject lands are located in either Power Site Classification No. 165, or in Power Site Reserve No. 506, and are situated near or on the Kalama River and Arnold Creek near their confluence about one and one-half miles east of Pigeon Springs, Washington, and near the South Fork of the Stillaguamish River in the vicinity of Jorden, Washington. The lands are classified as being suitable for disposal to the State of Washington, Department of Public Lands as lieu lands, being composed of rough, rocky terrain, unsuitable for agricultural use, and valuable principally for timber production and recreational purposes. The lands are not needed in any Federal program. While any applications that are filed will be considered on their merits, it is unlikely that any of the restored lands will be classified for any purpose other than that shown above.

The land described above shall be subject to application by the State of Washington for a period of 90 days from the date of publication of this order in the FEDERAL REGISTER for right-of-way for public highways or as a source of material for construction and maintenance of such highways, subject to section 24 of the Federal Power Act, as amended. This order shall not otherwise affect the status of the lands until 10 a. m. on the

91st day after the date of publication of this order in the FEDERAL REGISTER. At that time, the land shall become subject to application, petition, location and selection subject to valid existing rights, the provisions of existing withdrawals, the requirements of applicable laws, and the 90-day preference filing period for veterans and others entitled to preference under the act of September 27, 1944 (58 Stat. 747; 43 U. S. C. sec. 279–284), as amended.

Information showing the periods during which and the conditions under which veterans and others may file applications for these lands may be obtained on request from the Manager, Land Office, Bureau of Land Management, Spokane, Washington.

FRED J. WEILER,
*State Supervisor.*

---

[Docket No. DA-125]

WASHINGTON

RESTORATION ORDER UNDER FEDERAL POWER ACT

MAY 31, 1956.

Pursuant to determination DA-125, Washington, made by the Federal Power Commission, and in accordance with section 2.5, Part 2 of the Redelegation Order No. 541 approved April 21, 1954, by the Director, Bureau of Land Management, 19 F. R. 2473, it is ordered as follows:

The lands hereinafter described, so far as they are withdrawn and reserved for power purposes and use in connection with a proposed water-power Project No. 2144 for which a permit has been issued by the Federal Power Commission, are hereby restored to location and entry for mining purposes only, subject to the provisions of section 24 of the Federal Power Act of June 10, 1920 (41 Stat. 1075; 16 U. S. C. sec. 818), as amended and subject to the stipulation that if and when the lands are restored they will be used for location and mining purposes only, and that if and when said lands are required for power development by the United States or its permittees or licensees, any structures or improvements placed thereon by the locator or his successors, which are found to interfere with such development, shall be removed or relocated at no cost or liability to the United States, its permittees or licensees, and subject to further condition that the said land shall be used and occupied exclusively for mineral exploration and development and no facility or activity shall be erected or constructed thereon for other purposes until such time as compliance with the requirements of the United States mining laws has been made and patent issued.

WILLAMETTE MERIDIAN, WASHINGTON

T. 39 N., R. 43 E.,
Sec. 21, Lot 7;
Sec. 28, Lot 2.

The area described aggregates 56.55 acres.

The subject lands are located in Power Site Reserve No. 72, approved November 27, 1909.

The land described shall be subject to application by the State of Washington for a period of 90 days from the date of publication of this order in the FEDERAL REGISTER for right-of-way for public highways or as a source of materials for the construction and maintenance of such highways, subject to section 24 of the Federal Power Act, as amended. This order shall not otherwise affect the status of the land until 10:00 a. m. on the 91st day of publication of this order in the FEDERAL REGISTER at which time the land will become available to location and entry under the mining laws only, subject to valid existing rights, the provisions of existing withdrawals, the requirements of the applicable laws, and the reservations, stipulations and conditions herein provided.

FRED J. WEILER,
*State Supervisor.*

[W-02413]

WASHINGTON

ORDER PROVIDING FOR OPENING OF PUBLIC LANDS

MAY 31, 1956.

The order of the Acting Director, Geological Survey, of January 23, 1956, entitled Power Site Cancellation No. 109 (21 F. R. 23) having cancelled in part Power Site Classification No. 177 approved April 27, 1927, and in accordance with section 2.5, Part 2 of the Redelegation Order No. 541 of April 21, 1954, by the Director, Bureau of Land Management, 19 F. R. 2473, it is hereby ordered that the following-described lands be restored to disposition under the applicable public land laws as hereinafter indicated:

WILLAMETTE MERIDIAN, WASHINGTON

T. 27 N., R. 2 W. W. M.,
Sec. 26, NW¼NW¼.

The area described aggregates 40 acres.

The subject lands are located near the Big Quilcene River, and approximately two miles south and west of the town of Quilcene, Washington. The lands are of a rough, rocky terrain, and are not suitable for agriculture or recreational purposes nor small tract development and are not needed in any Federal program.

No application for the restored lands will be allowed under the homestead, desert-land, small-tract or any other non-mineral public land law unless the lands have already been classified as valuable or suitable for such type of application, or shall be so classified upon consideration of an application. Any application filed will be considered on its merits. The lands will not be subject to occupancy or disposition until they have been classified.

This order shall not otherwise become effective to change the status of the lands released by the cancellation in part of Power Site Classification No. 177, until 10 a. m. on the 35th day after date of this order. At that time the said lands shall become subject to application, petition, location and selection under the applicable public land laws, subject to valid existing rights, the provisions of existing withdrawals, the requirements of the applicable laws, and the 91-day preference right filing period for veterans and others entitled to veterans' preference under the act of September 27, 1944 (58 Stat. 747; 43 U. S. C. 279–284), as amended.

Veterans' preference right applications under the act of September 27, 1944 (58 Stat. 747; 43 U. S. C. 279–284), as amended, may be filed on or before 10 a. m. on the 35th day after the date of this order, and those covering the same land shall be treated as though simultaneously filed at that time. Applications filed under the act after that time and during the succeeding 91 days shall be considered in the order in which filed. Applications by non-veterans under the public-land laws filed on or before 10 a. m. on the 126th day after the date of this order shall be treated as though simultaneously filed at that time, where the applications are for the same lands; otherwise, priority of filing will govern.

Inquiries regarding these lands shall be addressed to the Manager, Land Office, Bureau of Land Management, Room 209, Federal Building, Spokane, Washington.

FRED J. WEILER,
*State Supervisor.*

[F. R. Doc. 56-4438; Filed, June 6, 1956; 8:46 a. m.]

[Washington 02320]

WASHINGTON

ORDER PROVIDING FOR OPENING OF PUBLIC LANDS

MAY 31, 1956.

The order of the Acting Director, Geological Survey, of January 23, 1956, entitled Power Site Cancellation No. 108 (21 F. R. 15), having cancelled in part Power Site Classification No. 349 approved June 22, 1944, and in accordance with section 2.5, Part 2 of the Redelegation Order No. 541 of April 21, 1954, by the Director, Bureau of Land Management, 19 F. R. 2473, it is hereby ordered that the following described lands be restored to disposition under the applicable public land laws as hereinafter indicated.

WILLAMETTE MERIDIAN, WASHINGTON

T. 24 N., R. 20 E. W. M.,
Sec. 34, SE¼NE¼, E½SE¼.

The area described aggregates 120 acres.

The subject lands are located near the Columbia River, and adjacent to Zena Creek. The lands are classified as suitable for disposal under the public sale law, being composed of rough, rocky terrain, and are not suitable for farming, recreational use or small tract development and are not needed in any Federal program.

While any application which is filed will be considered on its merits, it is unlikely that any part of the restored lands will be classified for any use or disposal other than shown above. No application for the lands may be allowed under the homestead, small tract, desert land, or any other non-mineral public land law unless the lands have already been classified as valuable or suitable for such type of application, or shall be so classified upon consideration of an application. Any application that is filed will be considered on its merits. The lands will not be subject to occupancy or disposition until they have been classified.

This order shall not otherwise become effective to change the status of the lands released by the cancellation in part of Power Site Classification No. 349 until 10 a. m. on the 35th day after date of this order. At that time the said lands shall become subject to application, petition, location and selection under the applicable public land laws, subject to valid existing rights, the provisions of existing withdrawals, the requirements of the applicable laws, and the 91-day preference right filing period for veterans and others entitled to veterans' preference under the act of September 27, 1944 (58 Stat. 747; 43 U. S. C. 279–284), as amended.

Veterans' preference right applications under the act of September 27, 1944 (58 Stat. 747; 43 U. S. C. 279–284), as amended, may be filed on or before 10 a. m. on the 35th day after the date of this order, and those covering the same land shall be treated as though simultaneously filed at that time. Applications filed under the act after that time and during the succeeding 91 days shall be considered in the order in which filed. Applications by nonveterans under the public land laws filed on or before 10 a. m. on the 126th day after the date of this order shall be treated as though simultaneously filed at that time, where the applications are for the same lands; otherwise, priority of filing will govern.

Inquiries regarding these lands shall be addressed to the Manager, Land Office, Bureau of Land Management, Room 209, Federal Building, Spokane, Washington.

FRED J. WEILER,
*State Supervisor.*

[F. R. Doc. 56-4439; Filed, June 6, 1956; 8:46 a. m.]

## Bureau of Reclamation

MINIDOKA PROJECT, IDAHO

ORDER OF REVOCATION

APRIL 3, 1956.

Pursuant to the authority delegated by Departmental Order No. 2765 of July 30, 1954, I hereby revoke Departmental Order of March 18, 1908, in so far as said order affects the following-described land: *Provided, however,* That such revocation shall not affect the withdrawal of any other lands by said order or affect any other orders withdrawing or reserving the land hereinafter described:

BOISE MERIDIAN, IDAHO

T. 8 S., R. 21 E.,
Sec. 25, S½S½S½.

T. 8 S., R. 22 E.,
Sec. 30, Tract A;
Sec. 31, Lots 1 and 2.

The above areas aggregate 188.05 acres.

E. G. NIELSEN,
*Assistant Commissioner.*

[71620]

JUNE 1, 1956.

I concur. This revocation is made in furtherance of an exchange under section 8 of the act of June 28, 1934, as amended by section 3 of the act of June 26, 1936 (48 Stat. 1272; 49 Stat. 1976; 43 U. S. C. 315g) by which the offered lands will benefit a Federal land program. This restoration is, therefore, not subject to the provisions contained in the act of September 27, 1944 (58 Stat. 747; 43 U. S. C. 279–284) as amended, granting preference rights to veterans of World War II, the Korean Conflict, and others.

DEPUE FALCK,
*Acting Director,*
*Bureau of Land Management.*

[F. R. Doc. 56-4461; Filed, June 6, 1956; 8:50 a. m.]

---

MINIDOKA PROJECT, IDAHO

FIRST FORM RECLAMATION WITHDRAWAL

APRIL 3, 1956.

Pursuant to the authority delegated by Departmental Order No. 2765 of July 30, 1954, I hereby withdraw the following-described lands from public entry, under the first form of withdrawal, as provided by section 3 of the act of June 17, 1902 (32 Stat. 388):

BOISE MERIDIAN, IDAHO

T. 10 S., R. 21 E.,
Sec. 11, SE¼NW¼, N½SW¼.

The above areas aggregate 120 acres.

E. G. NIELSEN,
*Assistant Commissioner.*

[71620]

JUNE 1, 1956.

I concur. The records of the Bureau of Land Management will be noted accordingly.

DEPUE FALCK,
*Acting Director,*
*Bureau of Land Management.*

*Notice for Filing Objections to Order Withdrawing Public Lands for the Minidoka Project, Idaho*

APRIL 3, 1956.

Notice is hereby given that for a period of 30 days from the date of publication of this notice, persons having cause to object to the terms of the above order withdrawing certain public lands in the State of Idaho, for use in connection with the Minidoka Project, may present their objections to the Secretary of the Interior. Such objections should be in writing, should be addressed to the Secretary of the Interior, and should be filed in duplicate in the Department of the Interior, Washington 25, D. C.

In case any objection is filed and the nature of the opposition is such as to warrant it, a public hearing will be held at a convenient time and place, which will be announced, where opponents to the order may state their views and where the proponents of the order can explain its purpose, intent, and extent. Should any objection be filed, notice of the determination by the Secretary as to whether the order should be rescinded, modified or let stand will be given to all interested parties of record and the general public.

E. G. NIELSEN,
*Assistant Commissioner.*

[Public Notice 9, Amdt.]

YUMA MESA DIVISION, GILA PROJECT, ARIZONA

AVAILABILITY OF WATER FOR PUBLIC, STATE, AND PRIVATE LANDS AND OPENING OF PUBLIC LANDS TO ENTRY

MAY 29, 1956.

Pursuant to the act of June 17, 1902 (32 Stat. 388), as amended or supplemented, the following amendments are hereby made to section 20 (c), Public Notice No. 9, entitled "Public Notice Announcing Availability of Water for Public, State and Private Lands and Opening of Public Lands to Entry", issued January 21, 1952:

For Farm Unit "A", Section 33, Township 9 South, Range 23 West, the amount of rough leveled acreage is corrected to read 118.8 instead of 157.4 and the total amount to be included in Contract and Mortgage Covering Predevelopment Charges is corrected to read $7,950.31 instead of $9,680.20.

For Farm Unit "C", Section 3, Township 10 South, Range 23 West, the amount of rough leveled acreage is corrected to read 87.3 instead of 124.0 and the total amount to be included in Contract and Mortgage Covering Predevelopment Charges is corrected to read $6,465.27 instead of $8,109.06.

E. G. NIELSEN,
*Assistant Commissioner,*
*Bureau of Reclamation.*

## Commodity Stabilization Service and Commodity Credit Corporation

GRAIN, SEED AND OTHER COMMODITIES SIMILARLY HANDLED

COMPENSATION UNDER CCC FORM 322 (4–22–54), LENDING AGENCY AGREEMENT FOR COMMODITY LOANS

In order to encourage private lending agencies to continue their participation and investment of their funds in Commodity Credit Corporation loan programs, CCC hereby offers to pay to lending agencies who are party signatories to and operating under the CCC Form 322 (4–22–54), Lending Agency Agreement (for commodity loans on grain, seed and other commodities similarly handled)

notwithstanding the rates specified in said agreement, compensation for loans made pursuant to CCC commodity loan programs for 1956 crops as follows:

1. If the Agency invests its funds in notes evidencing loans made by agency under said agreement or made by another lending agency under a Lending Agency Agreement with CCC, the agency shall receive compensation for interest on the funds invested and for the servicing of such loans as follows:

(a) On loan repayments received by the agency, compensation shall be at the rate of 3¼ percent per annum of the principal amount repaid: *Provided*, That with respect to each repayment either partial or in full on each such loan, the agency shall be entitled to a minimum return of $5.00 or the full amount of interest collected on the repayment, whichever is smaller.

(b) On notes purchased by CCC which are tendered at the option of the Agency, compensation shall be at the rate of 3¼ percent per annum on the outstanding principal balance.

(c) On notes purchased by CCC which are tendered (1) upon demand by CCC, (2) upon maturity of the notes except where CCC otherwise directs, or (3) upon receipt of knowledge of any defect or irregularity in the note or loan agreement or ineligibility of the commodity as security for loans, or knowledge of damage, destruction, or other impairment of the commodity, compensation shall be at the rate of 3¼ percent per annum on the outstanding principal balance: *Provided*, That on each note purchased the Agency shall be entitled to a minimum return of $5.00 or the full amount of the interest accrued on the note, whichever is smaller.

2. The compensation provided herein shall be computed from the respective dates of the loan disbursements by the agency.

This offer may be amended or terminated upon the giving of notice thereof published in the FEDERAL REGISTER but any reduction in interest will not be made retroactive.

Issued this 1st day of June 1956.

[SEAL] WALTER C. BERGER,
*Acting Executive Vice President,*
*Commodity Credit Corporation.*

### Federal Maritime Board

[Docket No. M-69]

MARINE TRANSPORT LINES, INC., AND MARINE NAVIGATION CO., INC.

NOTICE OF HEARING ON APPLICATION TO BAREBOAT CHARTER DRY-CARGO VESSELS

Notice is hereby given that a public hearing will be held pursuant to section 5 (e) of the Merchant Ship Sales Act, 1946, as amended (Public Law 591, 81st Cong.) (50 U. S. C. App. 1738), on June 14, 1956, at 10:00 a. m., e. d. t., in Room 4519, New General Accounting Office Building, Fifth and G Streets NW., Washington, D. C., upon the application of Marine Transport Lines, Inc., and Marine Navigation Company, Inc., to bareboat charter dry-cargo vessels for approximately one (1) year for the carriage of International Cooperation Administration and other Government-sponsored cargoes and such other cargoes as may be approved by the Maritime Administrator, and upon such other applications as may be filed with the Secretary, Maritime Administration, by 4:30 p. m., e. d. t., June 13, 1956, to charter similar vessels for similar use.

The purpose of the hearing is to receive evidence with respect to whether the service for which such vessels are proposed to be chartered is required in the public interest and is not adequately served, and with respect to the availability of privately-owned American-flag vessels for charter on reasonable conditions and at reasonable rates for use in such service. Evidence will be received with respect to any restrictions or conditions that may be necessary or appropriate to protect the public interest in respect of such charters as may be granted and to protect privately-owned vessels against competition from vessels chartered as a result of this proceeding.

All persons having an interest in the application will be given an opportunity to be heard if present.

The parties may have oral argument on conclusion of receipt of evidence.

Dated: June 4, 1956.

By order of the Federal Maritime Board.

[SEAL] GEO. A. VIEHMANN,
*Assistant Secretary.*

AMERICAN EXPORT LINES ET AL.

NOTICE OF AGREEMENT FILED FOR APPROVAL

Notice is hereby given that the following described agreement has been filed with the Board for approval pursuant to Section 15 of the Shipping Act, 1916, 39 Stat. 733, 46 U. S. C. 814.

Agreement No. 8086, between American Export Lines, Inc., American President Lines, Ltd., Farrell Lines Incorporated, et al., covers an arrangement whereby the parties may consult with each other regarding cargo transportation costs, space availability, sailing schedules, and related matters, for the purpose of furnishing accurate data and information with respect thereto to the Military Sea Transportation Service and related "Shipper Services" (Army, Navy, Air Force and other military services), in connection with the transportation of cargo for such services to and from United States Atlantic and Gulf of Mexico ports, to and from ports in territories and possessions of the United States, and also between foreign ports.

Interested parties may inspect this agreement and obtain copies thereof at the Regulation Office, Federal Maritime Board, Washington, D. C., and may submit, within 20 days after publication of this notice in the FEDERAL REGISTER, written statements with reference to the agreement and their position as to approval, disapproval, or modification, together with request for hearing should such hearing be desired.

Dated: June 4, 1956.

By order of the Federal Maritime Board.

[SEAL] GEO. A. VIEHMANN,
*Assistant Secretary.*

## FEDERAL COMMUNICATIONS COMMISSION

[Docket Nos. 11180; 11718; FCC 56-505]

BILL MATHIS AND KEY CITY BROADCASTERS

ORDER DESIGNATING APPLICATIONS FOR CONSOLIDATED HEARING ON STATED ISSUES

In re applications of Bill Mathis, Abilene, Texas, Docket No. 11180, File No. BP-8917; Howard Barrett and Robert H. Nash d/b as Key City Broadcasters, Abilene, Texas, Docket No. 11718, File No. BP-10278; for construction permits.

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 29th day of May 1956:

The Commission having under consideration the above-captioned applications of Bill Mathis, and Howard Barrett and Robert H. Nash d/b as Key City Broadcasters, each for a construction permit for a new standard broadcast station to operate on 1280 kilocycles with a power of 500 watts, daytime only, at Abilene, Texas;

It appearing that Bill Mathis is legally, technically and otherwise qualified and the Key City Broadcasters are legally, technically, financially and otherwise qualified, except as may appear from the issues specified below, to operate the proposed stations, but that the operation of both stations as proposed would result in mutually destructive interference; that the proposed operation of the Key City Broadcasters would be involved in objectionable interference with Station KTRN, Wichita Falls, Texas (1290 kc, 1 kw, 5 kw-LS, DA-N, U); and that insufficient current information is on file from which to determine that Bill Mathis is financially qualified to construct and operate his proposed station; and

It further appearing that, pursuant to section 309 (b) of the Communications Act of 1934, as amended, the subject applicants were advised by letters dated January 16 and March 6, 1956, of the aforementioned deficiencies and that the Commission was unable to conclude that a grant of either of the applications would be in the public interest; and

It further appearing that a timely reply was filed by each of the subject applicants; and

It further appearing that Station KTRN, by letter dated March 24, 1956, expressed an intention of appearing at a hearing; and

It further appearing that the Commission, after consideration of the replies, is of the opinion that a hearing is necessary;

*It is ordered*, That, pursuant to section 309 (b) of the Communications Act of 1934, as amended, the said applications are designated for hearing in a consolidated proceeding, at a time and place to be specified in a subsequent order, upon the following issues:

1. To determine the areas and populations which would receive primary service from each of the proposed operations, and the availability of other primary service to such areas and populations.

2. To determine whether Bill Mathis is financially qualified to construct and operate his proposed station.

3. To determine whether the proposed operation of the Key City Broadcasters would involve objectionable interference with Station KTRN, Wichita Falls, Texas, or any other existing standard broadcast station, and, if so, the nature and extent thereof, the areas and populations affected thereby, and the availability of other primary service to such areas and populations.

4. To determine which of the operations proposed in the above-captioned applications would better serve the public interest in the light of the evidence adduced under the foregoing issues and the record made with respect to the significant differences between the applicants as to:

(a) The background and experience of each of the above-named applicants to own and operate its proposed station.

(b) The proposals of each of the above-named applicants with respect to the management and operation of the proposed stations.

(c) The programming service proposed in each of the above-mentioned applications.

*It is further ordered*, That the Texoma Broadcasting Company of Wichita Falls, Texas, licensee of Station KTRN, is made a party to the proceeding.

Released: June 4, 1956.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] MARY JANE MORRIS,
*Secretary.*

[F. R. Doc. 56-4467; Filed, June 6, 1956; 8:52 a. m.]

[Docket Nos. 11492, 11719; FCC 56-506]

CITIZENS BROADCASTING CO. AND SALEM BROADCASTING CO.

ORDER DESIGNATING APPLICATIONS FOR CONSOLIDATING HEARING ON STATED ISSUES

In re applications of Archie S. Mobley, Pauline A. Mobley, Paul D. Ford and Eleanor J. Ford d/b as Citizens Broadcasting Company, Terre Haute, Indiana, Docket No. 11492, File No. BP-9195; Thomas S. Land and Bryan Davidson d/b as Salem Broadcasting Company, Salem, Illinois, Docket No. 11719, File No. BP-10199; for construction permits.

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 29th day of May 1956;

The Commission having under consideration the above-captioned applications of Archie S. Mobley, Pauline A. Mobley, Paul D. Ford and Eleanor J. Ford, d/b as Citizens Broadcasting Company and Thomas S. Land and Bryan Davidson d/b as Salem Broadcasting Company each for a construction permit for a new standard broadcast station to operate on 1350 kilocycles with a power of 500 watts, daytime only, at Terre Haute, Indiana, and Salem, Illinois, respectively;

It appearing that each of the applicants is legally, technically, financially and otherwise qualified, except as may appear from the issues specified below, to operate its proposed station, but that operation of both stations as proposed would result in mutually destructive interference and that the proposed operation of the Salem Broadcasting Company would be involved in objectionable interference with Stations KCHR, Charleston, Missouri (1350 kc, 1 kw, Day) and WEEK, Peoria, Illinois (1350 kc, 1 kw, DA-2, U); and

It further appearing that pursuant to section 309 (b) of the Communications

Act of 1934, as amended, the subject applicants were advised by letter dated March 8, 1956, of the aforementioned deficiencies and that the Commission was unable to conclude that a grant of either application would serve the public interest; and

It further appearing that in a letter dated December 13, 1955, counsel on behalf of Station WEEK requested that the application of the Salem Broadcasting Company be designated for hearing and that the licensee of WEEK be made a party to the proceeding; thereafter, counsel for WEEK withdrew said request; and

It further appearing that timely reply was received from each subject applicant expressing an intention of appearing at a hearing; and

It further appearing that the Commission, after consideration of the above, is of the opinion that a hearing is necessary;

*It is ordered*, That, pursuant to section 309 (b) of the Communications Act of 1934, as amended, the said applications are designated for hearing in a consolidated proceeding, at a time and place to be specified in a subsequent order upon the following issues:

1. To determine the areas and populations which would receive primary service from each of the proposed operations, and the availability of other primary service to such areas and populations.

2. To determine whether the proposed operation of the Salem Broadcasting Company would involve objectionable interference with Stations KCHR, Charleston, Missouri, and WEEK, Peoria, Illinois, or any other existing standard broadcast station, and, if so, the nature and extent thereof, the areas and populations affected thereby, and the availability of other primary service to such areas and populations.

3. To determine in the light of section 307 (b) of the Communications Act of 1934, as amended, which of the operations proposed in the above-captioned applications would better provide a fair, efficient and equitable distribution of radio service.

4. To determine in the light of the evidence adduced pursuant to the foregoing issues, which, if either, of the applications should be granted.

*It is further ordered*, That the South Missouri Broadcasting Company, Inc., licensee of Station KCHR, is made a party to the proceeding.

Released: June 4, 1956.

[Docket No. 11519; FCC 56M-544]

GREENVILLE BROADCASTING CORP.

ORDER CONTINUING HEARING

In re application of The Greenville Broadcasting Corporation, Greenville, Ohio, Docket No. 11519, File No. BP-9522; for construction permit.

The Hearing Examiner having under consideration the petition filed on May 31, 1956, by the applicant, The Greenville Broadcasting Corporation, requesting a sixty-day continuance of the hearing in the above-styled proceeding presently scheduled for June 5, 1956; and

It appearing that the applicant is having further engineering studies made to determine the possibility of redesigning the directional array to reduce the interference to one or more of the respondents in this proceeding and a continuance will enable the studies to be completed and, if changes in the array are bound to be feasible, the continuance will also enable the applicant to petition to amend the application accordingly; and

It further appearing that counsel for all other parties, including the Broadcast Bureau, waive the provisions of § 1.745 of the Commission's rules and also interpose no objection to a grant of the petition and that good cause has been shown for the grant thereof; and

It further appearing that the requested period of continuance would schedule the hearing in August, during which month the Commission as a matter of policy does not schedule hearings, and that the present September docket of the Hearing Examiner precludes scheduling the hearing before the last part of such month;

*It is therefore ordered*, This June 1, 1956, that the hearing in the above-entitled proceeding be and it is hereby continued to September 24, 1956.

BERNARD AND JOBBINS BROADCASTING CO.

ORDER CONTINUING HEARING

In re application of Charles W. Jobbins and James D. Bernard d/b as Bernard and Jobbins Broadcasting Company, Gilroy, California, Docket No. 11625, File No. BP-9993; for construction permit.

The Hearing Examiner having under consideration a motion for continuance filed by Golden Empire Broadcasting Co. (KHSL) on May 28, 1956;

It appearing that the hearing is currently scheduled to commence on June 13, 1956, but that circumstances would make it inconvenient to proceed on that date; and

It further appearing that the short delay requested will not materially affect the date for the conclusion of these proceedings and that all parties have consented to the requested postponement and to a waiver of § 1.745 of the rules;

*It is ordered*, This 31st day of May 1956, that the motion of Golden Empire Broadcasting Co. for continuance is granted; and that the date for commencement of hearing is continued from June 13 to June 27, 1956, in Washington, D. C.

[Docket No. 11720 etc.; FCC 56-507]

MIDDLESEX BROADCASTING CORP. (WTAO) ET AL.

ORDER DESIGNATING APPLICATIONS FOR CONSOLIDATED HEARING ON STATED ISSUES

In re applications of Middlesex Broadcasting Corporation (WTAO), Cambridge, Massachusetts, Docket No. 11720, File No. BP-8027; Princess Anne Broadcasting Corporation, Virginia Beach, Virginia, Docket No. 11721, File No. BP-9317; Huntington-Montauk Broadcasting Company, Inc. (WGSM), Deer Park, Long Island, New York, Docket No. 11722, File No. BP-9436; Winslow Turner Porter, Bath, Maine, Docket No. 11723, File No. BP-9730; Television & Radio Broadcasting Corporation, Hyannis, Massachusetts, Docket No. 11724, File No. BP-9936; for construction permits.

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 29th day of May 1956;

The Commission having under consideration the above-captioned applications for construction permits of Middlesex Broadcasting Corporation to increase the power of Station WTAO, Cambridge, Massachusetts, from 250 watts to one kilowatt, on 740 kilocycles, daytime only; of the Princess Anne Broadcasting Corporation for a new standard broadcast station to operate on 740 kilocycles with a power of one kilowatt, directional antenna, daytime only, at Virginia Beach, Virginia; of the Huntington-Montauk Broadcasting Company, Inc., to change the location of Station WGSM from Huntington, Long Island, New York, to Deer Park, Long Island, New York, and to operate on its presently assigned frequency of 740 kilocycles with a power of one kilowatt, daytime only; of Winslow Turner Porter for a new standard broadcast station to operate on 730 kilocycles with a power of 500 watts, daytime only, at Bath, Maine; and of the Television & Radio Broadcasting Corporation for a new standard broadcast station to operate on 730 kilocycles with a power of 250 watts, daytime only, at Hyannis, Massauchsetts;

It appearing that each of the applicants is legally, technically and otherwise qualified, except as may appear from the issues specified below, and Middlesex Broadcasting Corporation, Huntington-Montauk Broadcasting Company, Inc. and Winslow Turner Porter are financially qualified, to construct and operate its proposed station, but that the proposed operations are progressively interlinked with mutual interference problems; that the proposed operation of the Middlesex Broadcasting Corporation (WTAO) would involve mutual interference with the proposed operations of the Television & Radio Broadcasting Corporation, Winslow Turner Porter and Huntington-Montauk Broadcasting Corporation, Inc. (WGSM) and with Station WHEB, Portsmouth, New Hampshire (750 kc, 1 kw, L-WSB) and would deliver over 5 microvolts per meter groundwave across the Canadian Border; that the proposed operation of the Princess Anne Broadcasting Corporation would be involved in interference with the existing operation of Station WGSM and with Station WMBL, Morehead City, North Carolina (740 kc, 1 kw, Day), would cause interference to the proposed operation of Station WGSM and to Station WVCH, Chester, Pennsylvania (740 kc, 1 kw, Day), would deliver over 5 microvolts per meter groundwave across the Canadian Border, its proposed antenna system would constitute a hazard to air navigation, and insufficient information has been submitted to establish its financial qualifications; that the proposed operation of Station WGSM (Huntington-Montauk Broadcasting Company, Inc.) would cause interference to Stations WVCH and WMBL and would receive interference from the proposed operations of the Princess Anne Broadcasting Corporation and Station WTAO and from Station WVCH to the extent that the loss in population would be excessive under the provisions of § 3.28 (c) of the Commission's rules; that the proposed operation of Winslow Turner Porter is mutually exclusive with the proposed operation of the Television & Radio Broadcasting Corporation, would be involved in mutual interference with the existing and proposed operation of Station WTAO, would be involved in mutual interference with WHEB, would receive interference from WACE, Chicopee, Massachusetts; and that the proposed operation of the Television & Radio Broadcasting Corporation would also be involved in mutual interference with the existing and proposed operation of Station WTAO, would receive interference from WACE, its proposed antenna structure would constitute a hazard to air navigation and insufficient information has been submitted to establish its financial qualifications; and

It further appearing that, pursuant to section 309 (b) of the Communications Act of 1934, as amended, the subject applicants were notified by letters dated December 9, 1955, and February 27, 1956, of the aforementioned deficiencies and that the Commission was unable to conclude that a grant of any of the applications would be in the public interest; and

It further appearing, that timely replies were received from all the subject applicants, each expressing an intention of appearing at a hearing; and

It further appearing that in letters dated January 3 and March 2, 1956, the Huntington-Montauk Broadcasting Company, Inc. (WGSM), requested that its application be designated for hearing in a separate consolidated proceeding with the application of the Princess Anne Broadcasting Corporation only on the ground that its proposed operation of WGSM would not receive interference from the proposed operation of WTAO to interlink WGSM with the interference problems of the other above applicants, but in view of our finding that interference between the proposed operations of WGSM and WTAO does obtain and that interlinking interference problems with the other applications would result, it appears necessary to designate all the above-captioned applications for hearing in a consolidated proceeding; and that the Huntington-Montauk Broadcasting Company, Inc., has requested a waiver of § 3.28 (c) of the Commission's rules on the ground that the proposed operation of WGSM would provide more service to Long Island, New York, but we are unable to make a determination in this matter on the basis of the information before us; and

It further appearing that, in a letter dated June 8, 1955, Station WMBL requested that the applications of the Princess Anne Broadcasting Corporation and the Television & Radio Broadcasting Corporation be designated for hearing; that Station WHEB requested by letter dated January 4, 1956, that the application of Middlesex Broadcasting Corporation be designated for hearing; and that Station WVCH, in letters dated January 6 and March 26, 1956, requested that the applications of the Princess Anne Broadcasting Corporation and Television & Radio Broadcasting Corporation be designated for hearing; and

It further appearing that because the proposed operations of the Middlesex Broadcasting Corporation and the Princess Anne Broadcasting Corporation would deliver 5 microvolts per meter groundwave across the Canadian border, no final action can be taken on said applications until ratification and entry into force of the new North American Regional Broadcast Agreement, and in the event that either application receives favorable action in the hearing provided for below, it will be returned to the pending file until the new Agreement becomes effective; and

It further appearing that the Commission, after consideration of the above, is of the opinion that a hearing is necessary;

*It is ordered*, That pursuant to section 309 (b) of the Communications Act of 1934, as amended, the said applications are designated for hearing in a consolidated proceeding, at a time and place to be specified in a subsequent order upon the following issues:

1. To determine the areas and populations which would receive primary service from the proposed operations of the Princess Anne Broadcasting Corporation, Winslow Turner Porter, and the Television & Radio Broadcasting Corporation, and the availability of other primary service to such areas and populations.

2. To determine the areas and populations that would gain or lose primary service from the proposed operations of

Stations WTAO and WGSM, and the availability of other primary service to such areas and populations.

3. To determine whether the proposed operations of Station WTAO and Winslow Turner Porter would cause interference to Station WHEB, Portsmouth, New Hampshire, or any other existing stations, and, if so, the nature and extent thereof, the areas and populations affected thereby, and the availability of other primary service to such areas and populations.

4. To determine whether the operations proposed by the Princess Anne Broadcasting Corporation and Station WGSM would cause interference to Stations WMBL, Morehead City, North Carolina, and WVCH, Chester, Pennsylvania, or any other existing stations, and, if so, the nature and extent thereof, the areas and populations affected thereby, and the availability of other primary service to such areas and populations.

5. To determine whether the proposed operation of the Princess Anne Broadcasting Corporation would cause interference to the present operation of Station WGSM, Huntington, Long Island, New York, or any other existing standard broadcast station and, if so, the nature and extent thereof, the areas and populations affected thereby, and the availability of other primary service to such areas and populations.

6. To determine whether, because of the interference received, the proposal of Station WGSM would comply with § 3.28 (c) of the Commission's rules; and if compliance with § 3.28 (c) is not achieved, whether circumstances exist which would warrant a waiver of said section of the rules.

7. To determine whether the operations proposed by Winslow Turner Porter and the Television & Radio Broadcasting Corporation would cause interference to the existing operation of Station WTAO, Cambridge, Massachusetts, or any other existing standard broadcast station and, if so, the nature and extent thereof, the areas and populations affected thereby, and the availability of other primary service to such areas and populations.

8. To determine whether the sites proposed by the Princess Anne Broadcasting Company and the Television & Radio Broadcasting Corporation would be in compliance with § 3.188 of the Commission's rules.

9. To determine whether the Princess Anne Broadcasting Corporation is financially qualified to construct and operate its proposed station.

10. To determine whether the Television & Radio Broadcasting Corporation is financially qualified to construct and operate its proposed station.

11. To determine in the light of section 307 (b) of the Communications Act of 1934, as amended, which of the operations proposed in the above-captioned applications would best provide a fair, efficient and equitable distribution of radio service.

12. To determine, in the light of the evidence adduced pursuant to the foregoing issues, which, if any, of the applications should be granted.

*It is further ordered,* That WHEB, Inc., the Carteret Broadcasting Company and James M. Tisdale, licensees of Stations WHEB, WMBL and WVCH, respectively, are made parties to the proceeding.

*It is further ordered,* That, in the event of favorable action on the application of either the Princess Anne Broadcasting Corporation or the Middlesex Broadcasting Corporation in the hearing provided for herein, the application will be returned to the pending file until ratification and entry into force of the new North American Regional Broadcast Agreement.

Released: June 4, 1956.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] MARY JANE MORRIS,
*Secretary.*

[F. R. Doc. 56-4474; Filed, June 6, 1956; 8:53 a. m.]

[FCC 56-510; 32158]

## VOLUNTARY CONELRAD PLAN FOR ALL CLASSES OF RADIO STATIONS IN TERRITORY OF HAWAII

### ALERTING AND OPERATING PROCEDURE DURING PERIODS OF IMMINENT AIR ATTACK

I. *General information.* The Federal Communications Commission is charged with the development of Plans for the Control of Electromagnetic Radiation (CONELRAD) to be put into effect during periods of imminent air attack. In order that our radio stations will not give material navigational aid to an enemy, it is essential that plans be developed to minimize the navigation aspects of the problem while still providing for transmission of certain types of traffic by radio stations.

It is contemplated that all radio stations licensed by the FCC will operate under controlled conditions[1] during periods of probable air attack.

Until formal plans are developed and made effective, it is requested that all radio stations, to which this memorandum is addressed, voluntarily comply with this plan for alerting and operation.

II. *Scope and application.* This plan applies to all radio stations operating below 890 megacycles, licensed by[2] the Federal Communications Commission and located within the Territory of Hawaii.

III. *Purpose.* The purpose of this plan is to provide a system whereby, in the event of hostile action, or imminent threats thereof, all stations to which this notice is addressed may be notified of CONELRAD Radio Alerts and CONELRAD Radio All Clears, and to provide a means whereby certain classes of stations may continue their operation under controlled conditions, when such operation is essential to the public welfare.

IV. *Definitions. Air defense.* Air defense embraces all measures designed to nullify or reduce the effectiveness of the attack of hostile aircraft or guided missiles.

*Air defense warning conditions.* Terms used for actual emergencies.

*Air defense emergency.* A prepratory, or make ready condition, during which the air defense organization is made operational. This condition is set whenever indications show that air attack is sufficiently probable as to require the implementation of any portion of approved plans and agreements for the air defense of Hawaii and the situation is not yet urgent enough to require the setting of higher condition. The Commander, Hawaiian Defense Command and/or the Air Defense Commander may direct the implementation of CONELRAD upon the setting of this condition without reference and prior to declaration of a higher air defense warning condition.

*Warning Yellow.* Air attack probable. Unidentified aircraft are near the Hawaiian area and the situation is regarded as "air attack likely." This corresponds to Civil Defense Public Action Signal "The Alert". The warning term implies and orders CONELRAD Radio Alert. Sirens are sounded only if civil defense public action "The Alert" is to be implemented.

*Warning Red.* Air or guided missile attack imminent, enemy aircraft are in the Hawaiian area or guided missiles have been detected. This corresponds to the Civil Defense Public Action Signal "Take Cover". The warning term implies and orders CONELRAD Radio Alert. Sirens will sound the "Take Cover" signal.

*Warning White.* All Clear. No unidentified or hostile aircraft are near the Hawaiian area and no guided missiles have been detected. The warning term does not imply nor authorize a condition of CONELRAD Radio All Clear which must be separately directed. Sirens will not be sounded.

*CONELRAD Radio Alert.* The CONELRAD Radio Alert is the Department of Defense order to operate stations in accordance with CONELRAD requirements. When the CONELRAD Radio Alert is issued, all radio stations must adhere to the prescribed controlled operation as determined to be applicable in sections V and IX of this plan and as defined herein. The concept envisions that all agencies, civilian and government, utilizing electromagnetic radiations will exercise controls to the extent that enemy forces will be denied the greatest number of electronic navigational aids practicable and will limit operations to those electronic facilities that are essential to the mission control of U. S. forces and for civil defense.

*CONELRAD Radio All Clear* is the Department of Defense order to discontinue CONELRAD requirements as imposed by an outstanding CONELRAD Radio Alert. This message must be received as such and cannot be implied from Air Defense Warning Condition White or the Civil Defense "All Clear".

*Implied CONELRAD Radio Alert.* Implied CONELRAD Radio Alert is a CONELRAD Radio Alert derived from unofficial reports or the existence of conditions indicating that a CONELRAD Radio Alert condition should be set. Operators of civilian radio facilities should, upon observing actual hostilities, Air Defense Warnings, the cessation of normal broadcasting station operations, civil defense activities, or similar events, take the same action as required by a CONELRAD Radio Alert Message.

*Controlled operation.* As used herein, the term "controlled operation" includes all operations carried out by radio facilities during CONELRAD Radio Alerts and in a manner definitely prescribed by this plan, or other CONELRAD directives issued by the Federal Communications Commission. This includes the cessation of operations, producing radio silence.

*Key station.* A station that receives the CONELRAD Radio Alert directly from a designated military installation or other designated source; and relays the CONELRAD Radio Alert.

*Emergency message.* Radio traffic of an urgent nature and involving the safety of the nation or the safety of people and property.

*Licensed by FCC.* As used herein, includes every form of authority issued by the Federal Communications Commission pursuant to which a station may be operated, including construction permits, station licenses, temporary authorizations, etc.

*Authorized by FCC.* In reference to controlled operations, the term "Authorized by FCC" refers to certain authoritative directives issued by the FCC. These are: This plan, National Defense Emergency Authorizations, and other rules, regulations or specific instruments of authority issued by the FCC for the purpose of authorizing, prescribing or limiting operations during a CONELRAD Radio Alert.

*Normal operation.* Operation in accordance with the stations normally issued license or instrument of authorization.

*Reduced operation.* Transmissions are reduced to only emergency messages and the carrier is removed from the air at other times.

*Limited operation.* The term Limited Operation refers to transmissions authorized by the FCC and the Air Defense Commander for specific periods during a CONELRAD Radio Alert. Such transmissions shall be limited to those essential to the public welfare and as requested by military or civil defense authorities.

V. *The Alerting Plan.* For the purpose of this plan, Air Defense Warnings, CONELRAD Radio Alerts and CONELRAD Radio All Clears are originated by the Air Defense Commander or higher military authority. Refer to paragraph (IV) (Definitions) to determine the relationship between Air Defense Warnings and CONELRAD conditions.

The following listed groups are the primary disseminators of CONELRAD Radio Alerts and CONELRAD Radio All Clears:

Key stations.
Military agencies.
Territorial civil defense agency.
Civil Aeronautics Administration.

Certain standard, FM and TV broadcast stations will be designated as Key Stations by the FCC and will disseminate the CONELRAD Radio Alert by telephone and radio broadcast to implement the CONELRAD plan for the broadcast services.

Each standard, FM and TV broadcast station that is in operation (whether or not it is a Key Station) will, upon the receipt of the CONELRAD Radio Alert, proceed as follows:

(a) Discontinue normal operation.

(b) Cut the transmitter carrier for approximately 5 seconds.

(c) Return the carrier to the air for approximately 5 seconds.

(d) Cut transmitter carrier for approximately 5 seconds.

(e) Return carrier to the air.

(f) Broadcast 1,000 cycle (approx.) steady state tone for 15 seconds.

(g) Broadcast the CONELRAD Radio Alert Message.

CONELRAD Radio Alert Message:

We interrupt our normal program to cooperate in Security and Civil Defense measures as requested by the United States Government.

This is a CONELRAD Radio Alert.

Normal broadcasting will now be discontinued for an indefinite period. Civil Defense information will be broadcast from time to time on 640 kc on your regular radio receiver.

I repeat:

This is a CONELRAD Radio Alert.

Normal broadcasting will now be discontinued for an indefinite period. Civil Defense information will be broadcast from time to time on 640 kc on your regular radio receiver.

(h) Each standard, FM and TV broadcast station will then leave the air.

NOTE: (a) through (f) above, is for the purpose of attracting the listener's attention, or, if desired, to operate an automatic alert receiver or warning device. (Caution: (a) through (f) is a warning that a CONELRAD Radio Alert may follow; the action CONELRAD Radio Alert signal is the spoken word in the form of the CONELRAD Radio Alert Message.)

The CONELRAD Radio Alert Message is worded in a manner suitable for reception by the public; however, it is the Radio Alert Warning, and action should be initiated by all licensees concerned to comply with the CONELRAD operating procedure when the CONELRAD Radio Alert Message is broadcast.

VI. *How the CONELRAD Radio Alert can be received.* (A) Standard, FM and TV broadcast stations will receive individual and specific information relative to how they may receive the CONELRAD Radio Alert.

(B) Licensees of radio stations to which this notice is addressed (except standard, FM and TV broadcast stations) can receive the CONELRAD Radio Alert by monitoring (either manually, or by automatic means) any standard, FM or TV broadcast station in the Territory of Hawaii that is in operation.

(C) Certain radio stations are on Air Defense Warning Networks, or extensions thereof. Such stations can receive the Alert Warning by this means.

(D) Certain Government radio stations will transmit the CONELRAD Radio Alert on 500 kc A2 emission in the following form:

XXX XXX XXX CONELRAD Radio Alert Ordered. ----------
(Limit of affected area designated)
Maintain Radio Silence.

Licensees can receive the Alert by this method if applicable.

(E) Designated Government radio stations will transmit the CONELRAD Radio Alert on 2182 kc A3 emission in the following form:

Urgent Broadcast Urgent Broadcast Urgent Broadcast
CONELRAD Radio Alert Ordered ----------
(Limit of affected area designated)
Maintain Radio Silence.

Licensees can receive the Alert by this means if applicable.

(F) Radio stations to which this notice is addressed, except standard, FM and TV broadcast stations, can receive the CONELRAD Radio Alert by any means of communication from any point that has received the CONELRAD Radio Alert by means of either (B), (C), (D), or (E), above; Provided, specific arrangements are made with the parties concerned for forwarding the CONELRAD Radio Alert.

NOTE: Reception of an Alert by public warning methods such as sirens is not deemed as satisfactory for warning radio stations; however, reception of an Alert by such means is a criterion that an Alert exists and radio stations should at that time be following the CONELRAD operating procedure.

VII. *Responsibility for receiving the CONELRAD Radio Alert.* It is the responsibility of the station licensee to make arrangements for receiving the CONELRAD Radio Alert.

The licensee will be free to choose the method for receiving the Alert listed in VI above in a way most applicable to his situation.

VIII. *CONELRAD Radio All Clear procedure.* The CONELRAD Radio All Clear can be received by one or more of the methods listed below:

(A) Specific instructions shall be furnished standard, FM and TV broadcast stations relative to receiving the CONELRAD Radio All Clear.

(B) By reception of the CONELRAD Radio All Clear from any standard, FM or TV broadcast station. At the conclusion of a CONELRAD Radio Alert and when the CONELRAD Radio All Clear is issued, each standard, FM and TV broadcast station will broadcast on its normally assigned frequency an All Clear Message as follows:

CONELRAD Radio All Clear
Resume Normal Operation

(C) By reception of the CONELRAD Radio All Clear from a government radio station operating on 500 kc A2 emission and transmitting the following message:

CQ CQ CQ DE (Call Letters)
CONELRAD Radio All Clear
----------
(Limit of affected area)

[1] To operate under controlled conditions includes both operation in a definitely prescribed manner and cessation of operation producing radio silence.

[2] As used herein, the term "licensed by" includes every form of authority issued by the Federal Communications Commission pursuant to which a station may be operated, including construction permits, station licenses, temporary authorizations, etc.

(D) By reception of the CONELRAD Radio All Clear from a government radio station operating on 2182 kc A3 emission and transmitting the following message:

To All Ships—To All Ships
This is (Call Letters)
CONELRAD Radio All Clear

(Limit of affected area)

(E) By telephone from authorized sources.

When any of the above messages are received, radio stations to which this notice is addressed may resume normal operation, unless otherwise restricted by order of the Federal Communications Commission.

IX. *CONELRAD operating procedure:*

(A) General: The CONELRAD operating procedure as set forth in this notice is designed to minimize the navigational information that might be obtained from our radio stations while at the same time providing for essential transmissions.

Radio stations continuing to operate during a CONELRAD Radio Alert should, to the extent practicable, comply with the following:

(1) No transmissions shall be made unless they are of extreme emergency affecting the national safety, or the safety of people and property.

(2) Transmissions shall be as short as possible. The station carrier shall be removed from the air during periods of no message transmission.

(3) No station identification shall be given either by announcement of FCC assigned call signal, or by announcement of location.

(B) Detailed operating procedures during a CONELRAD Radio Alert. The following procedures are for stations in the Radio Service indicated:

| *Radio service* | *Operating procedures during a CONELRAD Radio Alert* |
|---|---|
| Standard, FM and TV Broadcast Stations (Part 3 of FCC Rules). | Maintain radio silence, except standard broadcast stations may carry on a limited operation on 640 kc in accordance with a NDEA issued by the FCC. |
| International and Non-Commercial Educational FM Broadcast Services (Part 3 of the FCC Rules). | Maintain radio silence. NOTE: International Broadcast Stations may continue transmissions of urgent government traffic. |
| Experimental and Auxiliary Broadcast Service (Part 4 of the FCC Rules). | Maintain radio silence. |
| Experimental Radio Services (Part 5 of the FCC Rules). | Maintain radio silence, except where this service is used as an integral part of another existing service in which case it may operate in accordance with CONELRAD Operating Procedure IX (A) above. |
| Public Radio Communications Services (Part 6 of the FCC Rules). | Stations operating above 30 Mc may operate in accordance with IX (A), others will maintain radio silence except for transmissions of government traffic in accordance with the requirements of IX (A). |
| Stations on Land in the Maritime Service (Part 7 of the FCC Rules). | Maintain radio silence, except for urgent traffic involving the national safety or the safety of ships. |
| Stations on Shipboard in the Maritime Mobile Service (Part 8 of the FCC Rules). | Maintain radio silence, except for urgent transmission involving the national safety or the safety of the ship. |
| Aviation Radio Services (Part 9 of the FCC Rules). | It is mandatory for radio stations in these services to follow FCC rules 9.1201 through 9.1205. |
| Public Safety Radio Services (Part 10 of the FCC Rules). | Radio stations in this service may operate in accordance with CONELRAD operating procedure IX (A) above. |
| Industrial Radio Services (Part 11 of the FCC Rules). | Radio stations in this service may operate in accordance with CONELRAD operating procedure IX (A) above. |
| Amateur Radio Service (Part 12 of the FCC Rules). | Maintain radio silence. Stations operating in the Radio Amateur Civil Emergency Service may operate in accordance with IX (A) above. |
| Land Transportation Radio Services (Part 16 of the FCC Rules). | Radio stations in this service may operate in accordance with CONELRAD operating procedure IX (A) above. |
| Citizens Radio Service (Part 19 of the FCC Rules). | Maintain radio silence except those stations licensed for Civil Defense purposes may operate in accordance with IX (A) above. |
| Disaster Communication Radio Services (Part 20 of the FCC Rules). | Radio stations in this service may operate in accordance with CONELRAD operating procedure IX (A) above. |

X. *Future CONELRAD plans.* As future CONELRAD plans and regulations are approved and made mandatory, the radio service concerned shall discontinue operation under this voluntary plan and proceed in accordance with the approved plans and regulations.

XI. *Tests.* Tests of the alerting system involving broadcast station reception will be conducted from time to time.

This plan will be fully implemented only in the event of an actual CONELRAD Radio Alert and only until such time as approved mandatory plans and regulations are complete and officially put in operation.

It is not contemplated that tests of the 500 kc or 2182 kc alerting arrangement will be conducted under this voluntary plan.

Tests of the CONELRAD operating procedure (i. e. discontinuing transmissions or operating in a prescribed manner as in IX above) will not be required except on a voluntary basis under this plan.

XII. *General information.* It should be noted that this CONELRAD plan is voluntary and should be carried out to the extent practicable and that the "cut off" frequency is 890 Mc.

Many problems relating to CONELRAD alerting and operation remain unsolved in this Voluntary Plan; for instance, the terms "urgent traffic", "transmissions affecting the national safety or the safety of people and property", "safety of ships" etc., are not specifically defined or interpreted. Interpretations and decisions on these points must be made by station licensees as far as this Voluntary Plan is concerned.

It is contemplated that the CONELRAD alerting system using standard, FM and TV broadcast stations will continue to be a basic method of alerting and that equipment purchased for receiving the CONELRAD Radio Alert will be appropriate for final mandatory CONELRAD plans.

During a CONELRAD Radio Alert stations permitted to operate as in IX above must not identify themselves by FCC assigned call signal or location.

If identification is necessary to carry on the service, the use of tactical calls will be authorized.

Normal station identification is, of course, required in accordance with the rules and regulations for that service at all times except during a CONELRAD Radio Alert.

Adopted: May 29, 1956.

Released: June 4, 1956.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] MARY JANE MORRIS,
*Secretary.*

[F. R. Doc. 56-4475; Filed, June 6, 1956; 8:53 a. m.]

## FEDERAL POWER COMMISSION

[Docket No. G-4331 etc.]

UNION OIL COMPANY OF CALIFORNIA ET AL.

ORDER FIXING DATE FOR ORAL ARGUMENT

In the matters of Union Oil Company of California, Docket No. G-4331; Union Oil Company of California and Louisiana Land and Exploration Company, Docket No. G-4332; Morris Ranch et al., Docket No. G-4334; Bel Oil Corporation, Docket No. G-4505.

On May 2, 1956, the Presiding Examiner issued a Decision in the above-designated matters. Exceptions thereto were filed on May 22, 1956 jointly by Union Oil Company of California and Louisiana Land and Exploration Company (Union and Louisiana Land), Transcontinental Gas Pipe Line Corporation, and Commission Staff. Bel Oil Corporation (Bel Oil) filed its exceptions to the Decision on May 25, 1956, as did Morris Ranch et al. Union and Louisiana Land also filed a joint motion for opportunity to present oral argument before the Commission in support of their exceptions. Bel Oil also requested opportunity for such oral argument.

The Commission finds: It is appropriate in carrying out the provisions of the Natural Gas Act that oral argument be had before the Commission in these matters as hereinafter ordered and provided.

The Commission orders:

(A) Oral argument shall be had before the Commission on June 28, 1956, at 10:00 a. m., e. d. s. t., in a hearing room of the Federal Power Commission, 441 G Street NW., Washington, D. C., concerning the matters involved and the issues presented by the above-mentioned exceptions to the Presiding Examiner's Decision herein.

(B) Those parties to this proceeding who intend to participate in the oral argument shall notify the Secretary of the Commission on or before June 18, 1956, of such intention and of the time required for presentation of their argument.

Issued: June 1, 1956.

By the Commission.

[SEAL] LEON M. FUQUAY,
*Secretary.*

[F. R. Doc. 56-4449; Filed, June 6, 1956; 8:48 a. m.]

[Docket No. G-6976 etc.]

PAN AMERICAN PRODUCTION CO. ET AL.

NOTICE OF APPLICATIONS AND DATE OF HEARING

Take notice that each of the Applicants listed below has filed an application for a certificate of public convenience and necessity pursuant to section 7 (c) of the Natural Gas Act, authorizing such Applicant to continue to sell natural gas subject to the jurisdiction of the Commission, all as more fully represented in the respective applications which are on file with the Commission and open for public inspection. These matters should be consolidated and disposed of as promptly as possible under the applicable rules and regulations and to that end:

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing will be held on the date and at the place hereinafter stated, concerning the matters involved in and the issues presented by such applications: *Provided, however,* That the Commission may, after a non-contested hearing, dispose of the proceedings pursuant to the provisions of § 1.30 (c) (1) of the Commission's rules of practice and procedure.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) not less than ten days before the date of hearing. Failure of any party to appear at and participate in the hearing shall be construed as waiver of and concurrence in omission herein of the intermediate decision procedure in cases where a request for waiver is made. Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicants to appear or be represented at the hearing.

The dockets, Applicants and material averments in applications to which reference is made above are as follows:

*Docket No.; Name and Address; Filing Date; Gas Field; and Purchaser*

G-6976; Pan American Production Company, Houston, Tex.; 11-30-54; North Luther, Howard County, Tex.; Reef Field Gasoline Corporation.

G-6977; Pan American Production Company, Houston, Tex.; 11-30-54; North Luther, Howard County, Tex.; Reef Field Gasoline Corporation.

G-6978; Pan American Production Company, Houston, Tex.; 11-30-54; North Luther, Howard County, Tex.; Reef Field Gasoline Corporation.

G-6979; Pan American Production Company, Houston, Tex.; 11-30-54; Oceanic, Borden and Howard Counties, Tex.; Reef Field Gasoline Corporation.

G-6980; Pan American Production Company, Houston, Tex.; 11-30-54; Reinecke, Borden County, Tex.; Reef Field Gasoline Corporation.

G-6989; Dunlap Oil Corporation, San Antonio, Tex.; 11-30-54; Seeligson, Jim Wells County, Tex.; Tennessee Gas Transmission Company.

G-6991; Katherine Ryan, San Antonio, Tex.; 11-30-54; West Snyder, Scurry County, Tex.; Standard Oil Company of Texas.

G-6993; Lloyd H. Smith, Inc., Houston, Tex.; 11-30-54; Hog Bayou, Cameron Parrish, La.; Tennessee Gas Transmission Company.

G-6995; TideWater Associated Oil Company, Houston, Tex.; 11-30-54; Hico Knowles, Lincoln Parish, La.; Texas Eastern Transmission Corporation.

G-6996; Harry Hurt, Giorgio Uzielli, Jesse B. Spiller, Barbara R. Michel, Harley J. Earl, Robert L. Stott, Muriel R. Pershing, Clifford W. Michel, G. Peter Fleck, Kathryn B. Miller, Abraham L. Bienstock and Edgar Ainsworth Eyre, all of New York, N. Y., except Harry Hurt of Houston, Tex., and Harley J. Earl of Detroit, Mich.; 11-30-54; Carthage, Panola County, Tex.; United Gas Pipeline Company.

G-6997; E. E. Park, Thomas W. Poore, V. M. Rutherford, Dean W. and Stella Lemaster and Clarence W. Burr, Oklahoma City, Okla.; 11-30-54; Appelton, Jefferson County, Okla.; Lone Star Gas Company.

R. Horrigan, Estate, and Coast Properties Company, Trustee, Houston, Tex.; 11-30-54; South Runge, Karney County, Tex.; Wilcox Trend Gathering System.

G-7001; Westpan Hydrocarbon Company, Amarillo, Tex.; 11-30-54; Blanco, San Juan and Rio Arriba Counties, N. Mex.; El Paso Natural Gas Company.

G-7002; Herman Brown, Houston, Tex.; 11-30-54; Bear Creek and Driscoll, Bienville Parish, La.; Arkansas-Louisiana Gas Company.

G-7031; Gasoline Production Corporation and Rose Hill Oil Company, San Antonio, Tex.; 11-30-54; Hilzmark, Bee County, Tex.; Wilcox Trend Gathering System.

G-7032; Gasoline Production Corporation, Vivian H. McMurry, Henderson Coquat, Simmons Oil Company, and Dirks Brothers, a partnership, San Antonio, Tex.; 11-30-54; Mineral, Bee County, Tex.; Transcontinental Gas Pipeline Corporation.

G-7033; Gasoline Production Corporation, Gladys Brauer and Rodney De Lange, San Antonio, Tex.; 11-30-54; South Mineral, Bee County, Tex.; Transcontinental Gas Pipeline Corporation.

G-7034; Gasoline Production Corporation and Francita Gas Company, San Antonio, Tex.; 11-30-54; South Mineral, Bee County, Tex.; Transcontinental Gas Pipeline Company.

A public hearing will be held on the 2d day of July 1956, beginning at 9:30 a. m., e. d. s. t., in a hearing room of the Federal Power Commission 441 G Street NW., Washington, D. C., concerning the matters involved in and the issues presented by the above application.

By the Commission.

[SEAL] LEON M. FUQUAY,
*Secretary.*

JUNE 1, 1956.

[F. R. Doc. 56-4441; Filed, June 6, 1956; 8:46 a. m.]

[Docket Nos. G-9146, G-9498]

SHAMROCK OIL AND GAS CORP.

ORDER GRANTING REQUEST FOR RECONSIDERATION AND POSTPONING HEARING

The Shamrock Oil and Gas Corporation (Shamrock) filed on May 15, 1956, a request for postponement of the hearing herein now scheduled for June 11, 1956. The Secretary on May 16, 1956, issued a notice denying said request for postponement.

Shamrock filed thereafter, on May 22, 1956, a request for reconsideration of the notice denying its request for postponement of hearing.

The Commission finds: Good cause has been shown for postponing the aforementioned hearing from June 11, 1956, to July 25, 1956.

The Commission orders: The hearing herein now scheduled for June 11, 1956, is hereby postponed to July 25, 1956, at 10:00 a. m., e. d. s. t., in a hearing room of the Federal Power Commission, 441 G Street NW., Washington, D. C.

Issued: June 1, 1956.

By the Commission.

[Docket Nos. G-9331, G-9448]

TENNESSEE GAS TRANSMISSION CO.

NOTICE OF SEVERANCE OF PROCEEDING, CONSOLIDATION AND DATE OF HEARING

JUNE 1, 1956.

Tennessee Gas Transmission Company (Tennessee), by its application filed on September 16, 1955, as supplemented on November 16, December 16 and 22, 1955, in Docket No. G-9331, proposed to deliver additional peak day volumes to certain of its existing customers for the 1955-1956 winter season ending April 30, 1956.

Tennessee, by its application filed on October 10, 1955, in Docket No. G-9448, proposes, inter alia, to deliver additional peak day volumes to certain of its existing customers for the 1956-1957 winter season ending April 30, 1957.

Tennessee's application in Docket No. G-9448 was consolidated for the purpose of hearing by the Commission's order

issued February 17, 1956, In the Matters of Midwestern Gas Transmission Company, Docket Nos. G–9451, G–9452, and G–9453; Tennessee Gas Transmission Company, Docket Nos. G–1922, G–9448, G–9449, G–9450, and G–9454; Iron Ranges Natural Gas Company, Docket No. G–9648; and Central Wisconsin Gas Company, Docket No. G–9813, which hearing was commenced on February 14, 1956, and is now in recess until further notice.

Tennessee's application in Docket No. G–9331 was set for hearing on May 8, 1956, by notice of application and date of hearing, dated April 9, 1956, and subsequently postponed until May 24, 1956, by notice of postponement of hearing, dated May 1, 1956. The hearing was convened and recessed on motion of Staff Counsel until further notice.

It appears that Tennessee's applications in Docket Nos. G–9331 and G–9448 involve common questions of law and fact with respect to the proposal to deliver additional peak day volumes to certain of its customers for the 1955–1956 and 1956–1957 winter seasons and should be consolidated for the purpose of hearing, and to that end:

Take notice that the proceeding in Docket No. G–9448 is severed from the proceedings consolidated by the Commission's order issued February 17, 1956, and referred to above.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing will be held on June 19, 1956, at 10:00 a. m., e. d. s. t., in a hearing room of the Federal Power Commission, 441 G Street NW., Washington 25, D. C., concerning the matters involved in and the issues presented by the applications for certificates of public convenience and necessity filed by Tennessee Gas Transmission Company in Docket Nos. G–9331 and G–9448.

[SEAL] LEON M. FUQUAY,
*Secretary.*

[F. R. Doc. 56–4446; Filed, June 6, 1956; 8:47 a. m.]

---

[Docket No. G–10090]

WASHINGTON GAS LIGHT CO.

NOTICE OF APPLICATION AND DATE OF HEARING

JUNE 1, 1956.

Take notice that Washington Gas Light Company, Applicant, a corporation organized and existing under the laws of the United States of America and a domestic corporation of the Commonwealth of Virginia, having its principal place of business in Washington, D. C., filed on March 12, 1956, an application and on April 17, 1956, a supplement thereto for a certificate of public convenience and necessity under section 7 of the Natural Gas Act, authorizing it to construct and operate certain proposed facilities for the transmission of natural gas, as hereinafter described, subject to the jurisdiction of the Commission, all as more fully represented in the application which is on file with the Commission and open for public inspection.

The proposed facilities consist of: Approximately 26.1 miles of 24-inch gas transmission line extending south from the metering station of Atlantic Seaboard Corporation, located near Dranesville, Virginia, to a point near the town of Fairfax, thence south and east to a point near Springfield, and thence easterly to a point near the Hybla Valley Airport, all in Virginia. From this point, approximately 2.7 miles of 20-inch gas transmission line will be built extending northward to Franconia Road near Norton Street, where it will connect to the existing 16-inch gas pipeline of Applicant connecting with the District of Columbia facilities.

It is estimated that the capacity of the existing 16-inch main transmission line in Virginia has a capacity to transport 3,500 Mcf per hour from the connection with Atlantic Seaboard to the main market areas in Arlington. The maximum hourly demands in Virginia are expected to reach 4,890 Mcf during the winter of 1956–57 increasing to 6,800 Mcf in the 1960–61 winter. Because of increasing loads in the Maryland area, the Maryland transmission lines of Applicant cannot assist the Virginia line in meeting the estimated Virginia loads.

Applicant's estimated total system peak day requirements are as follows:

| | Maximum day (Mcf) | |
|---|---|---|
| | Average, °F. | Estimated |
| 1956–57 | 5° | 340,000 |
| 1957–58 | 5° | 365,000 |
| 1958–59 | 5° | 387,700 |

It is alleged that the facilities proposed herein will provide needed additional supply of gas to the rapidly expanding Virginia area, will enable the Applicant to dispatch gas from Virginia to the District of Columbia and Maryland areas via Key Bridge during high demands or emergency situations, and will thus enable Applicant to meet estimated future requirements of its entire system with maximum flexibility of operations.

The estimated cost of construction of the proposed facilities is $3,380,000. It is planned to finance these facilities with funds available from operations, proceeds of the sale of common stock and temporary bank borrowings.

This matter is one that should be disposed of as promptly as possible under the applicable rules and regulations and to that end:

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing will be held on Monday, July 2, 1956, at 9:30 a. m., e. d. s. t., in a hearing room of the Federal Power Commission, 441 G Street NW., Washington, D. C., concerning the matters involved in and the issues presented by such application: *Provided, however,* That the Commission may, after a non-contested hearing, dispose of the proceedings pursuant to the provisions of § 1.30 (c) (1) or (c) (2) of the Commission's rules of practice and procedure.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before June 20, 1956. Failure of any party to appear at and participate in the hearing shall be construed as waiver of and concurrence in omission herein of the intermediate decision procedure in cases where a request therefor is made. Under the procedure herein provided for unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

[SEAL] LEON M. FUQUAY,
*Secretary.*

[F. R. Doc. 56–4447; Filed, June 6, 1956; 8:48 a. m.]

---

[Docket No. G–10130]

NEW YORK STATE NATURAL GAS CORP. AND TEXAS EASTERN TRANSMISSION CORP.

NOTICE OF APPLICATION AND DATE OF HEARING

JUNE 1, 1956.

New York State Natural Gas Corporation and Texas Eastern Transmission Corporation (Applicants), New York and Delaware corporations, respectively, having their principal places of business located at Pittsburgh, Pennsylvania, and Shreveport, Louisiana, respectively, filed a joint application on March 21, 1956, for authority to construct, operate and acquire additional facilities in the Oakford storage field in Westmoreland County, Pennsylvania, all as more fully hereinafter described, subject to the jurisdiction of the Commission, all as more fully represented in the joint application which is on file with the Commission and open for public inspection.

Applicants state that the Oakford storage field is jointly owned by them and is operated by New York State Natural Gas Corporation.

Applicants also state that the Oakford storage project consists of two storage reservoirs, namely the Murrysville Sand which occurs at 1,900 feet depth and is about 100 feet in thickness, and the Fifth Sand which occurs at 2,400 feet depth and is about 60 feet in thickness, and the requested facilities and their estimated costs, which will be financed by funds on hand, are as follows:

| | |
|---|---|
| 1. Additional 6,000 compressor horsepower at existing Jeannette compressor station, Murrysville Pool, Westmoreland County, Pennsylvania [1] | $1,668,000 |
| 2. Remove from Jeannette compressor station one 350 compressor horsepower and install the same at the proposed South Oakford station [1] | 15,000 |

[1] After proposed removal and addition of compressors, total horsepower at Jeannette will be 9,630, 350 at S. Oakford, which together with 30,000 horsepower at Oakford gives total storage horsepower of 39,980.

| | |
|---|---|
| 3. One mile of 20-inch pipeline extending from Jeannette compressor station to a proposed measuring station on the 30-inch lateral line of Texas Eastern [2] | $86,000 |
| 4. 5.7 miles of 6⅝-inch O. D. and 0.57 miles of 8⅝-inch O. D. well lines to connect three wells authorized in Docket No. G–1391, to Oakford storage project piping system | 228,000 |
| 5. To install as part of the same project, 43 measuring stations | 111,000 |
| Total | 2,108,000 |

[2] Includes $17,000 cost of measuring station.

A major portion of the facilities described in items (4) and (5) above will be installed in 1956 and the remainder in 1957. Of the total facilities proposed the major part will be in connection with storage operation in the Murrysville Sand and the remainder in connection with the Fifth Sand storage.

Applicants further state that the development of the Oakford storage project began in 1951 and increasing amounts of gas were injected or withdrawn each year as facilities were completed. During 1954, the injection of the full 45 billion cubic feet of base gas was completed, and in 1955, the top storage gas balance reached a figure of 45 billion cubic feet. Thus by the end of the input season in October 1955, the total inventory of gas in the Oakford storage area reached 90 billion cubic feet in both the 5th and Murrysville sands.

Applicants allege that withdrawals have been continuous throughout the winter of 1955–56. On December 20, 1955, the total withdrawals from both sands amounted to 426.4 million cubic feet of gas in 24 hours. There were also eight other days in the present withdrawal season to the end of January 1956, on which total daily withdrawals of gas exceeded 400 million cubic feet. By February 20, 1956, the total inventory was about 61 billion cubic feet after withdrawals of about 29 billion cubic feet during the winter of 1955–56. It is expected that the total top gas withdrawal will reach 45 billion cubic feet by the end of March 1956.

Applicants also allege that the plan of development authorized by the Commission in Docket No. G–1391 calls for a still larger inventory in 1956 and Applicants expect to make even heavier withdrawals during the winter of 1956–57, that is, an inventory of 105 billion cubic feet and a total withdrawal of 60 billion cubic feet of top gas at the rate of 400,000 Mcf per day for 150 days. Of this total inventory 84 billion cubic feet will be in the Murrysville sand and approximately 50 billion cubic feet will be withdrawn annually therefrom.

Applicants further allege that when the Oakford Field was first proposed for storage purposes, it was believed that the Murrysville sand was divided into two parts by a saddle located at approximately a mid-way position between north and south. Continued operation of the storage has shown the lack of an effective barrier by increases in the well pressures in the so-called South Oakford area. It was intended to utilize only the North Oakford area at maximum pressure and deliverability. With gas migrating southward, this cannot be obtained and now two alternatives are open to Applicants, which are:

(1) To reduce during the withdrawal season the pressure and volume of migrated gas in the saddle area between the north and south portions of the Murrysville sand area. This will, if successful, effectively minimize migration of gas to the south, and at the same time retain injected gas within a minimum injection area to the north at maximum pressure and deliverability. The net result of this type of operation will be a downward gradation of pressures from north and south over a range from 478–49 psig at well head, at the beginning of the withdrawal season, and a similar gradation at the end of such season over a range of 117–51 psig.

(2) To utilize both the north and south areas as a unit. With a given volume in storage, the pressures would be reduced requiring an increased number of wells to obtain necessary deliverability and increased compression facilities for delivering the gas into the pipe lines. Increased well lines will also be required.

Applicants have chosen the method first described above. Should it not be successful, the facilities would still be required, plus additional ones, to make the necessary storage volumes available.

This matter is one that should be disposed of as promptly as possible under the applicable rules and regulations and to that end:

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing will be held on July 3, 1956, at 9:30 a. m., e. d. s. t., in a hearing room of the Federal Power Commission, 441 G Street NW., Washington, D. C., concerning the matters involved in and the issues presented by such joint application: *Provided, however,* That the Commission may, after a non-contested hearing, dispose of the proceedings pursuant to the provisions of § 1.30 (c) (1) or (c) (2) of the Commission's rules of practice and procedure. Under the procedure herein provided for, unless otherwise advised, it will not be necessary for Applicants to appear or be represented at the hearing.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before June 19, 1956. Failure of any party to appear at and participate in the hearing shall be construed as waiver of and concurrence in omission herein of the intermediate decision procedure in cases where a request therefor is made.

[SEAL] LEON M. FUQUAY,
*Secretary.*

[F. R. Doc. 56–4442; Filed, June 6, 1956; 8:47 a. m.]

---

[Docket No. G–10216]

ARKANSAS LOUISIANA GAS CO.

NOTICE OF APPLICATION AND DATE OF HEARING

JUNE 1, 1956.

Take notice that Arkansas Louisiana Gas Company (Applicant), a Delaware corporation with principal place of business at Slattery Building, Shreveport 94, Louisiana, filed on April 9, 1956, as supplemented May 4, 1956, an application for a certificate of public convenience and necessity, pursuant to section 7 (c) of the Natural Gas Act, authorizing Applicant to render service as hereinafter described, subject to the jurisdiction of the Commission, all as more fully represented in the application which is on file with the Commission and open for public inspection.

Applicant proposes to construct and operate, as an integral part of its existing natural gas system, certain natural gas facilities as hereinafter described which are necessary to the transportation and delivery in interstate commerce of natural gas to be sold and distributed directly by Applicant to residential and commercial consumers along the proposed "Maud Pipeline" and within the Town of Maud, Texas, via a distribution system proposed to be constructed and operated by Applicant within said town.

The facilities proposed to be constructed and operated by Applicant consist of a line tap with incidental metering and regulating facilities to be located on Applicant's Line CM–14 at Station 251+00 in Texas and, running in a southwesterly direction from a point of interconnection therewith to the proposed distribution system in the Town of Maud, Texas, approximately 14.27 miles of 4½-inch O. D. pipeline to be known as the "Maud Pipeline".

The estimated cost of construction of the line tap and incidental facilities is stated to be $3,400 and that of the Maud Pipeline is stated to be $135,100, making a total of $138,500 for the facilities for which certification is sought. The estimated cost of construction of the proposed Maud Distribution Sytem is stated to be $83,500.

The estimated gas requirements in Mcf for the proposed project are as follows:

| Year of operation | Peak day | Annual |
|---|---|---|
| 1 | 504 | 53,000 |
| 2 | 579 | 60,500 |
| 3 | 623 | 64,750 |
| 4 | 654 | 68,200 |
| 5 | 670 | 70,550 |

This matter is one that should be disposed of as promptly as possible under the applicable rules and regulations and to that end:

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing will be held on Monday, June 25, 1956, at 9:30 a. m., e. d. s. t., in a hearing room of the Federal Power Commis-

sion, 441 G Street NW., Washington, D. C., concerning the matters involved in and the issues presented by such application: *Provided, however,* That the Commission may, after a non-contested hearing, dispose of the proceedings pursuant to the provisions of § 1.30 (c) (1) or (c) (2) of the Commission's rules of practice and procedure. Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before June 20, 1956. Failure of any party to appear at and participate in the hearing shall be construed as waiver of and concurrence in omission herein of the intermediate decision procedure in cases where a request therefor is made.

[SEAL] LEON M. FUQUAY, *Secretary.*

[F. R. Doc. 56-4443; Filed, June 6, 1956; 8:47 a. m.]

---

[Docket No. G-10236]

OHIO FUEL GAS CO.

NOTICE OF APPLICATION AND DATE OF HEARING

JUNE 1, 1956.

Take notice that The Ohio Fuel Gas Company, Applicant, an Ohio corporation and a subsidiary of The Columbia Gas System, Inc., having its principal place of business at 99 North Front Street, Columbus, Ohio, filed on April 10, 1956, an application for a certificate of public convenience and necessity under section 7 of the Natural Gas Act, authorizing it to construct and operate certain proposed natural gas transmission facilities and for authority to abandon certain existing facilities as hereinafter described, subject to the jurisdiction of the Commission, all as more fully represented in the application which is on file with the Commission and open for public inspection.

The proposed new facilities consist of the following:

*Project No. 1.* Approximately 8.6 miles of 8⅝-inch O. D. and 2.0 miles of 6½-inch O. D. natural gas transmission pipeline in Guernsey and Tuscarawas Counties, Ohio, for service to Newcomerstown and Gnadenhutten, Ohio.

*Project No. 2.* Approximately 7.3 miles of 8⅝-inch O. D. natural gas transmission pipeline in Guernsey County, Ohio, replacing a portion of existing Line O-880 supplying the Barnesville-St. Clairsville, Ohio, market area.

Applicant also requests authorization to abandon approximately 7.3 miles of 6⅝-inch O. D. and 7-inch O. D. pipe to be replaced by facilities described under Project No. 2. Such abandonments will not result in discontinuance of service to any customers.

In connection with Project No. 1, Applicant requests authorization to operate as transmission facilities, subject to the jurisdiction of the Commission, approximately 13.9 miles of existing field gathering Lines FO-415 and FO-1460, and also requests the Commission to authorize the abandonment of approximately 34.6 miles of existing transmission Lines O-55, O-301, O-383, and O-327. Applicant proposes to utilize said transmission lines as field gathering lines.

Under Project 1, Applicant, by connecting existing sections of gathering lines with the segments of proposed line plans to construct and operate approximately 24.5 miles of 8-, 6-, and 5-inch transmission line extending from the Guernsey Compressor Station and storage field northeasterly to its Newcomerstown and Gnadenhutten market, terminating at the latter point. Upon completion, this line will take over the service now being supplied by the undersized and deteriorated transmission lines O-55, O-301, O-383, and O-327.

Under Project 2, Ohio Fuel proposes to continue an existing program of increasing capacity of its system serving the Barnesville-St. Clairsville market areas by replacing 7.3 miles of its existing transmission line O-880.

The purpose of the application is to enable Applicant to serve increased market requirements of the Newcomerstown and Gnadenhutten and Barnesville-St. Clairsville retail market areas in Tuscarawas, Guernsey and Belmont Counties, Ohio, including the Larson Clay Pipe Company at Gnadenhutten and the Goshen Brick and Clay Company at Newcomerstown.

The estimated capital cost of construction of the facilities under Project 1 is $220,000 and for the facilities under Project 2 is $174,000. Total additions to plant in service are estimated at $394,000 less a credit on retirement of the abandoned facilities of $35,945. Applicant alleges that The Columbia Gas System, Inc. will provide the necessary financing of the proposed facilities.

This matter is one that should be disposed of as promptly as possible under the applicable rules and regulations and to that end:

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing will be held on Thursday, July 5, 1956, at 9:30 a. m., e. d. s. t., in a hearing room of the Federal Power Commission, 441 G Street NW., Washington, D. C., concerning the matters involved in and the issues presented by such application: *Provided, however,* That the Commission may, after a non-contested hearing, dispose of the proceedings pursuant to the provisions of § 1.30 (c) (1) or (c) (2) of the Commission's rules of practice and procedure.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before June 21, 1956. Failure of any party to appear at and participate in the hearing shall be construed as waiver of and concurrence in omission herein of the intermediate decision procedure in cases where a request therefor is made. Under the procedure herein provided for unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

[Project No. 2173]

PACIFIC NORTHWEST POWER CO.

ORDER POSTPONING HEARING

On May 25, 1956, National Hells Canyon Association, Inc., Intervener, filed motion for postponement of commencement of hearing in the above-entitled matter fixed by Commission order issued May 9, 1956. Pacific Northwest Power Company, Applicant, filed an answer to the motion on May 29, 1956.

The Commission finds: Good and sufficient cause has been shown for postponement of the hearing, as hereinafter provided.

The Commission orders: The times fixed by Commission order issued May 9, 1956 for hearing in the above-entitled matter are hereby postponed to June 25, 1956, at 10:00 a. m. P. s. t., in Vert Auditorium, Pendleton Junior High School Building, at Pendleton, Oregon; to June 28, 1956, at 10:00 a. m., P. s. t., in Lewis Clark Hotel at Lewiston, Idaho; and to July 24, 1956 at 10:00 a. m., e. d. s. t. in a hearing room of the Federal Power Commission, 441 G Street NW., Washington, D. C.

Issued: June 1, 1956.

By the Commission.

## SECURITIES AND EXCHANGE COMMISSION

[File No. 24D-1484]

MAYDAY URANIUM CO.

ORDER TEMPORARILY SUSPENDING EXEMPTION, STATEMENT OF REASONS THEREFOR, AND NOTICE OF OPPORTUNITY FOR HEARING

JUNE 1, 1956.

I. Mayday Uranium Company, a Utah corporation, Suite 103 Harver Building, Salt Lake City, Utah, having filed with the Commission on October 29, 1954, a notification on Form 1-A relating to an offering of 15,000,000 shares of ½¢ par value common stock at 1¢ per share for an aggregate of $150,000, for the purpose of obtaining an exemption from the registration requirements of the Securities Act of 1933, as amended, pursuant to the provisions of section 3 (b) thereof and Regulation A promulgated thereunder; and

II. The Commission having reasonable cause to believe that the terms and conditions of Regulation A have not been complied with in that:

1. Sales material has been used which was not filed with the Commission pursuant to the requirements of Rule 221 under Regulation A;

2. The notification and offering circular contain untrue statements of material facts and omit to state material facts necessary in order to make the statements made, in the light of the circumstances under which they are made, not misleading, in the following respects among others: The offering circular states that the company has applied to the Atomic Energy Commission for certification for the bonus for initial production, whereas no such application appears to have been made. The offering circular states that assay results concerning a portion of its properties have not been made available to the company, whereas such results appear to have been made available to the company. The offering circular states that Max Smolik is President of the company and that William H. Hull is Treasurer of the company, whereas Smolik has resigned and Hull is President of the company. The offering circular fails to state that Harold Tucker was made a director of the company. The offering circular fails to state that the time for payment of the purchase price of all of its property has expired and that the appropriate payment has not been made. The offering circular fails to reflect arrangements and agreements concerning the acquisition of properties not mentioned in the offering circular.

III. *It is ordered,* Pursuant to Rule 223 (a) of the general rules and regulations under the Securities Act of 1933, as amended, that the exemption under Regulation A be, and it hereby is, temporarily suspended.

Notice is hereby given that any person having any interest in the matter may file with the Secretary of the Commission a written request for a hearing; that, within 20 days after receipt of such request, the Commission will, or at any time upon its own motion may, set the matter down for hearing at a place to be designated by the Commission for the purpose of determining whether this order of suspension should be vacated or made permanent, without prejudice, however, to the consideration and presentation of additional matters at the hearing; and that notice of the time and place of said hearing will be promptly given by the Commission.

*It is further ordered,* That this order and notice shall be served upon Mayday Uranium Company, 103 Harver Building, Salt Lake City, Utah, and Utah Uranium Brokers, 2680 South 20th East, Salt Lake City, Utah, personally, or by registered mail or by confirmed telegraphic notice, and shall be published in the FEDERAL REGISTER.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

[F. R. Doc. 56-4451; Filed, June 6, 1956; 8:48 a. m.]

[File No. 70-3480]

SOUTHERN CO. ET AL.

NOTICE OF FILING REGARDING ISSUE AND SALE OF COMMON STOCK BY SUBSIDIARIES AND ACQUISITION THEREOF BY PARENT; ISSUE AND SALE OF COMMON STOCK BY NEW GENERATING COMPANY AND ACQUISITION THEREOF BY ASSOCIATE UTILITY COMPANIES; AND PAYMENT OF DEBT OF SUBSIDIARY OWING TO PARENT

JUNE 1, 1956.

In the matter of the Southern Company, Alabama Power Company, Georgia Power Company, Southern Electric Generating Company, and Alabama Property Company; File No. 70-3480.

Notice is hereby given that The Southern Company ("Southern"), a registered holding company and four of its subsidiaries, Alabama Power Company ("Alabama"), Georgia Power Company ("Georgia"), Southern Electric Generating Company ("SEGCO") a newly organized company, and Alabama Property Company ("Property Company"), have filed a joint application-declaration pursuant to the Public Utility Holding Company Act of 1935 ("act"). Applicants-declarants designate sections 6 (b), 9 (a), 10, 12 (f), and Rules U-43, U-45 and U-50 thereunder as applicable to proposals which constitute the initial financing in a program involving the construction by SEGCO of a steam electric generating plant on the Coosa River in the State of Alabama. The plant is expected to have 500,000 kilowatts of capacity by 1961 and upwards of 1,000,000 kilowatts by the end of 1963. The construction of the plant, estimated to cost $150,000,000, will be financed by the proceeds from common stock of SEGCO to be sold in equal parts to Alabama and Georgia and debt securities to be sold to institutions or the public. It is contemplated that Alabama and Georgia will enter into long term contracts with SEGCO for the purchase of energy on terms which will, in substance, provide for the operating expenses and carrying charges of SEGCO, including a return on the equity investment.

The specific transactions which are the subject of the joint application-declaration are summarized as follows:

Alabama and Georgia will each issue and sell 10,000 shares of their common stock, without par value, and Southern will acquire such stocks at $100 per share, or an aggregate consideration of $2,000,000. SEGCO will issue and sell 20,000 shares of its capital stock, $100 par value, and Alabama and Georgia will each acquire 10,000 shares of such stock at par, or an aggregate consideration of $2,000,000.

SEGCO will apply the proceeds of the sale of its shares, to the extent necessary, to purchase from Property Company, a direct subsidiary of Alabama, certain coal reserves and one or more sites for a steam electric generating plant located in the State of Alabama and reimburse Property Company for its expenses theretofore incurred in test drilling. The amount to be paid to Property Company will be limited to the costs incurred, which it is estimated will approximate $500,000. The balance of the proceeds will be used by SEGCO to complete the acquisition of coal reserves and plant sites and to pay for any necessary test drillings and other expenditures incident to commencement of construction of a steam electric generating plant.

Property Company proposes to apply the amount obtained from SEGCO in satisfaction of an open account advance previously made by Southern.

Alabama and SEGCO have filed petitions with the Alabama Public Service Commission for authority to issue and sell their shares of common stock, and Georgia has petitioned the Georgia Public Service Commission for authority to issue its shares of common stock. Copies of the orders to be entered by these commissions are to be supplied by amendment.

The estimated fees, commissions and expenses paid or incurred or to be paid or incurred in connection with the proposed transactions are as follows:

| | Alabama | Georgia | SEGCO |
|---|---|---|---|

It is requested that the Commission issue its order herein on or as soon as practicable after the thirtieth day from the date of filing of the joint application-declaration (May 18, 1956).

Notice is further given that any interested person may, not later than June 18, 1956 at 5:30 p. m., request the Commission in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request, and the issues of fact or law, if any, raised by said application-declaration which he desires to controvert; or he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington 25, D. C. At any time after said date, said application-declaration, as filed or as amended, may be granted and permitted to become effective, in whole or in part, as provided in Rule U-23 of the rules and regulations promulgated under the act, or the Commission may grant exemption from its rules as provided in Rules U-20 (a) and U-100, or take such other action as it may deem appropriate.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

## TITLE 9—ANIMALS AND ANIMAL PRODUCTS

### Chapter I—Agricultural Research Service, Department of Agriculture

Subchapter C—Interstate Transportation of Animals and Poultry

[B. A. I. Order 383, Rev., Amdt. 79]

PART 76—HOG CHOLERA, SWINE PLAGUE, AND OTHER COMMUNICABLE SWINE DISEASES

SUBPART B—VESICULAR EXANTHEMA

CHANGES IN AREAS QUARANTINED

Pursuant to the provisions of sections 1 and 3 of the act of March 3, 1905, as amended (21 U. S. C. 123, 125), sections 1 and 2 of the act of February 2, 1903, as amended (21 U. S. C. 111–113, 120), and section 7 of the act of May 29, 1884, as amended (21 U. S. C. 117), § 76.27, as amended, Subpart B, Part 76, Title 9, Code of Federal Regulations (21 F. R. 3, 417, 786, 1165, 1461, 1743, 2230, 2611, 3005), which contains a notice with respect to the States in which swine are affected with vesicular exanthema, a contagious, infectious, and communicable disease, and which quarantines certain areas in such States because of said disease, is hereby further amended in the following respects:

1. A new subdivision (viii) is added to subparagraph (1) of paragraph (d), relating to Atlantic County in New Jersey, to read:

(viii) Lots 1 through 20, Plot 463, in Buena Vista Township, owned and operated by Russell B. Cunningham, Jr.

2. A new subdivision (xv) is added to subparagraph (2) of paragraph (d), relating to Burlington County in New Jersey, to read:

(xv) Lots 15 and 15A, Block 11, Plot 2, in Evesham Township, owned and operated by Soboleski Brothers.

3. New subdivisions (xi) and (xii) are added to subparagraph (6) of paragraph (d), relating to Hudson County in New Jersey, to read:

(xi) Lot 5, Block 9, in Secaucus Township, owned by Edward Walka and operated by John Rozansky; and

(xii) Lot 4, Block 41, in Secaucus Township, owned by Joseph Supel & Sons and operated under the name of Supel's Stock Farm.

4. New subdivisions (x) and (xi) are added to subparagraph (8) of paragraph (d), relating to Middlesex County in New Jersey, to read:

(x) That part of Monroe Township bounded on the north by Hoffman Station Road, on the west by Gravel Hill Road, and on the east by Gravel Hill-Hoffman Station Road; and

(xi) Lot 48A, Block 95, in South Brunswick Township, owned and operated by S. J. Kapolski.

5. A new subdivision (xxii) is added to subparagraph (9) of paragraph (d), relating to Monmouth County in New Jersey, to read:

(xxii) That part of Manalapan Township bounded on the northeast by the Englishtown-Millhurst Road, on the northwest by the Manalapan-Englishtown Road, on the southwest by the McCaffery Road, and on the southeast by the Gordens Corner-Tennent Road.

6. Subparagraph (10) of paragraph (d), is amended to read:

(10) All of Morris County except the following:

(i) That part of Parsippany-Troy Hills Township lying north of U. S. Route No. 46, east of Baldwin Road, south of Vail Road, and west of North Beverwyck Road;

(ii) That part of Jefferson Township lying west of New Russia-Stockholm Road, north of New Russia-Sparta Road, and southeast of the Morris County line; and

(iii) That part of Rockaway Township lying east of Green Pond Road, south and west of Upper Hibernia Road, and north and east of Meridon Road.

*Effective date.* The foregoing amendment shall become effective upon issuance.

The amendment excludes certain areas in New Jersey from the areas heretofore quarantined because of vesicular exanthema. Hereafter, the restrictions pertaining to the interstate movement of swine, and carcasses, parts and offal of swine, from or through quarantined areas, contained in 9 CFR, 1955 Supp., Part 76, Subpart B, as amended, will not apply to such areas. However, the restrictions pertaining to such movement from non-quarantined areas, contained in said Subpart B, as amended, will apply thereto.

# FEDERAL REGISTER

Published daily, except Sundays, Mondays, and days following official Federal holidays, by the Federal Register Division, National Archives and Records Service, General Services Administration, pursuant to the authority contained in the Federal Register Act, approved July 26, 1935 (49 Stat. 500, as amended; 44 U. S. C., ch. 8B), under regulations prescribed by the Administrative Committee of the Federal Register, approved by the President. Distribution is made only by the Superintendent of Documents, Government Printing Office, Washington 25, D. C.

The FEDERAL REGISTER will be furnished by mail to subscribers, free of postage, for $1.50 per month or $15.00 per year, payable in advance. The charge for individual copies (minimum 15 cents) varies in proportion to the size of the issue. Remit check or money order, made payable to the Superintendent of Documents, directly to the Government Printing Office, Washington 25, D. C.

The regulatory material appearing herein is keyed to the CODE OF FEDERAL REGULATIONS, which is published, under 50 titles, pursuant to section 11 of the Federal Register Act, as amended August 5, 1953. The CODE OF FEDERAL REGULATIONS is sold by the Superintendent of Documents. Prices of books and pocket supplements vary.

There are no restrictions on the republication of material appearing in the FEDERAL REGISTER, or the CODE OF FEDERAL REGULATIONS.

The amendment relieves certain restrictions presently imposed, and must be made effective immediately to be of maximum benefit to persons subject to the restrictions which are relieved. Accordingly, under section 4 of the Administrative Procedure Act (5 U. S. C. 1003), it is found upon good cause that notice and other public procedure with respect to the amendment are impracticable and contrary to the public interest, and the amendment may be made effective less than 30 days after publication in the FEDERAL REGISTER.

(Sec. 7, 23 Stat. 32, as amended, secs. 1, 2, 32 Stat. 791–792, as amended, secs. 1, 3, 33 Stat. 1264, as amended, 1265, as amended; 21 U. S. C. 111–113, 117, 120, 123, 125)

Done at Washington, D. C., this 1st day of June 1956.

## TITLE 16—COMMERCIAL PRACTICES

### Chapter I—Federal Trade Commission

[Docket 6311]

PART 13—DIGEST OF CEASE AND DESIST ORDERS

NATIONAL CASUALTY CO.

Subpart—*Advertising falsely or misleadingly:* § 13.260 *Terms and conditions:* Insurance coverage. Subpart—*Offering unfair, improper and deceptive inducements to purchase or deal:* § 13.2080 *Terms and conditions:* Insurance coverage.

(Sec. 6, 38 Stat. 721; 15 U. S. C. 46. Interpret or apply sec. 5, 38 Stat. 719, as amended; 15 U. S. C. 45) [Cease and desist order, National Casualty Company, Detroit, Mich., Docket 6311, May 21, 1956]

This proceeding was heard by a hearing examiner on the complaint of the Commission, charging a Detroit insurance company, engaged in selling accident and health insurance policies through some 350 to 400 independent insurance agencies throughout the nation, with misrepresenting the duration, extent of coverage and benefits of its policies, and the physical requirements for policyholders, in printed brochures and advertising matter sent to such agents for use in their solicitation of prospects.

Following hearings in due course, during which a number of motions to dismiss were denied, the hearing examiner made his initial decision, including findings, conclusions, and order to cease and desist. From this, both counsel appealed. Having heard the matter on briefs and oral argument, the Commission rendered its decision granting the appeal of counsel in support of the complaint and denying that of respondent.

The Commission directed modification of the initial decision in conformity with an opinion rendered by Commissioner Secrest, and on May 21, 1956, adopted the initial decision as so modified as the decision of the Commission, Commissioners Gwynne and Mason dissenting.

The order to cease and desist, including order requiring report of compliance therewith, is as follows:

*It is ordered,* That respondent, National Casualty Company, a corporation, and its officers, agents, representatives and employees, directly or through any corporate or other device, in connection with the offering for sale, sale and distribution in commerce, as "commerce" is defined in the Federal Trade Commission Act, of any accident, health, hospital or surgical insurance policy, do forthwith cease and desist from representing, directly or by implication:

1. That any such policy may be continued in effect by the insured upon payment of stipulated premiums, indefinitely or for any stated time, unless full disclosure of any other provision or condition of termination contained in the policy is made conspicuously, prominently, and in sufficiently close conjunction with the representation as will fully relieve it of all capacity to deceive.

2. That no medical examination is required, unless the respondent actually insures the policyholder without regard to his physical condition before or after issuance of the policy; or otherwise representing that the condition of the insured's health at the time of issuance of the policy will not be considered by the respondent in determining its liability thereunder, or that the respondent will not, as a claims practice, require proof of good health of the insured at the time of issuance of the policy.

3. That any policy provides for payment in full or in any specified amount or for payment up to any specified amount for any medical, surgical or hospital service, unless the policy provides that the actual cost to the insured for that service will be paid in all cases up to the amount represented, or unless full disclosure of the schedule of payments for which the policy provides is made conspicuously, prominently, and in sufficiently close conjunction with said representation as will fully relieve it of all capacity to deceive.

4. The extent or duration of either coverage or benefits payable under the terms of any policy, unless a statement of all the conditions, exceptions, restrictions and limitations affecting the indemnification actually provided is set forth conspicuously, prominently, and in sufficiently close conjunction with the representation as will fully relieve it of all capacity to deceive.

*It is further ordered,* That respondent, National Casualty Company, shall, within sixty (60) days after service upon it of this order file with the Commission a report in writing setting forth in detail the manner and form in which it has complied therewith.

*It is further ordered,* That the initial decision of the hearing examiner, as modified herein, is hereby adopted as the decision of the Commission.

By the Commission.[1]

Issued: May 21, 1956.

[SEAL] ROBERT M. PARRISH,
*Secretary.*

[F. R. Doc. 56–4491; Filed, June 7, 1956; 8:46 a. m.]

## TITLE 19—CUSTOMS DUTIES

### Chapter I—Bureau of Customs, Department of the Treasury

[T. D. 54101]

PART 10—ARTICLES CONDITIONALLY FREE, SUBJECT TO A REDUCED RATE, ETC.

PART 21—CARTAGE AND LIGHTERAGE

PART 24—CUSTOMS FINANCIAL AND ACCOUNTING PROCEDURE

MISCELLANEOUS AMENDMENTS

To provide for the acceptance of a declaration of intended business or trade in lieu of the execution of the prescribed form after use for all articles withdrawn for use as vessel's supplies on the same basis and to correct an error in a cross reference in § 10.60 (g), the Customs regulations are amended as follows:

1. Section 10.60 (g) is amended by substituting "§ 10.59 (e)" for "§ 10.59 (d)".

2. Section 10.64 (b) is amended by substituting "$100" for "$50, or $100 in the case of fuel oil or lubricating oil".

(R. S. 161, 251, secs. 624, 46 Stat. 759; 56 U. S. C. 22, 19 U. S. C. 66, 1624)

As the result of an employee's suggestion, the Bureau has given further consideration to a proposal that licenses be issued to cartmen or lightermen for indefinite periods and remain effective until terminated. Under this plan, the collector would periodically be required to ascertain the sufficiency of the supporting bonds. The Bureau is of the opinion that the adoption of the plan would serve a good purpose.

The Bureau is also of the opinion that a determination may be made locally as to the frequency and times that a current list showing the names and addresses of the managing officers and members of the cartage organization and of the employees thereof who will receive or transport imported merchandise which has not been released from customs shall be required to be furnished.

The Bureau is of the further opinion that the Customs regulations should include a provision authorizing collectors, in their discretion, to require customs licensed cartmen and lightermen to make and keep such written records relating to cartage or lighterage of imported merchandise which has not been released from customs as may be needed for purposes of local customs administration.

Accordingly, the Customs regulations are hereby amended as follows:

1. Section 21.1 (a) is amended by deleting "for a term of 1 year" at the end of the second sentence; by amending the fifth sentence to read: "The license shall remain in force and effect as long as the required bond is considered sufficient or until the license is suspended or terminated."

and by deleting the last sentence and substituting the following matter therefor: "The collector may require the applicant for a license to furnish a list showing the names and addresses of the managing officers and members of the organization or of the persons who will receive or transport imported merchandise which has not been released from customs, or a list of all such persons and their addresses. An applicant shall be required in each case to undertake to surrender promptly to the collector the identification cards of persons no longer employed by the applicant or give reasons satisfactory to the collector why such cards cannot be surrendered. The collector may also require an applicant to undertake to furnish, at such times and intervals as the collector deems necessary, a current list showing the names and addresses of the managing officers and members of the organization or of the persons who will receive or transport imported merchandise which has not been released from customs, or a list of all such persons and their addresses. A license shall be subject to suspension for failure to comply with the requirements of the two preceding sentences, or it may be revoked for sufficiently good cause."

2. Section 21.2 is amended by deleting ", revocation or lapse" in the next to the last sentence and substituting therefor "or termination".

3. Section 21.6 is amended by adding the following sentence: "Such customs order or rule may include a requirement by the collector that customs licensed cartmen and lightermen shall make,

[1] Commissioners Gwynne and Mason dissenting.

keep, and promptly submit for customs inspection and examination upon request therefor such current written records relating to cartage and lighterage as may be needed for purposes of local customs administration."

(Secs. 565, 624, 46 Stat. 747, 759; 19 U. S. C. 1565, 1624)

To delete a provision which will be inapplicable when cartage and lighterage licenses are issued for an indefinite period, § 24.12 (a) (1) of the Customs regulations is amended by deleting the last sentence.

(R. S. 161, 251, sec. 624, 46 Stat. 759; 5 U. S. C. 22, 19 U. S. C. 66, 1624)

The above amendments to §§ 21.1 (a), 21.2, and 24.12 (a) (1) of the Customs regulations shall be effective as soon as customs Form 3857 "License for Cartmen and/or Lightermen" has been revised and is available for use. Thereafter, as applications are made for new licenses or for extensions of licenses to cart or lighter, licenses shall be granted for indefinite periods in accordance with the regulations as hereby amended. The other amendments above shall be effective on the date of publication in the FEDERAL REGISTER.

When customs Form 3855, Bond of Customs Cartman or Lighterman, is reprinted the word "termination" will be substituted for "expiration or revocation" in the first line of condition (4).

[SEAL] RALPH KELLY,
*Commissioner of Customs.*

Approved: June 4, 1956.

DAVID W. KENDALL,
*Acting Secretary of the Treasury.*

[F. R. Doc. 56-4508; Filed, June 7, 1956; 8:50 a. m.]

---

[T. D. 54102]

PART 22—DRAWBACK

APPLICATIONS FOR ISSUANCE OF CERTIFICATES OF IMPORTATION

Applications to collectors of customs for the issuance of certificates of importation for drawback purposes under § 22.14 (a) of the Customs regulations are now required to be made in writing but no particular form has been provided for use in making such applications. Frequently such applications do not contain sufficient information to enable the collector to issue the certificate, and this fact usually requires correspondence with the applicant to obtain the additional information necessary to issue the certificate. In order to eliminate the necessity for such correspondence, a new form, designated as customs Form No. 5263, entitled "Application for Issuance of Certificate(s) of Importation for Drawback Purposes," has been devised for use in making such applications.

To provide for the use of this new form, § 22.14 (a) of the Customs regulations is hereby amended to read as follows:

(a) If the merchandise identified in the drawback entry or certificate of manufacture was not imported at a port within the customs collection district where the entry or certificate of manufacture is filed, the collector of customs of the district where the merchandise was imported shall, upon application by the importer or the party to whom the delivery of such merchandise has been certified, issue to the collector at the port named a certificate of importation on customs Form 5265 bearing a notation showing the date on which the application for the issuance of the certificate was filed. Such application shall be made on customs Form 5263 or in a substantially similar form.

(Secs. 313, 624, 46 Stat. 693, as amended, 759; 19 U. S. C. 1313, 1624)

New customs Form 5263 "Application for Issuance of Certificate(s) of Importation for Drawback Purposes," will not be salable. It is anticipated that this form will be printed and available for distribution and use within 90 days. Supplies may be obtained by submitting requisitions therefor on customs Form 3039 to the Section of Forms, Customs Information Exchange, 201 Varick Street, New York 14, New York.

This amendment shall become effective as to applications filed on and after October 1, 1956.

[SEAL] RALPH KELLY,
*Commissioner of Customs.*

Approved: June 4, 1956.

DAVID W. KENDALL,
*Acting Secretary of the Treasury.*

# TITLE 26—INTERNAL REVENUE, 1954

## Chapter I—Internal Revenue Service, Department of the Treasury

### Subchapter E—Alcohol, Tobacco, and Other Excise Taxes

[T. D. 6180]

PART 182—INDUSTRIAL ALCOHOL

PART 225—WAREHOUSING OF DISTILLED SPIRITS

PART 240—WINE

PART 245—BEER

SUPPLIES ON VESSELS EMPLOYED IN THE FISHERIES, TO CONFORM WITH CUSTOMS REGULATIONS

MISCELLANEOUS AMENDMENTS

On July 28, 1955, a notice of proposed rulemaking with respect to amendments of regulations in 26 CFR (1954) Parts 182, 225, 240, and 245 was published in the FEDERAL REGISTER (20 F. R. 5398).

The purpose of the amendments is to conform 26 CFR (1954) Parts 182, 225, 240, and 245 with the Bureau of Customs regulations, which have been amended by Treasury Decision 53935 (20 F. R. 8329), to clearly define the type of vessels employed in the fisheries which are entitled to withdraw distilled spirits, wines, or beer for use as supplies on such vessels. No data, views, or arguments pertaining to these amendments having been received within the period of 30 days from the date of publication, 26 CFR (1954) Parts 182, 225, 240, and 245 are amended, as follows:

PARAGRAPH 1. 26 CFR (1954) Part 182, is amended as follows:

(A) Section 182.630a is amended as follows:

(1) By striking the word "Alcohol" from the first sentence and inserting in lieu thereof the words: "Subject to the applicable provisions of this part, alcohol".

(2) By striking from the statutory citations at the end of the section, references to "53 Stat. 360", and "3114", and inserting in lieu thereof "68A Stat. 655" and "5304", respectively.

(B) By inserting, immediately following § 182.630a, the following new section:

§ 182.630a-1 *Vessels employed in the fisheries.* Alcohol may be withdrawn free of tax under the provisions of paragraphs (b) and (e) of § 182.630a relating to vessels employed in the fisheries, only for use on vessels of the United States documented to engage in the fisheries and foreign fishing vessels of 5 net tons or over if the collector of customs is satisfied by reason of the quantity requested in the light of (a) whether the vessel is employed in substantially continuous fishing activities, and (b) the vessel's complement, that none of of the withdrawn alcohol is intended to be removed from the vessel in, or otherwise returned to, the United States. Such shipment and lading shall be conditioned upon compliance with the applicable provisions of this part. Lading of such alcohol for use on such vessels shall be subject to approval by the collector of cutoms of a special written application, in duplicate, on customs Form 5125, of the exporter and designation by the applicant, in part 1 of the Form 1659 submitted to the assistant regional commissioner for execution of the permit for removal and transportation of the alcohol, that the alcohol is to be laden for use as supplies on a vessel employed in the fisheries. The original application on customs Form 5125, after approval, shall be stamped with the withdrawal number (permit number on Form 1659) and date thereof and shall be returned by the collector of customs to the exporter for use as prescribed below. Approval of each such application shall be subject to the condition that the original shall be presented thereafter by the exporter or the vessel's master to the collector of customs within 24 hours (excluding any period during which the customhouse is not open for general customs business) after each subsequent arrival of the vessel at a customs port or station and that an accounting shall be made at the time of such presentation of the disposition of the alcohol until the collector of customs is satisfied that it has been consumed on board, or landed under customs supervision, and takes up the authorization. The approval of customs Form 5125 shall be subject to the further condition that any such withdrawn alcohol remaining on board while the vessel is in port shall be safeguarded in the manner and to such extent as the collector for the port or place of arrival shall deem necessary. When such alcohol has been accounted for to the satisfaction of the collector of customs, he shall so certify on the completed customs Form 5125 taken up from the exporter or the vessel's master and forward the form to the assistant regional commissioner for the region in which the premises from which the alcohol was withdrawn is located. In the event of a failure on the part of the exporter or the master of the vessel to comply with the conditions of the withdrawal or upon receipt of evidence that the alcohol was not lawfully used as supplies on the vessel, the collector of customs will advise the assistant regional commissioner for the region in which the premises from which the alcohol was withdrawn is located of all the facts in the case for determination of any liability incurred. Assessment of tax liability found to have been incurred will be made against the principal on the bond.

(46 Stat. 690, as amended; 19 U. S. C. 1309)

(C) Section 182.630d is amended by inserting in the third sentence of paragraph (a), which begins "Alcohol withdrawn for", immediately following the words "as required by", the following: "the applicable provisions of § 182.630a-1,".

(D) Section 182.630j is amended as follows:

(1) By inserting, immediately following the first sentence, the following new sentence: "In the case of supplies on vessels employed in the fisheries, compliance with the provisions of § 182.630a-1 is required."

(2) By striking "§ 182.603" from the last sentence and inserting in lieu thereof the following: "§§ 182.603 and 182.630a-1".

(E) Section 182.630l is amended to read as follows:

§ 182.630l *Evidence of use on vessels and aircraft.* The principal on the bond shall also submit to the assistant regional commissioner, within six months (or such additional time as may be granted by the assistant regional commissioner) a statement of the master or other officer of the vessel or aircraft on which the alcohol was laden, having knowledge of the facts, showing that the alcohol has been used on board the vessel or aircraft, and that no portion thereof has been unladen in the United States or any of its territories or possessions: *Provided,* That such statement will not be required, in case of any shipment, when the alcohol is laden on vessels of war, or, in cases other than supplies on vessels employed in the fisheries, where the amount of tax on the alcohol does not exceed $100. Such statement shall be signed by the master or other officer having knowledge of the facts and immediately above the signature there will appear the following statement: "I declare under the penalties of perjury that this statement has been examined by me and to the best of my knowledge and belief is true and correct:" *And provided further,* That, in the case of vessels employed in the fisheries, in lieu of such statement, compliance with the provisions of § 182.630a-1 is required.

(46 Stat. 690, as amended; 19 U. S. C. 1309)

(F) Section 182.630m is amended by striking out the final period of the section and adding: ", except that, in the case of withdrawals for supplies on vessels employed in the fisheries, crediting of the bond will be subject to compliance with the provisions of § 182.630a-1."

PAR. 2 26 CFR (1954) Part 225 is amended as follows:

(A) Section 225.860 is amended by striking the word "Distilled" from the first sentence and inserting in lieu thereof the words: "Subject to the applicable provisions of this part, distilled".

(B) By inserting, immediately following § 225.860, the following new section:

§ 225.860a *Vessels employed in the fisheries.* Distilled spirits may be withdrawn free of tax under the provisions of paragraphs (b) and (e) of § 225.860, relating to vessels employed in the fisheries, only for use on vessels of the United States documented to engage in the fisheries and foreign fishing vessels of 5 net tons or over if the collector of customs is satisfied by reason of the quantity requested in the light of (a) whether the vessel is employed in substantially continous fishing activities, and (b) the vessel's complement, that none of the withdrawn distilled spirits is intended to be removed from the vessel in, or otherwise returned, to the United States. Such shipment and lading shall be conditioned upon compliance with the applicable provisions of this part. Lading of such distilled spirits for use on such vessels shall be subject to approval by the collector of customs of a special written application, in duplicate, on customs Form 5125, of the exporter and designation by the applicant, in part 1 of the Form 206 submitted to the assistant regional commissioner for execution of the permit for removal and transportation of the spirits, that the spirits are to be laden as supplies on a vessel employed in the fisheries. The original application on customs Form 5125, after approval, shall be stamped with the withdrawal number (serial number of Form 206) and date thereof and shall be returned by the collector of customs to the exporter for use as prescribed below. Approval of each such application shall be subject to the condition that the original shall be presented thereafter by the exporter or the vessel's master to the collector of customs within 24 hours (excluding any period during which the customhouse is not open for general customs business) after each subsequent arrival of the vessel at a customs port or station and that an accounting shall be made at the time of such presentation of the disposition of the spirits until the collector of customs is satisfied that all of them have been consumed on board, or landed under customs supervision, and takes up the authorization. The approval of customs Form 5125 shall be subject to the further condition that any such withdrawn spirits remaining on board while the vessel is in port shall be safeguarded in the manner and to such extent as the collector for the port or place of arrival shall deem necessary. When such spirits have been accounted for to the satisfaction of the collector of customs, he shall so certify on the completed customs Form 5125 taken up from the exporter or the vessel's master and forward the form to the assistant regional commissioner for the region in which the warehouse from

which the spirits were withdrawn is located. In the event of a failure on the part of the exporter or the master of the vessel to comply with the conditions of the withdrawal or upon receipt of evidence that the spirits were not lawfully used as supplies on the vessel, the collector of customs will advise the assistant regional commissioner for the region in which the warehouse from which the spirits were withdrawn is located of all the facts in the case for determination of any liability incurred. Assessment of tax liability found to have been incurred will be made against the principal of the bond.

(46 Stat. 690, as amended; 19 U. S. C. 1309)

(C) Section 225.864 is amended by inserting in the list of sectional references in the second sentence, in its proper numerical sequence, a reference to section "225.860a".

(D) Section 225.865 is amended as follows:

(1) By inserting, in the proviso of the first sentence, immediately following the words "vessels of war, or", the following: ", in cases other than supplies for vessels employed in the fisheries,".

(2) By inserting at the end of the section the following new sentence: "In the case of supplies for vessels employed in the fisheries compliance with the provisions of § 225.860a is required."

(E) Section 225.866 is amended by striking the period at the end of the fourth sentence, which begins "In the case of", and adding: ", except that credit will not be given in the case of withdrawals for supplies on vessels employed in the fisheries until the spirits are accounted for in conformity with the requirements of § 225.860a."

PAR. 3. 26 CFR (1954) Part 240 is amended as follows:

(A) Section 240.690 is amended by striking "§ 240.691" from the first sentence, and inserting in lieu thereof: "§§ 240.690a and 240.691".

(B) By inserting, immediately following § 240.690, the following new section:

§ 240.690a *Vessels employed in the fisheries.* Wine may be withdrawn free of tax under the provisions of paragraphs (b) and (e) of § 240.690 relating to vessels employed in the fisheries, only for use on vessels of the United States documented to engage in the fisheries and foreign fishing vessels of 5 net tons or over if the collector of customs is satisfied by reason of the quantity requested in the light of (a) whether the vessel is employed in substantially continuous fishing activities, and (b) the vessel's complement, that none of the withdrawn wine is intended to be removed from the vessel in, or otherwise returned to, the United States. Such shipment and lading shall be conditioned upon compliance with the applicable provisions of this part. Lading of such wine for use on such vessels shall be subject to approval by the collector of customs of a special written application, in duplicate, on customs Form 5125, of the exporter and designation by the applicant in part 1 of the Form 711–B submitted to the assistant regional commissioner for approval of the removal of the wine, that the wine is to be laden for use as supplies on a vessel employed in the fisheries. The original application on customs Form 5125, after approval, shall be stamped with the withdrawal number (exporter's serial number on Form 711–B) and date thereof and shall be returned by the collector of customs to the exporter for use as prescribed below. Approval of each such application shall be subject to the condition that the original shall be presented thereafter by the exporter or the vessel's master to the collector of customs within 24 hours (excluding any period during which the customhouse is not open for general customs business) after each subsequent arrival of the vessel at a customs port or station and that an accounting shall be made at the time of such presentation of the disposition of the wine until the collector of customs is satisfied that it has been consumed on board, or landed under customs supervision, and takes up the authorization. The approval of customs Form 5125 shall be subject to the further condition that any such withdrawn wine remaining on board while the vessel is in port shall be safeguarded in the manner and to such extent as the collector for the port or place of arrival shall deem necessary. When such wine has been accounted for to the satisfaction of the collector of customs, he shall so certify on the completed customs Form 5125 taken up from the exporter or the vessel's master and forward the form to the assistant regional commissioner for the region in which the bonded wine cellar from which the wine was withdrawn is located. In the event of a failure on the part of the exporter or the master of the vessel to comply with the conditions of the withdrawal or upon receipt of evidence that the wine was not lawfully used as supplies on the vessel, the collector of customs will advise the assistant regional commissioner for the region in which the bonded wine cellar from which the wine was withdrawn is located of all the facts in the case for determination of any liability incurred. Assessment of tax liability found to have been incurred will be made against the principal on the bond.

(68A Stat. 665; 26 U. S. C. 5362)

(C) By inserting, immediately following § 240.701, the following new section:

§ 240.702 *Evidence of use on vessels employed in the fisheries.* In the case of wine laden for use on vessels employed in the fisheries, compliance with the provisions of § 240.690a is required.

(68A Stat. 665; 26 U. S. C. 5362)

PAR. 4. 26 CFR (1954) Part 245 is amended as follows:

(A) Section 245.290 is amended by striking the word "Beer" from the first sentence, and inserting in lieu thereof the words: "Subject to the applicable provisions of this subpart, beer".

(B) By inserting, immediately following § 245.290, the following new section:

§ 245.290a *Vessels employed in the fisheries.* Beer may be withdrawn free of tax under the provision of paragraphs (b) and (e) of § 245.290 relating to vessels employed in the fisheries, only for use on vessels of the United States documented to engage in the fisheries and foreign fishing vessels of 5 net tons or over if the collector of customs is satisfied by reason of the quantity requested in the light of (a) whether the vessel is employed in substantially continuous fishing activities, and (b) the vessel's complement, that none of the withdrawn beer is intended to be removed from the vessel in, or otherwise returned to, the United States. Such shipment and lading shall be conditioned upon compliance with the applicable provisions of this subpart. Lading of such beer for use on such vessels shall be subject to approval by the collector of customs of a special written application, in duplicate, on customs Form 5125, of the exporter and designation by the applicant in part 1 of the notice, Form 1689, that the beer is to be laden for use as supplies on a vessel employed in the fisheries. The original application on customs Form 5125, after approval, shall be stamped with the withdrawal number (brewer's serial number on Form 1689) and date thereof and shall be returned by the collector of customs to the exporter for use as prescribed below. Approval of each such application shall be subject to the condition that the original shall be presented thereafter by the exporter or the vessel's master to the collector of customs within 24 hours (excluding any period during which the customhouse is not open for general customs business) after each subsequent arrival of the vessel at a customs port or station and that an accounting shall be made at the time of such presentation of the disposition of the beer until the collector of customs is satisfied that it has been consumed on board, or landed under customs supervision, and takes up the authorization. The approval of customs Form 5125 shall be subject to the further condition that any such withdrawn beer remaining on board while the vessel is in port shall be safeguarded in the manner and to such extent as the collector for the port or place of arrival shall deem necessary. When such beer has been accounted for to the satisfaction of the collector of customs, he shall so certify on the completed customs Form 5125 taken up from the exporter or the vessel's master and forward the form to the assistant regional commissioner for the region in which the brewery from which the beer was withdrawn is located. In the event of a failure on the part of the exporter or the master of the vessel to comply with the conditions of the withdrawal, or on receipt of evidence that the beer was not lawfully used as supplies on the vessel, the collector of customs will advise the assistant regional commissioner for the region in which the brewery from which the beer was withdrawn is located of all the facts in the case for determination of any liability incurred. Assessment of tax liability found to have been incurred will be made against the brewer.

(68A Stat. 612; 26 U. S. C. 5053)

(C) Section 245.294 is amended to read as follows:

§ 245.294 *Evidence of lading for use.* When beer has been laden on board a vessel or aircraft for use as ship's supplies or supplies for aircraft, there must be submitted promptly to the assistant regional commissioner a statement of the master or other officer of the vessel or aircraft on which the beer was laden, having knowledge of the facts, showing that the beer has been laden and will be used on board the vessel or aircraft, and that no portion thereof has been or will be unladen in the United States or any of its territories or possessions: *Provided,* That such statement will not be required, in the case of any shipment, where the beer has been laden on vessels of war, or, in cases other than supplies on vessels employed in the fisheries, where the amount of tax on the beer does not exceed $200. Such statement shall be signed by the master or other officer having knowledge of the facts and immediately above the signature there will appear the following statement: "I declare under the penalties of perjury that this statement has been examined by me and to the best of my knowledge and belief is true and correct." In the case of beer for use as supplies on vessels employed in the fisheries, compliance with the provisions of § 245.290a is required. On receipt of a satisfactory statement (if required) and the original of customs Form 5125, bearing final certification by the collector of customs as to proper accounting of the beer (if required), the assistant regional commissioner will enter proper credit in the export account. In the case of beer laden on vessels of war, or in cases other than supplies on vessels employed in the fisheries, where the amount of the tax on the beer does not exceed $200, credit will be given at the time of receipt of the certificate of inspection and lading executed by the inspector of customs, as provided in § 245.276.

(68A Stat. 612; 26 U. S. C. 5053)

The purpose of this Treasury decision is to conform the applicable Internal Revenue Service regulations with Treasury Decision 53935 which amended Customs regulations to define the type of vessels engaged in the fisheries which are entitled to withdraw distilled spirits, wines, and beer for use as supplies. It is necessary that the regulations in 26 CFR parts 182, 225, 240, and 245 conform with the amended Customs regulations as early as possible. Inasmuch as Treasury Decision 53935 became effective November 5, 1955, it is hereby found that it is impracticable and contrary to the public interest to issue this Treasury decision subject to the effective date limitation of section 4 (c) of the Administrative Procedure Act (60 Stat. 238; 5 U. S. C. 1003 (c)). Accordingly, this Treasury decision shall be effective on the date of its publication in the FEDERAL REGISTER.

This Treasury decision is issued under the authority contained in section 7805 of the Internal Revenue Code of 1954 (68A Stat. 917; 26 U. S. C. 7805.)

[SEAL] RUSSELL C. HARRINGTON,
*Commissioner of Internal Revenue.*

Approved: May 31, 1956.

DAN THROOP SMITH,
*Special Assistant to the Secretary in Charge of Tax Policy.*

[T. D. 6181]

## PART 252—DRAWBACK ON LIQUORS EXPORTED

### SUPPLIES ON VESSELS EMPLOYED IN THE FISHERIES TO CONFORM WITH CUSTOMS REGULATIONS AND EXPORTATION OF TAX-PAID BEER

On July 28, 1955, a notice of proposed rule making with respect to the amendment of the above-entitled regulations was published in the FEDERAL REGISTER (20 F. R. 5400) to conform such regulations with the Bureau of Customs regulations as amended by Treasury Decision 53935 (20 F. R. 8329) to define the types of vessels employed in the fisheries which are entitled to withdraw distilled spirits, wines, and beer for use as supplies on such vessels, pursuant to section 309 (a) of the Tariff Act of 1930 (19 U. S. C. 1309 (a)).

No data, views, or arguments were received within the period of 30 days from the date of such publication.

The amendments of 26 CFR Part 252 as set forth below are hereby adopted:

PARAGRAPH 1. Section 252.3 is amended by inserting, immediately following the word "fisheries" in paragraphs (b) and (e), the phrase: "as provided in § 252.3a".

PAR. 2. Immediately following § 252.3, the following new section is added:

§ 252.3a *Vessels employed in the fisheries.* Distilled spirits, wines, and beer may be shipped and laden with benefit of drawback on fishing vessels under the provisions of paragraphs (b) and (e) of § 252.3 only for use on vessels of the United States documented to engage in the fisheries and foreign fishing vessels of 5 net tons or over if the collector of customs is satisfied by reason of the quantity requested, in the light of (a) whether the vessel is employed in substantially continuous fishing activities, and (b) the vessel's complement, that none of the withdrawn articles is intended to be removed from the vessel in, or otherwise returned to, the United States. Such shipment and lading shall be conditioned upon compliance with the applicable provisions of this part. Lading of such articles for use on such vessels shall be subject to approval by the collector of customs of a special written application, in duplicate, on customs Forms 5125, of the exporter and designation by the applicant in Part 1 of the notice Form 1582, 1582–A or 1582–B, as the case may be, that the articles are to be laden for use as supplies on a vessel employed in the fisheries. The original application on customs Form 5125, after approval, shall be stamped with the withdrawn number (entry number on Form 1582, 1582–A or 1582–B) and date thereof and shall be returned by the collector of customs to the exporter for use as prescribed below. Approval of each such application shall be subject to the condition that the original shall be presented thereafter by the exporter or the vessel's master to the collector of customs within 24 hours (excluding any period during which the customhouse is not open for general customs business) after each subsequent arrival of the vessel at a customs port or station and that an accounting shall be made at the time of such presentation of the disposition of the articles until the collector of customs is satisfied that all of them have been consumed on board, or landed under customs supervision, and takes up the authorization. The approval of Customs Form 5125 shall be subject to the further condition that any such withdrawn articles remaining on board while the vessel is in port shall be safeguarded in the manner and to such extent as the collector for the port or place of arrival shall deem necessary. When such articles have been accounted for to the satisfaction of the collector of customs, he shall so certify on the completed customs Form 5125 taken up from the exporter or the vessel's master and forward the form to the assistant regional commissioner for the region in which the claim for drawback is required to be filed. In the event of a failure on the part of the exporter or the master of the vessel to comply with the conditions of the application or upon receipt of evidence that the articles were not lawfully used as supplies on the vessel, the collector of customs will advise the assistant regional commissioner for the region in which the claim for drawback is required to be filed of all the facts in the case for determination as to whether to make demand upon the principal and the surety on the bond in accordance with the provisions of § 252.125, or to disallow the claim as the case may be.

PAR. 3. Section 252.41 is amended to read as follows:

§ 252.41 *General.* Whenever, as to any shipment, a certificate of foreign landing as provided by § 252.114, is required by the assistant regional commissioner or an affidavit as to lading and intended use is required under the provisions of § 252.115, or an accounting of the spirits or wines is required as provided in § 252.3a, and the exporter desires drawback on the shipment of distilled spirits or wines under the provisions of this subpart prior to submission of such certificate or affidavit to the assistant regional commissioner, or accounting for the distilled spirits or wines as provided in § 252.3a, he shall file bond in accordance with the provisions of this subpart.

PAR. 4. Section 252.43 is amended by striking the period at the end thereof and adding the following: "or, in the case of withdrawals for supplies on vessels employed in the fisheries, until the original of Customs Form 5125, bearing final certification by the collector of customs as to proper accounting of the spirits or wines is submitted as required in § 252.3a."

PAR. 5. The second sentence of § 252.45, which begins "The liability under", is amended by striking the comma at the end of the phrase "lading for use on vessels," and inserting the following: "(or, in the case of spirits or wines laden for use on vessels employed in the fisheries, the original of Customs Form 5125 bearing final certification by the collector of customs as to proper accounting for such articles),".

PAR. 6. The second sentence of § 252.48, which begins "Credit will be given", is amended by striking the comma at the end of the phrase "supplies on vessels," and inserting the following: "(or, in the case of spirits or wines laden for use on vessels employed in the fisheries, original of Customs Form 5125 bearing final certification by the collector of customs as to proper accounting for such articles),".

PAR. 7. Section 252.115 is amended to read as follows:

§ 252.115 *Evidence of use as supplies on vessels.* If the spirits or wines were laden on board a vessel for use as ship's supplies, there must be submitted promptly to the assistant regional commissioner with whom the claim is filed, a statement of the master or other officer of the vessel on which the articles were laden, having knowledge of the facts, showing that the spirits or wines have been laden and will be used on board the vessel, and that no portion thereof has been or will be landed in the United States or any of its possessions: *Provided*, That such statement will not be required, in case of any shipment, when the distilled spirits or wines are laden on vessels of war or, in cases other than supplies on vessels employed in the fisheries, where the amount of tax on the distilled spirits or wines does not exceed $100. Such statement shall be signed by the master or other officer having knowledge of the facts and immediately above the signature there will appear the following statement: "I declare under the penalties of perjury that this statement has been examined by me and to the best of my knowledge and belief is true and correct." In the case of vessels employed in the fisheries, compliance with the provisions of § 252.3a is required.

PAR. 8. Section 252.119 is amended as follows:

(A) By inserting, immediately following "for use on vessels,", the following: "compliance with § 252.3a,"; and

(B) By striking the period at the end of the section and adding: ", and, where required under the provisions of § 252.3a, acounting for such spirits or wines shall be accomplished within such time as the collector of customs shall consider reasonable."

PAR. 9. The first sentence in § 252.121 is amended as follows:

(A) By inserting, immediately following "vessels or aircraft," the following: "or an accounting of the spirits or wines,"; and

(B) By inserting, immediately following "provisions of this subpart," the following: "or § 252.3a,".

PAR. 10. Section 252.122 is amended as follows:

(A) By inserting in the first sentence, immediately following "supplies on vessels,", the following: "or to account for the distilled spirits or wines where required by § 252.3a,"; and

(B) By inserting in the third sentence, which begins "The application shall", immediately following "for use as supplies", the following: "(or accounting for the spirits or wines)".

PAR. 11. Section 252.124 is amended to read as follows:

§ 252.124 *Approval of relief application.* If the assistant regional commissioner is satisfied from the evidence presented that the spirits or wines were duly exported from the United States and were landed at the designated foreign port or, for a good and sufficient reason, at some other port outside the jurisdiction of the United States, or were laden as supplies on vessels or were, in the case of spirits or wines laden as supplies on vessels employed in the fisheries, consumed or lost at sea and not relanded in the United States, its territories or possessions, and that the failure of the applicant to furnish the prescribed evidence of landing, or lading for use as supplies on vessels, or to account for the spirits or wines when required by § 252.3a, was not occasioned by any lack of diligence on his part or that of his agents, and, in the case of supplies on vessels employed in the fisheries, the master of the vessel, and that the applicant is unable to produce any other or better evidence than that submitted with the application, he will indorse his approval on the application, and enter proper credit in the account kept with the drawback bond or allow the claim, as the case may be.

PAR. 12. The first sentence of § 252.125 is amended as follows:

(A) By inserting, immediately following "for use as supplies,", the following: "or the spirits or wines are not accounted for,"; and

(B) By striking the comma at the end of the phrase "as required in this subpart," and inserting: "or § 252.3a,".

PAR. 13. Section 252.151 is amended to read as follows:

§ 252.151 *Authorized withdrawals.* Taxpaid beer, brewed or produced in the United States, may be withdrawn by the owner of the beer from a brewery or any other place of storage for exportation or for use as supplies on vessels or aircraft. Claim for drawback of taxes found to have been paid may be filed only by the producing brewer or his duly authorized agent.

PAR. 14. Section 252.152 is amended as follows:

(A) By striking, in the first sentence, the words: "Entry No. ---," and, "and the port of exporation"; and

(B) By striking the second sentence which begins: "The entry number assigned".

PAR. 15. The undesignated center heading preceding § 252.153 and § 252.153 are amended to read as follows:

CLAIM REQUIRED

§ 252.153 *Beer exported, deposited in foreign-trade zones, or used as supplies on vessels or aircraft.* Claim for allowance of drawback of internal revenue taxes on beer brewed or produced in the United States shall be prepared on Form 1582–B as required in this subpart.

PAR. 16. The undesignated center heading preceding § 252.154 and § 252.154 are amended to read as follows:

EXECUTION OF CLAIM

§ 252.154 *Withdrawals of beer by brewer from brewery.* When taxpaid beer is removed from a brewery for exportation, for lading as supplies on vessels or aircraft, or for deposit in a foreign-trade zone, the brewer will execute part 1 and part 3 of Form 1582–B, in triplicate. Each Form 1582–B shall be given a serial number beginning with "1" for the first day of January of each year and running consecutively thereafter to December 31, inclusive. Upon removal of the beer for shipment the brewer will immediately file one copy of Form 1582–B with the assistant regional commissioner of the region in which the producing brewery is located, and:

(a) Immediately forward the original and one copy of Form 1582–B to the collector of customs at the port of export; or,

(b) In the case of shipments to the Armed Services of the United States for export, immediately forward the original and one copy of Form 1582–B to the commanding or supply officer to whom the shipment is consigned: or,

(c) In the case of shipments to a foreign-trade zone, immediately forward the original and one copy of Form 1582–B to the customs officer in charge of the foreign-trade zone.

Where the brewer operates more than one brewery in different regions, the brewer will file the copy of Form 1582–B on which the claim for drawback is executed with the assistant regional commissioner of the region in which the principal office of the brewery is located.

PAR. 17. Immediately following § 252.154, a new § 252.154a is added, which reads as follows:

§ 252.154a *Removals of beer by agent on behalf of brewer.* Where proper power of attorney authorizing an agent to execute a claim on behalf of the brewer has been filed on Form 1534 with the assistant regional commissioner, such agent may remove taxpaid beer from the brewery where produced or from its place of storage elsewhere, and execute part 1 and part 3 of Form 1582–B on behalf of the brewer. Each Form 1582–B shall be given a serial number beginning with "1" for the first day of January of each year and running consecutively thereafter to December 31, inclusive. Such agent will prepare and dispose of Form 1582–B in accordance with the applicable procedure set forth in § 252.154.

PAR. 18. Section 252.155 is amended to read as follows:

§ 252.155 *Removals of beer by persons other than the brewer or his agent.* Where there is a removal of taxpaid beer by a person other than the brewer or the agent of the brewer for export, or for supplies on vessels or aircraft, or for deposit in a foreign-trade zone, such person shall execute part 1 of Form 1582–B, in triplicate. Where the exportation consists of the products of more than one brewer, a separate Form 1582–B must be prepared for the products of each brewer. Each Form 1582–B shall be given a serial number beginning with "1" for the first day of January of each year and running consecutively thereafter to December 31, inclusive. Information called for shall be furnished in accordance with the instructions on the form or issued in respect thereto. Upon removal of the beer for shipment such person will immediately forward one copy of Form 1582–B to the producing brewer, and:

(a) Immediately forward the original and one copy of Form 1582–B to the collector of customs at the port of export; or,

(b) In the case of shipments to the Armed Services of the United States for export, immediately forward the original and one copy of Form 1582–B to the commanding or supply officer to whom the shipment is consigned; or,

(c) In the case of shipments to a foreign-trade zone, immediately forward the original and one copy of Form 1582–B to the customs officer in charge of the foreign-trade zone.

Upon receipt of the copy of Form 1582–B from the exporter, the brewer will, if he wishes to claim drawback on the beer covered thereby, execute the claim for drawback on part 3 of the form and file the claim with the assistant regional commissioner of his region. Where the claim is not filed with the assistant regional commissioner within six months after the date shown in the certificate of removal in part 1 of the form, the applicable provisions of §§ 252.166 to 252.169, relating to evidence of exportation or lading for use on vessels and aircraft shall apply.

PAR. 19. Section 252.157 is amended to read as follows:

§ 252.157 *Direct delivery for customs inspection; bill of lading.* If the premises from which the shipment is made are located at the port of exportation, the beer shall be delivered directly for customs inspection and supervision of lading, and a copy of the export bill of lading shall be promptly forwarded to the assistant regional commissioner of the region in which the claim for drawback is filed: *Provided*, That an export bill of lading will not be required, (a) in the case of shipments to the Armed Services, where the shipment will be delivered to the commanding officer or supply officer to whom consigned, or (b) in the case of shipment for lading for use as supplies on vessels or aircraft.

PAR. 20. Section 252.158 is amended to read as follows:

§ 252.158 *Exportation by vessel.* If the premises from which the shipment is made are located elsewhere than at the port of exportation, the beer shall be delivered either directly for customs inspection and supervision of lading, or to a carrier for transportation to the port of exportation and a copy of the export bill of lading shall be promptly forwarded to the assistant regional commissioner of the region in which the claim for drawback is filed.

PAR. 21. Section 252.159 is amended by striking from the third sentence the words "brewer or his agent" and inserting in lieu thereof the word "exporter".

PAR. 22. Section 252.162 is amended by striking from the third sentence the word "one" and inserting in lieu thereof the words "the original".

PAR. 23. Section 252.165 is amended to read as follows:

§ 252.165 *Evidence of lading for use on vessels or aircraft.* When beer has been laden on board a vessel or aircraft for use as ship's supplies or supplies for aircraft, there must be submitted promptly to the assistant regional commissioner a statement of the master or other officer of the vessel or aircraft on which the articles were laden, having knowledge of the facts, showing that the beer has been laden and will be used as supplies on board the vessel or aircraft, and that no portion thereof has been or will be unladen in the United States or any of its territories or possessions: *Provided*, That such statement will not be required, in the case of any shipment, when the beer has been laden on vessels of war, or, in cases other than supplies on vessels employed in the fisheries, where the amount of tax on the beer does not exceed $200 and in such case certification by the customs officer of inspection and lading for use will be considered evidence of lading or use. Such statement shall be signed by the master or other officer having knowledge of the facts and immediately above the signature there will appear the following statement: "I declare under the penalties of perjury that this statement has been examined by me and to the best of my knowledge and belief is true and correct." In the case of vessels employed in the fisheries, compliance with the provisions of § 252.3a is required.

Paragraphs 13 to 22, inclusive, of this Treasury decision (identical to the amendments published in the FEDERAL REGISTER for March 27, 1956 (21 F. R. 1858)) are effective May 1, 1956. The purpose of paragraphs 1 to 12, inclusive, and paragraphs 23 of this Treasury decision is to conform the applicable provisions of 26 CFR Part 252 with Treasury Decision 53935, which amended Customs regulations to define the type of vessels engaged in the fisheries which are entitled to withdraw distilled spirits, wines, and beer for use as supplies. It is necessary that the regulations in 26 CFR Part 252 conform with the amended Customs regulations as early as possible. Inasmuch as Treasury Decision 53935 became effective November 5, 1955, it is hereby found that it is impracticable and contrary to the public interest to issue paragraphs 1 to 12, inclusive, and paragraph 23 of this Treasury decision subject to the effective date limitation of section 4 (c) of the Administrative Procedure Act (60 Stat. 238; 5 U. S. C. 1003 (c)). Accordingly, paragraphs 1 to 12, inclusive, and paragraph 23 of this Treasury decision shall be effective on the date of publication in the FEDERAL REGISTER of this Treasury decision.

This Treasury decision is issued under the authority contained in section 7805 of the Internal Revenue Code of 1954 (68A Stat. 917; 26 U. S. C. 7805).

[SEAL] O. GORDON DELK,
*Acting Commissioner of Internal Revenue.*
RALPH KELLY,
*Commissioner of Customs.*

Approved: June 4, 1956.

DAVID W. KENDALL,
*Acting Secretary of the Treasury.*

## TITLE 47—TELECOMMUNICATION

### Chapter I—Federal Communications Commission

[Docket No. 11611]

PART 4—EXPERIMENTAL AND AUXILIARY BROADCAST SERVICES

OPERATION OF TV TRANSLATOR STATIONS IN CONJUNCTION WITH PRIMARY TRANSMITTER

In the matter of amendment of Commission's rules and regulations to permit the operation of TV translator stations in conjunction with the primary transmitter.

1. A Report and Order (FCC 56–488) in the above proceeding released on May 24, 1956 contains an incorrect reference in § 4.781 (a) (3).

2. Section 4.781 (a) (3) as corrected reads as follows:

(3) Time of periodic observation required by § 4.734 (a) (2), and operating conditions signed by the operator making the observation.

Released: June 5, 1956.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] MARY JANE MORRIS,
*Secretary.*

# PROPOSED RULE MAKING

## DEPARTMENT OF THE TREASURY

### Internal Revenue Service

### [ 26 CFR (1954) Part 1 ]

INCOME TAX; TAXABLE YEARS BEGINNING AFTER DECEMBER 31, 1953

INVOLUNTARY CONVERSIONS

Notice is hereby given, pursuant to the Administrative Procedure Act, approved June 11, 1946, that the regulations set forth in tentative form below are proposed to be prescribed by the Commissioner of Internal Revenue, with the approval of the Secretary of the Treasury or his delegate. Prior to the final adoption of such regulations, considerations, will be given to any data, views, or arguments pertaining thereto which are submitted in writing, in duplicate, to the Commissioner of Internal Revenue, Attention: T: P, Washington 25, D. C., within the period of 30 days from the

date of publication of this notice in the FEDERAL REGISTER. The proposed regulations are to be issued under the authority contained in section 7805 of the Internal Revenue Code of 1954 (68A Stat. 917; 26 U. S. C. 7805).

[SEAL] O. GORDON DELK,
*Acting Commissioner of Internal Revenue.*

The following regulations for taxable years beginning after December 31, 1953, and ending after August 16, 1954, are hereby prescribed uuder section 1033 of the Internal Revenue Code of 1954:

Sec.

1.1033 (a) Statutory provisions; common nontaxable exchanges; involuntary conversions; general rule.
1.1033 (a)-1 Involuntary conversions; nonrecognition of gain.
1.1033 (a)-2 Involuntary conversion where disposition of the converted property occurred after December 31, 1950.
1.1033 (a)-3 Involuntary conversion where disposition of the converted property occurred before January 1, 1951.
1.1033 (a)-4 Replacement funds where disposition of the converted property occurred before January 1, 1951.
1.1033 (b) Statutory provisions; involuntary conversions; residence of taxpayer.
1.1033 (b)-1 Involuntary conversion of principal residence.
1.1033 (c) Statutory provisions; involuntary conversions; basis of property acquired through involuntary conversion.
1.1033 (c)-1 Basis of property acquired as a result of an involuntary conversion.
1.1033 (d) Statutory provisions; involuntary conversions; property sold pursuant to reclamation laws.
1.1033 (d)-1 Disposition of excess property within irrigation project deemed to be involuntary conversion.
1.1033 (e) Statutory provisions; involuntary conversions; livestock destroyed by disease.
1.1033 (e)-1 Destruction or disposition of livestock because of disease.
1.1033 (f) Statutory provisions; involuntary conversions; cross references.
1.1033 (f)-1 Effective date.

§ 1.1033 (a) *Statutory provisions; common nontaxable exchanges; involuntary conversions; general rule.*

SEC. 1033. *Involuntary conversions*—(a) *General rule.* If property (as a result of its destruction in whole or in part, theft, seizure, or requisition or condemnation or threat or imminence thereof) is compulsorily or involuntarily converted—

(1) *Conversion into similar property.* Into property similar or related in service or use to the property so converted, no gain shall be recognized.

(2) *Conversion into money where disposition occurred prior to 1951.* Into money, and the disposition of the converted property occurred before January 1, 1951, no gain shall be recognized if such money is forthwith in good faith, under regulations prescribed by the Secretary or his delegate, expended in the acquisition of other property similar or related in service or use to the property so converted, or in the acquisition of control of a corporation owning such other property, or in the establishment of a replacement fund. If any part of the money is not so expended, the gain shall be recognized to the extent of the money which is not so expended (regardless of whether such money is received in one or more taxable years and regardless of whether or not the money which is not so expended constitutes gain). For purposes of this paragraph and paragraph (3), the term "disposition of the converted property" means the destruction, theft, seizure, requisition, or condemnation of the converted property, or the sale or exchange of such property under threat or imminence of requisition or condemnation.

(3) *Conversion into money where disposition occurred after 1950.* Into money or into property not similar or related in service or use to the converted property, and the disposition of the converted property (as defined in paragraph (2)) occurred after December 31, 1950, the gain (if any) shall be recognized except to the extent hereinafter provided in this paragraph:

(A) *Nonrecognition of gain.* If the taxpayer during the period specified in subparagraph (B), for the purpose of replacing the property so converted, purchases other property similar or related in service or use to the property so converted, or purchases stock in the acquisition of control of a corporation owning such other property, at the election of the taxpayer the gain shall be recognized only to the extent that the amount realized upon such conversion (regardless of whether such amount is received in one or more taxable years) exceeds the cost of such other property or such stock. Such election shall be made at such time and in such manner as the Secretary or his delegate may by regulations prescribe. For purposes of this paragraph—

(i) No property or stock acquired before the disposition of the converted property shall be considered to have been acquired for the purpose of replacing such converted property unless held by the taxpayer on the date of such disposition; and

(ii) The taxpayer shall be considered to have purchased property or stock only if, but for the provisions of subsection (c) of this section, the unadjusted basis of such property or stock would be its cost within the meaning of section 1012.

(B) *Period within which property must be replaced.* The period referred to in subparagraph (A) shall be the period beginning with the date of the disposition of the converted property, or the earliest date of the threat or imminence of requisition or condemnation of the converted property, whichever is the earlier, and ending—

(i) One year after the close of the first taxable year in which any part of the gain upon the conversion is realized, or

(ii) Subject to such terms and conditions as may be specified by the Secretary or his delegate, at the close of such later date as the Secretary or his delegate may designate on application by the taxpayer. Such application shall be made at such time and in such manner as the Secretary or his delegate may by regulations prescribe.

(C) *Time for assessment of deficiency attributable to gain upon conversion.* If a taxpayer has made the election provided in subparagraph (A), then—

(i) The statutory period for the assessment of any deficiency, for any taxable year in which any part of the gain on such conversion is realized, attributable to such gain shall not expire prior to the expiration of 3 years from the date the Secretary or his delegate is notified by the taxpayer (in such manner as the Secretary or his delegate may by regulations prescribe) of the replacement of the converted property or of an intention not to replace, and

(ii) Such deficiency may be assessed before the expiration of such 3-year period notwithstanding the provisions of section 6212 (c) or the provisions of any other law or rule of law which would otherwise prevent such assessment.

(D) *Time for assessment of other deficiencies attributable to election.* If the election provided in subparagraph (A) is made by the taxpayer and such other property or such stock was purchased before the beginning of the last taxable year in which any part of the gain upon such conversion is realized, any deficiency, to the extent resulting from such election, for any taxable year ending before such last taxable year may be assessed (notwithstanding the provisions of section 6212 (c) or 6501 or the provisions of any other law or rule of law which would otherwise prevent such assessment) at any time before the expiration of the period within which a deficiency for such last taxable year may be assessed.

§ 1.1033 (a)-1 *Involuntary conversions; nonrecognition of gain*—(a) *In general.* Section 1033 applies to cases where property is compulsorily or involuntarily converted. An "involuntary conversion" may be the result of the destruction of property in whole or in part, the theft of property, the seizure of property, the requisition or condemnation of property, or the threat or imminence of requisition or condemnation of property. An "involuntary conversion" may be a conversion into similar property or into money or into dissimilar property. Section 1033 provides that, under certain specified circumstances, any gain which is realized from an involuntary conversion shall not be recognized. In cases where property is converted into other property similar or related in service or use to the converted property, no gain shall be recognized regardless of when the disposition of the converted property occurred and regardless of whether or not the taxpayer elects to have the gain not recognized. In other types of involuntary conversion cases, however, the proceeds arising from the disposition of the converted property must (within the time limits specified) be reinvested in similar property in order to avoid recognition of any gain realized. Different rules for reinvestment apply, depending upon whether the disposition of the converted property occurred after 1950 or before 1951 (see §§ 1.1033 (a)-2, 1.1033 (a)-3, and 1.1033 (a)-4). Section 1033 applies only with respect to gains; losses from involuntary conversions are recognized or not recognized without regard to this section.

(b) *Special rules.* For rules relating to basis of property acquired through involuntary conversion, see § 1.1033 (c)-1. Special rules apply to involuntary conversions of residence property, property sold pursuant to reclamation laws, and livestock destroyed by disease (see §§ 1.1033 (b)-1, 1.1033 (d)-1, and 1.1033 (e)-1, respectively). For determination of the period for which the taxpayer has held property acquired as a result of certain involuntary conversions, see section 1223 and regulations issued thereunder. For treatment of gains from involuntary conversions as capital gains in certain cases, see section 1231 (a) and regulations issued thereunder. For portion of war loss recoveries treated as gain on involuntary conversion, see section 1332 (b) (3) and regulations issued thereunder.

§ 1.1033 (a)-2 *Involuntary conversion where disposition of the converted property occurred after December 31, 1950*—(a) *In general.* This section applies only with respect to involuntary conversions where the disposition of the converted property occurred after December 31, 1950, and where the proceeds are received in a taxable year to which the Internal Revenue Code of 1954 applies. The term "disposition of the converted property" means the destruction, theft, seizure, requisition, or condemnation of the converted property, or the sale or exchange of such property under threat or imminence of requisition or condemnation.

(b) *Conversion into similar property.* If property (as a result of its destruction in whole or in part, theft, seizure, or requisition or condemnation or threat or imminence thereof) is compulsorily or involuntarily converted only into property similar or related in service or use to the property so converted, no gain shall be recognized. Such nonrecognition of gain is mandatory.

(c) *Conversion into money or into dissimilar property.* (1) If property (as a result of its destruction in whole or in part, theft, seizure, or requisition or condemnation or threat or imminence thereof) is compulsorily or involuntarily converted into money or into property not similar or related in service or use to the converted property, the gain, if any, shall be recognized, at the election of the taxpayer, only to the extent that the amount realized upon such conversion exceeds the cost of other property purchased by the taxpayer which is similar or related in service or use to the property so converted, or the cost of stock of a corporation owning such other property which is purchased by the taxpayer in the acquisition of control of such corporation, if the taxpayer purchased such other property, or such stock, for the purpose of replacing the property so converted and during the period specified in subparagraph (3) of this paragraph.

(2) All of the details in connection with an involuntary conversion of property at a gain (including those relating to the replacement of the converted property, or a decision not to replace, or the expiration of the period for replacement) shall be reported in the return for the taxable year or years in which any of such gain is realized. An election to have such gain recognized only to the extent provided in subparagraph (1) of this paragraph shall be made by including such gain in gross income for such year or years only to such extent. If, at the time of filing such a return, the period within which the converted property must be replaced has expired, or if such an election is not desired, the gain should be included in gross income for such year or years in the regular manner. A failure to so include such gain in gross income in the regular manner shall be deemed to be an election by the taxpayer to have such gain recognized only to the extent provided in subparagraph (1) of this paragraph even though the details in connection with the conversion are not reported in such return. If, after having made an election under section 1033 (a) (3), the converted property is not replaced within the required period of time, or replacement is made at a cost lower than was anticipated at the time of the election, or a decision is made not to replace, the tax liability for the year or years for which the election was made shall be recomputed. Such recomputation should be in the form of an "amended return". If a decision is made to make an election under section 1033 (a) (3) after the filing of the return and the payment of the tax for the year or years in which any of the gain on an involuntary conversion is realized and before the expiration of the period within which the converted property must be replaced, a claim for credit or refund for such year or years should be filed. If the replacement of the converted property occurs in a year or years in which none of the gain on the conversion is realized, all of the details in connection with such replacement shall be reported in the return for such year or years.

(3) The period referred to in subparagraphs (1) and (2) of this paragraph is the period of time commencing with the date of the disposition of the converted property, or the date of the beginning of the threat or imminence of requisition or condemnation of the converted property, whichever is earlier, and ending one year after the close of the first taxable year in which any part of the gain upon the conversion is realized, or at the close of such later date as may be designated pursuant to an application of the taxpayer. Such application shall be made prior to the expiration of the one year after the close of the first taxable year in which any part of the gain from the conversion is realized, and shall contain all of the details in connection with the involuntary conversion. Such application shall be made to the district director for the internal revenue district in which the return is filed for the first taxable year in which any of the gain from the involuntary conversion is realized. No extension of time shall be granted pursuant to such application unless the taxpayer can show reasonable cause for not being able to replace the converted property within the required period of time.

(4) Property or stock purchased before the disposition of the converted property shall be considered to have been purchased for the purpose of replacing the converted property only if such property or stock is held by the taxpayer on the date of the disposition of the converted property. Property or stock shall be considered to have been purchased only if, but for the provisions of section 1033 (c), the unadjusted basis of such property or stock would be its cost to the taxpayer within the meaning of section 1012. If the taxpayer's unadjusted basis of the replacement property would be determined, in the absence of section 1033 (c), under any of the exceptions referred to in section 1012, the unadjusted basis of the property would not be its cost within the meaning of section 1012. For example, if property similar or related in service or use to the converted property is acquired by gift and its basis is determined under section 1015, such property will not qualify as a replacement for the converted property.

(5) If a taxpayer makes an election under section 1033 (a) (3), any deficiency, for any taxable year in which any part of the gain upon the conversion is realized, which it attributable to such gain may be assessed at any time before the expiration of three years from the date the district director with whom the return for such year has been filed is notified by the taxpayer of the replacement of the converted property or of an intention not to replace, or of a failure to replace, within the required period, notwithstanding the provisions of section 6212 (c) or the provisions of any other law or rule of law which would otherwise prevent such assessment. If replacement has been made, such notification shall contain all of the details in connection with such replacement. Such notification should be made in the return for the taxable year or years in which the replacement occurs, or the intention not to replace is formed, or the period for replacement expires, if this return is filed with such district director. If this return is not filed with such district director, then such notification shall be made to such district director at the time of filing this return. If the taxpayer so desires, he may, in either event, also notify such district director before the filing of such return.

(6) If a taxpayer makes an election under section 1033 (a) (3) and the replacement property or stock was purchased before the beginning of the last taxable year in which any part of the gain upon the conversion is realized, any deficiency, for any taxable year ending before such last taxable year, which is attributable to such election may be assessed at any time before the expiration of the period within which a deficiency for such last taxable year may be assessed, notwithstanding the provisions of section 6212 (c) or 6501 or the provisions of any law or rule of law which would otherwise prevent such assessment.

(7) If the taxpayer makes an election under section 1033 (a) (3), the gain upon the conversion shall be recognized to the extent that the amount realized upon such conversion exceeds the cost of the replacement property or stock, regardless of whether such amount is realized in one or more taxable years.

(8) The proceeds of a use and occupancy insurance contract, which by its terms insured against actual loss sustained of net profits in the business, are not proceeds of an involuntary conversion but are income in the same manner that the profits for which they are substituted would have been.

(9) There is no investment in property similar in character and devoted to a similar use if—

(i) The proceeds of unimproved real estate, taken upon condemnation proceedings, are invested in improved real estate.

(ii) The proceeds of conversion of real property are applied in reduction of indebtedness previously incurred in the purchase of a leasehold.

(iii) The owner of a requisitioned tug uses the proceeds to buy barges.

(10) If, in a condemnation proceeding, the Government retains out of the award sufficient funds to satisfy special assessments levied against the remaining portion of the plot or parcel of real estate affected for benefits accruing in connection with the condemnation, the amount so retained shall be deducted from the gross award in determining the amount of the net award.

(11) If, in a condemnation proceeding, the Government retains out of the award sufficient funds to satisfy liens (other than liens due to special assessments levied against the remaining portion of the plot or parcel of real estate affected for benefits accruing in connection with the condemnation) and mortgages against the property, and itself pays the same, the amount so retained shall not be deducted from the gross award in determining the amount of the net award. If, in a condemnation proceeding, the Government makes an award to a mortgagee to satisfy a mortgage on the condemned property, the amount of such award shall be considered as a part of the "amount realized" upon the conversion regardless of whether or not the taxpayer was personally liable for the mortgage debt.

(12) An amount expended for replacement of an asset, in excess of the recovery for loss, represents a capital expenditure and is not a deductible loss for income tax purposes.

§ 1.1033 (a)–3 *Involuntary conversion where disposition of the converted property occurred before January 1, 1951.* (a) This section applies only with respect to involuntary conversions where the disposition of the converted property occurred before January 1, 1951, and where the proceeds are received in a taxable year to which the Internal Revenue Code of 1954 applies. The term "disposition of the converted property" means the destruction, theft, seizure, requisition, or condemnation of the converted property, or the sale or exchange of such property under threat or imminence of requisition or condemnation.

(b) (1) Upon the involuntary conversion of property described in section 1033, no gain is recognized if the provisions of that section are complied with. If any part of the money received as a result of such an involuntary conversion is not expended in the manner provided in section 1033 (a) (2), the gain, if any, is recognized to the extent of the money which is not so expended. For example, a vessel purchased by A in 1949 for $100,000 is destroyed by a typhoon in 1950, and A receives in 1954 insurance in the amount of $100,000. This money is not expended in the manner provided in section 1033 (a) (2), but there is no gain since the insurance does not exceed the basis (disregarding, for the purposes of this example, the adjustment for depreciation). In 1955, A receives insurance from a second policy of $200,000 on account of the destruction of the vessel. He expends this amount in the manner provided in section 1033 (a) (2). The gain in 1955 upon the receipt of the $200,000 is recognized to the extent of $100,000, the amount of the money received in 1954 which was not expended in the manner provided in section 1033 (a) (2).

(2) Losses from involuntary conversions are recognized or not recognized without regard to section 1033. The expenditure in the manner provided in section 1033 (a) (2) of money received upon an involuntary conversion is not necessary for the transaction to be considered completed for the purpose of determining such loss.

(c) In order to avail himself of the benefits of section 1033 (a) (2) it is not sufficient for the taxpayer to show that subsequent to the receipt of money from a condemnation award he purchased other property similar or related in use. The taxpayer must trace the proceeds of the award into the payments for the property so purchased. It is not necessary that the proceeds be earmarked, but the taxpayer must be able to prove that the same were actually reinvested in such other property similar or related in use to the property converted. The benefits of section 1033 (a) (2) cannot be extended to a taxpayer who does not purchase other property similar or related in service or use, notwithstanding the fact that there was no other such property available for purchase.

(d) If, in a condemnation proceeding, the Government retains out of the award sufficient funds to satisfy liens (other than liens due to special assessments levied against the remaining portion of the plot or parcel of real estate affected for benefits accruing in connection with the condemnation) and mortgages against the property and itself pays the same, the amount so retained shall not be deducted from the gross award in determining the amount of the net award. If, in a condemnation proceeding, the Government makes an award to a mortgagee to satisfy a mortgage on the condemned property, the amount of such award shall be considered as a part of the "amount realized" upon the conversion regardless of whether or not the taxpayer was personally liable for the mortgage debt. An amount expended for replacement of an asset, in excess of the recovery for loss, represents a capital expenditure and is not a deductible loss for income tax purposes.

(e) The provisions of section 1033 (a) (2) are applicable to property used for residential or farming purposes.

(f) The proceeds of a use and occupancy insurance contract, which by its terms insured against actual loss sustained of net profits in the business, are not proceeds of an involuntary conversion but are income in the same manner that the profits for which they are substituted would have been.

(g) There is no investment in property similar in character and devoted to a similar use if—

(1) The proceeds of unimproved real estate, taken upon condemnation proceedings, are invested in improved real estate.

(2) The proceeds of conversion of real property are applied in reduction of indebtedness previously incurred in the purchase of a leasehold.

(3) The owner of a requisitioned tug uses the proceeds to buy barges.

(h) It is incumbent upon a taxpayer "forthwith" to apply for and receive permission to establish a replacement fund in every case where it is not possible to replace immediately. If an expenditure in actual replacement would be too late, a request for the establishment of a replacement fund would likewise be too late.

NOTE: This section is substantially the same as § 29.112 (f)–1 (Regulations 111).

§ 1.1033 (a)–4 *Replacement funds where disposition of the converted property occurred before January 1, 1951.* (a) This section applies only with respect to involuntary conversions where the disposition of the converted property (as defined in § 1.1033 (a)–3) occurred before January 1, 1951, and where the proceeds are received in a taxable year to which the Internal Revenue Code of 1954 applies.

(b) In any case where the taxpayer elects to replace or restore the converted property but it is not practicable to do so immediately (for example, because of a shortage of materials or an industry-wide strike), he may obtain permission to establish a replacement fund in his accounts in which part or all of the compensation so received shall be held, without deduction for the payment of any mortgage. In such a case the taxpayer should make application on Form 1114 to the district director for the district in which his return is required to be filed for permission to establish such a replacement fund, and in his application should recite all the facts relating to the transaction and declare that he will proceed as expeditiously as possible to replace or restore such property. The taxpayer will be required to furnish a bond with such surety as the district director may require in an amount not in excess of double the estimated additional income taxes which would be payable if no replacement fund were established. See 6 U. S. C. 15 (Appendix to the Income Tax Regulations), providing that where a bond is required by law or regulations, in lieu of surety or sureties there may be deposited bonds or notes of the United States. The estimated additional taxes, for the amount of which the applicant is required to furnish security, should be computed at the rates at which the applicant would have been obliged to pay, taking into consideration the remainder of his taxable (or net) income and resolving against him all matters in dispute affecting the amount of the tax. Only surety companies holding certificates of authority from the Secretary of the Treasury as acceptable sureties on Federal bonds will be approved as sureties. The application should be executed in triplicate, so that the district director, the applicant, and the surety or depositary may each have a copy.

NOTE: This section is substantially the same as § 29.112 (f)–2 (Regulations 111).

§ 1.1033 (b) *Statutory provisions; involuntary conversions; residence of taxpayer.*

SEC. 1033. *Involuntary conversions.* • • •

(b) *Residence of taxpayer.* Subsection (a) shall not apply, in the case of property used by the taxpayer as his principal residence, if the destruction, theft, seizure, requisition, or condemnation of the residence, or the sale or exchange of such residence under threat or imminence thereof, occurred after December 31, 1950, and before January 1, 1954.

§ 1.1033 (b)–1 *Involuntary conversion of principal residence.* Section 1033 shall apply in the case of property used by the taxpayer as his principal residence if the destruction, theft, seizure, requisition, or condemnation of such residence, or the sale or exchange of such residence under threat or imminence thereof, occurs before January 1, 1951, or after December 31, 1953. Section 1033 shall not apply in the case of an involuntary conversion of property used by the taxpayer as his principal residence if the destruction, theft, seizure, requisition or condemnation of such residence, or the sale or exchange of such residence under threat or imminence thereof, occurred after December 31, 1950, and before January 1, 1954. In the case of property disposed of after December 31, 1950, and before January 1, 1954, which is used by the taxpayer partially as a principal residence and partially for other purposes, proper allocation shall be made and § 1.1033 (a)–2 and § 1.1033 (c)–1 shall apply only with respect to the involuntary conversion of the portion used for such other purposes.

§ 1.1033 (c) *Statutory provisions; involuntary conversions; basis of property acquired through involuntary conversion.*

SEC. 1033. *Involuntary conversions.* • • •

(c) *Basis of property acquired through involuntary conversion.* If the property was acquired, after February 28, 1913, as the result of a compulsory or involuntary conversion described in subsection (a) (1) or (2), the basis shall be the same as in the case of the property so converted, decreased in the amount of any money received by the taxpayer which was not expended in accordance with the provisions of law (applicable to the year in which such conversion was made) determining the taxable status of the gain or loss upon such conversion, and increased in the amount of gain or decreased in the amount of loss to the taxpayer recognized upon such conversion under the law applicable to the year in which such conversion was made. This subsection shall not apply in respect of property acquired as a result of a compulsory or involuntary conversion of property used by the taxpayer as his principal residence if the destruction, theft, seizure, requisition, or condemnation of such residence, or the sale or exchange of such residence under threat or imminence thereof, occurred after December 31, 1950, and before January 1, 1954. In the case of property purchased by the taxpayer in a transaction described in subsection (a) (3) which resulted in the nonrecognition of any part of the gain realized as the result of a compulsory or involuntary conversion, the basis shall be the cost of such property decreased in the amount of the gain not so recognized; and if the property purchased consists of more than one piece of property, the basis determined under this sentence shall be allocated to the purchased properties in proportion to their respective costs.

§ 1.1033 (c)–1 *Basis of property acquired as a result of an involuntary conversion.* (a) The provisions of the first sentence of section 1033 (c) may be illustrated by the following example:

*Example.* A's vessel which has an adjusted basis of $100,000 is destroyed in 1950 and A receives in 1951 insurance in the amount of $200,000. If A invests $150,000 in a new vessel, taxable gain to the extent of $50,000 would be recognized. The basis of the new vessel is $100,000; that is, the adjusted basis of the old vessel ($100,000) minus the money received by the taxpayer which was not expended in the acquisition of the new vessel ($50,000) plus the amount of gain recognized upon the conversion ($50,000). If any amount in excess of the proceeds of the conversion is expended in the acquisition of the new property, such amount may be added to the basis otherwise determined.

(b) The provisions of the last sentence of section 1033 (c) may be illustrated by the following example:

*Example.* A taxpayer realizes $22,000 from the involuntary conversion of his barn in 1955; the adjusted basis of the barn to him was $10,000, and he spent in the same year $20,000 for a new barn which resulted in the nonrecognition of $10,000 of the $12,000 gain on the conversion. The basis of the new barn to the taxpayer would be $10,000—the cost of the new barn ($20,000) less the amount of the gain not recognized on the conversion ($10,000). The basis of the new barn would not be a substituted basis in the hands of the taxpayer within the meaning of section 1016 (b) (2). If the replacement of the converted barn had been made by the purchase of two smaller barns which, together, were similar or related in service or use to the converted barn and which cost $8,000 and $12,000, respectively, then the basis of the two barns would be $4,000 and $6,000, respectively, the total basis of the purchased property ($10,000) allocated in proportion to their respective costs (8,000/20,000 of $10,000 or $4,000; and 12,000/20,000 of $10,000, or $6,000).

§ 1.1033 (d) *Statutory provisions; involuntary conversions; property sold pursuant to reclamation laws.*

SEC. 1033. *Involuntary conversions.* • • •

(d) *Property sold pursuant to reclamation laws.* For purposes of this subtitle, if property lying within an irrigation project is sold or otherwise disposed of in order to conform to the acreage limitation provisions of Federal reclamation laws, such sale or disposition shall be treated as an involuntary conversion to which this section applies.

§ 1.1033 (d)–1 *Disposition of excess property within irrigation project deemed to be involuntary conversion.* (a) The sale, exchange, or other disposition occurring in a taxable year to which the Internal Revenue Code of 1954 applies, of excess lands lying within an irrigation project or division in order to conform to acreage limitations of the Federal reclamation laws effective with respect to such project or division shall be treated as an involuntary conversion to which the provisions of section 1033 and the regulations thereunder shall be applicable. The term "excess lands" means irrigable lands within an irrigation project or division held by one owner in excess of the amount of irrigable land held by such owner entitled to receive water under the Federal reclamation laws applicable to such owner in such project or division. Such excess lands may be either (1) lands receiving no water from the project or division, or (2) lands receiving water only because the owner thereof has executed a valid recordable contract agreeing to sell such lands under terms and conditions satisfactory to the Secretary of the Interior.

(b) A disposition of excess lands under a plan whereby the owner thereof also disposes of any or all his nonexcess lands within the irrigation project or division shall not be treated as a disposition "in order to conform to the acreage limitation provisions of Federal reclamation laws." A disposition of nonexcess lands at the same time as the disposition of excess lands, or within one year thereof, shall be presumptive of such a plan.

(c) The provisions of § 1.1033 (a)–2 shall be applicable in the case of dispositions treated as involuntary conversions under this section. The details in connection with such a disposition required to be reported under § 1.1033 (a)–2 (c) (2) shall include the authority whereby the lands disposed of are considered "excess lands", as defined in this section, and a statement that such disposition is not part of a plan contemplating the disposition of all or any nonexcess land within the irrigation project or division.

(d) The term "involuntary conversion", where it appears in subtitle A or the regulations thereunder, includes dispositions of excess property within irrigation projects described in this section. (See, e. g., section 1231 and the regulations thereunder.)

§ 1.1033 (e) *Statutory provisions; involuntary conversions; livestock destroyed by disease.*

SEC. 1033. *Involuntary conversions.* • • •

(e) *Livestock destroyed by disease.* For purposes of this subtitle, if livestock are destroyed by or on account of disease, or are sold or exchanged because of disease, such destruction or such sale or exchange shall be treated as an involuntary conversion to which this section applies.

§ 1.1033 (e)–1 *Destruction or disposition of livestock because of disease.* (a) The destruction occurring in a taxable year to which the Internal Revenue Code of 1954 applies, of livestock by, or on account of, disease, or the sale or exchange, in such a year, of livestock because of disease, shall be treated as an involuntary conversion to which the provisions of section 1033 and the regulations thereunder shall be applicable. Livestock which are killed either because they are diseased or because of exposure to disease shall be considered destroyed on account of disease. Livestock which are sold or exchanged because they are diseased or have been exposed to disease, and would not otherwise have been sold or exchanged at that particular time shall be considered sold or exchanged because of disease.

(b) For purposes of this section, the term "livestock" includes all animals which at the time of their destruction or sale or exchange are (1) used in the taxpayer's trade or business, or (2) properly includible in the inventory of

the taxpayer if on hand at the close of the taxable year, or (3) held by the taxpayer primarily for sale to customers in the ordinary course of trade or business.

(c) The provisions of § 1.1033 (a)–2 shall be applicable in the case of a disposition treated as an involuntary conversion under this section. The details in connection with such a disposition required to be reported under § 1.1033 (a)–2 (c) (2) shall include a recital of the evidence that the livestock were destroyed by or on account of disease, or sold or exchanged because of disease.

(d) The term "involuntary conversion," where it appears in subtitle A or the regulations thereunder, includes disposition of livestock described in this section. (See, e. g., section 1231 and the regulations thereunder.)

§ 1.1033 (f) *Statutory provisions; involuntary convertions; cross references.*

SEC. 1033. *Involuntary conversions.* • • •

(f) *Cross references.* (1) For determination of the period for which the taxpayer has held property involuntarily converted, see section 1223.

(2) For treatment of gains from involuntary conversions as capital gains in certain cases, see section 1231 (a).

§ 1.1033 (f)–1 *Effective date.* The provisions of section 1033 and the regulations thereunder are effective for taxable years beginning after December 31, 1953, and ending after August 16, 1954, the date of enactment of the Internal Revenue Code of 1954. See section 7851 (a) (1) (A).

## DEPARTMENT OF AGRICULTURE

### Agricultural Marketing Service

### [ 7 CFR Part 924 ]

[Docket No. AO–225–A7]

HANDLING OF MILK IN DETROIT, MICHIGAN, MARKETING AREA

NOTICE OF RECOMMENDED DECISION AND OPPORTUNITY TO FILE WRITTEN EXCEPTION WITH RESPECT TO PROPOSED AMENDMENTS TO TENTATIVE MARKETING AGREEMENT AND TO ORDER, AS AMENDED

Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and the applicable rules of practice and procedure, as amended, governing the formulation of marketing agreements and marketing orders (7 CFR Part 900), notice is hereby given of the filing with the Hearing Clerk of the recommended decision of the Deputy Administrator, Agricultural Marketing Service, United States Department of Agriculture, with respect to a proposed marketing agreement and a proposed order, amending the order, as amended, regulating the handling of milk in the Detroit, Michigan, marketing area. Interested parties may file written exception to this decision with the Hearing Clerk, United States Department of Agriculture, Washington 25, D. C., not later than the close of business the 20th day after publication of this decision in the FEDERAL REGISTER. Exceptions should be filed in quadruplicate.

*Preliminary statement.* The hearing, on the record of which the proposed amendments, as hereinafter set forth, to the tentative marketing agreement and to the order, as amended, were formulated, was conducted at Detroit, Michigan, on February 28 through March 7, 1956, pursuant to notice thereof which was issued February 7, 1956 (21 F. R. 953).

The material issues considered on the record of the hearing related to the following:

1. Extension of the marketing area;
2. Modification of the performance standards for determining the status of pool plants;
3. Division of the present Class II into two separate classes, with separate price provisions for each Class;
4. Revision of the classification of milk transferred from pool to nonpool plants;
5. An increase in the stated Class I differentials in the six months of seasonally lowest production and revision of the supply-demand adjustment;
6. Revision of the butterfat differentials to handlers and to producers;
7. Revision of the rates of location adjustment to handlers and producers;
8. Elimination of location adjustments in the price of excess milk under the base rating plan;
9. Provision for producer pooling, on a seniority basis;
10. Revision of base rules;
11. Allowance of additional time for handlers to make payments to producers; and
12. Revision of those provisions of the order relating to milk priced under other Federal orders.

*Findings and conclusions.* The following findings and conclusions on the material issues are based upon evidence in the record.

1. *Marketing area.* The Detroit marketing area should be expanded to include nine townships in the vicinity of the city of Ann Arbor. The townships are Webster, Northfield, Salem, Scio, Lodi, Pittsfield, Saline, York, and Augusta.

These townships are part of a 24-township territory which a group of handlers doing business in the Ann Arbor area proposed be added to the market. The distribution data available at the hearing consisted of the 1950 census population of the townships and estimates by the Ann Arbor handlers of the numbers of delivery routes serving each township. The 1950 population data are known to be considerably smaller than the present population of these rapidly growing communities. However, it is apparent from these data that the nine townships to be included in the marketing area include those with the largest populations and the ones in which the Ann Arbor handlers have the greatest per capita distribution of milk. There was no evidence of sales in these nine townships by any handlers whose primary markets are outside of the Detroit market. On the other hand, there is always the obvious possibility that handlers from such unregulated markets as Jackson or Lansing could develop sales in these townships.

The eight westernmost townships in Washtenaw County should not be included in the Detroit marketing area. They are less densely populated than the nine townships previously mentioned, are served by Jackson handlers to an extent which would bring some of these handlers under the Detroit order, and are less extensively served by the Ann Arbor dairies than the nine townships.

The four townships of Brighton, Milford, Green Oak, and Lyon also should not be included in the Detroit marketing area. Lansing handlers have routes extending into all four of these townships and do a greater proportion of business in Milford township than the Detroit handlers. Similarly, the three southernmost townships in the proposed additional area should not be included in the Detroit market. It appears that the Ann Arbor dairies serve only a small proportion of the total population in these townships, the remaining distribution being made by handlers not subject to the Detroit order.

One of the Detroit handlers proposed that twelve townships lying north and east of the city of Pontiac be added to the Detroit marketing area. He testified that these townships were served by a considerable number of Detroit dealers. There are also some local handlers serving these townships and two dairies from Flint have routes extending into those townships which are closest to that city. However, no data were presented to show the comparative volumes of distribution and there was no evidence of any competitive problems in the twelve townships of such nature as to threaten the orderly marketing of milk in the Detroit market. It is concluded that the present record shows no basis for the inclusion of these twelve townships.

2. *Status of pool plants.* There are two general types of milk handling plants associated with the market. One is the distributing plant, in which the raw milk is pasteurized and bottled for distribution to homes and stores. These are commonly, though not always, located within the marketing area, and are often referred to as city plants. The other type of plant is one at which milk is received from farmers, cooled, and readied for shipment in bulk to the distributing plants. These differences in function require separate standards for determining pool status.

(a) *Distributing plants.* Among the amendments of November 1, 1955, was one which would modify the standards under which a distributing, "city" plant would qualify as a pool plant. In order to qualify as a pool plant, route distribution inside the marketing area would have to amount to an average of 600 or more pounds per day, and in addition, half of the total receipts at such a plant would have to be disposed of on routes either inside or outside of the marketing area. In other words, a distributing pool plant would have to be primarily in the business of distributing fluid milk rather than in the business of making manufactured dairy products. In view of the seasonality of receipts, "half" was defined as 55 percent during the months of August through January and 45 percent during the months of February through July. This provision was not scheduled to become effective until August 1, 1956, in order to allow any distributing plants which might have a lower percentage of route sales ample time to adjust their operations.

A handler proposed that the required proportion of fluid sales be substantially lowered. He based this request mainly upon a contention that the standards for distributing plants should be comparable with those for country supply plants. He pointed out that during the four months the call percentage provisions had been in effect, the country supply plants had been obligated to ship an average of 40 percent of their total receipts to city plants. Moreover, the call percentage is computed by including a 15 percent operating reserve over the city plant's Class I sales. He maintained that allowing a similar adjustment would bring the city plant's ratio of Class I sales to total receipts down to 34 percent for the four months.

One of the primary reasons for adopting a minimum percentage of route sales was to make the pool plant standards for city distributing plants comparable to the amended country pool plant standards. Without such a corresponding change in the city plant standards, a country plant might qualify as a distributing pool plant by making a small volume of sales in the marketing area instead of meeting the call percentage shipping requirements. Also, a city plant might accept several times as much milk from country plants as it needed for Class I purposes merely to qualify the country plants.

In determining whether or not the city plant standards are comparable to those which apply to country plants, it must be borne in mind that all country plants were, in fact, obligated to ship 48 percent of their total supplies to the city plants in January 1956. Also, they must so arrange their opefations as to be prepared to ship as much as 75 percent in any month when such quantity might be needed. It is the maximum called for rather than a four- or six-month average which determines their method of operation. A second point is that a city plant operator knows within comparatively small limits what his Class I requirements will be and can make adjustments in his number of shippers and the quantity he may purchase from other plants. On the other hand, the demands on a country plant are much less predictable since in many cases they furnish supplemental supplies to city plants rather than a full supply. Finally, the 15-percent operating reserve used in computing city plant needs for country plant milk is not applicable in the manner suggested by the proponent. The country plants were required to ship the full 48 percent of their available receipts (total receipts less actual route sales) during January. Furthermore, if a larger operating reserve were allowed, the apparent requirements of the city plants would have been increased, the call percentage would have been correspondingly raised, and the country plants would have had to find customers for the larger quantities which would have needed to be shipped.

It is concluded that the requirement that a city distributing plant have half of its total sales on routes in order to qualify as a pool plant is quite conservative in comparison with the amended pool plant standards which apply to country supply plants.

(b) *Supply plants.* The standards under which a country supply plant could qualify as a pool plant were amended November 1, 1955. In place of the nominal standards which had previously been in effect, the amendment required that a supply plant ship at least 25 percent of its supply of producer milk to city plants during the four months of October through January and that it ship whatever larger percentage is specified in the market administrator's "call percentage". This call percentage is based upon the administrator's advance estimate of the quantities which city plants might need from country plant sources to meet their Class I sales, plus an operating reserve, the announced call being reduced by one-fourth from the estimates. A call percentage can be announced by the market administrator in any month except the flush months of April through July. This technique of establishing a comparatively low minimum shipping percentage and of relying principally upon the call percentages to determine whether a supply plant is sufficiently associated with the market to be considered a pool plant was adopted as being more responsive to changes in marketing conditions than a system of fixed shipping percentages. It also reflected a conclusion that each of the supply plants which are primarily identified with the Detroit market should ship an equal share of the market's requirements for milk for Class I purposes.

Two handlers proposed that the call percentage device be modified to require only that a country plant make a formal offer of the required quantity of milk to city plants instead of being required to make physical shipment of the specified percentage. One of these handlers favored retention of the 25 percent shipping requirement in the four months of October through January, but the other one testified that only the call percentage and offer technique should be used to determine pool plant status.

Under the proposed offer system, the operator of a country supply plant would submit a formal statement of offer to the market administrator, specifying the terms and conditions under which the milk would be available to city plants. These offers would be assembled by the market administrator and made available to each of the city plants.

There appear to be two major sources of difficulty in the application of the offer technique to conditions in the Detroit market. Any offer system which would be relied upon as an effective milk marketing device would present formidable problems of administration. Perhaps the most difficult of these is to specify the price at which the milk is to be offered. If no limit is set on the price specified in the offer, a supply plant could escape its obligation to ship milk by quoting an unrealistically high price. If a maximum price is set, it will apply to milk for which the handler has performed services beyond those involved in the delivery of milk to a milk plant by a producer. The additional services would include dumping, weighing, testing, washing of cans, cooling, redelivery into cans or tanks, and perhaps transportation to one or several city plants. It would be difficult to establish appropriate returns for the various combinations of these services which might be involved, and it would appear preferable to confine pricing to the delivery of milk by farmers to the handlers' plants unless this cannot be effectively accomplished without establishing charges for the subsequent handling functions. The proposed offer system would also require a set of rules to determine whether offers and acceptances were bona fide as to such factors as the quantities involved, length of advance notice of offer and acceptance, responsibility for transporting the milk, responsibility for quality, and the like.

The second major shortcoming of the offer proposal is that it would not leave country supply plants with any direct incentive to develop Class I outlets among the city plants. The present supply plants could maintain pool status by making only such shipments as were called for, and new plants could participate in the pool without developing any city plant customers for their milk.

The handlers who proposed meeting the call percentages by offers instead of by physical shipments testified that they had had considerable difficulty in finding city plant customers for the quantities of milk required by the call percentages. It appears, however, that such difficulties as had been experienced were principally attributable to the fact that these handlers had primary fluid milk operations in other markets rather than that there was any defect in the value of the call percentages as a measure of a supply plant's identification with the Detroit market. Another source of difficulty was that these handlers had to find entirely new or greatly expanded city plant outlets for their milk. Despite an understandable reluctance to change existing supply relationships, sufficient outlets were obtained, and additional time to develop outlets will be available during the months of April through July 1956 when no call percentages are applicable.

Some supply plant operators also proposed that the computation of the quantity of milk "available" for shipment to city distributing plants be modified. At present, availability is computed by subtracting local Class I sales from their total receipts of milk from producers. They proposed that the local Class I sales be increased by 15 percent as is done in computing city plant's requirements. However, the situations are not comparable. City plants must physically receive more milk than they will bottle because they cannot know bottling requirements in advance. The supply

plants, on the other hand have physical control of the milk at its source, and can ship all the milk not used for bottling.

It is concluded that the standards for defining the pool plant status of a supply plant should not be changed at this time.

3. *Class II price.* The cooperative association which represents the majority of producers in the Detroit market proposed substantial increases in the prices of milk used for other than Class I purposes. This cooperative, the Michigan Milk Producers Association, includes in its membership over 80 percent of the total number of producers on the Detroit market. It is responsible for marketing these producers' milk. It also operates receiving stations at which more than 25 percent of the total market supply is received, and it either operates manufacturing facilities or markets the daily and seasonal surpluses which have resulted from the operation of these receiving stations. The association proposed that a new Class III be established which would include most of the manufactured products such as butter, nonfat dry milk solids, hard cheese, and evaporated milk. They proposed that milk used to produce these manufactured products be priced at the higher of the local plant price or a butter-powder formula based on 93-score butter, spray-process powder, and an 84-cent "make" allowance. They further proposed that Class II be revised to include fluid cream and the manufactured products other than those in Class III, including mainly cottage cheese, ice cream, ice cream mix, and condensed whole or skim milk. They proposed that the Class II price be set at 40 cents over their proposed Class III price.

Since the inception of the order, fluid cream and all manufactured products have been combined into a single Class II. Also, since November 1, 1952, the Class II price has been an average of prices paid for manufactured milk at designated Michigan plants.

There is considerable evidence that this local plant pay price has not always reflected the full value of milk used for manufacturing purposes. The prices paid at the local plants averaged lower than those paid at the midwestern condenseries by 14 cents in 1953 and 1954 and by 5 cents in 1955, and the discounts at the local plants were greater than average during the flush months when the quantities of Class II milk were greatest. These Midwest condenseries are the ones commonly used in the Federal orders, including Detroit, as a measure of prices paid by manufacturers of evaporated milk.

The Detroit Class II price was even further below the prices paid for manufacturing grade milk by plants specializing in the manufacture of butter and creamery by-products in Michigan and Wisconsin, if the prices paid at these plants are converted to a 3.5 percent butterfat basis by the producer butterfat differentials established under the Detroit order. On this basis, Michigan creameries overpaid the Detroit Class II price by 20 cents in 1953 and 4 cents in 1954, and paid 3 cents less in 1955. Wisconsin creameries overpaid the Class II price by 22 cents in 1953, 17 cents in 1954, and 5 cents in 1955. In each of the three years, the creamery prices in each of these states were highest in relation to Detroit Class II prices during the flush months, when volumes of Class II milk are greatest.

During these years the Detroit Class II prices were also low in comparison with those in most other midwestern Federal order markets. The Chicago market is probably the most nearly comparable to Detroit. The volume of milk manufactured under that order is much larger, but the market is similar to the extent that operations are conducted mainly at country plants, and there are large volumes of manufacturing grade milk processed in each of the milksheds. Class III (a) under the Chicago order includes evaporated milk and bulk condensed. It is priced at the midwest condensery average price which was compared with the Detroit Class II price above. Class IV includes hard cheese and butter-powder operations. The Class IV price is a butter-powder price which averaged 25 cents over the Detroit Class II price in 1953, 14 cents over in 1954, and 1 cent under in 1955. During the flush months of April, May, and June of each of these three years the Chicago prices exceeded the Detroit prices by 34, 15, and 13 cents, respectively.

Cleveland is the next most closely comparable market with respect to size and regional location, though country plant manufacturing operations are not so well developed as in Detroit. During the years 1953, 1954, and through June 1955 manufacturing prices were set by a butter-powder formula except during April, May, and June of each year, when local plant prices were in effect. Throughout the two and one-half year period, butterfat for churning was subject to a 5-cent discount, equal to 17.5 cents per hundredweight of 3.5 percent milk. In 1953, the Cleveland price for milk used to make butter averaged only 3 cents above the Detroit Class II price and was substantially lower in the flush months. Cleveland prices on other manufactured products averaged 20 cents above the Detroit Class II price but only 3 cents higher in the flush months. Virtually the same comparative levels prevailed in 1954 and through June 1955. However, effective July 1, 1955, the Cleveland order was amended to provide that all manufacturing milk be priced at the higher of the midwest condensery price or the butter-powder formula price used to establish basic formula prices in both the Cleveland and Detroit orders. Official notice is taken that this price has continued into the flush season of 1956.

Other nearby markets include Toledo, Dayton-Springfield, and Fort Wayne. The quantities of surplus milk are so small as to limit the value of price comparisons. Toledo uses a local plant series which averages close to the Detroit series, Fort Wayne uses a butter-powder formula which averaged substantially above the Detroit prices during 1953 through 1955, and Dayton-Springfield uses a butter-powder formula with seasonal variation and a discount on butterfat used to produce butter. Some comparisons were also made with the New York Class II price which averages substantially lower than those cited above. However, marketing conditions in that market were not described in sufficient detail to establish the extent of any comparability which may exist.

The comparatively low Class II prices which have prevailed during the past three years in the Detroit market are reflected in operating results in two ways. One is that all of the plants which have qualified as pool plants subsequent to the inception of the order have been plants which either contained manufacturing facilities, were located adjacent to plants with such facilities, or served as collecting stations for manufacturing plants.

Changes in the number of producers at various types of plants were also presented at the hearing. In the order, distributing plants are separately defined for the purpose of meeting pool plant qualifications. Similarly, the country supply plants constitute a separately defined group of pool plants. Furthermore, for the purpose of computing the call percentage, the supply plants are further segregated into two groups. One of these is composed of the receiving stations which regularly send their entire available supply to distributing plants during all except the flush months. The remaining country plants are those which have manufacturing facilities available to care for the weekend and seasonal surpluses. Using these standards, the market administrator compiled a tabulation showing the number of producers shipping milk to each category of plants. In November 1951 there were 12,132 shippers in the market, 24 percent of whom delivered their milk directly to the distributing plants, 65 percent to receiving stations, and 11 percent to manufacturing plants. In December 1955, out of 12,679 shippers, 25 percent shipped to distributing plants, only 53 percent to the receiving stations, and 22 percent to manufacturing plants. If the Michigan Milk Producers' plant at Elsie were reclassified from a receiving station to a manufacturing plant, the gain in the proportion of shippers at the manufacturing plants and the reduction at receiving stations would be even more marked.

Producers would be as much attracted to receiving stations as to manufacturing plants, since they would receive the marketwide blend price in either event. However, operators of plants manufacturing dairy products from most of the milk received from producers must depend primarily upon the margin between the Class II price and the prices of the dairy products. The pronounced increase in the proportion of Detroit producers at plants having manufacturing facilities available could hardly have occurred unless these margins were attractive.

A second operating result which indicates the effect of the low Class II prices is the profitability of the handling of the Class II milk. The manager of one cooperative association which handles a large volume of Class II milk in plants which also process large volumes of manufacturing grade milk testified that the patronage dividend was

15 cents on 1955 operations, upwards of 30 cents on 1954 operations, and that his operating margin set a record in 1953. These results are in line with the price comparisons previously cited. These showed that the Detroit Class II price averaged lowest in comparison with other values in 1953, and improved in 1954 and 1955. A proprietary handler indicated that his cost accounting records disclosed an unsatisfactory operation for 1955 and a satisfactory result for 1954. The Michigan Milk Producers' Association indicated that its operating results in recent years were such that it could absorb the proposed increases without incurring losses.

The unduly low Class II prices which have prevailed under the order should be rectified by adopting a butter-powder price formula as an alternative to the local plant prices, and by adding 20 cents to the higher of these two prices during the shortest supply months of October through January.

The surplus utilization should not be subdivided into two classes as was proposed by the producers. It is apparent from the testimony that Detroit is essentially an open market for fluid cream, cottage cheese, and ice cream ingredients and that there is considerable distribution of all these products throughout the market by non-handler firms. Also, many of the handlers purchase these products from non-handler sources or make them from other source ingredients. It is also evident that most of the handlers who now choose to utilize producer milk in the production of all or a portion of these products whenever it is available could rearrange their operations so as to avoid utilizing producer milk. This would leave only a few handlers who would be obligated to pay the proposed higher Class II price for milk utilized in these products. In these circumstances, it appears that a separate Class II for these products at a premium price would be highly inequitable as between handlers, and would not achieve any substantially higher returns for producers.

The butter-powder alternative price should be approximately equal to the one proposed by producers, but, for the sake of conformity, should use the same price quotations as the basic butter-powder formula already included in the Detroit order. Instead of the proposed use of 93-score butter, spray-process nonfat dry milk solids, and a "make" allowance of 84 cents, it should use the basic formula factors of 92-score butter, an average of the prices for spray and roller process solids, and a "make" allowance of 76 cents. This result can be most directly stated as a deduction of 18.3 cents from the basic butter-powder formula price.

For the calendar year 1954 this formula, 18.3 cents below the basic butter-powder price, would have averaged 1.1 cents below the one proposed by producers and in 1955 exactly the same.

The 76 cents appears to be a fully adequate "make" allowance in the butter-powder formula. The formula prices would have been 11 cents below prices paid at Michigan creameries and 13 cents below those of Wisconsin creameries in 1953, 1 cent above the Michigan and 12 cents below Wisconsin in 1954, and 9 cents below Michigan and 17 cents below Wisconsin in 1955. They are also somewhat lower than the butter-powder formula prices used in other midwestern Federal order markets. For example, they would have been below the Chicago Class IV formula by 16 cents in 1953, 9 cents in 1954, and 11 cents in 1955. They are 18.3 cents below the currently effective Cleveland butter-powder formula. Although this formula is somewhat lower than those used in some other Federal orders, it is applied here as one of two alternative prices, and is subject to the 20-cent seasonal premium previously mentioned.

As explained earlier, marketing conditions in the Detroit area are such that the separation of fluid cream, cottage cheese, and ice cream uses into a separate class at a 40-cent premium does not seem likely to attain the objectives sought by proponents in an equitable fashion. However, a 20-cent premium in the four months of normally lowest supply, October through January, would tend to achieve the same purposes, and be equitable as among handlers.

October through January are the same months in which the country supply plants are obligated to ship the fixed minimum of 25 percent of their available supplies to the city plants. Commonly, they ship much larger percentages during these months, and the quantities of reserve milk which must be manufactured are at a minimum. Also, in these months a larger proportion of the Class II milk can be used for fluid cream, cottage cheese, and ice cream ingredients rather than being manufactured into such end-use products as butter and nonfat dry milk solids, hard cheese, or evaporated milk.

The 20-cent premium will apply to all handlers of Class II milk, regardless of the type of products in which they use the milk. It will, therefore, minimize the shifting of operations and the uneven effects which would have been invited by the proposed 40-cent premium on selected items. At the same time, the 20-cent premium will tend to encourage handlers to add to their operations only such supplies of milk as are required for operating reserve purposes rather than adding quantities for purely manufacturing purposes.

4. *Transfers to nonpool plants.* One of the same handlers who proposed revising the call percentage requirements as described above also proposed amending the classification of milk transferred to nonpool plants. The original order provided that milk so transferred would be classified at the lowest utilization in the nonpool plant. Effective November 1, 1955, this provision was amended to allocate the transferred milk to the highest available use in the nonpool plant. The handler proposed that transferred milk be allocated to the highest use remaining after assignment of any receipts of milk from those dairy farmers who regularly supply fluid approved milk at the nonpool plant.

Data presented at the hearing demonstrate that the problem which the November 1 amendment was designed to correct continued right up to the time of such amendment and remains as a potential problem. Total transfers to non-handler plants in 1955 were substantially lower than in 1954, but as would be expected, the two months of greatest movement to such plants were May and June when production was at its seasonal peak. However, total transfers to nonpool plants having Class I utilization were smaller in these months than in any of the subsequent months of July through October, and the bulk of such transfers were classified as Class II. In November and December all of the milk transferred to nonpool plants having Class I utilization was classified as Class I, indicating that bottling operations at such plants were sufficient to account for all of the milk transferred without any of it being assigned to Class II. Also, as in 1954, the great majority (nearly 75 percent) of the 1955 transfers to non-handler plants went to plants which had no Class I utilization.

The proposal to give local dairy farmer milk the priority over Detroit-transferred milk at the nonpool plant would leave the nonpool plant operator with an incentive to buy short locally in order to maximize his local blend price. He could do this by drawing on the Detroit pool for his daily and seasonal reserves. He would also be encouraged to draw on Detroit for his Class II needs, since he would have to pay only a Class II price for the Detroit milk instead of the blend price he would have to meet in an unregulated market. Moreover, the proposed amendment would be exceptionally difficult to administer in the Detroit market. It would require a virtually complete audit of utilization and receipts at the nonpool plants. Detroit is the third largest Federal order market in the United States and the transfers to nonpool plants having Class I utilization are particularly numerous. They include plants purchasing supplemental milk to care for the resort period demand and plants in smaller markets throughout the State and in the neighboring portions of Ohio and Indiana which may require supplemental milk from time to time.

Another handler proposed that transfers of Detroit milk to nonpool plants be assigned to Class I to the extent that approved local farmer milk failed to meet the nonpool plant's Class I needs, plus a reasonable reserve. This reasonable reserve would be measured by multiplying the nonpool plants operators' Class I utilization by the percentages set forth in the supply-demand adjustment in the Detroit order. However, it must be recognized that this modification would not alleviate the administrative problems previously mentioned and would not affect those nonpool plant operators who found it expedient to carry Class II milk in the Detroit marketwide pool rather than in their own markets.

It is concluded that no change should be made at this time in the classification of milk transferred to nonpool plants.

5. *Class I price.* No change should be made in the annual average level of the Class I price differential. However, a seasonal change of 40 cents per hun-

dredweight should be introduced in the stated Class I differential. The new differentials would be $1.63 for the months of August through January and $1.23 for the months of February through July instead of the present differential of $1.43 in all months.

Producers proposed two major changes in the method for determining the Class I differential. Each of these would make a substantial increase in the differential. One proposal was that the stated Class I differential be increased during August through January to $1.85 per hundredweight. This would be an increase of 42 cents for the six months and the annual average increase would approximate 21 cents. Their second major proposal was to raise the schedule of standard utilization percentages to 127.5 percent for November, with proportionate increases for the other months. Since the supply-demand adjustment averages 3 cents per point, this part of that proposal would amount to 22.5 cents. The combined effect of these two proposals would increase Class I differential by an annual average of 43.5 cents.

It does not appear that any general increase in the Class I differential is required at this time in order to reflect economic conditions which affect market supply and demand, and insure a sufficient quantity of pure and wholesome milk for the market. At the hearing there was considerable range of views as to the quantity of milk which represented an adequate supply. Part of the divergence in views may be partly accounted for by the function performed by various parties in the market; producers', supply plant operators, or processors and distributors of Class I milk all have different opinions on the subject. However, even the same party is likely to have a different view of adequacy of supply depending upon whether he is considering the handling of excess milk, the level of the supply-demand standard for determining Class I prices, or defining the standards to be met by pool plants. One recent complication to determining the proper level of supply is the fact that most of the handlers in the market have adopted six-day operation of their plants within the past year. This severely limits the value of previous experience in the market.

It appears, however, that the most practical test of adequacy of supply is to determine the point at which handlers find it necessary to supplement their supplies of producer milk by purchases of bulk supplemental milk from other sources. This did not occur to any significant extent in the fall of 1955 despite the fact that producer receipts were equal to only 123.9 percent of gross Class I sales for the month of November. The Michigan Milk Producers Association presented evidence that the six-day operation of bottling plants resulted in greatly reduced calls upon the supply plants on Sunday and very large demands on Monday through Friday. It is apparent that the distributing handlers were not yet fully equipped to hold and rotate the weekend receipts of milk; at the time of the hearing, the Association was performing this additional service without making any extra charge.

In view of the fact that the market was able to operate last November on a supply equal to 123.9 percent of sales and with the likelihood that additional holding facilities will be installed, it is concluded that receipts equal to 120 percent of gross Class I sales should continue to represent a normal supply in the short month. Producers should not be asked to carry any larger quantities of reserve milk than are needed for efficient operation nor should consumers be required to pay any higher Class I prices than are needed to encourage farmers to produce the minimum necessary reserve for Class I operations.

Producers contended that milk production could not long be maintained at the order prices which have prevailed in recent years. They cited data to the effect that farm wage rates and other production costs were particularly high in the Detroit region. However, it must be recognized that large quantities of manufacturing grade milk are still produced in Michigan at the same general level of prices as prevails elsewhere in the United States for milk of similar grade. In fact, several of the Detroit receiving stations are operated in close proximity to or in conjunction with such plants. Moreover, the Class I differentials under the Detroit order have been fully adequate to increase supplies sufficiently to care for the growth in Class I sales. The supply-demand adjustment can provide considerable additional increase in price if supplies begin to fall behind. Finally, Detroit order prices are fully as high as those in the most directly competitive Federal order markets. In 1955, for example, the Detroit Class I price for milk delivered to city plants averaged $4.40 as compared with a Toledo price of $4.30. There is direct competition between distributors at these prices and there is also some competition with Detroit handlers having a sixteen-cent location differential. Competition between the Detroit and Cleveland markets is in the procurement of milk from farms rather than in sales of the bottled product. The Cleveland blend price at Coldwater, Michigan, averaged $3.71 during 1955 as compared with a Detroit blend at nearby location (Hillsdale and Litchfield, Michigan) of $3.86.

A moderate seasonal change in the Class I differential should be adopted. The Detroit market has previously relied exclusively on the base-rating plan as a means of encouraging level production. Under this plan farmers have maximized their production during the fall in order to establish as high a base as possible for the following year. By having a lower Class I differential in the spring than in the fall months, the difference between the base and excess prices will be narrowed, and the effect of the base plan will be somewhat lessened. However, the seasonal differential will provide additional money to farmers during the fall months when costs are highest. The net effect on farmer's seasonal plans may not be greatly affected, although it is difficult to predict the amount of price change which may be necessary to offset the change in the base plan incentive.

A basic reason for adopting a seasonal change in the Class I differentials is to have the Detroit Class I price conform more closely to out-of-area prices. Sales competition with the Toledo market and other Federal order areas where the Class I prices vary seasonally are described in more detail in connection with issue number 12. In markets not under Federal orders, it is common for prices to be lower in the flush production season and higher in the season of lowest production.

The supply-demand adjustment should not be changed. The principal proposals for its modification were directed to raising the standard utilization percentage for November, the month of usually lowest production. The reasons for retaining the present standard of 120 percent were cited above. Other proposed modifications would have provided a 3-cent price change for each percentage indication of oversupply or undersupply in the market instead of a 15-cent change for each 5 percentage points and a revision of the seasonal variation in the standard utilization percentages. The adjustment has always been made in 15-cent intervals in this market, and producers are strongly in favor of retaining this feature. The present seasonal standards have been in effect only since November 1955 and appear to be as well adapted to recent and prospective market experience as any which could now be devised.

6. *Butterfat differentials.* Since November 1, 1952, the butterfat differentials charged to handlers for milk used in each of the two classes and the differential used in paying producers have been the same. They have moved by half-cent amounts, set at one-half cent over the top limit of half-cent ranges in the price of 92-score butter at Chicago. In 1955, for example, the butter price averaged 57.45 cents per pound. Throughout the year the butter price was in the 55-to-59.99-cent range and resulted in a differential of 6.5 cents per one-tenth of one percent variation from 3.5 in butterfat content.

Producers proposed that the butterfat differentials be increased to 0.12 times the price of 93-score butter at Chicago. At 1955 prices the present order provided a differential equal to 0.113 times the price of 92-score butter. They further proposed that the handler differentials change in amounts of one-tenth of a cent, but that producer differentials continue to change only by half-cent amounts. No difference in rate as between various classes of milk was proposed.

The principal evidence in support of the higher rates of differential was a statement that cream was currently selling at the rate of 83 cents per pound of butterfat content, if no allowance is made for the value of the nonfat portion. However, no historical data were presented to show the range of cream values on the market over a period of time. In the absence of further data, it is concluded that no change should be made in the rate of the butterfat differentials.

However, the differentials should move in amounts of one-tenth cent. This is the common interval used in other Federal orders and will keep butterfat values more closely related to the butter market. Under the current system a differential of 6.5 cents results from butter prices ranging from 55 to 59.99 cents, or from 0.118 to 0.108 times the butter value. The rate to be used should be the midpoint of the range, or 0.113 times the price of 92-score butter at Chicago.

7. *Location adjustments.* A cooperative association which operates three supply plants proposed a drastic reduction in the rate of the location adjustments which are allowed to handlers for the transportation of milk used for Class I purposes and which are deducted from the prices payable to producers who deliver milk to plants outside the city zone. The proposed rates were 8 cents per hundredweight in the 34–50 mile zone, 9 cents at 50 to 60 miles, plus 1 cent for each additional 20 miles. These compare with present rates of 13 and 14 cents in the first two zones and 1 cent for each additional 10 miles. These rates in turn, represent a reduction from those specified in the original order of 14 cents in the first zone and 1 cent per 8 miles thereafter.

A rather wide variation in cost experience was shown to exist, even among those handlers who haul large volumes of milk. The proponent had some very low costs on hauls which appeared more favorable than average as to length of haul, regularity of shipment, and freedom from heavy traffic. Those large-scale proprietary handlers who haul large quantities of milk cited cost data showing that the present location adjustments were no more than adequate to cover hauls to city plants. The Michigan Milk Producers Association, which hauls a far larger volume than any other organization in the market testified that its experience showed about a 2½-cent lower cost than the rates presently provided by the order. Cost data were also presented by the Association on shipments from 3 of its supply plants at which movements were sufficiently steady to have a tanker regularly assigned. Under such comparatively favorable circumstances costs ranged from 3.4 to 8.1 cents below the location adjustment rates.

It is concluded that a general reduction should be made to reflect the experience of the most efficient full-scale hauler, but not to levels attainable only under the most favorable circumstances. It appears that savings are greater on the longer hauls. Accordingly, the rate in the first zone should be reduced only to 12 cents and the rate for additional mileage should be halved, to 1 cent per 20 miles or fraction thereof.

8. *Excess milk price.* It was proposed that the price paid to producers for excess milk be equal to the manufacturing class price, regardless of location. Since the inception of the order, the excess price at city zone plants have been 17 cents over the Class II price, subject to the producer location adjustment at country plants.

It was contended that excess milk is utilized for manufacturing purposes and should be valued as such. However, it must also be recognized that the quantity of excess milk is not, except by extreme chance, exactly equal to the quantity of Class II milk. Also, the more distant producers are pooled throughout the year, even though their milk may physically be used for Class I purposes only during the fall months. In the absence of a base rating plan, the producer location adjustment is usually deducted from the uniform price on all milk delivered by the producers to pool plants, in recognition of the fact that transportation costs are involved whenever the milk is utilized at city plants.

In large measure, this is a problem of dividing the pooled proceeds among producers. The cooperative association representing the great majority of the producers supplying the market favored the present order provisions for computing the excess price for the reasons developed in the preceding paragraph. It is concluded that location adjustments should continue to be applied to the excess milk price.

9. *Seniority of producers.* A handler proposed that only such number of producers be qualified to participate in the marketwide pool as were needed to meet the Class I requirements of the market. At the outset of such program and during any subsequent period when supplies exceeded Class I requirements, producers would have pool status in reverse order of their seniority of association with the market.

The fundamental defect in this proposal is that it removes from the Class I price its essential role of balancing supply and demand. The act clearly provides that, in the case of milk, the prices shall be established in relation to economic factors affecting supply and demand. Accordingly, the proposal should not be adopted.

10. *Base rules.* The order presently provides that a producer who suffers the complete loss of his barn as a result of fire or windstorm may retain his base for a six-month period. This is designed to give the producer opportunity to rebuild his barn and re-establish the herd.

It was testified that the six-month period has not always proved long enough to accomplish the rebuilding of the barn and re-establish the full-scale production. Since the other effects of such a catastrophe are so severe, the producer should not also lose his base. It is concluded that the rebuilding period should be extended to a full year.

11. *Date of payments to producers.* A handler proposed that the order be amended to allow payments to producers to be made as late as the twentieth day of the month following the delivery of the milk. The order now specifies that such payments be made not later than the fifteenth, unless holiday interruptions occur.

Milk producers are not paid until after the month's deliveries have been completed. It is, therefore, highly desirable to make the payment at the earliest practicable date. The schedule provided by the order for reports to the market administrator, his computation of the pool, and settlement through the equalization fund have been established so as to distribute as fairly as possible among all parties the burden of making payment by the fifteenth. In the absence of any more widespread indication of difficulty in meeting the schedule it is concluded that the payment date should not be changed.

12. *Milk priced under other Federal orders.* Toledo is the closest market regulated under another Federal order, although competitive problems also exist or may arise with several other order markets. In the case of Toledo there is direct distribution by Detroit handlers in that market, and vice versa, as well as extensive competition between the two groups of handlers in the unregulated sales territory outside of the two defined areas. The problem is intensified by the difference in seasonal price plans in these two markets; Toledo prices are usually below Detroit prices in the spring and above them in the fall.

There were two major proposals for handling sales between order markets. One would assess a handler the higher of the two order prices on any sales made in another marketing area. Under this proposal, for example, a Detroit handler selling milk within the Toledo marketing area would pay the Detroit Class I price whenever it exceeded the Toledo price and would pay the Toledo Class I price in those months when it exceeded the Detroit price. All payments would be made to the order under which the handler was regulated.

This is not an equitable technique. Since, in the example cited, a Detroit handler would always be paying the higher of two order prices, he would be at a disadvantage in his sales in the Toledo area as compared with Toledo handlers paying only the Toledo Class I price. Even if a similar provision existed in both orders, interorder distributors would be at a competitive disadvantage.

The second proposal was that sales in another Federal order area take the Class I price for that area at all times. The fundamental objection to this proposal is that the price provisions of each order are designed to achieve an adequate supply of milk under conditions prevailing in that area. In the Detroit-Toledo example the Detroit plan for level production is a base-rating program whereas in Toledo it is seasonal pricing. For a Detroit handler to return to the Detroit pool the Toledo Class I prices on milk sold in that area would, to that extent, distort returns to the Detroit producers. While the quantities of Detroit milk sold in Toledo might not significantly affect so large an operation as the Detroit pool, the reverse situation might be quite significant, especially since the Toledo market uses individual-handler pooling.

It should be noted that neither proposal would affect intermarket competition in the unregulated sales areas between defined order markets. Also, the annual average Class I prices in the Detroit and Toledo areas remained competitive through 1955. The Toledo price averaged $4.31 for the year, as compared with a Detroit city zone price of $4.40 and a price of $4.25 at the Toledo zone.

The introduction of seasonal variation in the Detroit Class I differentials, previously described, will contribute to more complete solution of the intermarket

competition than the special pricing proposals. The manager of the Northwestern Cooperative Sales Association, which represents the great majority of the producers supplying the Toledo market, testified that his association has seriously considered requesting a similar degree of price seasonality in that market. To the extent seasonal alignment, as well as annual average alignment, is achieved, handlers would be fully competitive in the sales territory between marketing areas as well as within the defined order markets.

It is concluded that no special price provisions should be adopted, either with respect to milk from other Federal markets sold within the Detroit order or to Detroit milk sold within other Federal market areas. The proposed special price provisions are unsatisfactory for the reasons stated, and the seasonal variation in the Class I price differential will provide a broader solution to the principal competitive problems, those between the Detroit and Toledo markets, than special pricing within the defined areas.

Review of the specific language of that portion of § 924.101 which relates to milk from other Federal markets reveals a possible question of interpretations. The language refers primarily to handlers engaged in distribution on routes within the Detroit area. If such handlers are already subject to another order and have greater distribution in such area, they are exempt from the pricing and payment provisions of the Detroit order.

Obviously, there is another category of receipts from other Federal order markets. This consists of supplemental milk which may be purchased by a Detroit handler, either in bulk or bottled form, from a handler regulated under another Federal order. If the originating plant is fully regulated under such other order and the milk is, therefore, subject to pricing, it should be as freely transferable between markets as are route sales from distributing plants.

This can be accomplished by providing a separate step in the allocation provisions for milk from sources regulated under another order and by specifically exempting any of such milk as may be classified as Class I under the Detroit order from compensatory payments.

*General findings.* (a) The proposed marketing agreement and the order and all of the terms and conditions thereof will tend to effectuate the declared policy of the act;

(b) The parity prices of milk as determined pursuant to section 2 of the act are not reasonable in view of the prices of feeds, available supplies of feeds, and other economic conditions which affect market supply of and demand for milk in the marketing area, and the minimum prices specified in the proposed marketing agreement and the order are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk, and be in the public interest; and

(c) The proposed order will regulate the handling of milk in the same manner as, and will be applicable only to persons in the respective classes of industrial and commercial activity specified in a marketing agreement upon which a hearing has been held.

*Rulings on proposed findings and conclusions.* Briefs were filed on behalf of producers and handlers. The briefs contained proposed findings of fact, conclusions and argument with respect to the proposals discussed at the hearing. Every point covered in the briefs was carefully considered along with the evidence in the record in making the findings and reaching the conclusions hereinbefore set forth. To the extent that such suggested findings and conclusions contained in the briefs are inconsistent with the findings and conclusions contained herein the request to make such findings or to reach such conclusions are denied on the basis of the facts found and stated in connection with the conclusions in this decision.

*Recommended marketing agreement and order, as amended.* The following amendments to the order, as amended, are recommended as the detailed and appropriate means by which the foregoing conclusions may be carried out. The proposed marketing agreement is not included because the regulatory provisions thereof would be the same as those contained in the order, as amended, and as proposed to be further amended:

1. Revise § 924.5 to read as follows:

§ 924.5 *Detroit, Michigan, marketing area.* "Detroit, Michigan, marketing area," hereinafter referred to as the "marketing area," means all territory, including incorporated municipalities, within the outer boundaries of the townships of Burtchville, Grant, Greenwood, Kenockee, Wales, Clyde, Fort Gratiot, Kimball, Port Huron, St. Clair, China, East China, Ira, Cottrellville and Clay in St. Clair County, the townships of Chesterfield, Sterling, Clinton, Harrison, Warren, Erin, and Lake in Macomb County, the townships of White Lake, Waterford, Pontiac, Avon, Commerce, West Bloomfield, Bloomfield, Troy, Novi, Farmington, Southfield, and Royal Oak in Oakland County, the townships of Salem, Northfield, Webster, Scio, Ann Arbor, Superior, Ypsilanti, Pittsfield, Lodi, Saline, York, and Augusta in Washtenaw County, the townships of Ash and Berlin in Monroe County and all of Wayne County, all in the State of Michigan.

2. In § 924.16 (b) delete from the proviso the phrase, "during each of the months of November 1955 through January 1956 and, in subsequent years,".

3. Delete § 924.46 (b) and substitute therefor the following:

(b) Subtract from the pounds of butterfat remaining in each class, in series beginning with the lowest priced utilization, the pounds of butterfat in other source milk other than that to be subtracted pursuant to paragraph (c) of this section;

(c) Subtract from the pounds of butterfat remaining in each class, in series beginning with the lowest priced utilization, the pounds of butterfat in other source milk received from a plant at which the handling of milk is fully subject to the pricing and payment provisions of another marketing agreement or order issued pursuant to the act;

4. In § 924.46 change the designation of paragraphs (c), (d), and (e), to (d), (e), and (f), respectively.

5. Revise § 924.51 (a) to read as follows:

§ 924.51 *Class I milk prices.* (a) Except as provided in paragraph (b) of this section, the minimum price per hundredweight to be paid by each handler, f. o. b. his plant, for milk of 3.5 percent butterfat content received from producers or from cooperative associations, during the month, which is classified as Class I utilization shall be the basic formula price plus $1.23 during the months of February through July and plus $1.63 in all other months.

6. Revise § 924.52 to read as follows:

§ 924.52 *Class II milk price.* The minimum price per hundredweight to be paid by each handler, f. o. b. his plant, for milk of 3.5 percent butterfat content received from producers or from a cooperative association during the month which is classified as Class II utilization shall be as follows:

(a) In the months of February through September the higher of: (1) The price per hundredweight as described in § 924.50 (c), or (2) the price per hundredweight described in § 924.50 (b), less 18.3 cents.

(b) In the months of October, November, December, and January add 20 cents per hundredweight to the price determined in paragraph (a) of this section.

7. In § 924.60 (b) change the phrase, "other source milk is allocated to Class I pursuant to §§ 924.46 and 924.47" to read, "other source milk is allocated to Class I pursuant to § 924.46 (b) and the corresponding step of § 924.47."

8. In § 924.60 (c), change the tabulation of road distances and rates per hundredweight to read as follows:

| Shortest road distance from Detroit City Hall: | *Rate per hundredweight* |
|---|---|
| More than 34 miles but not more than 50 miles | $0.12 |
| More than 50 miles but not more than 70 miles | .13 |
| Add 1 cent for each 20 miles or fraction thereof over 70 miles. | |

9. At the end of § 924.71 (c) change the phrase "may retain his base without loss for six months." to read "may retain his base without loss for twelve months."

10. Change § 924.82 to read as follows:

§ 924.82 *Producer butterfat differential.* In making payments pursuant to § 924.80, the base price and excess price or the uniform price shall be increased or decreased for each one-tenth of one percent of butterfat content in the milk received from each producer or a cooperative association above or below 3.5 percent, as the case may be, by an amount equal to the average daily wholesale price per pound of Grade A (92-score) bulk creamery butter per pound at Chicago as reported by the U. S. D. A. during the month multiplied by 0.113.

Filed at Washington, D. C., this 5th day of June 1956.

[SEAL] ROY W. LENNARTSON,
*Deputy Administrator.*

[F. R. Doc. 56-4519; Filed, June 7, 1956; 8:52 a. m.]

## DEPARTMENT OF THE INTERIOR

### Bureau of Land Management

OREGON

RESTORATION ORDER UNDER FEDERAL POWER ACT

MAY 24, 1956.

1. Pursuant to Determination No. DA-423 Oregon, of the Federal Power Commission and in accordance with Order No. 541, section 2.5, of the Director, Bureau of Land Management, approved April 21, 1954 (19 F. R. 2473), as amended, it is ordered as follows:

The land hereinafter described, so far as it is withdrawn and reserved in Power Site Reserve No. 537, approved August 2, 1916, is hereby restored to disposition under the public land laws subject to the provisions of section 24 of the Federal Power Act of June 10, 1920 (41 Stat. 1075; 16 U. S. C. 818), as amended, and subject to the condition that in the event the said tract is required for power purposes, any improvements or structures placed thereon which shall be found to interfere with such development shall be removed or relocated as may be necessary to eliminate interference with power development at no cost to the United States, its permittees or licensees.

WILLAMETTE MERIDIAN, OREGON

T. 2 S., R. 7 E.,
Sec. 33: NW¼SW¼.
40 acres.

The lands released from withdrawal by this order shall not become subject to the initiation of any rights or to any disposition under the public-land laws until it is so provided by an order of classification to be issued by an authorized officer opening the lands to application under the Small Tract Act of June 1, 1938 (52 Stat. 609; 43 U. S. C. 682a), as amended, with a ninety-one day preference right period for filing such applications by veterans of World War II and other qualified persons entitled to preference under the act of September 27, 1944 (58 Stat. 497; 43 U. S. C. 279-284) as amended.

RUSSELL E. GETTY,
*Acting State Supervisor.*

## FEDERAL COMMUNICATIONS COMMISSION

[Docket Nos. 11287, 11288; FCC 56M-546]

EL MUNDO, INC., AND PONCE DE LEON BROADCASTING CO., INC.

ORDER SCHEDULING HEARING

In re applications of El Mundo, Inc., Mayaguez, Puerto Rico, Docket No. 11287, File No. BPCT-1892; Ponce De Leon Broadcasting Co. Inc., of P. R. Mayaguez, Puerto Rico, Docket No. 11288, File No. BPCT-1906; for construction permits for new television broadcast stations.

The Hearing Examiner having under consideration the record of the prehearing conference in the above-entitled proceeding, held on May 28, 1956, in the offices of this Commission, Washington, D. C., which was attended by counsel for all of the parties to the said proceeding; and

It appearing that at the said prehearing conference the first formal prehearing conference in the said proceeding, pursuant to §§ 1.813 and 1.841 (c) of the Commission's rules, as amended, was scheduled by the Hearing Examiner, with the consent and agreement of all parties, to be held at 2:00 o'clock p. m., on Tuesday, June 5, 1956, in the offices of this Commission, Washington, D. C., at which will be considered the matters set forth in the Notice of Pre-hearing Conference issued by the Hearing Examiner on March 2, 1955; and

It further appearing that, at the same pre-hearing conference, the Hearing Examiner scheduled, with the consent and agreement of all of the parties, the date of July 9, 1956, at 10:00 o'clock a. m., in the offices of this Commission, Washington, D. C., for the commencement of the hearing in the said proceeding; and

It further appearing that the Hearing Examiner ruled, with the consent and agreement of all of the parties, that no dates would be set, until after the prehearing conference to be held on June 5, 1956, for the exchange of exhibits and for the final pre-hearing conference, as required by § 1.841 of the Commission's rules, as amended;

*It is ordered,* This 1st day of June 1956, that the dates fixed by the above rulings of the Hearing Examiner for the initial pre-hearing conference, pursuant to §§ 1.813 and 1.841 (c), supra, and for the commencement of the hearing in the above-entitled proceeding, be, and they are hereby, affirmed.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] MARY JANE MORRIS,
*Secretary.*

[F. R. Doc. 56-4511; Filed, June 7, 1956; 8:50 a. m.]

[Docket No. 11695]

SOUTHWESTERN BELL TELEPHONE CO.

ORDER ASSIGNING MATTER FOR PUBLIC HEARING

In the matter of the application of Southwestern Bell Telephone Company, for a certificate under section 221 (a) of the Communications Act of 1934, as amended, to acquire certain telephone properties, plant and facilities, of The Southwestern States Telephone Company, located in the States of Oklahoma and Texas; Docket No. 11695, (File No. P-C-3760).

The Commission having under consideration an application filed by Southwestern Bell Telephone Company for a certificate under section 221 (a) of the Communications Act of 1934, as amended, that the proposed acquisition by Southwestern Bell Telephone Company of certain telephone plant and properties of The Southwestern States Telephone Company furnishing telephone service at the following exchanges:

| Town or city | County | State |
|---|---|---|
| Allen | Pontotoc | Oklahoma. |
| Binger | Caddo | Do. |
| Calvin | Hughes | Do. |
| Cement | Caddo | Do. |
| Collinsville | Tulsa | Do. |
| Erick | Beckham | Do. |
| Fort Cobb | Caddo | Do. |
| Harrah | Oklahoma | Do. |
| Jenks | Tulsa | Do. |
| Lone Wolf | Kiowa | Do. |
| Moore | Cleveland | Do. |
| Mountain Park | Kiowa | Do. |
| Rocky | Washita | Do. |
| Sklatook | Tulsa | Do. |
| Texola | Beckham | Do. |
| Wetumka | Hughes | Do. |
| Chillicothe | Hardeman | Texas. |
| McLean | Gray | Do. |

and certain toll lines, plant and equipment connected to such exchanges will be of advantage to the persons to whom service is to be rendered and in the public interest;

*It is ordered*, This 1st day of June 1956, that pursuant to the provisions of section 221 (a) of the Communications Act of 1934, as amended, the above application is assigned for public hearing for the purpose of determining whether the proposed acquisition will be of advantage to the persons to whom service is to be rendered and in the public interest;

*It is further ordered*, That the hearing upon said application be held at the offices of the Commission in Washington, D. C. beginning at 10:00 a. m., on the 29th day of June 1956, and that a copy of this order shall be served upon the Governors of the States of Oklahoma and Texas, The Corporation Commission of the State of Oklahoma, Southwestern Bell Telephone Company, The Southwestern States Telephone Company and the Postmasters of Allen, Binger, Calvin, Cement, Collinsville, Erick, Fort Cobb, Harrah, Jenks, Lone Wolf, Moore, Mountain Park, Rocky, Skiatook, Texola and Wetumka, all of which are in the State of Oklahoma and Chillicothe and McLean, both of which are in the State of Texas;

*It is further ordered*, That within fifteen days after the receipt from the Commission of a copy of this order, the applicant herein shall cause a copy hereof to be published in a newspaper or newspapers having general circulation in the above-mentioned towns, cities and counties in which the properties are located and shall furnish proof of such publication at the hearing herein.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] MARY JANE MORRIS,
*Secretary.*

[Docket No. 11268, etc.; FCC 56M-549]

WISCONSIN TELEPHONE CO. ET AL.

ORDER SCHEDULING HEARING

In re applications of Wisconsin Telephone Company, Docket No. 11268, File No. 5300-F1-P-H; Ohio Bell Telephone Company, Docket No. 11269, File No. 5301-F1-P-H; Ohio Bell Telephone Company, Docket No. 11270, File No. 5745-F1-P-H; for construction permits for new VHF Public Class III-B coast stations at Milwaukee, Wisconsin, Cleveland, Ohio, and Toledo, Ohio, respectively; and Michigan Bell Telephone Company, Docket No. 11375, File No. 5832-F1-P-H; Michigan Bell Telephone Company, Docket No. 11376, File No. 5833-F1-P-H; Michigan Bell Telephone Company, Docket No. 11377, File No. 5834-F1-P-H; Michigan Bell Telephone Company, Docket No. 11378, File No. 5835-F1-P-H; Michigan Bell Telephone Company, Docket No. 11379, File No. 5836-F1-P-H; for construction permits for new VHF Public Class III-B coast stations at Hancock, Escanaba, East Tawas, Port Huron and Marquette, Michigan, respectively; and Wisconsin Telephone Company, Docket No. 11380, File No. 5299-F1-P-H; for construction permit for new VHF Public Class III-B coast station at Green Bay (Glenmore), Wisconsin.

*Appearances.* Francis J. Hart, on behalf of Wisconsin Telephone Company; A. M. Van Duzer, E. N. Strand and R. K. Huston, on behalf of Ohio Bell Telephone Company; Jack H. Shuler and Donald E. Brown, on behalf of Michigan Bell Telephone Company; Kelley E. Griffith and Richard R. Murphey, Jr., on behalf of Lorain County Radio Corporation; Robert R. Wertz and R. T. Keenen, on behalf of Central Radio Telegraph Company; and Arthur A. Gladstone, William M. Lesher, Byron E. Harrison and Irving Brownstein, on behalf of the Chief, Common Carrier Bureau and Chief, Safety and Special Radio Services Bureau of the Federal Communications Commission.

*Order controlling the conduct of hearing (June 1, 1956).* 1. Pre-hearing conferences in the above-entitled proceeding were held on May 20, 1955 and May 23, 1956. The parties participating at the May 23, 1956 hearing conference were those shown in the apperances above.

2. The issues to be resolved in this proceeding are the following:

1. To determine the facts with respect to the proposed facilities, personnel, rates, regulations, practices and services of each applicant.

2. To determine the nature and amount of traffic to be handled by each of the proposed stations, and from what sources such traffic will be derived.

3. To determine the amount of revenues to be received by each of the proposed stations; the costs to each applicant for constructing and operating each proposed station, and the net operating revenues, if any, therefrom.

4. To determine the full scope and extent of the "coordinated move" by the Bell companies on the Great Lakes; namely, to determine Bell's complete plans with respect to applications for other and additional stations on the Great Lakes, and the reasons therefor.

5. To determine whether the existing public radio maritime service on the Great Lakes is adequate to serve the present and reasonably foreseeable future public need therefor.

6. To determine the full effect of the proposed service on the MF-HF-VHF service furnished by existing stations on the Great Lakes and upon the companies furnishing such service.

7. To determine whether the rates, charges, classifications, practices and regulations proposed to be made effective by the applicants for the instant service will result in the establishment of rates and charges which are compensatory to such applicants for such service.

8. If the answer to issue 7 is in the negative, to determine whether the establishment by the applicants of noncompensatory rates and charges for such service will result in unfair competition to Lorain County Radio Corporation or Central Radio Telegraph Company.

9. To determine whether the provisions of section 314 of the Communications Act of 1934, as amended, are applicable to the instant mobile service.

10. If the answer to issue 9 is in the affirmative, to determine whether a grant of the instant applications will have the purpose or effect which may be to substantially lessen competition or to restrain commerce between any place in any state, territory, or possession of the United States, or in the District of Columbia, and any place in any foreign country, or unlawfully to create monopoly in any line of commerce.

11. To determine whether the establishment of the proposed facilities will result in public benefit or advantage, and if so, the nature and extent of such benefit or advantage.

12. To determine the areas to be served by the stations proposed in the above-entitled applications, the areas served by Stations KSA740, KQA761, KQB668, and KQB666 respectively, and the extent to which duplication of service may result from the establishment of the proposed stations.

13. To determine the need for such duplication of service, if any, as may be shown under Issue 12.

14. To determine, in the light of the provisions of § 7.308 (c) of the Commission's rules, whether the extent of the mutual interference which might occur from the use of the frequency 161.9 Mc by the proposed stations, as well as by Stations KSA740, KQA761, KQB668, and KQB666, respectively, would be such as to justify the assignment of the frequency 162.0 Mc, respectively to the proposed stations.

15. To determine, in the light of the evidence adduced on all the foregoing issues, whether the public interest, convenience or necessity will be served by a grant of any or all of the above-entitled applications.

3. As of the present time, the Commission has not established technical standards which can be used to determine the coverage of either the base stations or the mobile stations in the Great Lakes or standards by means of which the adequacy of the communication service can be gauged. The parties have not been able to agree at informal engineering conferences on acceptable standards. At the hearing conference, counsel for the Chief, Common Carrier Bureau, stated that the Common Carrier Bureau would prepare an exhibit setting forth certain criteria which could be used as standards in this proceeding for the purpose of defining the service area of the several base stations and the area within which satisfactory communication service can probably be established. This exhibit will be prepared and exchanged on or about July 31, 1956, or as soon thereafter as is possible. Any other party desiring to propose criteria to establish standards to be used in this proceeding shall exchange such data in exhibit form on or before July 31, 1956, or as soon thereafter as possible.

4. The parties who have prepared and exchanged affidavits, statistical studies and proposed exhibits pursuant to agreements reached at the pre-hearing conference on May 20, 1955, may bring such material up to date and to that extent revise the material which has been exchanged.

5. In order to establish a common basis for traffic studies, it is agreed that such studies may include all of the traffic handled in the Great Lakes area by any of the parties hereto through December 31, 1955, but that no traffic data or studies shall refer to traffic originating in the calendar year of 1956 or any part thereof.

6. Each exhibit to be offered in evidence will identify the person or persons primarily charged with the responsibility therefor. Exhibits properly verified by the person responsible therefor may be offered in evidence without such person being present at the time of said offer and the exhibit, if responsive to an issue, will be received in evidence in the absence of an objection and a request to cross-examine the person responsible for the exhibit.

7. All exhibits which any party intends to introduce in evidence in support of the affirmative showing of any or all of the several issues concerning which that party has the burden of proof shall be exchanged on or before Tuesday, July 31, 1956.

8. At the time the exhibits are exchanged, the proponent thereof will notify other parties to the proceeding of the identity of each witness who will be called to testify and through whom the party intends to introduce the exhibits in evidence.

9. On or before August 17, 1956, each party will notify the other of the name of each and every witness desired for cross-examination or the subject matter or the exhibit or exhibits which he intends to explore by the cross-examination of adverse witnesses.

10. Nothing in this order is to be construed to prohibit or limit any agreement or stipulations which may be entered into by the parties concerning any matter which may be pertinent to the resolution of any or all of the several issues involved.

11. The evidentiary hearing will begin September 10, 1956. The order in which the parties will proceed will be as follows:

a. The Chief, Common Carrier Bureau, FCC, for the purpose of introducing the criteria to be used to determine the service area of the base stations and the areas within which satisfactory communication service can be established and maintained.

b. The Bell System companies in support of the several issues concerning which they have the burden of proof.

c. The protestants in support of the several issues concerning which they have the burden of proof.

## GENERAL SERVICES ADMINISTRATION

THE ATTORNEY GENERAL

DELEGATION OF AUTHORITY TO NEGOTIATE A CONTRACT FOR PROCUREMENT OF ARCHITECTURAL AND ENGINEERING SERVICES

1. Pursuant to the authority vested in me by the provisions of the Federal Property and Administrative Services Act of 1949 (63 Stat. 377), as amended, authority is hereby delegated to the Attorney General of the United States to negotiate a contract with an architectural and engineering firm to draw up plans and specifications for the contemplated additional air conditioning and construction of an elevator at the FBI Academy Building in Quantico, Virginia, without advertising pursuant to section 302 (c) (4) and (9) of said act.

2. This delegation of authority shall be subject to all provisions of Title III of the said act with respect to negotiated contracts, and to all other provisions of law.

3. The authority delegated herein may be redelegated to any officer or employee of the Department of Justice.

4. This delegation shall be effective as of the date hereof.

## SECURITIES AND EXCHANGE COMMISSION

RALPH L. LA QUEY

ORDER FOR PROCEEDINGS AND NOTICE OF HEARING

At a regular session of the Securities and Exchange Commission held at its office in the city of Washington, D. C., on the 1st day of June 1956.

In the matter of Ralph L. La Quey, General P. O. Box 797, New York, New York.

I. The Commission's public official files disclose that Ralph L. La Quey, a sole proprietor, hereinafter referred to as registrant, is registered as a broker-dealer pursuant to section 15 (b) of the Securities Exchange Act of 1934.

II. The Records Officer of the Commission has filed with the Commission a statement, a copy of which is attached hereto and made a part hereof,[1] stating that registrant did not file with the Commission reports of his financial condition during the calendar year 1955, as required by section 17 (a) of the Securities Exchange Act of 1934 and Rule X-17A-5 adopted thereunder.

III. The information reported to the Commission by its Records Officer as set forth in Paragraph II hereof tends, if true, to show that registrant violated section 17 (a) of the Securities Exchange Act of 1934 and Rule X-17A-5 adopted under said section.

IV. The Commission, having considered the aforesaid information, deems it necessary and appropriate in the public interest and for the protection of investors that proceedings be instituted to determine:

(a) Whether the statement referred to in Paragraph II hereof is true;

(b) Whether registrant has wilfully violated section 17 (a) of the Securities Exchange Act of 1934 and Rule X-17A-5 adopted under said section;

(c) Whether, pursuant to section 15 (b) of the Securities Exchange Act of 1934, it is in the public interest to revoke registration of registrant; and

(d) Whether, pursuant to section 15 (b) of the Securities Exchange Act of 1934, pending final determination, it is necessary or appropriate in the public interest or for the protection of investors to suspend the registration of registrant.

V. *It is ordered*, That registrant be given an opportunity for hearing as set forth in Paragraph IV hereof at 10 a. m. on the 10th day of July 1956, at the main office of the Securities and Exchange Commission, located at 425 Second Street NW., Washington 25, D. C., before a Hearing Examiner to be designated by the Commission. At such time the Hearing Room Clerk in Room 193, North Building, will advise the parties and the Hearing Examiner as to the room in which such hearing will be held. The Commission will consider any motion with respect to a change of place of said hearing if said motion is filed with the Secretary of the Commission on or before June 26, 1956. Upon completion of any such hearing in this matter the Hearing Examiner shall prepare a recommended decision pursuant to Rule IX of the rules of practice unless such decision is waived.

*It is further ordered*, That in the event registrant does not appear personally or through a representative at the time and place herein set or as otherwise ordered, the Hearing Room Clerk shall file with the Records Officer of the Commission a written statement to that effect and

[1] Filed as part of the original document.

thereupon the Commission will take the record under advisement for decision.

This order and notice shall be served on registrant personally or by registered mail forthwith, and published in the FEDERAL REGISTER not later than fifteen (15) days prior to July 10, 1956.

In the absence of an appropriate waiver, no officer or employee of the Commission engaged in the performance of investigative or prosecuting functions in this or any factually related proceeding will be permitted to participate or advise in the decision upon the matter except as witness or counsel in proceedings held pursuant to notice. Since this proceeding is not "rule making" within the meaning of section 4 (c) of the Administrative Procedure Act, it is not deemed to be subject to the provisions of the section delaying the effective date of any final Commission action.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

[F. R. Doc. 56-4495; Filed, June 7, 1956; 8:47 a. m.]

SIMON KAMINSKY

ORDER FOR PROCEEDINGS AND NOTICE OF HEARING

At a regular session of the Securities and Exchange Commission held at its office in the city of Washington, D. C., on the 1st day of June 1956.

In the matter of Simon Kaminsky, 38 Park Row, New York 38, New York.

I. The Commission's public official files disclose that Simon Kaminsky, a sole proprietor, hereinafter referred to as registrant, is registered as a broker-dealer pursuant to section 15 (b) of the Securities Exchange Act of 1934.

II. The Records Officer of the Commission has filed with the Commission a statement, a copy of which is attached hereto and made a part hereof,[1] stating that registrant did not file with the Commission reports of his financial condition during the calendar years 1953 and 1955, as required by section 17 (a) of the Securities Exchange Act of 1934 and Rule X-17A-5 adopted thereunder.

III. The information reported to the Commission by its Records Officer as set forth in Paragraph II hereof tends, if true, to show that registrant violated section 17 (a) of the Securities Exchange Act of 1934 and Rule X-17A-5 adopted under said section.

IV. The Commission, having considered the aforesaid information, deems it necessary and appropriate in the public interest and for the protection of investors that proceedings be instituted to determine:

(a) Whether the statement referred to in Paragraph II hereof is true;

(b) Whether registrant has wilfully violated section 17 (a) of the Securities Exchange Act of 1934 and Rule X-17A-5 adopted under said section;

(c) Whether, pursuant to section 15 (b) of the Securities Exchange Act of 1934, it is in the public interest to revoke registration of registrant; and

(d) Whether, pursuant to section 15 (b) of the Securities Exchange Act of 1934, pending final determination, it is necessary or appropriate in the public interest or for the protection of investors to suspend the registration of registrant.

V. *It is ordered*, That registrant be given an opportunity for hearing as set forth in Paragraph IV hereof at 10 a. m. on the 10th day of July 1956, at the main office of the Securities and Exchange Commission, located at 425 Second Street NW., Washington 25, D. C., before a Hearing Examiner to be designated by the Commission. At such time the Hearing Room Clerk in Room 193, North Building, will advise the parties and the Hearing Examiner as to the room in which such hearing will be held. The Commission will consider any motion with respect to a change of place of said hearing if said motion is filed with the Secretary of the Commission on or before June 26, 1956. Upon completion of any such hearing in this matter the Hearing Examiner shall prepare a recommended decision pursuant to Rule IX of the rules of practice unless such decision is waived.

*It is further ordered*, That in the event registrant does not appear personally or through a representative at the time and place herein set or as otherwise ordered, the Hearing Room Clerk shall file with the Records Officer of the Commission a written statement to that effect and thereupon the Commission will take the record under advisement for decision.

This order and notice shall be served on registrant personally or by registered mail forthwith, and published in the FEDERAL REGISTER not later than fifteen (15) days prior to July 10, 1956.

In the absence of an appropriate waiver, no officer or employee of the Commission engaged in the performance of investigative or prosecuting functions in this or any factually related proceeding will be permitted to participate or advise in the decision upon the matter except as witness or counsel in proceedings held pursuant to notice. Since this proceeding is not "rule making" within the meaning of section 4 (c) of the Administrative Procedure Act, it is not deemed to be subject to the provisions of the section delaying the effective date of any final Commission action.

By the Commission.

W. R. DICKSON AGENCY

ORDER FOR PROCEEDINGS AND NOTICE OF HEARING

At a regular session of the Securities and Exchange Commission held at its office in the city of Washington, D. C., on the 1st day of June 1956.

In the matter of William Ross Dickson dba W. R. Dickson Agency, 119 Bank Court, Rock Springs, Wyoming.

I. The Commission's public official files disclose that William Ross Dickson, a sole proprietor, dba W. R. Dickson Agency, hereinafter referred to as registrant, is registered as a broker-dealer pursuant to section 15 (b) of the Securities Exchange Act of 1934.

II. The Records Officer of the Commission has filed with the Commission a statement, a copy of which is attached hereto and made a part hereof,[1] stating that registrant did not file with the Commission reports of his financial condition during the calendar year 1955 as required by section 17 (a) of the Securities Exchange Act of 1934 and Rule X-17A-5 adopted thereunder.

III. The information reported to the Commission by its Records Officer as set forth in Paragraph II hereof tends, if true, to show that registrant violated section 17 (a) of the Securities Exchange Act of 1934 and Rule X-17A-5 adopted under said section.

IV. The Commission, having considered the aforesaid information, deems it necessary and appropriate in the public interest and for the protection of investors that proceedings be instituted to determine:

(a) Whether the statement referred to in Paragraph II hereof is true;

(b) Whether registrant has wilfully violated section 17 (a) of the Securities Exchange Act of 1934 and Rule X-17A-5 adopted under said section;

(c) Whether, pursuant to section 15 (b) of the Securities Exchange Act of 1934, it is in the public interest to revoke registration of registrant; and

(d) Whether, pursuant to section 15 (b) of the Securities Exchange Act of 1934, pending final determination, it is necessary or appropriate in the public interest or for the protection of investors to suspend the registration of registrant.

V. *It is ordered*, That registrant be given an opportunity for hearing as set forth in Paragraph IV hereof at 10 a. m. on the 10th day of July 1956 at the main office of the Securities and Exchange Commission, located at 425 Second Street NW., Washington 25, D. C., before a Hearing Examiner to be designated by the Commission. At such time the Hearing Room Clerk in Room 193, North Building, will advise the parties and the Hearing Examiner as to the room in which such hearing will be held. The Commission will consider any motion with respect to a change of place of said hearing if said motion is filed with the Secretary of the Commission on or before July 3, 1956. Upon completion of any such hearing in this matter the Hearing Examiner shall prepare a recommended decision pursuant to Rule IX of the rules of practice unless such decision is waived.

*It is further ordered*, That in the event registrant does not appear personally or through a representative at the time and place herein set or as otherwise ordered, the Hearing Room Clerk shall file with the Records Officer of the Commission a written statement to that effect and thereupon the Commission will take the record under advisement for decision.

This order and notice shall be served on registrant personally or by registered mail forthwith, and published in the

[1] Filed as part of the original document.

FEDERAL REGISTER not later than fifteen (15) days prior to July 10, 1956.

In the absence of an appropriate waiver, no officer or employee of the Commission engaged in the performance of investigative or prosecuting functions in this or any factually related proceeding will be permitted to participate or advise in the decision upon the matter except as witness or counsel in proceedings held pursuant to notice. Since this proceeding is not "rule making" within the meaning of section 4 (c) of the Administrative Procedure Act, it is not deemed to be subject to the provisions of the section delaying the effective date of any final Commission action.

By the Commission.

H. H. COPPLE

ORDER FOR PROCEEDINGS AND NOTICE OF HEARING

JUNE 1, 1956.

In the matter of Horace Howard Copple dba H. H. Copple, 308 Howard Bldg., 424 South Cheyenne, Tulsa, Oklahoma.

I. The Commission's public official files disclose that Horace Howard Copple, a solo proprietor, dba H. H. Copple, hereinafter referred to as registrant, is registered as a broker-dealer pursuant to section 15 (b) of the Securities Exchange Act of 1934, and is a member of the National Association of Securities Dealers, Inc., a national securities association, registered pursuant to section 15A of said act.

II. The Records Officer of the Commission has filed with the Commission a statement, a copy of which is attached hereto and made a part hereof,[1] stating that registrant did not file with the Commission reports of his financial condition during the calendar years 1953 and 1955, as required by section 17 (a) of the Securities Exchange Act of 1934 and Rule X-17A-5 adopted thereunder.

III. The information reported to the Commission by its Records Officer as set forth in Paragraph II hereof tends, if true, to show that registrant violated section 17 (a) of the Securities Exchange Act of 1934 and Rule X-17A-5 adopted under said section.

IV. The Commission, having considered the aforesaid information, deems it necessary and appropriate in the public interest and for the protection of investors that proceedings be instituted to determine:

(a) Whether the statement referred to in Paragraph II hereof is true;

(b) Whether registrant has wilfully violated section 17 (a) of the Securities Exchange Act of 1934 and Rule X-17A-5 adopted under said section;

(c) Whether, pursuant to section 15 (b) of the Securities Exchange Act of 1934, it is in the public interest to revoke registration of registrant;

(d) Whether, pursuant to section 15 (b) of the Securities Exchange Act of 1934, pending final determination, it is necessary or appropriate in the public interest or for the protection of investors to suspend the registration of registrant; and

(e) Whether, pursuant to section 15A (*l*) (2) of the Securities Exchange Act of 1934, it is necessary or appropriate in the public interest or for the protection of investors or to carry out the purposes of said section, to suspend for a period not to exceed twelve (12) months or to expel registrant from membership in the National Association of Securities Dealers, Inc.

V. *It is ordered*, That registrant be given an opportunity for hearing as set forth in Paragraph IV hereof at 10 a. m. on the 10th day of July 1956 at the main office of the Securities and Exchange Commission, located at 425 Second Street NW., Washington 25, D. C., before a Hearing Examiner to be designated by the Commission. At such time the Hearing Room Clerk in Room 193, North Building, will advise the parties and the Hearing Examiner as to the room in which such hearing will be held. The Commission will consider any motion with respect to a change of place of said hearing if said motion is filed with the Secretary of the Commission on or before July 3, 1956. Upon completion of any such hearing in this matter the Hearing Examiner shall prepare a recommended decision pursuant to Rule IX of the rules of practice unless such decision is waived.

*It is further ordered*, That in the event registrant does not appear personally or through a representative at the time and place herein set or as otherwise ordered, the Hearing Room Clerk shall file with the Records Officer of the Commission a written statement to that effect and thereupon the Commission will take the record under advisement for decision.

This order and notice shall be served on registrant personally or by registered mail forthwith, and published in the FEDERAL REGISTER not later than fifteen (15) days prior to July 10, 1956.

In the absence of an appropriate waiver, no officer or employee of the Commission engaged in the performance of investigative or prosecuting functions in this or any factually related proceeding will be permitted to participate or advise in the decision upon the matter except as witness or counsel in proceedings held pursuant to notice. Since this proceeding is not "rule making" within the meaning of section 4 (c) of the Administrative Procedure Act, it is not deemed to be subject to the provisions of the section delaying the effective date of any final Commission action.

By the Commission.

TECWYN OWEN WILLIAMS

ORDER FOR PROCEEDINGS AND NOTICE OF HEARING

At a regular session of the Securities and Exchange Commission held at its office in the city of Washington, D. C., on the 1st day of June 1956.

In the matter of Tecwyn Owen Williams, 136 Main Street, Oneonta, New York.

I. The Commission's public official files disclose that Tecwyn Owen Williams, a sole proprietor, hereinafter referred to as registrant, is registered as a broker-dealer pursuant to section 15 (b) of the Securities Exchange Act of 1934.

II. The Records Officer of the Commission has filed with the Commission a statement, a copy of which is attached hereto and made a part hereof,[1] stating that registrant did not file with the Commission reports of his financial condition during the calendar year 1955, as required by section 17 (a) of the Securities Exchange Act of 1934 and Rule X-17A-5 adopted thereunder.

III. The information reported to the Commission by its Records Officer as set forth in Paragraph II hereof tends, if true, to show that registrant violated section 17 (a) of the Securities Exchange Act of 1934 and Rule X-17A-5 adopted under said section.

IV. The Commission, having considered the aforesaid information, deems it necessary and appropriate in the public interest and for the protection of investors that proceedings be instituted to determine:

(a) Whether the statement referred to in Paragraph II hereof is true;

(b) Whether registrant has wilfully violated section 17 (a) of the Securities Exchange Act of 1934 and Rule X-17A-5 adopted under said section;

(c) Whether, pursuant to section 15 (b) of the Securities Exchange Act of 1934, it is in the public interest to revoke registration of registrant; and

(d) Whether, pursuant to section 15 (b) of the Securities Exchange Act of 1934, pending final determination, it is necessary or appropriate in the public interest or for the protection of investors to suspend the registration of registrant.

V. *It is ordered*, That registrant be given an opportunity for hearing as set forth in Paragraph IV hereof at 10 a. m., on the 10th day of July 1956 at the main office of the Securities and Exchange Commission, located at 425 Second Street NW., Washington 25, D. C., before a Hearing Examiner to be designated by the Commission. At such time the Hearing Room Clerk in Room 193, North Building, will advise the parties and the Hearing Examiner as to the room in which such hearing will be held. The Commission will consider any motion with respect to a change of place of said hearing if said motion is filed with the Secretary of the Commission on or before June 26, 1956. Upon completion of any such hearing in this matter the Hearing Examiner shall prepare a recommended decision pursuant to Rule IX

[1] Filed as part of the original document.

of the rules of practice unless such decision is waived.

*It is further ordered*, That in the event registrant does not appear personally or through a representative at the time and place herein set or as otherwise ordered, the Hearing Room Clerk shall file with the Records Officer of the Commission a written statement to that effect and thereupon the Commission will take the record under advisement for decision.

This order and notice shall be served on registrant personally or by registered mail forthwith, and published in the FEDERAL REGISTER not later than fifteen (15) days prior to July 10, 1956.

In the absence of an appropriate waiver, no officer or employee of the Commission engaged in the performance of investigative or prosecuting functions in this or any factually related proceeding will be permitted to participate or advise in the decision upon the matter except as witness or counsel in proceedings held pursuant to notice. Since this proceeding is not "rule making" within the meaning of section 4 (c) of the Administrative Procedure Act, it is not deemed to be subject to the provisions of the section delaying the effective date of any final Commission action.

By the Commission.

### LINN A. BOYD

#### ORDER FOR PROCEEDINGS AND NOTICE OF HEARING

At a regular session of the Securities and Exchange Commission held at its office in the city of Washington, D. C., on the 1st day of June 1956.

In the matter of Linn A. Boyd, 2608 Jacksboro Highway, Wichita Falls, Texas (P. O. Box 2528).

I. The Commission's public official files disclose that Linn A. Boyd, a sole proprietor, hereinafter referred to as registrant, is registered as a broker-dealer pursuant to section 15 (b) of the Securities Exchange Act of 1934.

II. The Records Officer of the Commission has filed with the Commission a statement, a copy of which is attached hereto and made a part hereof,[1] stating that registrant did not file with the Commission reports of his financial condition during the calendar years 1949, 1950, 1953 and 1955, as required by section 17 (a) of the Securities Exchange Act of 1934 and Rule X-17A-5 adopted thereunder.

III. The information reported to the Commission by its Records Officer as set forth in Paragraph II hereof tends, if true, to show that registrant violated section 17 (a) of the Securities Exchange Act of 1934 and Rule X-17A-5 adopted under said section.

[1] Filed as part of the original document.

IV. The Commission, having considered the aforesaid information, deems it necessary and appropriate in the public interest and for the protection of investors that proceedings be instituted to determine:

(a) Whether the statement referred to in Paragraph II hereof is true;

(b) Whether registrant has wilfully violated section 17 (a) of the Securities Exchange Act of 1934 and Rule X-17A-5 adopted under said section;

(c) Whether, pursuant to section 15 (b) of the Securities Exchange Act of 1934, it is in the public interest to revoke registration of registrant; and

(d) Whether, pursuant to section 15 (b) of the Securities Exchange Act of 1934, pending final determination, it is necessary or appropriate in the public interest or for the protection of investors to suspend the registration of registrant.

V. *It is ordered*, That registrant be given an opportunity for hearing as set forth in Paragraph IV hereof at 10 a. m. on the 10th day of July 1956 at the main office of the Securities and Exchange Commission, located at 425 Second Street NW., Washington 25, D. C., before a Hearing Examiner to be designated by the Commission. At such time the Hearing Room Clerk in Room 193, North Building, will advise the parties and the Hearing Examiner as to the room in which such hearing will be held. The Commission will consider any motion with respect to a change of place of said hearing if said motion is filed with the Secretary of the Commission on or before July 3, 1956. Upon completion of any such hearing in this matter the Hearing Examiner shall prepare a recommended decision pursuant to Rule IX of the rules of practice unless such decision is waived.

*It is further ordered*, That in the event registrant does not appear personally or through a representative at the time and place herein set or as otherwise ordered, the Hearing Room Clerk shall file with the Records Officer of the Commission a written statement to that effect and thereupon the Commission will take the record under advisement for decision.

This order and notice shall be served on registrant personally or by registered mail forthwith, and published in the FEDERAL REGISTER not later than fifteen (15) days prior to July 10, 1956.

In the absence of an appropriate waiver, no officer or employee of the Commission engaged in the performance of investigative or prosecuting functions in this or any factually related proceeding will be permitted to participate or advise in the decision upon the matter except as witness or counsel in proceedings held pursuant to notice. Since this proceeding is not "rule making" within the meaning of section 4 (c) of the Administrative Procedure Act, it is not deemed to be subject to the provisions of the section delaying the effective date of any final Commission action.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

## DEPARTMENT OF JUSTICE

### Office of Alien Property

[Vesting Order 14773, Amdt.]

#### NORDSTERM ALLGEMEINE VERSICHERUNGS A. G.

In re: Bonds owned by Nordsterm Allgemeine Versicherungs A. G., also known as Nordstern Lebensversicherungs-Aktiengesellschaft; F-28-8183.

Vesting Order 14773, dated June 20, 1950, is hereby amended to read as follows:

Under the authority of the Trading With the Enemy Act, as amended, Executive Order 9193, as amended, and Executive Order 9788, and pursuant to law, after investigation, it is hereby found:

1. That Nordsterm Allgemeine Versicherungs A. G. also known as Nordstern Lebensversicherungs-Aktiengesellschaft, the last known address of which is 2 Fehrbelliner Platz, Berlin-Wilmersdorf, Germany, is a corporation, partnership, association or other business organization, organized under the laws of Germany, and which has or, since the effective date of Executive Order 8389, as amended, has had its principal place of business in Berlin, Germany, and is a national of a designated enemy country (Germany);

2. That the property described as follows: Those certain debts or other obligations, matured or unmatured, evidenced by seventeen (17) 4% Corporate Stock of The City of New York Coupon Bonds, each of $1,000.00 face value, due May 1, 1959, issued in bearer form and numbered as follows, and evidenced by coupons attached to or detached from said bonds and due on or after November 1, 1940:

| | |
|---|---|
| Series V-10—9205 | Series V-II—682 |
| 14966 | 3077 |
| 17071 | 3078 |
| 19196 | 7640 |
| 24420 | 7641 |
| 29083 | 7642 |
| 29084 | 7643 |
| Series V-11—680 | 7644 |
| 681 | |

together with any and all accruals to the aforesaid debts or other obligations and any and all rights to demand, enforce and collect the same, and any and all rights in, to and under the aforesaid bonds and coupons,

is property within the United States owned or controlled by, payable or deliverable to, held on behalf of or on account of, or owing to, or which is evidence of ownership or control by, Nordsterm Allgemeine Versicherungs A. G. also known as Nordstern Lebensversicherungs-Aktiengesellschaft, the aforesaid national of a designated enemy country (Germany);

and it is hereby determined:

3. That to the extent that the person named in subparagraph 1 hereof is not within a designated enemy country, the national interest of the United States requires that such person be treated as a national of a designated enemy country (Germany).

All determinations and all action required by law, including appropriate consultation and certification, having been made and taken, and, it being deemed necessary in the national interest,

There is hereby vested in the Attorney General of the United States the property described above, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of Executive Order 9193, as amended.

Executed at Washington, D. C., on June 4, 1956.

For the Attorney General.

[SEAL] PAUL V. MYRON, *Deputy Director, Office of Alien Property.*

[Vesting Order 17320, Amdt.]

#### HANS AND ALICE LOUISE HOFFMANN-WALBECK

In re: Bonds owned by Hans Hoffmann-Walbeck and Alice Louise Hoffmann-Walbeck; F-28-31115.

Vesting Order 17320, dated February 6, 1951, is hereby amended to read as follows:

Under the authority of the Trading With the Enemy Act, as amended, Executive Order 9193, as amended, and Executive Order 9788, and pursuant to law, after investigation, it is hereby found:

1. That Hans Hoffmann-Walbeck and Alice Louise Hoffmann-Walbeck, whose last known address is 2 Bergstrasse, Aumuehle near Hamburg, Germany, are residents of Germany and nationals of a designated enemy country (Germany);

2. That the property described as follows:

a. Those certain debts or other obligations, matured or unmatured, evidenced by six (6) Cities Service Company 5% Gold Debenture Bonds, each of $1,000.00 face value, bearing the numbers M 5454, M 7885, M 7786, M 9941, M 17317 and M 46869, and evidenced by coupons attached to or detached from said bonds due on or after April 1, 1940, and any and all rights to demand, enforce and collect the aforesaid debts or other obligations, and all rights in, to and under the aforesaid bonds and coupons,

b. Those certain debts or other obligations, matured or unmatured, evidenced by three (3) The Central Pacific Railway Company 4% First Refunding Mortgage Gold Bonds, due 1949, of $2,000.00 aggregate face value, bearing the numbers 1967, 7637 and 8064, and evidenced by coupons attached to or detached from said bonds due on or after August 1, 1940, and any and all rights to demand, enforce and collect the aforesaid debts or other obligations, and all rights in, to and under the aforesaid bonds and coupons,

is property within the United States owned or controlled by, payable or deliverable to, held on behalf of or on account of, or owing to, or which is evidence of ownership or control by, Hans Hoffmann-Walbeck and Alice Louise Hoffmann-Walbeck, the aforesaid nationals of a designated enemy country (Germany);

and it is hereby determined:

3. That to the extent that the persons named in subparagraph 1 hereof are not within a designated enemy country, the national interest of the United States requires that such persons be treated as nationals of a designated enemy country (Germany).

All determinations and all action required by law, including appropriate consultation and certification, having been made and taken, and, it being deemed necessary in the national interest,

There is hereby vested in the Attorney General of the United States the property described above, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of Executive Order 9193, as amended.

Executed at Washington, D. C., on June 5, 1956.

For the Attorney General.

[F. R. Doc. 56-4516; Filed, June 7, 1956; 8:52 a. m.]

## INTERSTATE COMMERCE COMMISSION

### FOURTH SECTION APPLICATIONS FOR RELIEF

JUNE 5, 1956.

Protests to the granting of an application must be prepared in accordance with Rule 40 of the general rules of practice (49 CFR 1.40) and filed within 15 days from the date of publication of this notice in the FEDERAL REGISTER.

#### LONG-AND-SHORT HAUL

FSA No. 32167: *Soda ash—Lake Charles, La., to St. Louis, Mo., group.* Filed by F. C. Kratzmeir, Agent, for interested rail carriers. Rates on soda ash (other than modified) in bulk, carloads from Lake Charles, La., to St. Louis, Mo., and East St. Louis, Ill.

Grounds for relief: Circuitous routes.

Tariff: Supplement 147 to Agent Kratzmeir's I. C. C. 4087.

FSA No. 32169: *Substituted service—Motor-rail-motor—N. & W. Ry. and Penn. R. R.* Filed by Middle Atlantic Conference, Agent, for interested motor and rail carriers. Rates on various articles of freight loaded in motor truck trailers and transported on railroad flat cars between Pittsburgh, Pa., on one hand, and Kearny, N. J., on the other, and between Kearny, N. J., or Philadelphia, Pa., on the one hand, and Bristol, Va.-Tenn., or Roanoke, Va., on the other.

Grounds for relief: Motor truck competition.

FSA No. 32170: *Trailer-on-flat car service—Wabash Railroad Company.* Filed by The Wabash Railroad Company, for itself and on behalf of the Erie Railroad Company. Rates on various articles of freight, moving on class and commodity rates, loaded in or on trailers transported on railroad flat cars from St. Louis, Mo., and points in the St. Louis area to Akron, Ashland, Barberton, and Cleveland, Ohio, and other points in Ohio described in the application.

Grounds for relief: Motor truck competition and circuitous routes.

Tariff: Wabash Railroad Company tariff I. C. C. No. 7793.

FSA No. 32171: *Caustic soda—Evans City, Ala., to Jeffersonville, Ind.* Filed by R. E. Boyle, Jr., Agent, for interested rail carriers. Rates on sodium (soda), caustic (sodium hydroxide), liquid, tank-car loads, from Evans City, Ala., to Jeffersonville, Ind.

Grounds for relief: Market competition with Huntsville and Redstone Arsenal, Ala.

Tariff: Supplement 212 to Agent C. A. Spaninger's I. C. C. 1351.

FSA No. 32172: *Phosphate rock—Florida to Gulfport, Miss.* Filed by R. E. Boyle, Jr., Agent, for interested rail carriers. Rates on ground phosphate rock and soft phosphate, carloads, as described, from Bartow, Fla., and other Florida points taking same rates to Gulfport, Miss.

Grounds for relief: Circuitous routes.

FSA No. 32173: *Commodities—Central Territory to South.* Filed by H. R. Hinsch, Agent, for interested rail carriers. Rates on fresh meats, carloads, nitric acid, tankcar loads, paper making machinery, and parts, carloads, and carbon furnace and electrolytic bath electrodes, mixed carloads from specified points in Ohio to specified points in southern territory.

Grounds for relief: Carrier competition and circuity.

FSA No. 32174: *Commodities—Kansas to southern points.* Filed by W. J. Prueter, Agent, for interested rail carriers. Rates on residue, petroleum carbon, in bulk, in open-top cars, carloads and sodium phosphate, in bags, carloads from Augusta, Kansas to Jarratt, Va., as to rates on the residue as described, and from Lawrence, Kans., to specified points in Florida, Georgia, Mississippi, North Carolina, South Carolina and Tennessee, as to rates on sodium phosphate.

Grounds for relief: Carrier competition and circuity.

Tariff: Supplement 108 to Agent Prueter's I. C. C. A-3973.

FSA No. 32175: *Anhydrous ammonia—Boutte and Luling, La., to Memphis, Tenn.* Filed by F. C. Kratzmeir, Agent, for interested rail carriers. Rates on anhydrous ammonia, tankcar loads from Luling and Boutte, La., to Memphis, Tenn.

Grounds for relief: Barge competition, and circuity.

Tariff: Supplement 145 to Agent Kratzmeir's I. C. C. 4112.

FSA No. 32177: *Crude rubber—Texas to Gadsden and Tuscaloosa, Ala.* Filed by F. C. Kratzmeir, Agent, for interested rail carriers. Rates on crude rubber, artificial, synthetic or neoprene, straight or mixed carloads from Baytown, Borger, Houston, and Port Neches, Tex., to Gadsden and Tuscaloosa, Ala.

Grounds for relief: Barge truck competition, market competition and circuitous routes.

Tariff: Supplement 194 to Agent Kratzmeir's I. C. C. 4139.

FSA No. 32178: *Woodpulp—South to Wisconsin points.* Filed by R. E. Boyle, Jr., Agent, for interested rail carriers. Rates on woodpulp, not powdered, noibn, carloads from specified points in southern territory to Merrimac (Badger Ordnance Works), Wis., and Merrimac (Sauk City-Prairie du Sac-Badger Ordnance Works), Wis.

Grounds for relief: Circuitous routes.

Tariff: Supplement 119 to Agent Spaninger's I. C. C. 1260.

FSA No. 32179: *Sulphuric acid—New Orleans, La., to South.* Filed by R. E. Boyle, Jr., Agent, for interested rail carriers. Rates on sulphuric acid, tank-car loads from New Orleans, La., to specified points in Alabama, Florida, Mississippi and Tennessee.

Grounds for relief: Circuitous routes.

Tariff: Supplement 119 to Agent Spaninger's I. C. C. 1357.

FSA No. 32180: *Acrylonitrile—Texas City, Tex., to Chicago, Ill.* Filed by F. C. Kratzmeir, Agent, for interested rail carriers. Rates on acrylonitrile, tank-car loads from Texas City, Tex., to Chicago, Ill.

Grounds for relief: Market competition with New Orleans, La., potential water competition, and circuitous routes.

Tariff: Supplement 196 to Agent Kratzmeir's I. C. C. 4139.

AGGREGATE-OF-INTERMEDIATES

FSA No. 32168: *Soda ash—Lake Charles, La., to St. Louis, Mo., group.* Filed by F. C. Kratzmeir, Agent, for interested rail carriers. Rates on soda ash (other than modified), in bulk, carloads, from Lake Charles, La., to St. Louis, Mo., and East St. Louis, Ill.,

Grounds for relief: Maintenance of depressed rates not applicable in constructing combination rates from or to more distant points.

Tariff: Supplement 147 to Agent Kratzmeir's I. C. C. 4087.

FSA No. 32176: *Anhydrous ammonia—Boutte and Luling, La., to Memphis, Tenn.* Filed by F. C. Kratzmeir, Agent, for interested rail carriers. Rates on anhydrous ammonia, tank-car loads from Luling and Boutte, La., to Memphis, Tenn.

Grounds for relief: Maintenance of depressed rates without observing same in constructing combination rates from or to more distant points.

Tariff: Supplement 145 to Agent Kratzmeir's I. C. C. 4112.

By the Commission.

[SEAL] HAROLD D. McCOY,
*Secretary.*

[Rev. S. O. 562, Taylor's I. C. C. Order 70]

MISSOURI-KANSAS-TEXAS RAILROAD CO.

DIVERSION OR REROUTING OF TRAFFIC

In the opinion of Charles W. Taylor, Agent, the Missouri-Kansas-Texas Railroad Company, due to washout between Altus and Victory, Oklahoma, is unable to transport traffic routed over its line between these points.

*It is ordered,* That:

(a) Rerouting traffic: The Missouri-Kansas-Texas Railroad Company and its connections are hereby authorized to reroute and divert traffic moving over its line between Altus and Victory, Oklahoma, due to washout, over any available route to expedite the movement.

(b) Concurrence of receiving roads to be obtained: The railroad desiring to divert or reroute traffic under this order shall confer wtih the proper transportation officer of the railroad or railroads to which such traffic is to be diverted or rerouted, and shall receive the concurrence of such other railroads before the rerouting or diversion is ordered.

(c) Notification to shippers: Each carrier rerouting cars in accordance with this order shall notify each shipper at the time each car is rerouted or diverted and shall furnish to such shipper the new routing provided under this order.

(d) Inasmuch as the diversion or rerouting of traffic by said Agent is deemed to be due to carrier's disability, the rates applicable to traffic diverted or rerouted by said Agent shall be the rates which were applicable at the time of shipment on the shipments as originally routed.

(e) In executing the directions of the Commission and of such Agent provided for in this order, the common carriers involved shall proceed even though no contracts, agreements, or arrangements now exist between them with reference to the divisions of the rates of transportation applicable to such traffic; divisions shall be, during the time this order remains in force, those voluntarily agreed upon by and between said carriers; or upon failure of the carriers to so agree, said divisions shall be those hereafter fixed by the Commission in accordance with pertinent authority conferred upon it by the Interstate Commerce Act.

(f) Effective date: This order shall become effective at 11:00 a. m., May 31, 1956.

(g) Expiration date: This order shall expire at 11:59 p. m., June 15, 1956, unless otherwise modified, changed, suspended or annulled.

*It is further ordered,* That this order shall be served upon the Association of American Railroads, Car Service Division, as agent of all railroads subscribing to the car service and per diem agreement under the terms of that agreement and by filing it with the Director, Division of the Federal Register.

Issued at Washington, D. C., May 31, 1956.

INTERSTATE COMMERCE COMMISSION,
CHARLES W. TAYLOR,
*Agent.*

[Rev. S. O. 562, Taylor's I. C. C. Order 71]

ST. LOUIS-SAN FRANCISCO RAILWAY CO.

DIVERSION OR REROUTING OF TRAFFIC

In the opinion of Charles W. Taylor, Agent, the St. Louis-San Francisco Railway Company, due to washout between Vernon, Texas, and Snyder, Oklahoma, is unable to transport traffic routed over its line between these points.

*It is ordered,* That:

(a) Rerouting traffic: The St. Louis-San Francisco Railway Company and its connections are hereby authorized to reroute or divert traffic moving over its line between Vernon, Texas, and Snyder, Oklahoma, due to washout, over any available route to expedite the movement.

(b) Concurrence of receiving roads to be obtained: The railroad desiring to divert or reroute traffic under this order shall confer with the proper transportation officer of the railroad or railroads to which such traffic is to be diverted or rerouted, and shall receive the concurrence of such other railroads before the rerouting or diversion is ordered.

(c) Notification to shippers: Each carrier rerouting cars in accordance with this order shall notify each shipper at the time each car is rerouted or diverted and shall furnish to such shipper the new routing provided under this order.

(d) Inasmuch as the diversion or rerouting of traffic by said Agent is deemed to be due to carrier's disability, the rates applicable to traffic diverted or rerouted by said Agent shall be the rates which were applicable at the time of shipment on the shipments as originally routed.

(e) In executing the directions of the Commission and of such Agent provided for in this order, the common carriers involved shall proceed even though no contracts, agreements, or arrangements now exist between them with reference to the divisions of the rates of transportation applicable to such traffic; divisions shall be, during the time this order remains in force, those voluntarily agreed upon by and between said carriers; or upon failure of the carriers to so agree, said divisions shall be those hereafter fixed by the Commission in accordance with pertinent authority conferred upon it by the Interstate Commerce Act.

(f) Effective date: This order shall become effective at 9:00 a. m., June 1, 1956.

(g) Expiration date: This order shall expire at 11:59 p. m., June 10, 1956, unless otherwise modified, changed, suspended or annulled.

*It is further ordered,* That this order shall be served upon the Association of American Railroads, Car Service Division, as agent of all railroads subscribing to the car service and per diem agreement under the terms of that agreement and by filing it with the Director, Division of the Federal Register.

Issued at Washington, D. C., June 1, 1956.

## TITLE 32—NATIONAL DEFENSE

### Chapter I—Office of the Secretary of Defense

Subchapter G—Defense Contract Financing

PART 82—DEFENSE CONTRACT FINANCING REGULATIONS

ADVANCE PAYMENTS

Appendix 2, Defense Contract Financing Policy—Advance Payments, November 7, 1951, and its attachment, Deputy Secretary of Defense memorandum, same subject, April 6, 1951, have been amended. Appendix 2, as revised, reads as follows:

DEFENSE CONTRACT FINANCING POLICY—ADVANCE PAYMENTS

1. The purpose of this Appendix 2 is to (1) eliminate the requirement for interest charge on advance payments on contracts for the management and operation of Government-owned plants, (2) increase the interest rate on new interest-bearing advance payment provisions to 5 percent, and (3) conform the records clause requirement for advance payments under Title II of the First War Powers Act to the general records clause requirement under that act.

2. This Appendix 2 supplements Appendix 1. It applies to all advance payments hereafter authorized, whether pursuant to the Armed Services Procurement Act of 1947, as amended, the First War Powers Act, 1941, as amended, or to any other legislation, except section 602 of the Defense Appropriation Act, 1956 (P. L. 157, 83d Congress, 69 Stat. 314).

3. A. Advance payments should be used sparingly and care should be taken to see that advances outstanding are sufficient for but do not exceed the actual reasonable requirements for the contracts. The amount of the advance payment in any case should be based upon an analysis of the cash flow required under the contract, and, as a general rule, should not exceed the interim cash needs arising during the reimbursement cycle. Generally, except for (1) nonprofit contracts with nonprofit educational or research institutions for experimental, research and development work, and (2) contracts solely for the management and operation of Government-owned plants, advance payments should not be authorized unless no other means of adequate financing is available to the contractor and the amount of the authorization is predicated upon use of the contractor's own working capital to the extent possible.

B. The advance payment agreement should provide for deposit of all payments into special bank accounts and should include suitable covenants to protect the Government's interest. Advance payments under such authorizations should be limited to the contractor's financial needs, and withdrawals from the special bank accounts provided therefor should be closely supervised. The terms governing advance payments should include as security, in addition to or in lieu of the requirements for an advance payment bond or other security, provision for a lien in favor of the Government, paramount to all other liens, upon the supplies contracted for, upon the credit balance in any special account in which such payments may be deposited, and upon the material and other property acquired for performance of the contract.

C. Interest will be charged on all advance payments hereafter authorized at the rate of 5 percent per annum on the unliquidated balance; provided, however, advance payments may be approved without interest when in connection with nonprofit contracts with nonprofit educational research institutions for experimental, research and development work, or on contracts solely for the management and operation of Government-owned plants, or, in unusual cases, when specifically authorized by the Under or Assistant Secretary responsible for the comptroller function. In this connection, contracts for acquisition of facilities at cost, for Government ownership, in combination with or in contemplation of supply contracts or subcontracts, will be treated as ordinary profit contracts requiring interest on advance payments. Contracts with interest-free advance payments hereafter authorized should provide that the contractor will charge interest at the rate of 5 percent per annum on sub-advances or down payments to subcontractors, and that interest charged on such sub-advances or down payments will be credited to the account of the Government. However, interest need not be charged on sub-advances on nonprofit subcontracts with nonprofit educational or research institutions for experimental, research or development work.

D. Except as provided in 4. below, the responsibility and authority for making determinations and findings with respect to advance payments, and in each case for approval of contract provisions for advance payments or for approval of the terms and conditions thereof, shall be in the Under or Assistant Secretary responsible for the comptroller function in each military department. The Government may not be committed in any manner, directly or indirectly, to make an advance payment without the approval of the Under or Assistant Secretary responsible for the comptroller function (or, in appropriate cases, of the persons to whom advance payment approval authority has been delegated in accordance with 4.), and no pro-

# FEDERAL REGISTER

Published daily, except Sundays, Mondays, and days following official Federal holidays, by the Federal Register Division, National Archives and Records Service, General Services Administration, pursuant to the authority contained in the Federal Register Act, approved July 26, 1935 (49 Stat. 500, as amended; 44 U. S. C., ch. 8B), under regulations prescribed by the Administrative Committee of the Federal Register, approved by the President. Distribution is made only by the Superintendent of Documents, Government Printing Office, Washington 25, D. C.

The FEDERAL REGISTER will be furnished by mail to subscribers, free of postage, for $1.50 per month or $15.00 per year, payable in advance. The charge for individual copies (minimum 15 cents) varies in proportion to the size of the issue. Remit check or money order, made payable to the Superintendent of Documents, directly to the Government Printing Office, Washington 25, D. C.

The regulatory material appearing herein is keyed to the CODE OF FEDERAL REGULATIONS, which is published, under 50 titles, pursuant to section 11 of the Federal Register Act, as amended August 5, 1953. The CODE OF FEDERAL REGULATIONS is sold by the Superintendent of Documents. Prices of books and pocket supplements vary.

There are no restrictions on the republication of material appearing in the FEDERAL REGISTER, or the CODE OF FEDERAL REGULATIONS.

curement involving advance payments may become final until such approval is obtained.

E. If a disagreement arises between the contract financing office and the interested procurement activity in any department as to whether, to what extent, or in what form, financing should be furnished, the matter will be referred immediately to, and resolved in, the higher echelons of authority responsible respectively for financing and procurement functions, subject to any issue being resolved ultimately by the Secretary of the department concerned.

F. Each department shall submit reports of financing activities at such times and in such form as may be prescribed by the Assistant Secretary of Defense (Comptroller).

4. Pursuant to the First War Powers Act, 1941, as amended, and Executive Order No. 10210 of February 2, 1951, the Department of the Army, the Department of the Navy, and the Department of the Air Force are authorized to make advance payments under contracts heretofore or hereafter made without regard to other provisions of law relating to contracts, including advance payments under contracts awarded on competitive bids after formal advertising, and to amend such contracts to provide for advance payments. All contracts and amendments to contracts providing for advance payments made under the authority of the above-cited Act and Executive Order shall (1) make reference to the act and the Executive Order, (2) include a finding that the national defense is facilitated thereby, and (3) include the clause for "Examination of Records" required under that act or the clause set forth in ASPR 7–104.15. Complete data shall be maintained by each department as to all contracts and amendments to contracts relating to advance payments made pursuant to the above-cited act and Executive order. Pursuant to the above-cited act and Executive order, the authority in each case to approve contract provisions for advance payments, or to authorize the terms and conditions thereof, may be delegated within each department to the Under or Assistant Secretary responsible for the comptroller function, with power of redelegation under such Under or Assistant Secretary no further than to the Comptroller of the Army (and an alternate within his office) in the Department of the Army, to the Assistant Comptroller, Accounting and Finance (and an alternate within his office) in the Department of the Navy, and to the Deputy for Contract Financing to the Assistant Secretary (Financial Management) of the Air Force (and an alternate responsible to such Deputy for Contract Financing).

(Sec. 5, 40 Stat. 415, as amended, sec. 704, 64 Stat. 816, as amended; 50 U. S. C. App. 5, 2154)

C. E. WILSON,
*Secretary of Defense.*

## Chapter XI—National Guard and State Guard, Department of the Army

### PART 1101—NATIONAL GUARD REGULATIONS

QUALIFICATIONS FOR ENLISTMENT OR REENLISTMENT

In § 1101.14, paragraphs (h) (1) and (i) (5) and (13) are amended to read as follows:

§ 1101.14 *Qualifications for enlistment or reenlistment.* • • •

(h) *Physical qualification*—(1) *General.* (i) All applicants for enlistment and reenlistment, when National Guard service in the same State has not been continuous, will appear before an authorized medical examiner for physical examination in accordance with NGR 27 (National Guard Regulations governing physical examinations). Final determinations of physical eligibility of these applicants will be subject to review by the Chief, National Guard Bureau.

(ii) All applicants for reenlistment whose National Guard service in the same State has been continuous, if otherwise qualified, may be reenlisted without physical examination provided final type physical examination has been accomplished within the last four years and provided the member signs the certificate below and exceptions are noted.

CERTIFICATE

I now consider myself sound and well and physically qualified for active duty. I was physically qualified for general service (or general service with waiver) at the time of my last physical examination on or about ---------- (Date) To the best of my knowledge and belief, I have no physical defects or conditions which would not meet general service (or general service with waiver) requirements with the exception of the following: ----------

---------- (Signature)

Certificate will be executed in sufficient copies for attachment to each copy of DD Form 4 (Enlistment Record). These individuals will be subject to periodic physical examinations as specified in NGR 27. Individuals who list exceptions in the above certificate or whose physical condition is questioned by unit commanders will be physically reexamined.

• • • • • •

(i) *Classes ineligible, waivers not authorized.* • • •

(5) Persons who do not speak, read and write the English language except where the language used is predominantly other than English and persons who have had no prior service or who have not satisfactorily completed the third year of high school and who fail to attain a percentile score of 10 or higher on the Armed Forces Qualification Test, AFQT–1, or AFQT–2.

• • • • • •

(13) Persons who are bona fide members of the Navy ROTC, Advanced Air Force ROTC, or the Advanced Course, Senior Division, Army ROTC.

• • • • • •

[C2, NGR 25–1, April 24, 1956] (Sec. 118, 39 Stat. 213; 32 U. S. C. 17)

[SEAL] JOHN A. KLEIN,
*Major General, U. S. Army,*
*The Adjutant General.*

## TITLE 14—CIVIL AVIATION

## Chapter I—Civil Aeronautics Board

[Civil Air Regs., Amdt. 6–8]

### PART 6—ROTORCRAFT AIRWORTHINESS; NORMAL CATEGORY

SIMPLIFICATION OF AIRWORTHINESS REQUIREMENTS FOR SMALL AIRCRAFT

In F. R. Doc. 56–4355, appearing in the issue for Saturday, June 2, 1956, on page 3740, the following changes should be made:

1. Page 3742, item No. 40, line 9, the word "insolation" should be "isolation".

2. Page 3743, item No. 44, line 5, "(o)" should be "(c)".

By the Civil Aeronautics Board.

[SEAL] M. C. MULLIGAN,
*Secretary.*

[F. R. Doc. 56–4639; Filed, June 8, 1956; 9:00 a. m.]

## Chapter II—Civil Aeronautics Administration, Department of Commerce

[Amdt. 199]

### PART 609—STANDARD INSTRUMENT APPROACH PROCEDURES

### PROCEDURE ALTERATIONS

The standard instrument approach procedure alterations appearing hereinafter are adopted to become effective when indicated in order to promote safety. Compliance with the notice, procedures, and effective date provisions of section 4 of the Administrative Procedure Act would be impracticable and contrary to the public interest, and therefore is not required.

Part 609 is amended as follows:

NOTE: Where the general classification (LFR, VAR, ADF, ILS, GCA, or VOR), location, and procedure number (if any) of any procedure in the amendments which follow, are identical with an existing procedure, that procedure is to be substituted for the existing one, as of the effective date given, to the extent that it differs from the existing procedure; where a procedure is canceled, the existing procedure is revoked; new procedures are to be placed in appropriate alphabetical sequence within the section amended.

1. The low frequency range procedures prescribed in § 609.6 are amended to read in part:

LFR STANDARD INSTRUMENT APPROACH PROCEDURE

Bearings, headings, and courses are magnetic. Distances are in nautical miles unless otherwise indicated, except visibilities which are in statute miles. Elevations and latitudes are in feet, MSL. Ceilings are in feet above airport elevation.

If an LFR instrument approach is conducted at the below named airport, it shall be in accordance with the following instrument approach procedure, unless an approach is conducted in accordance with a different procedure for such airport, authorized by the Administrator of Civil Aeronautics. Initial approaches shall be made over specified routes. Minimum altitude(s) shall correspond with those established for en route operation in the particular area or as set forth below.

| City and State; airport name, elevation; facility; class and identification; procedure No.; effective date | Initial approach to facility from— | Course and distance | Minimum altitude (ft.) | Procedure turn (—) side of final approach course (outbound and inbound); altitudes; limiting distances | Minimum altitude over facility on final approach course (ft.) | Course and distance, facility to airport | Ceiling and visibility minimums: Condition | 2 engines or less: 65 knots or less | 2 engines or less: More than 65 knots | More than 2 engines (more than 65 knots) | If visual contact not established at authorized landing minimums after passing facility within distance specified, or if landing not accomplished |

5. The instrument landing system procedures prescribed in § 609.11 are amended to read in part:

ILS STANDARD INSTRUMENT APPROACH PROCEDURE

Bearings, headings, and courses are magnetic. Distances are in nautical miles unless otherwise indicated, except visibilities which are in statute miles. Elevations and altitudes are in feet, MSL. Ceilings are in feet above airport elevation.

If an ILS instrument approach is conducted at the below named airport, it shall be in accordance with the following instrument approach procedure, unless an approach is conducted in accordance with a different procedure for such airport authorized by the Administrator of Civil Aeronautics. Initial approaches shall be made over specified routes. Minimum altitude(s) shall correspond with those established for en route operation in the particular area or as set forth below:

| City and State; airport name, elevation; facility; class and identification; procedure No.; effective date | Transition to ILS | | | | Procedure turn (—) side of final approach course (outbound and inbound); altitudes; limiting distances | Minimum altitude at glide slope interception inbound (ft.) | Altitude of glide slope and distance to approach end of runway at— | | Ceiling and visibility minimums | | | | If visual contact not established upon descent to authorized landing minimums or if landing not accomplished— |
|---|---|---|---|---|---|---|---|---|---|---|---|---|---|
| | From— | To— | Course and distance | Minimum altitudes (ft.) | | | Outer marker | Middle marker | Condition | 2 engines or less | | More than 2 engines (more than 65 knots) | |
| | | | | | | | | | | 65 knots or less | More than 65 knots | | |
| 1 | 2 | 3 | 4 | 5 | 6 | 7 | 8 | 9 | 10 | 11 | 12 | 13 | 14 |
| SALT LAKE CITY, UTAH. Salt Lake City No. 1, 4,222'. ILS-SLC. Procedure No. 1. Amendment No. 12. Effective date: July 7, 1956. Supersedes Amendment 11, dated April 28, 1956. Major changes: Lower straight-in minimums—high intensity approach lights commissioned. | Salt Lake City LFR | LOM | 163—8.7 | 6,100 | E or W side of S course: 158° outbound, 338° inbound. 6,100' within 5 miles of LOM. # TITLE 7—AGRICULTURE

## Chapter I—Agricultural Marketing Service (Standards, Inspections, Marketing Practices), Department of Agriculture

PART 51—FRESH FRUITS, VEGETABLES AND OTHER PRODUCTS (INSPECTION, CERTIFICATION AND STANDARDS)

SUBPART—UNITED STATES STANDARDS FOR SPINACH FOR PROCESSING [1]

On April 19, 1956, a notice of proposed rule making was published in the FEDERAL REGISTER (21 F. R. 2569) regarding a proposed revision of United States Standards for Spinach for Processing.

After consideration of all relevant matters presented, including the proposal set forth in the aforesaid notice, the following United States Standards for Spinach for Processing are hereby promulgated pursuant to the authority contained in the Agricultural Marketing Act of 1946 (60 Stat. 1087 et seq., as amended; 7 U. S. C. 1621 et seq.).

GRADES

Sec.
51.2696 U. S. No. 1.
51.2697 U. S. No. 2.

UNCLASSIFIED

51.2698 Unclassified.

DEFINITIONS

51.2699 Fairly fresh.
51.2700 Damage.
51.2701 Small weeds.

AUTHORITY: §§ 51.2696 to 51.2701 issued under sec. 205, 60 Stat. 1090, as amended; 7 U. S. C. 1624.

GRADES

§ 51.2696 *U. S. No. 1.* "U. S. No. 1" consists of spinach which is fairly fresh and free from decay, mildew, grass, weeds, wood, muck chips or other foreign material, roots, and worms, and which is free from damage caused by discoloration, seedstems, seedbuds, coarse stalks and stems, other disease, other insects, spray residue, adhering dirt, or mechanical or other means.

(a) Not more than 25 percent, by weight, of the spinach in any lot may consist of leaf stems.

(b) In order to allow for variations incident to proper handling, the following tolerances shall be permitted in a 100 ounce sample:

(1) For decay, mildew, grass, small weeds, and leaves which are damaged by discoloration, not more than a total of 20 pieces: *Provided*, That not more than three-fourths of this amount, or 15 pieces, shall be permitted for decay, grass and small weeds;

(2) For wood, muck chips, or other foreign material over one-half inch in length, not more than 2 pieces; and

(3) For other defects, including foreign material not over one-half inch in length, not more than 5 ounces.

None of the foregoing tolerances shall apply to worms.

§ 51.2697 *U. S. No. 2.* "U. S. No. 2" consists of spinach which meets all the requirements of U. S. No. 1 grade except for the increased tolerances specified in this section.

(a) In order to allow for variations incident to proper handling, the following tolerances shall be permitted in a 100 ounce sample:

(1) For decay, mildew, grass, small weeds, and leaves which are damaged by discoloration, not more than a total of 40 pieces;

(2) For wood, muck chips, or other foreign material over one-half inch in length, not more than 3 pieces; and,

(3) For other defects, including foreign material not over one-half inch in length, not more than 10 ounces.

None of the foregoing tolerances shall apply to worms.

UNCLASSIFIED

§ 51.2698 *Unclassified.* "Unclassified" consists of spinach which has not been classified in accordance with either of the foregoing grades. The term "Unclassified" is not a grade within the meaning of these standards, but is provided as a designation to show that no grade has been applied to the lot.

DEFINITIONS

§ 51.2699 *Fairly fresh.* "Fairly fresh" means that the spinach is not badly wilted.

§ 51.2700 *Damage.* "Damage" means any defect which materially affects the appearance, or the processing or edible quality of the spinach. Any one of the following defects, or any combination of defects the seriousness of which exceeds the maximum allowed for any one defect, shall be considered as damage:

(a) Discoloration of leaf blades when the appearance or processing quality is materially affected by brown or yellow discoloration, except that heart leaves shall not be considered as damaged when showing a normal yellowish cast;

(b) Discoloration of stalks and stems when the appearance or processing quality is materially affected by brownish or blackish discoloration or when the stalk or stem shows more than a tinge of pink or red color;

(c) Seedstems when seedbuds have formed and are plainly visible;

(d) Loose seedbuds when more than one-half inch in length;

(e) Coarse stalks and stems when the leafstems or central stalks are tough, or fibrous; and,

(f) Dirt or spray residue when it cannot be removed in the normal commercial washing process.

§ 51.2701 *Small weeds.* "Small weeds" means weeds which are not over 4 inches in length.

The United States Standards for Spinach for Processing contained in this subpart shall become effective 30 days after publication hereof in the FEDERAL REGISTER, and will thereupon supersede the United States Standards for Spinach for Canning which have been in effect since April 10, 1931.

Dated: June 6, 1956.

[SEAL] ROY W. LENNARTSON,
*Deputy Administrator,*
*Marketing Services.*

[F. R. Doc. 56-4556; Filed, June 8, 1956; 8:50 a. m.]

[1] Packing of the product in conformity with the requirements of these standards shall not excuse failure to comply with the provisions of the Federal Food, Drug, and Cosmetic Act.

## Chapter VII—Commodity Stabilization Service (Farm Marketing Quotas and Acreage Allotments), Department of Agriculture

PART 717—HOLDING OF REFERENDA ON MARKETING QUOTAS

SUBPART—REGULATIONS GOVERNING THE HOLDING OF REFERENDA ON MARKETING QUOTAS

*Basis and purpose.* The regulations contained in §§ 717.1 to 717.14, each inclusive, are issued pursuant to the Agricultural Adjustment Act of 1938, as amended, and govern the holding of referenda on marketing quotas.

The purpose of these revised regulations is to incorporate amendments approved and published since the last general revision was approved on May 27, 1954, and published in the FEDERAL REGISTER of June 2, 1954 (19 F. R. 3211), to define the terms "engaged in production" and "State administrative officer," to revise and clarify eligibility requirements and procedures for voting, including voting by mail, to revise the procedure for giving notice of referenda, and to revise procedure for certifying the results of a referendum on forms MQ–7 and MQ–8.

Prior to preparing these regulations public notice (21 F. R. 1604) of the Secretary's intention to formulate and issue the regulations was given in accordance with the Administrative Procedure Act (60 Stat. 237). The data, views, and recommendations submitted by persons interested in the regulations pursuant to such notice have been duly considered within the limits permitted by the Agricultural Adjustment Act of 1938, as amended. Sections 717.1 to 717.14 each inclusive are revised as follows:

Sec.
717.1 Definitions.
717.2 Agencies through which a referendum shall be conducted.
717.3 Voting eligibility.
717.4 Place for balloting.
717.5 Time of voting.
717.6 Notice of referendum.
717.7 Manner of voting.
717.8 Local arrangements for holding the referendum.
717.9 Issuing ballots to voters.
717.10 Community referendum committee's canvass of ballots and record of results of the referendum.
717.11 County committee's canvass of ballots and record of results of the referendum.
717.12 State committee's record of the result of the referendum.
717.13 Results of referendum.
717.14 Applicability of regulations to Puerto Rico.

AUTHORITY: §§ 717.1 to 717.14 issued under sec. 375, 52 Stat. 66, as amended; 7 U. S. C. 1375.

§ 717.1 *Definitions.* As used in the regulations in this part and in all forms and documents in connection therewith, unless the context or subject matter otherwise requires, the following terms shall have the following meanings:

(a) *Act.* The Agricultural Adjustment Act of 1938 and any amendments or supplements thereto.

(b) *Deputy Administrator.* The Deputy or Acting Deputy Administrator for Production Adjustment, Commodity Stabilization Service, United States Department of Agriculture.

(c) *Secretary.* The Secretary of Agriculture of the United States or any officer or employee of the Department to whom authority has been delegated, or to whom authority may hereinafter be delegated, to act in his stead.

(d) *State committee.* The group of persons designated within any State to act as the Agricultural Stabilization and Conservation State Committee.

(e) *County committee.* The group of persons elected within a county as the county committee pursuant to the regulations governing the selection and functions of the Agricultural Stabilization and Conservation county and community committees.

(f) *Person.* An individual, partnership, association, corporation, estate, trust, or other business enterprise or legal entity, and wherever applicable, a State, political subdivision of a State, the Federal Government, or any agency thereof.

(g) *County Office Manager.* The person employed by the county committee to execute the policies of the county committee and be responsible for the day-to-day operations of the Agricultural Stabilization and Conservation county office, or the person acting in such capacity.

(h) *Engaged in production.* The term "engaged in production" shall include planting a crop even though the crop is not harvested, if such failure to harvest is not caused by the neglect of the farmer.

(i) *State Administrative Officer.* The person employed by the State committee to execute the policies of the State committee and be responsible for the day-to-day operations of the Agricultural Stabilization and Conservation State office, or the person acting in such capacity.

§ 717.2 *Agencies through which a referendum shall be conducted—*(a) *Utilization of existing agencies.* The Deputy Administrator shall be in charge of and responsible for conducting each referendum on marketing quotas for any commodity required by the act. Each State committee shall be in charge of and responsible for conducting such referendum in its State. Each county committee shall be responsible for the proper holding of such referendum in its county. It shall be the duty of the Deputy Administrator and of each committee to conduct each referendum by secret ballot in a fair, unbiased, and impartial manner in accordance with the regulations in this part subject however, to the provisions hereof with respect to challenged ballots and ballots cast by mail.

(b) *Community referendum committees where one referendum is to be conducted.* In each county with 100 or more farms on which there are producers who are eligible to vote in the referendum, the county committee shall designate a community referendum committee for each community or neighborhood in the county in which there are producers who are eligible to vote in the referendum. Each referendum committee shall consist of three members and one alternate chosen from among the farmers who reside in the community or neighborhood and who are eligible to vote in the referendum. The county committee shall name one member of the community referendum committee as chairman and another member thereof as vice chairman. The vice chairman shall act as the chairman in the event of the absence or incapacity of the chairman and the alternate shall serve on the committee in the place of any regular member who cannot serve. The community referendum committee shall be responsible for the proper holding of the referendum in its community or neighborhood in a fair, unbiased, and impartial manner in accordance with the regulations in this part. In counties with less than 100 farms on which there are producers who are eligible to vote in the referendum, the county shall be considered as one community for the purpose of the referendum and the county committee shall perform, in addition to its other duties, the duties of the community referendum committee unless, for any such county, the county committee and the State committee determine that one or more community referendum committees are necessary to the county for the proper holding of the referendum.

(c) *Community referendum committees where two or more referendums are to be conducted.* Where two or more referendums are to be held in the county on the same day, the provisions of paragraph (b) of this section shall be applicable except that (1) the total number of farms on which there are producers eligible to vote in any one or more of such referendums shall be used to determine whether there are 100 or more farms on which there are producers who are eligible to vote in the referendums, and (2) each community referendum committee shall consist of three members and one alternate chosen from among the farmers who reside in the community or neighborhood and who are eligible to vote in any of such referendums.

§ 717.3 *Voting eligibility—*(a) *Special eligibility requirements with respect to particular commodities—*(1) *Upland cotton.* Farmers eligible to vote in a referendum with respect to upland cotton shall be those farmers who were engaged in the production of upland cotton in the calendar year in which the referendum is held, as owner-operator, cash tenant, standing rent or fixed rent tenant, landlord of a share tenant, share tenant, or sharecropper. A landlord of a standing rent, cash rent, or fixed rent tenant shall not be eligible. Any farmer whose only cotton production in such year consisted of extra long staple cotton shall not be eligible to vote in the upland cotton referendum, but, if otherwise eligible, may vote in the extra long staple cotton referendum.

(2) *Extra long staple cotton.* Farmers eligible to vote in a referendum with respect to extra long staple cotton shall be those farmers who were engaged in the production of extra long staple cotton in the calendar year in which the referendum is held, as owner-operator, cash tenant, standing rent or fixed rent tenant, landlord of a share tenant, share tenant, or sharecropper. A landlord of a standing rent, cash rent, or fixed rent tenant shall not be eligible. Any farmer whose only cotton production in such year consisted of upland cotton shall not be eligible to vote in an extra long staple cotton referendum, but, if otherwise eligible, may vote in the upland cotton referendum.

(3) *Tobacco.* Farmers eligible to vote in a referendum with respect to a particular kind of tobacco will be those farmers who were engaged in the production of the crop of the kind of tobacco with respect to which the referendum is held which is harvested immediately prior to the referendum, as owner-operator, cash tenant, standing rent or fixed rent tenant, landlord of a share tenant, share tenant, or sharecropper. A landlord of a standing rent, cash rent, or fixed rent tenant shall not be eligible.

(4) *Wheat.* Farmers who will be engaged in the production of wheat for harvest in the calendar year in which the marketing year with respect to which the referendum is held begins on a farm located in an area not designated at the time of the referendum as being outside the commercial wheat-producing area for the marketing year with respect to which the referendum is held and who intends to harvest in any manner in excess of fifteen acres of wheat for grain on the farm and who is entitled to share in the proceeds of such wheat crop as owner-operator, cash tenant, standing rent or fixed rent tenant, landlord of a share tenant, share tenant, or sharecropper, shall be eligible to vote in a referendum with respect to wheat. A landlord of a standing rent, cash rent, or fixed rent tenant shall not be eligible.

(5) *Rice.* Farmers eligible to vote in a referendum with respect to rice will be those farmers who, in the continental United States and with respect to the crop of rice harvested immediately preceding the date of the referendum, engaged in the production of irrigated rice or in the production of nonirrigated rice on a farm on which more than three acres of nonirrigated rice were planted, as owner-operator, cash tenant, standing rent or fixed rent tenant, landlord of a share tenant, share tenant (including an irrigation company furnishing water for a share of the crop), or sharecropper. A landlord of a standing rent, cash rent, or fixed rent tenant shall not be eligible.

(6) *Peanuts.* Farmers eligible to vote in a referendum with respect to peanuts will be those farmers who engaged in

the production of peanuts in the calendar year in which the referendum is held, as owner-operator, cash tenant, standing rent or fixed rent tenant, landlord of a share tenant, share tenant, or sharecropper, on a farm on which the picked and threshed acreage of peanuts (i. e. peanuts harvested for nuts) in such year is more than one acre. A landlord of a standing rent, cash rent, or fixed rent tenant shall not be eligible.

(b) *General eligibility requirements which apply to referenda on any commodity.* (1) A person as defined in § 717.1 (f) may qualify as an eligible voter by meeting the eligibility requirements, but no such person shall be entitled to more than one vote regardless of the number of farms in which the person is interested or the number of communities, counties, or States in which are located farms in which the person is interested: *Provided, however,* That the individual members of a qualified partnership shall each have one vote but the partnership as such shall not have a vote and an individual who qualifies as an eligible voter by reason of his separate farming operations will be entitled to one vote even though he is interested in an organization such as (but not limited to) a corporation which is also eligible as a voter and entitled to one vote.

(2) Where a group of several persons, such as husband, wife, and children, have participated or will participate in the production of a commodity under the same lease or cropping agreement only the person or persons who signed or entered into the lease or cropping agreement shall be eligible to vote. In the event two or more persons have produced or will produce a commodity as joint tenants, tenants in common, or owners of community property, each such person shall be entitled to one vote if otherwise qualified.

(3) Subject to the provisions of § 717.7 (c) no farmer shall be eligible to vote in any community other than the community in which he resides at the time of the referendum, except that any farmer who will not vote in such community may vote at the polling place in the community in which he was engaged, or will be engaged, in the production of the commodity which will qualify him as a voter.

(c) *Register of eligible voters.* The county committee shall cause to be prepared on form MQ–4 a register of eligible voters for each community or neighborhood in the county. The register shall contain, insofar as can be ascertained prior to the holding of the referendum, the names and addresses of all persons shown on the records of the county committee or known to it as persons eligible to vote in the referendum in the community or neighborhood. Each register of eligible voters shall be furnished by the county office manager to the chairman (or, in his absence, the vice chairman) of the appropriate community referendum committee prior to the time the polls in the county are opened for the acceptance of ballots. Any person who, on the basis of the eligibility requirements set out in paragraph (b) of this section, believes he is eligible to vote in a referendum should notify the county committee of the county in which he intends to vote and is eligible to vote, and request that his name be entered on the register of eligible voters, however, a person on the register may be challenged by the community referendum committee as provided in § 717.7 (d) (3), and a ballot may be issued to a person not on the register as provided in § 717.9.

§ 717.4 *Place for balloting.* The county committee shall designate at least one place for balloting in each community or neighborhood for which a community referendum committee is designated. The polling place shall be one well known to and readily accessible to the persons in the community or neighborhood and shall be equipped and arranged so that each voter can mark and cast his ballot in secret and without coercion, duress, or interference of any sort whatsoever.

§ 717.5 *Time of voting.* There shall be no voting except on the day fixed for the holding of the referendum (except as provided in § 717.7 (c) in the case of voting by mail) and the day fixed for the holding of the referendum shall be the same in all neighborhoods, communities, counties, and States. The date for holding the referendum shall be that determined by the Secretary in accordance with the provisions of law applicable thereto and stated in the notice of the referendum prescribed by him. The polls shall be opened at 8 o'clock a. m. local time, on the date fixed for holding the referendum. The polls shall be closed at 7 o'clock p. m., local time, or such later hour as is fixed by the State committee in order to afford a full and fair opportunity to producers to vote, on the date for holding the referendum.

§ 717.6 *Notice of referendum*—(a) *Posting a notice.* The county committee shall give public notice in each community or neighborhood of the time and place for balloting in the referendum by having posted a notice, on the form prescribed by the Secretary for use in the referendum, at one or more places open to the public within each community or neighborhood at least 5 days in advance of the date of the referendum. The notice shall contain information concerning the commodity and marketing year or years or crops for which the referendum is to be held, a summary of the rules governing the eligibility to vote, the location of the polling places in the community or neighborhood, the date of the referendum, and the hours when the polls will be opened and closed.

(b) *Use of agencies of public information.* The county committee and community referendum committees will utilize to the extent practicable (without advertising expense) all available agencies of public information, including newspapers, radio, and other means, to give persons in the county full and accurate public notice of the day and hours of voting, the location of polling places, and the rules governing eligibility to vote. Such notice should be given as soon as practicable after the arrangements for holding the referendum in the county have been made.

§ 717.7 *Manner of voting*—(a) *Secret ballot.* The voting in the referendum shall be by secret ballot. Each voter shall, at the time he is handed the form on which to cast his ballot, be instructed to mark his ballot form so as to indicate clearly how he votes and in such manner that no one else shall see how he votes and then to fold his ballot and place it in the ballot box without allowing anyone else to see how he voted. A suitable place where each voter may mark and cast his ballot in secret and without coercion, duress, or interference of any sort whatever shall be provided in each polling place. Every unchallenged ballot shall be placed in the ballot box by the person who voted it. The fact that a voter fails to fold a ballot placed in the ballot box shall not invalidate it. It shall be the duty of each community referendum committee to see that no device of any sort whatever is used whereby any voter's ballot may be identified except as provided in the regulations in this part in the case of a challenged ballot or a ballot cast by mail.

(b) *Voting by proxy prohibited.* There shall be no voting by proxy or agent, or in any manner except by the eligible voter personally depositing in the ballot box his ballot as marked by him (except as provided herein in the case of a ballot cast by mail), but a duly authorzied officer of a corporation, association, or other legal entity, may cast its vote.

(c) *Voting by mail.* Any person who will not be present on the day of the referendum in the county in which he is eligible to vote may obtain in person as early as 5 days prior to the date of the referendum, or earlier if ballots are available, one ballot from an ASC State or county office conveniently situated for him or from the appropriate CSS Commodity Division, Department of Agriculture, Washington, D. C., and cast his ballot by mail. The office so issuing the ballot form shall endorse on the reverse side thereof a statement in substantially the following form identifying the place in which it was issued and the county to which it will be mailed, initialed and dated by the person issuing such form:

Issued in ---------- County, ----------, State, or by ---------- ASC State office or by ---------- Division, CSS, Washington, D. C., for use in ---------- County, ----------, State.

The issuing office shall keep a register in duplicate showing for each ballot form so issued by it to be voted by mail the name and address to whom issued, the date of issuance, and the county and State to which the ballot is to be mailed, and the name and title of the person who issued the ballot. The person to whom the ballot is issued shall mark the ballot so as to indicate clearly how he votes, sign his name and enter his address thereon, and mail it in a sealed envelope, postage paid, marked "Absentee Ballot," to the county committee for the county in which he is eligible to vote. All ballots voted by mail must, in order to be accepted, reach the county office for the county in which the voter is eligible to vote by not later than the hour for closing the polls in the county on the day of the referendum. Any person whose religious belief forbids him from voting on the day of the referendum may secure one ballot form and cast his vote at the office of the county committee for the county in which he is eligible to vote at any time within 5 days prior to the date of the referendum. Each ballot so cast shall be placed in a sealed envelope and designated and handled as an absentee ballot. For the purpose of these regulations such manner of voting shall be considered to be voting by mail.

(d) *Challenged ballots.* The community referendum committee or any member thereof shall challenge the eligibility of any person to vote in the referendum where (1) the name of the person does not appear on the register of eligible voters and the community referendum committee or any member thereof is unable to determine that the person is eligible to vote in the referendum in its community or neighborhood, (2) the community referendum committee or any member thereof is unable to determine that he has not previously voted in the referendum in another community or neighborhood in the same or another county, in person or by mail, or (3) the community referendum committee or any member thereof is not certain that the person is eligible to vote. In every case where the eligibility of the voter is challenged, his ballot form, after being marked by the challenged person so as to show how he votes but in such manner that no one else sees how he votes, shall be folded and placed by him (or by a member of the committee, if he refuses) in an envelope, which shall then be sealed and identified with his name and address, the word "Challenged," and a statement of the reason for the challenge, and shall then be placed in the ballot box. The county committee shall make an investigation in each case of controversy or dispute regarding the eligibility of a voter to vote in the referendum. In each case of a challenged ballot the eligibility of the person to vote in the referendum shall be determined by the county committee as soon as may be possible after the polls are closed and before the time for forwarding to the State committee the county summary of ballots on form MQ–7. If it is determined that the person whose vote was challenged is eligible to vote, the sealed envelope containing the ballot shall be placed with the challenged ballot of every other person found to be eligible to vote until all challenged ballots have been passed upon by the county committee. If it is not determined that the person whose vote was challenged is eligible, the sealed envelope shall be marked "Not eligible" and signed by a member of the county committee and shall not be opened. When all of the challenged ballots have been passed upon by the county committee, the challenged ballots which were cast by eligible voters shall be opened and tabulated on the county summary of ballots, but no disclosure shall be made as to how any particular person voted.

(e) *Ballot box.* Each polling place shall be furnished with a suitable ballot box. Any container of sufficient size so arranged that no ballot can be seen or removed without breaking seals on the container will be suitable. When strip adhesive paper or corresponding seals are used on the ballot box, such seals shall be signed or initialed by the chairman or a member of the community referendum committee so that breaking or replacing the seal will so destroy or affect the identifying marks as to show that the seal has been tampered with.

§ 717.8 *Local arrangements for holding the referendum.* The county committee shall see to it that all arrangements for the proper holding of the referendum in accordance with the regulations in this part have been completed prior to the date of the referendum. The county committee shall instruct each community referendum committee concerning its duties and see to it that each member of the committee understands his duties and the duties of the committee in all respects, with particular emphasis as to (a) issuing ballot forms, (b) challenged ballots, (c) recording votes, (d) tabulating ballots, and (e) certifying results of the referendum in the community or neighborhood. The county office manager shall allot to each community referendum committee an adequate supply of ballot forms, and prior to the time the polls in the county are opened for the acceptance of ballots deliver the ballot forms and forms MQ–6, the community summary of ballots, to each chairman of the several community referendum committees.

§ 717.9 *Issuing ballots to voters.* The community referendum committee, or at least one member thereof in case there are two or more polling places in the community, shall open the polling place for the issuance of ballot forms and the casting of ballots at the time designated by the county committee and shall thereafter, until the time when the polls are required to be closed and the casting of ballots discontinued, issue a ballot to each person who is eligible to vote and applies for a ballot and to each person who claims to be eligible to vote and insists upon voting even though his eligibility to vote is challenged by a member of the committee. The name and address of each person to whom a ballot is issued shall, if he is not already listed on the register of eligible voters, be recorded on such register prior to the time the ballot form is issued to him. The community referendum committeeman who issued the ballot form shall at the same time enter in the column headed "Ballot Cast" of the register of eligible voters opposite the name and address of the voter a record of the issuance of the ballot. When the eligibility of the voter is not challenged, the record shall be made by entering in the column headed "Ballot Cast" the letter "X" and the initials of the community referendum committeeman. When the eligibility of the voter is challenged, the record shall be made by entering in the column headed "Ballot Cast" the letter "C" and the initials of the community referendum committeeman. Ballot forms shall be issued and ballots placed in the ballot box while at least one member serving on the community referendum committee is physically present in the polling place and in position to see each ballot form as it is issued and each ballot as it is placed in the ballot box.

§ 717.10 *Community referendum committee's canvass of ballots and records of results of the referendum*—(a) *Canvass of ballots.* Immediately after the polls are closed, the community referendum committee shall open the ballot box and canvass the ballots cast. The canvass of the ballots shall be kept open to the public. A ballot shall be considered as a spoiled ballot if it is mutilated or marked in such a way that it is not possible to determine with certainty how the ballot was intended to be counted on a particular question. The envelopes containing the challenged ballots shall not be opened. The total number of ballots issued as shown on the register of eligible voters shall be determined and the total number of ballots cast, including the spoiled and challenged ballots, shall be determined. The number of ballots cast in favor of and the number of ballots cast in opposition to the marketing quotas for which the referendum was held shall be determined. The spoiled ballots and challenged ballots shall not be considered in favor of or against the marketing quotas. If any member of the community referendum committee should happen to see or learn how any person besides himself voted, whether or not the ballot was challenged, spoiled, or otherwise, he shall not disclose such knowledge to a fellow committeeman or any other person except in an investigation conducted under the regulations in this part.

(b) *Record of results of the referendum.* The community referendum committee shall notify the county committee by telephone, telegraph, messenger, or in person of the preliminary count of the votes on each question and of the number of spoiled and challenged ballots, as soon as may be possible. All the spoiled ballots shall be placed in an envelope and sealed and marked with the initials of the chairman (or vice chairman) of the community referendum committee and the designation "Spoiled Ballots" followed by the number of spoiled ballots and the names of the community or neighborhood, the county, and the State. The community referendum committee shall execute the certification as to the accuracy of the register of ballots cast on form MQ–4. The community referendum committee shall then prepare and execute the community summary of ballots on form MQ–6 and post one copy thereof, as soon as it is executed, at a conspicuous place at the polling place, so that it will remain posted and accessible to the public for at least three calendar days after the holding of the referendum. The community referendum committee shall seal the voted ballots, including those challenged and spoiled, the register of eligible voters and ballots cast, and the community summary of ballots, in one or more envelopes appropriately identified by the names of the community or neighborhood, the county, and the State, and the nature of the referendum and the date on which it was held, and deliver them to the county committee not later than 9 o'clock a. m.,

local time, on the second calendar day next succeeding the date of the referendum, together with the unused ballot and other forms. The chairman (or vice chairman) of the community referendum committee shall be responsible for the safe delivery of such reports, ballots, and forms to the county committee.

§ 717.11 *County committee's canvass of ballots and record of results of the referendum*—(a) *Receiving and tabulating the results of the referendum.* The county committee shall open and canvass the ballots received by mail after the closing of the polls and determine the eligibility of each voter. If any person voting by mail is found to be ineligible to vote or the ballot is so mutilated or marked that it is not possible to determine with certainty how the person intended to vote, such ballot shall not be counted as for or against any particular question in the referendum and shall be tabulated on the county summary of ballots as a spoiled ballot. The county committee shall meet and pass upon the challenged ballots as soon as may be reasonably possible after the challenged ballots are received from the community referendum committees but not later than four days after the day of the referendum. The results of the referendum in each community and neighborhood shall be reviewed and summarized as soon as may be reasonably possible after the records, ballots, and forms are received from the several community referendum committees. Every meeting of the county committee for the purpose of canvassing the ballots cast and reviewing and tabulating the results of the referendum shall be open to the public. No member of the county committee who learns how any person besides himself voted, whether the ballot was received by mail, challenged, spoiled, or otherwise, shall disclose such knowledge to any fellow committeeman or other person except in an investigation conducted under the regulations in this part.

(b) *Record of the results of the referendum.* The county committee shall notify the State committee by telephone, telegraph, or messenger (who may be a member of the county committee) as to the preliminary count of the votes on each question and of the number of challenged ballots by the several community referendum committees as soon as possible. The county committee shall, as soon as may be reasonably possible, but in no event later than four calendar days after the date of the referendum, have prepared and certified by the county office manager the county summary of ballots on form MQ–7. Form MQ–7 shall be prepared and certified in quadruplicate, two copies of which shall be sent forthwith to the State committee, one copy posted for 30 calendar days in a conspicuous place accessible to the public in or near the office of the county committee, and one copy filed in the office of the county committee and kept available for public inspection. One copy of each community summary on form MQ–6 shall likewise be posted for 30 calendar days in a conspicuous place accessible to the public in or near the office of the county committee.

(c) *Disposition of ballots and records.* The county committee shall seal the voted ballots, challenged ballots found to be ineligible, spoiled ballots, register sheets, and community summaries for the county in one or more envelopes or packages, plainly marked with the identification of the referendum, the date, and the names of the county and State, and place them under lock and key in a safe place under the custody of the secretary of the county committee for a period of 60 calendar days after the date of the referendum. If no notice to the contrary is received by the end of such time, and after the ballots and other records have been examined by a representative of the State committee, the voted ballots and challenged ballots shall be destroyed but the registers and community and county summary sheets on forms MQ–4, 5, and 7 shall be filed for a period of five years in the office of the county committee.

(d) *Investigations as to the correctness of the summary of the referendum.* The county committee shall make an investigation in each case of a dispute or challenge regarding the correctness of the summary of the referendum in a community or neighborhood. No dispute or challenge shall be investigated by the county committee unless it is brought to its attention within three calendar days after the date on which the referendum was held. The county committee shall promptly decide the dispute or the challenge and report its findings to the State committee within five calendar days after the holding of the referendum and send by registered mail or deliver in person to the office of the State committee all voted ballots, register forms, and community summary sheets involved in the dispute or challenge.

§ 717.12 *State committee's record of the result of the referendum.* The State committee for each State shall notify the Deputy Administrator by telegraph or telephone as to the preliminary count of the votes in the State as soon as the preliminary results of the referendum are made known to the State committee. The county summaries of ballots on forms MQ–7 shall be summarized on the State tabulation of ballots on form MQ–8 as soon as possible but in no event later than seven calendar days next succeeding the date of the referendum, unless there is a dispute or challenge regarding the correctness of the summary for any county, in which case the State committee shall complete its investigation thereof and prepare the State tabulation accordingly within fourteen calendar days next succeeding the date of the referendum. The State summary shall be prepared in triplicate and certified to by the State administrative officer. The original and one copy of the State summary shall be forwarded via airmail special delivery to the Deputy Administrator. One copy of the State summary shall be filed for a period of five years in the office of the State committee available for public inspection.

§ 717.13 *Results of referendum*—(a) *Proclamation of results.* The final and official tabulation of the votes cast in the referendum will be made by the Deputy Administrator and reported to the Secretary and the result of the referendum will be publicly proclaimed by him. The State summaries on forms MQ–8 and related papers shall be permanently filed with such tabulation and shall remain available for public inspection in the Department of Agriculture.

(b) *Unofficial announcements of results.* Each county committee is authorized to give out unofficial reports of the total "Yes" and "No" votes in its county to the public, press and other inquirers. Each State committee is authorized to release to the press and other inquirers the unofficial results of the referendum in its State by counties as rapidly as the votes in the various counties are reported to it.

(c) *Investigations.* If the Deputy Administrator or the Secretary deems it necessary, the report of any community referendum committee, county committee, or State committee shall be reexamined and checked by such persons or agents as may be designated.

§ 717.14 *Applicability of regulations to Puerto Rico.* The Agricultural Stabilization and Conservation Caribbean Area Committee shall be in charge of and responsible for conducting in the Commonwealth of Puerto Rico each referendum on marketing quotas for any commodity required by the Act. Insofar as applicable the ASC Caribbean Area Committee shall perform all the duties and assume all the responsibilities otherwise required of State and county committees as provided in the regulations in this part, except that (a) the Director, Agricultural Stabilization and Conservation Caribbean Area Office shall nominate for appointment the members and alternates to serve on community referendum committees and shall establish the boundaries of referendum communities or neighborhoods in such a manner that polling places therein will be conveniently located for the farmers eligible to vote in the referendum, and (b) following the canvass of the ballots as provided in § 717.10 the community referendum committee shall report the results of the referendum to the ASC Caribbean Area Committee.

Issued at Washington, D. C., this 5th day of June 1956.

[SEAL] TRUE D. MORSE,
*Acting Secretary of Agriculture.*

## Chapter IX—Agricultural Marketing Service (Marketing Agreements and Orders), Department of Agriculture

[Valencia Orange Reg. 61, Amdt. 1]

PART 922—VALENCIA ORANGES GROWN IN ARIZONA AND DESIGNATED PART OF CALIFORNIA

LIMITATION OF HANDLING

*Findings.* 1. Pursuant to Order No. 22 (7 CFR Part 922), regulating the handling of Valencia oranges grown in Arizona and designated part of California, effective March 31, 1954, under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and upon the basis of the recommendation and information submitted by the Valencia Orange Administrative Committee, established under the said order, and upon other available information, it is hereby found that the limitation of handling of such Valencia oranges, as hereinafter provided, will tend to effectuate the declared policy of the act.

2. It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this amendment until 30 days after publication thereof in the FEDERAL REGISTER (60 Stat. 237; 5 U. S. C. 1001 et seq.) because the time intervening between the date when information upon which this amendment is based became available and the time when this amendment must become effective in order to effectuate the declared policy of the act is insufficient, and this amendment relieves restriction on the handling of Valencia oranges grown in District 1 or in District 3.

*Order, as amended.* The provisions in paragraph (b) (1) of § 922.361 (Valencia Orange Regulation 61; 21 F. R. 2038) are hereby amended to read as follows:

(b) *Order.* (1) During the period beginning at 12:01 a. m., P. s. t., June 10, 1956, and ending at 12:01 a. m., P. s. t., February 3, 1957, no handler shall handle any Valencia oranges grown in District 1 or in District 3 which are smaller than 2.31 inches in diameter, which shall be the largest measurement at a right angle to a straight line running from the stem to the blossom end of the fruit, except that a tolerance of 5 percent, by count, of oranges smaller than such minimum diameter shall be permitted in any type of container: *Provided,* That in addition to such tolerance, each handler may, during each calendar week of the aforesaid period, handle a quantity of such oranges which are smaller than 2.31 inches in diameter but not smaller than 2.20 inches in diameter, except that a tolerance of 5 percent, by count, of oranges smaller than 2.20 inches in diameter shall be permitted in any container of oranges which are smaller than 2.31 inches in diameter, if such quantity does not exceed 5 percent of the total quantity of Valencia oranges handled by such handler during such week.

(2) As used in this section, "handle," "handler," "District 1," and "District 3" shall have the same meaning as when used in said order.

*Effective time.* The provisions of this amendment shall become effective at 12:01 a. m., P. s. t., June 10, 1956.

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. 608c)

Dated: June 6, 1956.

[SEAL] FLOYD F. HEDLUND,
*Acting Director, Fruit and Vegetable Division, Agricultural Marketing Service.*

[F. R. Doc. 56–4558; Filed, June 8, 1956; 8:51 a. m.]

[Valencia Orange Reg. 65, Amdt. 1]

PART 922—VALENCIA ORANGES GROWN IN ARIZONA AND DESIGNATED PART OF CALIFORNIA

LIMITATION OF HANDLING

*Findings.* 1. Pursuant to Order No. 22 (7 CFR Part 922), regulating the handling of Valencia oranges grown in Arizona and designated part of California, effective March 31, 1954, under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and upon the basis of the recommendation and information submitted by the Valencia Orange Administrative Committee, established under the said order, and upon other available information, it is hereby found that the limitation of handling of such Valencia oranges, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this amendment until 30 days after publication thereof in the FEDERAL REGISTER (60 Stat. 237; 5 U. S. C. 1001 et seq.) because the time intervening between the date when information upon which this amendment is based became available and the time when this amendment must become effective in order to effectuate the declared policy of the act is insufficient, and this amendment relieves restriction on the handling of Valencia oranges grown in District 2.

*Order, as amended.* The provisions in paragraph (b) (1) of § 922.365 (Valencia Orange Regulation 65; 21 F. R. 2717) are hereby amended to read as follows:

(b) *Order.* (1) During the period beginning at 12:01 a. m., P. s. t., June 10, 1956, and ending at 12:01 a. m., P. s. t., February 3, 1957, no handler shall handle any Valencia oranges grown in District 2 which are smaller than 2.31 inches in diameter, which shall be the largest measurement at a right angle to a straight line running from the stem to the blossom end of the fruit, except that a tolerance of 5 percent, by count, of oranges smaller than such minimum diameter shall be permitted in any type of container: *Provided,* That in addition to such tolerance, each handler may, during each calendar week of the aforesaid period, handle a quantity of such oranges which are smaller than 2.31 inches in diameter but not smaller than 2.20 inches in diameter, except that a tolerance of 5 percent, by count, of oranges smaller than 2.20 inches in diameter shall be permitted in any container of oranges which are smaller than 2.31 inches in diameter, if such quantity does not exceed 5 percent of the total quantity of Valencia oranges handled by such handler during such week.

(2) As used in this section, "handle," "handler," and "District 2" shall have the same meaning as when used in said order.

*Effective time.* The provisions of this amendment shall become effective at 12:01 a. m., P. s. t., June 10, 1956.

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. 608c)

Dated: June 6, 1956.

[SEAL] FLOYD F. HEDLUND,
*Acting Director, Fruit and Vegetable Division, Agricultural Marketing Service.*

[F. R. Doc. 56–4559; Filed, June 8, 1956; 8:51 a. m.]

[Valencia Orange Reg. 72]

PART 922—VALENCIA ORANGES GROWN IN ARIZONA AND DESIGNATED PART OF CALIFORNIA

LIMITATION OF HANDLING

§ 922.372 *Valencia Orange Regulation 72*—(a) *Findings.* (1) Pursuant to Order No. 22 (7 CFR Part 922), regulating the handling of Valencia oranges grown in Arizona and designated part of California, effective March 31, 1954, under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and upon the basis of the recommendations and information submitted by the Valencia Orange Administrative Committee, established under the said order, and upon other available information, it is hereby found that the limitation of handling of such Valencia oranges, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this section until 30 days after publication thereof in the FEDERAL REGISTER (60 Stat. 237; 5 U. S. C. 1001 et seq.) because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient, and a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective as hereinafter set forth. The Valencia Orange Administrative Committee held an open meeting on June 7, 1956, after giving due notice thereof, to consider supply and market conditions for Valencia oranges and the need for regulation; interested persons were afforded an opportunity to submit information and views at this meeting; the recommendation and supporting information for regulation during the period specified herein was promptly submitted to the Department after such meeting was held; the provisions of this section, including its effective time, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such Valencia oranges; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period herein specified; and compliance with this section will not require any special preparation on the part of persons subject thereto

which cannot be completed on or before the effective date hereof.

(b) *Order.* (1) The quantity of Valencia oranges grown in Arizona and designated part of California which may be handled during the period beginning at 12:01 a. m., P. s. t., June 10, 1956, and ending at 12:01 a. m., P. s. t., June 17, 1956, is hereby fixed as follows:

(i) District 1: Unlimited movement;

(ii) District 2: 877,800 cartons;

(iii) District 3: Unlimited movement.

(2) Valencia oranges handled pursuant to the provisions of this section shall be subject to any size restrictions applicable thereto which have heretofore been issued on the handling of such oranges and which are effective during the period specified herein.

(3) As used in this section, "handled," "handler," "District 1," "District 2," and "District 3," have the same meaning as when used in said order; and "carton" means the standard one-half orange, grapefruit or lemon box set forth as standard container number 58 in section 828.83, as amended, of the Agricultural Code of California.

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. 608c)

Dated: June 8, 1956.

[SEAL] FLOYD F. HEDLUND,
*Acting Director, Fruit and Vegetable Division, Agricultural Marketing Service.*

[Orange Reg. 299]

PART 933—ORANGES, GRAPEFRUIT, AND TANGERINES GROWN IN FLORIDA

LIMITATION OF SHIPMENTS

§ 933.797 *Orange Regulation 299*—(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 33, as amended (7 CFR Part 933), regulating the handling of oranges, grapefruit, and tangerines grown in the State of Florida, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and upon the basis of the recommendations of the committees established under the aforesaid amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of shipments of all Florida oranges, except Temple oranges, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this section until 30 days after publication thereof in the FEDERAL REGISTER (60 Stat. 237; 5 U. S. C. 1001 et seq.) because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient; a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective not later than June 11, 1956. Shipments of all oranges, except Temple oranges, grown in the State of Florida, are presently subject to regulation by grades and sizes, pursuant to the amended marketing agreement and order, and will so continue until June 11, 1956; the recommendation and supporting information for continued regulation subsequent to June 10, 1956, were promptly submitted to the Department after an open meeting of the Growers Administrative Committee on June 4, 1956; such meeting was held to consider recommendations for regulation, after giving due notice of such meeting, and interested persons were afforded an opportunity to submit their views at this meeting; the provisions of this section, including the effective time hereof, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such oranges; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period hereinafter set forth so as to provide for the continued regulation of the handling of all oranges, except Temple oranges, and compliance with this section will not require any special preparation on the part of the persons subject thereto which cannot be completed by the effective time hereof.

(b) *Order.* (1) During the period beginning at 12:01 a. m., e. s. t., June 11, 1956, and ending at 12:01 a. m., e. s. t., October 1, 1956, no handler shall ship:

(i) Any oranges, except Temple oranges, grown in the State of Florida, which do not grade at least U. S. No. 2 Russet;

(ii) Any oranges, except Temple oranges, grown in the State of Florida, which are of a size smaller than a size that will pack 324 oranges, packed in accordance with the requirements of a standard pack, in a standard 1⅗ bushel nailed box;

(2) As used in this section, the terms "handler," "ship," and "Growers Administrative Committee" shall each have the same meaning as when used in said amended marketing agreement and order; and the terms "U. S. No. 2 Russet," "standard pack," and "standard 1⅗ bushel nailed box" shall have the same meaning as when used in the United States Standards for Florida Oranges and Tangelos (§§ 51.1140 to 51.1186 of this title; 20 F. R. 7205).

Shipments of Temple oranges, grown in the State of Florida, are subject to the provisions of Orange Regulation 294 (§ 933.782, 21 F. R. 2039).

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. 608c)

Dated: June 6, 1956.

[SEAL] FLOYD F. HEDLUND,
*Acting Director, Fruit and Vegetable Division, Agricultural Marketing Service.*

[Grapefruit Reg. 246]

PART 933—ORANGES, GRAPEFRUIT, AND TANGERINES GROWN IN FLORIDA

LIMITATION OF SHIPMENTS

§ 933.798 *Grapefruit Regulation 246*—(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 33, as amended (7 CFR Part 933), regulating the handling of oranges, grapefruit, and tangerines grown in the State of Florida, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and upon the basis of the recommendations of the committees established under the aforesaid amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of shipments of grapefruit, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this section until 30 days after publication thereof in the FEDERAL REGISTER (60 Stat. 237; 5 U. S. C. 1001 et seq.) because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient; a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective not later than June 11, 1956. Shipments of grapefruit, grown in the State of Florida, are presently subject to regulation by grades and sizes, pursuant to the amended marketing agreement and order, and will so continue until June 11, 1956; the recommendation and supporting information for continued regulation subsequent to June 10, 1956, were promptly submitted to the Department after an open meeting of the Growers Administrative Committee on June 4, 1956; such meeting was held to consider recommendations for regulation, after giving due notice of such meeting, and interested persons were afforded an opportunity to submit their views at this meeting; the provisions of this section, including the effective time hereof, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such grapefruit; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period hereinafter set forth so as to provide for the continued regulation of the handling of grapefruit, and compliance with this section will not require any special preparation on the part of persons subject thereto which cannot be completed by the effective time hereof.

(b) *Order.* (1) During the period beginning at 12:01 a. m., e. s. t., June 11, 1956, and ending at 12:01 a. m., e. s. t., September 17, 1956, no handler shall ship:

(i) Any grapefruit, grown in the State of Florida, which are not mature and do not grade at least U. S. No. 2 Russet;

(ii) Any seeded grapefruit, grown in the State of Florida, which are of a size smaller than a size that will pack 80 grapefruit, packed in accordance with the requirements of a standard pack, in a standard nailed box; or

(iii) Any seedless grapefruit, grown in the State of Florida, which are of a size smaller than a size that will pack 112 grapefruit, packed in accordance with the requirements of a standard pack, in a standard nailed box.

(2) As used in this section, "handler," "ship," and "Growers Administrative Committee" shall have the same meaning as when used in said amended marketing agreement and order; the terms "U. S. No. 2 Russet," "standard pack," and "standard nailed box" shall have the same meaning as when used in the United States Standards for Florida Grapefruit (§§ 51.750 to 51.790 of this title); and the term "mature" shall have the same meaning as set forth in section 601.16 Florida Statutes, Chapters 26492 and 28090, known as the Florida Citrus Code of 1949, as supplemented by section 601.17 (Chapters 25149 and 28090) and also by section 601.18, as amended on June 2, 1955 (Chapter 29760).

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. 608c)

Dated: June 6, 1956.

[SEAL] FLOYD F. HEDLUND,
*Acting Director, Fruit and Vegetable Division, Agricultural Marketing Service.*

[Lemon Reg. 645]

PART 953—LEMONS GROWN IN CALIFORNIA AND ARIZONA

LIMITATION OF SHIPMENTS

§ 953.752 *Lemon Regulation 645*—(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 53, as amended (7 CFR Part 953; 20 F. R. 8451), regulating the handling of lemons grown in the State of California or in the State of Arizona, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and upon the basis of the recommendation and information submitted by the Lemon Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of the quantity of such lemons which may be handled, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this section until 30 days after publication thereof in the FEDERAL REGISTER (60 Stat. 237; 5 U. S. C. 1001 et seq.) because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient, and a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective as hereinafter set forth. Shipments of lemons, grown in the State of California or in the State of Arizona, are currently subject to regulation pursuant to said amended marketing agreement and order; the recommendation and supporting information for regulation during the period specified herein was promptly submitted to the Department after an open meeting of the Lemon Administrative Committee on June 6, 1956, such meeting was held, after giving due notice thereof to consider recommendations for regulation, and interested persons were afforded an opportunity to submit their views at this meeting; the provisions of this section, including its effective time, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such lemons; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period hereinafter specified; and compliance with this section will not require any special preparation on the part of persons subject thereto which cannot be completed by the effective time thereof.

(b) *Order.* (1) The quantity of lemons grown in the State of California or in the State of Arizona which may be handled during the period beginning at 12:01 a. m., P. s. t., June 10, 1956, and ending at 12:01 a. m., P. s. t., June 17, 1956, is hereby fixed as follows:

(i) District 1: Unlimited movement;

(ii) District 2: 511,500 cartons;

(iii) District 3: Unlimited movement.

(2) As used in this section, "handled," "District 1," "District 2," and "District 3" have the same meaning as when used in the said amended marketing agreement and order; and "carton" means the standard one-half orange, grapefruit or lemon box set forth as standard container number 58 in section 828.83, as amended, of the Agricultural Code of California.

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. 608c)

Dated: June 7, 1956.

[SEAL] FLOYD F. HEDLUND,
*Acting Director, Fruit and Vegetable Division, Agricultural Marketing Service.*

# PROPOSED RULE MAKING

## DEPARTMENT OF THE TREASURY

### Bureau of Customs

### [ 19 CFR Part 6 ]

[192-23.31]

AIR COMMERCE REGULATIONS

NOTICE OF PROPOSED DESIGNATION OF MILLER MUNICIPAL AIRPORT, MCALLEN, TEXAS, AS AN INTERNATIONAL AIRPORT

Notice is hereby given that, pursuant to authority contained in section 7 (b) of the Air Commerce Act of 1926, as amended (49 U. S. C., 177 (b)), it is proposed to designate the Miller Municipal Airport, McAllen, Texas, as an international airport (airport of entry) for civil aircraft and for merchandise carried thereon arriving from places outside the United States, as defined in section 9 (b) of said act (49 U. S. C., 179 (b)); and it is further proposed to amend the list of international airports in § 6.13 of the Customs regulations (19 CFR 6.13) by adding thereto the location and name of this airport.

This notice is published pursuant to section 4 of the Administrative Procedure Act (5 U. S. C. 1003). Data, views, or arguments with respect to the proposed designation of the above-mentioned airport as an international airport may be addressed to the Commissioner of Customs, Bureau of Customs, Washington 25, D. C., in writing. To assure consideration of such communications, they must be received in the Bureau of Customs not later than 20 days from the date of publication of this notice in the FEDERAL REGISTER.

[SEAL] RALPH KELLY,
*Commissioner of Customs.*

Approved: June 4, 1956.

DAVID W. KENDALL,
*Acting Secretary of the Treasury.*

## DEPARTMENT OF AGRICULTURE

### Agricultural Marketing Service

### [ 7 CFR Part 966 ]

[Docket No. AO 257-A1]

HANDLING OF MILK IN SHREVEPORT, LOUISIANA, MARKETING AREA

DECISION WITH RESPECT TO PROPOSED AMENDMENTS TO TENTATIVE MARKETING AGREEMENT AND TO ORDER

Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and the applicable rules of practice and procedure, as amended, governing proceedings to formulate marketing agreements and marketing orders (7 CFR Part 900), a public hearing was conducted at Shreveport, Louisiana, on December 12–13, 1955, pursuant to notice thereof which was published in the FEDERAL

REGISTER (20 F. R. 8336 and 8547), upon proposed amendments to the tentative marketing agreement and to the order, regulating the handling of milk in the Shreveport, Louisiana, marketing area.

Upon the basis of the evidence introduced at the hearing and the record thereof, the Deputy Administrator, Agricultural Marketing Service, on April 2, 1956, filed with the Hearing Clerk, United States Department of Agriculture, his recommended decision. Said decision containing notice of opportunity to file written exceptions thereto was published in the FEDERAL REGISTER on April 5, 1956 (21 F. R. 2184).

Within the period reserved therefor, interested parties filed exceptions to certain of the findings, conclusions and actions recommended by the Deputy Administrator. In arriving at the findings, conclusions, and regulatory provisions of this decision, each of such exceptions was carefully and fully considered in conjunction with the record evidence pertaining thereto. To the extent that findings, conclusions and actions decided upon herein are at variance with any of the exceptions, such exceptions are overruled.

To the extent that suggested findings and conclusions proposed by interested persons are inconsistent with the findings and conclusions contained herein, the specific or implied requests to make such findings and reach such conclusions are denied on the basis of the facts found and stated in connection with the conclusions herein set forth.

The material issues, findings and conclusions, and general findings of the recommended decision (21 F. R. 2184, Doc. 56–2515) are hereby approved and adopted as the issues, findings and conclusions, and general findings of this decision as if set forth in full herein, subject to the following modifications described with reference to Federal Register Doc. 56–2515, 21 F. R. 2184:

On page 2185, delete the last sentence in the first paragraph of column three and substitute therefor the following:

It was contended at the hearing and argued by producers and certain handlers in their exceptions that a handler whose plant is located at Monroe, Louisiana has a competitive advantage over Shreveport handlers in the procurement of milk and that the location adjustment provisions of the order were responsible for reducing the prices paid for milk by all distributors in the Monroe market.

The Monroe handler is subject to the order because of Class I sales in the Shreveport marketing area. The location adjustment of the order is applicable to all Class I milk disposed of from this plant. In November 1955, the prices paid by milk distributors located in Monroe were reduced in relation to the Shreveport price by approximately the amount of the location adjustment which is 19.25 cents per hundredweight. Proponents suggested that the order be amended to provide prices at a regulated plant located in Monroe equal to prices in Shreveport.

Any handler may pay producers more than the minimum prices established by the order. The order has no control over prices paid by unregulated plants. All plant operators in the Monroe area, therefore, are free to pay more than the minimum prices established by the Shreveport order for milk at a regulated plant located in Monroe. As a matter of fact, from the time that the order was promulgated through October 1955, the Monroe handler paid Class I prices equal to the Class I prices in Shreveport and other distributors paid similar prices.

The record evidence fails to support the deletion of location adjustments or to provide a basis for changing the rate of adjustment. This record fails to show that plants located outside of Shreveport have a competitive advantage in procuring milk for sale in the Shreveport market. The problem of location adjustments is not limited to the Monroe area but involves over-all price relationships at regulated plants wherever located.

For these reasons no changes in location adjustments should be made on the basis of this record.

*Determination of representative period.* The month of March 1956 is hereby determined to be the representative period for the purpose of ascertaining whether the issuance of the order amending the order, now in effect, regulating the handling of milk in the Shreveport, Louisiana marketing area, in the manner set forth below is approved or favored by producers who, during such period were engaged in the production of milk for sale in the marketing area specified in such marketing order.

*Marketing agreement and order, as amended.* Set forth below and made a part hereof are two documents entitled respectively, "Marketing Agreement Regulating the Handling of Milk in the Shreveport, Louisiana Marketing Area," and "Order Amending the Order, Regulating the Handling of Milk in the Shreveport, Louisiana Marketing Area," which have been decided upon as the detailed and appropriate means of effectuating the foregoing conclusions. These documents shall not become effective unless and until the requirements of § 900.14 of the rules of practice and procedure, as amended, governing proceedings to formulate marketing agreements and orders have been met.

*It is hereby ordered,* That all of this decision, except the attached marketing agreement, be published in the FEDERAL REGISTER. The regulatory provisions of said marketing agreement are identical with those contained in the order, as proposed to be hereby amended.

This decision filed at Washington, D. C., this 5th day of June 1956.

[SEAL] TRUE D. MORSE,
*Acting Secretary.*

*Order[1] Amending the Order Regulating the Handling of Milk in the Shreveport, Louisiana, Marketing Area*

§ 966.0 *Findings and determinations.* The findings and determinations hereinafter set forth are supplementary and in addition to the findings and determinations previously made in connection with the issuance of the aforesaid order; and all of said previous findings and determinations are hereby ratified and affirmed, except insofar as such findings and determinations may be in conflict with the findings and determinations set forth herein.

(a) *Findings upon the basis of the hearing record.* Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and the applicable rules of practice and procedure, as amended, governing the formulation of marketing agreements and marketing orders (7 CFR Part 900), a public hearing was held upon certain proposed amendments to the tentative marketing agreement and to the order, regulating the handling of milk in the Shreveport, Louisiana marketing area. Upon the basis of the evidence introduced at such hearing and the record thereof, it is found that:

(1) The said order, as hereby amended, and all of the terms and conditions thereof, will tend to effectuate the declared policy of the act;

(2) The parity prices of milk produced for sale in the said marketing area as determined pursuant to section 2 of the act are not reasonable in view of the price of feeds, available supplies of feeds and other economic conditions which affect market supplies of and demand for such milk, and the minimum prices specified in the order, as hereby amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk and be in the public interest;

(3) The said order, as hereby amended, regulates the handling of milk in the same manner as and is applicable only to persons in the respective classes of industrial and commercial activity specified in a marketing agreement upon which a hearing has been held; and

(4) It is hereby found that the necessary expense of the market administrator for the maintenance and functioning of such agency will require the payment by each handler as his pro rata share of such expense, 5 cents per hundredweight, or such amount not exceeding 5 cents per hundredweight, as the Secretary may prescribe, with respect to all receipts within the month of (i) producer milk, including such handler's own production, (ii) other source milk at a fluid milk plant which is allocated to Class I milk, and (iii) Class I milk distributed during the month on routes (including routes

[1] This order shall not become effective unless and until the requirements of § 900.14 of the rules of practice and procedure, as amended, governing proceedings to formulate marketing agreements and orders have been met.

operated by vendors) to retail or wholesale outlets located in the marketing area from a nonfluid milk plant.

*Order relative to handling.* It is therefore ordered, that on and after the effective date hereof the handling of milk in the Shreveport, Louisiana marketing area shall be in conformity to and in compliance with the terms and conditions of the aforesaid order, as hereby amended as follows:

1. In § 966.8, delete paragraph "(a)" and substitute therefor

(a) In any of the months of April through June; and

2. At the end of § 966.12 change the period to a colon and add the following proviso: *"And provided further,* That this definition shall not include any such person with respect to milk produced by him which is subject to the pricing and payment provisions of another marketing order issued pursuant to the act."

3. In § 966.27 (j) (2), delete "12th" and substitute therefor "10th".

4. At the end of § 966.41 (b) (2), substitute a comma for the semicolon and add the following: "or skim milk dumped during April, May and June which is not in excess of an amount equal to a daily average quantity of 1,500 pounds or five percent of receipts of skim milk in producer milk whichever is greater: *Provided,* That in the case of skim milk dumped, the market administrator is given at least 24 hours' notice of the handler's intention to make such disposition and the amount involved;".

5. In § 966.41 (b) (4), delete the phrase "(five percent with respect to skim milk during the months of April, May and June)".

6. At the end of § 966.51 (a), change the period to a comma and add the following: "except that plus $2.40 shall apply to the months of July, 1956 through February, 1957."

7. In § 966.90 (d), delete "13th" and "26th" and substitute, respectively therefor "11th" and "25th".

8. In § 966.94, delete the phrase "four cents per hundredweight, or such amount not exceeding four cents per hundredweight" and insert in lieu thereof the following: "five cents per hundredweight, or such amount not exceeding five cents per hundredweight".

[F. R. Doc. 56–4535; Filed, June 8, 1956; 8:47 a. m.]

## [ 7 CFR Part 977 ]

[Docket No. AO–183–A5]

MILK IN PADUCAH, KY., MARKETING AREA

NOTICE OF HEARING ON PROPOSED MARKETING AGREEMENT AND ORDER

Pursuant to the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and in accordance with the applicable rules of practice and procedure, as amended (7 CFR Part 900), notice is hereby given of a public hearing to be held at the McCracken County Court House, Paducah, Kentucky, beginning at 9:30 a. m., c. d. s. t., July 2, 1956.

The public hearing is for the purpose of receiving evidence with respect to proposed amendments hereinafter set forth or appropriate modifications thereof, to the tentative marketing agreement as heretofore approved by the Secretary of Agriculture and to the order, as amended, regulating the handling of milk in the Paducah, Kentucky, marketing area (7 CFR Part 977.0 et seq.). The amendments proposed have not received the approval of the Secretary of Agriculture.

The proposals relating to the enlargement of the Paducah, Kentucky, marketing area raise the issue as to whether the provisions of the present order would tend to effectuate the declared policy of the act if applied to the marketing area as proposed to be extended and, if not, what modifications of the provisions of the order, as amended, should be made to effectuate the declared policy of the act.

Amendments to the order, as amended, for the Paducah, Kentucky, marketing area have been proposed as follows:

By Miller Dairy Products Corporation, Midwest Dairy Products Corporation, Sunshine Dairy, Dexter Dairy, and Paducah Graded Milk Producers Association:

1. Extend the marketing area to include the counties of Ballard, Calloway, Carlisle, Fulton, Groves, Hickman, Marshall, and McCracken located in the State of Kentucky.

By Paducah Graded Milk Producers Association:

2. Amend § 977.11 *Producer* by adding a new paragraph (b) to read as follows:

(b) Or milk diverted by a cooperative association to a nonpool plant on any day of any month.

3. Amend § 977.13 *Producer milk* by adding a new paragraph (c) to read as follows:

(c) Or diverted by a cooperative association to a nonpool plant.

4. Amend § 977.41 *Classes of utilization* by deleting subparagraph (3) of paragraph (b).

5. Amend § 977.43 *Transfers* by adding the following to (c): *"And provided further,* If the nonpool plant is disposing of Class I milk in the marketing area, milk transferred or diverted to such nonpool plant shall be classified as Class I to the extent of such Class I disposition in the marketing area by the nonpool plant."

6. Amend § 977.62 *Handlers operating nonpool plants* by adding a new paragraph (c) to read as follows:

(c) Milk classified as Class I pursuant to the second proviso of § 977.43 (c) shall not be subject to this section.

7. Amend § 977.80 *Time and method of payment for producer milk* by deleting that part of paragraph (b) following the words "pay the cooperative association" and add thereto the following: "The Class II price of the preceding month for milk received during the first fifteen days of the month and the uniform price adjusted by the butterfat and location differentials less the amount of the advance payment for the first fifteen days, less the deductions authorized by the association in writing for the milk received from producer members during the month."

8. Amend § 977.53 *Location differentials to handlers* and § 977.86 *Location differentials to producers* to conform with any changes that are made in the marketing area.

By the Dairy Division:

9. Make such other changes as are necessary to make the order uniform with any amendments thereto that may result from the hearing.

Copies of this notice of hearing and of the order as now in effect may be obtained from the Market Administrator, 602 Chouteau Building, 4030 Chouteau Avenue, St. Louis 10, Missouri, or from the Hearing Clerk, Room 112 Administration Building, Washington 25, D. C. or may be there inspected.

Issued at Washington, D. C., this 6th day of June 1956.

[SEAL] ROY W. LENNARTSON,
*Deputy Administrator.*

## Commodity Stabilization Service

## [ 7 CFR Part 728 ]

WHEAT

RECORDS, 1954-55 AND 1955-56 MARKETING YEARS

Notice is hereby given under section 4 of the Administrative Procedure Act (5 U. S. C. 1003) that the Secretary of Agriculture, pursuant to authority contained in the applicable provisions of the Agricultural Adjustment Act of 1938, as amended (7 U. S. C. 1281 et seq.), is considering amending the wheat marketing quota regulations for the 1954–55 and 1955–56 marketing years relating to keeping of records by warehousemen, elevator operators, feeders, other processors, and buyers other than intermediate buyers as set forth below:

1. Amend paragraph (b) of § 728.486 of the regulations for the 1954–55 marketing year (20 F. R. 209) to read as follows:

(b) *Nature and availability of records.* Each warehouseman, elevator operator, feeder, or processor, and each buyer other than an intermediate buyer, shall keep, as a part of or in addition to the records maintained by him in the conduct of his business a record which shall show with respect to the wheat purchased, acquired, or received by him from the producers or the intermediate buyers thereof the following information:

(1) The name and address of the producer of the wheat, (2) the date of the transaction, (3) the amount of the wheat, (4) the serial number of the marketing card (MQ–76—Wheat (1954)), or marketing certificate (MQ–94—Wheat (1954)), or intermediate buyer's record and report (MQ–95—Wheat (1954)) by which the wheat was identified, or the report and penalty receipt (MQ–81—Wheat (1954)), and (5) the amount of

any lien for the penalty or of any penalty incurred in connection with the wheat purchased, acquired, or received by him. The record so made and all business records of such person required to keep such records shall be kept available for examination by the county office manager or any authorized representative of the State Administrative Officer or investigators and accountants (special agents) or other authorized representatives of the Director, Compliance and Investigation Division, Commodity Stabilization Service, United States Department of Agriculture, for two calendar years beyond the calendar year in which the marketing year ends. Such records shall include relevant books, papers, records, accounts, correspondence, contracts, documents, and memoranda but shall be examined only for the purpose of ascertaining the correctness of any report made or record kept pursuant to the regulations in this subpart or of obtaining the information required to be furnished in any report pursuant to the regulations in this subpart but not so furnished. The county office manager shall furnish, without cost, blank copies of MQ–97—Wheat which may be used for the purpose of keeping the record required under this section.

2. Amend paragraph (b) of § 728.546 of the regulations for the 1955–56 marketing year (20 F. R. 1630) to read as follows:

(b) *Nature and availability of records.* Each warehouseman, elevator operator, feeder, or processor, and each buyer other than an intermediate buyer, shall keep, as part of or in addition to the records maintained by him in the conduct of his business, a record which shall show with respect to the wheat purchased, acquired, or received by him from the producers or the intermediate buyers thereof the following information:

(1) The name and address of the producer of the wheat, (2) the date of the transaction, (3) the amount of the wheat, (4) the serial number of the marketing card (MQ–76—Wheat (1955)), or marketing certificate (MQ–94—Wheat) or intermediate buyer's record and report (MQ–95—Wheat (1955)) by which the wheat was identified, or the report and penalty receipt (MQ–81—Wheat (1955)), and (5) the amount of any lien for the penalty or of any penalty incurred in connection with the wheat purchased, acquired, or received by him. The record so made and all business records of such persons required to keep such records shall be kept available for examination by the county office manager or any authorized representative of the State Administrative Officer or investigators and accountants (special agents) or other authorized representatives of the Director, Compliance and Investigation Division, Commodity Stabilization Service, United States Department of Agriculture, for two calendar years beyond the calendar year in which the marketing year ends. Such records shall include relevant books, papers, records, accounts, correspondence, contracts, documents, and memoranda but shall be examined only for the purpose of ascertaining the correctness of any report made or record kept pursuant to the regulations in this subpart, or of obtaining the information required to be furnished in any report pursuant to the regulations in this subpart but not so furnished. The County office manager shall furnish, without cost, blank copies of MQ–97—Wheat which may be used for the purpose of keeping the record required under this section.

All persons who desire to submit written data, views, or arguments in connection with the proposed amendments above should file the same with the Director, Grain Division, Commodity Stabilization Service, United States Department of Agriculture, Washington 25, D. C., within 10 days after the date of publication of this notice in the FEDERAL REGISTER.

Done at Washington, D. C., this 6th day of June 1956.

[SEAL] WALTER C. BERGER,
*Acting Administrator.*

## DEPARTMENT OF LABOR

### Wage and Hour Division

### [ 29 CFR Part 655 ]

[Administrative Order 463]

PUERTO RICO

APPOINTMENTS TO INVESTIGATE CONDITIONS AND RECOMMEND MINIMUM WAGES FOR CERTAIN INDUSTRIES; NOTICE OF HEARING

Pursuant to authority under the Fair Labor Standards Act of 1938 (52 Stat. 1060, as amended, 29 U. S. C. 201 et seq.), and Reorganization Plan No. 6 of 1950 (5 U. S. C. 611), I hereby appoint, convene, and give notice of the hearings of Industry Committee No. 22–A for the Fabric and Leather Glove Industry in Puerto Rico, Industry Committee No. 22–B for the Handkerchief, Square Scarf, and Art Linen Industry in Puerto Rico, Industry Committee No. 22–C for the Children's Dress and Related Products Industry in Puerto Rico, Industry Committee No. 22–D for the Women's and Children's Underwear Industry in Puerto Rico, and Industry Committee No. 22–E for the Needlework and Fabricated Textile Products Industry in Puerto Rico.

Industry Committee No. 22–A is composed of the following representatives:

For the public:

Paul H. Sanders, Nashville, Tennessee, Chairman.
A. Howard Myers, Newton Center, Massachusetts.
Pedro Munoz-Amato, Rio Piedras, Puerto Rico.

For the employers:

Jack Gross, White Plains, New York.
A. C. Bob Reuter, Mayaguez, Puerto Rico.
Richard J. Broadman, Santurce, Puerto Rico.

For the employees:

Charles S. Zimmerman, New York, New York.
David Sternback, San Juan, Puerto Rico.
Frank L. Fernbach, Chevy Chase, Maryland.

For the purpose of this order the Fabric and Leather Glove Industry in Puerto Rico is defined as follows:

The manufacture of dress, semi-dress, and work gloves and mittens from woven or knit fabric, leather, or fabric or leather in combination with any other material: Provided, however, that the definition shall not include the manufacture of knit or crocheted gloves and mittens, athletic gloves and mittens, or rubber gloves and mittens.

Industry Committee No. 22–B is composed of the following representatives:

For the public:

Paul H. Sanders, Nashville, Tennessee, Chairman.
A. Howard Myers, Newton Center, Massachusetts.
Pedro Munoz-Amato, Rio Piedras, Puerto Rico.

For the employers:

Jack Gross, White Plains, New York.
Maria Luisa Arcelay, Mayaguez, Puerto Rico.
Julio Garcia, Jr., Sabana Grande, Puerto Rico.

For the employees:

Charles S. Zimmerman, New York, New York.
David Sternback, San Juan, Puerto Rico.
Frank L. Fernbach, Chevy Chase, Maryland.

For the purpose of this order the Handkerchief, Square Scarf, and Art Linen Industry in Puerto Rico is defined as follows:

The manufacture of plain, scalloped, or ornamented handkerchiefs and square scarves; the manufacture of art linens, including, but not by way of limitation, table cloths, luncheon cloths, altar cloths, napkins, bridge sets, table covers, sheets, pillow cases, and towels; and the manufacture of needlepoint on canvas or other material.

Industry Committee No. 22–C is composed of the following representatives:

For the public:

Paul H. Sanders, Nashville, Tennessee, Chairman.
A. Howard Myers, Newton Center, Massachusetts.
Pedro Munoz-Amato, Rio Piedras, Puerto Rico.

For the employers:

Jack Gross, White Plains, New York.
Leonard Tuttman, Bayamon, Puerto Rico.
Rafael Igartua, Aguadilla, Puerto Rico.

For the employees:

Charles S. Zimmerman, New York, New York.
David Sternback, San Juan, Puerto Rico.
Frank L. Fernbach, Chevy Chase, Maryland.

For the purpose of this order the Children's Dress and Related Products Industry in Puerto Rico is defined as follows:

The manufacture from woven or knit fabric of the following garments: Dresses, blouses, shirts and similar garments for girls; shirts and blouses for boys, size 6X and under; dresses, rompers, creepers, sportswear and play apparel for infants three years of age or under; and clothing and accessories for dolls.

Industry Committee No. 22–D is composed of the following representatives:

For the public:

Paul H. Sanders, Nashville, Tennessee, Chairman.
A. Howard Myers, Newton Center, Massachusetts.
Pedro Munoz-Amato, Rio Piedras, Puerto Rico.

For the employers:

Jack Gross, White Plains, New York.
Alfred Dowaliby, Arecibo, Puerto Rico.
Sam Schweitzer, Mayaguez, Puerto Rico.

For the employees:

Charles S. Zimmerman, New York, New York.
David Sternback, San Juan, Puerto Rico.
Lewis G. Hines, Washington, D. C.

For the purpose of this order the Women's and Children's Underwear Industry in Puerto Rico is defined as follows:

The knitting, or manufacture from woven or knit fabric, of women's, misses', girls', boys' size 6X and under, and infants' underwear and nightwear, including, but not by way of limitation, slips, petticoats, nightgowns, negligees, panties, undershirts, briefs, shorts, pajamas, sleepers, and similar articles.

Industry Committee No. 22–E is composed of the following representatives:

For the public:

Paul H. Sanders, Nashville, Tennessee, Chairman.
A. Howard Myers, Newton Center, Massachusetts.
Pedro Nunoz-Amato, Rio Piedras, Puerto Rico.

For the employers:

Jack Gross, White Plains, New York.
Stanley Siegel, Bayamon, Puerto Rico.
Sam Schweitzer, Mayaguez, Puerto Rico.

For the employees:

Charles S. Zimmerman, New York, New York.
David Sternback, San Juan, Puerto Rico.
Lewis G. Hines, Washington, D. C.

For the purpose of this order the Needlework and Fabricated Textile Products Industry in Puerto Rico is defined as follows:

The manufacture from any material of all apparel and apparel furnishings and accessories made by the knitting, crocheting, cutting, sewing, embroidering, or other processes; the manufacture of all textile products and the manufacture of like articles in which a synthetic material in sheet form is the basic component: *Provided, however,* That the definition shall not cover products or activities included in the Children's Dress and Related Products Industry, the Fabric and Leather Glove Industry, the Handkerchief, Square Scarf, and Art Linen Industry, and the Women's and Children's Underwear Industry, as defined in this order, nor products or activities included in the following industries in Puerto Rico as defined in the wage orders for such industries: The Artificial Flower Industry, the Button, Buckle, and Jewelry Industry, the Corsets, Brassieres and Allied Garments Industry, the Handicraft Products Industry, the Hooked Rug Industry, the Hosiery Industry, the Men's and Boys' Clothing and Related Products Industry, the Shoe Manufacturing and Related Products Industry, and the Textile and Textile Products Industry.

I hereby refer to the above mentioned industry committees the question of the minimum wage rates to be fixed under section 6 (c) of the act for its industry. Each such industry committee shall investigate conditions in its industry, and the committee, or any authorized subcommittee thereof, shall hear such witnesses and receive such evidence as may be necessary or appropriate to enable the committee to perform its duties and functions under the act.

Industry Committee No. 22–A shall commence its hearing on July 16, 1956, at 2:00 p. m. in the offices of the Wage and Hour Division, United States Department of Labor, New York Department Store Building, Fortaleza and San Jose Streets, San Juan, Puerto Rico. Consecutively, at the same place, after the hearing of Industry Committee No. 22–A, Industry Committees Nos. 22–B, 22–C, 22–D, and 22–E shall hold their hearings in that order.

Each committee will meet at the same place before its hearing to make its investigation and appropriate decisions concerning its hearing. Industry Committee No. 22–A will meet at 10:00 a. m. on July 16, 1956, and Industry Committees Nos. 22–B, 22–C, 22–D, and 22–E will meet at an hour to be designated by the committee chairman.

In order to reach as rapidly as is economically feasible the objective of the minimum wage prescribed in paragraph (1) of section 6 (a) of the act, each industry committee shall recommend to the Administrator the highest minimum wage rate or rates for the industry which it determines, having due regard to economic and competitive conditions, will not substantially curtail employment in the industry and will not give any industry in Puerto Rico a competitive advantage over any industry in the United States outside of Puerto Rico. Where an industry committee finds that a higher minimum wage may be determined for employees engaged in certain activities or in the manufacture of certain products in the industry, the industry committee shall recommend such reasonable classifications within the industry as it determines to be necessary for the purpose of fixing for each classification the highest minimum wage rate that can be determined for it under the principles set out here which will not substantially curtail employment in such classification and will not give a competitive advantage to any group in the industry. No classification shall be made, however, and no minimum wage shall be fixed solely on a regional basis or on the basis of age or sex. In determining whether there should be classifications within the industry, in making such classifications, and in determining the minimum wage rates for such classifications, the committee shall consider, among other relevant factors, the following: (1) Competitive conditions as affected by transportation, living, and production costs; (2) the wages established for work of like or comparable character by collective labor agreements negotiated between employers and employees by representatives of their own choosing; and (3) the wages paid for work of like or comparable character by employers who voluntarily maintain minimum wage standards in the industry.

The Administrator shall prepare an economic report containing such data as he is able to assemble pertinent to the matters herein referred to each committee. Copies of these reports may be obtained at the National and Puerto Rican Offices of the United States Department of Labor as soon as they are completed and prior to the hearings. Each committee will take official notice of the facts stated in the economic report to the extent they are not refuted at the hearing.

The procedure of these industry committees will be governed by Title 29 of the Code of Federal Regulations, Part 511, as revised and amended on November 4, 1955 (20 F. R. 8285) and May 30, 1956 (21 F. R. 3678). Among other requirements, these regulations provide that a prehearing statement containing certain specified data, shall be filed, together with eleven copies, at the office of the Territorial Director of the Wage and Hour Division, United States Department of Labor, New York Department Store Building, Fortaleza and San Jose Streets, San Juan, Puerto Rico, and that one copy of such prehearing statement shall be filed at the office of the Administrator of the Wage and Hour Division, United States Department of Labor, Washington, D. C., not later than July 6, 1956, in the present matters, by all persons who would participate either as witnesses or parties.

Signed at Washington, D. C., this 6th day of June 1956.

JAMES P. MITCHELL,
*Secretary of Labor.*

## FEDERAL RESERVE SYSTEM

### [ 12 CFR Part 222 ]

BANK HOLDING COMPANIES

FORM TO BE USED IN MAKING APPLICATION FOR PRIOR APPROVAL OF ACQUISITION OF BANK SHARES

The Board of Governors of the Federal Reserve System is considering the adoption of a form (Form F. R. Y–2) [1] to be used by a bank holding company in making application to the Board for prior approval of the acquisition of bank shares pursuant to section 3 (a) (2) of the Bank Holding Company Act of 1956 (70 Stat. 133).

The proposed form is designed to provide for the submission of information regarding the factors set forth in section 3 (c) of the Bank Holding Company

[1] Filed as part of the original document. Copies available upon request to the Board of Governors of the Federal Reserve System, Washington 25, D. C., or to any Federal Reserve Bank.

Act of 1956 which are required to be considered by the Board in passing upon any such application.

This notice is published pursuant to section 4 of the Administrative Procedure Act and section 2 of the rules of procedure of the Board of Governors of the Federal Reserve System (12 CFR 262.2).

To aid in the consideration of this matter the Board will be glad to receive from interested persons any relevant data, views, or arguments. Although such material may be sent directly to the Board it is preferable that it be sent to the Federal Reserve Bank of the district which will forward it to the Board to be considered. All such material should be submitted in writing to be received not later than July 2, 1956.

BOARD OF GOVERNORS OF THE FEDERAL RESERVE SYSTEM,
[SEAL] MERRITT SHERMAN,
*Assistant Secretary.*

### Office of the Attorney General

[Order 118-56]

ADMINISTRATION OF DEPARTMENT OF JUSTICE FUNCTIONS PERTAINING TO CONSCIENTIOUS OBJECTORS

All functions, duties, and responsibilities of the Department of Justice arising under or pursuant to section 6 (j) of the Universal Military Training and Service Act, as amended (50 U. S. C. App. 456 (j)), are hereby assigned to the Office of Legal Counsel, Department of Justice, and shall be administered under the general supervision and direction of the Assistant Attorney General in charge of that Office.

There is hereby established in the Office of Legal Counsel a section to be known as the Conscientious Objector Section, at the head of which shall be an attorney designated, for the purposes of this order, as Chief of the Conscientious Objector Section, Department of Justice.

The Chief of the Conscientious Objector Section is hereby authorized, under the general supervision and direction of the Assistant Attorney General in charge of the Office of Legal Counsel, to perform the following-described functions:

1. Conducting and signing correspondence pertaining to conscientious-objector matters and related selective-service matters.

2. Recommending persons for appointment as Special Hearing Officers for the Department of Justice to hear conscientious-objector cases.

3. Supervising the work of the Special Hearing Officers for the Department of Justice.

4. Consulting with and advising United States Attorneys, officials of the Selective Service System, and officials of the Federal Bureau of Investigation with respect to matters pertaining to conscientious objectors.

5. Making recommendations to Selective Service Appeal Boards with respect to claims of conscientious objectors.

6. Representing the Department of Justice in all matters arising under or related to section 6 (j) of the said Universal Military Training and Service Act, as amended.

Supplement No. 53 of November 30, 1951, to Order No. 3732 is hereby revoked.

Dated: May 25, 1956.

WILLIAM P. ROGERS,
*Acting Attorney General.*

## CIVIL AERONAUTICS BOARD

[Docket No. 5947]

AIR FREIGHT FORWARDER; REOPENED

NOTICE OF ORAL ARGUMENT

Notice is hereby given, pursuant to the provisions of the Civil Aeronautical Act of 1938, as amended, that oral argument in the above-entitled proceeding is assigned to be held on July 24, 1956, on the following limited issues only: Whether, as a matter of law, the Board can and, as a matter of policy, should permit air freight forwarders to enter into joint rate or compensation agreements with direct air carriers, providing for rates lower than those paid by other users of the direct carriers' services. This argument will be held at 10:00 a. m., e. d. s. t. in Room 5042, Commerce Building, Constitution Avenue, between Fourteenth and Fifteenth Streets NW., Washington, D. C., before the Board.

Dated at Washington, D. C., June 6, 1956.

[SEAL] FRANCIS W. BROWN,
*Chief Examiner.*

[F. R. Doc. 56-4599; Filed, June 8, 1956; 8:58 a. m.]

[Docket No. 7902]

CAPITAL GAINS PROCEEDING

NOTICE OF POSTPONEMENT OF PREHEARING CONFERENCE

Notice is hereby given that the prehearing conference in the above-entitled investigation now assigned for June 6 is postponed to June 18, 1956, 10:00 a. m., e. d. s. t., Room 1512, Temporary Building No. 4, Seventeenth Street and Constitution Avenue NW., Washington, D. C., before Examiner Paul N. Pfeiffer.

Dated at Washington, D. C., June 5, 1956.

[SEAL] FRANCIS W. BROWN,
*Chief Examiner.*

[Docket Nos. 11417, 11418; FCC 56M-548]

TAYLOR BROADCASTING CO. AND GARDEN OF THE GODS BROADCASTING CO.

ORDER CONTINUING HEARING

In re applications of Taylor Broadcasting Company, Colorado Springs, Colorado, Docket No. 11417, File No. BP-9439; Garden of the Gods Broadcasting Company, Manitou Springs, Colorado, Docket No. 11418, File No. BP-9462; for construction permits.

The Hearing Examiner having under consideration a request for continuance filed by Garden of the Gods Broadcasting Company on June 1, 1956;

It appearing that under the present schedule exhibits were to be exchanged on June 4 and a further hearing conference to be held on June 14, 1956; and

It further appearing that the two applicants have agreed through informal conferences to take certain additional measurements by means of a test transmitter and require additional time for this purpose; and

It further appearing that Taylor Broadcasting Company joins in this request and the other parties to the proceeding consent thereto but that the dates requested by the petitioner are not compatible with the Hearing Examiner's schedule;

*It is ordered,* This 4th day of June 1956, that the petition of Garden of the Gods Broadcasting Company is granted, that the date for exchanging exhibits is continued from June 4 to June 25, 1956 and the date for further hearing conference is continued from June 14 to July 2, 1956.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] MARY JANE MORRIS,
*Secretary.*

*It is ordered,* This 1st day of June 1956, that J. D. Bond will preside at the hearing in the above-entitled proceeding which is hereby scheduled to commence on July 30, 1956, in Washington, D. C.

Released: June 5, 1956.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] MARY JANE MORRIS,
*Secretary.*

[F. R. Doc. 56-4550; Filed, June 8, 1956; 8:49 a. m.]

[Docket Nos. 11634, 11635; FCC 56M-558]

STEPHENVILLE BROADCASTING CO. AND OSAGE BROADCASTING CO.

ORDER SCHEDULING PREHEARING CONFERENCE

In re applications of Galen O. Gilbert and J. R. Kincaid d/b as Stephenville Broadcasting Company, Tahlequah, Oklahoma, Docket No. 11634, File No. BP-9978; John M. Mahoney and John Q. Adams d/b as Osage Broadcasting Company, Bartlesville, Oklahoma, Docket No. 11635, File No. BP-10096; for construction permits.

The Hearing Examiner having under consideration a "Petition for Setting of Hearing Date" filed May 28, 1956, on behalf of Stephenville Broadcasting Company; and

It appearing that by order dated April 17, 1956, this hearing was continued indefinitely upon petition by Osage Broadcasting Company so as to allow time—30 days requested—for it to amend its application, and that petitioner now seeks the fixing of dates for a prehearing conference and commencement of the hearing because Osage Broadcasting Company has not petitioned to amend its application and the conditions making the hearing necessary originally still exist; and

It further appearing that no objection to the petition has been filed on behalf of any party, and that good cause for granting the petition for a prehearing conference date has been shown, but that the date for commencing the hearing can be best determined at the prehearing conference;

*Now therefore it is ordered*, This 5th day of June 1956, that the above petition is granted in part, and pursuant to §§ 1.813 and 1.841 of the Commission's rules, *it is ordered and directed*, That the parties or their attorneys shall appear at the offices of the Commission in Washington, D. C., at 10:00 a. m., on Tuesday, June 19, 1956, for a prehearing conference to consider:

1. The necessity or desirability of simplification, clarification, amplification or limitation of the issues;

2. The possibility of stipulating with respect to facts;

3. The procedures to be followed prior to and at the hearing;

4. The limitation of the number of witnesses;

5. The procedures and schedules for the prior mutual exchange between the parties of prepared testimony and exhibits; and

6. Such other matters as may aid in the disposition of this proceeding.

*It is further ordered*, That so much of the instant petition as requests the fixing of a date for commencing the hearing is continued for consideration and appropriate action at the prehearing conference hereinabove ordered.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] MARY JANE MORRIS,
*Secretary.*

[F. R. Doc. 56-4551; Filed, June 8, 1956; 8:49 a. m.]

[Docket No. 11661; FCC 56M-557]

WRATHER-ALVAREZ BROADCASTING, INC.

ORDER CONTINUING HEARING

In re application of Wrather-Alvarez Broadcasting, Inc., Yuma, Arizona, Docket No. 11661, File No. BPCT-2039; for a construction permit for a new television broadcast station (Channel 13).

The Hearing Examiner having under consideration a petition of Valley Telecasting Co., filed May 28, 1956, requesting a continuance;

It appearing that this proceeding is currently scheduled to commence on June 6, 1956, in Washington, D. C., but that a petition from Wrather-Alvarez Broadcasting, Inc. (the applicant), is now pending before the Commission, seeking the deletion of an issue or, in the alternative, a shift in the burden of proof and that responsive pleadings are likewise on file from the other parties; and

It further appearing that until the question of this issue and placement of the burden of proof have been finally settled, any attempt to proceed with the hearing would be likely to result in waste; and

It further appearing that counsel for the applicant and the Broadcast Bureau have both consented to a grant of the instant petition;

*It is ordered*, This 4th day of June 1956, that the petition of Valley Telecasting Co. is granted and the date for commencement of hearing is continued from June 6 to June 25, 1956, at 10:00 a. m. in Washington, D. C.

## FEDERAL POWER COMMISSION

[Docket Nos. G-7035, etc.]

DALPORT OIL CORP. ET AL.

NOTICE OF APPLICATIONS AND DATE OF HEARING

Take notice that each of the applicants listed below has filed an application for a certificate of public convenience and necessity pursuant to section 7 (c) of the Natural Gas Act, authorizing such Applicant to continue to sell natural gas subject to the jurisdiction of the Commission, all as more fully represented in the respective applications which are on file with the Commission and open for public inspection. These matters should be consolidated and disposed of as promptly as possible under the applicable rules and regulations and to that end:

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing will be held on the date and at the place hereinafter stated, concerning the matters involved in and the issues presented by such applications: *Provided, however*, That the Commission may, after a noncontested hearing, dispose of the proceedings pursuant to the provisions of § 1.30 (c) (1) of the Commission's rules of practice and procedure.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) not less than ten days before the date of hearing. Failure of any party to appear at and participate in the hearing shall be construed as waiver of and concurrence in omission herein of the intermediate decision procedure in cases where a request for waiver is made. Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicants to appear or be represented at the hearing.

The dockets, Applicants and material averments in applications to which reference is made above are as follows:

*Docket No.; Name and Address; Filing Date; Gas Field; and Purchaser*

G-7035; Dalport Oil Corporation, H. R. Bright, H. G. Schiff, W. D. Kennedy, John S. Mayon, W. L. Todd, and W. L. Todd, Jr., Dallas, Tex.; 11-30-54; Jalmat, Lea County, N. Mex.; El Paso Natural Gas Company.

G-7036; Dalport Oil Corporation, Edward Wright, H. G. Schiff, and H. R. Bright, Dallas, Tex.; 11-30-54; Jalmat, Lea County, N. Mex.; El Paso Natural Gas Company.

G-7037; Dalport Oil Corporation and Edward Wright, Jr., Dallas, Tex.; 11-30-54; Jalmat, Lea County, N. Mex.; El Paso Natural Gas Company.

G-7038; Dalport Oil Corporation and Edward Wright, Jr., Dallas, Tex.; 11-30-54; Langlie-Mattix, Lea County, N. Mex.; El Paso Natural Gas Company.

G-7039; Dalport Oil Corporation and Edward Wright, Jr., Dallas, Tex.; 11-30-54; Jalmat, Lea County, N. Mex.; El Paso Natural Gas Company.

A public hearing will be held on the 3d of July 1956, beginning at 9:30 a. m., e. d. s. t., in a hearing room of the Federal Power Commission, 441 G Street NW., Washington, D. C., concerning the matters involved in and the issues presented by the above applications.

[SEAL] LEON M. FUQUAY,
*Secretary.*

JUNE 4, 1956.

[F. R. Doc. 56-4540; Filed, June 8, 1956; 8:48 a. m.]

[Docket No. G-10347]

CITIES SERVICE GAS CO.

NOTICE OF APPLICATION AND DATE OF HEARING

JUNE 5, 1956.

Take notice that Cities Service Gas Company (Applicant), a Delaware corporation with a principal office in Oklahoma City, Oklahoma, filed an application on May 3, 1956, for a certificate of public convenience and necessity, pursuant to section 7 of the Natural Gas Act, authorizing Applicant to utilize its facilities for and make sale and delivery of volumes of natural gas to Union Gas System, Inc. (Union), under Applicant's EP Rate Schedule, at the maximum rate of 16,000 Mcf daily, and on an average of 12,000 Mcf daily, until October 22, 1956, for the purpose of providing natural gas to Union for storage in its storage field in Montgomery County, Kansas.

The application recites that the capacity of Union's storage field is 3,600,000 Mcf, and Union's capacity to deliver gas into storage is limited to 16,000 Mcf daily; and that the sale and delivery of this volume of gas to Union will not have any adverse effect on Applicant's service to any existing customer. The proposed deliveries will be made through an existing point of connection between Applicant's 20-inch southern trunk line and Union's 6-inch line in Montgomery County, Kansas.

The Commission on May 23, 1956, granted Applicant temporary authorization for the making of the proposed sale and delivery to Union.

This matter is one that should be disposed of as promptly as possible under the applicable rules and regulations and to that end:

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing will be held on July 3, 1956 at 9:30 a. m., e. d. s. t., in a hearing room of the Federal Power Commission, 441 G Street NW., Washington, D. C., concerning the matters involved in and the issues presented by such application: *Provided, however*, That the Commission may, after a non-contested hearing, dispose of the proceeding pursuant to the provisions of § 1.30 (c) (1) or (2) of the Commission's rules of practice and procedure. Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before June 22, 1956. Failure of any party to appear at and participate in the hearing shall be construed as waiver of and concurrence in omission herein of the intermediate decision procedure in cases where a request therefor is made.

[SEAL] LEON M. FUQUAY,
*Secretary.*

[F. R. Doc. 56-4541; Filed, June 8, 1956; 8:48 a. m.]

[Docket No. E-6668]

IDAHO POWER CO.

ORDER PERMITTING INTERVENTION AND SETTING ORAL ARGUMENT

National Hells Canyon Association, Inc., (Petitioner),[1] by petition filed April 19, 1956, as modified by an amended petition filed May 29, 1956, requested (1) that it be granted leave to intervene in the above-entitled matter wherein Idaho Power Company (Idaho), requests authorization under section 204 of the Federal Power Act to issue an aggregate of $20,000,000, principal amount of short-term Promissory Notes, to provide interim financing for its current construction program, the major portion of which is the Hells Canyon project licensed by order of the Commission issued August 4, 1955, Project Nos. 1971, 2132 and 2133, and (2) that it be afforded an opportunity to raise certain matters on oral argument before the Commission in opposition to the authorization requested by Idaho.

In support of its request for leave to intervene, Petitioner states that it is composed of various nonprofit utility organizations, farm and labor organiza-

[1] A non-profit association organized under the laws of the State of Idaho, with its principal place of business in Portland, Oregon.

tions and other representative public groups in the Pacific Northwest [2] having direct interests in the above-entitled matter which are not otherwise adequately represented. By order issued July 9, 1953, the Commission granted Petitioner leave to intervene in Project Nos. 1971, 2132 and 2133.

In opposing the application by Idaho for authorization to issue short-term Promissory Notes, Petitioner states that it cannot now be determined within the meaning of section 204 of the Federal Power Act that the proposed issuance of securities is "for some lawful object" and "compatible with the public interest", for two reasons, namely, that (1) the Commission's opinion and order licensing Project Nos. 1971, 2132 and 2133 are currently under Court review (National Hells Canyon Association, Inc., et al. v. F. P. C., C. A. D. C. Nos. 12988, 13160) and (2) that Idaho, having failed to obtain a water-use permit or license from the Oregon Hydroelectric Commission before commencing construction on the Hells Canyon project, has been declared by the Oregon State Attorney General to be in violation of Oregon State Law. Petitioner requests the Commission to hear oral argument on these two matters.

By answer filed May 2, 1956, as amended May 18, 1956, Idaho responded to Petitioner's request for leave to intervene and opportunity for oral argument wherein Idaho, among other things, (1) disputed that Petitioner is qualified or entitled to intervene in this proceeding; (2) denied Petitioner's contention that it cannot now be determined whether the proposed issuance of securities will be "for some lawful object" and "compatible with the public interest" within the meaning of section 204 of the Federal Power Act and alleged that the requested authorization to issue securities is necessary to enable it (Idaho) to fulfill its obligation under the Commission opinion and order licensing the Hells Canyon project to proceed with construction of the project, and its legal responsibilities as a public utility to its customers in Idaho, Oregon and Nevada; (3) denied Petitioner's allegation that in proceeding with the construction of the Hells Canyon project it (Idaho) is in violation of the State law of Oregon.

By stipulation dated May 29, 1956, Petitioner and Idaho agreed that if Petitioner's requests for leave to intervene and opportunity for oral argument "be granted by the Commission they do not desire to proffer any facts before the Commission in this matter, other than as set forth in Petitioner's amended petition and in the Applicant's answer as amended and in the application as amended."

The Commission finds:

(1) Without deciding whether Petitioner has any interest which may be directly affected and which is not adequately represented in this proceeding and as to which Petitioner may be bound by Commission action herein, the participation of the Petitioner as an intervener in this proceeding may be in the public interest.

(2) It is appropriate for the purposes of the Federal Power Act that the Petitioner's request for oral argument on the matters referred to above be granted as hereinafter provided.

The Commission orders:

(A) Petitioner be, and it hereby is permitted to become an intervener in this proceeding, subject to the rules and regulations of the Commission: *Provided, however,* That the participation of such intervener shall be limited to the matters specifically set forth in the amended petition of Petitioner; *And provided further,* That the admission of such intervener shall not be construed as recognition by the Commission that Petitioner may be aggrieved because of any order of the Commission entered in this proceeding.

(B) Oral argument will be heard by the Commission on June 7, 1956, at 10 a. m., e. d. s. t., in the hearing room of the Federal Power Commission, 441 G Street NW., Washington 25, D. C., as requested by the Petitioner.

(C) Petitioner and Idaho and Staff Counsel shall have 30 minutes each on the argument ordered herein.

Issued: June 5, 1956.

By the Commission.

## INTERSTATE COMMERCE COMMISSION

FOURTH SECTION APPLICATIONS FOR RELIEF

JUNE 6, 1956.

Protests to the granting of an application must be prepared in accordance with Rule 40 of the general rules of practice (49 CFR 1.40) and filed within 15 days from the date of publication of this notice in the FEDERAL REGISTER.

LONG-AND-SHORT HAUL

FSA No. 32181: *Canned fruits and vegetables—Texas to Illinois and Iowa.* Filed by F. C. Kratzmeir, Agent, for interested rail carriers. Rates on canned fruits and vegetables, straight or mixed carloads from Crystal City, Tex., and other specified points in the Rio Grande Valley of southwestern Texas to Chicago, Ill., Davenport, Iowa, and other points in Illinois and Iowa named in the application.

Grounds for relief: Circuitous routes.

Tariff: Supplement 31 to Agent Kratzmeir's I. C. C. 4042.

FSA No. 32182: *Acrylonitrile—New Orleans, La., to Chicago, Ill.* Filed by O. W. South, Jr., agent, for interested rail carriers. Rates on acrylonitrile, tankcar loads from New Orleans, La., to Chicago, Ill.

Grounds for relief: Circuitous route.

Tariff: Supplement 178 to Alternate Agent Marque's I. C. C. 417.

FSA No. 32183: *Styrene—New Orleans, La., to Wallingford, Conn.* Filed by R. E. Boyle, Jr., Agent, for interested rail carriers. Rates on styrene, tank-car loads from New Orleans, La., to Wallingford, Conn.

Grounds for relief: Competition of carriers by water and truck, and circuitous routes.

Tariff: Supplement 17 to Agent Marque's I. C. C. 422.

FSA No. 32184: *Refractories and products from, to, and between points in official territory.* Filed by H. R. Hinsch, Agent, for interested rail carriers. Rates on refractories and refractory products, carloads, as described in appendix B of the application between points in official territory, including points in Illinois territory and extended zone C in Wisconsin, between points within Illinois territory, and from points in Missouri related to St. Louis, Mo., rates in Docket 10733 to points in official territory.

Grounds for relief: Modified short-line distance formula and circuity.

Tariff: Supplement 66 to Agent Hinsch's tariff I. C. C. 4418, and supplements to his, other agents' and individual lines' tariffs listed in appendix A to the application.

FSA No. 32185: *Paper and paper articles to the southwest and Lower Mississippi River crossings.* Filed by F. C. Kratzmeir, Agent, for interested rail carriers. Rates on paper and paper articles, as described in the application, less-than-carload, from Kansas City, St. Joseph, and Springfield, Mo., to Base points in Arkansas, including Helena, Louisiana, New Mexico, Oklahoma, and Texas, also to Memphis, Tenn., Natchez and Vicksburg, Miss., Baton Rouge, New Orleans, and Reserve, La., and points grouped therewith.

Grounds for relief: Motor truck competition and circuity.

FSA No. 32186: *All freight—Eastern to southern points.* Filed by C. W. Boin, Agent, for interested rail carriers. Rates on merchandise, in mixed carloads from New York, N. Y., Boston, Mass., and Philadelphia, Pa., to Brookley and Mobile, Ala., Daytona Beach and Tallahassee, Fla., and Gastonia, N. C.

Grounds for relief: Motor truck competition and circuity.

Tariff: Supplement 9 to Agent Boin's I. C. C. A-1069.

FSA No. 32187: *All freight—Eastern points to Birmingham, Ala.* Filed by C. W. Boin, Agent, for interested rail carriers. Rates on merchandise, mixed carloads from Boston and East Boston, Mass., New York, N. Y., Bridgeport, Conn., and other specified points in Connecticut to Birmingham, Ala.

Grounds for relief: Motor truck competition and circuity.

Tariff: Supplement 9 to Agent Boin's I. C. C. A-1069.

## SECURITIES AND EXCHANGE COMMISSION

[File No. 7-1798]

CHAS. PFIZER & CO., INC.

NOTICE OF APPLICATION FOR UNLISTED TRADING PRIVILEGES, AND OF OPPORTUNITY FOR HEARING

JUNE 4, 1956.

In the matter of application by the Philadelphia-Baltimore Stock Exchange for unlisted trading privileges in Chas. Pfizer & Co., Inc., Common Stock, File No. 7-1798.

The above-named stock exchange, pursuant to section 12 (f) (2) of the Securities Exchange Act of 1934 and Rule X-12F-1 promulgated thereunder, has made application for unlisted trading privileges in the specified security, which is listed and registered on the New York Stock Exchange.

Upon receipt of a request, on or before June 20, 1956, from any interested person, the Commission will determine whether to set the matter down for hearing. Such request should state briefly the nature of the interest of the person making the request and the position he proposes to take at the hearing. In addition, any interested person may submit his views or any additional facts bearing on this application by means of a letter addressed to the Secretary of the Securities and Exchange Commission, Washington 25, D. C. If no one requests a hearing on this matter, this application will be determined by order of the Commission on the basis of the facts stated in the application and other information contained in the official file of the Commission pertaining to the matter.

By the Commission.

[24W-1647]

LABORATORY OF ELECTRONIC ENGINEERING, INC.

ORDER TEMPORARILY SUSPENDING EXEMPTION, STATEMENT OF REASONS THEREFOR, AND NOTICE OF OPPORTUNITY FOR HEARING

JUNE 5, 1956.

I. Laboratory of Electronic Engineering, Inc., a Maryland Corporation, with principal offices located at 413 L Street NW., Washington, D. C., having filed with the Commission on November 25, 1953, a Notification on Form 1-A and an Offering Circular, and subsequently having filed amendments thereto, relating to a proposed offering of 17,523 shares of $10 par Class A common stock at par, for the purpose of obtaining an exemption from the registration requirements of the Securities Act of 1933, as amended, pursuant to the provisions of section 3 (b) thereof and Regulation A promulgated thereunder; and

II. The Commission having reasonable cause to believe that the terms and conditions of Regulation A have not been complied with in that the company has failed to file reports of sales on Form 2-A as required by Rule 224 of Regulation A, and has ignored requests by the Commission's staff for such reports.

III. *It is ordered,* Pursuant to Rule 223 (a) of the general rules and regulations under the Securities Act of 1933, as amended, that the exemption under Regulation A be, and it hereby is, temporarily suspended.

Notice is hereby given that any person having any interest in the matter may file with the Secretary of the Commission a written request for hearing; that, within 20 days after receipt of such request, the Commission will, or at any time upon its own motion may, set the matter down for hearing at a place to be designated by the Commission for the purpose of determining whether this order of suspension should be vacated or made permanent, without prejudice, however, to the consideration and presentation of additional matters at the hearing; and that notice of the time and place for said hearing will be promptly given by the Commission.

*It is further ordered,* That this order and notice shall be served upon Laboratory of Electronic Engineering, Inc., and Mr. Carl Mayfield, 23 Riggs Road NE., Washington, D. C., personally or by registered mail or by confirmed telegraphic notice, and shall be published in the FEDERAL REGISTER.

By the Commission.

ALPHA INSTRUMENT COMPANY, INC.

ORDER TEMPORARILY SUSPENDING EXEMPTION, STATEMENT OF REASONS THEREFOR, AND NOTICE OF OPPORTUNITY FOR HEARING

JUNE 5, 1956.

I. Alpha Instrument Company, Inc., a Delaware corporation, with principal offices located at 1213 20th Street NW., Washington 6, D. C., having filed with the Commission on January 8, 1954, a Notification on Form 1-A and a Rule 219 (b) Statement as an exhibit thereto, and subsequently having filed an amendment thereto, relating to a proposed offering of 200 shares of no par cumulative preferred stock at $50 per share, for the purpose of obtaining an exemption from the registration requirements of the Securities Act of 1933, as amended, pursuant to the provisions of section 3 (b) thereof and Regulation A promulgated thereunder; and

II. The Commission having reasonable cause to believe that the terms and conditions of Regulation A have not been complied with in that the company has failed to file reports of sales on Form 2-A as required by Rule 224 of Regulation A, and has ignored requests by the Commission's staff for such reports.

III. *It is ordered,* Pursuant to Rule 223 (a) of the general rules and regulations under the Securities Act of 1933, as amended, that the exemption under Regulation A be, and it hereby is temporarily suspended.

Notice is hereby given that any person having any interest in the matter may file with the Secretary of the Commission a written request for hearing; that, within 20 days after receipt of such request, the Commission will, or at any time upon its own motion may, set the matter down for hearing at a place to be designated by the Commission for the purpose of determining whether this order of suspension should be vacated or made permanent, without prejudice, however, to the consideration and presentation of additional matters at the hearing; and that notice of the time and place for said hearing will be promptly given by the Commission.

*It is further ordered,* That this order and notice shall be served upon Alpha Instrument Company, Inc., and Mr. John S. Kusner, 6294 North 15th Road, Arlington 13, Virginia, personally or by registered mail or by confirmed telegraphic notice, and shall be published in the FEDERAL REGISTER.

[File No. 70-3481]

OHIO POWER CO.

NOTICE OF FILING OF DECLARATION REGARDING ISSUANCE AND SALE OF SHORT-TERM NOTES

JUNE 5, 1956.

Notice is hereby given that Ohio Power Company ("Ohio Power"), a public utility subsidiary of American Gas and Electric Company, a registered holding company, has filed with this Commission a declaration pursuant to the Public Utility Holding Company Act of 1935 ("act") and has designated sections 6 and 7 of the act as applicable to the proposed transactions.

All interested persons are referred to the declaration on file in the office of the Commission for a statement of the transactions therein proposed, which are summarized as follows:

Pursuant to a credit agreement with the seven banks named below, Ohio Power proposes to borrow, from time to time prior to December 31, 1956, an aggregate amount not to exceed $31,000,000 as follows:

| | |
|---|---|
| Irving Trust Co., New York, N. Y. | $5,540,000 |
| Mellon National Bank & Trust Co., Pittsburgh, Pa. | 5,450,000 |
| First National City Bank of New York, New York | 5,450,000 |
| Manufacturers Trust Co., New York, N. Y. | 5,450,000 |
| Guaranty Trust Co., New York, N. Y. | 3,100,000 |
| The Hanover Bank, New York, N. Y. | 3,100,000 |
| Bankers Trust Co., New York, N. Y. | 3,000,000 |
| Total | 31,000,000 |

Of the $31,000,000 proposed to be borrowed, $2,500,000 borrowed as of May 15, 1956, and additional proposed borrowings aggregating $14,500,000 are exempt by the provisions of the first sentence of section 6 (b) of the act. Accordingly, approval is being requested for further proposed additional borrowings in amounts not to exceed an aggregate of $14,000,000.

Each proposed borrowing is to be evidenced by a note maturing 270 days after the date of the borrowing, and is to bear interest at the current prime credit rate effective on the date of the borrowing, which prime rate is presently 3¾ percent per annum. The notes are to be prepayable in whole or in part without premium. All bank loan notes outstanding at the time of the next permanent financing, presently expected to be effected prior to December 31, 1956, are to be paid from the proceeds of such financing.

The proceeds from the proposed borrowings are to be used to pay part of the costs of Ohio Power's 1956 construction program, estimated at $67,170,000.

No finders' fees or commissions are to be paid; no legal or other fees, commissions or expenses are to be paid, except the routine charges for the services of American Gas and Electric Service Corporation, the system's mutual service company and incidental expenses estimated at not to exceed $100.

It is represented that no State commission and no Federal commission, other than this Commission, has jurisdiction over the proposed transactions.

Notice is further given that any interested person may, not later than June 20, 1956, at 5:30 p. m., e. d. s. t., request the Commission in writing that a hearing be held on this matter, stating the nature of his interest, the reason for such request, and the issues of fact or law raised by the declaration which he proposes to controvert, or he may request that he be notified if the Commission orders a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington 25, D. C. At any time after said date the declaration, as filed or as it may be amended, may be permitted to become effective as provided in Rule U-23 of the rules and regulations promulgated under the act, or the Commission may grant exemption from its rules as provided in Rules U-20 (a) and U-100 or take such other action as it may deem appropriate.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

III. *It is ordered,* Pursuant to Rule 223 (a) of the general rules and regulations under the Securities Act of 1933, as amended, that the exemption under Regulation A be, and it hereby is, temporarily suspended.

Notice is hereby given that any person having any interest in the matter may file with the Secretary of the Commission a written request for hearing; that, within 20 days after receipt of such request, the Commission will, or at any time upon its own motion may, set the matter down for hearing at a place to be designated by the Commission for the purpose of determining whether this order of suspension should be vacated or made permanent, without prejudice, however, to the consideration and presentation of additional matters at the hearing; and that notice of the time and place for said hearing will be promptly given by the Commission.

*It is further ordered,* That this order and notice shall be served upon Hemisphere Productions, Limited; Mr. George R. Turpin, 172 West Center, Provo, Utah; and The Matthew Corporation, 1526 Connecticut Avenue NW., Washington, D. C., personally or by registered mail or by confirmed telegraphic notice, and shall be published in the FEDERAL REGISTER.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

[24W-1807]

A. M. ELECTRONICS, INC.

ORDER TEMPORARILY SUSPENDING EXEMPTION, STATEMENT OF REASONS THEREFOR, AND NOTICE OF OPPORTUNITY FOR HEARING

JUNE 5, 1956.

I. A. M. Electronics, Inc., a Delaware corporation, with principal offices located at 802 North Capitol Street, Washington, D. C., having filed with the Commission on June 17, 1955 a Notification on Form 1-A and a Rule 219 (b) statement as an exhibit thereto, relating to a proposed offering of 2,400 shares of $10 par common stock at par, for the purpose of obtaining an exemption from the registration requirements of the Securities Act of 1933, as amended, pursuant to the provisions of section 3 (b) thereof and Regulation A promulgated thereunder; and

II. The Commission having reasonable cause to believe that the terms and conditions of Regulation A have not been complied with in that the company has failed to file reports of sales on Form 2-A as required by Rule 224 of Regulation A, and has ignored requests by the Commission's staff for such reports.

III. *It is ordered,* Pursuant to Rule 223 (a) of the general rules and regulations under the Securities Act of 1933, as amended, that the exemption under Regulation A be, and it hereby is, temporarily suspended.

Notice is hereby given that any person having any interest in the matter may file with the Secretary of the Commission a written request for hearing; that, within 20 days after receipt of such request, the Commission will, or at any time upon its own motion may, set the matter down for hearing at a place to be designated by the Commission for the purpose of determining whether this order of suspension should be vacated or made permanent, without prejudice, however, to the consideration and presentation of additional matters at the hearing; and that notice of the time and place for said hearing will be promptly given by the Commission.

*It is further ordered,* That this order and notice shall be served upon A. M. Electronics, Inc., and Michael S. Fitch, 2952 Second Street SE., Washington, D. C., personally or by registered mail or by confirmed telegraphic notice, and shall be published in the FEDERAL REGISTER.

By the Commission.

[Administrative Order 5379]

MISSOURI

AMENDMENT OF LOAN ANNOUNCEMENT

MAY 4, 1956.

Inasmuch as Northwest Missouri Electric Cooperative, Platte-Clay Electric Cooperative, Inc. and Nodaway Worth Electric Cooperative, Inc. have each transferred certain of their properties and assets to N. W. Electric Power Cooperative, Inc., and N. W. Electric Power Cooperative, Inc., has assumed a part of the indebtedness to United States of America, of Northwest Missouri Electric Cooperative, Platte-Clay Electric Cooperative, Inc. and Nodaway Worth Electric Cooperative, Inc., respectively, arising out of loans made by United States of America pursuant to the Rural Electrification Act of 1936, as amended, I hereby amend:

(a) Administrative Order No. 1602, dated September 20, 1948, by changing the project designation appearing therein as "Missouri 27L Andrew" in the

amount of $950,000 to read "Missouri 27L Andrew" in the amount of $910,545.39 and "Missouri 72TP3 Gentry (Missouri 27L Andrew)" in the amount of $39,454.61;

(b) Administrative Order No. 1061, dated May 31, 1946, by changing the project designation appearing therein as "Missouri 41M Platte" in the amount of $291,000 to read "Missouri 41M Platt" in the amount of $270,663.91 and "Missouri 72TP4 Gentry (Missouri 41M Platte)" in the amount of $20,336.09; and

(c) Administrative Order No. 417, dated July 1, 1940, by changing the project designation appearing therein as "Missouri 1051A1 Nodaway" in the amount of $360,000 to read "Missouri 1051A1 Nodaway" in the amount of $345,326.73 and "Missouri 72TP5 Gentry (Missouri 1051A1 Nodaway)" in the amount of $14,673.27.

51.2681 Damage.
51.2682 Serious damage.

AUTHORITY: §§ 51.2670 to 51.2682 issued under sec. 205, 60 Stat. 1090, as amended; 7 U. S. C. 1624.

GENERAL

§ 51.2670 *General.* The standards contained in this subpart apply only to the seed pods of plants of the species Vigna sinensis, generally known as "southern peas", "cowpeas" or "field peas". Well recognized general types are blackeyes, crowders, creams, and purple hulls, each of which includes many varieties.

GRADES

§ 51.2671 *U. S. No. 1.* "U. S. No. 1" consists of pods of southern peas of similar varietal characteristics which are fairly well formed, fairly well filled, not overmature or excessively young, and which are free from decay and worm holes, and free from damage caused by stems, leaves and trash, stings or other insect injury, scars, discoloration, wilting, dirt or other adhering foreign material, disease, mechanical or other means.

(a) Unless otherwise specified, each pod shall be not less than 5 inches in length.

(b) In order to allow for variations incident to proper grading and handling, the following tolerances shall be permitted:

(1) 5 percent for pods which are shorter than the specified minimum length;

(2) 5 percent for pods which are excessively young; and,

(3) 10 percent for other grade defects, including not more than 5 percent for pods with worm holes or affected by decay, but not more than one-fifth of this amount, or 1 percent, for pods affected by decay. (See §§ 51.2674 and 51.2675.)

§ 51.2672 *U. S. Commercial.* "U. S. Commercial" consists of pods of southern peas which meet the requirements of U. S. No. 1 grade, except that they shall be free from serious damage caused by stems, leaves and trash, and there shall be no requirement for minimum length, and except for the increased tolerances specified in this section.

(a) In order to allow for variations incident to proper grading and handling, the following tolerances shall be permitted:

(1) 10 percent for pods which are excessively young; and,

(2) 15 percent for other grade defects, including not more than 5 percent for pods with worm holes or affected by decay, but not more than two-fifths of

(Continued on p. 3985)

[1] Packing of the product in conformity with the requirements of these standards shall not excuse failure to comply with the provisions of the Federal Food, Drug, and Cosmetic Act.

# FEDERAL REGISTER

Published daily, except Sundays, Mondays, and days following official Federal holidays, by the Federal Register Division, National Archives and Records Service, General Services Administration, pursuant to the authority contained in the Federal Register Act, approved July 26, 1935 (49 Stat. 500, as amended; 44 U. S. C., ch. 8B), under regulations prescribed by the Administrative Committee of the Federal Register, approved by the President. Distribution is made only by the Superintendent of Documents, Government Printing Office, Washington 25, D. C.

The FEDERAL REGISTER will be furnished by mail to subscribers, free of postage, for $1.50 per month or $15.00 per year, payable in advance. The charge for individual copies (minimum 15 cents) varies in proportion to the size of the issue. Remit check or money order, made payable to the Superintendent of Documents, directly to the Government Printing Office, Washington 25, D. C.

The regulatory material appearing herein is keyed to the CODE OF FEDERAL REGULATIONS, which is published, under 50 titles, pursuant to section 11 of the Federal Register Act, as amended August 5, 1953. The CODE OF FEDERAL REGULATIONS is sold by the Superintendent of Documents. Prices of books and pocket supplements vary.

There are no restrictions on the republication of material appearing in the FEDERAL REGISTER, or the CODE OF FEDERAL REGULATIONS.

**CFR SUPPLEMENTS**

**(As of January 1, 1956)**

**The following Supplements are now available:**

**Title 7: Parts 900–959 (Rev., 1955) ($6.00)**

**Title 7: Part 960 to end (Rev., 1955) with Supplement ($5.85)**

**Title 46: Part 146 to end ($1.25)**

*Previously announced:* Title 3, 1955 Supp. ($2.00); Titles 4 and 5 ($1.00); Title 7: Parts 1–209 ($1.25); Title 8 ($0.50); Title 9 ($0.70); Titles 10–13 ($0.70); Title 14: Parts 1–399 ($2.50), Part 400 to end ($1.00); Title 15 ($1.00); Title 16 ($1.25); Title 17 ($0.60); Title 18 ($0.50); Title 19 ($0.50); Title 20 ($1.00); Title 21 (Rev., 1955) ($5.50); Titles 22 and 23 ($1.00); Title 24 ($0.75); Title 25 ($0.50); Title 26: Parts 1–79 ($0.35), Parts 80–169 ($0.50), Parts 170–182 ($0.30), Parts 183–299 ($0.35), Part 300 to end, Ch. I, and Title 27 ($1.00); Titles 28 and 29 ($1.25); Titles 30 and 31 ($1.25); Title 32: Parts 1–399 ($0.60), Parts 400–699 ($0.65), Parts 700–799 ($0.35), Parts 800–1099 ($0.40), Part 1100 to end ($0.35); Title 32A (Rev., 1955) ($1.25); Title 33 ($1.50); Titles 35–37 ($1.00); Titles 40–42 ($0.65); Title 43 ($0.50); Title 46: Parts 1–145 ($0.60); Title 49: Parts 1–70 ($0.60), Parts 71–90 ($1.00), Parts 91–164 ($0.50), Part 165 to end ($0.65)

this amount, or 2 percent, for pods affected by decay. (See §§ 51.2674 and 51.2675.)

UNCLASSIFIED

§ 51.2673 *Unclassified.* "Unclassified" consists of pods of southern peas which have not been classified in accordance with either of the foregoing grades. The term "unclassified" is not a grade within the meaning of these standards but is provided as a designation to show that no grade has been applied to the lot.

APPLICATION OF TOLERANCES

§ 51.2674 *Application of tolerances.* (a) The contents of individual packages in the lot, based on sample inspection, are subject to the following limitations: *Provided,* That the averages for the entire lot are within the tolerances specified for the grade:

(1) For a tolerance of 10 percent or more, individual packages in any lot may contain not more than one and one-half times the tolerance specified; and,

(2) For a tolerance of less than 10 percent, individual packages in any lot may contain not more than double the tolerance specified.

§ 51.2675 *Basis for calculating percentages.* Percentages shall be calculated on the basis of weight or on an equivalent basis.

DEFINITIONS

§ 51.2676 *Similar varietal characteristics.* "Similar varietal characteristics" means that the pods in any container shall be of the same general type. For example, varieties of the blackeye type shall not be mixed with varieties of the purple hull type or varieties of the crowder type; also small seeded varieties shall not be mixed with large seeded varieties.

§ 51.2677 *Fairly well formed.* "Fairly well formed" means that the pod is not curved or crooked to the extent that it forms approximately a semi-circle or right angle.

§ 51.2678 *Fairly well filled.* "Fairly well filled" means that at least two-thirds of the length of the pod is filled with peas which are at least fairly well developed for the variety, exclusive of the normal spaces between peas and vacant space for one pea at each end of the pod.

§ 51.2679 *Overmature.* "Overmature" means that the pod has developed beyond the stage at which it is desirable as a fresh product. Pods shall be considered overmature when they show definite drying or shriveling, or when green podded varieties show yellow or a conspicuous yellowish cast affecting one-half or more of the surface, or when purple hull varieties show excessively dark purplish color over the entire surface.

§ 51.2680 *Excessively young.* "Excessively young" means that the pod has not developed any peas of a size suitable for shelling for the variety. Such pods with only slightly developed peas are commonly called "snaps."

§ 51.2681 *Damage.* "Damage" means any defect which materially affects the appearance, or the edible or shipping quality of the individual pod, or the general appearance of the pods in the container. The pods in a container shall be considered damaged when stems, leaves or trash are present in sufficient quantities to materially affect the general appearance. Any one of the following defects, or any combination of defects the seriousness of which exceeds the maximum allowed for any one defect, shall be considered as damage:

(a) Stings when any pea is discolored, or when the appearance of the pod is materially affected by numerous, discolored stings;

(b) Scars when the pod is so extensively blemished or distorted in shape as to materially affect its appearance;

(c) Discoloration such as that caused by rust, blight or insects when so extensive or in such contrast to the color of the pod as to materially affect its appearance;

(d) Wilting when the pod is badly wilted or very flabby; and,

(e) Dirt or other adhering foreign material when materially affecting the appearance of the individual pod or the general appearance of the pods in the container.

§ 51.2682 *Serious damage.* "Serious damage" means that stems, leaves and trash are present in sufficient quantities to seriously affect the appearance of the pods in the container.

The United States Standards for Southern Peas contained in this subpart shall become effective 30 days after publication hereof in the FEDERAL REGISTER.

Dated: June 7, 1956.

[SEAL] ROY W. LENNARTSON,
*Deputy Administrator,*
*Marketing Services.*

# TITLE 26—INTERNAL REVENUE, 1954

## Chapter I—Internal Revenue Service, Department of the Treasury

### Subchapter A—Income Tax

[T. D. 6182]

### PART 1—INCOME TAX; TAXABLE YEARS BEGINNING AFTER DECEMBER 31, 1953

On November 11, 1955, a notice of proposed rule making with respect to section 167 of the Internal Revenue Code of 1954 (Pub. Law 591, 83d Congress, approved August 16, 1954) was published in the FEDERAL REGISTER (20 F. R. 8454). After consideration of all relevant matter presented by interested parties regarding the rules proposed, the regulations set forth below, which supersedes paragraph (3) of Treasury Decision 6118 (19 F. R. 9896), approved December 30, 1954, are hereby adopted. (In addition, paragraphs (8) and (10) of Treasury Decision 6118 were superseded by Treasury Decision 6134 (20 F. R. 4122), approved June 8, 1955; paragraphs (2) and (18) of Treasury Decision 6118 were superseded by Treasury Decision 6158 (21 F. R. 131), approved January 3, 1956; and paragraph (19) of Treasury Decision 6118 was superseded by Treasury Decision 6162 (21 F. R. 890), approved February 3, 1956.)

- 1.167 (f)-1 Basis for depreciation.
- 1.167 (g) Statutory provisions; depreciation; life tenants and beneficiaries of trusts and estates.
- 1.167 (g)-1 Life tenants and beneficiaries of trusts and estates.
- 1.167 (h) Statutory provisions; depreciation; depreciation of improvements in the case of mines, etc.
- 1.167 (h)-1 Depreciation of improvements in the case of mines, etc.

AUTHORITY: §§ 1.167 (a) to 1.167 (h)-1 issued under sec. 7805, 68A Stat. 917; 26 U. S. C. 7805. Interpret or apply sec. 167, 68A Stat. 51; 26 U. S. C. 167.

§ 1.167 (a) *Statutory provisions; depreciation; general rule.*

SEC. 167. *Depreciation*—(a) *General rule.* There shall be allowed as a depreciation deduction a reasonable allowance for the exhaustion, wear and tear (including a reasonable allowance for obsolescence)—

(1) Of property used in the trade or business, or

(2) Of property held for the production of income.

§ 1.167 (a)–1 *Depreciation in general*—(a) *Reasonable allowance.* Section 167 (a) provides that a reasonable allowance for the exhaustion, wear and tear, and obsolescence of property used in the trade or business or of property held by the taxpayer for the production of income shall be allowed as a depreciation deduction. The allowance is that amount which should be set aside for the taxable year in accordance with a reasonably consistent plan (not necessarily at a uniform rate), so that the aggregate of the amounts set aside, plus the salvage value, will, at the end of the estimated useful life of the depreciable property, equal the cost or other basis of the property as provided in section 167 (f) and § 1.167 (f)–1. An asset shall not be depreciated below a reasonable salvage value under any method of computing depreciation. See paragraph (c) of this section for definition of salvage. The allowance shall not reflect amounts representing a mere reduction in market value.

(b) *Useful life.* For the purpose of section 167 the estimated useful life of an asset is not necessarily the useful life inherent in the asset but is the period over which the asset may reasonably be expected to be useful to the taxpayer in his trade or business or in the production of his income. This period shall be determined by reference to his experience with similar property taking into account present conditions and probable future developments. Some of the factors to be considered in determining this period are (1) wear and tear and decay or decline from natural causes, (2) the normal progress of the art, economic changes, inventions, and current developments within the industry and the taxpayer's trade or business, (3) the climatic and other local conditions peculiar to the taxpayer's trade or business, and (4) the taxpayer's policy as to repairs, renewals, and replacements. Salvage value is not a factor for the purpose of determining useful life. If the taxpayer's experience is inadequate, the general experience in the industry may be used until such time as the taxpayer's own experience forms an adequate basis for making the determination. The estimated remaining useful life may be subject to modification by reason of conditions known to exist at the end of the taxable year and shall be redetermined when necessary regardless of the method of computing depreciation. However, estimated remaining useful life shall be redetermined only when the change in the useful life is significant and there is a clear and convincing basis for the redetermination. For rules covering agreements with respect to useful life, see section 167 (d) and § 1.167 (d)–1.

(c) *Salvage.* Salvage value is the amount (determined at the time of acquisition) which is estimated will be realizable upon sale or other disposition of an asset when it is no longer useful in the taxpayer's trade or business or in the production of his income and is to be retired from service by the taxpayer. Salvage value shall not be changed at any time after the determination made at the time of acquisition merely because of changes in price levels. However, if there is a redetermination of useful life under the rules of paragraph (b) of this section, salvage value may be redetermined based upon facts known at the time of such redetermination of useful life. Salvage, when reduced by the cost of removal, is referred to as net salvage. The time at which an asset is retired from service may vary according to the policy of the taxpayer. If the taxpayer's policy is to dispose of assets which are still in good operating condition, the salvage value may represent a relatively large proportion of the original basis of the asset. However, if the taxpayer customarily uses an asset until its inherent useful life has been substantially exhausted, salvage value may represent no more than junk value. Salvage value must be taken into account in determining the depreciation deduction either by a reduction of the amount subject to depreciation or by a reduction in the rate of depreciation, but in no event shall an asset (or an account) be depreciated below a reasonable salvage value. See, however, § 1.167 (b)–2 (a) for the treatment of salvage under the declining balance method. The taxpayer may use either salvage or net salvage in determining depreciation allowances but such practice must be consistently followed and the treatment of the costs of removal must be consistent with the practice adopted. For specific treatment of salvage value see §§ 1.167 (b)–1, 1.167 (b)–2, and 1.167 (b)–3. When an asset is retired or disposed of, appropriate adjustments shall be made in the asset and depreciation reserve accounts. For example, the amount of the salvage adjusted for the costs of removal may be credited to the depreciation reserve.

§ 1.167 (a)–2 *Tangible property.* The depreciation allowance in the case of tangible property applies only to that part of the property which is subject to wear and tear, to decay or decline from natural causes, to exhaustion, and to obsolescence. The allowance does not apply to inventories or stock in trade, or to land apart from the improvements or physical development added to it. The allowance does not apply to natural resources which are subject to the allowance for depletion provided in section 611. No deduction for depreciation shall be allowed on automobiles or other vehicles used solely for pleasure, on a building used by the taxpayer solely as his residence, or on furniture or furnishings therein, personal effects, or clothing; but properties and costumes used exclusively in a business, such as a theatrical business, may be depreciated.

§ 1.167 (a)–3 *Intangibles.* If an intangible asset is known from experience or other factors to be of use in the business or in the production of income for only a limited period, the length of which can be estimated with reasonable accuracy, such an intangible asset may be the subject of a depreciation allowance. Examples are patents and copyrights. An intangible asset, the useful life of which is not limited, is not subject to the allowance for depreciation. No allowance will be permitted merely because, in the unsupported opinion of the taxpayer, the intangible asset has a limited useful life. No deduction for depreciation is allowable with respect to goodwill. For rules with respect to organizational expenditures, see section 248 and the regulations thereunder.

§ 1.167 (a)–4 *Leased property.* Capital expenditures made by a lessee for the erection of buildings or the construction of other permanent improvements on leased property are recoverable through allowances for depreciation or amortization. If the useful life of such improvements in the hands of the taxpayer is equal to or shorter than the remaining period of the lease, the allowances shall take the form of depreciation under section 167. See §§ 1.167 (b)–0, 1.167 (b)–1, 1.167 (b)–2, 1.167 (b)–3, and 1.167 (b)–4 for methods of computing such depreciation allowances. If, on the other hand, the estimated useful life of such property in the hands of the taxpayer, determined without regard to the terms of the lease, would be longer than the remaining period of such lease, the allowances shall take the form of annual deductions from gross income in an amount equal to the unrecovered cost of such capital expenditures divided by the number of years remaining of the term of the lease. Such deductions shall be in lieu of allowances for depreciation. See section 162 and the regulations thereunder. Capital expenditures made by a lessor for the erection of buildings or other improvements shall, if subject to depreciation allowances, be recovered by him over the estimated life of the improvements without regard to the period of the lease.

§ 1.167 (a)–5 *Apportionment of basis.* In the case of the acquisition on or after March 1, 1913, of a combination of depreciable and nondepreciable property for a lump sum, as for example, buildings and land, the basis for depreciation cannot exceed an amount which bears the same proportion to the lump sum as the value of the depreciable property at the time of acquisition bears to the value of the entire property at that time. In the case of property which is subject to both the allowance for depreciation and amortization, depreciation is allowable only with respect to the portion of the depreciable property which is not subject to the allowance for amortization and may be taken concurrently with the allowance for amortization. After the close of the amortization period or after amortization deductions have been discontinued with respect to any such property, the unrecovered cost or other basis of the depreciable portion of such property will be subject to depreciation. For adjustments to basis, see section 1016 and other applicable provisions of law.

§ 1.167 (a)–6 *Depreciation in special cases*—(a) *Depreciation of patents or copyrights.* The cost or other basis of a patent or copyright shall be depreciated over its remaining useful life. Its cost to the patentee includes the various

Government fees, cost of drawings, models, attorneys' fees, and similar expenditures. For rules applicable to research and experimental expenditures, see sections 174 and 1016 and the regulations thereunder. If a patent or copyright becomes valueless in any year before its expiration the unrecovered cost or other basis may be deducted in that year.

(b) *Depreciation in case of farmers.* A reasonable allowance for depreciation may be claimed on farm buildings (except a dwelling occupied by the owner), farm machinery, and other physical property but not including land. Livestock acquired for work, breeding, or dairy purposes may be depreciated unless included in an inventory used to determine profits in accordance with section 61 and the regulations thereunder. Such depreciation should be determined with reference to the cost or other basis, salvage value, and the estimated useful life of the livestock. See also section 162 and the regulations thereunder relating to trade or business expenses, section 165 and the regulations thereunder relating to losses of farmers, and section 175 and the regulations thereunder relating to soil or water conservation expenditures.

§ 1.167 (a)–7 *Accounting for depreciable property.* (a) Depreciable property may be accounted for by treating each individual item as an account, or by combining two or more assets in a single account. Assets may be grouped in an account in a variety of ways. For example, assets similar in kind with approximately the same useful lives may be grouped together. Such an account is commonly known as a group account. Another appropriate grouping might consist of assets segregated according to use without regard to useful life, for example, machinery and equipment, furniture and fixtures, or transportation equipment. Such an account is commonly known as a classified account. A broader grouping, where assets are included in the same account regardless of their character or useful lives, is commonly referred to as a composite account. For example, all the assets used in a business may be included in a single account. Group, classified, or composite accounts may be further broken down on the basis of location, dates of acquisition, cost, character, use, etc.

(b) When group, classified, or composite accounts are used with average useful lives and a normal retirement occurs, the full cost or other basis of the asset retired, unadjusted for depreciation or salvage, shall be removed from the asset account and shall be charged to the depreciation reserve. Amounts representing salvage ordinarily are credited to the depreciation reserve. Where an asset is disposed of for reasons other than normal retirement, the full cost or other basis of the asset shall be removed from the asset account, and the depreciation reserve shall be charged with the depreciation applicable to the retired asset. For rules with respect to losses on normal retirements, see § 1.167 (a)–8.

(c) A taxpayer may establish as many accounts for depreciable property as he desires. Depreciation allowances shall be computed separately for each account. Such depreciation preferably should be recorded in a depreciation reserve account; however, in appropriate cases it may be recorded directly in the asset account. Where depreciation reserves are maintained, a separate reserve account shall be maintained for each asset account. The regular books of account or permanent auxiliary records shall show for each account the basis of the property, including adjustments necessary to conform to the requirements of section 1016 and other provisions of law relating to adjustments to basis, and the depreciation allowances for tax purposes. In the event that reserves for book purposes do not correspond with reserves maintained for tax purposes, permanent auxiliary records shall be maintained with the regular books of accounts reconciling the differences in depreciation for tax and book purposes because of different methods of depreciation, bases, rates, salvage, or other factors. Depreciation schedules filed with the income tax return shall show the accumulated reserves computed in accordance with the allowances for income tax purposes.

(d) In classified or composite accounts, the average useful life and rate shall be redetermined whenever additions, retirements, or replacements substantially alter the relative proportion of types of assets in the accounts. See example (2) in § 1.167 (b)–1 (b) for method of determining the depreciation rate for a classified or composite account.

§ 1.167 (a)–8 *Retirements*—(a) *Gains and losses on retirements.* For the purposes of this section the term "retirement" means the permanent withdrawal of depreciable property from use in the trade or business or in the production of income. The withdrawal may be made in one of several ways. For example, the withdrawal may be made by selling or exchanging the asset, or by actual abandonment. In addition, the asset may be withdrawn from such productive use without disposition as, for example, by being placed in a supplies or scrap account. The tax consequences of a retirement depend upon the form of the transaction, the reason therefor, the timing of the retirement, the estimated useful life used in computing depreciation, and whether the asset is accounted for in a separate or multiple asset account. Upon the retirement of assets, the rules in this section apply in determining whether gain or loss will be recognized, the amount of such gain or loss, and the basis for determining gain or loss:

(1) Where an asset is retired by sale at arm's length, recognition of gain or loss will be subject to the provisions of sections 1002, 1231, and other applicable provisions of law.

(2) Where an asset is retired by exchange, the recognition of gain or loss will be subject to the provisions of sections 1002, 1031, 1231, and other applicable provisions of law.

(3) Where an asset is permanently retired from use in the trade or business or in the production of income but is not disposed of by the taxpayer or physically abandoned (as, for example, when the asset is transferred to a supplies or scrap account), gain will not be recognized. In such a case loss will be recognized measured by the excess of the adjusted basis of the asset at the time of retirement over the estimated salvage value or over the fair market value at the time of such retirement if greater, but only if—

(i) The retirement is an abnormal retirement, or

(ii) The retirement is a normal retirement from a single asset account (but see paragraph (d) of this section for special rule for item accounts), or

(iii) The retirement is a normal retirement from a multiple asset account in which the depreciation rate was based on the maximum expected life of the longest lived asset contained in the account.

(4) Where an asset is retired by actual physical abandonment (as, for example, in the case of a building condemned as unfit for further occupancy or other use), loss will be recognized measured by the amount of the adjusted basis of the asset abandoned at the time of such abandonment. In order to qualify for the recognition of loss from physical abandonment, the intent of the taxpayer must be irrevocably to discard the asset so that it will neither be used again by him nor retrieved by him for sale, exchange, or other disposition.

Experience with assets which have attained an exceptional or unusual age shall, with respect to similar assets, be disregarded in determining the maximum expected useful life of the longest lived asset in a multiple asset account. For example, if a manufacturer establishes a proper multiple asset account for 50 assets which are expected to have an average life of 30 years but which will remain useful to him for varying periods between 20 and 40 years, the maximum expected useful life will be 40 years, even though an occasional asset of this kind may last 60 years.

(b) *Definition of normal and abnormal retirements.* For the purpose of this section the determination of whether a retirement is normal or abnormal shall be made in the light of all the facts and circumstances. In general, a retirement shall be considered a normal retirement unless the taxpayer can show that the withdrawal of the asset was due to a cause not contemplated in setting the applicable depreciation rate. For example, a retirement is considered normal if made within the range of years taken into consideration in fixing the depreciation rate and if the asset has reached a condition at which, in the normal course of events, the taxpayer customarily retires similar assets from use in his business. On the other hand, a retirement may be abnormal if the asset is withdrawn at an earlier time or under other circumstances, as, for example, when the asset has been damaged by casualty or has lost its usefulness suddenly as the result of extraordinary obsolescence.

(c) *Basis of assets retired.* The basis of an asset at the time of retirement for computing gain or loss shall be its adjusted basis for determining gain or loss

upon a sale or other disposition as determined in accordance with the provisions of section 1011 and the following rules:

(1) In the case of a normal retirement of an asset from a multiple asset account where the depreciation rate is based on average expected useful life, the term "adjusted basis" means the salvage value estimated in determinng the depreciation deduction in accordance with the provisions of § 1.167 (a)–1 (c),

(2) In the case of a normal retirement of an asset from a multiple asset account in which the depreciation rate was based on the maximum expected life of the longest lived asset in the account, the adjustment for depreciation allowed or allowable shall be made at the rate which would have been proper if the asset had been depreciated in a single asset account (under the method of depreciation used for the multiple asset account) using a rate based upon the maximum expected useful life of that asset, and

(3) In the case of an abnormal retirement from a multiple asset account the adjustment for depreciation allowed or allowable shall be made at the rate which would have been proper had the asset been depreciated in a single asset account (under the method of depreciation used for the multiple asset account) and using a rate based upon either the average expected useful life or the maximum expected useful life of the asset, depending upon the method of determining the rate of depreciation used in connection with the multiple asset account.

(d) *Special rule for item accounts.* (1) As indicated in paragraphs (a) (3) (ii) and (iii) of this section, a loss is recognized upon the normal retirement of an asset from a single asset account but a loss on the normal retirement of an asset in a multiple asset account is not allowable where the depreciation rate is based upon the average useful life of the assets in the account. Where a taxpayer with more than one depreciable asset chooses to set up a separate account for each such asset and the depreciation rate is based on the average useful life of such assets (so that he uses the same life for each account), the question arises whether his depreciation deductions in substance are the equivalent of those which would result from the use of multiple asset accounts and, therefore, he should be subject to the rules governing losses on retirements of assets from multiple asset accounts. Where a taxpayer has only a few depreciable assets which he chooses to account for in single asset accounts, particularly where such assets cover a relatively narrow range of lives, it cannot be said in the usual case that the allowance of losses on retirements from such accounts clearly will distort income. This results from the fact that where a taxpayer has only a few depreciable assets it is usually not possible clearly to determine that the depreciation rate is based upon the average useful life of such assets. Accordingly, it cannot be said that the taxpayer is in effect clearly operating with a multiple asset account using an average life rate so that losses should not be allowed on normal retirements. Therefore, losses normally will be allowed upon retirement of assets from single asset accounts where the taxpayer has only a few depreciable assets. On the other hand, when a taxpayer who has only a few depreciable assets chooses to account for them in single asset accounts, using for each account a depreciation rate based on the average useful life of such assets, and the assets cover a wide range of lives, the likelihood that income will be distorted is greater than where the group of assets covers a relatively narrow range of lives. In those cases where the allowance of losses would distort income, the rules with respect to the allowance of losses on normal retirement shall be applied to such assets in the same manner as though the assets had been accounted for in multiple asset accounts using a rate based upon average expected useful life.

(2) Where a taxpayer has a large number of depreciable assets and depreciation is based on the average useful life of such assets, then, whether such assets are similar or dissimilar and regardless of whether they are accounted for in individual asset accounts or multiple asset accounts the allowance of losses on the normal retirement of such assets would distort income. Such distortion would result from the fact that the use of average useful life (and, accordingly, average rate) assumes that while some assets normally will be retired before the expiration of the average life, others normally will be retired after expiration of the average life. Accordingly, if instead of accounting for a large number of similar or dissimilar depreciable assets in multiple asset accounts, the taxpayer chooses to account separately for such assets, using a rate based upon the average life of such assets, the rules with respect to the allowances of losses on normal retirements will be applied to such assets in the same manner as though the assets were accounted for in multiple asset accounts using a rate based upon average expected useful life.

(3) Where a taxpayer who does not have a large number of depreciable assets (and who therefore is not subject to subparagraph (2) of this paragraph) chooses to set up a separate account for each such asset, and has sought to comput an average life for such assets on which to base his depreciation deductions (so that he uses the same life for each account), the allowance of losses on normal retirements from such accounts may in some situations substantially distort income. Such distortion would result from the fact that the use of average useful life (and, accordingly, average rate) assumes that while some assets normally will be retired before expiration of the average life, others normally will be retired after expiration of the average life. Accordingly, where a taxpayer chooses to account separately for such assets instead of accounting for them in multiple asset accounts, and the result is to substantially distort his income, the rules with respect to the allowance of losses on normal retirements shall be applied to such assets in the same manner as though the assets had been accounted for in multiple asset accounts using a rate based upon average expected useful life.

(4) Whenever a taxpayer is treated under this paragraph as though his assets were accounted for in a multiple asset account using an average life rate, and, therefore, he is denied a loss on retirements, the unrecovered cost less salvage of each asset which was accounted for separately may be amortized in accordance with the rule stated in paragraph (e) (1) (ii) of this section.

(e) *Accounting treatment of asset retirements.* (1) In the case of a normal retirement where under the foregoing rules no loss is recognized and where the asset is retired without disposition or abandonment, (i) if the asset was contained in a multiple asset account, the full cost of such asset, reduced by estimated salvage, shall be charged to the depreciation reserve, or (ii) if the asset was accounted for separately, the unrecovered cost or other basis, less salvage, of the asset may be amortized through annual deductions from gross income in amounts equal to the unrecovered cost or other basis of such asset, divided by the average expected useful life (not the remaining useful life) applicable to the asset at the time of retirement. For example, if an asset is retired after six years of use and at the time of retirement depreciation was being claimed on the basis of an average expected useful life of ten years, the unrecovered cost or other basis less salvage would be amortized through equal annual deductions over a period of ten years from the time of retirement.

(2) Where multiple asset accounts are used and acquisitions and retirements are numerous, if a taxpayer, in order to avoid unnecessarily detailed accounting for individual retirements, consistently follows the practice of charging the reserve with the full cost or other basis of assets retired and of crediting it with all receipts from salvage, the practice may be continued so long as, in the opinion of the Commissioner, it clearly reflects income. Conversely, where the taxpayer customarily follows a practice of reporting all receipts from salvage as ordinary taxable income such practice may be continued so long as, in the opinion of the Commissioner, it clearly reflects income.

(f) *Cross reference.* For special rules in connection with the retirement of the last assets of a given year's acquisitions under the declining balance method, see example (2) in § 1.167 (b)–2 (b).

§ 1.167 (a)–9 *Obsolescence.* The depreciation allowance includes an allowance for normal obsolescence which should be taken into account to the extent that the expected useful life of property will be shortened by reason thereof. Obsolescence may render an asset economically useless to the taxpayer regardless of its physical condition. Obsolescence is attributable to many causes, including technological improvements and reasonably foreseeable economic changes. Among these causes are normal progress of the arts and sciences, supercession or inadequacy brought about by developments in the industry, products, methods, markets, sources of supply, and other like changes, and legislative or regulatory action. In any case in which the taxpayer shows that the estimated useful life previously used should be shortened by reason of obsolescence greater than had been assumed in computing such estimated useful life, a change to a new and shorter estimated useful life computed in accordance with such showing will be permitted. No such change will be permitted merely because in the unsupported opinion of the taxpayer the property may become obsolete. For rules governing the allowance of a loss when the usefulness of an asset is suddenly terminated, see section 165 and the regulations thereunder. If the estimated useful life and the depreciation rates have been the subject of a previous agreement, see section 167 (d) and § 1.167 (d)–1.

§ 1.167 (a)–10 *When depreciation deduction is allowable.* (a) A taxpayer should deduct the proper depreciation allowance each year and may not increase his depreciation allowances in later years by reason of his failure to deduct any depreciation allowance or of his action in deducting an allowance plainly inadequate under the known facts in prior years. The inadequacy of the depreciation allowance for property in prior years shall be determined on the basis of the allowable method of depreciation used by the taxpayer for such property or under the straight line method if no allowance has ever been claimed for such property. The preceding sentence shall not be construed as precluding application of any method provided in section 167 (b) if taxpayer's failure to claim any allowance for depreciation was due solely to erroneously treating as a deductible expense an item properly chargeable to capital account. For rules relating to adjustments to basis, see section 1016 and the regulations thereunder.

(b) The period for depreciation of an asset shall begin when the asset is placed in service and shall end when the asset is retired from service. A proportionate part of one year's depreciation is allowable for that part of the first and last year during which the asset was in service. However, in the case of a multiple asset account, the amount of depreciation may be determined by using what is commonly described as an "averaging convention", that is, by using an assumed timing of additions and retirements. For example, it might be assumed that all additions and retirements to the asset account occur uniformly throughout the taxable year, in which case depreciation is computed on the average of the beginning and ending balances of the asset account for the taxable year. See example (3) under § 1.167 (b)–1 (b). Among still other averaging conventions which may be usd is the one under which it is assumed that all additions and retirements during the first half of a given year were made on the first day of that year and that all additions and retirements during the second half of the year were made on the first day of the following year. Thus, a full year's depreciation would be taken on additions in the first half of the year and no depreciation would be taken on additions in the second half. Moreover, under this convention, no depreciation would be taken on retirements in the first half of the year and a full year's depreciation would be taken on the retirements in the second half. An averaging convention, if used, must be consistently followed as to the account or accounts for which it is adopted, and must be applid to both additions and retirements. In any year in which an averaging convention substantially distorts the depreciation allowance for the taxable year, it may not be used.

§ 1.167 (b) *Statutory provisions; depreciation; use of certain methods and rates.*

SEC. 167. *Depreciation.* • • •

(b) *Use of certain methods and rates.* For taxable years ending after December 31, 1953, the term "reasonable allowance" as used in subsection (a) shall include (but shall not be limited to) an allowance computed in accordance with regulations prescribed by the Secretary or his delegate, under any of the following methods:

(1) The straight line method,

(2) The declining balance method, using a rate not exceeding twice the rate which would have been used had the annual allowance been computed under the method described in paragraph (1),

(3) The sum of the years-digits method, and

(4) Any other consistent method productive of an annual allowance which, when added to all allowances for the period commencing with the taxpayer's use of the property and including the taxable year, does not, during the first two-thirds of the useful life of the property, exceed the total of such allowances which would have been used had such allowances been computed under the method described in paragraph (2).

Nothing in this subsection shall be construed to limit or reduce an allowance otherwise allowable under subsection (a).

§ 1.167 (b)–(0) *Methods of computing depreciation*—(a) *In general.* Any reasonable and consistently applied method of computing depreciation may be used or continued in use under section 167. Regardless of the method used in computing depreciation, deductions for depreciation shall not exceed such amounts as may be necessary to recover the unrecovered cost or other basis less salvage during the remaining useful life of the property. The reasonableness of any claim for depreciation shall be determined upon the basis of conditions known to exist at the end of the period for which the return is made. It is the responsibility of the taxpayer to establish the reasonableness of the deduction for depreciation claimed. Generally, depreciation deductions so claimed will be changed only where there is a clear and convincing basis for a change.

(b) *Certain methods.* Methods previously found adequate to produce a reasonable allowance under the Internal Revenue Code of 1939 or prior revenue laws will, if used consistently by the taxpayer, continue to be acceptable under section 167 (a). Examples of such methods which continue to be acceptable are the straight line method, the declining balance method with the rate limited to 150 percent of the applicable straight line rate, and under appropriate circumstances, the unit of production method. The methods described in section 167 (b) and §§ 1.167 (b)–1, 1.167 (b)–2, 1.167 (b)–3, and 4 shall be deemed to produce a reasonable allowance for depreciation except as limited under section 167 (c) and § 1.167 (c)–1. See also § 1.167 (e)–1 for rules relating to change in method of computing depreciation.

(c) *Application of methods.* In the case of item accounts, any method which results in a reasonable allowance for depreciation may be selected for each item of property, but such method must thereafter be applied consistently to that particular item. In the case of group, classified, or composite accounts, any method may be selected for each account. Such method must be applied to that particular account consistently thereafter but need not necessarily be applied to acquisitions of similar property in the same or subsequent years, provided such acquisitions are set up in separate accounts. See, however, § 1.167 (e)–1 and section 446 and the regulations thereunder, for rules relating to changes in the method of computing depreciation, and § 1.167 (c)–1 for restriction on the use of certain methods. See also § 1.167 (a)–7 for definition of account.

§ 1.167 (b)–1 *Straight line method*—(a) *Application of method.* Under the straight line method the cost or other basis of the property less its estimated salvage value is deductible in equal annual amounts over the period of the estimated useful life of the property. The allowance for depreciation for the taxable year is determined by dividing the adjusted basis of the property at the beginning of the taxable year, less salvage value, by the remaining useful life of the property at such time. For convenience, the allowance so determined may be reduced to a percentage or fraction. The straight line method may be used in determining a reasonable allowance for depreciation for any property which is subject to depreciation under section 167 and it shall be used in all cases where the taxpayer has not adopted a different acceptable method with respect to such property.

(b) *Illustrations.* The straight line method is illustrated by the following examples:

*Example (1).* Under the straight line method items may be depreciated separately:

| Year | Item | Cost or other basis less salvage | Useful life | Depreciation allowable | | |
|---|---|---|---|---|---|---|
| | | | | 1954 | 1955 | 1956 |
| | | | *Years* | | | |
| 1954 | Asset A | $1,600 | 4 | [1] $200 | $400 | $400 |
| | Asset B | 12,000 | 40 | [1] 150 | 300 | 300 |

[1] In this example it is assumed that the assets were placed in service on July 1, 1954.

*Example (2).* In group, classified, or composite accounting, a number of assets with the same or different useful lives may be combined into one account, and a single rate of depreciation, i. e., the group, classified, or composite rate used for the entire account. In the case of group accounts, i. e., accounts containing assets which are similar in kind and which have approximately the same esti-

allowed or allowable, and for all other adjustments provided by section 1016 and other applicable provisions of law. The declining balance rate may be determined without resort to formula. Such rate determined under section 167 (b) (2) shall not exceed twice the appropriate straight line rate computed without adjustment for salvage. While salvage is not taken into account in determining the annual allowances under this method, in no event shall an asset (or an account) be depreciated below a reasonable salvage value. See section 167 (c) and § 1.167 (c)-1 for restrictions on the use of the declining balance method.

(b) *Illustrations.* The declining balance method is illustrated by the following examples:

*Example (1).* A new asset having an estimated useful life of 20 years is purchased on January 1, 1954, for $1,000. The normal straight line rate (without adjustment for salvage) is 5 percent, and the declining balance rate is twice the normal straight line rate is 10 percent. The annual depreciation allowances for 1954, 1955, and 1956 are as follows:

| Year | Basis | Declining balance rate (percent) | Depreciation allowance |
|---|---|---|---|
| 1954 | $1,000 | 10 | $100 |
| 1955 | 900 | 10 | 90 |
| 1956 | 810 | 10 | 81 |

*Example (2).* A taxpayer filing his returns on a calendar year basis maintains a group account to which a 5 year life and a 40 percent declining balance rate are applicable. Original investment, additions, retirements, and salvage recoveries are the same as those set forth in example (3) of § 1.167 (b)-1 (b). Although salvage value is not taken into account in computing a declining balance rate, it must be recognized and accounted for when assets are retired.

DEPRECIABLE ASSET ACCOUNT AND DEPRECIATION COMPUTATION USING AVERAGE ASSET AND RESERVE BALANCES

| Year | Asset balance Jan. 1 | Current additions | Current retirements | Asset balance Dec. 31 | Average balance | Average reserve before depreciation | Net depreciable balance | Rate (percent) | Allowable depreciation |
|---|---|---|---|---|---|---|---|---|---|
| 1954 | $12,000 | $12,000 | ---------- | $12,000 | $6,000 | ---------- | $6,000 | 40 | $2,400 |
| 1955 | 12,000 | ---------- | ---------- | 12,000 | 12,000 | $2,400 | 9,600 | 40 | 3,840 |
| 1956 | 12,000 | ---------- | ---------- | 12,000 | 12,000 | 6,240 | 5,760 | 40 | 2,304 |
| 1957 | 12,000 | ---------- | $2,000 | 10,000 | 11,000 | 7,644 | 3,356 | 40 | 1,342 |
| 1958 | 10,000 | ---------- | 2,000 | 8,000 | 9,000 | 7,186 | 1,814 | 40 | 725 |
| 1959 | 8,000 | ---------- | 4,000 | 4,000 | 6,000 | 5,212 | 788 | 40 | 315 |
| 1960 | 4,000 | ---------- | 2,000 | 2,000 | 3,000 | 2,727 | 273 | 40 | 109 |
| 1961 | 2,000 | ---------- | 2,000 | ---------- | 1,000 | 836 | 164 | ---------- | [1] 164 |

[1] Balance allowable as depreciation in the year of retirement of the last survivor of the 1954 acquisitions.

DEPRECIATION RESERVE

| Year | Reserve Jan. 1 | Current retirements | Salvage realized | Reserve Dec. 31, before depreciation | Average reserve before depreciation | Allowable depreciation | Reserve Dec. 31, after depreciation |
|---|---|---|---|---|---|---|---|
| 1954 | ---------- | ---------- | ---------- | $2,400 | $1,200 | $2,400 | $2,400 |
| 1955 | $2,400 | ---------- | ---------- | 6,240 | 5,040 | 3,840 | 6,240 |
| 1956 | 6,240 | ---------- | ---------- | 8,544 | 7,644 | 2,304 | 8,544 |
| 1957 | 8,544 | $2,000 | $200 | 6,744 | 7,644 | 1,342 | 8,086 |
| 1958 | 8,086 | 2,000 | 200 | 6,286 | 7,186 | 726 | 7,012 |
| 1959 | 7,012 | 4,000 | 400 | 3,412 | 5,212 | 315 | 3,727 |
| 1960 | 3,727 | 2,000 | ---------- | 1,727 | 2,727 | 109 | 1,836 |
| 1961 | 1,836 | 2,000 | ---------- | (164) | 836 | 164 | ---------- |

Where separate depreciation accounts are maintained by year of acquisition and there is an unrecovered balance at the time of the last retirement, such unrecovered balance may be deducted as part of the depreciation allowance for the year of such retirement. Thus, if the taxpayer had kept separate depreciation accounts by year of acquisition and all the retirements shown in the example above were from 1954 acquisitions, depreciation would be computed on the 1954 and 1959 acquisitions as follows:

1954 ACQUISITIONS

| Year | Asset balance Jan. 1 | Acquisitions | Current retirements | Asset balance Dec. 31 | Average balance | Average reserve before depreciation | Net depreciable balance | Rate (percent) | Allowable depreciation |
|---|---|---|---|---|---|---|---|---|---|
| 1954 | ---------- | $12,000 | ---------- | $12,000 | $6,000 | ---------- | $6,000 | 40 | $2,400 |
| 1955 | $12,000 | ---------- | ---------- | 12,000 | 12,000 | $2,400 | 9,600 | 40 | 3,840 |
| 1956 | 12,000 | ---------- | ---------- | 12,000 | 12,000 | 6,240 | 5,760 | 40 | 2,304 |
| 1957 | 12,000 | ---------- | $2,000 | 10,000 | 11,000 | 7,644 | 3,356 | 40 | 1,342 |
| 1958 | 10,000 | ---------- | 2,000 | 8,000 | 9,000 | 7,186 | 1,814 | 40 | 725 |
| 1959 | 8,000 | ---------- | 4,000 | 4,000 | 6,000 | 5,212 | 788 | 40 | 315 |
| 1960 | 4,000 | ---------- | 2,000 | 2,000 | 3,000 | 2,727 | 273 | 40 | 109 |
| 1961 | 2,000 | ---------- | 2,000 | ---------- | 1,000 | 836 | 164 | ---------- | [1] 164 |

[1] Balance allowable as depreciation in the year of retirement of the last survivor of the 1954 acquisitions.

DEPRECIATION RESERVE FOR 1954 ACQUISITIONS

| Year | Reserve Jan. 1 | Current retirements | Salvage realized | Reserve Dec. 31, before depreciation | Average reserve before depreciation | Allowable depreciation | Reserve Dec. 31, after depreciation |
|---|---|---|---|---|---|---|---|
| 1954 | ---------- | ---------- | ---------- | ---------- | ---------- | $2,400 | $2,400 |
| 1955 | $2,400 | ---------- | ---------- | $2,400 | $2,400 | 3,840 | 6,240 |
| 1956 | 6,240 | ---------- | ---------- | 6,240 | 6,240 | 2,304 | 8,544 |
| 1957 | 8,544 | $2,000 | $200 | 6,744 | 7,644 | 1,342 | 8,086 |
| 1958 | 8,086 | 2,000 | 200 | 6,286 | 7,186 | 726 | 7,012 |
| 1959 | 7,012 | 4,000 | 400 | 3,412 | 5,212 | 315 | 3,727 |
| 1960 | 3,727 | 2,000 | ---------- | 1,727 | 2,727 | 109 | 1,836 |
| 1961 | 1,836 | 2,000 | ---------- | (164) | 836 | 164 | ---------- |

1959 ACQUISITIONS

| Year | Asset balance Jan. 1 | Acquisition | Asset balance Dec. 31 | Average balance | Reserve Dec. 31, before depreciation | Net depreciable balance | Rate (percent) | Allowable depreciation | Reserve Dec. 31, after depreciation |
|---|---|---|---|---|---|---|---|---|---|
| 1959 | ---------- | $10,000 | $10,000 | $5,000 | None | $5,000 | 40 | $2,000 | $2,000 |
| 1960 | $10,000 | ---------- | 10,000 | 10,000 | $2,000 | 8,000 | 40 | 3,200 | 5,200 |
| 1961 | 10,000 | ---------- | 10,000 | 10,000 | 5,200 | 4,800 | 40 | 1,920 | 7,120 |

In the above example, the allowable depreciation on the 1954 acquisitions totals $11,200. This amount when increased by salvage realized in the amount of $800, equals the entire cost or other basis of the 1954 acquisitions ($12,000).

(c) *Change in estimated useful life.* In the declining balance method when a change is justified in the useful life estimated for an account, subsequent computations shall be made as though the revised useful life had been originally estimated. For example, assume that an account has an estimated useful life of ten years and that a declining balance rate of 20 percent is applicable. If, at the end of the sixth year, it is determined that the remaining useful life of the account is six years, computations shall be made as though the estimated useful life was originally determined as twelve years. Accordingly, the applicable depreciation rate will be 16⅔ percent. This rate is thereafter applied to the unrecovered cost or other basis.

§ 1.167 (b)-3 *Sum of the years-digits method*—(a) *Applied to a single asset*—(1) *General rule.* Under the sum of the years-digits method annual allowances for depreciation are computed by applying changing fractions to the cost or other basis of the property reduced by estimated salvage. The numerator of the fraction changes each year to a number which corresponds to the remaining useful life of the asset (including the year for which the allowance is being computed), and the denominator which remains constant is the sum of all the years digits corresponding to the estimated useful life of the asset. See section 167 (c) and § 1.167 (c)-1 for restrictions on the use of the sum of the years-digits method.

(i) *Illustrations.* Computation of depreciation allowances on a single asset under the sum of the years-digits method is illustrated by the following examples:

*Example (1).* A new asset having an estimated useful life of five years was acquired on January 1, 1954, for $1,750. The estimated salvage is $250. For a taxpayer filing his returns on a calendar year basis, the annual depreciation allowances are as follows:

| Year | Cost or other basis less salvage | Fraction [1] | Allowable depreciation | Depreciation reserve |
|---|---|---|---|---|
| 1954 | $1,500 | 5/15 | $500 | $500 |
| 1955 | 1,500 | 4/15 | 400 | 900 |
| 1956 | 1,500 | 3/15 | 300 | 1,200 |
| 1957 | 1,500 | 2/15 | 200 | 1,400 |
| 1958 | 1,500 | 1/15 | 100 | 1,500 |
| Unrecovered value (salvage) | | | | $250 |

[1] The denominator of the fraction is the sum of the digits representing the years of useful life, i. e., 5, 4, 3, 2, and 1, or 15.

*Example (2).* Assume in connection with an asset acquired in 1954 that three-fourths of a year's depreciation is allowable in that year. The following illustrates a reasonable method of allocating depreciation:

| | Depreciation for 12 months | Allowable depreciation | | |
|---|---|---|---|---|
| | | 1954 | 1955 | 1956 |
| 1st year | $500 | (¼) $375 | (¾) $125 | |
| 2d year | 400 | ---------- | (¾) 300 | (¼) $100 |
| 3d year | 300 | ---------- | ---------- | (¾) 225 |
| | | 375 | 425 | 325 |

(ii) *Change in useful life.* Where in the case of a single asset, a change is justified in the useful life, subsequent computations shall be made as though the remaining useful life at the beginning of the taxable year of change were the useful life of a new asset acquired at such time and with a basis equal to the unrecovered cost or other basis of the asset at that time. For example, assume that a new asset with an estimated useful life of ten years is purchased in 1954. At the time of making out his return for 1959, the taxpayer finds that the asset has a remaining useful life of seven years from January 1, 1959. Depreciation for 1959 should then be computed as though 1959 were the first year of the life of an asset estimated to have a useful life of seven years, and the allowance for 1959 would be 7/28 of the unrecovered cost or other basis of the asset after adjustment for salvage.

(2) *Remaining life*—(i) *Application.* Under the sum of the years-digits method, annual allowances for depreciation may also be computed by applying changing fractions to the unrecovered cost or other basis of the asset reduced by estimated salvage. The numerator of the fraction changes each year to a number which corresponds to the remaining useful life of the asset (including the year for which the allowance is being computed), and the denominator changes each year to a number which represents the sum of the digits corresponding to the years of estimated remaining useful life of the asset. For decimal equivalents of such fractions see Table I below. For example, a new asset with an estimated useful life of 10 years is purchased January 1, 1954, for $6,000. Assuming a salvage value of $500, the depreciation allowance for 1954 is $1,000 ($5,500×0.1818, the applicable rate from Table I). For 1955, the unrecovered balance is $4,500, and the remaining life is 9 years. The depreciation allowance for 1955 would then be $900 ($4,500×0.2000, the applicable rate from Table I).

(ii) *Table I.* This table shows decimal equivalents of sum of the years-digits fractions corresponding to remaining lives from 1 to 100 years.

NOTE: For determination of decimal equivalents of remaining lives falling between those shown in the above table, the taxpayer may use the next longest life shown in the table, interpolate from the table, or use the following formula from which the table was derived.

$$D=\frac{2R}{(W+2F)(W+1)}$$

where:

$D$ = Decimal equivalent.
$R$ = Remaining life.
$W$ = Whole number of years in remaining life.
$F$ = Fractional part of year in remaining life.

If the taxpayer desires to carry his calculations of decimal equivalents to a greater number of decimal places than is provided in the table, he may use the formula. The procedure adopted must be consistently followed thereafter.

(b) *Applied to group, classified, or composite accounts*—(1) *General rule.* The sum of the years-digits method may be applied to group, classified, or composite accounts in accordance with the plan described in subparagraph (2) of this paragraph or in accordance with other plans as explained in subparagraph (3) of this paragraph.

(2) *Remaining life plan.* The remaining life plan as applied to a single asset is described in § 1.167 (b)–3 (a) (2). This plan may also be applied to group, classified, or composite accounts. Under this plan the allowance for depreciation is computed by applying changing fractions to the unrecovered cost or other basis of the account reduced by estimated salvage. The numerator of the fraction changes each year to a number which corresponds to the remaining useful life of the account (including the year for which the allowance is being computed), and the denominator changes each year to a number which represents the sum of the years digits corresponding to the years of estimated remaining useful life of the account. Decimal equivalents of such fractions can be obtained by use of Table I under § 1.167 (b)–3 (a) (2) (ii). The proper application of this method requires that the estimated remaining useful life of the account be determined each year. This determination, of course, may be made each year by analysis, i. e., by determining the remaining lives for each of the components in the account, and averaging them. The estimated remaining life of any account, however, may also be determined arithmetically. For example, it may be computed by dividing the unrecovered cost or other basis of the account, as computed by straight line depreciation, by the gross cost or other basis of the account, and multiplying the result by the average life of the assets in the account. Salvage value is not a factor for the purpose of determining remaining life. Thus, if a group account with an average life of ten years had at January 1, 1958, a gross asset balance of $12,600 and a depreciation reserve computed on the straight line method of $9,450, the remaining life of the account at January 1, 1958, would be computed as follows:

$$\frac{\$12,600-\$9,450}{\$12,600}\text{ times 10 years equals 2.50 years.}$$

*Example.* The use of the sum of the years-digits method with group, classified, or composite accounts under the remaining life plan is illustrated by the following example: A calendar year taxpayer maintains a group account to which a five-year life is applicable. Original investment, additions, retirements, and salvage recoveries are the same as those set forth in example (3) of § 1.167 (b)–1 (b).

DEPRECIATION COMPUTATIONS ON A GROUP ACCOUNT UNDER REMAINING LIFE PLAN

[1] ½ year's amount.
[2] F = Rate based on average service life (0.3333 in this example).

(3) *Other plans for application of the sum of the years-digits method.* Taxpayers who wish to use the sum of the years-digits method in computing depreciation for group, classified, or composite accounts in accordance with a sum of the years digits plan other than the remaining life plan described herein may do so only with the consent of the Commissioner. Request for permission to use plans other than that described shall be addressed to the Commissioner of Internal Revenue, Washington 25, D. C.

§ 1.167 (b)–4 *Other methods.* (a) Under section 167 (b) (4) a taxpayer may use any consistent method of computing depreciation, such as the sinking fund method, provided depreciation allowances computed in accordance with such method do not result in accumulated allowances at the end of any taxable year greater than the total of the accumulated allowances which could have resulted from the use of the declining balance method described in section 167 (b) (2). This limitation applies only during the first two-thirds of the useful life of the property. For example, an asset costing $1,000 having a useful life of six years may be depreciated under the declining balance method in accordance with § 1.167 (b)–2, at a rate of 33⅓ percent. During the first four years or ⅔ of its useful life, maximum depreciation allowances under the declining balance method would be as follows:

| | Current depreciation | Accumulated depreciation | Balance |
|---|---|---|---|
| Cost of asset | | | $1,000 |
| First year | $333 | $333 | 667 |
| Second year | 222 | 555 | 445 |
| Third year | 148 | 703 | 297 |
| Fourth year | 99 | 802 | 198 |

An annual allowance computed by any other method under section 167 (b) (4) could not exceed $333 for the first year, and at the end of the second year the total allowances for the two years could not exceed $555. Likewise, the total allowances for the three years could not exceed $703 and for the four years could not exceed $802. This limitation would not apply in the fifth and sixth years. See section 167 (c) and § 1.167 (c)–1 for restrictions on the use of certain methods.

(b) It shall be the responsibility of the taxpayer to establish to the satisfaction of the Commissioner that a method of depreciation under section 167 (b) (4) is both a reasonable and consistent method and that it does not produce depreciation allowances in excess of the amount permitted under the limitations provided in such section.

§ 1.167 (c) *Statutory provisions; depreciation; limitations on use of certain methods and rates.*

SEC. 167. *Depreciation.* • • •

(c) *Limitations on use of certain methods and rates.* Paragraphs (2), (3), and (4) of subsection (b) shall apply only in the case of property (other than intangible property) described in subsection (a) with a useful life of 3 years or more—

(1) The construction, reconstruction, or erection of which is completed after December 31, 1953, and then only to that portion of the basis which is properly attributable to such construction, reconstruction, or erection after December 31, 1953, or

(2) Acquired after December 31, 1953, if the original use of such property commences with the taxpayer and commences after such date.

§ 1.167 (c)–1 *Limitations on methods of computing depreciation under section 167 (b) (2), (3), and (4)—(a) In general.* (1) Section 167 (c) provides limitations on the use of the declining balance method described in section 167 (b) (2), the sum of the years-digits method described in section 167 (b) (3), and certain other methods authorized by section 167 (b) (4). These methods are applicable only to tangible property having a useful life of three years or more. If construction, reconstruction, or erection by the taxpayer began before January 1, 1954, and was completed after December 31, 1953, these methods apply only to that portion of the basis of the property which is properly attributable to such construction, reconstruction, or erection after December 31, 1953. Property is considered as constructed, reconstructed, or erected by the taxpayer if the work is done for him in accordance with his specifications. The portion of the basis of such property attributable to construction, reconstruction, or erection after December 31, 1953, consists of all costs of the property allocable to the period after December 31, 1953, including the cost or other basis of materials entering into such work. It is not necessary that such materials be acquired after December 31, 1953, or that they be new in use. If construction or erection by the taxpayer began after December 31, 1953, the entire cost or other basis of such construction or erection qualifies for these methods of depreciation. In the case of reconstruction of property, these methods do not apply to any part of the adjusted basis of such property on December 31, 1953. For purposes of this section, construction, reconstruction, or erection by the taxpayer begins when physical work is started on such construction, reconstruction, or erection.

(2) If the property was not constructed, reconstructed, or erected by the taxpayer, these methods apply only if it was acquired after December 31, 1953, and if the original use of the property commences with the taxpayer and commences after December 31, 1953. For the purpose of the preceding sentence, property shall be deemed to be acquired when reduced to physical possession, or control. The term "original use" means the first use to which the property is put, whether or not such use corresponds to the use of such property by the taxpayer. For example, a reconditioned or rebuilt machine acquired after December 31, 1953, will not be treated as being put to original use by the taxpayer even though it is put to a different use, nor will a horse acquired for breeding purposes be treated as being put to original use by the taxpayer if prior to the purchase the horse was used for racing purposes. See §§ 1.167 (b)–2, 1.167 (b)–3, and 1.167 (b)–4 for application of the various methods.

(3) Assets having an estimated average useful life of less than three years shall not be included in a group, classified, or composite account to which the methods described in §§ 1.167 (b)–2, 1.167 (b)–3, and 1.167 (b)–4 are applicable. However, an incidental retirement of an asset from such an account prior to the expiration of a useful life of three years will not prevent the application of these methods to such an account.

(4) See section 381 (c) (6) and the regulations thereunder for rules covering the use of depreciation methods by acquiring corporations in the case of certain corporate acquisitions.

(5) See section 1502 and § 1.1502–46 for the rule covering depreciation of property received by a member of an affiliated group from another member of the group during a consolidated return period.

(6) Except in the cases described in subparagraphs (4) and (5) of this paragraph, the methods of depreciation described in §§ 1.167 (b)–2, 1.167 (b)–3, and 1.167 (b)–4 are not applicable to property in the hands of a distributee, vendee, transferee, donee, or grantee unless the original use of the property begins with such person and the conditions required by section 167 (c) and this section are otherwise met. For example, these methods of depreciation may not be used by a corporation with respect to property which it acquires from an individual or partnership in exchange for its stock. Similarly, if an individual or partnership receives property in a distribution upon dissolution of a corporation, these methods of depreciation may not be used with respect to property so acquired by such individual or partnership. As a further example, these methods of depreciation may not be used by a partnership with respect to contributed property, nor by a partner with respect to partnership property distributed to him. Moreover, where a partnership is entitled to use these depreciation methods, and the optional adjustment to basis of partnership property provided by section 743 is applicable, (i) in the case of an increase in the adjusted basis of the partnership property under such section, the transferee partner with respect to whom such adjustment is applicable shall not be entitled to use such methods with respect to such increase, and (ii) in the case of a decrease in the adjusted basis of the partnership property under such section, the transferee partner with respect to whom such adjustment is applicable shall include in his income an amount equal to the portion of the depreciation deducted by the partnership which is attributable to such decrease.

(b) *Illustrations.* (1) The application of these methods to property constructed, reconstructed, or erected by the taxpayer after December 31, 1953, may be illustrated by the following examples:

*Example (1).* If a building with a total cost of $100,000 is completed after December 31, 1953, and the portion attributable to construction after December 31, 1953, is determined by engineering estimates or by cost accounting records to be $30,000, the methods referred to in paragraph (a) (1) above, are applicable only to the $30,000 portion of the total.

*Example (2).* In 1954, a taxpayer has an old machine with an unrecovered cost of $1,000. If he contracts to have it reconditioned, or reconditions it himself, at a cost of an additional $5,000, only the $5,000 may be depreciated under the methods referred to in paragraph (a) (1) above, whether or not the materials used for reconditioning are new in use.

*Example (3).* A taxpayer who acquired a building in 1940 makes major maintenance or repair expenditures in 1954 of a type which must be capitalized. For these expenditures the taxpayer may use a method of depreciation different from that used on the building (for example, the methods referred to in paragraph (a) (1) above) only if he accounts for such expenditures separately from the account which contained the original building. In such case, the unadjusted basis on any parts replaced shall be removed from the asset account and shall be charged to the appropriate depreciation reserve account. In the alternative he may capitalize such expenditures by charging them to the depreciation reserve account for the building.

(2) The application of these methods to property which was not constructed, reconstructed, or erected by the taxpayer but which was acquired after December 31, 1953, may be illustrated by the following examples:

*Example (1).* A taxpayer contracted in 1953 to purchase a new machine which he acquired in 1954 and put into first use in that year. He may use the methods referred to in paragraph (a) (1) above, in recovering the cost of the new machine.

*Example (2).* A taxpayer instead of reconditioning his old machine buys a "factory reconditioned" machine in 1954 to replace it. He cannot apply the methods referred to in paragraph (a) (1) above, to any part of the cost of the reconditioned machine since he is not the first user of the machine.

*Example (3).* In 1954, a taxpayer buys a house for $20,000 which had been used as a personal residence and thus had not been subject to depreciation allowances. He makes a capital addition of $5,000 and rents the property to another. The taxpayer may use the methods referred to in paragraph (a) (1) above, only with respect to the $5,000 cost of the addition.

(c) *Election to use methods.* Subject to the limitations set forth in paragraph (a) of this section, the methods of computing the allowance for depreciation specified in section 167 (b) (2), (3), and (4) may be adopted without permission and no formal election is required. In order for a taxpayer to elect to use these methods for any property described in paragraph (a) of this section, he need only compute depreciation thereon under any of these methods for any taxable year ending after December 31, 1953, in which the property may first be depreciated by him. The election with respect to any property shall not be binding with respect to acquisitions of similar property in the same year or subsequent year which are set up in separate accounts. If a taxpayer has filed his return for a taxable year ending after December 31, 1953, for which the return is required to be filed on or before September 15, 1956, an election to compute the depreciation allowance under any of the methods specified in section 167 (b) or a change in such an election may be made in an amended return or claim for refund filed on or before September 15, 1956.

§ 1.167 (d) *Statutory provisions; depreciation; agreement as to useful life on which depreciation rate is based.*

SEC. 167. *Depreciation.* • • •

(d) *Agreement as to useful life on which depreciation rate is based.* Where, under regulations prescribed by the Secretary or his delegate, the taxpayer and the Secretary or his delegate have, after the date of enactment of this title, entered into an agreement in writing specifically dealing with the useful life and rate of depreciation of any property, the rate so agreed upon shall be binding on both the taxpayer and the Secretary in the absence of facts or circumstances not taken into consideration in the adoption of such agreement. The responsibility of establishing the existence of such facts and circumstances shall rest with the party initiating the modification. Any change in the agreed rate and useful life specified in the agreement shall not be effective for taxable years before the taxable year in which notice in writing by registered mail is served by the party to the agreement initiating such change.

§ 1.167 (d)–1 *Agreement as to useful life and rates of depreciation.* After August 16, 1954, a taxpayer may, for taxable years ending after December 31, 1953, enter into an agreement with respect to the estimated useful life, method, and rate of depreciation and treatment of salvage of any property which is subject to the allowance for depreciation. An application for such agreement may be made to the district director of internal revenue for the district in which the taxpayer's return is required to be filed. Such application shall be filed in quadruplicate and shall contain in such detail as may be practical the following information:

(a) The character and location of the property.

(b) The original cost or other basis and date of acquisition.

(c) Proper adjustments to the basis including depreciation accumulated to the first taxable year to be covered by the agreement.

(d) Estimated useful life and estimated salvage value.

(e) Method and rate of depreciation.

(f) Any other facts and circumstances pertinent to making a reasonable estimate of the useful life of the property and its salvage value.

The agreement must be in writing and must be signed by the taxpayer and by the district director. The agreement must be signed in quadruplicate, and two of the signed copies will be returned to the taxpayer. The agreement shall set forth its effective date, the estimated remaining useful life, the estimated salvage value, and rate and method of depreciation of the property and the facts and circumstances taken into consideration in adoption of the agreement, and shall relate only to depreciation allowances for such property on and after the effective date of the agreement. Such an agreement shall be binding on both parties until such time as facts and circumstances which were not taken into account in making the agreement are shown to exist. The party wishing to modify or change the agreement shall have the responsibility of establishing the existence of such facts and circumstances. Any change in the useful life or rate specified in such agreement shall be effective only prospectively, that is, it shall be effective beginning with the taxable year in which notice of the intention to change, including facts and circumstances warranting the adjustment of useful life and rate, is sent by registered mail by the party proposing the change to the other party. A copy of the agreement (and any modification thereof) shall be filed with the taxpayer's return for the first taxable year which is affected by the agreement (or any modification thereof). A signed copy should be retained with the permanent records of the taxpayer. For rules relating to changes in method of depreciation, see § 1.167 (e)–1 and section 446 and the regulations thereunder.

§ 1.167 (e) *Statutory provisions; depreciation; change in method.*

SEC. 167. *Depreciation.* • • •

(e) *Change in method.* In the absence of an agreement under subsection (d) containing a provision to the contrary, a taxpayer may at any time elect in accordance with regulations prescribed by the Secretary or his delegate to change from the method of depreciation described in subsection (b) (2) to the method described in subsection (b) (1).

§ 1.167 (e)–1 *Change in method*—(a) *In general.* Any change in the method of computing the depreciation allowances with respect to a particular account is a change in method of accounting, and such a change will be permitted only with the consent of the Commissioner, except that the change from the declining balance method to the straight line method as provided in section 167 (e) shall be permitted without consent. See paragraph (b) of this section. A change in method of computing depreciation will be permitted only with respect to all the assets contained in a particular account as defined in § 1.167 (a)–7. Any change in the percentage of the current straight line rate under the declining balance method, as for example, from 200 percent of the straight line rate to any other percent of the straight line rate, or any change in the interest factor used in connection with a compound interest or sinking fund method will constitute a change in method of depreciation and will require the consent of the Commissioner. Any request for a change in method of depreciation shall be made in accordance with section 446 and the regulations thereunder and shall state the character and location of the property, method of depreciation being used and the method proposed, the date of acquisition, the cost or other basis and adjustments thereto, amounts recovered through depreciation and other allowances, the estimated salvage value, the estimated remaining life of the property, and such other information as may be required. For rules covering the use of depreciation methods by acquiring corporations in the case of certain corporate acquisitions, see section 381 (c) (6) and the regulations thereunder.

(b) *Declining balance to straight line.* In the case of an account to which the method described in section 167 (b) (2) is applicable, a taxpayer may change without the consent of the Commissioner, from the declining balance method of depreciation to the straight line method at any time during the useful life of the property under the following conditions. Such a change may not be made if a provision prohibiting such a change is contained in an agreement under section 167 (d). When the change is made, the unrecovered cost or other basis (less a reasonable estimate for salvage) shall be recovered through annual allowances over the estimated remaining useful life determined in accordance with the circumstances existing at that time. With respect to any account, this change will be permitted only if applied to all the assets in the account as defined in § 1.167 (a)–7. The taxpayer shall furnish a statement, with respect to the property which is the subject of the change, showing the date of acquisition, cost or other basis, amounts recovered through depreciation and other allowances, the estimated salvage value, the character of the property, the remaining useful life of the property, and such other information as may be required. The statement shall be attached to the taxpayer's return for the taxable year in which the change is made. A change to the straight line method must be adhered to for the entire taxable year of the change and for all subsequent taxable years unless, with the consent of the Commissioner, a change to another method is permitted.

§ 1.167 (f) *Statutory provisions; depreciation; basis for depreciation.*

SEC. 167. *Depreciation.* • • •

(f) *Basis for depreciation.* The basis on which exhaustion, wear and tear, and obsolescence are to be allowed in respect of any property shall be the adjusted basis provided in section 1011 for the purpose of determining the gain on the sale or other disposition of such property.

§ 1.167 (f)–1 *Basis for depreciation.* The basis upon which the allowance for depreciation is to be computed with respect to any property shall be the adjusted basis provided in section 1011 for the purpose of determining gain on the sale or other disposition of such property. In the case of property which has not been used in the trade or business or held for the production of income and which is thereafter converted to such use, the fair market value on the date of such conversion, if less than the adjusted basis of the property at that time, is the basis for computing depreciation.

§ 1.167 (g) *Statutory provisions; depreciation; life tenants and beneficiaries of trusts and estates.*

SEC. 167. *Depreciation.* • • •

(g) *Life tenants and beneficiaries of trusts and estates.* In the case of property held by one person for life with remainder to another person, the deduction shall be computed as if the life tenant were the absolute owner of the property and shall be allowed to the life tenant. In the case of property held in trust, the allowable deduction shall be apportioned between the income beneficiaries and the trustee in accordance with the pertinent provisions of the instrument creating the trust, or, in the absence of such provisions, on the basis of the trust income allocable to each. In the case of an estate, the allowable deduction shall be apportioned between the estate and the heirs, legatees, and devisees on the basis of the income of the estate allocable to each.

§ 1.167 (g)–1 *Life tenants and beneficiaries of trusts and estates*—(a) *Life tenants.* In the case of property held by one person for life with remainder to another person, the deduction for depreciation shall be computed as if the life tenant were the absolute owner of the property so that he will be entitled to the deduction during his life, and thereafter the deduction, if any, shall be allowed to the remainderman.

(b) *Trusts.* If property is held in trust, the allowable deduction is to be apportioned between the income beneficiaries and the trustee on the basis of the trust income allocable to each, unless the governing instrument (or local law) requires or permits the trustee to maintain a reserve for depreciation in any amount. In the latter case, the deduction is first allocated to the trustee to the extent that income is set aside for a depreciation reserve, and any part of the deduction in excess of the income set aside for the reserve shall be apportioned between the income beneficiaries and the trustee on the basis of the trust income (in excess of the income set aside for the reserve) allocable to each. For example:

(1) If under the trust instrument or local law the income of a trust computed without regard to depreciation is to be distributed to a named beneficiary, the beneficiary is entitled to the deduction to the exclusion of the trustee.

(2) If under the trust instrument or local law the income of a trust is to be distributed to a named beneficiary, but the trustee is directed to maintain a reserve for depreciation in any amount, the deduction is allowed to the trustee (except to the extent that income set aside for the reserve is less than the allowable deduction). The same result would follow if the trustee sets aside income for a depreciation reserve pursuant to discretionary authority to do so in the governing instrument.

No effect shall be given to any allocation of the depreciation deduction which gives any beneficiary or the trustee a share of such deduction greater than his pro rata share of the trust income, irrespective of any provisions in the trust instrument, except as otherwise provided in this paragraph when the trust instrument or local law requires or permits the trustee to maintain a reserve for depreciation.

(c) *Estates.* In the case of an estate, the allowable deduction shall be apportioned between the estate and the heirs, legatees, and devisees on the basis of income of the estate which is allocable to each.

§ 1.167 (h) *Statutory provisions; depreciation; depreciation of improvements in the case of mines, etc.*

SEC. 167. *Depreciation.* • • •

(h) *Depreciation of improvements in the case of mines, etc.* For additional rule applicable to depreciation of improvements in the case of mines, oil and gas wells, other natural deposits, and timber, see section 611.

§ 1.167 (h)–1 *Depreciation of improvements in the case of mines, etc.* Property used in the trade or business or held for the production of income which is subject to the allowance for depreciation provided in section 611 shall be treated for all purposes of the Internal Revenue Code of 1954 as if it were property subject to the allowance for depreciation under section 167. The preceding sentence shall not limit the allowance for depreciation otherwise allowable under section 611.

[SEAL] RUSSELL C. HARRINGTON,
*Commissioner of Internal Revenue.*

Approved: June 7, 1956.

DAN THROOP SMITH,
*Special Assistant to the Secretary in Charge of Tax Policy.*

# TITLE 6—AGRICULTURAL CREDIT

## Chapter IV—Commodity Stabilization Service and Commodity Credit Corporation, Department of Agriculture

### Subchapter B—Loans, Purchases and Other Operations

[1956 C. C. C. Grain Price Support Bulletin 1]

### PART 421—GRAINS AND RELATED COMMODITIES

SUBPART—GENERAL PROVISIONS 1956-CROP PRICE SUPPORT PROGRAMS

This bulletin (hereinafter called subpart) contains regulations of a general nature which will be applicable with respect to 1956 price support programs for certain grains and other commodities for which the Secretary of Agriculture makes price support available through the Commodity Credit Corporation and the Commodity Stabilization Service (referred to in this subpart and supplements hereto as CCC and CSS respectively).

A separate supplement to this subpart (hereinafter referred to as "commodity supplement"), containing additional specific requirements, will be issued for each commodity to which the provisions of this subpart are to be applicable.

Sec.
421.1601 Administration.
421.1602 Commodities covered by this subpart.
421.1603 Methods of price support.
421.1604 Disbursement of loans.
421.1605 Approved lending agencies.
421.1606 Approved storage.
421.1607 Applicable forms and requirements.
421.1608 Liens.
421.1609 Service charges.
421.1610 Set-offs.
421.1611 Interest rate.
421.1612 Transfer of producer's interest.
421.1613 Safeguarding the commodity.
421.1614 Insurance on farm-storage loans.
421.1615 Loss or damage to the commodity.
421.1616 Personal liability of the producer.
421.1617 Release of the commodity under loan.
421.1618 Liquidation of loans.
421.1619 Purchase agreement inspection, delivery and settlement.
421.1620 Foreclosure.
421.1621 Purchase of notes.
421.1622 CSS commodity offices.

AUTHORITY: §§ 421.1601 to 421.1622 issued under sec. 4, 62 Stat. 1070, as amended; 15 U. S. C. 714b. Interpret or apply sec. 5, 62 Stat. 1072, secs. 101, 301, 401, 63 Stat. 1051, 66 Stat. 758, 15 U. S. C. 714c; 7 U. S. C. 1441, 1447, 1421.

§ 421.1601 *Administration.* The programs to which this subpart applies will be administered by CSS, under the general direction and supervision of the Executive Vice President, CCC, and, in the field, will be carried out by Agricultural Stabilization and Conservation State Committees and Agricultural Stabilization and Conservation County Committees (hereinafter called State and county committees) and CSS commodity offices. Producers interested in participating in any program should contact their county office through which the price support documents will be distributed. All documents will be approved by the county office manager, or other employee of the county office designated by him to act in his behalf. Such designations shall be on file in the county office. Copies of all price support documents shall be retained in the county office. County office managers, State and county committees, and CSS commodity offices do not have authority to modify or waive any of the provisions of this subpart or any amendments or supplements to this subpart.

§ 421.1602 *Commodities covered by this subpart.* The provisions of this subpart shall apply to 1956 price support programs for barley, corn, dry edible beans, grain sorghums, flaxseed (except direct purchases), oats, rice, rye, soybeans, wheat, and any other 1956 price support program for which a commodity supplement to this subpart is issued.

§ 421.1603 *Methods of price support.* This subpart applies to farm-storage loans, warehouses-storage loans, and purchase agreements. The particular methods to be used for each commodity will be specified in the applicable commodity supplement to this subpart.

§ 421.1604 *Disbursement of loans.* Disbursement of loans will be made to producers by approved lending agencies under an agreement with CCC, or by ASC county offices by means of sight drafts drawn on CCC. No disbursements shall be made later than 15 days after the final date of availability of loans set forth in the applicable commodity supplement to this subpart, unless authorized by the Executive Vice President, CCC. Payment in cash, credit to the producer's account, or the drawing of a check or draft shall constitute disbursement. The producer shall not present the loan documents for disbursement unless the commodity is in existence and in good condition. If the commodity was not in existence or in good condition at the time of disbursement, the total amount disbursed under the loan shall be promptly refunded by the producer. In the event the amount disbursed exceeds the amount authorized under the applicable commodity supplement to this subpart, the producer shall be personally liable for repayment of the amount of such excess.

§ 421.1605 *Approved lending agencies.* An approved lending agency shall be any bank, cooperative marketing association, corporation, partnership, individual, or other legal entity, with which CCC has entered into a lending agency agreement.

§ 421.1606 *Approved storage.* Loans will be made only on commodities in approved storage. Purchase agreements may be executed without regard to whether the commodity is in approved storage. However, warehouse receipts representing commodities tendered to CCC under purchase agreements will be accepted in lieu of physical delivery only if the commodity is in approved warehouse storage, is in existence, and is in good condition at the time the warehouse receipt is tendered.

(a) *Farm-storage.* Approved farm storage shall consist of storage structures located on or off the farm (excluding public warehouses), which are deter-

mined by the county committee to be so located and of such substantial and permanent construction as to afford safe storage of the commodity.

(b) *Warehouse storage.* Approved warehouse storage shall consist of (1) Public warehouses for which a CCC uniform storage agreement for the commodity is in effect and which are approved by CCC for price support purposes, or (2) warehouses operated by Eastern common carriers under tariffs approved by the Interstate Commerce Commission for which custodian agreements are in effect. The names of approved warehouses may be obtained from CSS commodity offices or State and county committees.

§ 421.1607 *Applicable forms and requirements*—(a) *Farm-storage loans.* Applicable forms shall consist of Producer's Note and Supplemental Loan Agreement (Commodity Loan Form A), secured by Commodity Chattel Mortgage (Commodity Loan Form AA), Commodity Delivery Notice (Commodity Loan Form 15), Loan Settlement (Commodity Loan Form 7), and such other forms and documents as may be required by CCC.

(b) *Warehouse-storage loans.* Applicable forms shall consist of the Producer's Note and Loan Agreement (Commodity Loan Form B; CCC Rice Form B, in the case of rice; or CCC Dry Bean Form B, in the case of dry edible beans), and such other forms and documents as may be required by CCC.

(c) *Purchase agreements.* Applicable forms shall consist of the Purchase Agreement (Commodity Purchase Form 1) and Purchase Agreement Settlement (Commodity Purchase Form 4) signed by the producer and approved by the county office manager, the Delivery Instructions (Commodity Purchase Form 3) issued by the county committee, and such other forms and documents as may be required by CCC.

(d) *Warehouse receipts.* The form in which warehouse receipts shall be submitted will be stated in the commodity supplement to this subpart.

(e) *Other requirements.* Producer's Note and Supplemental Loan Agreements, Commodity Chattel Mortgages, and Producer's Note and Loan Agreements, must have State and documentary revenue stamps affixed thereto where required by law. Loan and purchase agreement documents executed by an administrator, executor, or trustee, will be acceptable only where legally valid. All of the commodity pledged as security for a loan evidenced by a single Producer's Note and Loan Agreement must be stored in the same warehouse. Farm-storage loans shall be made on the entire quantity of the commodity stored in the bin or crib except where the county committee has determined a loan on part of the commodity stored therein is necessary to enable an otherwise eligible producer to obtain a price support loan. Approval of a loan on part of the commodity stored in a bin or crib shall not be granted in the event the State committee has determined on a State-wide basis that such partial loans shall not be made.

§ 421.1608 *Liens.* If there are any liens or encumbrances on the commodity, waivers acceptable to the county committee must be obtained, even though the liens or encumbrances are satisfied from the loan or purchase proceeds.

§ 421.1609 *Service charges.* (a) Producers shall pay the following service charges on the quantity of the commodity placed under loan or specified in the purchase agreement. In the case of loans, the service charges shall be collected from the proceeds of the loan at the time the loan is disbursed except for prepayment of such minimum service charges as may be required under paragraph (b) of this section. In the case of purchase agreements, the service charges shall be collected at the time the Purchase Agreement (Commodity Purchase Form 1) is completed. Such service charges shall be computed at the rates shown in column (2) of the following table for commodities the quantity of which is determined on the basis of bushels, and at the rates shown in column (3) for commodities the quantity of which is determined on the basis of pounds or 100 pounds. An additional service charge shall be paid on any additional quantity delivered to and accepted by CCC under a farm-storage loan or not redeemed in the case of an identity-preserved warehouse-storage loan.

| Method of price support | Service charges: Per bushel | Per 100 pounds | Minimum charges |
|---|---|---|---|
| (1) | (2) | (3) | (4) |
| | *Cents* | *Cents* | |
| Farm-storage loans | 1 | 2 | [1] $3.00 |
| Warehouse-storage loans | ½ | [2] 1 | [2] 1.50 |
| Purchase agreements | ½ | 1 | 1.50 |

[1] Except rice for which State committees are authorized to require payment of $5 for each lot sampled.
[2] Except rice for which the service charge for warehouse storage loans shall be 2 cents per 100 pounds with a minimum charge of $3.

(b) In the case of farm-storage loans and identity-preserved warehouse-storage loans, State committees are authorized to require prepayment of the minimum service charges (shown in paragraph (a) of this section) at the time the producer applies for a loan.

(c) No refund of service charges will be made.

§ 421.1610 *Set-offs.* If the producer is indebted to CCC on any accrued obligation, or if any installment or installments on any loan made available by CCC on farm-storage facilities or mobile drying equipment are delinquent, or are payable under the provisions of the note evidencing such loan out of the proceeds of the price support loan or purchase, he must designate CCC or the lending agency holding such note as the payee of the proceeds of the price support loan or purchase to the extent of such indebtedness or installments, but not to exceed that portion of the proceeds remaining after deduction of loan service charges and amounts due prior lienholders. If the producer is indebted to any other agency of the United States and such indebtedness is listed on the county debt register, he must designate such agency as the payee of the proceeds as provided in this section. Indebtedness owing to CCC or to a lending agency as provided in this section shall be given first consideration after claims of prior lienholders. Where the producer has an outstanding loan(s), made under the Farm Storage Facility Loan Program or the Mobile Drying Equipment Loan Program, any storage payment due the producer for storage of the commodity in farm-storage structures shall be applied (1) to any delinquent amount(s), (2) to the borrower's storage facility loan installment or mobile drying equipment loan installment which is due and payable when the storage payment is due, and (3) to any extended installment(s), each including interest. Any amount of such storage payment not so applied, together with all other payments for services due the producer, shall be subject to set-off in the same manner as provided in this section for loan or purchase proceeds. Compliance with the provisions of this section shall not constitute a waiver of any right of the producer to contest the justness of the indebtedness involved either by administrative appeal or by legal action.

§ 421.1611 *Interest rate.* Loans shall bear interest at the rate of 3½ percent per annum from the date of disbursement of the loan, except that (1) where there is a default in satisfaction of, a farm-storage loan, identity-preserved or modified commingled warehouse-storage loan, the deficiency shall bear interest at the rate of 6 percent per annum from the date of default and (2) where there has been a fraudulent representation by the producer in the loan documents or in obtaining the loan, the loan shall bear interest at the rate of 6 percent per annum from the date of disbursement of the loan.

§ 421.1612 *Transfer of producer's interest*—(a) *Warehouse-storage loans.* The producer shall not transfer either his remaining interest in or his right to redeem a commodity pledged as security for a warehouse-storage loan, nor shall anyone acquire such interest or right. Warehouse receipts will be released only to the producer or his authorized agent as provided in § 421.1617.

(b) *Farm-storage loans.* The producer shall not transfer either his remaining interest in or his right to redeem a commodity mortgaged as security for a farm-storage loan nor shall anyone acquire such interest or right. A producer who wishes to liquidate all or part of his loan by contracting for the sale of the commodity must obtain written prior approval of the county committee on Commodity Loan Form 12 to remove the commodity from storage when the proceeds of the sale are needed to repay all or any part of the loan. Any such approval shall be subject to the terms and conditions set out in Commodity Loan Form 12, copies of which may be obtained by producers or prospective purchasers at the office of the county committee. Partial redemption of loans will not be approved by the county committee in the event the State committee has determined on a State-wide basis that partial redemption of loans will not be permited.

(c) *Purchase agreements.* The producer may not assign his interest in a purchase agreement.

§ 421.1613 *Safeguarding the commodity.* The producer obtaining a farm-storage loan is obligated to maintain the storage structure in good repair and to keep all the mortgaged commodity in storage and in good condition until the loan is liquidated.

§ 421.1614 *Insurance on farm-storage loans.* CCC will not require the producer to insure the commodity placed under a farm-storage loan; however, if the producer insures such commodity and an indemnity is paid thereon, such indemnity shall inure to the benefit of CCC to the extent of its interest, after first satisfying the producer's equity in the commodity involved in the loss.

§ 421.1615 *Loss or damage to the commodity.* The producer is responsible for any loss in quantity or quality of the commodity placed under farm-storage loan. Notwithstanding the foregoing, and subject to the provisions of § 421.1614, physical loss or damage occurring after disbursement of the loan funds will be assumed by CCC to the extent of the settlement value at the time of destruction of the quantity of the commodity destroyed, or in an amount equivalent to the extent of the damage as determined by CCC, if the producer establishes to the satisfaction of CCC each of the following conditions: (1) The physical loss or damage occurred without fault, negligence, or conversion on the part of the producer, or any other person having control of the storage structure; (2) The physical loss or damage resulted solely from an external cause (other than insect infestation, rodents, or vermin), such as theft, fire, lightning, inherent explosion, windstorm, cyclone, tornado, flood or other acts of God; (3) The producer has given the county committee immediate notice confirmed in writing of such loss or damage; (4) The producer has made no fraudulent representation in the loan documents or in obtaining the loan. No physical loss or damage occurring prior to disbursement of the loan funds to the producer will be assumed by CCC. Where disbursement of funds is made by sight draft or check, the date of the draft or check shall constitute the date of disbursement of the funds.

§ 421.1616 *Personal liability of the producer.* The making of any fraudulent representation by the producer in the loan documents, or in obtaining the loan or the conversion or unlawful disposition of any portion of the commodity by him may render the producer subject to criminal prosecution under the Federal Law and shall render him personally liable for the amount of the loan (including interest as provided in § 421.1611 hereof) and for any resulting expense incurred by any holder of the note.

§ 421.1617 *Release of the commodity under loan.* A producer may at any time obtain release of the commodity remaining under loan by paying to the holder of the note and supplemental loan agreement or note and loan agreement the principal amount thereof, plus charges and accrued interest. All charges in connection with the collection of the note shall be paid by the producer. Upon presentation of the paid note, the county office manager shall, in the case of farm-storage loans, arrange for the release of the chattel mortgage. The producer may arrange with the county committee for partial release of the commodity prior to maturity after making payment to the holder of the note for the quantity of the commodity released, plus charges and accrued interest; however, in the event the quantity of the commodity contained in the bin or crib and covered by the chattel mortgage is greater than the quantity with respect to which the amount of the loan was computed, all or part of such excess may be removed without payment on the loan but only upon prior approval by the county committee. Partial redemption of farm-storage loans and release of the commodity will not be approved by the county committee in the event the State committee has determined on a State-wide basis that partial redemption of loans and release of the commodity will not be permitted. In the case of warehouse-storage loans, such partial release must cover all of the commodity represented by one warehouse receipt. Warehouse receipts redeemed by repayment shall be released only to the producer-borrower or to another whom the producer has authorized in writing to receive the warehouse receipts as his agent. Such written authorization must be made within 30 days prior to redemption of warehouse receipts by repayment.

§ 421.1618 *Liquidation of loans*—(a) *Farm-storage loans.* (1) The producer is required to pay off his loan on or before maturity or to deliver the commodity in accordance with instructions issued by the county committee. If the producer desires to deliver the commodity, he should, prior to maturity, give the county committee notice in writing of his intention to do so. The producer may, however, pay off his loan and redeem his commodity at any time prior to the delivery of the commodity to CCC or removal of the commodity by CCC. If, either before or after maturity, the commodity is going out of condition or is in danger of going out of condition, the producer shall so notify the county committee, and confirm such notice in writing. If the county committee determines that the commodity is going out of condition or is in danger of going out of condition and that the commodity cannot be satisfactorily conditioned by the producer, and delivery cannot be accepted within a reasonable length of time, the county committee shall arrange for an inspection and grade and quality determination. When delivery is completed, settlement shall be made on the basis of such grade and quality determination or on the basis of the grade and quality determination made at the time of delivery, whichever is higher. In the event the farm is sold, there is a change of tenancy or the producer dies, the commodity may be delivered before the maturity date of the loan, upon prior approval by the county committee, or may be delivered before the maturity date of the loan for other reasons upon authorization of the Executive Vice President, CCC. Settlement will be made at the applicable support rate, subject to the provisions of the Producer's Note and Supplemental Loan Agreement and applicable commodity supplement according to grade and quality. Delivery of commodities in bulk will be accepted only from the bin(s) in which the commodity under loan is stored. The maximum quantity eligible for delivery in cases where a loan has been made on part of the commodity in the bin shall be the quantity on which the loan was made plus any normal overrun established by the State committee. In the case of commodities stored in bags, only the quantity contained in the bags included in the lot placed under loan may be delivered. Settlement will be made on the quantity delivered by the producer as determined by the county committee in accordance with the applicable commodity supplement.

(2) If the settlement value of the commodity delivered exceeds the amount due on the loan (excluding interest), such excess amount will be paid to the producer. Deliveries of commodities to CCC under farm-storage loans will be handled by the county committee which initially approved the loan. Any payment due to the producer will be made by sight draft drawn on CCC by the county office.

(3) If the settlement value of the commodity is less than the amount due on the loan (excluding interest), the amount of the deficiency plus interest thereon, shall be paid to CCC and may be set off against any payment which would otherwise be due to the producer under any agricultural program administered by the Secretary of Agriculture or any other payments which are due or may become due the producer from CCC or any other agency of the United States.

(b) *Warehouse-storage loans.* If the producer does not repay his loan by maturity, CCC shall have the right to sell or pool the commodity in satisfaction of the loan in accordance with the provisions of the note and loan agreement and § 421.1620. Any payment due the producer because of an overplus realized from the sale or pooling of the commodity or any refunds of unearned or prepaid storage on loans called prior to maturity will be made by the appropriate CSS commodity office.

(c) *Payments and collections; amounts not exceeding $3.00.* To avoid administrative costs of making small payments and handling small accounts, amounts due the producer of $3.00 or less will be paid only upon his request and a deficiency of $3.00 or less, including interest, may be disregarded by a producer unless demand for payment is made by CCC.

(d) *Support rate for settlement of loans applicable to barley, flaxseed, grain sorghums, rye and wheat.* (1) In the case of commodities stored in an approved warehouse, settlement shall be made at the applicable support rate for the county in which the warehouse is located, except as otherwise provided in

subparagraphs (3) and (4) of this paragraph.

(2) In the case of commodities delivered from other than approved warehouse storage, settlement shall be made at the applicable support rate for the county in which the producer's customary shipping point (as determined by the county committee) is located, except as otherwise provided in subparagraphs (3) and (4) of this paragraph.

(3) If two or more approved warehouses are located at the same or adjoining towns, villages, or cities having the same domestic interstate freight rate, such towns, villages, or cities shall be deemed to constitute one shipping point, and the same settlement rate shall apply even though such warehouses are not all located in the same county. Such settlement rate shall be the highest support rate of the counties involved.

(4) In the case of wheat stored in an approved warehouse or delivered to CCC under loan from other than approved warehouse storage, if the wheat is produced in the commercial wheat-producing area and stored or delivered outside the commercial wheat producing area, or if the wheat is produced in the non-commercial wheat-producing area and stored or delivered in the commercial wheat-producing area, settlement shall be made at the support rate for the county or terminal where the wheat is stored or delivered adjusted to the percentage level for the area where the wheat was produced as shown in the wheat supplement to this subpart.

(e) *Support rate for settlement of loans applicable to corn, oats, and soybeans.* In the case of corn, oats, and soybeans, whether stored in an approved warehouse or delivered from other than approved warehouse storage, settlement shall be made at the applicable support rate for the county in which the commodity was produced.

(f) *Compensation for hauling.* In the case of all commodities listed in paragraphs (d) and (e) of this section, if the producer is directed by the county committee to deliver his commodity to a point other than his customary shipping point, the producer shall be allowed compensation (as determined by CCC, at not to exceed the common carrier truck rate or the rate available from local truckers) for the additional cost of hauling the commodity any distance greater than the distance from the point where the grain is stored by the producer to the customary shipping point: *Provided,* That in the case of barley, flaxseed, grain sorghums, rye, and wheat if the producer is directed to deliver his commodity to a terminal market for which a support rate is established, settlement shall be based on the support rate for such terminal market and no compensation shall be allowed for hauling.

§ 421.1619 *Purchase agreement inspection, delivery, and settlement.* Provisions for the inspection, delivery and settlement on commodities under purchase agreement will be contained in the commodity supplements to this subpart.

§ 421.1620 *Foreclosure.* If the loan is not satisfied upon maturity, the holder of the note is authorized to remove the commodity from storage; and also to sell, assign, transfer, and deliver the commodity or documents evidencing title thereto at such time, in such manner, and upon such terms as the holder may determine, at public or private sale, either by separate contract or after pooling it with other lots of a commodity similarly held. Any such disposition may similarly be effected without removing the commodity from storage. The commodity may be processed before sale and the holder of the note may become the purchaser of the whole or any part of the commodity. If the commodity is pooled, the producer has no right of redemption after the date the pool is established, but shall share ratably in any overplus remaining upon liquidation of the pool. CCC shall have the right to treat the pooled commodity as a reserve supply to be marketed under such sales policies as CCC determines will promote orderly marketing, protect the interests of producers and consumers, and not unduly impair the market for the current crop of the commodity even though part or all of such pooled commodity is disposed of under such policies at prices less than the current domestic price for such commodity. Any sum due the producer as a result of the sale of the commodity or of insurance proceeds thereon, or any ratable share resulting from the liquidation of a pool, after deducting the amount of the note, interest, and charges, shall be payable only to the producer without right of assignment by him. If a farm-stored commodity removed by CCC from storage is sold at less than the amount due on the loan (excluding interest) and the quantity, grade, or quality of the commodity as removed is lower than that on which the loan was computed, the producer shall pay to CCC the difference between the amount due on the loan and the higher of the sales proceeds or the settlement value of the commodity removed by CCC, plus interest. The settlement value shall be determined in accordance with the provisions of the applicable commodity supplement and Producer's Note and Supplemental Loan Agreement concerning settlement of commodities delivered by the producer to CCC. The amount of the deficiency may be set off against any payment which would otherwise be due to the producer under any agricultural program administered by the Secretary of Agriculture, or any other payments which are due or may become due the producer from CCC, or any other agency of the United States.

§ 421.1621 *Purchase of notes.* Notes evidencing loans will be purchased by CCC from approved lending agencies in accordance with the terms of the lending agency agreement. The purchase price to be paid by CCC will be the principal sums remianing due on such notes plus an amount computed according to the lending agency agreement to cover interest. At maturity, or earlier upon request, lending agencies shall submit notes and reports to the ASC county office where the loan documents were approved.

§ 421.1622 *CSS commodity offices.* The CSS commodity offices and the areas served by them are shown below:

Chicago 5, Illinois, 623 South Wabash Avenue: Connecticut, Delaware, Illinois (except for rice), Indiana, Iowa, Kentucky, Maine, Maryland, Massachusetts, Michigan, New Hampshire, New Jersey, New York, Ohio, Pennsylvania, Rhode Island, Vermont, Virginia, West Virginia.

Dallas 1, Texas, 500 South Ervay Street: Alabama, Arkansas, Florida, Georgia, Illinois (for rice only), Louisiana, Mississippi, Missouri (for rice only), New Mexico, North Carolina, Oklahoma, South Carolina, Tennessee, Texas.

Kansas City 6, Missouri, 911 Walnut Street: Colorado, Kansas, Missouri (except for rice), Nebraska, Wyoming.

Minneapolis 8, Minnesota, 1006 West Lake Street: Minnesota, Montana, North Dakota, South Dakota, Wisconsin.

Portland 5, Oregon, 1218 Southwest Washington Street: Arizona, California, Idaho, Nevada, Oregon, Utah, Washington.

Issued this 6th day of June 1956.

[SEAL] EARL M. HUGHES,
*Executive Vice President,*
*Commodity Credit Corporation.*

[1956 C. C. C. Grain Price Support Bulletin 1, Supp. 1, Wheat]

## PART 421—GRAINS AND RELATED COMMODITIES

### SUBPART—1956-CROP WHEAT LOAN AND PURCHASE AGREEMENT PROGRAM

A price support program has been announced for the 1956 crop of wheat. The 1956 C. C. C. Grain Price Support Bulletin 1 (*supra*), issued by the Commodity Credit Corporation and containing the regulations of a general nature with respect to price support operations for certain grains and other commodities produced in 1956 is supplemented as follows:

Sec.
421.1636 Purpose.
421.1637 Availability of price support.
421.1638 Eligible wheat.
421.1639 Warehouse receipts.
421.1640 Determination of quantity.
421.1641 Determination of quality.
421.1642 Maturity of loans.
421.1643 Determination of support rates.
421.1644 Warehouse charges.
421.1645 Settlement.

AUTHORITY: §§ 421.1636 to 421.1645 issued under sec. 4, 62 Stat. 1070, as amended; 15 U. S. C. 714b. Interpret or apply sec. 5, 62 Stat. 1072, secs. 101, 401, 63 Stat. 1051, 1054; 15 U. S. C. 714c, 7 U. S. C. 1441, 1421.

§ 421.1636 *Purpose.* Sections 421.1636 to 421.1645 state additional specific requirements which, together with the general regulations contained in the 1956 C. C. C. Grain Price Support Bulletin 1 (§§ 421.1601 to 421.1622) apply to loans and purchase agreements under the 1956-crop Wheat Price Support Program.

§ 421.1637 *Availability of price support.*—(a) *Method of support.* Price support will be made available through farm-storage and warehouse-storage loans and through purchase agreements.

(b) *Area.* Farm-storage and warehouse-storage loans and purchase agreements will be available wherever wheat is grown in the continental United States, except that farm-storage loans will not be available in areas where the State committee determines that wheat cannot be safely stored on the farm.

(c) *Where to apply.* Application for price support should be made at the office of the county committee which keeps the farm-program records for the farm.

(d) *When to apply.* Loans and purchase agreements will be available from the time of harvest through January 31, 1957, and the applicable documents must be signed by the producer and delivered to the county committee not later than such date. Applicable documents include the Producer's Note and Loan Agreement for warehouse-storage loans, the Producer's Note and Supplemental Loan Agreement and the Commodity Chattel Mortgage for farm-storage loans, and the Purchase Agreement for purchase agreements.

(e) *Eligible producer.* An eligible producer shall be an individual, partnership, association, corporation, estate, trust, or other business enterprise, or legal entity, and wherever applicable, a State, political subdivision of a State, or any agency thereof, producing wheat in 1956 as landowner, landlord, tenant, or sharecropper: *Provided,* That a producer shall not be an eligible producer unless he is in compliance with the regulations pertaining to farm acreage allotments for the 1956 crop as determined in accordance with 1956 CCC Wheat Bulletin A, and any amendments thereto. Two or more eligible producers may obtain a joint loan on eligible wheat harvested by them if stored in the same farm-storage facility. In the case of joint loans, each person signing the note shall be held jointly and severally responsible for the loan. Where the county office has experienced difficulties in settling farm-storage loans with a producer, the county committee shall determine that he is not eligible for a farm-storage loan. He shall be eligible, however, to obtain a warehouse-storage loan or sign a purchase agreement.

§ 421.1638 *Eligible wheat.* Wheat to be eligible for price support, must meet all the applicable requirements set forth in this section.

(a) The wheat must have been produced in the continental United States in 1956 by an eligible producer.

(b) At the time the wheat is placed under loan or delivered under a purchase agreement:

(1) The beneficial interest in the wheat must be in the eligible producer tendering the wheat for loan or for delivery under a purchase agreement, and must always have been in him, or must have been in him and a former producer whom he succeeded before the wheat was harvested.

(2) To meet the requirements of succession to a former producer, the rights, responsibilities, and interest of the former producer with respect to the farming unit on which the wheat was produced shall have been substantially assumed by the person claiming succession. Mere purchase of the crop prior to harvest, without acquisition of any additional interest in the farming unit, shall not constitute succession. The county committee shall determine whether the requirements with respect to succession have been met.

(c) Wheat, at the time it is placed under loan, and wheat under purchase agreement which is in approved warehouse storage prior to notification by the producer of his intention to sell to CCC, must meet the following requirements:

(1) The wheat must be (i) of any class grading No. 3 or better, (ii) wheat of any class grading No. 4 or 5 on the factor of "test weight" and/or because of containing "Durum" and/or "Red Durum" but otherwise grading No. 3 or better; (iii) wheat of the class Mixed wheat, consisting of mixtures of grades of eligible wheat as stated in subdivision (i) or (ii) of this subparagraph provided such mixtures are the natural products of the field; and (iv) must meet the sanitation requirements set forth in paragraph (d) of this section.

(2) Wheat grading Tough, Weevily, Ergoty or Treated shall not be eligible, except that wheat represented by warehouse receipts grading "Tough" will be eligible if the warehouseman certifies on the supplemental certificate or on a statement attached to the warehouse receipt that "Wheat grading Tough has been processed at the request of the eligible producer, and delivery will be made of the same country-run quality, quantity, grade and protein (if any), not tough, and no lien for processing will be claimed by the warehouseman from Commodity Credit Corporation or any subsequent holder of said warehouse receipt."

(3) Except as provided in subparagraph (2) of this paragraph with respect to wheat grading "Tough," wheat of the class hard red spring, durum, or red durum, shall not contain more than 14½ percent moisture, and wheat of any other class shall not contain more than 14 percent moisture.

(4) If offered as security for a farm-storage loan, the wheat must have been stored in the granary at least 30 days prior to its inspection for measurement, sampling, and sealing, unless otherwise approved by the State committee.

(d) *Sanitation requirements.* The wheat when placed under loan or when delivered under loan or purchase agreement (1) must not contain one or more rodent pellets, or comparable amounts of other filth, per pint of wheat (liquid measure), nor 1 percent or more by weight of kernels visibly damaged by weevils or other insects, and (2) must not contain mercurial compounds or other substances poisonous to man or animals.

(e) Wheat under purchase agreement stored in other than approved warehouse storage must, in order to be eligible for sale to CCC, meet the requirements of paragraphs (c) (1) (2) (3) and (d) of this section on the basis of a pre-delivery inspection performed by a representative of the county committee in accordance with regulations to be subsequently issued. Wheat which does not meet the requirements of paragraphs (c) (1) (2) (3) and (d) on the basis of the pre-delivery inspection referred to above shall also be eligible for sale to CCC only if the producer complies with the conditions to be specified in § 421.1645 and the wheat on the basis of the inspection made at the time of delivery meets the requirements set forth in paragraphs (c) (1) (2) (3) and (d) of this section.

§ 421.1639 *Warehouse receipts.* Warehouse receipts, representing wheat in approved warehouse storage to be placed under loan or delivered under a purchase agreement, must meet the following requirements of this section:

(a) Warehouse receipts must be issued in the name of the producer, must be properly endorsed in blank so as to vest title in the holder, and must be receipts issued by a warehouse approved by CCC under the Uniform Grain Storage Agreement which indicate that the wheat is insured, or must be receipts issued on warehouses operated by Eastern common carriers under tariffs approved by the Interstate Commerce Commission for which custodian agreements are in effect.

(b) (1) Each warehouse receipt or the warehouseman's supplemental certificate (in duplicate) properly identified with the warehouse receipt must show: (i) Gross weight or bushels, (ii) class and subclass, (iii) grade (including special grades), (iv) test weight, (v) dockage, (vi) protein content (where determined by protein analysis or station average—station average shall not be used if protein analysis has been made; actual analysis shall be used), (vii) any other grading factor(s) when such factor(s), and not test weight, determine the grade, and (viii) whether the wheat arrived by rail, truck, or barge. In the case of wheat delivered by rail or barge, the grading factors, classes and subclasses, protein content (where determined by protein analysis) on the warehouse receipt must agree with the inbound inspection and protein certificates for the car or barge if such certificates are issued.

(2) If the warehouseman has processed the wheat as provided in § 421.1638 (c) (2), the supplemental certificate must show the numerical grade and the grading factors resulting from the wheat being processed. Where the grade and grading factors shown on the supplemental certificate do not agree with the warehouse receipt, the factors shown on the supplemental certificate shall take precedence.

(c) In the case of wheat delivered by rail or barge, the protein content, as determined by a recognized protein testing laboratory, must be shown on each warehouse receipt (or supplemental certificate accompanying the warehouse receipt) representing wheat of the classes of hard red spring and hard red winter and the varieties of Baart and Bluestem of the subclass hard white wheat, except that protein content need not be shown for the subclasses hard winter and yellow hard winter produced in States or areas tributary to markets where a showing of protein content is not customarily required.

(d) A separate warehouse receipt must be submitted for each grade and subclass of wheat.

(e) The warehouse receipt may be subject to liens for warehouse charges only to the extent indicated in § 421.1644.

(f) Warehouse receipts representing wheat which has been shipped by rail or water from a country shipping point to a designated terminal point, or shipped by rail or water from a country shipping point to a storage point and stored in transit to a designated terminal point, must be accompanied by registered freight bills, or by a certificate containing similar information in a form prescribed by the CSS commodity office which shall be signed by the warehouseman and which may be part of the supplemental certificate.

§ 421.1640 *Determination of quantity.* (a) The quantity of wheat placed under farm-storage loan may be determined either by weight or by measurement. The quantity of wheat placed under a warehouse-storage loan or delivered under a farm-storage loan or under a purchase agreement shall be determined by weight.

(b) When the quantity is determined by weight, a bushel shall be 60 pounds of wheat free of dockage. In determining the quantity of sacked wheat by weight, a deduction of ¾ of a pound for each sack shall be made.

(c) When the quantity of wheat is determined by measurement, a bushel shall be 1.25 cubic feet of wheat testing 60 pounds per bushel. The quantity determined shall be the following percentages of the quantity determined for 60-pound wheat:

| For wheat testing: | Percent |
|---|---|
| 65 pounds or over | 108 |
| 64 pounds or over, but less than 65 pounds | 107 |
| 63 pounds or over, but less than 64 pounds | 105 |
| 62 pounds or over, but less than 63 pounds | 103 |
| 61 pounds or over, but less than 62 pounds | 102 |
| 60 pounds or over, but less than 61 pounds | 100 |
| 59 pounds or over, but less than 60 pounds | 98 |
| 58 pounds or over, but less than 59 pounds | 97 |
| 57 pounds or over, but less than 58 pounds | 95 |
| 56 pounds or over, but less than 57 pounds | 93 |
| 55 pounds or over, but less than 56 pounds | 92 |
| 54 pounds or over, but less than 55 pounds | 90 |
| 53 pounds or over, but less than 54 pounds | 88 |
| 52 pounds or over, but less than 53 pounds | 87 |
| 51 pounds or over, but less than 52 pounds | 85 |
| 50 pounds or over, but less than 51 pounds | 83 |

(d) The percentage of dockage shall be determined and the weight of such dockage shall be deducted from the gross weight of the wheat in determining the net quantity available for loan or purchase. A quantity deduction for smut shall also be made in the manner provided in § 421.1641 (b).

§ 421.1641 *Determination of quality.* (a) The class, subclass, grade, grading factors, and all other quality factors shall be determined in accordance with the methods set forth in the Official Grain Standards of the United States for Wheat, whether or not such determinations are made on the basis of an official inspection: *Provided,* That determinations with respect to sanitation requirements specified in § 421.1638 (d) shall be made in accordance with instructions issued by CCC.

(b) In the States of California, Idaho, New Mexico, Nevada, Oregon, Utah, Washington, and the counties in Montana where it is a normal practice to determine smut on a percentage basis, the quantity of smut shall be stated in terms of half percent when smut dockage is present in a quantity equal to less than one percent, and in terms of whole percent when present in a quantity equal to one percent or more, and the quantity of smut so determined in pounds shall be deducted from the weight of the wheat after deduction of dockage. Elsewhere the smut condition of the wheat shall be determined on a degree basis. Where applicable, the words "Light Smutty" or "Smutty shall be added to, and made a part of, the grade determination.

(c) The garlicky condition of the wheat shall be made a part of the grade designation by addition of the words "Light Garlicky" or the word "Garlicky."

§ 421.1642 *Maturity of loans.* Loans mature on demand but not later than February 28, 1957, in the States of Alabama, Arkansas, Delaware, Florida, Georgia, Kentucky, Louisiana, Maryland, Mississippi, New Jersey, North Carolina, Pennsylvania, South Carolina, Tennessee, Virginia, and West Virginia, and not later than March 31, 1957, in all other States. The maturity date for a loan shall be the maturity date for the State where the wheat is stored.

§ 421.1643 *Determination of support rates.* Basic support rates for wheat will be set forth in 1956 C. C. C. Grain Price Support Bulletin 1, Supplement 2, Wheat. Support rates will be established for wheat stored in approved warehouse storage at designated terminal markets, and for wheat stored in approved country warehouses and in approved farm storage. The support rate for the quality of wheat placed under a loan or delivered under a purchase agreement shall be the applicable basic support rate adjusted in accordance with the provisions of this section and 1956 C. C. C. Grain Price Support Bulletin 1, Supplement 2, Wheat.

(a) *Support rates at designated terminal markets.* (1) (i) Wheat eligible for loan or purchase at the support rate established for designated terminal markets must have been shipped on a domestic interstate freight rate basis. On any wheat shipped at other than the domestic interstate freight rate, the support rate at the designated terminal market shall be reduced by the difference between the rate of the freight paid (plus tax) and the domestic interstate freight rate (plus tax).

(ii) The support rates established for designated terminal markets apply to wheat which has been shipped by rail or water from a country shipping point to one of the designated terminal markets as evidenced by paid freight bills duly registered for transit privileges: *Provided,* That in the event the amount of paid-in freight is insufficient to guarantee the minimum proportional domestic interstate freight rate from the terminal market, there shall be deducted from the applicable terminal support rate the difference between the amount of freight actually paid in and the amount required to be paid in to guarantee outbound movement at the minimum proportional domestic interstate freight rate.

(2) (i) When shipped by rail or water and stored at any designated terminal market, except the terminal markets listed in subparagraph (3) of this paragraph, wheat for which neither registered freight bills nor registered freight certificates are presented to guarantee outbound movement at the minimum proportional domestic interstate freight rate, shall have a support rate equal to the terminal rate minus 8 cents per bushel.

(ii) For wheat received by truck and stored at any designated terminal market, except the terminal markets listed in subparagraph (3) of this paragraph, the support rate shall be determined by making a deduction from the terminal rate as follows:

| Terminal located in: | Amount of deduction (cents per bushel) |
|---|---|
| Area I: Arizona, California, Idaho, Nevada, Oregon, Utah, Washington | 12½ |
| Area II: Minnesota, Montana, North Dakota, South Dakota (also Superior, Wisconsin) | 12½ |
| Area III: Colorado, Illinois, Iowa, Kansas, Missouri, Nebraska, Wyoming, Wisconsin (except Superior) | 13 |
| Area IV: Arkansas, Connecticut, Delaware, Indiana, Kentucky, Louisiana, Maine, Maryland, Massachusetts, Michigan, New Hampshire, New Jersey, New Mexico, New York, Ohio, Oklahoma, Pennsylvania, Rhode Island, Texas, Vermont, Virginia, West Virginia | 14 |
| Area V: Alabama, Florida, Georgia, Mississippi, North Carolina, South Carolina, Tennessee | 14 |

(3) (i) Wheat shipped by rail or water and stored at any of the following terminal markets and for which neither registered freight bills nor registered freight certificates are presented to guarantee outbound movement at the minimum proportional domestic interstate freight rate, shall have a support rate equal to the applicable terminal rate:

Los Angeles, San Francisco, Stockton, and Oakland, Calif.
New Orleans, La.
Baltimore, Md.
Duluth, Minn.
Portland and Astoria, Oreg.
Albany and New York, N. Y.
Philadelphia, Pa.
Galveston, Houston, and Corpus Christi, Tex.
Norfolk, Va.
Seattle, Longview, Tacoma and Vancouver, Wash.
Superior, Wis.

(ii) For wheat received by truck and stored at any of the terminal markets listed in subdivision (i) of this subparagraph, the support rate shall be determined by making a deduction from the terminal rate as follows:

| Terminal: | Amount of deduction (cents per bushel) |
|---|---|
| Los Angeles, San Francisco, Stockton, and Oakland, California; Duluth, Minnesota; Portland and Astoria, Oregon; Seattle, Longview, Tacoma, and Vancouver, Washington; Superior, Wisconsin | 4½ |
| New Orleans, Louisiana; Baltimore, Maryland; Philadelphia, Pennsylvania; Galveston, Houston, and Corpus Christi, Texas; Norfolk, Virginia; Albany and New York, N. Y. | 6 |

(b) *Support rates for wheat in approved warehouse storage at other than designated terminal markets.* (1) Except for the States designated in subparagraph (2) of this paragraph, the support rate for wheat stored in approved warehouses (other than those situated in the designated terminal markets) which is shipped by rail or water shall be determined by deducting from the appropriate designated terminal market rate an amount equal to the transit balance, if any (plus tax) of the through-freight rate from point of origin for such wheat to such terminal market: *Provided,* That on any wheat shipped at other than the domestic interstate freight rate, the support rate shall be further reduced by the difference between the rate of the freight paid (plus tax) and the domestic interstate freight rate (plus tax) from the point of origin of such wheat to the point of storage: *And provided further,* That in the case of wheat stored at any railroad transit point, taking a penalty by reason of out-of-line movement, or for any other reason, to the appropriate designated market, there shall be added to such transit balance an amount equal to any out-of-line costs or other costs incurred in storing wheat in such position.

(2) In the States of Delaware, Kentucky, Maryland, New Jersey, North Carolina, Tennessee, Virginia, and West Virginia, the CSS commodity office shall, upon request of the county committee, determine the support rate for wheat stored in approved warehouses (except those situated at designated terminal markets) which was shipped by rail in the movement of natural market direction as approved by CCC, by adding to the county rate for the county from which the wheat was shipped an amount per bushel equal to the receiving and loading-out charges computed in accordance with the applicable rates of the Uniform Grain Storage Agreement for the 1956 crop and an amount equal to the transit value of the freight paid (plus tax) from points of origin to markets designated by CCC. The warehouse receipts must be accompanied by the original paid freight bills or a certificate signed by the warehouseman as set forth in § 421.1639 (f). If the wheat is stored in approved warehouses located at transit points, taking a penalty by reason of backhaul, or out-of-line of normal market movements, such penalty or other costs by reason of such movement, as determined by CCC shall be deducted from the support rates as determined in this paragraph.

(c) *Discounts and premiums.* The basic support rates shall be adjusted by all applicable premiums and discounts listed in 1956 CCC Grain Price Support Bulletin 1, Supplement 2, Wheat. Included in the discount schedule will be the following undesirable varieties, listed by classes and applicable States, which will be subject to a special discount of 20 cents per bushel:

HARD RED WINTER

Purkof—Indiana, Michigan.
Red Chief—Illinois, Iowa, Missouri, South Dakota, Nebraska, Kansas, Oklahoma, Texas, Montana, Wyoming, Colorado, New Mexico.
Red Jacket—Illinois, Nebraska, Kansas, Oklahoma, Texas, Colorado, New Mexico.
Kanking—Missouri, Kansas, Oklahoma, Texas, Nebraska.
Kanqueen—Missouri, Colorado.
Chiefkan—Nebraska, Kansas, Oklahoma, Texas, Montana, Colorado, New Mexico.
Stafford—Nebraska, Kansas.
Early Pawnee (Sel. 33)—Kansas.
Early Blackhull—Kansas, Oklahoma, Texas, Montana, Colorado.
New Chief—Kansas, Oklahoma, Texas, Colorado, New Mexico.
Yogo—Kansas, Oklahoma, Texas.
Blue Jacket—Arkansas, Colorado, Idaho, Iowa, Kansas, Michigan, Missouri, Nebraska, New Mexico, Oklahoma, South Dakota, Texas, and Wyoming.

SOFT RED WINTER

Kawvale—Indiana, Illinois, Missouri, Kansas, Nebraska.

HARD RED SPRING

Henry—Michigan (Upper Peninsula), Minnesota, North Dakota, South Dakota, Montana.
Sturgeon—Wisconsin.
Progress—Wisconsin.
Spinkcota—Minnesota, North Dakota, South Dakota.
Premier—Montana, North Dakota.

WHITE

Rex—Idaho, Washington, Oregon.
Sonora—California.
Galgalos—Nebraska.

DURUM

Golden Ball—Minnesota, North Dakota, South Dakota, Montana.
Preliss—North Dakota, Montana.
Pentad—North Dakota.

§ 421.1644 *Warehouse charges.* (a) Warehouse receipts and the wheat represented thereby stored in approved warehouses operating under the Uniform Grain Storage Agreement may be subject to liens for warehouse handling and storage charges not to exceed the Uniform Grain Storage Agreement rates from the date the grain is deposited in the warehouse for storage. Where the date of deposit (the date of the warehouse receipt if the date of deposit is not shown) on warehouse receipts representing wheat stored in warehouses operating under the Uniform Grain Storage Agreement is on or before Februray 28 or March 31, 1957, the applicable date to be determined in accordance with § 421.1642, there shall be deducted in computing the amount of the loan or purchase price the storage charges per bushel as shown in the following table unless written evidence has been submitted with the warehouse receipt that all warehouse charges, except receiving and loading out charges, have been prepaid through February 28 or March 31, 1957, the applicable date to be determined in accordance with § 421.1642:

| Amount of deduction (cents per bushel) | Area I [1] Date of deposit (all dates inclusive) | Area II [2] and Area III [3] Date of deposit (all dates inclusive) | Area IV [4] For States having maturity dates not later than Mar. 31, 1957; date of deposit (all dates inclusive) | Area IV [4] For States having maturity dates not later than Feb. 28, 1957; date of deposit (all dates inclusive) | Area V Date of deposit (all dates inclusive) |
|---|---|---|---|---|---|
| 15 | Prior to May 2, 1956 | Prior to May 17, 1956 | Prior to May 31, 1956 | Prior to Apr. 30, 1956 | Prior to May 14, 1956. |
| 14 | May 2–May 24, 1956 | May 17–June 7, 1956 | May 31–June 20, 1956 | Apr. 30–May 20, 1956 | May 14–June 2, 1956. |
| 13 | May 25–June 16, 1956 | June 8–June 29, 1956 | June 21–July 11, 1956 | May 21–June 10, 1956 | June 3–June 22, 1956. |
| 12 | June 17–July 9, 1956 | June 30–July 21, 1956 | July 12–Aug. 1, 1956 | June 11–July 1, 1956 | June 23–July 12, 1956. |
| 11 | July 10–Aug. 1, 1956 | July 22–Aug. 12, 1956 | Aug. 2–Aug. 22, 1956 | July 2–July 22, 1956 | July 13–Aug. 1, 1956. |
| 10 | Aug. 2–Aug. 24, 1956 | Aug. 13–Sept. 3, 1956 | Aug. 23–Sept. 12, 1956 | July 23–Aug. 12, 1956 | Aug. 2–Aug. 21, 1956. |
| 9 | Aug. 25–Sept. 10, 1956 | Sept. 4–Sept. 25, 1956 | Sept. 13–Oct. 3, 1956 | Aug. 13–Sept. 2, 1956 | Aug. 22–Sept. 10, 1956. |
| 8 | Sept. 17–Oct. 9, 1956 | Sept. 26–Oct. 17, 1956 | Oct. 4–Oct. 24, 1956 | Sept. 3–Sept. 23, 1956 | Sept. 11–Sept. 30, 1956. |
| 7 | Oct. 10–Nov. 1, 1956 | Oct. 18–Nov. 8, 1956 | Oct. 25–Nov. 14, 1956 | Sept. 24–Oct. 14, 1956 | Oct. 1–Oct. 20, 1956. |
| 6 | Nov. 2–Nov. 24, 1956 | Nov. 9–Nov. 30, 1956 | Nov. 15–Dec. 5, 1956 | Oct. 15–Nov. 4, 1956 | Oct. 21–Nov. 9, 1956. |
| 5 | Nov. 25–Dec. 17, 1956 | Dec. 1–Dec. 22, 1956 | Dec. 6–Dec. 26, 1956 | Nov. 5–Nov. 25, 1956 | Nov. 10–Nov. 29, 1956. |
| 4 | Dec. 18, 1956–Jan. 9, 1957 | Dec. 23, 1956–Jan. 13, 1957 | Dec. 27, 1956–Jan. 16, 1957 | Nov. 26–Dec. 16, 1956 | Nov. 30–Dec. 19, 1956. |
| 3 | Jan. 10–Feb. 1, 1957 | Jan. 14–Feb. 4, 1957 | Jan. 17–Feb. 6, 1957 | Dec. 17, 1956–Jan. 6, 1957 | Dec. 20, 1956–Jan. 8, 1957. |
| 2 | Feb. 2–Feb. 24, 1957 | Feb. 5–Feb. 26, 1957 | Feb. 7–Feb. 27, 1957 | Jan. 7–Jan. 27, 1957 | Jan. 9–Jan. 28, 1957. |
| 1 | Feb. 25–Mar. 31, 1957 | Feb. 27–Mar. 31, 1957 | Feb. 28–Mar. 31, 1957 | Jan. 28–Feb. 28, 1957 | Jan. 29–Feb. 28, 1957. |

[1] Area I includes: Arizona, California, Idaho, Nevada, Oregon, Utah, Washington.
[2] Area II includes: Minnesota, Montana, North Dakota, South Dakota (also Superior, Wisconsin).
[3] Area III includes: Colorado, Illinois, Iowa, Kansas, Missouri, Nebraska, Wyoming, Wisconsin (except Superior).
[4] Area IV includes: Arkansas, Connecticut, Delaware, Indiana, Kentucky, Louisiana, Maine, Maryland, Massachusetts, Michigan, New Hampshire, New Jersey, New Mexico, New York, Ohio, Oklahoma, Pennsylvania, Rhode Island, Texas, Vermont, Virginia, West Virginia.
[5] Area V includes: Alabama, Florida, Georgia, Mississippi, North Carolina, South Carolina, Tennessee.

(b) Warehouse receipts and the wheat represented thereby stored in approved warehouses operated by Eastern common carriers may be subject to liens for warehouse elevation (receiving and delivering) and storage charges from the date of deposit at rates approved by the Interstate Commerce Commission. There shall be deducted in computing the amount of the loan or purchase price the amount of the approved tariff rates for storage (not including elevation), which will accumulate from the date of deposit through February 28, or March 31, 1957, whichever date is applicable to the point of storage as determined in accordance with § 421.1642, unless written evidence has been submitted with the warehouse receipt that the storage charge has been prepaid. The county committee shall request the CSS commodity office to determine the amount of such charges. Where the producer presents evidence showing that elevation charges have been prepaid, the amount of the storage charges to be deducted shall be reduced by the amount of the elevation charges prepaid by the producer.

§ 421.1645 *Settlement*—(a) *Settlement value.* (1) In the case of eligible wheat delivered to CCC from farm storage under the loan program, settlement shall be made at the applicable support rate determined in accordance with § 421.1618 (d). The support rate shall be for the grade and quality of the total quantity of wheat eligible for delivery. If, upon delivery, the wheat under farm-storage loan is of a grade or quality for which no support rate has been established, the settlement value shall be computed at the support rate established for the grade and quality of the wheat placed under loan, less the difference, if any, at the time of delivery, between the market price for the grade and quality placed under loan and the market price of the wheat delivered, as determined by CCC: *Provided, however,* That if such wheat is sold by CCC in order to determine its market price, the settlement value shall not be less than such sales price and: *Provided further,* That if upon delivery the wheat is of a quality which does not meet sanitation requirements of § 421.1638 (d) (1), the wheat shall be sold for feed, or for industrial uses other than food and beverages, and in the event it does not meet the requirements of § 421.1638 (d) (2), shall be sold for seed (in accordance with applicable State seed laws and regulations), fuel, or industrial uses where the end product will not be consumed by man or animals, and in each instance covered by this proviso, the settlement value shall be the same as the sales price: *Provided further,* That if CCC is unable to sell such commodity for the use specified above, the settlement value shall be the market value, if any, as determined by CCC, as of the date of delivery.

(2) Provisions applicable to the predelivery inspection of wheat under purchase agreement and the basis for settlement with the producer on wheat delivered to CCC under purchase agreement will be issued as an amendment to this subpart.

(b) *Storage deduction for early delivery.* No deduction for storage shall be made for farm-stored wheat under loan or purchase agreement authorized to be delivered to CCC prior to the loan maturity date for the State, except where it is necessary to call the loan through fault or negligence on the part of the producer or where the producer requests early delivery and the county committee approves the early delivery and determines such early delivery is solely for the convenience of the producer. The deduction for storage shall be made in accordance with the schedule of deductions for warehouse charges in § 421.1644.

(c) *Refund of prepaid handling charges.* In case a warehouseman charges the producer for the receiving or the receiving and loading out charges on wheat under loan or purchase agreement stored in a warehouse under the Uniform Grain Storage Agreement, the producer shall, upon delivery of the wheat to CCC, be reimbursed or given credit by the county office for such prepaid charges in an amount not to exceed the charges authorized under the Uniform Grain Storage Agreement, provided the producer furnishes to the county committee written evidence signed by the warehouseman that such charges have been paid.

(d) *Storage payment where CCC is unable to take delivery of wheat stored in other than an approved warehouse under loan or purchase agreement.* The producer may be required to retain wheat stored in other than an approved warehouse under loan or purchase agreement for a period of 60 days after the applicable maturity date without any cost to CCC. However, if CCC is unable to take delivery of such wheat within the 60-day period after maturity, the producer shall be paid a storage payment upon delivery of the wheat to CCC: *Provided, however,* That a storage payment shall be paid a producer whose wheat is stored in other than an approved warehouse under purchase agreement only if he has properly given notice of his intention to sell the wheat to CCC and delivery cannot be accepted within the 60-day period after maturity. The period for earning such storage payment shall begin the day following the expiration of the 60-day period after the applicable maturity date and extend through the final date of delivery, or the final date for delivery as specified in the delivery instructions issued to the producer by the county office, whichever is earlier. The storage payment shall be computed at the rate of $0.00043 per bushel per day in Area I; $0.00045 per bushel per day in Area II; $0.00046 per bushel per day in Area III; $0.00047 per bushel per day in Area IV; and $0.00049 per bushel per day in Area V for the wheat accepted for delivery or sale to CCC.

(e) *Track loading payment.* A track-loading payment of 3 cents per bushel shall be made to the producer on wheat delivered to CCC on track at a country point.

Issued this 7th day of June 1956.

[SEAL] WALTER C. BERGER,
*Acting Executive Vice President,*
*Commodity Credit Corporation.*

[1956 C. C. C. Grain Price Support Bulletin 1, Supp. 1, Barley]

## PART 421—GRAINS AND RELATED COMMODITIES

### SUBPART—1956-CROP BARLEY LOAN AND PURCHASE AGREEMENT PROGRAM

A price support program has been announced for the 1956 crop of barley. The 1956 C. C. C. Grain Price Support Bulletin 1 (*supra*), issued by the Commodity Credit Corporation and containing the regulations of a general nature with respect to price support operations for certain grains and other commodities produced in 1956 is supplemented as follows:

Sec.
421.1676 Purpose.
421.1677 Availability of price support.
421.1678 Eligible barley.
421.1679 Warehouse receipts.
421.1680 Determination of quantity.
421.1681 Determination of quality.
421.1682 Maturity of loans.
421.1683 Determination of support rates.
421.1684 Warehouse charges.
421.1685 Settlement.

AUTHORITY: §§ 421.1676 to 421.1685 issued under sec. 4, 62 Stat. 1070, as amended; 15 U. S. C. 714b. Interpret or apply sec. 5, 62 Stat. 1072, secs. 301, 401, 63 Stat. 1053; 15 U. S. C. 714, 7 U. S. C. 1447, 1421.

§ 421.1676 *Purpose.* Sections 421.1676 to 421.1685 state additional specific regulations which, together with the general regulations contained in the 1956 C. C. C. Grain Price Support Bulletin 1 (§§ 421.1601 to 421.1622), apply to loans and purchase agreements under the 1956-Crop Barley Price Support Program.

§ 421.1677 *Availability of price support*—(a) *Method of support.* Price support will be available through farm-storage and warehouse-storage loans and through purchase agreements.

(b) *Area.* Farm-storage and warehouse-storage loans and purchase agreements will be available wherever barley is grown in the continental United States, except that farm-storage loans will not be available in areas where the State Committee determines that barley cannot be safely stored on the farm.

(c) *Where to apply.* Application for price support should be made at the office of the county committee which keeps the farm-program records for the farm.

(d) *When to apply.* Loans and purchase agreements will be available from the time of harvest through January 31, 1957, and the applicable documents must be signed by the producer and delivered to the county committee not later than such date. Applicable documents include the Producer's Note and Loan Agreement for warehouse-storage loans, the Producer's Note and Supplemental Loan Agreement and the Commodity Chattel Mortgage for farm-storage loans, and the Purchase Agreement for purchase agreements.

(e) *Eligible producer.* An eligible producer shall be an individual, partnership, association, corporation, estate, trust, or other business enterprise or legal entity, and whenever applicable, a State, political subdivision of a State, or any agency thereof, producing barley in 1956, as landowner, landlord, tenant, or sharecropper. Two or more eligible producers may obtain a joint loan on eligible barley harvested by them if stored in the same farm-storage facility. In the case of joint loans, each person signing the note shall be held jointly and severally responsible for the loan. Where the county office has experienced difficulties in settling farm-storage loans with a producer, the county committee shall determine that he is not eligible for a farm-storage loan. He shall be eligible, however, to obtain a warehouse-storage loan or sign a purchase agreement.

§ 421.1678 *Eligible barley.* Barley, to be eligible for price support, must meet all of the applicable requirements set forth in this section.

(a) The barley must have been produced in the continental United States in 1956 by an eligible producer.

(b) At the time the barley is placed under loan or delivered under a purchase agreement:

(1) The beneficial interest in the barley must be in the eligible producer tendering the barley for loan or for delivery under a purchase agreement, and must always have been in him, or must have been in him and a former producer whom he succeeded before the barley was harvested.

(2) To meet the requirements of succession to a former producer, the rights, responsibilities and interest of the former producer with respect to the farming unit on which the barley was produced shall have been substantially assumed by the person claiming succession. Mere purchase of the crop prior to harvest, without acquisition of any additional interest in the farming unit, shall not constitute succession. The county committee shall determine whether the requirements with respect to succession have been met.

(c) Barley, at the time it is placed under loan, and barley under purchase agreement which is in approved warehouse storage prior to notification by the producer of his intention to sell to CCC, must meet the following requirements:

(1) The barley must be of any class grading No. 4 or better (or No. 4 Garlicky or better), except that Western Barley shall have a test weight of not less than 40 pounds per bushel.

(2) Barley grading Tough, Weevily, Stained, Blighted, Bleached, Ergoty or Smutty, or containing mercurial compounds or other substances poisonous to man or animals, shall not be eligible, except that barley represented by warehouse receipts grading Tough will be eligible if the warehouseman certifies on the supplemental certificate or on a statement attached to the warehouse receipt that barley grading "Tough" has been processed at the request of the eligible producer, and delivery will be made of eligible barley not grading "Tough," and no lien for processing will be claimed by the warehouseman from Commodity Credit Corporation or any subsequent holder of said warehouse receipt.

(3) If offered as security for a farm-storage loan, the barley must have been stored in the granary at least 30 days prior to its inspection for measurement, sampling, and sealing, unless otherwise approved by the State Committee.

(d) Barley under purchase agreement stored in other than approved warehouse storage must, in order to be eligible for sale to CCC, meet the requirements of paragraph (c) (1) and (2) of this section on the basis of a pre-delivery inspection performed by a representative of the county committee in accordance with regulations to be subsequently issued. Barley which does not meet the requirements of paragraph (c) (1) and (2) on the basis of the pre-delivery inspection referred to above shall also be eligible for sale to CCC only if the producer complies with the conditions to be specified in § 421.1685 and the barley on the basis of the inspection made at the time of delivery meets the requirements set forth in paragraphs (c) (1) and (2) of this section.

§ 421.1679 *Warehouse receipts.* Warehouse receipts representing barley in approved warehouse-storage to be placed under a loan or delivered under a purchase agreement, must meet the following requirements:

(a) Warehouse receipts must be issued in the name of the producer, must be properly endorsed in blank so as to vest title in the holder and must be receipts issued on a warehouse approved by CCC under the Uniform Grain Storage Agreement which indicate that the barley is insured, or must be receipts issued on warehouses operated by Eastern common carriers under tariffs approved by the Interstate Commerce Commission for which custodian agreements are in effect.

(b) (1) Each warehouse receipt or the warehouseman's supplemental certificate (in duplicate), properly identified with the warehouse receipt must show: (i) Gross weight or bushels, (ii) class, (iii) grade (including special grades), (iv) test weight, (v) dockage, (vi) any other grading factor(s) when such factor(s) and not test weight determine the grade, and (vii) whether the barley arrived by rail, truck or barge. In the case of warehouse receipts issued for barley delivered by rail or barge, the grading factors on the warehouse receipts must agree with the inbound inspection certificate for the car or barge when such certificate is issued.

(2) If the warehouseman has processed the barley as provided in § 421.1678 (c) (2), the supplemental certificate must show the numerical grade and the grading factors resulting from the barley being processed. Where the grade and grading factors shown on the supplemental certificate do not agree with the warehouse receipt, the factors shown on the supplemental certificate shall take precedence.

(c) A separate warehouse receipt must be submitted for each grade and class of barley.

(d) The warehouse receipt may be subject to liens for warehouse charges only to the extent indicated in § 421.1684.

(e) Warehouse receipts representing barley which has been shipped by rail or water from a country shipping point to a designated terminal point or shipped by rail or water from a country shipping point and stored in transit to a designated terminal point, must be accompanied by registered freight bills, or by a certificate containing similar information in a form prescribed by the CSS commodity office which shall be signed by the warehouseman and which may be a part of the supplemental certificate.

§ 421.1680 *Determination of quantity.* (a) The quantity of barley placed under farm-storage loan may be determined either by weight or by measurement. The quantity of barley placed under a warehouse-storage loan or delivered under a farm-storage loan or under a purchase agreement shall be determined by weight.

(b) When the quantity is determined by weight, a bushel shall be 48 pounds, of clean barley free of dockage. In determining the quantity of sacked barley by weight, a deduction of ¾ of a pound for each sack shall be made.

(c) When the quantity of barley is determined by measurement, a bushel shall be 1.25 cubic feet of barley testing 48 pounds per bushel. The quantity determined shall be the following percentages of the quantity determined for 48-pound barley:

| For barley testing: | Percent |
|---|---|
| 50 pounds or over | 104 |
| 49 pounds or over, but less than 50 pounds | 102 |
| 48 pounds or over, but less than 49 pounds | 100 |
| 47 pounds or over, but less than 48 pounds | 98 |
| 46 pounds or over, but less than 47 pounds | 96 |
| 45 pounds or over, but less than 46 pounds | 94 |
| 44 pounds or over, but less than 45 pounds | 92 |
| 43 pounds or over, but less than 44 pounds | 90 |
| 42 pounds or over, but less than 43 pounds | 88 |
| 41 pounds or over, but less than 42 pounds | 85 |
| 40 pounds or over, but less than 41 pounds | 83 |

(d) The percentage of dockage shall be determined and the weight of such dockage shall be deducted from the gross weight of the barley in determining the net quantity available for loan or purchase.

§ 421.1681 *Determination of quality.* The grade, class, grading factors, and all other quality factors shall be determined in accordance with the methods set forth in the Official Grain Standards of the United States for Barley, whether or not such determinations are made on the basis of an official inspection.

§ 421.1682 *Maturity of loans.* Loans mature on demand but not later than February 28, 1957, in the States of Alabama, Arkansas, Delaware, Florida, Georgia, Kentucky, Louisiana, Maryland, Mississippi, New Jersey, North Carolina, Pennsylvania, South Carolina, Tennessee, Virginia, and West Virginia, not later than March 11, 1957, in Arizona and California, and not later than April 30, 1957, in all other States. The maturity date for a loan shall be the maturity date for the State where the barley is stored.

§ 421.1683 *Determination of support rates.* Basic support rates for barley will be set forth in 1956 CCC Grain Price Support Bulletin 1, Supplement 2, Barley. Support rates will be established for barley stored in approved warehouse storage at designated terminal markets, and for barley stored in approved country warehouses and in approved farm storage. The support rate for the quality of barley placed under a loan or delivered under a purchase agreement shall be the applicable basic support rate adjusted in accordance with the provisions of this section and 1956 C. C. C. Grain Price Support Bulletin 1, Supplement 2, Barley.

(a) *Support rates at designated terminal markets.* (1) Barley eligible for loan or purchase at the support rates established for designated terminal markets must have been shipped on a domestic interstate freight rate basis. On any barley shipped at other than the domestic interstate freight rate, the support rate at the designated terminal market shall be reduced by the difference between the rate of the freight paid (plus tax) and the domestic interstate freight rate (plus tax).

(2) The support rates established for designated terminal markets apply to barley which has been shipped by rail or water from a country shipping point to one of the designated terminal markets, as evidenced by paid freight bills duly registered for transit privileges: *Provided*, That in the event the amount of paid-in freight is insufficient to guarantee the minimum proportional domestic interstate freight rate from the terminal market, there shall be deducted from the applicable terminal support rate the difference between the amount of freight actually paid in and the amount required to be paid in to guarantee outbound movement at the minimum proportional domestic interstate freight rate.

(3) When shipped by rail or water and stored at any designated terminal market, barley for which neither registered freight bills nor registered freight certificates are presented to guarantee outbound movement at the minimum proportional domestic interstate freight rate, shall have a support rate equal to the terminal rate minus 7 cents per bushel.

(4) When received by truck and stored at any designated terminal market, the support rate shall be the terminal rate minus 10½ cents per bushel.

(b) *Support rates for barley in approved warehouse storage at other than designated terminal markets.* (1) The support rate for barley stored in approved warehouses (other than those situated in the designated terminal markets) which is shipped by rail or water, shall be determined by deducting from the appropriate designated terminal market rate an amount equal to the transit balance, if any (plus tax) of the through freight rate from point of origin for such barley to such terminal market: *Provided*, That on any barley shipped at other than the domestic interstate freight rate, the support rate shall be further reduced by the difference between the rate of the freight paid (plus tax) and the domestic interstate freight rate (plus tax) from the point of origin of such barley to the point of storage: *And provided further*, That in the case of barley stored at any railroad transit point, taking a penalty by reason of out-of-line movement, or for any other reason, to the appropriate designated market, there shall be added to such transit balance an amount equal to any out-of-line costs or other costs incurred in storing barley in such position.

(2) The warehouse receipts must be accompanied by the original paid freight bills or certificates of the warehousemen and other required documents as set forth in § 421.1679.

(c) *Discounts.* The basic support rates shall be adjusted by all applicable discounts listed in 1956 C. C. C. Grain Price Support Bulletin 1, Supplement 2, Barley.

§ 421.1684 *Warehouse charges.* (a) Warehouse receipts and the barley represented thereby stored in approved warehouses operating under the Uniform Grain Storage Agreement may be subject to liens for warehouse handling and storage charges at not to exceed the Uniform Grain Storage Agreement rates from the date the grain is deposited in the warehouse for storage. Where the date of deposit (the date of the warehouse receipt if the date of deposit is not shown) on warehouse receipts representing barley stored in warehouses operating under the Uniform Grain Storage Agreement is on or before February 28, 1957, March 11, 1957, or April 30, 1957, the applicable date to be determined in accordance with § 421.1682, there shall be deducted in computing the amount of the loan or purchase price the storage charges per bushel as shown in the following table unless written evidence has been submitted with the warehouse receipt that all warehouse charges, except receiving and loading out charges have been prepaid through February 28, 1957, March 11, 1957, or April 30, 1957, the applicable date to be determined in accordance with § 421.1682:

| Amount of deduction (cents per bushel) | For States having a maturity date not later than Apr. 30, 1957; date of deposit (all dates inclusive) | For States having a maturity date not later than Feb. 28, 1957; date of deposit (all dates inclusive) | For States having a maturity date not later than Mar. 11, 1957; date of deposit (all dates inclusive) |
|---|---|---|---|
| 16 | Prior to May 25, 1956 | | |
| 15 | May 25–June 15, 1956 | | |
| 14 | June 16–July 7, 1956 | Prior to May 8, 1956 | Prior to May 19, 1956. |
| 13 | July 8–July 29, 1956 | May 8–May 29, 1956 | May 19–June 9, 1956. |
| 12 | July 30–Aug. 20, 1956 | May 30–June 20, 1956 | June 10–July 1, 1956. |
| 11 | Aug. 21–Sept. 11, 1956 | June 21–July 12, 1956 | July 2–July 23, 1956. |
| 10 | Sept. 12–Oct. 3, 1956 | July 13–Aug. 3, 1956 | July 24–Aug. 14, 1956. |
| 9 | Oct. 4–Oct. 25, 1956 | Aug. 4–Aug. 25, 1956 | Aug. 15–Sept. 5, 1956. |
| 8 | Oct. 26–Nov. 16, 1956 | Aug. 26–Sept. 16, 1956 | Sept. 6–Sept. 27, 1956. |
| 7 | Nov. 17–Dec. 8, 1956 | Sept. 17–Oct. 8, 1956 | Sept. 28–Oct. 19, 1956. |
| 6 | Dec. 9–Dec. 30, 1956 | Oct. 9–Oct. 30, 1956 | Oct. 20–Nov. 10, 1956. |
| 5 | Dec. 31, 1956–Jan. 21, 1957 | Oct. 31–Nov. 21, 1956 | Nov. 11–Dec. 2, 1956. |
| 4 | Jan. 22–Feb. 12, 1957 | Nov. 22–Dec. 13, 1956 | Dec. 3–Dec. 24, 1956. |
| 3 | Feb. 13–Mar. 6, 1957 | Dec. 14, 1956–Jan. 4, 1957 | Dec. 25, 1956–Jan. 15, 1957. |
| 2 | Mar. 7–Mar. 28, 1957 | Jan. 5–Jan. 26, 1957 | Jan. 16–Feb. 6, 1957. |
| 1 | Mar. 29–April 30, 1957 | Jan. 27–Feb. 28, 1957 | Feb. 7–Mar. 11, 1957. |

(b) Warehouse receipts and the barley represented thereby stored in approved warehouses operated by Eastern common carriers may be subject to liens for warehouse elevation (receiving and delivering) and storage charges from the date of deposit at rates approved by the Interstate Commerce Commission. There shall be deducted in computing the loan or purchase price, the amount of the approved tariff rate for storage (not including elevation), which will accumulate from the date of deposit through February 28, 1957, or April 30, 1957, whichever date is applicable, to the point of storage as determined in accordance with § 421.1682, unless written evidence is submitted with the warehouse receipt that the storage charges have been prepaid. The county committee shall request the CSS commodity office to determine the amount of such charges. Where the producer presents evidence showing that elevation charges have been prepaid, the amount of the storage charges to be deducted shall be reduced by the amount of the elevation charges prepaid by the producer.

§ 421.1685 *Settlement*—(a) *Settlement value.* (1) In the case of eligible barley delivered to CCC from farm storage under the loan program, settlement shall be made at the applicable support rate determined in accordance with §§ 421.1683 and 421.1618 (d). The support rate shall be for the grade and quality of the total quantity of barley eligible for delivery. If, upon delivery, the barley under farm-storage loan is of a grade or quality for which no support rate has been established, the settlement value shall be computed at the support rate established for the grade and quality of the barley placed under loan, less the difference, if any, at the time of delivery, between the market price for the grade and quality placed under loan and the market price of the barley delivered, as determined by CCC: *Provided, however*, That if such barley is sold by CCC in order to determine its market price, the settlement value shall not be less than such sales price and: *Provided further*, That if, upon delivery, the barley contains mercurial compounds or other substances poisonous to man or animals, such barley shall be sold for seed (in accordance with applicable State seed laws and regulations), fuel, or industrial uses where the end product will not be consumed by man or animals, and the settlement value shall be the same as the sales price, except that if CCC is unable to sell such commodity for the use specified above, the settlement value shall be the market value, if any, as determined by CCC, as of the date of delivery.

(2) Provisions applicable to the predelivery inspection of barley under purchase agreement and the basis for settlement with the producer on barley delivered to CCC under purchase agreement will be issued as an amendment to this subpart.

(b) *Storage deduction for early delivery.* No deduction for storage shall be made for farm-stored barley under loan or purchase agreement authorized to be delivered to CCC prior to the loan maturity date for the State, except where it is necessary to call the loan through fault or negligence on the part of the producer or where the producer requests early delivery and the county committee approves the early delivery and determines such early delivery is solely for the convenience of the producer. The deduction for storage shall be made in accordance with the schedule of deductions for warehouse charges in § 421.1684.

(c) *Refund of prepaid handling charges.* In case a warehouseman charges the producer for the receiving or the receiving and loading out charges on barley under loan or purchase agreement, stored in a warehouse under the Uniform Grain Storage Agreement, the producer shall, upon delivery of the barley to CCC, be reimbursed or given credit by the county office for such prepaid charges in an amount not to exceed the charges authorized under the Uniform Grain Storage Agreement, provided the producer furnishes to the county committee written evidence signed by the warehouseman that such charges have been paid.

(d) *Storage payment where CCC is unable to take delivery of barley stored in other than an approved warehouse under loan or purchase agreement.* The producer may be required to retain barley stored in other than an approved warehouse under loan or purchase agreement for a period of 60 days after the applicable maturity date without any cost to CCC. However, if CCC is unable to take delivery of such barley within the 60-day period after maturity, the producer shall be paid a storage payment upon delivery of the barley to CCC: *Provided, however*, That a storage payment shall be paid a producer whose barley is stored in other than an approved warehouse under purchase agreement only if he has properly given notice of his intention to sell the barley to CCC and delivery cannot be accepted within the 60-day period after maturity. The period for earning such storage payment shall begin the day following the expiration of the 60-day period after the applicable maturity date and extend through the final date of delivery, or the final date for delivery as specified in the delivery instructions issued to the producer by the county office, whichever is earlier. The storage payment shall be computed at the rate of $0.00045 per bushel a day for the barley accepted for sale or delivery to CCC.

(e) *Track-loading payment.* A track-loading payment of 3 cents per bushel shall be made to the producer on barley delivered to CCC on track at a country point.

Issued this 6th day of June 1956.

[SEAL] EARL M. HUGHES,
*Executive Vice President,*
*Commodity Credit Corporation.*

[1956 C. C. C. Grain Price Support Bulletin 1, Supp. 1, Oats]

## PART 421—GRAINS AND RELATED COMMODITIES

### SUBPART—1956-CROP OATS LOAN AND PURCHASE AGREEMENT PROGRAM

A price support program has been announced for 1956-crop oats. The 1956 C. C. C. Grain Price Support Bulletin 1 (*supra*), issued by the Commodity Credit Corporation and containing the regulations of a general nature with respect to price support operations for certain grains and other commodites produced in 1956 is supplemented as follows:

Sec.
421.1876 Purpose.
421.1877 Availability of price support.
421.1878 Eligible oats.
421.1879 Warehouse receipts.
421.1880 Determination of quantity.
421.1881 Determination of quality.
421.1882 Maturity of loans.
421.1883 Determination of support rates.
421.1884 Warehouse charges.
421.1885 Settlement.

AUTHORITY: §§ 421.1876 to 421.1885 issued under sec. 4, 62 Stat. 1070, as amended; 15 U. S. C. 714b. Interpret or apply sec. 5, 62 Stat. 1072, secs. 301, 401, 62 Stat. 1053; 15 U. S. C. 714c; 7 U. S. C. 1447, 1421.

§ 421.1876 *Purpose.* Sections 421.1876 to 421.1885 state additional specific requirements which, together with the general regulations contained in the 1956 C. C. C. Grain Price Support Bulletin 1 (§§ 421.1601 to 421.1622), apply to loans and purchase agreements under the 1956 Crop Oats Price Support Program.

§ 421.1877 *Availability of price support*—(a) *Method of support.* Price support will be available through farm-storage and warehouse-storage loans and through purchase agreements.

(b) *Area.* Farm-storage and warehouse-storage loans and purchase agreements will be available wherever oats are grown in the continental United States, except that farm-storage loans will not be available in areas where the State committee determines that oats cannot be safely stored on the farm.

(c) *Where to apply.* Application for price support should be made at the office of the county committee which keeps the farm-program records for the farm.

(d) *When to apply.* Loans and purchase agreements will be available from the time of harvest through January 31, 1957, and the applicable documents must be signed by the producer and delivered to the county committee not later than such date. Applicable documents include the Producer's Note and Loan Agreement for warehouse-storage loans, the Producer's Note and Supplemental Loan Agreement and the Commodity Chattel Mortgage for farm-storage loans, and the Purchase Agreement for purchase agreements.

(e) *Eligible producer.* An eligible producer shall be an individual, partnership, association, corporation, estate, trust, or other business enterprise, or legal entity, and wherever applicable, a State, political subdivision of a State, or any agency thereof producing oats in 1956 as landowner, landlord, tenant, or sharecropper. Two or more eligible producers may obtain a joint loan on eligible oats harvested by them if stored in the same farm-storage facility. In the case of joint loans, each person signing the note shall be held jointly and severally responsible for the loan. Where the county office has experienced difficulties in settling farm-storage loans with a producer, the county committee shall determine that he is not eligible for a farm-storage loan. He shall be eligible, however, to obtain a warehouse-storage loan or sign a purchase agreement.

§ 421.1878. *Eligible oats.* Oats, to be eligible for price support, must meet all of the applicable requirements set forth in this section:

(a) The oats must have been produced in the continental United States in 1956 by an eligible producer.

(b) At the time the oats are placed under loan or delivered under a purchase agreement:

(1) The beneficial interest in the oats must be in the eligible producer tendering the oats for loan or for delivery under a purchase agreement and must always have been in him, or must have been in him and a former producer whom he succeeded before the oats were harvested.

(2) To meet the requirements of succession to a former producer, the rights, responsibilities and interest of the former producer with respect to the farming unit on which the oats were produced shall have been substantially assumed by the person claiming succession. Mere purchase of the crop prior to harvest, without acquisition of any additional interest in the farming unit, shall not constitute succession. The county committee shall determine whether the requirements with respect to succession have been met.

(c) Oats, at the time they are placed under loan; and oats under purchase agreement which are in approved warehouse storage prior to notification by a producer of his intention to sell to CCC, must meet the following requirements:

(1) The oats must grade No. 3 or better. Feed oats and mixed feed oats will not be eligible.

(2) Oats grading Tough, Weevily, Smutty, Ergoty, Garlicky, Bleached, or Thin, or containing mercurial compounds or other substances poisonous to man or animals, or oats otherwise of low quality will not be eligible, except that oats represented by warehouse receipts grading "Tough" will be eligible if the warehouseman certifies on the supplemental certificate or on a statement attached to the warehouse receipt that

"Oats grading Tough have been processed at the request of the eligible producer, and delivery will be made of the same country run quality, quantity and grade, not Tough, and no lien for processing will be claimed by the warehouseman from Commodity Credit Corporation or any subsequent holder of the warehouse receipt."

(3) If offered as security for a farm-storage loan, the oats must have been stored in the granary at least 30 days prior to their inspection for measurement, sampling and sealing, unless otherwise approved by the State committee.

(d) Oats under purchase agreement stored in other than approved warehouse storage must, in order to be eligible for sale to CCC, meet the requirements of paragraph (c) (1) and (2) of this section on the basis of a pre-delivery inspection performed by a representative of the county committee in accordance with regulations to be subsequently issued. Oats which do not meet the requirements of paragraph (c) (1) and (2) on the basis of the pre-delivery inspection referred to above shall also be eligible for sale to CCC only if the producer complies with the conditions to be specified in § 421.1885 and the oats on the basis of the inspection made at the time of delivery meets the requirements set forth in paragraph (c) (1) and (2) of this section.

§ 421.1879 *Warehouse receipts.* Warehouse receipts representing oats in approved warehouse-storage to be placed under loan or delivered under a purchase agreement, must meet the following requirements:

(a) Warehouse receipts must be issued in the name of the producer, must be properly endorsed in blank so as to vest title in the holder, and must be receipts issued on a warehouse approved by CCC under the Uniform Grain Storage Agreement, which indicate that the oats are insured, or must be receipts issued on warehouse operated by Eastern common carriers under tariffs approved by the Interstate Commerce Commission for which custodian agreements are in effect.

(b) Each warehouse receipt, or the warehouseman's supplemental certificate (in duplicate), properly identified with the warehouse receipts must show: (1) Gross weight or bushels, (2) class, (3) grade, (4) test weight, and (5) any other grading factor(s) when such factor(s) and not test weight determine the grade.

(c) A separate warehouse receipt must be submitted for each grade of oats.

(d) The warehouse receipt may be subject to liens for warehouse charges only to the extent indicated in § 421.1884.

(e) If the warehouseman has processed the oats as provided in § 421.1878 (c) (2), the supplemental certificate must show the numerical grade and the grading factors resulting from the oats being processed. Where the grade and grading factors shown on the supplemental certificate do not agree with the warehouse receipt, the factors shown on the supplemental certificate shall take precedence.

§ 421.1880 *Determination of quantity.* (a) The quantity of oats placed under farm-storage loan may be determined either by weight or by measurement. The quantity of oats placed under a warehouse-storage loan or delivered under a farm-storage loan or under a purchase agreement shall be determined by weight.

(b) When the quantity is determined by weight, a bushel shall be 32 pounds of oats. In determining the quantity of sacked oats by weight, a deduction of three-fourths of a pound for each sack shall be made.

(c) (1) To determine the quantity of oats in a bin by measurement, divide the cubic feet of oats by 1.25. The quantity so determined shall be adjusted for test weight by applying the applicable percentage as shown in the following table.

| For oats testing: | Percent |
|---|---|
| 40 pounds or over | 125 |
| 39 pounds or over, but less than 40 pounds | 121 |
| 38 pounds or over, but less than 39 pounds | 118 |
| 37 pounds or over, but less than 38 pounds | 115 |
| 36 pounds or over, but less than 37 pounds | 112 |
| 35 pounds or over, but less than 36 pounds | 109 |
| 34 pounds or over, but less than 35 pounds | 106 |
| 33 pounds or over, but less than 34 pounds | 103 |
| 32 pounds or over, but less than 33 pounds | 100 |
| 31 pounds or over, but less than 32 pounds | 96 |
| 30 pounds or over, but less than 31 pounds | 93 |
| 29 pounds or over, but less than 30 pounds | 90 |
| 28 pounds or over, but less than 29 pounds | 87 |
| 27 pounds or over, but less than 28 pounds | 84 |

(2) To determine the quantity of oats in a bin eligible for loan, multiply the quantity of oats as provided above by a pack factor of 1.15 if the quantity adjusted for test weight is 4,000 bushels or less, and by a pack factor of 1.25 if the quantity adjusted for test weight exceeds 4,000 bushels.

(d) Since the percentage of dockage is not a grade factor in the case of oats, the quantity of oats will be determined without reference to dockage.

§ 421.1881 *Determination of quality.* The grade, grading factors, and all other quality factors shall be determined in accordance with the methods set forth in the Official Grain Standards of the United States for Oats, whether or not such determinations are made on the basis of an official inspection.

§ 421.1882 *Maturity of loans.* Loans mature on demand but not later than February 28, 1957, on oats stored in the States of Alabama, Arkansas, Delaware, Florida, Georgia, Kentucky, Louisiana, Maryland, Mississippi, New Jersey, North Carolina, Pennsylvania, South Carolina, Tennessee, Virginia and West Virginia, and not later than April 30, 1957, on oats stored in all other States.

§ 421.1883 *Determination of support rates.* (a) Basic support rates for oats will be set forth in 1956 C. C. C. Grain Price Support Bulletin 1, Supplement 2, Oats. Both farm-storage and warehouse-storage loans will be based on the support rate established for the county in which the oats are produced.

(b) Where the State committee determines that State or district weed control laws affect the oats crop, the support rate will be 10 cents below the applicable county support rate. If upon delivery of the oats to CCC, the producer supplies a certificate indicating that the oats comply with the weed control laws, the producer will be credited with the amount of the differential in determining the settlement value.

§ 421.1884 *Warehouse charges.* (a) Warehouse receipts and oats represented thereby stored in approved warehouses operating under the Uniform Grain Storage Agreement may be subject to liens for warehouse handling and storage charges at not to exceed the Uniform Grain Storage Agreement rates from the date the grain is deposited in the warehouse for storage. Where the date of deposit (the date of the warehouse receipt if the date of deposit is not shown) on warehouse receipts representing oats stored in warehouses operating under the Uniform Grain Storage Agreement is on or before February 28, 1957, or April 30, 1957, the applicable date to be determined in accordance with § 421.1882, there shall be deducted in computing the amount of the loan or purchase price the storage charges per bushel as shown in the following table unless written evidence has been submitted with the warehouse receipt that all warehouse charges, except receiving and loading out charges, have been prepaid through February 28, 1957, or April 30, 1957, the applicable date to be determined in accordance with § 421.1882:

| Amount of deduction (cents per bushel) | For States having a maturity date not later than Apr. 30, 1957; date of deposit (all dates inclusive) | For States having a maturity date not later than Feb. 28, 1957; date of deposit (all dates inclusive) |
|---|---|---|
| 12 | Prior to May 10, 1956 | Prior to Apr. 10, 1956. |
| 11 | May 10–June 9, 1956 | Apr. 10–May 10, 1956. |
| 10 | June 10–July 10, 1956 | May 11–June 10, 1956. |
| 9 | July 11–Aug. 10, 1956 | June 11–July 11, 1956. |
| 8 | Aug. 11–Sept. 10, 1956 | July 12–Aug. 11, 1956. |
| 7 | Sept. 11–Oct. 11, 1956 | Aug. 12–Sept. 11, 1956. |
| 6 | Oct. 12–Nov. 11, 1956 | Sept. 12–Oct. 12, 1956. |
| 5 | Nov. 12–Dec. 12, 1956 | Oct. 13–Nov. 12, 1956. |
| 4 | Dec. 13, 1956–Jan. 12, 1957 | Nov. 13–Dec. 13, 1956. |
| 3 | Jan. 13–Feb. 12, 1957 | Dec. 14, 1956–Jan. 13, 1957. |
| 2 | Feb. 13–Mar. 15, 1957 | Jan. 14–Feb. 28, 1957. |
| 1 | Mar. 16–Apr. 30, 1957 | |

(b) Warehouse receipts and the oats represented thereby stored in approved warehouses operated by Eastern common carriers may be subject to liens for warehouse elevation (receiving and delivering) and storage charges from the date of deposit at rates approved by the Interstate Commerce Commission. There shall be deducted in computing the loan or purchase price, the amount of the approved tariff rate for storage (not including elevation), which will accumulate from the date of deposit through February 28 or April 30, 1957, whichever date is applicable, as determined in accordance with § 421.1882, unless written evidence is submitted with the warehouse receipt that the storage charges have been prepaid. The county committee shall request the CSS commodity office to determine the amount of such charges. Where the producer presents evidence showing that elevation charges have been prepaid, the amount of the storage charges to be deducted shall be reduced by the amount of the elevation charges prepaid by the producer.

§ 421.1885 *Settlement*—(a) *Settlement value.* (1) In the case of eligible oats delivered to CCC from farm-storage under the loan program, settlement shall be made at the applicable support rate determined in accordance with §§ 421.1883 and 421.1618 (e). The support rate shall be for the grade and quality of the total quantity of oats eligible for delivery. If, upon delivery, the oats under farm-storage loan are of a grade or quality for which no support rate has been established, the settlement value shall be computed at the support rate established for the grade and quality of the oats placed under loan, less the difference, if any, at the time of delivery, between the market price for the grade and quality placed under loan and the market price of the oats delivered, as determined by CCC: *Provided, however,* That if such oats are sold by CCC in order to determine their market price the settlement value shall not be less than such sales price and: *Provided further,* That if, upon delivery, the oats contain mercurial compounds or other substances poisonous to man or animals, such oats shall be sold for seed (in accordance with applicable State seed laws and regulations), fuel, or industrial uses where the end product will not be consumed by man or animals, and the settlement value shall be the same as the sales price, except that if CCC is unable to sell such oats for the use specified above, the settlement value shall be the market value, if any, as determined by CCC, as of the date of delivery.

(2) Provisions applicable to the pre-delivery inspection of oats under purchase agreement and the basis for settlement with the producer on oats delivered to CCC under purchase agreement will be issued as an amendment to this subpart.

(b) *Storage deduction for early delivery.* No deduction for storage shall be made for farm-stored oats under loan or purchase agreement authorized to be delivered to CCC prior to the loan maturity date for the State, except where it is necessary to call the loan through fault or negligence on the part of the producer or where the producer requests early delivery and the county committee approves the early delivery and determines such early delivery is solely for the convenience of the producer. The deduction for storage shall be made in accordance with the schedule of deductions for warehouse charges in § 421.1884.

(c) *Refund of prepaid handling charges.* In case a warehouseman charges the producer for the receiving or the receiving and loading out charges on oats under loan or purchase agreement stored in a warehouse under the Uniform Grain Storage Agreement, the producer shall, upon delivery of the oats to CCC, be reimbursed or given credit by the county office for such prepaid charges in an amount not to exceed the charges authorized under the Uniform Grain Storage Agreement provided, the producer furnishes to the county committee written evidence signed by the warehouseman that such charges have been paid.

(d) *Storage payment where CCC is unable to take delivery of oats stored in other than an approved warehouse under loan or purchase agreement.* The producer may be required to retain oats stored in other than an approved warehouse under loan or purchase agreement for a period of 60 days after the applicable maturity date without any cost to CCC. However, if CCC is unable to take delivery of such oats within the 60-day period after maturity, the producer shall be paid a storage payment upon delivery of the oats to CCC: *Provided, however,* That a storage payment shall be paid a producer whose oats are stored in other than an approved warehouse under purchase agreement only if he has properly given notice of his intention to sell the oats to CCC and delivery cannot be accepted within the 60-day period after maturity. The period for earning such storage payment shall begin the day following the expiration of the 60-day period after the applicable maturity date and extend through the final date of delivery, or the final date for delivery as specified in the delivery instructions issued to the producer by the county office, whichever is earlier. The storage payment shall be computed at the rate of $0.00032 per bushel per day for the oats accepted for delivery or sale to CCC.

(e) *Track-loading payment.* A track-loading payment of 3 cents per bushel shall be made to the producer on oats delivered to CCC on track at a country point.

Issued this 6th day of June 1956.

[SEAL] EARL M. HUGHES,
*Executive Vice President,*
*Commodity Credit Corporation.*

[F. R. Doc. 56-4621; Filed, June 11, 1956; 8:50 a. m.]

# TITLE 16—COMMERCIAL PRACTICES

## Chapter I—Federal Trade Commission

### Subchapter B—Trade Practice Conference Rules

[File No. 21-491]

### PART 28—BLUEPRINT AND DIAZOTYPE COATERS INDUSTRY

### TRADE PRACTICE RULES

Due proceedings having been held under the trade practice conference procedure in pursuance of the act of Congress approved September 26, 1914, as amended (Federal Trade Commission Act), and other provisions of law administered by the Commission:

*It is now ordered,* That the Group I trade practice rules as hereinafter set forth, which have been approved by the Commission in this proceeding, be promulgated as of June 12, 1956.

*Statement by the Commission.* Trade practice rules for the blueprint and diazotype coaters industry, as hereinafter set forth, are promulgated by the Federal Trade Commission under the trade practice conference procedure.

The industry is composed of persons, firms, corporations, and organizations engaged in the coating and sale of blueprint and/or diazotype light-sensitive paper, cloth, film, or other material, used for reproducing engineering and architectural drawings, designs, formulae, and office or business communications.

According to available information, the aggregate annual sales of industry products approximate $90,000,000.

Primary objectives of the rules are the maintenance of free and fair competition and the elimination and prevention of unfair methods of competition, unfair acts or practices, and other trade abuses. The rules are to be applied to such end and to the exclusion of any acts or practices which suppress competition or otherwise restrain trade.

Proceedings for the establishment of trade practice rules were instituted pursuant to an industry application. A general industry conference was held in Chicago, Illinois, on November 21, 1955, at which proposals for rules were submitted for consideration of the Commission. Thereafter, a draft of proposed rules was published by the Commission and made available to all industry members and other interested or affected parties upon public notice whereby they were afforded opportunity to present their views, including such pertinent information, suggestions, amendments, or objections as they desired to offer, and to be heard in the premises. Pursuant to such notice a public hearing was held in Washington, D. C., on May 14, 1956, and all matters there presented, or otherwise received in the proceeding, were duly considered.

Thereafter, and upon full consideration of the entire matter, final action was taken by the Commission whereby it approved the Group I rules as hereinafter set forth.

Such rules become operative thirty (30) days from the date of promulgation.

*The rules.* These rules promulgated by the Commission are designed to foster and promote the maintenance of fair competitive conditions in the interest of protecting industry, trade, and the public. It is to this end, and to the exclusion of any act or practice which fixes or controls prices through combination or agreement, or which unreasonably restrains trade or suppresses competition, or otherwise unlawfully injures, destroys, or prevents competition, that the rules are to be applied.

Sec.
28.0 The industry defined.
28.1 Deception (general).
28.2 False and misleading price quotations, etc.
28.3 Deceptive invoicing.
28.4 Substitution of products.
28.5 Prohibited sales below cost.
28.6 Commercial bribery.
28.7 Defamation of competitors or false disparagement of their products.
28.8 Procurement of competitors' confidential information.
28.9 Enticing away employees of competitors.
28.10 Prohibited forms of trade restraints (unlawful price fixing, etc.).
28.11 Exclusive deals.
28.12 Prohibited discrimination.

AUTHORITY: §§ 28.0 to 28.12, issued under sec. 6, 38 Stat. 722; 15 U. S. C. 46. Interpret or apply sec. 5, 38 Stat. 719, as amended; 15 U. S. C. 45.

§ 28.0 *The industry defined.* The industry to which these trade practice rules have application consists of persons, firms, corporations, and organizations engaged in the coating and sale of blueprint and/or diazotype light-sensitive paper, cloth, film, or other material, used for reproducing engineering and architectural drawings, designs, formulae, and office or business communications.

GROUP I

*General statement.* The unfair trade practices embraced in the rules herein are considered to be unfair methods of competition, unfair or deceptive acts or practices, or other illegal practices, prohibited under laws administered by the Federal Trade Commission; and appropriate proceedings in the public interest will be taken by the Commission to prevent the use, by any person, partnership, corporation, or other organization subject to its jurisdiction, of such unlawful practices in commerce.

§ 28.1 *Deception (general).* It is an unfair trade practice to sell, offer for sale, or distribute any industry product, or promote the sale or distribution thereof, under any representation or by any method or under any circumstance or condition which has the capacity and tendency or effect of misleading or deceiving purchasers or prospective purchasers:

(a) With respect to the construction, composition, design, strength, or durability of any industry product; or

(b) With respect to a process or technique used in the preparation, fabrication, or coating of any industry product; or

(c) With respect to the materials used in the preparation, fabrication, or coating of any industry product; or

(d) Which is false, misleading, or deceptive in any other material respect.

NOTE: Illustrative of the type of misrepresentation inhibited by this section is the practice of an industry member advertising or otherwise claiming that a paper contains a certain percentage of rag, or is of a certain basis weight, when such is not the fact.

[Rule 1]

§ 28.2 *False and misleading price quotations, etc.* The publishing or circulating to purchasers or prospective purchasers by any member of the industry of false or misleading price quotations, price lists, or terms or conditions of sale, with the capacity and tendency or effect of thereby misleading or deceiving purchasers or prospective purchasers, is an unfair trade practice. [Rule 2]

§ 28.3 *Deceptive invoicing.* Withholding from or inserting in invoices any statement or information by reason of which omission or insertion a false, inaccurate, or incomplete record is made, which has the capacity and tendency or effect of deceiving purchasers, prospective purchasers, or the consuming public in any material respect, is an unfair trade practice. [Rule 3]

§ 28.4 *Substitution of products.* It is an unfair trade practice for a member of the industry to make an unauthorized substitution of products, where such substitution has the capacity and tendency or effect of misleading or deceiving the purchasing or consuming public, by:

(a) Shipping or delivering industry products which do not conform to samples submitted, to specifications upon which the sale is consummated, or to representations made prior to securing the order, without advising the purchaser of the substitution and obtaining his consent thereto prior to making shipment or delivery; or

(b) Falsely representing the reason for making a substitution. [Rule 4]

§ 28.5 *Prohibited sales below cost.* (a) The practice of selling products of the industry at a price less than the cost thereof to the seller, with the purpose or intent, and where the effect is, or where there is a reasonable probability that the effect will be, to substantially injure, suppress, or stifle competition or tend to create a monopoly, is an unfair trade practice.

(b) This section is not to be construed as prohibiting all sales below cost, but only such selling below the seller's cost as is resorted to and pursued with the wrongful intent or purpose referred to and where the effect is, or where there is reasonable probability that the effect will be, to substantially injure, suppress, or stifle competition or to create a monopoly. Among the situations in which the requisite purpose or intent would ordinarily be lacking are cases in which such sales were: (1) of seasonal goods near the conclusion of the season; (2) of perishable goods in respect to which deterioration is imminent; (3) of obsolescent goods; (4) made under judicial process; or (5) made in bona fide discontinuance of business in the goods concerned.

(c) As used in paragraphs (a) and (b) of this section, the term "cost" means the respective seller's cost and not an average cost in the industry whether such average cost be determined by an industry cost survey or some other method. It consists of the total outlay or expenditure by the seller in the acquisition, production, and distribution of the products involved, and comprises all elements of cost such as labor, material, depreciation, taxes (except taxes on net income and such other taxes as are not properly applicable to cost), and general overhead expenses, incurred by the seller in the acquisition, manufacture, processing, preparation for marketing, sale, and delivery of the products. Not to be included are dividends or interest on borrowed or invested capital, or nonoperating losses, such as fire losses and losses from the sale or exchange of capital assets. Operating cost should not be reduced by items of nonoperating income, such as income from investments, and gain on the sale of capital assets.

(d) Nothing in this section shall be construed as relieving an industry member from compliance with any of the requirements of the Robinson-Patman Act. [Rule 5]

§ 28.6 *Commercial bribery.* It is an unfair trade practice for a member of the industry, directly or indirectly, to give, or offer to give, or permit or cause to be given, money or anything of value to agents, employees, or representatives of customers or prospective customers, or to agents, empolyees, or representatives of competitors' customers or prospective customers, without the knowledge of their employers or principals, as an inducement to influence their employers or principals to purchase or contract to purchase products manufactured or sold by such industry member or the maker of such gift or offer, or to influence such employers or principals to refrain from dealing in the products of competitors or from dealing or contracting to deal with competitors. [Rule 6]

§ 28.7 *Defamation of competitors or false disparagement of their products.* It is an unfair trade practice:

(a) To defame competitors by falsely imputing to them dishonorable conduct, inability to perform contracts, questionable credit standing, or by other false representations; or

(b) To falsely disparage a competitor's products, business methods, selling prices, values, credit terms, policies, or services. [Rule 7]

§ 28.8 *Procurement of competitors' confidential information.* It is an unfair trade practice for any member of the industry to obtain information concerning the business of a competitor by bribery of an employee or agent of such competitor, by false or misleading statements or representations, by the impersonation of one in authority, or by any other unfair means, and to use the information so obtained in such manner as to injure said competitor in his business or to suppress competition or unreasonably restrain trade. [Rule 8]

§ 28.9 *Enticing away employees of competitors.* Knowingly enticing away employees or sales representatives of competitors under any circumstance having the capacity and tendency or effect of substantially injuring or lessening present or potential competition is an unfair trade practice: *Provided,* That nothing in this section shall be construed as prohibiting employees from seeking more favorable employment, or as prohibiting employers from hiring or offering employment to employees of competitors in good faith and not for the purpose of injuring, destroying, or preventing competition. [Rule 9]

§ 28.10 *Prohibited forms of trade restraints (unlawful price fixing, etc.)* [1] It is an unfair trade practice for any member of the industry, either directly or indirectly, to engage in any planned common course of action, or to enter into or take part in any understanding, agreement, combination, or conspiracy, with one or more members of the industry, or with any other person or persons, to fix or maintain the price of any goods or otherwise unlawfully to restrain trade; or to use any form of threat, intimidation, or coercion to induce any member of the industry or other person or persons to engage in any such planned common course of action, or to become a party to any such understanding, agreement, combination, or conspiracy. [Rule 10]

§ 28.11 *Exclusive deals.* It is an unfair trade practice for any member of the industry to contract to sell or sell any industry product, or fix a price charged therefor, or discount from, or rebate upon, such price, on the condition, agreement, or understanding that the purchaser thereof shall not use or deal in the products of a competitor or competitors of such industry member, where the effect of such sale or contract for sale, or of such condition, agreement, or understanding, may be to substantially lessen competition or tend to create a monopoly in any line of commerce.

NOTE: The following is an example of a practice violative of this section: Coater A sells blueprint or diazotype sensitized material to B with an understanding that if B purchases his requirements of such material exclusively from A, A will maintain B's blueprint or diazotype reproduction equipment, and there is a reasonable probability that the effect of such arrangement will substantially lessen competition or tend to create a monopoly in the sale of industry products. (See also Note 1 to paragraph (d) of § 28.12.)

[Rule 11]

§ 28.12 *Prohibited discrimination* [2]—(a) *Prohibited discriminatory prices, or rebates, refunds, discounts, credits, etc., which effect unlawful price discrimination.* It is an unfair trade practice for any member of the industry engaged in commerce, in the course of such commerce, to grant or allow, secretly or openly, directly or indirectly, any rebate, refund, discount, credit, or other form of price differential, where such rebate, refund, discount, credit, or other form of price differential, effects a discrimination in price between different purchasers of goods of like grade and quality, where either or any of the purchases involved therein are in commerce, and where the effect thereof may be substantially to lessen competition or tend to create a monopoly in any line of commerce, or to injure, destroy, or prevent competition with any person who either grants or knowingly receives the benefit of such discrimination, or with customers of either of them: *Provided, however:*

(1) That the goods involved in any such transaction are sold for use, consumption, or resale within any place under the jurisdiction of the United States, and are not purchased by schools, colleges, universities, public libraries, churches, hospitals, or charitable institutions not operated for profit, as supplies for their own use;

(2) That nothing contained in this paragraph shall prevent differentials which make only due allowance for differences in the cost of manufacture, sale, or delivery resulting from the differing methods or quantities in which such commodities are to such purchasers sold or delivered;

(3) That nothing contained in this section shall prevent persons engaged in selling goods, wares, or merchandise in commerce from selecting their own customers in bona fide transactions and not in restraint of trade;

(4) That nothing contained in this paragraph shall prevent price changes from time to time where made in response to changing conditions affecting the market for or the marketability of the goods concerned, such as but not limited to obsolescence of seasonal goods, actual or imminent deterioration of perishable goods, distress sales under court process, or sales in good faith in discontinuance of business in the goods concerned;

(5) That nothing contained in this section shall prevent the meeting in good faith of an equally low price of a competitor, or the services or facilities furnished by a competitor (see paragraphs (c) and (d) of this section).

NOTES: (1) Cost justification under the proviso to this section depends upon net savings in cost based on all facts relevant to the transactions under the terms of subparagraph (2) of this paragraph. For example, if a seller regularly grants a discount based upon the purchase of a specified quantity by a single order for a single delivery, and this discount is justified by cost differences, it does not follow that the same discount can be cost justified if granted to a purchaser of the same quantity by multiple orders or for multiple deliveries.

(2) In complaint proceedings, justification of price differentials under subparagraphs (2), (4) and (5) of this paragraph is a matter of affirmative defense to be established by the person or concern charged with price discrimination.

(b) *Prohibited brokerage and commissions.* It is an unfair trade practice for any member of the industry engaged in commerce, in the course of such commerce, to pay or grant, or to receive or accept, anything of value as a commission, brokerage, or other compensation, or any allowance or discount in lieu thereof, except for services rendered in connection with the sale or purchase of goods, wares, or merchandise, either to the other party to such transaction or to an agent, representative, or other intermediary therein where such intermediary is acting in fact for or in behalf, or is subject to the direct or indirect control, of any party to such transaction other than the person by whom such compensation is so granted or paid.

(c) *Prohibited advertising or promotional allowances, etc.* It is an unfair trade practice for any member of the industry engaged in commerce to pay or contract for the payment of advertising or promotional allowances or any other thing of value to or for the benefit of a customer of such member in the course of such commerce as compensation or in consideration for any services or facilities furnished by or through such customer in connection with the processing, handling, sale, or offering for sale of any products or commodities manufactured, sold, or offered for sale by such member, unless such payment or consideration is available on proportionally equal terms to all other customers competing in the distribution of such products or commodities.

(d) *Prohibited discriminatory services or facilities.* It is an unfair trade practice for any member of the industry engaged in commerce to discriminate in favor of one purchaser against another purchaser or purchasers of a commodity bought for resale, with or without processing, by contracting to furnish or furnishing, or by contributing to the furnishing of, any services or facilities connected with the processing, handling, sale, or offering for sale of such commodity so purchased upon terms not accorded to all competing purchasers on proportionally equal terms.

[1] The inhibitions of this section are subject to Public Law 542, approved July 14, 1952, 66 Stat. 632 (the McGuire Act) which provides that with respect to a commodity which bears, on the label or container of which bears, the trade-mark, brand, or name of the producer or distributor of such commodity and which is in free and open competition with commodities of the same general class produced or distributed by others, a seller of such a commodity may enter into a contract or agreement with a buyer thereof which establishes a minimum or stipulated price at which such commodity may be resold by such buyer when such contract or agreement is lawful as applied to intrastate transactions under the laws of the State, Territory, or territorial jurisdiction in which the resale is to be made or to which the commodity is to be transported for such resale, and when such contract or agreement is not between manufacturers, or between wholesalers, or between brokers, or between factors, or between retailers, or between persons, firms, or corporations in competition with each other.

[2] As used in this section, the word "commerce" means "trade or commerce among the several States and with foreign nations, or between the District of Columbia or any Territory of the United States and any State, Territory, or foreign nation, or between any insular possessions or other places under the jurisdiction of the United States, or between any such possession or place and any State or Territory of the United States or the District of Columbia or any foreign nation, or within the District of Columbia or any Territory or any insular possession or other place under the jurisdiction of the United States."

NOTE 1: Illustrative of the type of discrimination inhibited by this section is the practice by an industry member, in connection with the sale of industry products, of servicing or maintaining blueprint or diazotype reproduction equipment used by a purchaser of blueprint or diazotype sensitized material bought for resale, with or without processing, when such services or maintenance are not accorded to all competing purchasers on proportionally equal terms. (See also the note to § 28.11.)

NOTE 2: Nothing in paragraph (d) of this section shall be construed as inhibiting fulfillment by an industry member, who is a manufacturer of reproduction equipment, of the obligations of expressed or implied warranties attached to the equipment of his manufacture.

(e) *Inducing or receiving an illegal discrimination in price.* It is an unfair trade practice for any member of the industry engaged in commerce, in the course of such commerce, knowingly to induce or receive a discrimination in price which is prohibited by the foregoing provisions of this section.

(f) *Purchases by U. S. Government—Applicability of Robinson-Patman Anti-discrimination Act to Same.* In an opinion submitted to the Secretary of War under date of December 28, 1936, the U. S. Attorney General advised that the Robinson-Patman Antidiscrimination Act "is not applicable to Government contracts for supplies." (38 Opinions, Attorney General 539.) [Rule 12]

Issued: June 7, 1956.

Promulgated by the Federal Trade Commission June 12, 1956.

[SEAL] ROBERT M. PARRISH,
*Secretary.*

[F. R. Doc. 56-4614; Filed, June 11, 1956; 8:48 a. m.]

## TITLE 21—FOOD AND DRUGS

### Chapter I—Food and Drug Administration, Department of Health, Education, and Welfare

#### Subchapter B—Food and Food Products

PART 120—TOLERANCES AND EXEMPTIONS FROM TOLERANCES FOR PESTICIDE CHEMICALS IN OR ON RAW AGRICULTURAL COMMODITIES

MISCELLANEOUS AMENDMENTS

There was published in the FEDERAL REGISTER of April 14, 1956 (21 F. R. 2443), a notice and the text of proposed amendments to Part 120. Due consideration has been given to the comments filed with respect to the proposed order, and the changes listed below are being made.

1. In § 120.2 (a), the term "potassium polysulfide" is inserted after "lime-sulfur".

2. In § 120.3 (e), in the introduction to subparagraph (1) and in the first sentence of subparagraph (2), change the phrases "in a raw agricultural commodity" and "on a raw agricultural commodity" to read "in or on a raw agricultural commodity".

3. In § 120.7 (b), the last sentence of the undesignated paragraph is changed to read: "The petitioner shall show that he has registered or has submitted an application for the registration of an economic poison containing the pesticide chemical under the Federal Insecticide, Fungicide, and Rodenticide Act."

4. In § 120.34 (b), the first sentence is changed to read: "The petition should establish the reliability of the residue data reported in it."

5. In § 120.34 (e) (16), the item "romaine" is deleted.

Now, therefore, pursuant to the provisions of the Federal Food, Drug, and Cosmetic Act (secs. 408, 701 (a), 52 Stat. 1055, 68 Stat. 511; 21 U. S. C. 346a, 371), and under the authority delegated to the Commissioner of Food and Drugs by the Secretary of Health, Education, and Welfare (20 F. R. 1996), the amendments set forth below are ordered, effective 30 days from the date of publication of this order in the FEDERAL REGISTER.

1. Amend § 120.1 *Definitions and interpretations* by adding the following new paragraph:

(g) For the purpose of computing fees as required by § 120.33, each group of crops listed in § 120.34 (e) is counted as a single raw agricultural commodity in a petition or request for tolerances or exemption from the requirement of a tolerance for a nonsystemic pesticide. As a general rule, when considering a petition or request with respect to a systemic pesticide (see § 120.34 (c)) crops shall not be grouped.

2. In § 120.2 *Pesticide chemicals considered safe*, amend paragraph (a) to read as follows:

(a) As a general rule, pesticide chemicals other than sulfur, lime, lime-sulfur, potassium polysulfide, sodium carbonate, and sodium polysulfide are not, for the purposes of section 408 (a) of the act, generally recognized as safe for use.

3. Amend § 120.3 *Tolerances for related pesticide chemicals* by adding the following new paragraph:

(e) Except as noted in subparagraphs (1) and (2) of this paragraph, where residues from two or more chemicals in the same class are present in or on a raw agricultural commodity the tolerance for the total of such residues shall be the same as that for the chemical having the lowest numerical tolerance in this class.

(1) Where residues from two or more chemicals in the same class are present in or on a raw agricultural commodity and there are available methods that permit quantitative determination of each residue, the quantity of combined residues that are within the tolerance may be determined as follows:

(i) Determine the quantity of each residue present.

(ii) Divide the quantity of each residue by the tolerance that would apply if it occurred alone, and multiply by 100 to determine the percentage of the permitted amount of residue present.

(iii) Add the percentages so obtained for all residues present.

(iv) The sum of the percentages shall not exceed 100 percent.

(2) Where residues from two or more chemicals in the same class are present in or on a raw agricultural commodity and there are available methods that permit quantitative determinations of one or more, but not all of the residues, the amounts of such residues as may be determinable shall be deducted from the total amount of residues present, and the remainder shall have the same tolerance as that for the chemical having the lowest numerical tolerance in that class. The quantity of combined residues that are within the tolerance may be determined as follows:

(i) Determine the quantity of each determinable residue present.

(ii) Deduct the amounts of such residues from the total amount of residues present and consider the remainder to have the same tolerance as that for the chemical having the lowest numerical tolerance in that class.

(iii) Divide the quantity of each determinable residue by the tolerance that would apply if it occurred alone and the quantity of the remaining residue by the tolerance for the chemical having the lowest numerical tolerance in that class and multiply by 100 to determine the percentage of the permitted amount of residue present.

(iv) Add the percentages so obtained for all residues present.

(v) The sum of the percentages shall not exceed 100 percent.

(3) The following compounds are members of the class of dithiocarbamates.

Ferbam.
Maneb.
Thiram.
Ziram.
Zineb.

(4) The following compounds are members of the class of chlorinated hydrocarbons:

Aldrin.
Benzene hexachloride.
Chlordane.
Chlorinated camphene (toxaphene).
Chlorobenzilate (ethyl 4,4'-dichlorobenzilate).
*p*-Chlorophenyl-*p*-chlorobenzenesulfonate.
DDD (TDE).
DDT.
2,4-Dichlorophenoxy acetic acid.
Dieldrin.
Heptachlor.
Lindane.
Methoxychlor.
SES (sodium 2,4-dichlorophenoxyethyl sulfate).
Sulphenone (*p*-chlorophenyl phenyl sulfone).

(5) The following compounds are members of the class of organic phosphates:

EPN.
Malathion.
Methyl parathion.
Parathion.
Systox (O,O-diethyl-(2-ethylmercaptoethyl) thiophosphate, a mixture of the thiono and thiol isomers).

(6) The following compounds are members of the class of dinitro compounds:

Dinitro-O-cyclohexylphenol.
Dicyclohexylamine salt of dinitro-O-cyclohexylphenol.

4. In § 120.7 *Petitions proposing tolerances* * * *, amend paragraph (b), Item D so that it reads as follows:

D. The results of tests on the amount of residue remaining, including a description of the analytical method used. (See § 120.34 for further information about residue tests.)

5. In § 120.7, amend paragraph (b) by deleting from the end thereof the two undesignated paragraphs beginning "The petitioner will be notified * * *" and All Petitions Should Be Submitted * * *" and substituting therefor the following:

The petition shall be submitted in duplicate. The petitioner shall show that he has registered or has submitted an application for the registration of an economic poison containing the pesticide chemical under the Federal Insecticide, Fungicide, and Rodenticide Act.

6. Amend Part 120 by adding a new section reading as follows:

§ 120.34 *Tests on the amount of residue remaining.* (a) Data in a petition on the amount of residue remaining in or on a raw agricultural commodity should establish the residue that may remain when the pesticide chemcial is applied according to directions registered under the Federal Insecticide, Fungicide, and Rodenticide Act, or according to directions contained in an application for registration. These data should establish the residues that may remain under conditions most likely to result in high residues on the commodity.

(b) The petition should establish the reliability of the residue data reported in it. Sufficient information should be submitted about the analytical method to permit competent analysts to apply it successfully.

(c) If the pesticide chemical is absorbed into a living plant or animal when applied (is systemic), residue data may be needed on each plant or animal on which a tolerance or exemption is requested.

(d) If the pesticide chemical is not absorbed into the living plant or animal when applied (is not systemic), it may be possible to make a reliable estimate of the residues to be expected on each commodity in a group of related commodities on the basis of less data than would be required for each commodity in the group, considered separately.

(e) Each of the following groups of crops lists raw agricultural commodities that are considered to be related for the purpose of paragraph (d) of this section. Commodities not listed in this paragraph are not considered as related for the purpose of paragraph (d) of this section. This grouping of crops does not affect the certification of usefulness by the Secretary of Agriculture as contemplated by section 408 (l) of the act.

(1) Apples, crabapples, pears, quinces.

(2) Avocados, papayas.

(3) Blackberries, boysenberries, dewberries, loganberries, raspberries.

(4) Blueberries, currants, gooseberries, huckleberries.

(5) Cherries, plums, prunes.

(6) Oranges, citrus citron, grapefruit, kumquats, lemons, limes, tangelos, tangerines.

(7) Mangoes, persimmons.

(8) Peaches, apricots, nectarines.

(9) Beans, peas, soybeans (each in dry form).

(10) Beans, peas, soybeans (each in succulent form).

(11) Broccoli, brussels sprouts, cauliflower, kohlrabi.

(12) Cantaloups, honeydew melons, muskmelons, pumpkins, watermelons, winter squash.

(13) Carrots, garden beets, sugar beets, horseradish, parsnips, radishes, rutabagas, salsify roots, turnips.

(14) Celery, fennel.

(15) Cucumbers, summer squash.

(16) Lettuce, endive (escarole), Chinese cabbage, salsify tops.

(17) Onions, garlic, leeks, shallots (green, or in dry bulb form).

(18) Potatoes, Jerusalem artichokes, sweetpotatoes, yams.

(19) Spinach, beet tops, collards, dandelion, kale, mustard greens, parsley, Swiss chard, turnip tops, watercress.

(20) Tomatoes, eggplants, peppers, pimentos.

(21) Pecans, almonds, Brazil nuts, bush nuts, butternuts, chestnuts, filberts, hazelnuts, hickory nuts, walnuts.

(22) Field corn, popcorn, sweet corn (each in grain form).

(23) Milo, sorghum (each in grain form).

(24) Wheat, barley, oats, rice, rye (each in grain form).

(25) Clovers, alfalfa, cowpea hay, lespedeza, lupines, peanut hay, pea-vine hay, soybean hay, vetch.

(26) Corn forage, sorghum forage.

(27) Sugarcane, cane sorghum.

7. In § 120.101 *Specific tolerances for pesticide residues in or on fresh fruits and vegetables*, amend paragraph (a) to read as follows:

(a) The tolerances established for poisonous or deleterious substances in this section apply only to residues resulting from their application prior to harvest. A tolerance in terms of parts by weight for the poisonous or deleterious substance, or poisonous or deleterious residue resulting from its addition, to 1 million parts by weight of the fruit or vegetable is set forth after the name of each of the substances.

8. In § 120.101, amend paragraph (c) by deleting subparagraphs (4) and (5).

These proposed amendments are for the purpose of clarifying the regulations now in effect. They are not intended to change the Food and Drug Administration's present interpretation or administration of those sections of the Federal Food, Drug, and Cosmetic Act interpreted or applied.

(Sec. 701, 52 Stat. 1055; 21 U. S. C. 371. Interprets or applies sec. 408, 68 Stat. 511; 21 U. S. C. 346a)

Dated: June 5, 1956.

[SEAL] GEO. P. LARRICK,
*Commissioner of Food and Drugs.*

[F. R. Doc. 56-4625; Filed, June 11, 1956; 8:51 a. m.]

#### Subchapter C—Drugs

PART 146a—CERTIFICATION OF PENICILLIN AND PENICILLIN-CONTAINING DRUGS

PENICILLIN-STREPTOMYCIN (OR DIHYDROSTREPTOMYCIN) POWDER

By virtue of the authority vested in the Secretary of Health, Education, and Welfare by the Federal Food, Drug, and Cosmetic Act (sec. 507, 59 Stat. 463, 61 Stat. 11; 21 U. S. C. 357) and delegated to the Commissioner of Food and Drugs by the Secretary (20 F. R. 1996), the regulations for the certification of penicillin and penicillin-containing drugs (21 CFR 146a) are amended in paragraph (a) of § 146a.93 *Penicillin-streptomycin powder* * * * by inserting the following parenthetical expression immediately after the word "penicillin": "(except if it is intended solely for veterinary use each gram contains not less than 2,200 units of penicillin)".

Notice and public procedure are not necessary prerequisites to the promulgation of this order, and I so find, since it was drawn in collaboration with interested members of the affected industry and since it would be against public interest to delay providing for the amendment set forth above.

*Effective date.* This order shall become effective upon publication in the FEDERAL REGISTER, since both the public and the affected industry will benefit by the earliest effective date, and I so find.

(Sec. 701, 52 Stat. 1055, as amended; 21 U. S. C. 371. Interprets or applies sec. 507, 59 Stat. 463, as amended; 21 U. S. C. 357)

Dated: June 5, 1956.

[SEAL] GEO. P. LARRICK,
*Commissioner of Food and Drugs.*

## TITLE 33—NAVIGATION AND NAVIGABLE WATERS

### Chapter II—Corps of Engineers, Department of the Army

PART 207—NAVIGATION REGULATIONS

MCNARY DAM NAVIGATION LOCK AND APPOACH CHANNELS, COLUMBIA RIVER, WASHINGTON

Pursuant to the provisions of section 7 of the River and Harbor Act of August 8, 1917 (40 Stat. 266; 33 U. S. C. 1), § 207.715 governing the use and navigation of McNary Dam Navigation Lock and approach channels and adjacent waters is hereby amended redefining the boundaries of restricted waters above the dam, changing paragraph (w) (3) to read as follows:

§ 207.715 *McNary Dam Navigation Lock and approach channels, Columbia River, Washington; use, administration, and navigation.* * * *

(w) *Restricted areas.* * * *

(3) All waters within a distance of about 3,000 feet above the dam lying south of the guardwall and a line extending about 1,600 feet from the upstream end of the guardwall to a buoy, and north of a line marked by a series of three nun buoys approximately parallel to and 800 feet from the Oregon shore.

[Regs., May 22, 1956, 800.21 (McNary Dam)—ENGWO] (Sec. 7, 40 Stat. 266; 33 U. S. C. 1)

[SEAL] JOHN A. KLEIN,
*Major General, U. S. Army,*
*The Adjutant General.*

[F. R. Doc. 56-4601; Filed, June 11, 1956; 8:45 a. m.]

## TITLE 38—PENSIONS, BONUSES, AND VETERANS' RELIEF

### Chapter I—Veterans Administration

PART 36—SERVICEMEN'S READJUSTMENT ACT OF 1944

SUBPART A—TITLE III; LOAN GUARANTY

DISQUALIFICATION OF LENDERS

Section 36.4331 is revised to read as follows:

§ 36.4331 *Disqualification of lenders.* (a) A lender or holder may be suspended from obtaining guaranty or insurance of loans or from the right to the guaranty or insurance in respect to any loan purchased after the date of its suspension, except as provided in paragraph (h) of this section, whenever any of the employees designated in § 36.4342 (b) finds that the lender or holder (hereinafter referred to as lender) has failed to maintain adequate loan accounting records, or to demonstrate proper ability to service loans adequately, or to exercise proper credit judgment, or has wilfully or negligently engaged in practices otherwise detrimental to the interests of veterans or of the government. Suspension of a lender shall be effected only when specifically authorized by the Administrator, the Deputy Administrator, or by the Chief Benefits Director, Department of Veterans Benefits. In any case in which suspension has been so authorized and an indictment has been secured or a criminal information has been filed against the lender in connection with a transaction involving Title III of the act, an immediate suspension may be effected. In any other case in which the Manager of a regional office has obtained Central Office authorization to initiate suspension proceedings, prior written notice of intention to apply the suspension sanction shall be furnished to the lender concerned.

(b) Where notice of intention to suspend is furnished a lender, the notice shall state the charges against the lender and the specifications on which the charges are based. Such notice shall also advise the lender that no later than twenty days from the date of the receipt of the notice it may file written answer to the charges with the Manager and, if desired, may also file a written request that lender be permitted to appear before the Veterans Administration and state why suspension should not be effected. In the event the lender does not file written answer to the charges against it and does not make or request permission to make an appearance before the Veterans Administration within the time specified, suspension may be effected immediately, without further authorization, by the Manager who will advise the Chief Benefits Director of the action taken.

(c) If an appearance before the Veterans Administration is requested by the lender, the Manager will arrange for and notify the lender of the time and place thereof and will appoint a committee of three Veterans Administration employees to hear the lender's statement. The Chief Attorney or his designee will represent the Veterans Administration at such appearance. The proceedings of the committee will be informal. The lender will be informed of the charges and specifications which constitute the basis of the contemplated suspension and will be afforded an opportunity to state either orally or in writing why suspension should not be effected. Written or oral statements of the lender, or its officers, agents, or representatives other than counsel, may be required by said Chief Attorney or his designee to be made under oath if in his discretion the nature of the statement is such as to make that procedure advisable. In the event an oral statement is made under oath, a verbatim transcript of such statement will be made. Authority is hereby delegated to the Chief Attorney or his designee to administer oaths to each party making the statement under oath.

(d) If within the specified time written answer is filed with the Manager, or the lender makes an appearance, the Manager will hold the suspension in abeyance and submit a full report to the Chief Benefits Director including recommendations as to the action to be taken in the case and will await instructions of the Chief Benefits Director before proceeding further.

(e) Where suspension is effected the lender will be advised in writing of the effective date of the suspension and, unless such was previously furnished, will be given written notice of the charges against the lender, and the specifications on which such charges are based. Any lender who is suspended shall have the right to apply to the Chief Benefits Director for termination or modification of the suspension and for a formal hearing at which opportunity shall be afforded to show why suspension should be modified or terminated. The Chief Benefits Director may postpone the holding of a hearing for a reasonable period in any case in which the Department of Justice or United States Attorney advises or requests postponement pending the trial of a criminal or civil case or the institution of criminal or civil proceedings against the lender. In the absence of such request the Chief Benefits Director, as soon as he may deem it feasible to do so, shall designate such time and place as he may deem appropriate for such hearing, shall notify the lender thereof, and shall appoint not less than three persons, who shall constitute the board, to conduct the hearing. The Chief Attorney or his designee shall represent the Veterans Administration. Authority is hereby delegated to the chairman of the board designated to conduct such hearing to administer oaths to witnesses. The Manager may issue subpoenas for witnesses or records as provided in 38 U. S. C. 131–134 and § 1.1 (printed on September 24, 1949 in notices section, FEDERAL REGISTER and on February 21, 1948, 13 F. R. 801). The lender shall have the right to appear at such hearing in person or by attorney, or both, and to introduce evidence showing why such suspension should be modified or terminated. If the Veterans Administration has knowledge of a pending or contemplated civil or criminal action by the United States against the lender, arising from the facts on which the suspension of the lender was based, the Chief Attorney of the regional office concerned will inform the responsible United States Attorney of the date and place of hearing and keep him advised of all developments.

(f) As soon as is practicable after the conclusion of the hearing, the board will make findings of fact and recommendations in writing to the Chief Benefits Director. The lender will be furnished with a transcript of the hearing and with a statement of the board's findings of fact. The lender shall have the right within 14 days after receipt of such transcript and statement to file with the Chief Benefits Director a brief of either, or both, facts and law.

(g) Upon receipt of the transcript of the hearing, the findings and recommendations of the board, and the brief of the lender, if one is filed, the Chief Benefits Director shall make a determination in the case, basing his action on such record. Written notice of such determination shall be given to the lender. The lender shall have the right to appeal such decision to the Administrator by giving notice in writing to the Chief Benefits Director within 10 days after the receipt of notice of such determination. In the event of such appeal, the Administrator will decide the matter finally on the record and will notify the lender of his decision in writing. If the lender does not appeal to the Administrator within the period specified, the determination by the Chief Benefits Director shall be final.

(h) Except where acquisition is pursuant to a binding contract antedating the suspension, the purchase of a guaranteed or insured loan by a lender after the date of its suspension shall cancel the guaranty or insurance on such loan: *Provided*, The notice to the lender of the suspension expressly bars such lender from acquiring by purchase loans guaranteed or insured by the Administrator.

(i) If after determination by the Chief Benefits Director or the Administrator, as provided in paragraph (g) of this section, the suspension is terminated, all rights and interest of the lender shall be restored.

(Sec. 504, 58 Stat. 293, as amended; 38 U. S. C. 694d)

This regulation is effective June 12, 1956.

[SEAL] JOHN S. PATTERSON,
*Deputy Administrator.*

[F. R. Doc. 56-4633; Filed, June 11, 1956; 8:52 a. m.]

## TITLE 45—PUBLIC WELFARE

### Chapter V—Foreign Claims Settlement Commission of the United States

Subchapter C—Receipt, Administration and Payment of Claims Under the International Claims Settlement Act of 1949, as Amended

PART 531—FILING OF CLAIMS AND PROCEDURES THEREFOR

PROCEDURE FOR DETERMINATION OF CLAIMS

After § 531.5 (b) a new paragraph is added as follows:

(c) Such proposed decision shall be served on the claimant or his attorney of record by personal service or by registered mail. One copy of the proposed decision shall be available for public inspection at the office of the Commission. Notice of proposed decision shall be posted on the bulletin board at the offices of the Commission at least thirty days before final action is taken thereon.

(d) It shall be the policy of the Commission to post on said bulletin board other information of general interest to the claimants before the Commission.

In § 531.5 former paragraphs (c), (d), (e) and (f) are changed into paragraphs (e), (f), (g) and (h), respectively.

These additions and changes shall become effective as of the date of filing with the FEDERAL REGISTER.

(Sec. 3, 64 Stat. 13, as amended; 22 U. S. C. 1622)

WHITNEY GILLILLAND,
*Chairman, Foreign Claims Settlement Commission of the United States.*

[F. R. Doc. 56-4658; Filed, June 11, 1956; 9:42 a. m.]

## TITLE 47—TELECOMMUNICATION

### Chapter I—Federal Communications Commission

[Rules Amdt. 9-3]

PART 9—AVIATION SERVICES

APPLICATION FOR GROUND STATION AUTHORIZATION

In the matter of amendment of Part 9 of the Commission's rules governing Aviation Services to conform with Part 17, Construction, Marking, and Lighting of Antenna Structures.

The Commission having under consideration amendment of Part 9, rules governing Aviation Services, to conform with changes recently effected in Part 17 (§ 17.3) of the Commission's rules:

It appearing, that the existing provisions of Part 9 with respect to the circumstances under which applications shall be accompanied by FCC Form 401–A are at variance with the requirements of Part 17; and

It further appearing that the substance of the amendment herein ordered has already been the subject of formal rule making in Docket 11306, which resulted in amendment of Part 17 by Report and Order released April 30, 1956, Mimeo 30395, 21 F. R. 2952; and

It further appearing that general notice of proposed rule making under section 4 of the Administrative Procedure Act is unnecessary because this amendment is editorial in nature and solely for the purpose of conforming Part 9 with Part 17, and that for the same reason this amendment may become effective immediately:

*It is ordered*, This 7th day of June 1956, that, pursuant to authority contained in section 0.341 (a) of the Commission's rules, Part 9 of the Commission's rules governing Aviation Services is amended, effective June 15, 1956, as set forth below.

Released: June 7, 1956.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] MARY JANE MORRIS,
*Secretary.*

Amend Part 9—Aviation Services as follows:

Amend subparagraphs (1) and (2) of § 9.108 (a), as follows:

(1) The antenna structures proposed to be erected will exceed an over-all height of 170 feet above ground level, except that where the antenna is mounted on top of an existing man-made structure, other than an antenna structure, and does not increase the over-all height of such made-made structure by more than 20 feet, no Form 401–A need be filed; or

(2) The antenna structures proposed to be erected will exceed an over-all height of one foot above the established airport (landing area) elevation for each 200 feet of distance, or fraction thereof, from the nearest boundary of such landing area, except that where the antenna does not exceed 20 feet above the ground or if the antenna is mounted on top of an existing man-made structure, other than an antenna structure, or natural formation and does not increase the over-all height of such man-made structure or natural formation by more than 20 feet, no Form 401–A need be filed.

(Sec. 4, 48 Stat. 1066, as amended; 47 U. S. C. 154. Interprets or applies sec. 303, 48 Stat. 1082, as amended; 47 U. S. C. 303)

[F. R. Doc. 56-4627; Filed, June 11, 1956; 8:51 a. m.]

# PROPOSED RULE MAKING

## DEPARTMENT OF THE INTERIOR

### Fish and Wildlife Service

[ 50 CFR Part 155 ]

NORTHWEST ATLANTIC COMMERCIAL FISHERIES

HADDOCK PROVISIONS

NOTICE OF PROPOSED RULE MAKING

Experience gained since the initial adoption of regulations effective May 31, 1953 (18 F. R. 2414), prescribing restrictions on trawling nets used in the taking of haddock in the Northwest Atlantic Ocean, has demonstrated a need for further revisions in the regulations to make the same more effective.

In accordance with section 4 (a) of the Northwest Atlantic Fisheries Act of 1950, proposed amendments to the regulations were submitted to the Advisory Committee to the United States Commissioners on the International Commission for the Northwest Atlantic Fisheries on March 26, 1956, at which time the proposed revised regulations received the approval, in principle, of the Advisory Committee.

Notice is hereby given, pursuant to section 4 (a) of the Administrative Procedure Act of June 11, 1946 (60 Stat. 237), that the Secretary of the Interior proposes to adopt the regulations set forth in tentative form below to replace Part 155—Haddock Provisions. The proposed regulations to be issued under the authority contained in section 7 (a) of the Northwest Atlantic Fisheries Act of 1950 (64 Stat. 1067; 16 U. S. C. 981), are as follows:

Sec.
155.1 Meaning of terms.
155.2 Haddock registration certificates.
155.3 Restrictions on fishing gear.
155.4 Temporary suspension of haddock registration certificates.
155.5 Certain persons and vessels exempted.

AUTHORITY: §§ 155.1 to 155.5 issued under sec. 1, 64 Stat. 1067; 16 U. S. C. 981.

§ 155.1 *Meaning of terms.* When used in the regulations in this part, unless the context otherwise requires, terms shall have the meanings ascribed hereinafter in this section.

(a) *Regulatory area.* The words "regulatory area" mean that portion of the Convention area, including all waters except territorial waters, bounded by a line beginning at the terminus of the international boundary between the United States of America and Canada in Grand Manan Channel at a point in 44°46'35.34" north latitude, 66°54'11.23" west longitude; thence due south to the parallel of 43°50' north latitude; thence due west to the Meridian of 67°40' west longitude; thence due south to the parallel of 42°20' north latitude; thence due east to a point in 66° west longitude; thence along a rhumb line in a southeasterly direction to a point in 42° north latitude 65°40' west longitude; thence due south to the parallel of 39° north latitude; thence due west to the Meridian of 71°40' west longitude; thence due north to a point three miles off the coast of the State of Rhode Island; thence along the coasts of Rhode Island, Massachusetts, New Hampshire, and Maine at a distance of three miles to the point of beginning.

(b) *Haddock.* The word "haddock" denotes any fish of the species Melanogrammus aeglefinus.

(c) *Haddock fishing.* The words "haddock fishing" mean and include (1) the catching, taking or fishing for or the attempted catching, taking or fishing for fish of the species Melanogrammus aeglefinus; and (2) the outfitting and departure of a vessel for or the return of a vessel from haddock fishing.

(d) *Fishing vessel.* The words "fishing vessel" denote every kind, type or description of watercraft or vessel subject to the jurisdiction of the United States used in or outfitted for catching or processing fish or transporting fish from fishing grounds.

(e) *Trawl net.* The words "trawl net" means any large bag net dragged in the sea by a vessel or vessels for the purpose of taking fish.

(f) *Cod end.* The words "cod end" mean the bag-like extension attached to the after end of the belly of the trawl net and used to retain the catch.

§ 155.2 *Haddock registration certificates.* (a) No person shall engage in haddock fishing within the regulatory area nor shall any person possess, transport or deliver by means of any fishing vessel haddock taken within such area except under a haddock registration certificate issued and in force in conformity with the regulations in this part.

(b) The owner or operator of a fishing vessel may obtain without charge a haddock registration certificate by furnishing, on a form[1] to be supplied by the Fish and Wildlife Service, information specifying the names and addresses of the owner and operator of the vessel, the name, official number and home port of the vessel, and the period for which the haddock registration certificate is desired. The form shall be submitted, in duplicate, to the Regional Director, Fish and Wildlife Service, Department of the Interior, Boston, Massachusetts, who shall grant the registration certificate for the duration specified by the applicant in the form but in no event to extend beyond the end of the calendar year during which the registration certificate is issued. New registration certificates shall similarly be issued to replace expired, lost or mutilated certificates.

(c) The haddock registration certificate so issued by the Fish and Wildlife Service shall be carried on board the vessel for which it is issued at all times and such certificate, the vessel, its gear and equipment shall at all times be subject to inspection by officers authorized to enforce the regulations in this part.

§ 155.3 *Restrictions on fishing gear.* (a) No person shall possess at any time on board a vessel for which a haddock registration certificate is in force, or use or attempt to use from such vessel, a trawl net or nets, parts of nets or netting having a mesh size of less than four and one-half inches as defined in this section.

(b) As used in this section, the term "mesh size of less than four and one-half inches" shall mean (1) with respect to any part of the net except the cod end, the average size of any twenty consecutive meshes in any row located at least ten meshes from the side lacings measured when wet after use; and (2) with respect to the cod end, the average size of any row of meshes running the length of the cod end located at least ten meshes from the side lacings, measured when wet after use, or, at the option of the user, a cod end which has been approved, in accordance with paragraph (d) of this section, by an authorized representative of the Director of the Fish and Wildlife Service, as having a mesh size when dry before use equivalent to not less than four and one-half inches when wet after use.

(c) All measurements of meshes when wet after use shall be made by the insertion into such meshes under pressure of not less than ten nor more than fifteen pounds of a flat wedge-shaped gauge having a taper of two inches in nine inches and a thickness of three thirty-seconds of an inch.

(d) For the purpose of approving dry cod ends before use, as contemplated by paragraph (b) of this section, the average mesh size of such cod ends shall be determined by measuring the length of any single row of meshes running the length of the cod end, parallel to the long axis of the cod end and located at least ten meshes from the side lacings, when stretched under a tension of two hundred pounds, and dividing the length by the number of meshes in such row: *Provided,* That not more than ten percent of the meshes in such row shall be more than one-half inch smaller when measured between knot centers than the average of the row. Cod ends so measured which are constructed of the twines and are of not less than the average mesh sizes specified in the table below may be approved for haddock fishing by any authorized employee of the Fish and Wildlife Service by the attachment to such cod end of an appropriate seal or seals.

| *Twine* | *Average mesh size* |
|---|---|
| 4-ply 45-yard manila, double strand. | 5.625 inches (5⅝"). |
| 4-ply 50-yard manila, double strand. | 5.625 inches (5⅝"). |
| 4-ply 75-yard manila, double strand. | 5.625 inches (5⅝"). |
| 4-ply 80-yard manila, double strand. | 5.500 inches (5½"). |
| 120-thread cotton. | 4.250 inches (4¼"). |

(e) The alteration, defacement of reuse of seals affixed to cod ends in accordance with this section is prohibited.

(f) The repair, alteration or other modification of cod ends to which seals have been affixed in accordance with this section shall invalidate such seals and such cod ends shall not thereafter be deemed to be approved for haddock fishing. Nothing contained in this section shall preclude the continued use at the option of the user, of cod ends having invalidated seals affixed thereto: *Provided,* That such cod ends after repair, alteration or other modification shall continue to have a mesh size of not less than four and one-half inches as defined in paragraph (b) of this section.

(g) The use in haddock fishing within the regulatory area of any device or method which will obstruct the meshes of the trawl net or which otherwise will have the effect of diminishing the size of said meshes is prohibited: *Provided,* That a protective covering may be attached to the underside only of the cod end alone of the net to reduce and prevent damage thereto.

§ 155.4 *Temporary suspension of haddock registration certificates.* (a) The owner or operator of any fishing vessel which is proposed to be used in haddock fishing beyond the limits of the regulatory area or is proposed to be used in fishing within such area for species of fish other than haddock, may obtain a temporary suspension of the haddock registration certificate issued for such vessel for the specified period during which such nonregulated fishing is to be conducted.

(b) Temporary suspension of haddock registration certificates shall be granted upon oral or written request, specifying the period of suspension desired, by an authorized officer of one of the following agencies: Fish and Wildlife Service, Coast Guard, Bureau of Customs, and Post Office Department. Such officer shall make appropriate endorsement on the certificate form evidencing the duration of its suspension.

§ 155.5 *Certain persons and vessels exempted.* Nothing contained in the regulations in this part shall apply to:

(a) Any person who or vessel which, in the course of taking fish other than haddock, takes and possesses a quantity of haddock not exceeding five thousand pounds, or ten percent of all fish on the vessel from which the fishing is conducted, whichever is the greater.

(b) Any person or vessel authorized by the Director of the Fish and Wildlife Service to engage in haddock fishing for scientific purposes.

(c) Any vessel documented as a common carrier by the Government of the United States and engaged exclusively in the carriage of freight and passengers.

Prior to the final adoption of the regulations set forth above, consideration will be given to any data, views or arguments relating thereto which are submitted in writing to the Director, Fish and Wildlife Service, Department of the Interior, Washington 25, D. C., within the period of thirty days from the date of publication of this notice in the FEDERAL REGISTER.

Dated: June 6, 1956.

WESLEY A. D'EWART,
*Assistant Secretary of the Interior.*

[F. R. Doc. 56-4603; Filed, June 11, 1956; 8:45 a. m.]

## DEPARTMENT OF AGRICULTURE

### Agricultural Marketing Service

### [ 7 CFR Part 940 ]

[Docket No. AO 102-A3]

HANDLING OF PEACHES GROWN IN COUNTY OF MESA, COLORADO

NOTICE OF RECOMMENDED DECISION AND OPPORTUNITY TO FILE WRITTEN EXCEPTIONS WITH RESPECT TO PROPOSED AMENDMENTS TO AMENDED MARKETING AGREEMENT AND ORDER

Pursuant to the rules of practice and procedure, as amended, governing proceedings to formulate marketing agreements and orders (7 CFR Part 900), notice is hereby given of the filing with the Hearing Clerk of the recommended decision of the Deputy Administrator, Agricultural Marketing Service, United States Department of Agriculture, with respect to proposed amendments to the marketing agreement, as amended, and Order No. 40, as amended (7 CFR Part 940), hereinafter referred to as "marketing agreement" and "order," respectively, regulating the handling of peaches grown in the County of Mesa in the State of Colorado, to be made effective pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (48 Stat. 31, as amended; 7 U. S. C. 601 et seq.; 68 Stat. 906, 1047), hereinafter referred to as the "act." Interested parties may file written exceptions to this recommended decision with the Hearing Clerk, United States Department of Agriculture, Room 112, Administration Building, Washington 25, D. C., not later than the close of business of the fifth day after publication thereof in the FEDERAL REGISTER. Exceptions should be filed in quadruplicate.

*Preliminary statement.* The public hearing, on the record of which the proposed amendments to the marketing agreement and order are formulated, was initiated by the Agricultural Marketing Service as a result of proposals submitted by the Administrative Committee, the administrative agency established pursuant to the marketing agreement and order. In accordance with the applicable provisions of the aforesaid rules of practice and procedure, a notice that such public hearing would be held in Palisade, Colorado, beginning on March 15, 1956, to consider the proposed amendments was published in the FEDERAL REGISTER (21 F. R. 1290) on February 28, 1956.

*Material issues.* The material issues presented on the record of the hearing were concerned with amending the marketing agreement and order to:

(1) Revise the provisions pertaining to the regulation of peach shipments to authorize the recommendation and establishment of regulations on a varietal basis; and, as an incident thereto, provide a definition for the term "varieties";

(2) Revise the provisions pertaining to the establishment and membership of the Administrative Committee and those pertaining to the nomination and selection and eligibility for membership on such committee;

(3) Revise the provisions pertaining to compensation and expenses so as to authorize the payment of mileage and other expenses as are reasonable and necessarily incurred by members and alternates of the committee in the performance of duties specifically assigned by the committee;

(4) Authorize the committee to consult, cooperate, and exchange information with committees administering other marketing agreements and orders, with other governmental agencies, and with industry groups in connection with all proper committee activities and objectives under this marketing agreement and order program;

(5) Revise the provisions pertaining to exemptions and exemption certificates so as to clarify the procedure under which the committee may issue exemption certificates and to provide additional conditions which must be met in order to become eligible for exemption; and

(6) Authorize the committee, with the approval of the Secretary, to engage in marketing research and development projects designed to assist, improve, or promote the marketing, distribution, and consumption of peaches.

*Findings and conclusions.* The findings and conclusions on the material issues, all of which are based upon the evidence adduced at the hearing and the record thereof, are as follows:

(1) Current provisions of the marketing agreement and order pertaining to the regulation of shipments of peaches thereunder provide that, under specified conditions, the Administrative Committee may recommend, and the Secretary of Agriculture may issue regulations, which during any period or periods limit the shipment of peaches by grades or sizes, or both, or by minimum standards of quality or maturity, or both. Shortly prior to the 1955 shipping season, the Administrative Committee held a meeting to consider the then current and prospective marketing conditions with respect to peaches at which they deemed it advisable to recommend a size regulation limiting shipments of the customarily referred to standard Elberta peaches to those of a size at least 2⅛ inches in diameter (measured through the center of the peach at right angles to a line running from the stem end to the blossom end), with shipments of peaches of other varieties such as the Gleason Elberta and Early Elberta being limited to those of a size of at least 2 inches. Because of the characteristic elongated flat shape of the Gleason Elberta and Early Elberta varieties, such peaches are generally of a smaller diameter than standard Elbertas. However, the marketing agreement and order do not authorize the regulation of peaches by variety. Consequently, the committee recommended separate size regulations which limited shipments of all peaches to those measuring at least 2 inches in diameter during the early part of the shipping season when the bulk of the Gleason Elberta and Early Elberta varieties was being shipped and which limited the shipments of all peaches to those measuring at least 2⅛ inches in diameter during the remainder of the shipping season when the bulk of standard Elbertas was being shipped. This manner of providing different size regulations for different periods of the shipping season proved unworkable and very difficult to administer. The harvesting period of some of the early maturing varieties overlaps with that of the later maturing standard Elbertas. It was necessary for growers of the former varieties to apply for exemption certificates during the period when standard Elbertas were being shipped, since the former varieties would not meet the minimum size requirement of the then current regulation. Size exemption applications came in large numbers and on short notice because of the overlapping of harvesting periods and the larger size requirement and because the apparent need for size exemption is not discernible until a relatively short time before harvest. It was difficult for the committee promptly to check on the validity of the large number of exemption applications with its available staff. The foregoing circumstances may have been conducive to some shipments of small sized standard Elbertas under exemption which tended to defeat the purpose of regulation.

It was testified that a number of varieties of peaches, for example Gleason Elberta, Sullivan's Elberta, and Early Elberta, are so similar in type and in a number of characteristics such as surface and ground color, flesh color, adhesion of the flesh to the pit, approximate ripening dates and others, that for all practical purposes, it would not be administratively feasible for the committee to establish separate regulations for each individual variety of peaches. Furthermore, it does not appear that the committee would find it necessary to regulate all of the varieties differently. Therefore, the committee should have authority to group varieties of peaches for regulation purposes according to type or such other characteristics as they may establish with the approval of the Secretary.

It was testified also that although the committee's experience in the regulation of shipments of peaches has not indicated a need for variety regulations other than with respect to size, should it be necessary, authority to regulate by grades, as well as by minimum standards of quality and maturity, on a varietal basis should be provided so that appropriate regulations may be made effective in order to carry out the purposes of the act. Also, there is presently a trend in Mesa County toward planting additional varieties of peaches in order to extend the harvesting season. Consequently, the need for regulation of peaches by variety will become more pressing in the future.

In view of the foregoing circumstances, it is concluded that §§ 940.50 and 940.52 of the marketing agreement and order should be amended as hereinafter set forth. In addition, a definition of the term "varieties" should be added as a new § 940.8 *Varieties* as hereinafter set forth, in order to facilitate the issuance of regulations of peaches on a varietal basis in the manner heretofore explained. The definition should be broad enough to include all customary or trade names of peaches including those that may be recognized in the future by the State or Federal departments of agriculture, and include groupings of varieties of peaches according to type or such other characteristics as may be established by the committee with the approval of the Secretary. It is necessary for the definition to include all customary or trade names, because some of the varieties are known by more than one name.

(2) The present provisions of the marketing agreement and order establish a committee consisting of nine members, of whom five represent producers and four represent handlers. Under the nomination and selection provisions for handler members, three of the handler members selected by the Secretary represent cooperative associations and one represents all other handlers. The nominees for cooperative handler members are elected by the members of cooperative associations; and any such association shipping 50 percent or more of the total volume of peaches shipped by all handlers during the fiscal year of the election is entitled to nominate four such nominees from among whom the Secretary selects two cooperative handler members. The nominees for the handler member to represent handlers

other than cooperatives and their members are elected by handlers other than cooperatives and their members; and the respective handler's vote is weighted by the volume of peaches shipped by such handler during the fiscal year of the election. To be eligible for membership on the committee, cooperative handler members must be members or employees of a cooperative association; the handler member representing handlers other than cooperatives and their members must be a handler who is not a member or an employee of a cooperative association.

No criticism was expressed by members of the industry with the present producer representation on the Administrative Committee. Each peach producer or grower participates in the election of nominees for producer member in the district in which he produces peaches. However, there was much dissatisfaction with the handler representation on the committee; and the majority of the dissatisfaction was expressed by members of the industry, hereinafter referred to at times as "independents," "independent growers," or "independent handlers," who are not members or employees of cooperative associations. Growers who are members of cooperative associations participate in the election of nominees for the producer member in their district and also participate in the election of nominees for cooperative handler members of the committee. Independent growers, however, are authorized to participate only in the election of nominees for producer member in their district. Only independent handlers are authorized to participate in the election of nominees for the handler member representing independent handlers. Moreover, since the vote of each such handler in the election of nominees is weighted by the volume of peaches shipped by the voting handler in the fiscal year of the election, the largest of such handlers is likely to be able to elect the handler member of his choice. Independent handlers who ship only a small volume of peaches would generally, therefore, have little influence in the election of the nominees. It was testified that the present provisions of the marketing agreement and order pertaining to the election of nominees for the handler members of the committee are not the most desirable and may work inequities on one segment of the industry as compared to other segments. In recent years the largest independent handler in the Mesa County peach industry has chosen not to participate in the elections or to be represented on the Administrative Committee. Moreover, the second largest independent handler in the industry has not generally participated in the elections because of business interests elsewhere at the time elections are held. These handlers have permanent facilities in the county for the handling of peaches; and the latter independent handler has a designated agent in the production area to carry on such handler's business during his absence. Because of this lack of participation, a large number of the independent growers whose peaches are handled by the non-participating handlers were not represented in the election by independent handlers of nominees for the handler member. It appears that the provisions pertaining to membership, election of nominees, and eligibility for membership would more adequately represent the entire industry by affording independents opportunity to participate in elections and representation on the committee of an independent member representing all independent growers and handlers regardless of whether they are producer or handler or both. Because of previously mentioned reasons, the provisions relating to the election of nominees for independent member should not include the weighting of the votes by the volume of peaches shipped. It further appears that the independents would have better representation on the committee if independent handlers having permanent facilities in Mesa County for the handling of peaches and having bona fide agents or employees in that County who carry on business activities of such handlers were permitted to have such agents or employees represent them at nomination meetings and be nominated. Such handlers have substantial interest in the Mesa County peach industry and should not be prevented from participating in the nomination of the independent member merely because their business activities prevent them from personally attending the nomination meetings. However, to assure that this provision not be abused, the committee should be authorized to make rules and regulations, subject to the approval of the Secretary, defining what shall constitute permanent facilities and bona fide agents and employees who may participate in the nomination meetings.

A proposal set forth in the notice of hearing provided for revisions in the procedures for nomination and selection of committee membership. It was testified that the present provisions requiring the election of two nominees for each member position and the election of two nominees for each alternate position sometimes resulted in desirable men being eliminated as alternate member of the committee, since they had been the second choice nominee for the member position and only one of the nominees could be selected to fill the position. It is the consensus of the industry that the eliminated nominee for the member position is the second choice for member and should represent such member in his absence. Therefore, the nomination provisions should be revised to provide for the nomination of persons to be voted upon without designating such nominees as member nominees or alternate nominees. Such nominee should be ranked in order of votes cast for each, with such ranking determining the priority in which they should be considered for the vacancies to be filled. The Secretary should select the required number of members and alternates from the nominees thus elected and ranked.

A further proposal, set forth in the notice of hearing, provided for a revision in the representation of cooperative handler members on the committee. Present provisions provide that any cooperative association shipping 50 percent, or more, of the total volume of peaches shipped by all handlers during the fiscal year of the election shall be represented by two handler members and alternates. The remaining cooperative is represented by one member and alternate. In 1939 when the original order was made effective, there were two cooperative associations handling peaches in Mesa County. The larger association handled over 50 percent of the peaches handled by all handlers at that time while the other association handled about 25 percent of such peaches. Since that time, conditions in the industry have changed so that the larger cooperative now handles about 40 percent of the peach shipments and the other cooperative handles about 35 percent. Therefore, present provisions of the marketing agreement and order, with respect to cooperative handler representation on the committee, no longer are meaningful. The provisions would more equitably represent the cooperative handler segment of the industry if they were revised as follows: One member and one alternate member to represent each of the two cooperative associations presently handling peaches; and each such association to be represented either by the third member, or the third alternate member to the end that in alternate years each association shall be represented by either two members and one alternate or one member and two alternates. The larger cooperative is now represented by two members on the committee and it was testified at the hearing that, for an orderly transition to the new procedure, such representation should continue during the current fiscal year and such cooperative should be represented by one member and two alternates during the next fiscal year, with the other cooperative then being represented by two members and one alternate. The provisions should also provide that in the event that cooperative handler activities or representation in the industry change, the cooperative handler representation on the committee may be revised by the committee with the approval of the Secretary. For example, if a new cooperative association should appear in the industry, the present cooperative handler positions could be reapportioned to the end that the three cooperative handler members would each represent a cooperative association.

It is therefore concluded that §§ 940.20 through 940.23 and paragraph (c) of § 940.24 should be deleted from the marketing agreement and order and a new paragraph and sections substituted therefor as hereinafter set forth.

(3) Current provisions of the marketing agreement and order provide that members and alternates for members of the Administrative Committee shall serve without compensation, but they may be reimbursed, at a rate not to exceed $5 per meeting, for expenses incurred by them in the performance of their duties and in the exercise of their powers. The committee has found that the time and inconvenience involved in attending meetings are great, particularly during the harvest season. It is necessary for some members of the committee to travel a distance as great as 40 miles one way in order to attend such meetings. This travel involves some cash outlay on the part of some members who must travel great distances, and although the members are reimbursed at a rate not exceeding $5 per meeting, some members incur much more expense in attendance than others. The committee has also found that the effective administration of the marketing agreement and order requires from time to time that subcommittees be appointed to solve industry problems or to perform specific duties that can best be performed by a few members possessing the requisite qualifications for such assignments. Present provisions provide for no reimbursement for duties performed other than attendance at meetings. It is therefore concluded that the marketing agreement and order should be amended to provide for the payment of mileage at not to exceed 10 cents per mile and other reasonable expenses necessarily incurred by members and alternates in the performance of duties specifically assigned by the committee notwithstanding that they may be compensated for attendance at meetings at a rate not to exceed $5 per meeting.

(4) The marketing agreement and order should be amended, as hereinafter set forth, to authorize the committee to consult, cooperate, and exchange information with committees administering other marketing agreements and orders, with other governmental agencies, and with industry groups in connection with all proper committee activities and objectives under the marketing agreement and order. Peaches are produced in the United States in widely separated locations, but all such peaches, which are harvested during particular periods, compete in the large consuming markets. It is therefore important in the forming of marketing policies and in establishing regulations to have information on the marketing activities of all areas. Such information might include harvesting schedules of the various areas in order to alert marketing channels and agencies of expected peach movement. Other information that might be gained includes information on the characteristics of new peach varieties such as methods of determining maturity, harvesting dates, size of fruit, and other data which would help the committee in making recommendations for regulation of peaches by variety. It is believed that much benefit to the peach industry in Colorado will result if the committee has authority to cooperate with other similarly interested agencies in matters that will enable the committee to more effectively administer the provisions of the marketing agreement and order particularly with respect to the issuance thereunder of regulations limiting the total quantity of peaches that may be shipped by grades or sizes, or both, or by minimum standards of quality or maturity, or both.

It was advanced at the hearing that problems are encountered in the harvesting and transportation of peaches which the committee should endeavor to correct. These problems related primarily to shortage of labor in some seasons for the harvesting and packing of the crop and to freight rates which were believed inequitable. Under the provisions of the act, the committee is authorized to incur only such expenses as are reasonable and necessary to perform its functions as specifically authorized thereunder. Consequently, authority is not available for the committee to incur expenses for such activities.

(5) Provision whereby any producer may obtain exemption from regulations is included in the marketing agreement and order to avoid undue hardship on and producer because of conditions beyond his control. Any producer who furnishes proof, satisfactory to the Administrative Committee, that by reason of conditions beyond his control, he will be prevented, because of the regulation, from shipping, or having shipped, a percentage of his crop of peaches equal to the percentage of all peaches permitted to be shipped under such regulation, may obtain an exemption certificate. The exemption certificate permits such producer to ship, or have shipped, a percentage of his crop equal to the percentage of all peaches permitted to be shipped under such regulation. It was not intended that the committee be burdened with proving that conditions were or were not within the control of the producer. Conversely, it was intended that the producer furnish proof, satisfactory to the committee, that conditions, relating to his need for exemption, were beyond his control. It is recognized and the administration of the present exemption provisions has shown that not all Mesa County peach producers are in agreement as to what constitutes conditions within the control of producers and, implicitly, therefore, conditions not within the control of producers or within their reasonable expectation. It was testified, however, that all peach producers, in order to produce peaches of an acceptable quality for marketing, must use at least a certain number of accepted cultural and harvesting practices. Such practices include irrigation, pruning, thinning, fertilizing, spraying, and cultivating according to proven and accepted methods. It is the desire of the industry that only growers (producers) who use the accepted practices be permitted to obtain exemptions, because such exemptions tend to burden the industry as a whole. These accepted practices are all deemed within the control of a prudent grower. At the same time the industry recognizes that there are certain conditions not within the control of a prudent grower or within his reasonable expectation, and in such circumstances, exemptions should be provided. These conditions include frost, ditch breaks, water shortages, labor shortages during the growing season, and illness which causes inability to carry on proper management in the production of the crop. Since there has been some misunderstanding as to causes within the control of a prudent grower and causes beyond such grower's control and expectation, it is concluded that the exemption provisions should be amended so as to set forth such causes as are deemed within the control of a prudent grower and those that are beyond his control and reasonable expectation. The committee with the approval of the Secretary, should be authorized also to adopt such rules and regulations as are necessary to make refinement of definitions with respect to causes beyond the control of a prudent grower and beyond a grower's reasonable expectation.

Although it is the intent to permit the respective grower to whom an exemption certificate is issued to ship, or have shipped, a percentage of his crop equal to the percentage of all peaches permitted to be shipped under the regulation, it is not the intent to allow the grower with the exemption to ship a greater quantity than that amount. In order to add a safeguard to the exemption provisions, the committee should have authority to limit the exemption to the specific damage for which the exemption is claimed and to establish the minimum grade, quality, size, and maturity which must be met by peaches shipped under such certificate. Such minimums are necessary in order to fix the quantity which will enable the grower with an exemption certificate to ship a percentage of his crop equal to that shipped by other growers but not to exceed such percentage.

In keeping with the conclusion that the provisions pertaining to the regulation of shipments should be amended to permit the regulation of peaches on a varietal basis, it is evident, therefore, that the exemption provisions also should be amended to permit the issuance of exemptions from such regulations on a varietal basis.

It is therefore concluded that § 940.53 of the marketing agreement and order should be amended, and such new paragraphs should be added to the said section as are hereinafter set forth.

(6) The marketing agreement and order should be amended to authorize the committee to establish marketing research and development projects to assist, improve, or promote the marketing, distribution, and consumption of peaches. The Agricultural Act of 1954 amended the Agricultural Marketing Agreement Act of 1937 so as to authorize the inclusion in marketing agreements and orders for certain fruits or vegetables authority to establish marketing research and development projects designed to assist, improve, or promote the marketing, distribution, and consumption of such commodities or the products thereof, the expense of such projects to be paid from funds collected pursuant to the particular marketing agreement and order. The authority for such activities was not available when the existing marketing agreement and order was made effective or at the time of the last amendment to the aforesaid agreement and order. It was testified that the marketing agreement and order should be amended to provide the authority made available under the 1954 amendment and the definition of act revised so as to conform with such amendment. The proponent witnesses believe that marketing research and development activities that may be undertaken provided such authority is available will benefit the entire Mesa County peach industry and will be of inestimable value to the Administrative Committee in carrying out the regulatory provisions of the marketing

agreement and order. Some of the suggested areas for marketing research and development activities, with the main reasons such projects might be beneficial, include studies designed to extend the marketing season and to facilitate the regulation of peaches by variety; the development of better standards for the measurement of maturity in peaches as an aid in determining the proper stage of maturity at which to harvest to insure better handling and to increase consumer acceptance; the development of new and improved packages and containers for peaches to reduce handling costs and damage or spoilage and also to increase consumer acceptance by adding to appeal and increasing the unit of purchase; development of improved refrigeration and cooling, transportation, and handling techniques; determine methods for better competing with other commodities in order to increase the consumption of peaches; disseminate information to marketing agencies and in marketing channels to encourage better handling and assist in the development of new markets, and distribute information on various uses of peaches to food editors and other information agencies. It is not possible at the present time to anticipate all of the projects which might be desirable and of benefit to the industry. It is expected that the nature and need for such activities will vary from time to time as problems arise and as economic conditions change. Therefore, it is desirable that activities should not be limited to those outlined at the hearing. For administrative control, the proposal, as set forth in the notice of hearing, provides that the exercise of this authority by the Administrative Committee shall be "with the approval of the Secretary." Such general approval authority is necessary in order that the Secretary may remain in a position to continue to exercise the general supervisory authority over regulatory programs of this nature which is imposed upon him by law.

In carrying out its marketing research and development projects, the committee should endeavor to coordinate its studies with those of other agencies insofar as it is practicable to do so. Also, the committee should be authorized to participate in such projects, designed to be of benefit to the industry in the marketing of its peaches, as may be conducted by other committees administering marketing agreement programs, governmental agencies, and industry groups.

It is not intended or anticipated that the proposed authorization, if adopted, will be used to operate advertising programs for peaches, either by newspaper, radio, television, or through other media customarily used for advertising purposes.

*General findings.* (1) The marketing agreement, as amended, and as hereby proposed to be amended, and the order, as amended, and as hereby proposed to be amended, and all the terms and conditions thereof, will tend to effectuate the declared policy of the act;

(2) The marketing agreement, as amended, and as hereby proposed to be amended, and the order, as amended, and as hereby proposed to be amended, regulate the handling of peaches grown in the County of Mesa in the State of Colorado in the same manner as, and are applicable only to persons in the respective classes of industrial and commercial activity specified in, the marketing agreement upon which hearings have been held;

(3) The marketing agreement, as amended, and as hereby proposed to be amended, and the order, as amended, and as hereby proposed to be amended, are limited in their application to the smallest regional production area that is practicable, consistently with carrying out the declared policy of the act; and the issuance of several orders applicable to subdivisions of such production area would not effectively carry out the declared policy of the act; and

(4) There are no differences in the production and marketing of peaches grown in the production area covered by the marketing agreement, as amended, and as hereby proposed to be amended, and the order, as amended, and as hereby proposed to be amended, that make necessary different terms and provisions applicable to different parts of such area.

*Rulings on proposed findings and conclusions.* March 30, 1956, was fixed as the latest date for the filing of briefs with respect to the facts presented in evidence at the hearing and the findings and conclusions which should be drawn therefrom. No such brief was filed within the prescribed time; hence, no ruling is necessary.

*Recommended amendments to the marketing agreement and order.* The following amendments to the marketing agreement and order are recommended as the detailed means by which the aforesaid conclusions may be carried out:

1. Redesignate §§ 940.8, 940.9 and 940.10 as 940.9, 940.10, and 940.11, respectively, and insert the following new section:

§ 940.8 *Varieties.* "Varieties" means and includes all classifications and subdivisions, including customary and trade names thereof, of peaches according to those definitive characteristics now or hereafter recognized by the United States Department of Agriculture or the Colorado State Department of Agriculture, or such groupings of peaches according to such characteristics or types as may be established by the Committee with the approval of the Secretary.

2. Delete §§ 940.20 through 940.23 and substitute therefor the following:

§ 940.20 *Establishment and membership.* An Administrative Committee is hereby established consisting of nine members, each of whom shall have an alternate. Five of the members, one for each district, shall represent producers; three of the members shall represent cooperative associations that are handlers; and one of the members, hereinafter referred to as "independent" member, shall represent producers and handlers other than cooperative associations and members of such associations. The members of the committee and their respective alternates shall be nominated and selected, for the terms of office subsequent to February 28, 1957, in accordance with the provisions of §§ 940.21 through 940.24.

§ 940.21 *Nomination and selection of producer members.* (a) Nomination of producer members and their respective alternates shall be made at meetings of producers for each such district, at such times (on or before February 1 of each year) and places as the Administrative Committee shall designate. At each such meeting, the producers eligible to participate therein shall select a chairman and a secretary therefor. In the election of nominees, each producer shall be entitled to vote in accordance with the provisions of paragraph (b) of this section. The chairman of each meeting shall announce at such meeting the name of each person for whom votes have been cast, and the number of votes cast for each such person; and the chairman or the secretary of the meeting shall forthwith transmit such information to the Secretary.

(b) Only producers shall participate in the nomination of producer members and their alternates, and a producer may participate only in the meeting held for the district in which he produces peaches. No producer shall participate in the nomination of producer members and their alternates for more than one district in any fiscal year. Each producer shall be entitled to cast but one vote on behalf of himself, his agents, partners, and representatives. Proxy voting shall be prohibited.

(c) At least twice as many persons shall be nominated as there are positions to be filled. Such nominees shall be ranked in the order of votes cast for each, and such ranking shall determine their standing in the order of importance of the positions to be filled. Member positions shall be considered of first importance. The Secretary shall select one member and one alternate from the nominees thus elected and ranked.

§ 940.22 *Nomination and selection of independent member.* (a) Nomination of an independent member and his alternate shall be made at a meeting of producers and handlers other than cooperative associations or members of such associations, at such time (on or before February 1 of each year) and place as the Administrative Committee shall designate. At each such meeting, the persons eligible to participate therein shall select a chairman and a secretary therefor.

(b) Only producers and handlers who are not cooperative associations nor members of such associations shall be eligible to participate in the nomination of the independent member and his alternate. Proxy voting shall be prohibited, but independent handlers having permanent facilities in Mesa County for the handling of peaches and having bona fide agents designated for carrying on business activities for such handlers may be represented at such nomination meetings by such agents and such agents may vote and be nominated; and, in a similar manner, such handlers may designate employees who may vote and be nominated. In the election of nominees for the independent member and his alternate, each person eligible to participate therein shall be entitled to cast but one vote on behalf of himself, his agents, partners, affiliates, subsidiaries, and representatives. The Administrative Committee, with the approval of the Secretary, may make rules and regulations defining permanent facilities and what shall constitute bona fide agents and employees for the purposes of this section, and in like manner may change such rules and regulations from time to time.

(c) At least twice as many persons shall be nominated as there are positions to be filled. Such nominees shall be ranked in the order of the votes cast, and such ranking shall determine their standing in the order of importance of the positions to be filled. Member positions shall be considered of first importance. The Secretary shall select a member and an alternate member from the nominees thus elected and ranked.

(d) The chairman of the meeting shall announce at such meeting the name of each person for whom votes have been cast, and the number of votes cast for each such person; and the chairman or the secretary of the meeting shall forthwith transmit such information to the Secretary.

§ 940.23 *Nomination and selection of cooperative handler members.* (a) Each of the two cooperative associations qualifying as a handler during the fiscal year beginning March 1, 1956, shall be entitled to nominate one member and one alternate member of the committee; and, in alternate years, each such association shall make an additional nomination for either a member or alternate member. The cooperative association represented by two cooperative handler members during the fiscal year beginning March 1, 1956, shall nominate one member and two alternates for the next succeeding fiscal year. The cooperative association represented by one cooperative handler member during the fiscal year beginning March 1, 1956, shall nominate two members and one alternate for the next succeeding fiscal year.

(b) Nomination of cooperative handler members and their respective alternates shall be made at a meeting or meetings of the members of such cooperative associations at such times (on or before February 1 of each year) and places as the respective associations shall designate with the concurrence of the Administrative Committee. At each such meeting, the association members eligible to participate therein shall select a chairman and secretary therefor unless such officers regularly serving the association are in attendance. In the election of nominees, each member of a cooperative association shall be entitled to cast but one vote on behalf of himself, his agents, partners, and representatives, for each member nominee to be elected. Proxy voting shall be prohibited.

(c) At least twice as many persons shall be nominated as there are positions to be filled. Such nominees shall be ranked in the order of votes cast for each, and such ranking shall determine their standing in the order of importance of the positions to be filed. Member positions shall be considered of first importance. The Secretary shall select the required number of members and alternates from the nominees thus elected and ranked.

(d) The chairman of each meeting shall announce at such meeting the name of each person for whom votes have been cast, and the number of votes cast for each such person; and the chairman or the secretary of such meeting shall forthwith transmit such information to the Secretary.

(e) The committee, with the approval of the Secretary, may provide for the reapportionment of the cooperative handler membership of the committee so as to more equitably provide representation to present and future cooperative associations engaged in handling Mesa County peaches should the need for such reapportionment of present cooperative handler positions arise. Any such reapportionment should be based, so far as practicable, upon the volume of peaches handled by the respective associations.

3. Delete paragraph (c) of § 940.24 and substitute therefor the following:

(c) The independent member of the Administrative Committee and the alternate for such member to be selected from the nominees of producers and handlers other than cooperative associations and members of such associations must be a producer or handler (including employees and bona fide agents designated for carrying on business activities for such handler) and shall not be a member or an employee of a cooperative association.

4. Delete § 940.30 and substitute therefor the following:

§ 940.30 *Compensation and expenses.* The members and alternate members of the Administrative Committee shall serve without salary but may be compensated for attendance at meetings at a rate not to exceed $5.00 per meeting plus mileage at not to exceed 10 cents per mile. Such members and alternates also may be reimbursed for reasonable expenses necessarily incurred by them in the performance of duties, specifically assigned by the committee, other than attendance at meetings.

5. Redesignate paragraphs (g), (h), (i), and (j) of § 940.32 as paragraphs (h), (i), (j), and (k), respectively, and insert the following new paragraph (g):

(g) To consult, cooperate, and exchange information with committees administering other marketing agreements and orders, with other governmental agencies, and with industry groups in connection with all proper committee activities and objectives under this part;

6. Delete §§ 940.50 and 940.52 and substitute therefor the following:

§ 940.50 *Regulation of shipments.* Whenever the Administrative Committee deems it advisable to regulate, during any period or periods, the shipment of one or more varieties of peaches by grades or sizes, or both, or by minimum standards of quality or maturity, or both, it shall so recommend to the Secretary.

§ 940.52 *Establishment of regulations*—(a) *By grades and sizes.* Whenever the Secretary finds, from any such recommendations and information or other available information, that to limit the shipment of the total quantity of any variety or varieties of peaches to particular grades or sizes, or both, thereof would tend to effectuate the declared policy of the act, he shall so limit the shipment of such variety or varieties during a specified period or periods. The Secretary shall promptly notify the committee of each such regulation; and the committee shall promptly give adequate notice thereof to handlers and producers.

(b) *By minimum standards of quality and maturity.* Whenever the Secretary finds, from any such recommendation and information or other available information, that to establish minimum standards of quality or maturity, or both, and to limit the shipment of any variety or varieties of peaches during any period or periods to those meeting such minimum standards would be in the public interest and would tend to effectuate the declared policy of the act, he shall so limit the shipment of such variety or varieties during a specified period or periods. The Secretary shall promptly notify the committee of each such regulation; and the committee shall promptly give adequate notice thereof to handlers and producers.

7. After deleting the provisions of paragraph (b) of § 940.53 and redesignating paragraphs (c) and (d) of such section as paragraphs (e) and (f), respectively, insert the following:

(b) In the event the Secretary issues a regulation pursuant to § 940.52, the committee shall determine the percentage which each variety of peaches permitted to be shipped under the regulation bears to the total production of such variety; and the committee shall forthwith announce such percentage. The committee shall thereafter issue one or more exemption certificates to any producer who furnishes evidence satisfactory to the committee that, by reason of conditions beyond the control of a prudent grower and beyond his reasonable expectations, he will be prevented because of the regulation issued from shipping or having shipped as large a proportion of a particular variety of his peaches as the average proportion of all such peaches which may be so shipped. Causes regarded as within the control of a prudent grower include, but are not necessarily limited to, failure properly and adequately to prune, irrigate, thin, fertilize, spray, and cultivate according to accepted practices. Causes regarded as beyond control of a prudent grower and beyond his reasonable expectation include, but are not necessarily limited to, exceptionally late spring and early frosts, ditch breaks, water shortages, general shortage of labor during the growing season, or illness of a kind causing inability to carry out the management of his crop in the manner of a prudent grower.

(c) The committee, with the approval of the Secretary, may include in the

rules and regulations adopted pursuant to paragraph (a) of this section such refinement of definition as is deemed necessary with respect to causes beyond the control of a prudent grower and beyond a grower's reasonable expectation.

(d) The exemption certificates issued pursuant to this section shall permit the respective grower to whom the certificate is issued to ship or have shipped a percentage of his crop of a particular variety of peaches equal to the percentage determined pursuant to paragraph (b) of this section; but such exemption may be limited to the specific damage by reason of which the exemption is claimed, and the committee may establish special requirements with respect to the minimum grade, quality, size, and maturity which must be met by peaches shipped under such certificates.

8. Add after § 940.55 the following new section, preceded by a main heading entitled "Research and Development:"

§ 940.60 *Marketing Research and Development.* The committee, with the approval of the Secretary, may provide for the establishment of marketing research and development projects designated to assist, improve, or promote the marketing, distribution, and consumption of peaches. In a similar manner any such project may be modified, suspended, or terminated.

9. Immediately preceding the closing of the parenthesis at the end of § 940.2 *Act*, insert the following: "; 68 Stat. 906, 1047."

Dated: June 7, 1956.

[SEAL] ROY W. LENNARTSON,
*Deputy Administrator.*

## [ 7 CFR Part 993 ]

### HANDLING OF DRIED PRUNES PRODUCED IN CALIFORNIA

### NOTICE OF PROPOSED RULE MAKING WITH RESPECT TO AMENDMENTS OF ADMINISTRATIVE RULES AND PROCEDURES

Notice is hereby given that the Secretary of Agriculutre is considering the approval of proposed further amendments submitted by the Prune Administrative Committee, as set forth hereinafter, of the amended administrative rules and procedures (19 F. R. 5297, 6908; 20 F. R. 1240, 9961) issued pursuant to the applicable provisions of Marketing Agreement No. 110, as further amended, and Marketing Order No. 93, as further amended (19 F. R. 1301), regulating the handling of dried prunes produced in California, effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.).

Consideration will be given to any data, views, or arguments pertaining to the amendments hereinafter set forth which are filed in triplicate with the Director, Fruit and Vegetable Division, Agricultural Marketing Service, United States Department of Agriculture, Washington 25, D. C., and received not later than the twentieth day after the date of publication of this notice in the FEDERAL REGISTER, except that, if said twentieth day after publication should fall on a legal holiday or Saturday or Sunday, such submission will be received by the Director not later than the close of business on the next following business day.

The proposed amendments of the amended administrative rules and procedures are as follows:

1. Amend the provisions of § 993.148 (b) (1) to read as follows:

§ 993.148 *Receiving of prunes by handlers.* * * *

(b) *Incoming inspection*—(1) *General.* For all prunes placed for holding by or with a handler, the handler shall, immediately upon receipt thereof, issue to the inspection agency an identification tag which will show the name and address of the producer, dehydrator, or handler holding title to the prunes, the date when placed with the handler for holding, the county of production, the number and type of containers, the approximate net weight of the prunes, the name and location of the handler's plant where the prunes are held, and any other information necessary to identify such prunes to the satisfaction of the inspector. For each tender of prunes made to a handler by a producer or dehydrator, the handler shall, immediately upon tentative acceptance thereof, issue to the producer or dehydrator a door receipt or weight certificate showing the name and address of such producer or dehydrator, the weight of the tender, and any other information necessary to identify the tender. Any prunes so tendered to a handler must, prior to their acceptance, be inspected at an inspection station, and in order to be received as standard prunes must be certified as standard prunes. The handler shall identify each tender tentatively accepted by him pending inspection with its corresponding door receipt or weight certificate until the prunes in such tender have been inspected and accepted by him or returned to the producer or dehydrator tendering the prunes. A separate inspection shall be made of each lot and an inspection certificate shall be limited to the prunes included in one lot. Certification of any lot shall be made and computed on the basis of the net weight of prunes included in such lot, and the handler shall supply such information to the inspector. At the time of inspection of any lot, the handler shall provide the inspector with any assistance necessary in drawing samples. When necessary, in order to perform proper inspection, the inspector may require the handler to dump containers to permit proper sampling. Each lot shall be inspected immediately following tentative acceptance by a handler of all of the prunes to be included in such lot, except that any lot of prunes tendered to a handler by a producer or dehydrator in "ton box" containers or tendered in lug boxes on pallets and remaining intact thereon which cannot be dumped for sampling at the time of such acceptance, because of inadequate handling equipment, may be held for later inspection: *Provided*, That each lot of prunes so held is identified by the handler to the satisfaction of the inspector until the lot is inspected. After inspection, each lot of prunes shall be promptly accepted by the handler or returned to the producer or dehydrator. When a lot of prunes is inspected at other than a handler's plant, the inspector shall forward, with such lot to the handler, the handler's copies of the certificate.

2. Amend the provisions of § 993.172 by relettering existing paragraphs (a), (b) and (c) as (b), (c) and (d), respectively, and inserting a new paragraph (a) to read as follows:

§ 993.172 *Reports of holdings, acquisitions, sales, uses, and shipments*—(a) *Holdings as of March 31.* Each handler shall, on or before the 15th day of April, file with the committee a signed report of holdings of prunes which have not been inspected and/or accepted by him as a handler as of March 31. The report shall show for such prunes the name and address of the producer or dehydrator, the date of each identification tag assigned to such prunes, the numbers and dates of door or weight receipts or any other indentifying documents assigned to such prunes, the net weight of the prunes, the total net weight of all prunes so held, and the name and address of the handler making the report.

Dated: June 7, 1956.

[SEAL] FLOYD F. HEDLUND,
*Acting Director,*
*Fruit and Vegetable Division.*

(f) Regulations Covering the Operation of Working Capital Funds for Industrial- and Commercial-Type Establishments (Industrial Funds), July 13, 1950, as amended and revised.

[1] Not filed with Federal Register Division.

I. *Authority and purpose.* A. Pursuant to the authority vested in the Secretary of Defense by the National Security Act of 1947, as amended, and section 638 of the Defense Appropriation Act of 1953, a Single Manager Service Assignment is hereby directed within the Department of Defense with authority, functions, responsibilities and relationships as set forth below.

B. The purposes and objectives of this assignment are:

1. To provide the most effective and economical ocean transportation for the armed services.

2. To prevent duplication and overlapping of effort between and within military departments.

3. To apply to the mission of providing ocean transportation service within the Department of Defense the basic pattern for all organizations performing a multiple support mission as prescribed in Reference (b) above.

4. To revise and reissue the directive governing the purpose, composition, authority, functions and responsibilities of the Military Sea Transportation Service (MSTS).

II. *Background.* Pursuant to the National Security Act of 1947, as amended, the Military Sea Transportation Service (MSTS) was established on August 2, 1949, by the Secretary of Defense, in the interest of efficiency and economy, as a unified ocean transportation service for the Department of Defense under the direction and control of the Department of the Navy. Reference (c) cancelled and superseded the directive of August 2, 1949.

III. *Cancellation.* This Directive cancels and supersedes Reference (c).

IV. *Definitions*—A. *Single Manager.* The Secretary of the Department who is designated by the Secretary of Defense to be responsible for the organization and operation of the Single Manager assignment for ocean transportation.

B. *Executive Director for Ocean Transportation.* The individual designated by the Single Manager to manage the Single Manager operating agency for ocean transportation.

C. *Single Manager Operating Agency.* An organization which, under the direction of the Executive Director for Ocean Transportation, shall direct and control all assigned functions for ocean transportation. It shall be titled the Military Sea Transportation Service (MSTS).

D. *Administrative Committee.* A group designated to assist the Executive Director in identifying and overcoming problems concerning the operation of this assignment. The Committee shall be neither a policy board nor an executive directorate, but rather a group of specialists meeting to recommend solutions to particular problems and to promote the effectiveness and economy with which the agency meets the needs of the military departments. Its membership shall be as follows:

1. Executive Director-Chairman.

2. A representative from the Army, the Navy (or Marine Corps at the discretion of the Secretary of the Navy) and the Air Force.

3. The Assistant Secretaries of Defense (Supply and Logistics) and (Comptroller) or their representatives.

4. Such technical or professional personnel augmentation from the military departments as determined by the Single Manager to be necessary and as ocean transportation problems under consideration dictate.

E. *Administrative support.* The provision of personnel, space, facilities equipment and supplies, including the related budgeting, funding, fiscal control, training, manpower control and utilization, personnel administration, security administration, mobilization planning and other administrative provisions and services, necessary to carry out assigned missions.

V. *Policy.* In the interest of greater efficiency and economy and a greater measure of military preparedness, the Military Sea Transportation Service, chartered to operate under the Navy Industrial Fund pursuant to Reference (f), will provide under one authority the control, operation and administration of ocean transportation (by government-owned or commercial vessels) for personnel, cargo and mail for all agencies of the Department of Defense (excluding personnel and cargo transported by units of the fleet) and as authorized or directed, for other agencies or departments of the United States subject to the policies of the Secretary of Defense. The military departments may be authorized by the Secretary of Defense to conduct limited coastwise operations with small vessels as a supplement to MSTS coastwise operations when military considerations so dictate.

VI. *Composition.* The Military Sea Transportation Service shall be composed of all government-owned vessels of the Department of the Navy (except those vessels assigned to the combatant fleets of the Navy) and all other vessels acquired by MSTS for the purpose of providing trans-oceanic, intra-theater, inter-coastal and coastwise transportation of personnel, cargo and mail, together with personnel, facilities (exclusive of shoreside facilities of the military departments), and equipment necessary to support the operation.

VII. *Delegation of authorities and responsibilities.* A. The Secretary of the Navy is hereby designated as the Single Manager for ocean transportation, subject to over-all guidance, policies, and programs of the Secretary of Defense, with the responsibilities and authorities assigned under this Directive.

B. The Secretary of the Navy will be responsible for utilization of all applicable portions of Reference (b), which portions shall be considered to be policy pertinent to this assignment, except where such portions are specifically modified or amplified herein.

C. The Secretary of each Department will be responsible for full cooperation with the Single Manager in carrying out the provisions of the applicable portions of Reference (b) and the provisions of this Directive.

D. The Secretary of each Department will be responsible for providing the administrative support at all installations or activities under his jurisdiction performing functions assigned by the Single Manager pursuant to agreement between the Secretary concerned and the Single Manager. Such administrative support will be provided on a reimburseable basis.

E. The Secretary of each Department will be responsible for determining and forwarding estimates of ocean transportation requirements to the operating agency on the basis established by the Single Manager.

F. The Joint Chiefs of Staff through the Joint Military Transportation Committee will provide ocean transportation service allocations apportioning the ocean transportation capacity of MSTS in time of war, national emergency, or when ocean transportation service requirements exceed available capacity.

VIII. *Authorities and responsibilities of the Single Manager.* The Secretary of the Navy as Single Manager will:

A. *Organization and management.* 1. Establish and organize, as a major component of the United States Navy, the Single Manager operating agency for ocean transportation which shall have no functions other than those assigned to it by Department of Defense directive.

2. Designate an Executive Director for Ocean Transportation subject to approval by the Secretary of Defense. The Executive Directive shall have no other duties but to direct the operations of the Single Manager Operating Agency. The Executive Director shall be responsible to the Single Manager through channels prescribed by the Secretary of the Navy as Single Manager.

3. Organize the administrative committee in accordance with paragraph IV, D above.

4. Prepare reports and conduct studies as directed by the Secretary of Defense.

5. Establish and control such units ashore as may be necessary for the administration and operation of MSTS.

6. Develop and maintain such financial records (as required by Reference (f)) and operational statistics as will reflect the degree of efficiency and economy of the operations of MSTS and the utilization of funds, manpower, facilities and equipment as may be required by the Secretary of Defense.

B. *Requirements.* 1. Establish an adequate system for reporting requirements for transportation of passengers, cargo and mail, and for such other operational information as considered by MSTS to be necessary for the efficient employment of MSTS vessels and the chartering of additional vessels, as well as the procurement of passenger and cargo space in commercial vessels.

C. *Industrial Fund.* 1. Administer the Navy Industrial Fund—MSTS, in accordance with Reference (f), the charter authorizing operation under the Fund, and related instructions.

2. Prepare budget estimates and appropriation requests, for submission with the annual budget of the Department of the Navy, for all requirements not included under the Industrial Fund.

D. *Personnel, training and support.* 1. Staff MSTS, its area, sub-area and port offices with Navy military personnel, and civilian personnel who will be employees of the Department of the Navy.

2. Positions within MSTS will be identified as military or civilian based on criteria established by the Secretary of Defense.

3. In planning the organization and staffing required for MSTS, establish military and civilian career development patterns in accordance with existing directives of the Secretary of Defense.

E. *General functions.* 1. Control, operate and administer Government-owned vessels assigned, and all other vessels acquired for the purpose of providing ocean transportation service for the movement of personnel, cargo and mail.

2. Provide ocean transportation service, except that performed by units of the fleet, to all agencies of the Department of Defense, and as authorized for other agencies of the United States Government on a basis consonant with national policy and the need for efficient and economical operations.

3. Procure vessels outside the MSTS fleet by bare boat, time or voyage charter, or by allocation from other government agencies, and procure passenger (except individual travel which may be procured by the Military Departments) and cargo space in commercial vessels to meet the requirements of the Department of Defense and such other agencies of the United States Government as authorized by the Secretary of Defense. In the procurement of cargo space in commercial vessels, contract provisions for or relating to the working of cargo, terminal facilities, or other responsibilities of the military departments will be coordinated with the military departments concerned prior to inclusion in MSTS contracts.

4. Provide lift capability in accordance with the policies, procedures and allocations of the Joint Chiefs of Staff (Joint Military Transportation Committee).

5. Keep the Single Manager for Traffic Management within the United States informed, to the extent mutually agreed necessary, as to the availability of opportune MSTS operated coastwise and inter-coastal lift capacity.

6. In coordination with appropriate government agencies, prepare recommendations for the design, specifications and equipment of ocean-going vessels except combatant types. In collaboration with appropriate government agencies, make studies, analyses and recommendations for the improvement of ocean transportation.

7. Provide and/or arrange for the maintenance, repair and alterations of all government-owned vessels assigned to MSTS, plus the maintenance and repair of any vessels acquired through bare boat charter to MSTS.

8. Coordinate with the military departments in the booking of cargo, passengers and mail.

9. Approve stowage plans and their implementation to insure seaworthiness of the vessel, safety of the cargo and efficient use of vessel space.

a. The responsibility of MSTS for cargo begins when finally stowed on board and accepted by the Commanding Officer of the vessel and terminates when the cargo is accepted free on board at destination.

10. Exercise control of all passengers aboard MSTS vessels. Administrative control may be exercised through commanders of personnel assigned by the military departments concerned.

a. The responsibility of MSTS for passengers begins when the passenger embarks and terminates when the passenger debarks.

11. Coordinate MSTS operations with appropriate port authorities.

12. Manage, process, determine and settle claims by or against commercial carriers arising out of contracts for ocean transportation of personnel, cargo and mail.

13. Provide information on vessel operating costs to the military departments to enable them to determine the advisability of working cargo at overtime rates.

14. Provide commercial ocean transportation rates when requested by the military departments in accordance with policy established by the Secretary of Defense.

F. *Emergency planning.* 1. Prepare, revise as necessary, coordinate, and execute plans for the employment and expansion of MSTS in time of war or national emergency.

IX. *Implementation.* A. The Secretaries of the Army, Navy and Air Force will take necessary action to facilitate the efficient and economical operation of MSTS, subject to military considerations and over-all cost to the government.

B. Regulations and procedures, including plans showing the proposed organization, staffing and personnel requirements of MSTS, together with statements of any adjustments in personnel, personnel spaces, facilities and equipment required to implement this Directive will be transmitted to the Secretary of Defense for approval. The Assistant Secretary of Defense (Supply and Logistics) will coordinate the approval of such matters with other cognizant elements of the Office of the Secretary of Defense. Adjustments of funds will continue to be handled in the statutory manner through the Office of the Assistant Secretary of Defense (Comptroller).

C. The Secretary of the Navy, within thirty (30) days after the date of this Directive, will submit to the Secretary of Defense for approval, Terms of Reference and plans for implementing his responsibilities as Single Manager. Such Terms of Reference and plans will pertain to:

1. Relationships between the military departments.

2. Operations of MSTS including the maintenance and operation of the nucleus fleet.

3. The detailed organizational structure, together with personnel requirements and staffing plans.

4. The schedule of implementing actions to carry out this assignment.

X. *Effective date.* This Directive is effective immediately.

C. E. WILSON,
*Secretary of Defense.*

ARIZONA

SMALL TRACT CLASSIFICATION ORDER NO. 47 MODIFIED

JUNE 4, 1956.

Pursuant to authority delegated to me by the Director, Bureau of Land Management, in Bureau of Land Management Order No. 541 dated April 21, 1954 (19 F. R. 2473), Section 2.5, Arizona Small Tract Classification Order No. 47, dated December 22, 1955, is hereby amended to delete Lots 27 and 28, Section 34, T. 14 S., R. 12 E., G&SRM. These tracts are believed to be necessary for public school purposes and will, therefore, be withheld from private disposal pending determination of the public interest involved.

E. I. ROWLAND,
*State Supervisor.*

[F. R. Doc. 56-4605; Filed, June 11, 1956; 8:46 a. m.]

UTAH

FILING OF PLAT OF SURVEY AND ORDER PROVIDING FOR OPENING OF PUBLIC LANDS

MAY 31, 1956.

A plat of survey of the township described below will be officially filed in the Land Office, Salt Lake City, Utah, effective at 10:00 a. m., on July 6, 1956:

SALT LAKE MERIDIAN

T. 34 S., R. 14 E.,
Sections 2, 16, 32, 33, and 36.
Area surveyed: 3,197.60 acres.

Plat of survey accepted March 27, 1956.

It is presumed that the right of the State of Utah attached to Sections 2, 16, 32, 36, of the above-described townships on the date of acceptance of plat of survey, subject to valid existing rights and the provisions of existing withdrawals. Therefore, preference rights of veterans of World War II and the Korean conflict, and others, as provided for by the act of September 27, 1944 (58 Stat. 747; 43 U. S. C. 279-284), as amended, do not attach to these sections.

The land in T. 34 S., R. 14 E., is broken and mountainous, the soil is of shallow sand and rock. There is no timber except for thinly scattered scrub juniper on top of the mesas.

No application for these lands will be allowed under the homestead, desert-land small-tract, or any other nonmineral public-land law, unless the lands have already been classified as valuable, or suitable for such type of application, or shall be so classified upon consideration of an application. Any application that is filed will be considered on its merits. The lands will not be subject to occupancy or disposition until they have been classified.

Subject to any existing valid rights and the requirements of applicable law, the in Township 34 South, Range 14 East, Section 33 of the Salt Lake Meridian, Utah, are hereby opened for filing of applications in accordance with the following:

a. Applications under the non-mineral public land laws may be presented to the Manager mentioned below, beginning on the date of this order. Such applications will be considered as filed on the hour and respective dates shown for the various classes enumerated in the following paragraphs:

1. Applications by persons having prior existing valid settlement rights, preference rights conferred by existing laws, or equitable claims subject to allowance and confirmation will be adjudicated on the facts presented in support of each claim or right. All applications presented by persons other than those referred to in this paragraph will be subject to the applications and claims mentioned in this paragraph.

2. All valid applications under the Homestead, Desert Land, and Small Tract Laws by qualified veterans of World War II of the Korean conflict, and others entitled to preference rights under the act of September 27, 1944 (58 Stat. 747; 43 U. S. C. 279-284 as amended), presented prior to 10:00 a. m. on July 6, 1956, will be considered as simultaneously filed at that hour. Rights under such preference right applications filed after that hour and before 10:00 a. m., on October 5, 1956, will be governed by the time of filing.

3. All valid applications under the nonmineral public land laws, other than those coming under paragraphs (1) and (2) above, presented prior to 10:00 a. m. on October 5, 1956, will be considered as simultaneously filed at that hour. Rights under such applications filed after that hour will be governed by the time of filing.

Persons claiming veteran's preference rights under paragraph (2) above must enclose with their applications proper evidence of military or naval service, preferably a complete photostatic copy of the certificate of honorable discharge. Persons claiming preference rights based upon valid settlement, statutory preference, or equitable claims, must enclose properly corroborated statements in support of their applications, setting forth all facts relevant to their claims. Detailed rules and regulations governing applications which may be filed pursuant to this notice can be found in Title 43 of the Code of Federal Regulations.

Inquiries concerning these lands shall be addressed to Manager, Land Office, Room 312 Federal Building, P. O. Box 777, Salt Lake City 10, Utah.

WM. N. ANDERSEN,
*State Supervisor.*

MAY 31, 1956.

### Bureau of Reclamation

MINIDOKA PROJECT, IDAHO

ORDER OF REVOCATION

APRIL 3, 1956.

Pursuant to the authority delegated by Departmental Order No. 2765 of July 30, 1954, I hereby revoke Departmental Order of September 29, 1919, in so far as said order affects the following-described land: *Provided, however,* That such revocation shall not affect the withdrawal of any other lands by said order or affect any other orders withdrawing or reserving the land hereinafter described:

BOISE MERIDIAN, IDAHO

T. 10 S., R. 21 E.,
Sec. 9, Tracts A and B.

The above area aggregates 71.28 acres.

E. G. NIELSEN,
*Assistant Commissioner.*

[70695]

JUNE 8, 1956.

I concur. The records of the Bureau of Land Management will be noted accordingly.

This revocation is made in furtherance of an exchange under section 8 of the act of June 28, 1934, as amended by section 3 of the act of June 26, 1936 (48 Stat. 1272; 49 Stat. 1976; 43 U. S. C. 315g) by which the offered lands will benefit a Federal land program. This restoration is, therefore, not subject to the provisions contained in the act of September 27, 1944 (58 Stat. 747; 43 U. S. C. 279-284) as amended, granting preference rights to veterans of World War II, the Korean Conflict, and others.

EDWARD WOOZLEY,
*Director,*
*Bureau of Land Management.*

[F. R. Doc. 56-4607; Filed, June 11, 1956; 8:46 a. m.]

SALT RIVER PROJECT, ARIZONA

ORDER OF REVOCATION

JANUARY 25, 1956.

Pursuant to the authority delegated by Departmental Order No. 2765 of July 30, 1954, I hereby revoke Departmental Orders of July 20, 1905 and August 29, 1919, insofar as said Orders affect the following described lands: *Provided, however,* That such revocation shall not affect the withdrawal of any other lands by said Orders or affect any other Orders withdrawing or reserving the lands hereinafter described.

GILA AND SALT RIVER MERIDIAN, ARIZONA

Townships 7 to 12 North, inclusive, Ranges 5, 6, and 7 East.

A strip of land one mile wide on either side of and adjacent to the strip one mile wide on each side of the Verde River, withdrawn by Departmental Order of December 14, 1904.

Townships 2, 3, and 4 North, Ranges 7 to 12 East, inclusive.

A strip of land 3 miles from Salt River on the South side, from the mouth of Tonto Creek to the mouth of the Verde River.

The above area aggregates approximately 113,280 acres.

E. G. NIELSEN,
*Acting Commissioner.*

[70770]

JUNE 6, 1956.

I concur. The records of the Bureau of Land Management will be noted accordingly.

The released lands are within the Prescott, Coconina, or Tonto National Forests and have been open to applications and offers under the mineral-leasing laws. They will be open to such other applications, selections, and locations, as are permitted on national forest lands effective at 10:00 a. m. on July 12, 1956.

EDWARD WOOZLEY,
*Director,*
*Bureau of Land Management.*

[F. R. Doc. 56-4608; Filed, June 11, 1956; 8:47 a. m.]

MINIDOKA PROJECT, IDAHO

FIRST FORM RECLAMATION WITHDRAWAL

APRIL 3, 1956.

Pursuant to the authority delegated by Departmental Order No. 2765 of July 30, 1954, I hereby withdraw the following-described lands from public entry, under the first form of withdrawal, as provided by section 3 of the act of June 17, 1902 (32 Stat. 388):

BOISE MERIDIAN, IDAHO

T. 10 S., R. 21 E.,
Sec. 4, Lots 1 and 2, S½NE¼.

The above area aggregates 162.9 acres.

E. G. NIELSEN,
*Assistant Commissioner.*

[70695]

JUNE 6, 1956.

I concur. The records of the Bureau of Land Management will be noted accordingly.

EDWARD WOOZLEY,
*Director,*
*Bureau of Land Management.*

*Notice for Filing Objections to Order Withdrawing Public Lands for the Minidoka Project, Idaho*

APRIL 3, 1956.

Notice is hereby given that for a period of 30 days from the date of publication of this notice, persons having cause to object to the terms of the above order withdrawing certain public lands in the State of Idaho, for use in connection with the Minidoka Project, may present their objections to the Secretary of the Interior. Such objections should be in writing, should be addressed to the Secretary of the Interior, and should be filed in duplicate in the Department of the Interior, Washington 25, D. C.

In case any objection is filed and the nature of the opposition is such as to warrant it, a public hearing will be held at a convenient time and place, which will be announced, where opponents to the order may state their views and where the proponents of the order can explain its purpose, intent, and extent. Should any objection be filed, notice of the determination by the Secretary as to whether the order should be rescinded, modified or let stand will be given to all interested parties of record and the general public.

E. G. NIELSEN,
*Assistant Commissioner.*

MISSOURI RIVER BASIN PROJECT, WYOMING

FIRST FORM RECLAMATION WITHDRAWAL

OCTOBER 6, 1953.

Pursuant to the authority delegated by Departmental Order No. 2515 of April 7, 1949, I hereby withdraw the following-described lands from public entry, under the first form of withdrawal, as provided by section 3 of the act of June 17, 1902 (32 Stat. 388):

SIXTH PRINCIPAL MERIDIAN, WYOMING

T. 30 N., R. 67 W.,
Sec. 18, SW¼NW¼.
T. 29 N., R. 68 W.,
Sec. 24, N½S½, SE¼SE¼.
T. 30 N., R. 68 W.,
Sec. 8, NE¼SW¼.

The above area aggregates 280 acres.

W. A. DEXHEIMER,
*Commissioner.*

[65598]

JUNE 6, 1956.

I concur. The records of the Bureau of Land Management will be noted accordingly.

The lands shall be administered by the Bureau of Land Management until such time as they are needed for reclamation purposes.

EDWARD WOOZLEY,
*Director,*
*Bureau of Land Management.*

*Notice for Filing Objections to Order Withdrawing Public Lands for the Missouri River Basin Project, Wyoming*

Notice is hereby given that for a period of 30 days from the date of publication of this notice, persons having cause to object to the terms of the above order withdrawing certain public lands in the State of Wyoming, for use in connection with the operation and maintenance of the Missouri River Basin Project, may present their objections to the Secretary of the Interior. Such objections should be in writing, should be addressed to the Secretary of the Interior, and should be filed in duplicate in the Department of the Interior, Washington 25, D. C.

In case any objection is filed and the nature of the opposition is such as to warrant it, a public hearing will be held at a convenient time and place, which will be announced, where opponents to the order may state their views and where the proponents of the order can explain its purpose, intent, and extent. Should any objection be filed, notice of the determination by the Secretary as to whether the order should be rescinded, modified or let stand will be given to all interested parties of record and the general public.

W. A. DEXHEIMER,
*Commissioner.*

## Commodity Credit Corporation

SALES OF CERTAIN COMMODITIES

JUNE 1956 MONTHLY SALES LIST

Pursuant to the policy of Commodity Credit Corporation issued October 12, 1954 (19 F. R. 6669) and subject to the conditions stated therein, the commodities listed below are available for sale in the quantities stated and on the price basis set forth. The Commodity Credit Corporation will entertain offers from prospective buyers for the purchase of any such commodity.

The Commodity Credit Corporation reserves the right, before making any sale, to define or limit export areas. Announcements containing the contractual terms and conditions of sale for the respective commodities will be furnished upon request. For ready reference a number of these announcements are identified by code number in the following list. Commodity Credit Corporation also reserves the right to amend, from time to time, any of its announcements, which amendments shall be applicable to and be made a part of the sales contracts thereafter entered into.

JUNE 1956 MONTHLY SALES LIST—Continued

| Commodity and approximate quantity available (subject to prior sale) | Sales price or method of sale |
|---|---|
| Corn, bulk | Domestic or export: Commercial corn-producing area: Market price, basis in store,[1] but not less than the legal minimum price (1955 loan rate basis point of production plus 3 cents per bushel), including average paid-in freight: Chicago No. 3 yellow, $2.05; Minneapolis No. 3 yellow, $1.96; Kansas City No. 3 yellow, $2.04; Portland No. 3 yellow, $2.21.<br>Noncommercial corn-producing area: Market price, basis in store,[1] but not less than 133 percent of applicable 1955 loan rate, plus 26 cents per bushel.<br>Available Chicago, Dallas, Kansas City, Minneapolis, and Portland CSS Commodity Offices.<br>Corn is also available as follows: (1) Nonstorable corn at the above offices; (2) in flat storage in the Pacific Northwest on competitive bid basis for export. |
| Wheat | Domestic: Commercial wheat-producing area: Market price, basis in store,[1] but not less than the legal minimum price (1955 loan rate for class, grade, quality, and location, plus 35 cents per bushel).<br>Examples of minimum price per bushel: Chicago No. 1 RW, $2.73; Minneapolis No. 1 DNS, $2.82; Kansas City No. 2 HRW, $2.32.<br>Noncommercial wheat-producing area: Market price, basis in store,[1] but not less than 133 percent of applicable 1955 county loan rate plus 35 cents per bushel.<br>Export: Under the terms and conditions of Announcements GR-212 revised, GR-261 revised, and GR-262 revised, at prices announced daily. Export may be made either as Wheat or Flour.<br>Available Chicago, Minneapolis, Kansas City, and Portland CSS Commodity Offices for domestic or export sale. |
| Oats, bulk | Domestic: Market price, basis in store,[1] but not less than the legal minimum price (1955 loan rate basis point of production for class, grade, and quality, plus 18 cents per bushel).<br>Examples of minimum price per bushel including average paid-in freight: Chicago No. 2 white, $1.26; Minneapolis No. 2 white, $1.21; Kansas City No. 2 white, $1.30.<br>Available Minneapolis, Chicago, Kansas City, Portland, and Dallas CSS Commodity Offices.<br>Export: Price as determined by CCC. Offering also on competitive bid as announced by the Chicago, Portland, and Dallas CSS Commodity Offices.[2] |
| Barley, bulk | Domestic: Market price, basis in store,[1] but not less than the legal minimum price (1955 applicable loan rate for class, grade, quality and location plus 26 cents per bushel).<br>Example of minimum price per bushel: Minneapolis No. 2 barley, $1.40.<br>Available Minneapolis, Kansas City, Chicago, Dallas, and Portland CSS Commodity Offices.<br>Export: Price as determined by CCC. Offerings also on competitive bid as announced by the Chicago, Dallas, and Portland CSS Commodity Offices.[2] |
| Rye, bulk | Domestic: Market price, basis in store,[1] but not less than the legal minimum price (1955 applicable loan rate for class, grade, quality and location plus 28 cents per bushel).<br>Example of minimum price per bushel: Minneapolis No. 2 or better, $1.67.<br>Available Minneapolis, Kansas City, Chicago, Dallas and Portland CSS Commodity Offices.<br>Export: Price as determined by CCC. Offerings also on competitive bid as announced by the Chicago, Dallas, and Portland CSS Commodity Offices.[2] |
| Grain sorghums, bulk | Domestic: Market price, basis in store,[1] but not less than the legal minimum price (1955 applicable loan rate for class, grade, quality and location plus 40 cents per 100 pounds).<br>Example of minimum price per hundredweight: Kansas City No. 2 or better, $2.76.<br>Available Dallas and Kansas City CSS Commodity Offices. |
| Rice, rough, 1,400,000 hundredweight. | Export: Competitive bid as announced by Dallas CSS Commodity Office.<br>Domestic, unrestricted use: Market price as determined by CCC, but not less than the legal minimum price (1955 loan rate basis point of production plus 5 percent plus 61 cents per hundredweight).<br>Domestic, restricted use (for feed only): Competitive bid basis by Dallas CSS Commodity Office under the terms and conditions of DLP-240-55, Export, unrestricted use (for export): Competitive bid basis at Dallas CSS Commodity Office. Where deliveries are made at points other than ports, deductions will be made for minimum freight charges to port.<br>Export, restricted use (to be ground in the USA and used for feed and industrial purposes only): Competitive bid basis by Dallas CSS Commodity Office. Available Dallas CSS Commodity Office for domestic or export sale.[3] |

JUNE 1956 MONTHLY SALES LIST

| Commodity and approximate quantity available (subject to prior sale) | Sales price or method of sale |
|---|---|
| Dairy products | Domestic prices apply "in *store*" at location of stocks.<br>Export prices apply f. a. s. U. S. port of export, or in store at location of stocks at f. a. s. price less export freight rate to agreed port of export.<br>Available through Cincinnati and Portland CSS Commodity Offices for domestic sale, and through the Butter and Dairy Division, CSS, USDA, Washington 25, D. C. for export sale. |
| Nonfat dry milk solids (in carloads only): spray, 95,000,000 pounds; roller, as available. | Domestic, unrestricted use: Spray process, U. S. Extra Grade: In barrels and drums, 17 cents per pound; in bags (as available), 16.15 cents per pound.<br>Roller process, U. S. Extra Grade: In barrels and drums, 13.25 cents per pound; in bags, 14.40 cents per pound.<br>Domestic, restricted use (animal and poultry feed): Delivered under the terms and conditions of Announcement LD-5 and amendments. In barrels and drums, 11 cents per pound; in bags (as available) 10.65 cents per pound.<br>Export, unrestricted use: Competitive bid under the terms and conditions of Announcement LD-5 and amendments. |
| Butter (in carloads only) as available. | Domestic, unrestricted use: 63.25 cents per pound, New York, New Jersey, Pennsylvania, New England, and other States bordering the Atlantic Ocean and Gulf of Mexico. All other States 1 cent per pound less.<br>Domestic, restricted use: Competitive bid and under the terms and conditions of Announcement DA-111 and supplements for use as an extender for cocoa butter in the manufacture of chocolate.<br>Export, unrestricted use: Competitive bid under the terms and conditions of Announcement LD-7. |
| Cheddar cheese, cheddars, flats, twins, and rindless blocks (standard moisture basis in carloads only), 200,000,000 pounds. | Export, restricted use: Competitive bid (1) under the terms and conditions of Announcement DA-111 and supplements for use (a) in recombining with U.S. produced nonfat dry milk solids into liquid milk and evaporated milk, and (b) in making butter oil or ghee; and (2) under the terms and conditions of Announcement LD-19 and supplements for industrial uses.<br>Domestic: 38 cents per pound, for New York, New Jersey, Pennsylvania, New England, and other States bordering the Atlantic and Pacific Ocean and Gulf of Mexico. All other States 1 cent per pound less.<br>Export: Competitive bid under terms and conditions of Announcement LD-5 and amendments. |
| Cotton, Upland and Extra Long Staple. | Cheese prices are subject to usual adjustments for moisture content.<br>Domestic or export: Competitive bid and under the terms and conditions of Announcement NO-C-5 as amended (Upland) and NO-C-6 (Extra Long Staple), but not less than the higher of (1) 105 percent of the current support price plus actual carrying charges, or (2) the domestic market price as determined by CCC.<br>Special export, Upland Cotton: Competitive bid and under the terms and conditions of Announcements CN-EX-2 as amended, and NO-C-8 as amended. Cotton to be exported on or after Aug. 1, 1956.<br>Catalogs showing quantities, qualities and locations may be obtained for a nominal fee from the New Orleans CSS Commodity Office. |
| Cotton linters | Domestic or export: Competitive bid and under the terms and conditions of Announcement NO-CL-7 in carlot quantities on an "as is, where is" basis.<br>Catalogs showing quantities, qualities and locations may be obtained for a nominal fee from the New Orleans CSS Commodity Office. |
| Wool, shorn and pulled grease (including small quantities of scoured wool and wool tops) 114,000,000 pounds. | Domestic or export: Limited quantities (not more than 6,250,000 pounds in June) on competitive bid each Tuesday under terms and conditions as determined by the Boston CSS Commodity Office, reflecting not less than 103 percent of the 1954 schedule of loan rates per pound plus an allowance or sales commission, Boston basis, adjusted for not freight on wool stored outside the Boston storage area.<br>Domestic or export: Competitive bid, limited quantity monthly under the terms and conditions CSS Commodity Office. Available Chicago CSS Commodity Office. |
| Tung oil | Domestic, unrestricted use: Competitive bid as announced by Dallas CSS Commodity Office. Market price as determined by CCC, but not less than the legal minimum price (1955 loan rate basis point of production plus 5 percent plus 61 cents per hundredweight).<br>Domestic, restricted use (for feed only): Competitive bid basis by Dallas CSS Commodity Office under the terms and conditions of DLP-240-55, Export, unrestricted use (for export): Competitive bid basis at Dallas CSS Commodity Office. Where deliveries are made at points other than ports, deductions will be made for minimum freight charges to port.<br>Export, restricted use (to be ground in the USA and used for feed and industrial purposes only): Competitive bid basis by Dallas CSS Commodity Office. Available Dallas CSS Commodity Office for domestic or export sale.[3] |
| Peanuts | Domestic (for crushing) or export: Competitive bid on limited quantities as may be announced by any of the Peanut Cooperative Associations. Domestic sales subject to terms and conditions of CCC Peanut Form 34 (1955). Export sales subject to terms and conditions of CCC Peanut Form 59 (1955) as amended. Available Dallas CSS Commodity Office. |
| Flaxseed, bulk, 1955 crop, as available. | Domestic or export: Competitive bid, limited quantity monthly under the terms and conditions CSS Commodity Office. Sales in store, but not less than the legal minimum price (1955 loan rate basis point of production plus 44 cents per bushel).<br>Example of minimum price per bushel: Minneapolis No. 1, $3.63.<br>Available Minneapolis; Chicago and Portland CSS Commodity Offices. |
| Soybeans, bulk, 1955 crop, as available. | Domestic or export, unrestricted use: Market price basis in store, but not less than the legal minimum price (1955 loan rate basis point of production, plus 3 cents per bushel).<br>Available Minneapolis, Chicago, Dallas and Kansas City CSS Commodity Offices. |

See footnotes at end of table

JUNE 1956 MONTHLY SALES LIST—Continued

| Commodity and approximate quantity available (subject to prior sale) | Sales price or method of sale |
|---|---|
| Rice, milled, 1,000,000 hundredweight. | Domestic: For U. S. No. 2 (4 percent brokens), the market price but not less than the legal minimum price (the equivalent loan rate for rough rice by varieties plus 5 percent, adjusted for milling, plus 77 cents per hundredweight). Examples of minimum prices of milled rice per hundredweight, at mills: |

| | Head U. S. No. 2 (4 percent brokens) | U. S. No. 5 (35 percent brokens) | Second Heads, U. S. No. 3 |
|---|---|---|---|
| Bluebonnet | $11.66 | $9.49 | $6.50 |
| Zenith | 9.94 | 8.32 | 6.00 |

Export: A schedule of prices as announced by Dallas CSS Commodity Office. Examples of prices of milled rice per hundredweight, f. a. s., West Gulf ports (port at option of CCC):

| | Head U. S. No. 2 (7 percent brokens) | U. S. No. 5 (35 percent brokens) | | Second Heads, U. S. No. 3 |
|---|---|---|---|---|
| | | 1954 | 1953 | |
| Bluebonnet | $10.20 | $7.80 | ------- | $4.45 |
| Zenith | 8.70 | 6.49 | $6.00 | 4.20 |
| Pearl | 8.70 | 6.49 | ------- | 4.20 |

1953 crop rice (U. S. No. 5, 35 percent brokens) is available f. o. b., Texas-Mexican border points at same price as at West Gulf ports.
Specific prices and quantities may be obtained from Dallas CSS Commodity Office.[2]
Special export: Competitive bid under terms and conditions announced by Dallas CSS Commodity Office.[2]

Dry edible beans (bagged)

Prices for domestic sale are for U. S. No. 1, f. o. b., indicated points of production. Amount of paid-in freight to be added as applicable.
For other grades of all beans, adjust by market differentials. For other areas, adjust by the 1956 support price differentials.
Export: Competitive bid as announced by the Portland CSS Commodity Office.

Baby lima beans, 1954 crop, 170,000 hundredweight.
Pinto beans, 1954 crop, 500,000 hundredweight.

Domestic: Market price but not less than $6.99 per 100 pounds points of production, Denver rate area. Available Kansas City and Portland CSS Commodity Offices.
Export: Competitive bid as announced by the Kansas City and Portland CSS Commodity Offices.

Small red beans, 1955 crop, as available.

Domestic: Market price but not less than $7.88 per 100 pounds points of production. Available Portland CSS Commodity Office.
Export: Competitive bid as announced by Portland CSS Commodity Office.

Great Northern beans, 1955 crop, as available.

Domestic: Market price but not less than $7.79 per 100 pounds Nebraska points of production. Available Kansas City CSS Commodity Office.
Export: Competitive bid as announced by Kansas City CSS Commodity Office.

Hay and pasture seeds (bagged)

F. o. b. point of production plus any paid-in freight as applicable basis current freight rate at time of sale. Premiums and discounts may be obtained from the Commodity Offices for qualities above or below basic specification. Offers will not be accepted for less than warehouse receipt lot or minimum weight carlot as prescribed by railroad carrier's regulation at point of storage.

Tall fescue seed (common), 18,000 hundredweight.

Domestic, unrestricted use: $18 per 100 pounds. Available Portland, and Chicago CSS Commodity Offices.[4]
Domestic, restricted use (for feed only): Competitive bid basis for certain lots of low germination seed from common and certified stocks. Available Chicago and Portland CSS Commodity Offices.
Export: Competitive bid as announced by Chicago CSS Commodity Office.

Tall fescue seed (certified), 50,000 hundredweight.

Domestic: $20 per 100 pounds. Available Portland and Chicago CSS Commodity Offices.[4]
Export: Competitive bid as announced by Portland CSS Commodity Office.

Gum rosin (in galvanized metal drums averaging 517 pounds net).

Domestic or export: Offer and acceptance, "as is" in the stated quantities at the designated storage yards, subject to the prices, terms and conditions of Announcement 7B-21 and Supplements issued not more often than weekly by the American Turpentine Farmers' Association Cooperative, Valdosta, Georgia.

Gum turpentine (bulk in tanks)

Domestic or export: Offer and acceptance, "as is" in the stated quantities in the designated storage tanks, subject to the prices, terms, and conditions of Announcement 7B-21 and Supplements issued not more often than weekly by the American Turpentine Farmers' Association Cooperative, Valdosta, Ga.

[1] At the processor's plant or warehouse but with any prepaid storage and out-handling charges for the benefit of the buyer.
[2] Sales of grains made under Title I, Public Law 480, may be made on terms and conditions of GR-301 revised and GR-302. Other commodities under the announcement indicated.
[3] In those counties in which grain is stored in CCC bin sites, delivery will be made f. o. b. buyer's conveyance at bin site without additional cost; sales will also be made in store approved warehouses in such county and adjacent counties at the same price, provided the buyer makes arrangements with the warehousemen for storage documents.
[4] Prices for basic specifications will not be reduced through the period ending June 30, 1956.

(Sec. 4, 62 Stat. 1070, as amended; 15 U. S. C. 714b. Interpret or apply sec. 407, 63 Stat. 1055; 7 U. S. C. 1427, sec. 208, 63 Stat. 901)

Issued: June 6, 1956.

### Federal Maritime Board

[Docket No. M-69]

MARINE TRANSPORT LINES, INC., ET AL.

NOTICE OF PREHEARING CONFERENCE ON APPLICATION TO BAREBOAT CHARTER DRY-CARGO VESSELS

Notice is hereby given that a prehearing conference will be held pursuant to Rule 6 (d) of the Board's rules of practice and procedure on June 13, 1956, at 2:00 p. m., e. d. s. t., in Room 4519, New General Accounting Office Building, Fifth and G Streets NW., Washington, D. C., in this proceeding which concerns applications to bareboat charter dry-cargo vessels.

By order of the Federal Maritime Board.

Dated: June 8, 1956.

[SEAL] GEO. A. VIEHMANN,
*Assistant Secretary.*

[F. R. Doc. 56-4678; Filed, June 11, 1956; 9:13 a. m.]

### Office of the Secretary

[Dept. order 87, amended]

COAST AND GEODETIC SURVEY

ORGANIZATION AND FUNCTIONS

The material appearing in 20 F. R. 5270-71-72 and 20 F. R. 8782 is superseded by the following:

SECTION 1. *Purpose.* The purpose of this order is to describe the organization and define the functions of the Coast and Geodetic Survey.

SEC. 2. *Organization.* .01 The Coast and Geodetic Survey originally established as a survey of the coast of the United States by act of Congress of February 10, 1807 (2 Stat. 413) and redefined by the act of June 20, 1878 (20 Stat. 206, 215) and whose functions and authorities are now described in Title 33, Chapter 17, U. S. Code, is a primary organization unit within and under the jurisdiction of the Department of Commerce. The Coast and Geodetic Survey is headed by a Director appointed by the President, with the advice and consent of the Senate. The Director shall report and be immediately responsible to the Under Secretary of Commerce.

.02 The Coast and Geodetic Survey shall be constituted as follows:

1. Office of the Director, including:
   (1) The Assistant Director:
   Technical Research and Information. Staff; Liaison Staff; International. Technical Cooperation Staff.
   (2) Assistant Director for Administration.
2. Technical divisions, which include:
   (1) Chart Division.
   (2) Coastal Surveys Division.
   (3) Geodesy Division.
   (4) Geophysics Division.
   (5) Instruments Division.
   (6) Photogrammetry Division.
   (7) Technical Services Division.
   (8) Tides and Currents Division.
3. Administrative divisions, which include:
   (1) Administrative Services Division.
   (2) Budget and Fiscal Division.
   (3) Organization and Management Division.
   (4) Personnel and Safety Division.
4. A field organization composed of:
   (1) District offices.
   (2) Magnetic observatories and latitude observatories.
   (3) Field parties engaged in the following surveys:
      (a) Hydrography (ships, launches, and shore based).
      (b) Geodetic.
      (c) Magnetic.
      (d) Seismological.
      (e) Gravity.
      (f) Photogrammetric.
      (g) Tides and Currents.
      (h) Flight check.
      (i) Coast Pilot.

SEC. 3. *Delegation of authority.* .01 Pursuant to the authority vested in the Secretary of Commerce by Reorganization Plan No. 5 of 1950, and subject to such policies and directives as the Secretary of Commerce may prescribe, the Director, Coast and Geodetic Survey, is hereby delegated the authorities and powers assigned to the Secretary by Title 33, Chapter 17, U. S. Code, or by any other existing or subsequent legislation with respect to surveying, cartography, and geophysical science activities within the special competence of the Coast and Geodetic Survey.

.02 The Director may redelegate and authorize the successive redelegation of the authority granted herein to any employee of the Coast and Geodetic Survey and may prescribe such limitations, restrictions and conditions in the exercise of such authority as he deems appropriate.

SEC. 4. *General functions.* The general functions of the Coast and Geodetic Survey are to provide charts and related information for the safe nagivation of marine and air commerce, and to provide certain basic data for engineering and scientific purposes including commercial and industrial needs.

SEC. 5. *Functions of the Office of the Director.* .01 The Director establishes policies and develops programs of the Bureau and is responsible for the general direction, supervision, and coordination of the work of the Coast and Geodetic Survey.

.02 The Assistant Director serves as deputy and adviser to the Director in the program planning, coordination, direction, and evaluation of the scientific and technical work of the Bureau, and exercises general supervision over the operational functions of the technical divisions and the district offices. In the absence of the Director, the Assistant Director assumes the responsibility of the Director of the Bureau. In addition, he directs activities of the Technical Research and Information Staff; the Liaison Staff; the International Technical Cooperation Staff; and supervises the administration of the officer personnel program.

1. The Technical Research and Information Staff prepares Bureau reports, papers, technical journals and pamphlets; coordinates the dissemination of information relating to legal-technical interpretation of charts and surveys; and provides technical assistance and advice to other Federal agencies.

2. The Liaison Staff performs liaison between the Coast and Geodetic Survey and the Civil Aeronautics Administration, the Bureau of the Budget and other Federal agencies, for the purpose of coordinating plans and programs involving requirements by such agencies, or the Government generally, for charting and mapping.

3. The International Technical Cooperation Staff administers the training of foreign nationals under the international technical cooperation programs in those activities conducted by the Bureau. The Staff cooperates with ICA, Department of State, and UNESCO and represents the Department at national and international conferences pertaining to the cartographic training program.

.03 The Assistant Director for Administration serves as principal assistant and adviser to the Director on all administrative matters. He has jurisdiction over budget, finance, personnel, administrative management matters, and procurement and supply activities, coordinating and directing these functions to meet the requirements of the technical and scientific program of the Bureau. In addition, he assumes responsibility for development and maintenance of major relationships outside the Bureau on administrative and management activities and administers personal and physical security regulations.

SEC. 6. *Functions of the Technical Divisions.* .01 The fields of activity or specialized functions of the technical divisions are as follows:

1. The Chart Division compiles, produces, and distributes nautical and aeronautical charts and related publications issued by the Bureau. This division is responsible for the verification and review of hydrographic surveys and accompanying records; the selection and analysis of other source material used in chart compilation; the flight checking of aeronautical charts; and the operation of the reproduction plant. It conducts research in the construction and reproduction of charts.

2. The Coastal Surveys Division plans and supervises the execution of hydrographic and topographic surveys along the coasts of the United States and its possessions; compiles, edits, and field checks Coast Pilots; directs the construction, operation, and maintenance of the Bureau's vessels and other floating equipment; and conducts research and development in hydrographic survey methods and techniques.

3. The Geodesy Division plans and executes geodetic surveys, including triangulation, traverse, leveling, base line measurement, and astronomic and gravity determination. This division computes, adjusts, and publishes the results of geodetic field surveys as required for surveying and engineering projects. It conducts research involving the mathematics of map projections, coordinate grids, variation of latitude, figure of the earth, and improvements in methods. It also operates the latitude observatories.

4. The Geophysics Division plans and executes magnetic and seismological investigations in the United States and its possessions. It supervises magnetic and seismological field surveys, including magnetic observatories, seismological stations, and airborne magnetic operations. It locates earthquakes and analyzes destructive earthquake motions; investigates relationships between seismological or magnetic phenomena and other geophysical phenomena; standardizes magnetic instruments and maintains international magnetic standards, and operates the seismic sea wave warning system in collaboration with the Tides and Currents Division.

5. The Instruments Division designs, develops, and maintains instruments and electronic equipment of the Bureau. It provides technical guidance and service to other divisions on mechanical and electronic engineering problems.

6. The Photogrammetry Division conducts photogrammetric surveys and performs related activities, including aerial photography, field surveys, airport field surveys, and the compilation, review, drafting, and editing of topographic and planimetric maps and airport obstruction plans. It also conducts research and development in photogrammetric surveys and compilation methods and techniques.

7. The Technical Services Division provides central service to the Bureau and the public in the furnishing of cartographic source data and related information. It collects, evaluates, catalogs, and stores source material from other Government agencies, maintains the Bureau cartographic archives, and provides geographic names research for map and chart compilation. It maintains the Bureau Library and furnishes materials for technical papers and publication articles, prepares exhibits, and provides special cartographic and art services. It maintains the Bureau essential records program and acts as the publications review and control office for the Bureau.

8. The Tides and Currents Division conducts tide, current, and oceanographic investigations along the coasts and inland tidal waters of the United States and its possessions. It determines mean sea level and other basic tidal datums, and predicts tides and currents. It publishes annual tide tables covering all oceans, annual current tables, tidal current charts, and temperature and density observations of sea water. It conducts research in tides, currents, and related oceanographic work, and it operates, jointly with the Geophysics Division, the seismic sea wave warning system.

SEC. 7. *Functions of the Administrative Divisions.* .01 Administrative management functions of the Bureau, under the direction of the Assistant Director for Administration, are performed by the administrative divisions as follows:

1. The Administrative Services Division provides the Bureau with general administrative services, including the procurement, stocking, inventory, and shipment of supplies and equipment; administers the property and motor

vehicle management program; and provides transportation, mail, and messenger service.

2. The Budget and Fiscal Division develops, formulates, and executes the Bureau budget and establishes and maintains a Bureau-wide system of accounting. It prepares the Bureau estimates and justifications and other supporting data; assists in the Budget presentation; evaluates the execution of the budget and recommends apportionments and allotments of funds by program. The division maintains expenditure and obligation controls and accounts; maintains a Bureau-wide cost accounting system; administers payroll and leave functions; and performs related fiscal activities including the examination, audit, and certification of vouchers.

3. The Organization and Management Division provides advice and assistance and conducts surveys and studies relating to organization, staffing, methods and systems, work flow, and other management activities to promote efficiency and economy throughout the Bureau. It develops and coordinates special programs such as forms control, records management, motor vehicle management, and management improvement. It reviews and implements Department and other agency issuances and prepares and coordinates Bureau issuances.

4. The Personnel and Safety Division develops and directs the civilian personnel and safety programs for the Bureau, giving assistance and guidance on personnel administration and accident prevention. The division has the responsibility for personnel program functions such as position classification and Wage Board matters; recruitment; placement; orientation; executive and employee development; performance ratings; incentive awards; employee relations; and the personnel security program; and for safety program functions such as the development and application of safety measures required by the hazardous nature of Bureau activities, which includes the conduct of vehicle operator testing, licensing, and training.

SEC. 8. *Functions of the Field Organization.* .01 The field organization of the Bureau (see Appendix I) is composed of district offices, field parties, and observatories, and carries out the following functions and activities:

1. District Offices supervise and direct all fixed Bureau functions located in the district except Latitude and Magnetic Observatories and process the field records of field parties. This includes the processing of hydrographic surveys; the computation and adjustment of geodetic data; and the compilation of topographic and planimetric maps. Studies and recommendations are also made for surveys for the construction and maintenance of nautical and aeronautical charts; for obtaining geodetic control data for private and public engineering use; for obtaining magnetic and seismological data; and for obtaining airport obstruction plan data. District Offices maintain close liaison with Federal, State, and local government agencies, and private organizations and individuals for the purpose of gathering and disseminating data relative to nautical and aeronautical charts and geodetic control. They maintain a library of charts and other Bureau publications for reference purposes and supervise the establishment and inspection of agents selling Bureau charts and publications.

2. Observatories containing instrumental equipment for recording magnetic data and earthquake data are operated under the direction of the Geophysics Division. Observatories containing instrumental equipment for recording variation of the axis of the earth affecting latitude determinations are operated under the direction of the Geodesy Division.

Effective: May 1, 1956.

[SEAL] SINCLAIR WEEKS,
*Secretary of Commerce.*

APPENDIX I

*District Offices.* The location of the District Offices of the Coast and Geodetic Survey and the areas over which they have jurisdiction are as follows:

| *Name of District and Headquarters of District Officer* |
|---|
| Boston District, Boston, Mass. |
| New York District, New York, N. Y. |
| Baltimore District, Baltimore, Md. |
| Norfolk District, Norfolk, Va. |
| Tampa District, Tampa, Fla. |
| New Orleans District, New Orleans, La. |
| Fort Worth District, Fort Worth, Tex. |
| Kansas City District, Kansas City, Mo. |
| Los Angeles District, Los Angeles, Calif. |
| San Francisco District, San Francisco, Calif. |
| Portland District, Portland, Oreg. |
| Seattle District, Seattle, Wash. |
| Honolulu District, Honolulu, T. H. |

District limits are established as follows:

1. *Boston District.* All of the States of Maine, New Hampshire, Vermont, Massachusetts, and Rhode Island.

2. *New York District.* All of the States of New York, Connecticut, and New Jersey.

3. *Baltimore District.* All of the States of Delaware, Pennsylvania, Ohio, and Maryland.

4. *Norfolk District.* All of the States of West Virginia, Virginia, North Carolina, and the parts of Kentucky and Tennessee east of the Tennessee River.

5. *Tampa District.* All of the States of South Carolina, Georgia, and Florida.

6. *New Orleans District.* All of the States of Alabama, Mississippi, Louisiana, Arkansas, the parts of Kentucky and Tennessee west of the Tennessee River, and the coastal area of Texas south and east of and including the following counties: Bowie, Red River, Franklin, Wood, Smith, Cherokee, Angelina, Polk, San Jacinto, Walker, Madison, Robertson, Milam, Bell, Lampasas, San Saba, McCulloch, Menard, Kimble, Edwards, and Valverde.

7. *Fort Worth District.* All of the States of Oklahoma and New Mexico and that part of Texas north and west of the counties listed in the New Orleans District.

8. *Kansas City District.* All of the States of Michigan, Wisconsin, Indiana, Illinois, Missouri, Iowa, Minnesota, North Dakota, South Dakota, Wyoming, Nebraska, Colorado, and Kansas.

9. *Los Angeles District.* All of the State of Arizona; Clark County, Nevada; and the following counties of California: San Bernardino, Kern, Santa Barbara, Ventura, Los Angeles, Orange, Riverside, San Diego, and Imperial.

10. *San Francisco District.* All of the State of Utah, and the parts of Nevada and California not assigned to the Los Angeles District.

11. *Portland District.* All of the States of Montana, Idaho, Oregon, and the following counties of Washington adjacent to the Columbia and Snake Rivers: Wahkiakum, Cowlitz, Clark, Skamania, Klickitat, Benton, Franklin, Walla Walla, Columbia, Garfield, and Asotin.

12. *Seattle District.* Alaska and the State of Washington except for those counties assigned to the Portland District.

13. *Honolulu District.* All of the Hawaiian Islands.

[Docket No. 11690; FCC 56-524]

CLASS B FM BROADCAST STATIONS

REVISED TENTATIVE ALLOCATION PLAN

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 6th day of June 1956;

The Commission having under consideration a proposal to amend the Revised Tentative Allocation Plan for Class B FM Broadcast Stations; and

It appearing that Notice of Proposed Allocation (FCC 56-359) setting forth the above amendment was issued by the Commission on April 30, 1956, and was duly published in the FEDERAL REGISTER (21 F. R. 2959), which notice provided that interested parties might file statements or briefs with respect to the said amendment on or before May 25, 1956; and

It further appearing that no comments were received either favoring or opposing the proposed amendment;

It further appearing that the immediate adoption of the proposed amendment would facilitate consideration of an application filed for a new Class B FM broadcast station in Toledo, Ohio (File No. BPH-2111) for operation on Channel No. 223;

It further appearing that authority for the adoption of the proposed amendment is contained in sections 4 (i), 301, 303 (c), (d), (f), and (r), and 307 (b) of the Communications Act of 1934, as amended,

*It is ordered,* That effective immediately, the Revised Tentative Allocation Plan for Class B FM Broadcast Stations is amended as follows in respect to Toledo, Ohio, and Summit Twp., Michigan:

| General area | Channels | |
|---|---|---|
| | Delete | Add |
| Toledo, Ohio | | 223 |
| Summit Township, Mich | 222 | 231 |

Released: June 7, 1956.

[Docket No. 11726]

ILLINOIS BELL TELEPHONE CO.

ORDER ASSIGNING MATTER FOR PUBLIC HEARING

In the matter of the application of Illinois Bell Telephone Company, for a certificate under section 221 (a) of the Communications Act of 1934, as amended, to acquire certain telephone plant and properties of Payson Farmers Telephone Company at Payson, Illinois; Docket No. 11726, File No. P-C-3774.

The Commission having under consideration an application filed by Illinois Bell Telephone Company for a certificate under section 221 (a) of the Communications Act of 1934, as amended, that the proposed acquisition by Illinois Bell Telephone Company of certain telephone plant and properties of Payson Farmers Telephone Company furnishing telephone service in and around Payson, Illinois will be of advantage to the persons to whom service is to be rendered and in the public interest;

*It is ordered,* This 5th day of June 1956, that pursuant to the provisions of section 221 (a) of the Communications Act of 1934, as amended, the above application is assigned for public hearing for the purpose of determining whether the proposed acquisition will be of advantage to the persons to whom service is to be rendered and in the public interest;

*It is further ordered,* That the hearing upon said application be held at the offices of the Commission in Washington, D. C. beginning at 10:00 a. m. on the 3d day of July 1956, and that a copy of this order shall be served upon the Governor of the State of Illinois; Illinois Commerce Commission; Illinois Bell Telephone Company; Payson Farmers Telephone Company, and The Postmaster of Payson, Illinois;

*It is further ordered,* That within ten days after the receipt from the Commission of a copy of this order, the applicant herein shall cause a copy hereof to

be published in a newspaper or newspapers having general circulation in and around Payson, Illinois and shall furnish proof of such publication at the hearing herein.

Released: June 7, 1956.

## FEDERAL POWER COMMISSION

[Docket No. 9994 etc.]

NORTHERN NATURAL GAS CO. ET AL.

NOTICE OF APPLICATIONS AND DATE OF HEARING

JUNE 5, 1956.

In the matters of Northern Natural Gas Company, Docket No. G-9994; Baker & Taylor Drilling Co., Docket No. G-10030; The Sharples Oil Corporation, P. T. Sharples, Edith W. Sharples, Philip P. Sharples, Samuel Butler, Jr., David M. Evans, E. C. Swift, Scott W. Key, Jr., Max S. Loy, W. A. Wiegand, Docket No. G-10031; the Shamrock Oil and Gas Corporation, Docket No. G-10111; J. M. Huber Corporation, Docket No. G-10114.

Take notice that:

Baker & Taylor Drilling Co. (Baker & Taylor) a Texas corporation with principal place of business at First National Bank Building, Amarillo, Texas, filed, on March 1, 1956, in Docket No. G-10030, an application for a certificate of public convenience and necessity, pursuant to section 7 (c) of the Natural Gas Act, authorizing Baker & Taylor to render service as hereinafter described, subject to the jurisdiction of the Commission, all as more fully represented in the application which is on file with the Commission and open for public inspection.

The Sharples Oil Corporation, a Delaware corporation with principal place of business at Suite 1001, 1700 Broadway, Denver 2, Colorado, filed on March 1, 1956, in Docket No. G-10031 for itself and on behalf of the other persons as captioned above, hereinafter collectively referred to as Sharples et al., an application for certificates of public convenience and necessity, pursuant to section 7 (c) of the Natural Gas Act, authorizing Sharples et al. to render service as hereinafter described, subject to the jurisdiction of the Commission, all as more fully represented in the application which is on file with the Commission and open for public inspection.

The Shamrock Oil and Gas Corporation (Shamrock), a Delaware corporation with principal place of business at P. O. Box 631, Amarillo, Texas, filed, on March 16, 1956, in Docket No. G-10111, an application for a certificate of public convenience and necessity, pursuant to section 7 (c) of the Natural Gas Act, authorizing Shamrock to render service as hereinafter described, subject to the jurisdiction of the Commission, all as more fully represented in the application which is on file with the Commission and open for public inspection.

J. M. Huber Corporation (Huber), a New Jersey corporation with principal place of business at P. O. Box 831, Borger, Texas, filed, on March 19, 1956, in Docket No. G-10114, an application for a certificate of public convenience and necessity, pursuant to section 7 (c) of the Natural Gas Act, authorizing Huber to render service as hereinafter described, subject to the jurisdiction of the Commission, all as more fully represented in the application which is on file with the Commission and open for public inspection.

Applicants Baker & Taylor, Sharples, et al., Shamrock, and Huber severally propose to sell natural gas in interstate commerce as described below to Northern Natural Gas Company for resale.

*Docket No.; Applicant; and Source of Gas*

G-10030; Baker & Taylor Drilling Co.; various undivided interests in certain Sections from formations shallower than Mississippi Limestone Zone, Hansford County, Tex.

G-10031; The Sharples Oil Corporation, et al.; various undivided interests in certain Sections from formations shallower than Mississippi Limestone Zone, Hansford North Field, Hansford County, Tex.

G-10111; The Shamrock Oil and Gas Corporation; undivided 25 percent interest in 640-acre Beck Gas Unit No. 1 and undivided 37.5 percent interest in 640-acre Steele No. 1, from formations shallower than Mississippi Limestone Zone, Hansford County, Tex.

G-10114; J. M. Huber Corporation; certain interests in two units, sections 82 and 78, Hansford County, Tex.

Northern Natural Gas Company (Northern), a Delaware corporation with principal office at 2223 Dodge Street, Omaha, Nebraska, filed, on February 24, 1956, in Docket No. G-9994, an application for a certificate of public convenience and necessity, pursuant to section 7 (c) of the Natural Gas Act, authorizing Northern to construct and operate as an integral part of its existing natural gas system, certain natural gas facilities as hereinafter described, which are necessary to the transportation and sale of natural gas in interstate commerce, for the purpose of taking natural gas from Baker & Taylor, Sharples et al., Shamrock and Huber in the North Hansford Area, Hansford County, Texas.

The facilities proposed to be constructed and operated by Northern consist of approximately 12.7 miles of 10-inch supply lateral pipeline extending in a southeasterly direction from a point in Section 90, Block 4T, T. & N. O. R. R. Co. Survey, Hansford County, Texas, to a point of interconnection with Northern's existing transmission system in Section 24, Block R, B. & B. Survey, Ochiltree County, Texas.

The estimated total cost of the proposed lateral is $237,000 which will be financed from current funds.

These related matters should be heard on a consolidated record and disposed of as promptly as possible under the applicable rules and regulations and to that end:

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing will be held on Thursday, July 5, 1956 at 9:30 a. m., e. d. s. t., in a hearing room of the Federal Power Commission, 441 G Street NW., Washington, D. C., concerning the matters involved in and the issues presented by such applications: *Provided, however,* That the Commission may, after a non-contested hearing, dispose of the proceedings pursuant to the provisions of § 1.30 (c) (1) or (2) of the Commission's rules of practice and procedure. Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicants to appear or be represented at the hearing.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before June 25, 1956. Failure of any party to appear at and participate in the hearing shall be construed as waiver of and concurrence in omission herein of the intermediate decision procedure in cases where a request therefor is made.

[SEAL] LEON M. FUQUAY,
*Secretary.*

[F. R. Doc. 56-4612; Filed, June 11, 1956; 8:48 a. m.]

[Project No. 2177]

GEORGIA POWER CO.

NOTICE OF APPLICATION FOR LICENSE

JUNE 5, 1956.

Public notice is hereby given that the Georgia Power Company, of Atlanta, Georgia, has filed application under the Federal Power Act (16 U. S. C. 791a-825r) for license for proposed water-power Project No. 2177, to be located on the Chattahoochee River in Muscogee and Harris Counties, Georgia, and Lee and Russell Counties, Alabama, near the towns of Columbus, Georgia, and Phenix City, Alabama, and to consist of three developments: (1) the constructed Goat Rock Development consisting of a concrete gravity dam comprised of an overflow spillway section surmounted with 4-foot flashboards, a powerhouse intake section and two non-overflow sections; a reservoir about 6 miles long, extending to Bartletts Ferry dam, with an area of 1,400 feet acres at a normal pool elevation of 404 feet and about 5,000 acre-feet of usable storage; a powerhouse, integral with the dam containing six horizontal turbines (two rated at 8,000 horsepower each, two at 4,800 horsepower each, and two at 7,000 horsepower) which are connected to four 5,000-kilowatt and two 3,000-kilowatt generators; a substation; and appurtenant mechanical and electrical equipment; (2) the proposed Oliver Development consisting of a concrete gravity dam comprised of a gated spillway section, a powerhouse intake section and two non-overflow sections; a reservoir extending about 8½ miles to the Goat Rock dam, with an area of 2,400 acres at the top of the power pool, elevation 337 feet and about 7,000 acre-feet of usable storage; an outdoor powerhouse, integral with the dam containing three 25,400 horsepower turbines and one 8,500 horsepower turbine connected to three 18,000-kilowatt generators and one 6,000-kilowatt generator; a substation; and appurtenant mechanical and electrical equipment; and (3) the constructed North Highlands Development consisting of a concrete gravity dam comprised of an ungated spillway section, a non-overflow section, and an intake-abutment section; a reservoir about 1.2 miles long, extending to the Oliver dam, with an area of 200 acres at the top of the power pool at elevation 266.4 feet; a powerhouse containing six horizontal turbines (three 1,600 horsepower, two 1,350 horsepower, and one 2,260 horsepower) connected to five 1,080-kilowatt and one 1,500-kilowatt generators; a substation; and appurtenant mechanical and electrical equipment.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure of the Commission (18 CFR 1.8 or 1.10). The last date upon which protests or petitions may be filed is July 16, 1956. The application is on file with the Commission for public inspection.

[SEAL] LEON M. FUQUAY,
*Secretary.*

[F. R. Doc. 56-4613; Filed, June 11, 1956; 8:48 a. m.]

[Docket No. G-10501]

SUPERIOR OIL CO.

ORDER INSTITUTING INVESTIGATION

Superior Oil Company (Respondent) is an independent producer of natural gas and a "natural-gas company" within the meaning of the Natural Gas Act, being engaged in the sale and delivery of natural gas in interstate commerce for resale for ultimate public consumption.

Respondent is one of several independent producers under contract to supply natural gas to the American Louisiana Pipe Line Company (American Louisiana). The latter's interstate natural gas pipeline project was authorized by the Commission by order issued October 1, 1954, accompanying Opinion No. 276, In the Matters of American Louisiana Pipe Line Company, et al. Certificates of public convenience and necessity covering the projected sales to American Louisiana were issued to Respondent and others by order issued May 9, 1955, in Docket Nos. G-6067 et al. Respondent's FPC Gas Rate Schedule No. 7 covers its sales to American Louisiana in question, and specifies a price of 21 cents per Mcf, with estimated annual revenues amounting to approximately $9,500,000 a year. This price is among the highest known to the Commission.

In addition to the sales of natural gas hereinbefore specifically referred to, it appears from the Commission's files that the Respondent is also engaged in making other sales of natural gas in interstate commerce, subject to the jurisdiction of the Commission.

It further appears that, upon the basis of data available to the Commission, the rates, charges, and classifications for or in connection with the sale or transportation of natural gas by Respondent herein, subject to the jurisdiction of the Commission, and the rules, regulations, practices, and contracts relating thereto may be unjust, unreasonable, unduly discriminatory, or preferential.

The Commission finds: It is necessary and proper in the public interest and to aid in the enforcement of the provisions of the natural Gas Act that an investigation be instituted by the Commission, upon its own motion, into and concerning all rates, charges or classifications demanded, observed, charged or collected by the Respondent in connection with any transportation or sale of natural gas, subject to the jurisdiction of the Commission, and any rules, regulations, practices or contracts affecting such rates, charges or classifications.

The Commission orders:

(A) An investigation of Respondent, Superior Oil Company, be and is hereby instituted under the provisions of the Natural Gas Act for the purpose of enabling the Commission to determine whether, with respect to any transportation or sale of natural gas, subject to the jurisdiction of the Commission, made or proposed to be made by Respondent, any of the rates, charges or classifications demanded, observed, charged, or collected, or any rules, regulations, practices or contracts affecting such rates, charges or classifications are unjust, unreasonable, unduly discriminatory or preferential.

(B) If the Commission, after a hearing has been had, shall find with respect to Respondent, that any of its rates, charges, classifications, rules, regulations, practices, or contracts subject to the jurisdiction of the Commission, are unjust, unreasonable, unduly discriminatory, or preferential, the Commission shall thereupon determine and fix by order or orders just and reasonable rates, charges, classifications, rules, regulations, practices or contracts to be thereafter observed and in force.

(C) Pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by the Natural Gas Act, particularly sections 5, 14, 15 and 16 thereof, and the Commission's rules of practice and procedure, a public hearing be held upon a date to be fixed by further order of the Commission concerning the matters specified in Paragraphs (A) and (B) above.

(D) Interested State commissions may participate as provided by §§ 1.8 and 1.37 (f) (18 CFR 1.8 and 1.37 (f)) of the Commission's rules of practice and procedure.

Issued: June 4, 1956.

By the Commission.

[SEAL] LEON M. FUQUAY,
*Secretary.*

[F. R. Doc. 56-4543; Filed, June 8, 1956; 8:48 a. m.]

## SECURITIES AND EXCHANGE COMMISSION

[File No. 24D-1342]

BIG INDIAN URANIUM CORP.

ORDER TEMPORARILY SUSPENDING EXEMPTION, STATEMENT OF REASONS THEREFOR, AND NOTICE OF OPPORTUNITY FOR HEARING

JUNE 6, 1956.

I. Big Indian Uranium Corporation, a Utah corporation, 169 North University Avenue, P. O. Box 111, Provo, Utah, having filed with the Commission on July 15, 1954, a notification on Form 1-A relating to an offering of 500,000 shares of 10 cents par value common stock at 25 cents per share for an aggregate of $125,000, for the purpose of obtaining an exemption from the registration requirements of the Securities Act of 1933, as amended, pursuant to the provisions of section 3 (b) thereof and Regulation A promulgated thereunder; and

II. The Commission having reasonable cause to believe that the terms and conditions of Regulation A have not been complied with in that:

1. The company has failed to file on Form 2-A reports of sales as required by Rule 224 under Regulation A and has ignored requests by the Commission's staff for such reports.

2. The notification and offering circular contain an untrue statement of a material fact in stating that Weber Investment Company, 2341 Kiesel Avenue, Ogden, Utah, is the underwriter of the securities being offered and fail to state material facts necessary in order to make the statement made, in the light of the circumstances under which it is made, not misleading, in not disclosing that Weber Investment Company withdrew its registration as a broker-dealer with this Commission in November 1955, and indicated that it was in the process of liquidation.

III. *It is ordered,* Pursuant to Rule 223 (a) of the general rules and regulations under the Securities Act of 1933, as amended, that the exemption under Regulation A be, and it hereby is, temporarily suspended.

Notice is hereby given that any person having any interest in the matter may file with the Secretary of the Commission a written request for a hearing; that, within 20 days after receipt of such request, the Commission will, or at any time upon its own motion may, set the matter down for hearing at a place to be designated by the Commission for the purpose of determining whether this order of suspension should be vacated or made permanent, without prejudice, however, to the consideration and presentation of additional matters at the hearing; and that notice of the time and place for said hearing will be promptly given by the Commission.

*It is further ordered,* That this Order and Notice shall be served upon Big Indian Uranium Corporation, 169 North University Avenue, P. O. Box 111, Provo, Utah, and Box 77, Provo, Utah, personally or by registered mail or by confirmed

telegraphic notice, and shall be published in the FEDERAL REGISTER.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

[F. R. Doc. 56-4616; Filed, June 11, 1956; 8:48 a. m.]

[File No. 24D-2061]

REPUBLIC GAS AND URANIUM CORP.

ORDER TEMPORARILY SUSPENDING EXEMPTION, STATEMENT OF REASONS THEREFOR, AND NOTICE OF OPPORTUNITY FOR HEARING

MAY 6, 1956.

I. Republic Gas and Uranium Corporation, 533 Mercantile Bank Building, Dallas, Texas, for Robert A. Howard, as selling stockholder, having filed with the Commission on April 23, 1956, a notification on Form 1-A and a Rule 219 (b) statement as an exhibit thereto relating to an offering of between 200,000 to 300,000 shares of the stock at a price between 16⅔ cents to 25 cents per share for a total price of $50,000 for the purpose of obtaining an exemption from the registration requirements of the Securities Act of 1933, as amended, pursuant to the provisions of section 3 (b) thereof and Regulation A promulgated thereunder; and

II. The Commission having reasonable cause to believe that the terms and conditions of Regulation A have not been complied with in that:

A. Securities were offered for sale prior to the expiration of the 10 day waiting period provided by Rule 218;

B. The issuer failed to file for use an offering circular as required by Rule 219 (a) in that the aggregate offering price of all securities offered exceed the sum of $50,000;

C. The notification and statement filed pursuant to Rule 219 (b) contain untrue statements of material facts and omit to state material facts necessary in order to make the statements made in the light of the circumstances under which they were made not misleading, particularly, in that: Item 3 of the notification fails to disclose that offers of unregistered securities, represented therein to be held for investment, were made by Howard at prices lower than those to be offered under the notification and that sales of 45,667 shares were made by Howard at 15 cents per share, within one year prior to the date of filing in violation of section 5;

D. Oral representations have been made by Howard in connection with said offering which contained untrue statements of material facts and omitted to state material facts necessary in order to make the statements made, in the light of the circumstances under which they were made, not misleading, particularly, that the stock of Republic Gas and Uranium Corporation would within the next few weeks, either be listed on the New York Stock Exchange at 30 cents per share, or there would be a New York market for the stock at 30 cents per share; and

E. That the offering would and did operate as a fraud or deceit upon the purchasers.

III. *It is ordered,* Pursuant to Rule 223 (a) of the general rules and regulations under the Securities Act of 1933 that the exemption under Regulation A, be and it hereby is, temporarily suspended.

Notice is hereby given, that any person having any interest in the matter may file with the Secretary of the Commission a written request for a hearing; that, within twenty days after receipt of such request, the Commission will, or at any time upon its own motion may, set the matter down for hearing at a place to be designated by the Commission for the purpose of determining whether this order of suspension should be vacated or made permanent, without prejudice, however, to the consideration and presentation of additional matters at the hearing; and that notice of the time and place of said hearing will be promptly given by the Commission.

*It is further ordered,* That this Order and Notice shall be served upon Republic Gas and Uranium Corporation, 533 Mercantile Bank Building, Dallas, Texas, and Robert A. Howard, P. O. Box 231, Scottsdale, Arizona, personally or by registered mail or confirmed telegraphic notice, and shall be published in the FEDERAL REGISTER.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

## SMALL BUSINESS ADMINISTRATION

[Declaration of Disaster Area 104]

INDIANA

DECLARATION OF DISASTER AREA

Whereas it has been reported that on or about May 26, 1956, because of the disastrous effects of heavy rains and floods, damage resulted to residences and business property located in certain areas in the State of Indiana;

Whereas the Small Business Administration has investigated and has received other reports of investigations of conditions in the areas affected; and

Whereas after reading and evaluating reports of such conditions, I find that the conditions in such areas constitute a catastrophe within the purview of the Small Business Act of 1953, as amended:

Now, therefore, as Administrator of the Small Business Administration, I hereby determine that:

1. Applications for disaster loans under the provisions of section 207(b)(1) of the Small Business Act of 1953, as amended, may be received and considered by the Office below indicated from persons or firms whose property situated in Marion County (including any areas adjacent to said county) suffered damage or other destruction as a result of the catastrophe above referred to:

Small Business Administration Regional Office, 226 West Jackson Boulevard, Room 1402, Chicago 6, Illinois.

Small Business Administration Branch Office, Federal Building, Room 505, Indianapolis, Indiana.

2. No special field office will be established at this time.

3. Applications for disaster loans under the authority of this declaration will not be accepted subsequent to December 31, 1956.

Dated: June 1, 1956.

WENDELL B. BARNES, *Administrator.*

## INTERSTATE COMMERCE COMMISSION

FOURTH SECTION APPLICATIONS FOR RELIEF

JUNE 7, 1956.

Protests to the granting of an application must be prepared in accordance with Rule 40 of the General Rules of Practice (49 CFR 1.40) and filed within 15 days from the date of publication of this notice in the FEDERAL REGISTER.

LONG-AND-SHORT HAUL

FSA No. 32188: *Volcanic ash, scoria or slag—Colorado to Southwest.* Filed by F. C. Kratzmeir, Agent, for interested rail carriers. Rates on volcanic ash, scoria or slag, crude or crushed, carloads from Antonito, Crater and Mesita, Colo., to points in Arkansas, Louisiana, Missouri, New Mexico, Oklahoma, and Texas.

Grounds for relief: Short-line distance formula and circuitous routes.

Tariff: Supplement 133 to Agent Kratzmeir's I. C. C. 4046.

FSA No. 32189: *Grains—Nebraska to Colorado and Wyoming.* Filed by The Chicago,, Burlington & Quincy Railroad Company, for itself and interested rail carriers. Rates on corn, whole, and sorghum grains, whole, broken, chopped, cracked, crushed or ground, carloads from Roseland, Holstein, Norman, South Minden, Keene, Wilcox, Ragan, Huntley, Bladen, Campbell, Upland and Hildreth, Nebr., to specified stations in Colorado on applicant's lines, and to Carpenter, Arcola, Campstool, Altvan and Cheyenne, Wyo., on the Burlington.

Grounds for relief: Short-line distance scale formula.

Tariff: Supplement 65 to Chicago, Burlington & Quincy RR I. C. C. 20259.

FSA No. 32190: *Substituted service—motor-rail-motor—Pennsylvania Railroad Company.* Filed by Central States Motor Freight Bureau, Inc., for interested motor carriers and the Pennsylvania Railroad Company. Rates on various commodities loaded in or on highway trailers and transported on railroad flat cars between Chicago and East St. Louis, Ill., and Indianapolis, Ind., on one hand, and Pittsburgh, Pa., on the other.

Grounds for relief: Motor truck competition.

By the Commission.

THE NATIONAL ARCHIVES 1934 OF THE UNITED STATES

UNIVERSITY OF MICHIGAN JUN 20 1956 MAIN READING ROOM

## TITLE 3—THE PRESIDENT

### PROCLAMATION 3138

REVISING THE BOUNDARIES OF GREAT SAND DUNES NATIONAL MONUMENT, COLORADO

BY THE PRESIDENT OF THE UNITED STATES OF AMERICA

A PROCLAMATION

WHEREAS the Great Sand Dunes National Monument in the State of Colorado was established by Proclamation No. 1994 of March 17, 1932 (47 Stat. 2506), as modified by Proclamation No. 2681 of March 12, 1946, for the preservation of the great sand dunes and additional features of scenic, scientific, and educational interests; and

WHEREAS it appears that retention of certain lands within the monument is no longer necessary for such purpose; and

WHEREAS it appears that it would be in the public interest to exclude such lands from the monument; and

WHEREAS certain lands now a part of the Rio Grande National Forest are better suited for national-monument purposes than for national-forest purposes and should be excluded from such forest, and these lands and certain other land adjoining the monument are required for the proper care, management, and protection of the objects of scenic, scientific, and educational interest situated on lands within the monument; and

WHEREAS it appears that it would be in the public interest to reserve such lands as an addition to the monument:

NOW, THEREFORE, I, DWIGHT D. EISENHOWER, President of the United States of America, under and by virtue of the authority vested in me by section 2 of the act of June 8, 1906, 34 Stat. 225 (16 U. S. C. 431), and the act of June 4, 1897, 30 Stat. 34, 36 (16 U. S. C. 473), do proclaim as follows:

1. The following-described lands in the State of Colorado are hereby excluded from the Great Sand Dunes National Monument:

NEW MEXICO PRINCIPAL MERIDIAN

T. 41 N., R. 12 E.,
Sec. 22, SW¼;
Sec. 26, all;
Sec. 27, all;
Sec. 34, all;
Sec. 35, all.

T. 40 N., R. 12 E.,
Sec. 2, all;
Sec. 11, NE¼;
Sec. 12, SW¼;
Sec. 13, W½;
Sec. 24, all;
Sec. 25, all.

Fractional T. 40 N., R. 13 E.,
Sec. 19, all;
Sec. 30, all;
Sec. 31, all.

SIXTH PRINCIPAL MERIDIAN

T. 27 S., R. 73 W.,
Sec. 15, SE¼SW¼, S½SE¼;
Sec. 19, all;
Sec. 20, all;
Sec. 21, all;
Sec. 22, all.

The public lands hereby excluded from the monument shall not be subject to application, location, settlement, entry, or other forms of appropriation under the public-land laws until further order of an authorized officer of the Department of the Interior.

2. Subject to valid existing rights, the following-described lands in the State of Colorado are hereby reserved as and made a part of the Great Sand Dunes National Monument, and so much thereof as is now within the Rio Grande National Forest is hereby excluded therefrom and the boundaries of the said National Forest are modified accordingly:

SIXTH PRINCIPAL MERIDIAN

T. 26 S., R. 73 W.,
Sec. 2, all.
T. 27 S., R. 73 W.,
Sec. 2, W½.

Warning is hereby expressly given to all unauthorized persons not to appropriate, injure, destroy, or remove any feature of this monument and not to locate or settle upon any of the lands thereof.

IN WITNESS WHEREOF, I have hereunto set my hand and caused the Seal of the United States to be affixed.

DONE at the City of Washington this seventh day of June in the year of our Lord nineteen hundred and [SEAL] fifty-six, and of the Independence of the United States of America the one hundred and eightieth.

DWIGHT D. EISENHOWER

By the President:

JOHN FOSTER DULLES, *Secretary of State.*

## PROCLAMATION 3139

DETERMINING PIPERIDYL METHADONE AND FIVE OTHER DRUGS TO BE OPIATES

BY THE PRESIDENT OF THE UNITED STATES OF AMERICA

A PROCLAMATION

WHEREAS section 4731 (g) of the Internal Revenue Code of 1954 provides in part as follows:

*Opiate.* The word "opiate", as used in this part shall mean any drug (as defined in the Federal Food, Drug, and Cosmetic Act; 52 Stat. 1041, section 201 (g); 21 U. S. C. 321) found by the Secretary or his delegate, after due notice and opportunity for public hearing, to have an addiction-forming or addiction-sustaining liability similar to morphine or cocaine, and proclaimed by the President to have been so found by the Secretary or his delegate. • • •;

AND WHEREAS the Secretary of the Treasury, after due notice and opportunity for public hearing, has found that each of the following-named drugs has an addiction-forming or addiction-sustaining liability similar to morphine, and that in the public interest this finding should be effective immediately:

(1) 4,4-diphenyl-6-piperidino-3-heptanone (piperidyl methadone).
(2) Isopropyl 1-methyl-4-phenylpiperidine-4-carboxylate.
(3) 3-diethylamino-1,1-di(2-thienyl)-1-butene (diethylthiambutene).
(4) 1,3-dimethyl-4-phenyl-4-propionoxyhexamethyleneimine.
(5) Ethyl 2,2-diphenyl-4-morpholinobutyrate.
(6) Ethyl 1-[2-(p-aminophenyl)-ethyl]-4-phenylpiperidine-4-carboxylate.

NOW, THEREFORE, I, DWIGHT D. EISENHOWER, President of the United States of America, do hereby proclaim that the Secretary of the Treasury has found that each of the aforementioned drugs has an addiction-forming or addiction-sustaining liability similar to morphine and that in the public interest this finding should be effective immediately.

IN WITNESS WHEREOF, I have hereunto set my hand and caused the Seal of the United States to be affixed.

DONE at the City of Washington this seventh day of June in the year of our Lord nineteen hundred and [SEAL] fifty-six, and of the Independence of the United States of America the one hundred and eightieth.

DWIGHT D. EISENHOWER

By the President:

JOHN FOSTER DULLES,
*Secretary of State.*

# RULES AND REGULATIONS

## TITLE 6—AGRICULTURAL CREDIT

### Chapter IV—Commodity Stabilization Service and Commodity Credit Corporation, Department of Agriculture

**Subchapter B—Loans, Purchases, and Other Operations**

[1954 C. C. C. Grain Price Support Bulletin 1, Supp. 4, Corn]

PART 421—GRAINS AND RELATED COMMODITIES

SUBPART—1954-CROP CORN EXTENDED RESEAL LOAN PROGRAM

An extended reseal loan program has been announced for 1954-crop corn. The 1954 C. C. C. Grain Price Support Bulletin 1 (19 F. R. 967, 1595, and 6901), issued by the Commodity Credit Corporation and containing the general requirements with respect to price support operations for grains and related commodities produced in 1954, supplemented by Supplements 1, 2 and 3, Corn (19 F. R. 3365, 6902, 7155, 20 F. R. 411, 3815, and 7483), containing the specific requirements for the 1954-crop corn price support program, is hereby further supplemented as follows:

Sec.
421.739 Applicable sections of 1954 CCC Grain Price Support Bulletin 1, and Supplements 1, 2 and 3, Corn.
421.740 Availability.
421.741 Eligible corn.
421.742 Approved storage.
421.743 Approved forms.
421.744 Quantity eligible for extended reseal.
421.745 Service charges.
421.746 Set-offs.
421.747 Storage and track-loading payments.
421.748 Maturity and satisfaction.
421.749 Support rates.

AUTHORITY: §§ 421.739 to 421.749 issued under sec. 4, 62 Stat. 1070, as amended; 15 U. S. C. 714b. Interpret or apply sec. 5, 62 Stat. 1072, secs. 101, 401, 63 Stat. 1051; 15 U. S. C. 714c, 7 U. S. C. 1441, 1421.

§ 421.739 *Applicable sections of 1954 CCC Grain Price Support Bulletin 1, and Supplements 1, 2 and 3, Corn.* The following sections of the 1954 CCC Grain Price Support Bulletin 1, as amended, and Supplements 1, 2 and 3, Corn as amended, published in 19 F. R. 967, 1595, 3365, 6901, 6902, 7155, and 20 F. R. 411, 3815 and 7483, shall be applicable to the 1954 Corn Extended Reseal Loan Program: § 421.401 *Administration;* § 421.405 *Approved lending agencies;* § 421.408 *Liens;* § 421.411 *Interest rate;* § 421.413 *Safeguarding the commodity;* § 421.414 *Insurance on farm-storage loans;* § 421.415 *Loss or damage to the commodity;* § 421.416 *Personal liability of the Producer;* § 421.417 *Release of the commodity under loan;* § 421.419 *Foreclosure;* § 421.420 *Purchase of notes;* § 421.488 *Determination of quantity;* § 421.734 *Transfer of producer's equity.* Other sections of the 1954 C. C. C. Grain Price Support Bulletin 1, as amended, and Supplements 1, 2 and 3, Corn, as amended, shall be applicable to the extent indicated in this subpart.

§ 421.740 *Availability*—(a) *Area and scope.* The extended reseal program will be available in all counties where 1954-crop corn is under reseal loan except in angoumois moth areas designated by the State ASC committee: *Provided, however,* That the program will be available only where the ASC State committee determines that there may be a shortage of storage space and that the corn can be safely stored on the farm for the period of the extended reseal loan. This program provides, under certain circumstances, for the extension of 1954-crop corn farm-storage reseal loans. Neither warehouse-storage loans nor purchase agreements will be available to producers under this program.

(b) *Time and source.* The producer who has a reseal loan and who desires to extend such loan must make application to the office of the county committee which approved his reseal loan before the final date for delivery specified in the delivery instructions issued to him by the office of the county committee.

§ 421.741 *Eligible corn*—(a) *Requirements of eligibility.* The corn (1) must be in farm storage presently under a reseal loan; (2) must meet the requirements set forth in § 421.486 (a), (b), (c), and (f) of 1954 C. C. C. Grain Price Support Bulletin 1, Supplement 1, Corn; (3) must grade No. 3 or better, or No. 4 on the factor of test weight only, but otherwise No. 3 or better, and must contain not in excess of 15.5 percent moisture in the case of ear corn nor in excess of 13.5 percent moisture in the case of shelled corn; and (4) must, in addition, meet the sanitation requirements set forth in paragraph (b) of this section.

(b) *Sanitation requirements.* The corn (1) must be of a quality which meets the sanitation requirements, if any, of the Federal Food and Drug Administration in effect at the time the loan is made or extended, and (2) must not contain mercurial compounds or other substances poisonous to man or animals.

(c) *Inspection.* If a producer makes application to extend his reseal loan, the commodity loan inspector shall, with the producer, reinspect the corn and the farm-storage structure in which the corn is stored. If recommended by either the commodity loan inspector or the producer, a sample of the corn shall be taken and submitted for grade analysis.

(d) *Determination of quality.* Quality determinations shall be made as set forth in § 421.489: *Provided,* That determinations, if any, with respect to sanitation requirements specified in paragraph (b) of this section shall be made in accordance with instructions issued by CCC.

§ 421.742 *Approved storage.* Corn covered by any extended reseal loans must be stored in structures which meet the requirements for farm-storage loans as provided in § 421.406 (a). Consent for storage for any loans extended must be obtained by the producer for the period ending September 30, 1957, if the structure is owned or controlled by someone other than the producer, or if the lease expires prior to September 30, 1957.

§ 421.743 *Approved forms.* (a) The approved forms, which together with the provisions of this subpart govern the rights and responsibilities of the producer, shall consist of a Producer's Note and Supplemental Loan Agreement, Commodity Loan Form A, secured by a Commodity Chattel Mortgage on Commodity Loan Form AA, and such other forms and documents as may be prescribed by CCC. Notes and chattel mortgages must have State and documentary revenue stamps affixed thereto where required by law. Loan documents executed by an administrator, executor or trustee will be acceptable only where legally valid.

(b) Where required by State Law, a new producer's note and chattel mortgage shall be completed when a reseal loan is extended.

§ 421.744 *Quantity eligible for extended reseal.* The quantity of corn eligible for an extended reseal loan will be the quantity shown on the original note and chattel mortgage, less any quantity delivered or redeemed.

§ 421.745 *Service charges.* When a reseal loan is extended, the producer will

not be required to pay an additional service charge.

§ 421.746 *Set-offs.* If the producer is indebted to CCC on any accrued obligation, or if any installment or installments on any loan made available by CCC on farm-storage facilities or mobile drying equipment are delinquent, or are payable under the provisions of the note evidencing such loan out of the proceeds of the price support loan, he must designate CCC or the lending agency holding such note as the payee of the proceeds of the price support loan to the extent of such indebtedness or installments, but not to exceed that portion of the proceeds remaining after deduction of loan service charges and amounts due prior lienholders. If the producer is indebted to any other agency of the United States and such indebtedness is listed on the county debt register, he must designate such agency as the payee of the proceeds as provided in this section. Indebtedness owing to CCC or to a lending agency as provided in this section shall be given first consideration after claims of prior lienholders. Where the producer has an outstanding loan(s) made under the Farm Storage Facility Loan Program, or the Mobile Drying Equipment Loan Program, any storage payment due the producer for storage of the corn in farm-storage structures shall be applied (a) to any delinquent amount(s), (b) to the borrower's storage facility loan installment or mobile drying equipment loan installment which is due and payable when the storage payment is due and (c) to any extended installment(s), each including interest. Any amount of such storage payment not so applied, together with all other payments for services due the producer, shall be subject to set-off in the same manner as provided in this section for loan proceeds. Compliance with the provisions of this section shall not constitute a waiver of any right of the producer to contest the justness of the indebtedness involved either by administrative appeal or by legal action.

§ 421.747 *Storage and track-loading payments*—(a) *Storage payment for 1955–56 storage period.* (1) A producer who extends his farm-storage reseal loan will at the time of extension of the reseal loan receive a payment for earned storage during the reseal loan period. This payment will be computed at the rate of 15 cents per bushel on the quantity of corn held in farm storage for the full reseal period, ending July 31, 1956. The reseal storage payment will be disbursed to the producer by the office of the ASC county committee.

(2) Upon delivery of the 1954-crop corn to CCC, the actual quantity of corn held in farm storage under the extended reseal loan program will be determined by weighing. The storage payment previously made to the producer at the time the reseal loan was extended, covering the 1955–56 storage period, will then be recomputed on the basis of the actual quantity determined to have been covered by the extended reseal loan. Any amount due the producer for such storage on the quantity delivered in excess of the quantity stated in the extended reseal loan documents will be regarded as an additional credit in effecting settlement with the producer. The amount of any overpayment which is determined to have been made to the producer at the time the reseal loan was extended shall be collected from the producer.

(b) *Storage payment for 1956–57 storage period.* A storage payment for the 1956–57 extended reseal storage period will be made as follows:

(1) *Storage payment for full reseal period.* A storage payment computed at the rate of 16 cents per bushel will be made to the producer on the quantity involved if he (i) redeems corn from the loan on or after July 31, 1957, (ii) delivers corn to CCC on or after July 31, 1957, or (iii) delivers corn to CCC prior to July 31, 1957, pursuant to demand by CCC for repayment of the loan solely for the convenience of CCC, if the corn was not damaged or otherwise impaired.

(2) *Prorated storage payment.* A prorated storage payment computed at the rate of 0.00053 per bushel a day, but not to exceed 16 cents per bushel, according to the length of time the quantity of corn was in store after September 30, 1956, will be made to the producer (i) in the case of loss assumed by CCC under the provisions of the loan program, (ii) in the case of corn redeemed from the loan prior to July 31, 1957, and (iii) in the case of corn delivered to CCC prior to July 31, 1957, pursuant to CCC's demand and not solely for the convenience of CCC, or upon request of the producer and with the approval of CCC: *Provided, however,* That no storage payment will be made with respect to corn so delivered which is damaged or otherwise impaired due to negligence on the part of the producer. In the case of losses assumed by CCC, the period for computing the storage payment shall end on the date of the loss; and in the case of redemptions, on the date of repayment.

(3) In no case will any storage payment be made where the producer has made any false representation in the loan documents or in obtaining the loan, or where the commodity has been abandoned, or where there has been conversion on the part of the producer.

(c) *Track-loading payment.* A track-loading payment of 3 cents per bushel will be made to the producer on corn delivered to CCC, in accordance with instructions of the county committee, on track at a country point.
